The Environment and Heritage Service of the Department of the Environment is investigating a small number of isolated incidents of illegal dumping of asbestos. It is difficult to quantify how prevalent this problem is as the activity is clandestine and disposal locations are not obvious. However, at present illegal disposal of asbestos on a commercial scale does not appear to be a serious problem in Northern Ireland.

### Assets Recovery Agency

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the total monetary value of

property and processions confiscated by the Asset Recovery Agency has been in each year since the agency was created. [11714]

**Mr. Woodward:** The information requested is set out in the following table:

£ million

| | Assets frozen | Assets recovered | Receipts |
|---|---|---|---|
| *2003–04* | | | |
| England and Wales | 17.9 | None | 0.002 |
| Northern Ireland | 3.1 | First full year of operation | — |
| Total | 21 | — | 0.002 |
| *2004–05* | | | |
| England and Wales | 13.1 | 4.1 | 3.9 |
| Northern Ireland | 3.7 | 1.4 | 0.7 |
| Total | 16.8 | 5.5 | 4.6 |

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many people are working for the Assets Recovery Agency. [11716]

**Mr. Woodward:** At 8 July 2005, the Assets Recovery Agency is made up of 189 members of staff, of which 47 are based in Belfast.

### Audiology Goods and Services

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what assessment he has made of the reasons why expenditure per head of population in Northern Ireland on audiology goods and services is significantly less than in other parts of the United Kingdom. [12079]

**Mr. Woodward:** The Department does not hold any information on the comparison of spend per head of population on audiology services between the population of Northern Ireland and the rest of the United Kingdom.

### Business Insurance

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what representations he has received from the private sector in Northern Ireland on the level of insurance premiums for businesses operating in Northern Ireland; what response he has made; and if he will make a statement. [11622]

**Angela E. Smith:** Insurance is a reserved matter. However, the issue of the level of insurance premiums for businesses in Northern Ireland has been raised regularly with the Department of Enterprise Trade and Investment by a variety of private sector interests over the past few years. A working group made up of representatives from DETI, the business sector and the insurance industry, has closely monitored the on-going situation and a guide offering practical advice to businesses on purchasing insurance cover has been widely distributed.

DETI has also introduced an annual insurance survey. The results of the last survey revealed an improving picture as a result of a general softening in the market. The survey results are available on the DETI website www.detini.gov.uk.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what estimate he has made of the annual change in insurance premiums for small and medium sized businesses in Northern Ireland in each year since 1997. [11623]

**Angela E. Smith:** The Department of Enterprise, Trade and Investment (DETI) has carried out an annual survey of Business Insurance Premiums for the period 2000–04. The estimated annual percentage change in the average (median) value of insurance premiums for small and medium sized businesses in Northern Ireland was +12.6 per cent. in 2000–01, +38.9 per cent. in 2001–02, +25.7 per cent. in 2002–03 and -16.1 per cent. in 2003–04. Comparative figures prior to the commencement of the DETI surveys are not available.

### Children's Services

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what funding has been ring fenced for children's services in Northern Ireland. [11791]

**Mr. Woodward:** Children and families remain a priority for Government. As a result of the 2005–08 Budget settlement DHSSPS has ring fenced additional monies for children's residential care, foster care, children leaving care and child protection. Additional monies have also been made available for a number of children's fund executive programme fund schemes including regional adoption and leaving and aftercare.

In addition all projects funded under the current three-year children's fund cycle will receive their full allocation from existing children's fund monies. No resources have been specifically provided for 2005–08 to mainstream the services currently provided by existing children's fund projects when this funding cycle is complete.

DHSSPS also provides mainstream monies for Sure Start and the early years development fund. This is a programme of support for parents to be, parents and children aged under Sure Start projects are sited in areas with high levels of disadvantage. These projects are not aimed specifically at deprived families, but are available to all families within these targeted areas.

### Civil Servants (Transfers)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many civil servants have been transferred from the Northern Ireland Civil Service to civil service posts elsewhere outside the Northern Ireland Civil Service in each year since 2001. [9000]

**Angela E. Smith:** Northern Ireland Civil Service (NICS) staff are transferred to posts in the Home Civil Service (HCS) for a variety of reasons, such as inter-service transfers on compassionate terms, a transfer of functions from the NICS to the HCS or temporary secondments. The numbers are as follows:

| | Number |
|---|---|
| 2001 | 7 |
| 2002 | 8 |
| 2003 | 153 |
| 2004 | 2 |
| 2005 | 4 |

## Common Agricultural Policy

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland how many people within the Department for Agricultural and Rural Development are employed to administer common agricultural policy payments; and how many of these people are employed in *(a)* Dundonald House, *(b)* Orchard House and *(c)* each of the local county agricultural offices. [11120]

**Angela E. Smith:** The number of staff employed to administer common agricultural policy payments within the Department of Agriculture and Rural Development are outlined as follows:

| *Location* | *Number of staff* |
|---|---|
| *(a)* Dundonald House | 47 |
| (Magnet House) | [1]6 |
| *(b)* Orchard House | [2]167 |
| *(c)* County agricultural offices | |
| Antrim | 31 |
| Armagh | 15 |
| Down | 26 |
| Fermanagh | 17 |
| Londonderry | 25 |
| Tyrone | 29 |
| Total | 373 |

[1] Information technology.
[2] Including four IT staff.

## Crime Scene Arrests

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many incidents there have been where a suspect has been apprehended at the scene of a crime, excluding car crime, in each of the last three years. [11777]

**Mr. Woodward:** The information requested is not readily available and could be provided only at a disproportionate cost.

## Dementia

**Sammy Wilson:** To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of providing free care for dementia sufferers in the Province; and what estimate he has made of the likely cost. [12083]

**Mr. Woodward:** I refer the hon. Gentleman to the answer I gave on 20 June 2005, *Official Report*, column 859W.

## Early Support Programme

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will introduce the early support programme to Northern Ireland; and if he will make a statement. [11350]

**Mr. Woodward:** Currently there are no plans to introduce the early support programme to Northern Ireland.

## Electoral Register

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many people have been removed from the electoral register in error in each year since 2001; and what investigation took place in each case. [7825]

**Mr. Hanson:** This issue is an operational matter and is the responsibility of the Chief Electoral Officer who has written to the hon. Gentleman in the following terms:

"Such errors are rare. Electoral Office records show that electors wrongly removed from the register in each year were as follows:

| | *Number* |
|---|---|
| 2001 | 0 |
| 2002 | 0 |
| 2003 | 1 |
| 2004 | 0 |
| 2005 | [1]3 |

[1] To date

Where such an error occurred, the electors concerned were immediately re-instated on the register and the staff involved given further training to ensure that they understood how the mistake they had made took place. Procedures were also amended to make human error less likely. Letters of apology were also sent to the electors concerned, either directly or via their political representative where the matter was raised in that way".

## Grants

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how much money has been allocated out of the *(a)* Children's Fund, *(b)* Innovation/Modernisation Executive Programme Fund, *(c)* Infrastructure Executive Programme Fund, *(d)* New Directions Executive Programme Fund, *(e)* Service Modernisation Executive Programme Fund and *(f)* Social Inclusion/ Community Regeneration Executive Programme Fund to projects and programmes in North Belfast in each year since 2001. [11601]

**Angela E. Smith:** In excess of 300 projects and programmes, covering a wide range of geographical areas and activities, have been funded through Executive Programme Funds. Information regarding what element of funding allocated to these programmes or projects since 2001 relates to North Belfast could be obtained only at a disproportionate cost.

## Hearing-Impaired Children

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what plans are in place for the provision of early years support services for children newly identified with a hearing loss through the Northern Ireland newborn hearing screening programme. [11238]

**Mr. Woodward:** A multi-agency representative Regional Newborn Hearing Screening Implementation Steering Group has been established and three sub-groups have been convened: the Regional NHS Implementation Project Team, the Support Services Sub-Group and the Equipment Sub-Group. Area Implementation Groups have been established within each Health and Social Services Board.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what funding is available for the provision of early years support services for children newly identified with a hearing loss through the Northern Ireland newborn hearing screening programme. [11239]

**Mr. Woodward:** Funding for service provision for children identified with a hearing loss through the Northern Ireland newborn hearing screening programme is determined by each Health and Social Services Board in terms of the needs identified in this population and the priorities established for the use of their allocated funding.

### Illegal Dumping

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many Government staff are working directly to combat illegal dumping in Northern Ireland. [11655]

**Angela E. Smith:** At present, a total of 32 staff (of scientific and administrative grades) form a dedicated enforcement team within the Waste Management and Contaminated Land Unit of the Department of the Environment's Environment and Heritage Service.

The staff are involved in the range of duties directly associated with enforcement of legislation dealing with illegal waste management. These duties include carrying out investigations, preparing case files for submission to the Public Prosecution Service, and performing administrative work associated with managing case files, evidence and interview records.

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many people have been *(a)* questioned about, *(b)* charged with and *(c)* fined for illegal dumping in Northern Ireland of waste originating in the Republic of Ireland in each of the last five years. [11656]

**Angela E. Smith:** The Environment and Heritage Service (EHS) of the Department of the Environment gained responsibility for investigation of alleged offences of illegal disposal of waste on 27 November 2003. Since that date, some 44 individuals have been interviewed under caution in accordance with the Police and Criminal Evidence Order.

During this period, 15 individuals/companies have been summonsed in relation to alleged offences.

Also during this period, six people have been fined in connection with illegal deposit of waste believed to have originated in the Republic of Ireland.

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many incidents of illegal dumping there were in Northern Ireland for each of the last five years; and what action can be taken against the owners of land where illegal dumping takes place. [11708]

**Angela E. Smith:** The Environment and Heritage Service (EHS) of the Department of the Environment assumed responsibility on 27 November 2003 for legislation that creates offences for deposit of waste without a waste management licence.

Prior to that date, regulation of illegal waste disposal was the responsibility of district councils in Northern Ireland. Figures for such incidents prior to that date are not available.

Since that date, a total of 1,972 incidents of alleged illegal activity involving waste (covering a range of activities as well as disposal on unlicensed sites) were reported to EHS. Nine incidents were reported in the last month of 2003, 1,245 during 2004 and 718 during 2005 (to 30 June).

Of this total, 376 reports were substantiated to the extent that EHS instigated investigation with a view to prosecution.

Owners of land where illegal disposal has taken place are generally charged with offences under Article 4 of the Waste and Contaminated Land (NI) Order 1997. These relate to the deposit of controlled waste on land without a waste management licence being in force and also keeping waste in a manner likely to cause pollution of the environment or harm to human health.

The number and combination of offences varies with each case and each carries a maximum penalty in magistrates court of £20,000 and/or a maximum of six months imprisonment. On indictment there is potential for an unlimited fine and/or a maximum prison sentence of two years.

### Inward Investment

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what levels of inward investment have been made in each Northern Ireland constituency in the last five years. [11125]

**Angela E. Smith:** The following table shows inward investment supported by Invest Northern Ireland and its predecessor The Industrial Development Board in each of the last five years.

*Invest NI inward investment by parliamentary constituency 2000–01 to 2004–05*

| | *Total investment (£)* | | | | | |
|---|---|---|---|---|---|---|
| *Parliamentary constituency* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *Grand total* |
| Belfast East | 1,100,000 | 22,743,000 | 0 | 34,288,613 | 10,614,872 | 68,746,485 |
| Belfast North | 21,897,000 | 15,588,363 | 0 | 13,500,000 | 459,852 | 51,445,215 |
| Belfast South | 18,233,691 | 834,000 | 4,047,000 | 41,323,651 | 24,831,214 | 89,269,556 |
| Belfast West | 2,691,000 | 23,947,000 | 2,958,000 | 9,719,973 | 21,350,000 | 60,665,973 |
| East Antrim | 164,394,000 | 6,922,000 | 5,387,000 | 903,000 | 7,979,000 | 185,585,000 |
| East Londonderry | 34,011,000 | 0 | 0 | 1,131,070 | 10,000 | 35,152,070 |
| Fermanagh and South Tyrone | 693,500 | 12,444,640 | 7,884,615 | 3,943,360 | 3,799,500 | 28,765,615 |
| Foyle | 9,280,000 | 13,535,636 | 92,048,000 | 11,689,944 | 37,100,000 | 163,653,580 |
| Lagan Valley | 0 | 2,446,600 | 0 | 0 | 1,051,000 | 3,497,600 |
| Mid Ulster | 0 | 0 | 1,391,650 | 10,226 | 22,596,846 | 23,998,722 |
| Newry and Armagh | 5,000,000 | 0 | 914,028 | 0 | 0 | 5,914,028 |
| North Antrim | 2,506,000 | 10,000,000 | 0.0 | 14,441,000 | 6,500,000 | 33,447,000 |

*Invest NI inward investment by parliamentary constituency 2000–01 to 2004–05*

| | Total investment (£) | | | | | |
|---|---|---|---|---|---|---|
| *Parliamentary constituency* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *Grand total* |
| North Down | 0 | 263,000 | 1,575,000 | 1,185,000 | 5,332,000 | 8,355,000 |
| South Antrim | 0 | 66,345,000 | 505,000 | 26,155 | 14,339,760 | 81,215,915 |
| South Down | 0 | 11,794,659 | 0 | 0 | 0 | 11,794,659 |
| Strangford | 2,078,000 | 571,000 | 2,826,378 | 9,750 | 62,500 | 5,547,628 |
| Upper Bann | 1,529,200 | 16,273,760 | 37,854,122 | 12,832,757 | 35,978,370 | 104,468,209 |
| West Tyrone | 1,263,000 | 27,676,300 | 9,334,000 | 4,381,545 | 4,442,500 | 47,097,345 |
| Yet to be determined | 0 | 0 | 0 | 0 | 14,370,000 | 14,370,000 |
| Grand total | 264,676,391 | 231,384,958 | 166,724,793 | 149,386,044 | 210,817,414 | 1,022,989,600 |

*Notes:*
1. 2004–05 figures are provisional and may be subject to change.
2. Projects in the 'Yet To Be Determined' category have not yet agreed upon a final location.
3. 2000–01 and 2001–02 relate to IDB, 2002–03, 2003–04 and 2004–05 relate to Invest NI

### Irish Hare

**Mr. Drew:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 20 June 2005, *Official Report*, column 849W, on hare coursing, if he will delay a decision on any licence applications until he has assessed the results of the survey of the Irish hare population. [11532]

**Angela E. Smith:** Lord Rooker, the Minister with responsibility for this issue in Northern Ireland, will consider the population estimate of the Irish hare reported in the 2005 survey, along with data from other contemporary surveys, before making his decision on any licence application to net hares for the purpose of coursing.

### Junior Doctors

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will provide funding to assist junior doctors with unavoidable expenses they incur through their training. [11792]

**Mr. Woodward:** Funding is provided by the employer to assist junior doctors with travelling, subsistence and in some instances removal expenses throughout their training. Expenses that may be payable are set out in the "Terms and Conditions Handbook for Hospital Medication and Dental Staff and Doctors in Public Health Medicine and Community Health Service".

### MMR Vaccines

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many MMR vaccines were purchased by each health board in Northern Ireland in *(a)* 2003–04 and *(b)* 2004–05. [11673]

**Mr. Woodward:** The number of vaccines used in each Health and Social Services Board area in Northern Ireland in *(a)* 2003–04 and *(b)* 2004–05 were as set out in the following table. The vaccines are actually purchased by Health and Personal Social Services Trusts and for the purpose of this table have been allocated to the relevant board.

| *Health and Social Services Board* | *2003–04* | *2004–05* |
|---|---|---|
| Eastern | 17,859 | 57,477 |
| Northern | 11,977 | 29,081 |
| Southern | 11,160 | 22,044 |
| Western | 8,482 | 21,096 |

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many MMR vaccines the Department for Health has committed to purchasing solely for use in Northern Ireland for 2005. [11784]

**Mr. Woodward:** Northern Ireland participates in the National Contract for Childhood Vaccines. Contacts are awarded for MMR vaccines based on the anticipated requirements for the whole of the UK population. Northern Ireland draws MMR vaccines supplies from the UK central stockholding on a demand basis. Northern Ireland is not therefore committed to a defined volume of vaccine for 2005.

### NHS (Overseas Workers)

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland (1) how many individuals from overseas are working within the NHS in the Province, broken down by profession and nationality; [11772]

(2) how many individuals from sub-Saharan Africa are employed within the NHS, broken down by profession. [11794]

**Mr. Woodward:** Information is not available in the format requested.

### Police Complaints

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many complaints have been received by the Police Ombudsman in each year since the creation of the office. [11666]

**Mr. Woodward:** The figures the hon. Gentleman has requested are found on page 17 of the Annual Report and Statement of Accounts of the Police Ombudsman for Northern Ireland, April 2004 to March 2005, copies of which have been placed in the Library. It is also available on the Police Ombudsman website www.policeombudsman.org

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many of the complaints received by the Police Ombudsman have resulted in a prosecution against members of the *(a)* RUC and *(b)* Police Service Northern Ireland. [11670]

**Mr. Woodward:** The Police Ombudsman's office advises that the information is not held in the format requested, however, the Ombudsman has made 65 recommendations for prosecution against police officers to the Director of Public Prosecutions from the

establishment of the office on 6 November 2000 until 31 March 2005. In the same period the Director of Public Prosecutions has directed 30 charges while a number of files await direction.

### Rath behind the Grange

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will act to protect the Rath behind the Grange in Warringstown, County Down; and for what reasons a survey by the archaeological service was not undertaken prior to a decision on planning permission for development. [11364]

**Angela E. Smith:** The Rath or defended farmstead dated from the early Christian period, around AD 600–900. Prior to 1930, the Rath had largely been levelled by agricultural activity. A majority of the surviving below ground remains of its archaeological deposits were destroyed during the construction of a housing development in the summer of 2001 when the developer failed to implement planning conditions seeking to have archaeological remains investigated and recorded. Nothing remains at this location to be protected.

It is important to note that under the 'Polluter Pays Principle' it is for the developer to undertake archaeological recording—not the Department.

### Smoking

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how much money has been allocated for nicotine replacement therapies in the last three years in Northern Ireland. [11783]

**Mr. Woodward:** The Department of Health, Social Services and Public Safety does not allocate resources exclusively for nicotine replacement therapies (NRT). However, since 1999, the Department has made additional resources available to health and social services boards for the development of smoking cessation services across Northern Ireland. The amounts allocated for the last three financial years are as follows:

| | *Amount allocated (£)* |
|---|---|
| 2003–04 | 600,000 |
| 2004–05 | 600,000 |
| 2005–06 | 760,000 |

NRT products are available either as "over the counter" medicines or on prescription and may form part of the smoking cessation service offered to clients. Details of NRT prescription costs over the last three years for which figures are available are set out as follows.

| | *Prescription costs (£ million)* |
|---|---|
| 2002 | 1.9 |
| 2003 | 2.1 |
| 2004 | 2.4 |

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the prevalence of smoking has been among teenagers in Northern Ireland over the past two decades, broken down by gender. [12071]

**Mr. Woodward:** The Continuous Household Survey provides the estimated prevalence of smoking among the population in Northern Ireland aged 16 and over. The following table shows the smoking prevalence for teenagers aged 16–19 from 1983 to 2002–03. Since 1986 questions on smoking have been asked biennially on the Continuous Household Survey.

*Prevalence of cigarette smoking among teenagers aged 16–19 in Northern Ireland, 1983 to 2002–03*

*Percentage*

| | *Cigarette smokers* | | |
|---|---|---|---|
| | *All* | *Males* | *Females* |
| 1983 | 25 | 31 | 19 |
| 1984 | 22 | 27 | 17 |
| 1986 | 31 | 33 | 30 |
| 1988 | 23 | 25 | 20 |
| 1990–91 | 26 | 24 | 27 |
| 1992–93 | 24 | 24 | 24 |
| 1994–95 | 24 | 20 | 27 |
| 1996–97 | 23 | 23 | 23 |
| 1998–99 | 20 | 15 | 24 |
| 2000–01 | 26 | 23 | 27 |
| 2002–03 | 31 | 33 | 28 |

*Source:*
Continuous Household Survey 1983 to 2002–03.

### Speech/Occupational Therapists

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland what the average waiting time *(a)* in Northern Ireland and *(b)* in respect of each health and social services board was between (i) a child and (ii) an adult being referred to (A) a speech therapist and (B) an occupational therapist and the date of that person's appointment in the last period for which figures are available; and if he will make a statement. [12382]

**Mr. Woodward:** Information on average waiting times for speech and language therapy and occupational therapy is not collected centrally. Information is, however, available on the time from referral to first appointment with a community speech and language therapist and from referral to commencement of assessment by a community occupational therapist, according to time band. The figures are available for adults and children together in respect of speech and language therapy and for adults only in respect of occupational therapy. The information is shown in the following tables for the position during the quarter ending 31 December 2004, the latest date for which such information is available.

*Persons attending first appointment with speech and language therapist, quarter ending 31 December 2004*

| | *Time waited for appointment* | | | |
|---|---|---|---|---|
| *Health and Social Services Board* | *Under 3 months* | *3 to under 6 months* | *6 months and over* | *Total* |
| Eastern | 907 | 191 | 47 | 1,145 |
| Northern | 665 | 95 | 41 | 801 |
| Southern | 373 | 162 | 126 | 661 |
| Western | 293 | 76 | 8 | 377 |
| Northern Ireland | 2,238 | 524 | 222 | 2,984 |

*Note:*
Information is for adults and children.

*Persons receiving first assessment by occupational therapist, quarter ending 31 December 2004—Priority cases*

| | Time waited for assessment | | | |
|---|---|---|---|---|
| *Health and Social Services Board* | *Under 2 weeks* | *2 weeks to under 1 month* | *1 month and over* | *Total* |
| Eastern | 1,511 | 558 | 290 | 2,359 |
| Northern | 772 | 209 | 488 | 1,469 |
| Southern | 1,123 | 282 | 120 | 1,525 |
| Western | 155 | 87 | 204 | 446 |
| Northern Ireland | 3,561 | 1,136 | 1,102 | 5,799 |

*Note:*
Information is for adults (aged 19 and over) only.

*Persons receiving first assessment by occupational therapist, quarter ending 31 December 2004—Non-priority cases*

| | Time waited for assessment | | | |
|---|---|---|---|---|
| *Health and Social Services Board* | *Under 2 weeks* | *2 weeks to under 1 month* | *1 month and over* | *Total* |
| Eastern | 1,457 | 302 | 364 | 2,123 |
| Northern | 604 | 96 | 167 | 867 |
| Southern | 93 | 20 | 254 | 367 |
| Western | 60 | 21 | 297 | 378 |
| Northern Ireland | 2,214 | 439 | 1,082 | 3,735 |

*Note:*
Information is for adults (aged 19 and over) only.

## Substance Misuse

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will provide further funding to establish projects in Northern Ireland for young people suffering as a result of substance misuse. [11348]

**Mr. Woodward:** There are no plans to provide further funding to establish projects for young people.

There are already a number of projects funded through the Northern Ireland Drug and Alcohol Campaign, which provide services for young people who may be directly or indirectly affected by substance misuse. These projects provide a range of services including education and prevention; diversionary activities and counselling and mentoring services.

## Tyrone County Hospital

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on the future of otorhinolarynology services at Tyrone county hospital. [11769]

**Mr. Woodward:** The otorhinolarynology service provided by Sperrin Lakeland Trust includes ENT services and is currently based at Tyrone county hospital (TCH). In-patient and day case services are delivered from TCH with out-patient services delivered from both the Erne and Tyrone county hospitals. The service also provides cover to Cavan/Monaghan hospitals.

The vast majority of otorhinolarynology procedures are performed on a day case basis and the future model for these services envisages that TCH will continue to provide both out-patient and day case services. These services will operate as part of a larger, area-wide network for the provision of otorhinolarynology services with in-patient services provided at the most appropriate acute hospital within the network. Such a network will greatly enhance the potential to recruit staff to local services and will ensure that patients are seen by the right person in the right place as quickly as possible.

## EDUCATION AND SKILLS

### Adoption

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many children were placed for adoption in each year since 1983, broken down by age; how many of these children were placed for adoption while in local authority care; and how many were placed without parental consent. [10974]

**Maria Eagle:** The following table shows the number of looked after children placed for adoption since 1994, the earliest year for which information is available. Information is not collected centrally on the number of looked after children that were placed for adoption without parental consent.

*Children looked after who were placed for adoption at 31 March by age, 1994 to 2004[1,2]: England*

*Numbers*

| | *Placed for adoption* | | | | | |
|---|---|---|---|---|---|---|
| | *1994* | *1995* | *1996* | *1997* | *1998* | *1999* |
| All children[2] | 2,200 | 2,200 | 2,200 | 2,400 | 2,400 | 2,900 |
| Under 1 | 180 | 160 | 140 | 110 | 180 | 180 |
| 1–4 | 780 | 850 | 970 | 1,200 | 1,200 | 1,600 |
| 5–9 | 850 | 830 | 780 | 820 | 810 | 930 |
| 10–15 | 360 | 330 | 320 | 300 | 190 | 170 |
| 16 and over | 20 | 10 | 20 | 10 | 10 | 20 |

| | *Placed for adoption* | | | | |
|---|---|---|---|---|---|
| | *2000* | *2001* | *2002* | *2003* | *2004* |
| All children[2] | 3,100 | 3,400 | 3,600 | 3,400 | 3,300 |
| Under 1 | 280 | 210 | 280 | 220 | 220 |
| 1–4 | 1,600 | 1,800 | 1,800 | 1,700 | 1,600 |
| 5–9 | 1,100 | 1,200 | 1,200 | 1,300 | 1,200 |
| 10–15 | 200 | 220 | 330 | 240 | 190 |
| 16 and over | 10 | 10 | 10 | 10 | 10 |

[1] Figures exclude children looked after under an agreed series of short term placements.

[2] Figures over 1,000 have been rounded to the nearest 100. All other figures have been rounded to the nearest10.

*Source:*
DfES

### Children's Services (Funding)

**Mrs. Iris Robinson:** To ask the Secretary of State for Education and Skills what percentage of GDP was spent on children's services in England in the last period for which figures are available. [11795]

**Beverley Hughes:** Expenditure on children's services in England in 2003–04 was £5.4 billion, which equates to 0.48 per cent. of GDP.

This figure does not include expenditure on education services, local government formula spending on youth services or children's services funded by other Government Departments.

Further information, including forecast expenditure for future years and expenditure on education services, can be found in the Department for Education and Skills departmental report for 2005, copies of which are available in the Library of the House.

### City Academies

**Mr. Jim Cunningham:** To ask the Secretary of State for Education and Skills what evidence her Department has collated on the cost-effectiveness of academies. [7975]

**Jacqui Smith:** We recently published PricewaterhouseCoopers' Second Annual Report from the Evaluation of the Academies Programme, which demonstrated that academies are overwhelmingly popular with parents and pupils, and that they have made a significant difference to the teaching and learning culture from their predecessors. Cost effectiveness is one of the indicators we expect that PwC will analyse as the five year study progresses, but it is important to note that academies are funded at the same level as other schools. Their recurrent funding is calculated on the same basis as other local schools and their capital costs are calculated using the same benchmarks as for other new schools.

**Mr. Willis:** To ask the Secretary of State for Education and Skills how much funding from the private sector has been brought into the state education system as a result of the establishment of city academies. [12538]

**Jacqui Smith:** Sponsors provide 10 per cent., up to a cap of £2 million, towards the capital costs for each academy, with the Government providing the balance and funding all recurrent costs. For the 17 academies currently open, and the 10 opening this September, the current expected total of private sponsors' contributions amounts to an additional investment in state education of £44 million. That figure rises to £69 million when including sponsors' contributions for the eight other academy projects opening in 2006 and 2007 which already have funding agreements in place.

### Classroom Behaviour

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills what assistance her Department is giving to schools in Milton Keynes to promote good behaviour in the classroom. [12914]

**Jacqui Smith:** Our Secondary Strategy gives all secondary schools in Milton Keynes access to high-quality behaviour management training materials and support from a DfES-funded behaviour management consultant. Our Primary Strategy is giving all primary schools access to high-quality training and curriculum materials to improve children's social, emotional and behavioural skills. In addition:

our Excellence in Cities programme provides Milton Keynes with extra funding (just over £1.3 million this year), about half of which can be used to fund Learning Mentors and Learning Support Units in schools in the Milton Keynes Excellence Cluster; and

our Behaviour Improvement Programme provides Milton Keynes with further additional funding (728,000 this year) to support selected schools facing the greatest behaviour challenges.

### Funding (Worcestershire) Schools

**Peter Luff:** To ask the Secretary of State for Education and Skills whether the Dedicated Schools Grant for Worcestershire will continue to include the

extra £3.5 million put in by Worcestershire county council above the Schools Formula Spending Share for 2005–06. [12833]

**Jacqui Smith:** The consultation document proposed that the starting point for the new Dedicated Schools Grant should be what each authority is actually spending on schools at present—not the level of its funding. So the Dedicated Schools Grant for Worcestershire for 2006–07 will continue to include the extra £3.5 million put in by Worcestershire county council above the Schools Formula Spending Share for 2005–06.

## Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Education and Skills how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11505]

**Maria Eagle:** I refer the hon. Member to table C of Civil Service Statistics 2004 which is available on the internet at: http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls.

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library.

## Education (Sutton)

**Mr. Burstow:** To ask the Secretary of State for Education and Skills pursuant to the answer of 11 July 2005, *Official Report*, column 836W, on education, if she will break down the figures in the second table by residing authority. [12790]

**Jacqui Smith:** The information requested broken down by local education authority has been provided in the tables.

*Total number of pupils attending schools in Sutton, broken down by phase of education and residing authority*

| | *Number of Pupils* | *Primary* | *Secondary* | *Special* |
|---|---|---|---|---|
| Pupils attending schools in Sutton | 31,297 | 15,051 | 15,974 | 272 |
| *Home authority* | | | | |
| Sutton | 24,883 | 14,092 | 10,582 | 209 |
| Croydon | 2,383 | 169 | 2,190 | 24 |
| Merton | 1,624 | 353 | 1,252 | 19 |
| Surrey | 1,548 | 338 | 1,203 | 7 |
| Kingston upon Thames | 391 | 75 | 312 | 4 |
| Lambeth | 160 | 0 | 156 | 4 |
| Wandsworth | 120 | 4 | 116 | 0 |
| Bromley | 36 | 0 | 36 | 0 |
| Lewisham | 33 | 0 | 33 | 0 |

*Total number of pupils attending schools in Sutton, broken down by phase of education and residing authority*

| | *Number of Pupils* | *Primary* | *Secondary* | *Special* |
|---|---|---|---|---|
| Southwark | 22 | 0 | 22 | 0 |
| Other LEAs | 33 | 5 | 28 | 0 |
| Unknown/not given[1] | 64 | 15 | 44 | 5 |

[1] Residence of pupil unknown/not given.

*Source:*
PLASC 2005 provisional data.

## Education Funding

**Mr. Wills:** To ask the Secretary of State for Education and Skills how much money her Department granted to Swindon local education authority in *(a)* 2000–01, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04 and *(e)* 2004–05. [13297]

**Jacqui Smith:** The figures requested are expressed in cash terms and set out as follows:

*Swindon*

*£ million*

| | *Recurrent funding*[1] | *Capital funding* |
|---|---|---|
| 2000–01 | 84.1 | 6.1 |
| 2001–02 | 89.8 | 4.3 |
| 2002–03 | 94.6 | 15.2 |
| 2003–04 | 105.1 | [2]80.2 |
| 2004–05 | 110.7 | 11.6 |

[1] Recurrent funding
Price Base: Cash
Figures reflect relevant sub-blocks of education SSA/EFS settlements. The 2003–04 to 2004–05 figures include the pensions transfer to EPS and LSC, the 2000–01 to 2002–03 figures have not been adjusted.
Total funding also includes all revenue grants in DFES Departmental Expenditure Limits relevant to pupils aged three to 19 and exclude EMAs and grants not allocated at LEA level.
Where responsibility for funding a school has transferred from an LEA, related funding no longer appears in the series.
Rounding: Figures are rounded to the nearest 0.1 million.
Status: 2003–04 and 2004–05 figures are provisional as some grants have not yet been finalised/audited.
[2] Includes £62.8 million allocation for PFI scheme

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills what the spending per *(a)* primary and *(b)* high school pupil in Lancashire is for 2005–06. [12380]

**Jacqui Smith:** In 2005–06, the total revenue funding per pupil made available in Lancashire, through formula funding and specific grant, to support pupils aged 3–10 was £3,640 and £4,450 per pupil aged 11–15.

*Notes:*
1. Figures reflect relevant sub-blocks of education EFS settlements and include the pensions transfer to EFS.
2. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3–10 and 11–15 and exclude Education Maintenance Allowances and grants not allocated at LEA level.
3. The pupil numbers used to convert £ million figures to per pupil are those underlying the EFS settlement calculations.
4. Figures are rounded to the nearest £10.

## Educational Psychologists

**Mr. Lidington:** To ask the Secretary of State for Education and Skills what the average waiting time between the referral of a child to an educational

psychologist and that child's appointment was in *(a)* each local education authority and *(b)* England in the last period for which figures are available. [12384]

**Maria Eagle:** Information on waiting times for consultations with educational psychologists is not collected centrally.

## Employer Training Pilots

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the average length of time employees spent away from the workplace completing NVQ Level 2 qualifications for the Employer Training Pilots was *(a)* in each pilot area and *(b)* across all pilot areas [12741]

**Phil Hope:** The Employer Training Pilots Year 2 Evaluation Report, "Platform for Progression: Employer Training Pilots" (published in March 2005 and available in the House of Commons Library) shows that:

in 50 per cent. of cases, ETP training is mainly delivered at the learners' workplace as part of normal duties;

in 25 per cent. of cases, it is mainly delivered at the workplace but away from normal duties; and

in the other 25 per cent. of cases, training is mainly delivered away from the workplace.

The report also shows that, on average, it takes a participating employee around 100 hours spread over eight months to complete their NVQ. About a quarter of this is done in the employee's own time. Data are not available for individual Employer Training Pilots.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills in what percentage of cases employer training pilots followed the assess, train, assess model *(a)* in each pilot area and *(b)* across all pilot areas; and what priority this model will be accorded in future in respect of small and medium sized enterprises. [12749]

**Phil Hope:** The Employer Training Pilots (ETPs) tested a flexible approach to delivering training, mainly in the workplace. Training providers were encouraged to adopt an innovative 'Assess-Train-Assess' approach to meeting employer and individual skills needs to tailor the training provided to meet identified skills gaps.

The Employer Training Pilots Year 2 Evaluation Report, "Platform For Progression: Employer Training Pilots" (published in March and available in the House of Commons Library) found that while the vast majority of employers and employees were either 'satisfied' or 'very satisfied' with their training, only 16 per cent. of participating employers went through all phases of the 'Assess-Train-Assess' training model. As a result, stronger contracting requirements were placed on providers for the third phase of the pilots, launched in September 2004, to ensure that all participating employees received an initial assessment of skills needs.

## Examinations

**Mr. Cameron:** To ask the Secretary of State for Education and Skills how many maintained grammar school sixth form pupils were entered for *(a)* general and vocational A-levels, *(b)* AS-levels and *(c)* key skills at Level 3 in 2004. [10767]

**Jacqui Smith:** The information is as follows.

In maintained selective school sixth forms:

19,322 students aged 16–18 attempted at least one general or vocational A-level in summer 2004;

22,596 students aged 16–18 attempted at least one general or vocational AS-level in academic year 2003/04.

We do not have the number of students entered for key skills at Level 3 but we do have information on the achievement of such qualifications by those who also take A-levels. Of the 19,322 A-level candidates in summer 2004, 364 had achieved key skills at Level 3.

## Family Resolutions Pilot Project

**Annette Brooke:** To ask the Secretary of State for Education and Skills pursuant to her answer of 4 July 2005, *Official Report*, column 156W, on the Family Resolutions Pilot Project, what the reasons for non-referral were for the 71 couples not referred to the Family Resolutions Pilot Project, excluding domestic violence. [12296]

**Maria Eagle** *[holding answer 14 July 2005]:* Pursuant to my answer of 4 July 2005, *Official Report*, column 156W, the table sets out the reasons for non-referral to the Family Resolutions Pilot Project for the 71 cases not referred, excluding the 14 cases not referred for reasons of domestic violence. Pursuant also to my answer of 4 July 2005, the interim evaluation has identified that six of the 71 non-referred applicants were from an extended family member. Thus it is more accurate to refer to 71 cases than to 71 couples.

| | *Number of cases* |
|---|---|
| Parents had already reached agreement | 18 |
| Applicant and/or respondent failed to attend | 9 |
| Lack of parental consent | 9 |
| Applicant seeking to transfer proceedings | 5 |
| Child protection/welfare issues (welfare report ordered) | 6 |
| Residence dispute only | 5 |
| Other (some of this category included family members other than parents) | 5 |
| Total | 57 |

## Headteachers

**Mr. Walker:** To ask the Secretary of State for Education and Skills if she will ensure that all headteachers are in receipt of the necessary training before they are required to draft and publish their new staffing structure; and if she will make a statement. [12359]

**Jacqui Smith:** The document "Review of the School Staffing Structure: Guidance for Schools in England" (and is available on the Teachernet and Governornet websites) produced jointly by the DfES, teacher association and employers partners provides governing bodies and headteachers with comprehensive support in identifying the key steps necessary to conduct an effective review of the staffing structure.

Further support and advice is available from local authorities and from the four unions and associations that are part of Rewards and Incentive Group (RIG), who will shortly provide a 'Frequently Asked

Questions' brief. In addition, RIG is intending to further support the process at the outset of the autumn term with a national RIG Helpline, some regional workshops, and by offering a simple self-assessment tool for schools experiencing difficulties to use in identifying any further assistance needed.

### Higher Education Funding

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills what account is taken of local wage and salary levels in allocating funding to universities and colleges; and if she will make a statement. [9518]

**Bill Rammell:** The Higher Education Funding Council for England (HEFCE) includes in its recurrent teaching and research allocations weightings that take account of the additional costs for institutions based in London. Within the teaching grant, the weightings are 8 per cent. for inner London and 5 per cent. for outer London. Within research grant, they are 12 per cent. for inner London and 8 per cent. for outer London.

The weightings differ between teaching and research because in the case of teaching they are applied to resource (HEFCE grant plus assumed fee income), whereas for research they are applied to HEFCE grant only.

London weighting is the only regional cost variation that HEFCE recognises in its funding allocations.

### Key Stage 2 (Spelling)

**Mr. Gibb:** To ask the Secretary of State for Education and Skills (1) what proportion of marks for the Key Stage 2 *(a)* longer and *(b)* shorter writing task are awarded for spelling; [13264]

(2) what the minimum score necessary in the Key Stage 2 spelling test is to be awarded Level 4 overall; [13265]

(3) how many pupils scored each mark for the most recent Key Stage 2 spelling test. [13266]

**Jacqui Smith:** In the Key Stage 2 English tests, spelling is assessed on the basis of a discrete spelling test, for which seven marks are available out of a total of 100. An overall Level 4 is awarded on the basis of the aggregate score from the shorter writing, longer writing, spelling and reading tests, and is not dependent on achieving a minimum score in any of those tests. Information about numbers of pupils scoring each mark in the spelling test is not collected centrally.

### Language Colleges

**Angela Watkinson:** To ask the Secretary of State for Education and Skills (1) how many additional language teachers have been appointed in anticipation of the promised additional funding for language colleges; [12761]

(2) how many specialist language colleges she expects will receive the additional funding she has promised in time for the 2005 autumn term. [12762]

**Jacqui Smith:** In March 2005 the Department announced a package of measures to support the National Languages Strategy. This included an extra £30,000 additional grant for specialist language colleges, although no date was given for the additional funding. We have now written to schools confirming that additional funding for existing colleges (including those redesignating in autumn 2005) will be available from April 2006, and from September 2006 for new colleges.

The additional funding can be used in a number of ways, one of which is to appoint a shared primary languages specialist co-ordinator to work across the local authority with a group of primaries. It is up to schools to decide how they will use the grant and we do not know how many anticipate appointing additional language teachers with the funding.

In addition to this funding, as part of the "Boost for modern foreign languages" announcement, the Government are providing £60 million for initial teacher training, support for foreign language assistants and in-service training for teachers.

### Looked-after Children

**John Hemming:** To ask the Secretary of State for Education and Skills what assessment the Department has made of the reasons for *(a)* the growth in the number of children being taken into care and *(b)* the effects of that growth on the overall cost of taking children into care. [11304]

**Maria Eagle:** The number of looked-after children who are the subject of a care order made by the family courts has increased from 36,400 on 31 March 2000 to 39,400 on 31 March 2004.

Before 2000, information was not collected centrally for the costs of looked-after children. We estimate that, in February 2000, the total weekly cost of looked-after children in England was £25 million, or £435 a child, and in February 2003 the total weekly cost was £36.5 million, or £585 a child. (Information derived from the Children in Need Censuses.) Thus, the increases in the costs faced by local authorities in looking after children who have been taken into care arise as a consequence of both the increased number of children who have become the subject of care orders and the increases in the costs experienced by local authorities in caring for them.

Information is not collected centrally on the detailed reasons for the making of care orders by the family courts. However, section 31(2) of the Children Act 1989 provides that:

"A court may only make a care order or supervision order if it is satisfied—

*(a)* that the child concerned is suffering, or is likely to suffer, significant harm; and

*(b)* that the harm, or likelihood of harm, is attributable to—

(i) the care given to the child, or likely to be given to him if the order were not made, not being what it would be reasonable to expect a parent to give to him; or

(ii) the child's being beyond parental control."

Thus, all children who are taken into care by means of the making of a care order will have been considered by the court to have met these criteria, following the making of applications to the courts by local authorities.

In the Command Paper, "A Fairer deal for Legal Aid" (Cm 6591), published on 5 July 2005, the Government announced a review of child care proceedings in England and Wales. The review will include work to identify innovative practice which enables children to be diverted away from court proceedings and, instead, be supported in their families where this is possible.

*Children looked after at 31 March by legal status, 1994–2004[1]—England*

*Numbers*

| *Legal status* | *1994*[2] | *1995*[2] | *1996*[2] | *1997*[2] | *1998*[3] | *1999*[3] |
|---|---|---|---|---|---|---|
| All children[4] | 49,500 | 49,900 | 50,800 | 51,500 | 53,300 | 55,500 |
| Care orders[5] | 29,400 | 29,100 | 29,400 | 30,700 | 32,100 | 34,400 |
| S20 CA 1989 (voluntary arrangements) | 18,900 | 19,500 | 19,800 | 19,200 | 19,100 | 18,800 |
| On remand or committed for trial or detained[5] | 440 | 450 | 510 | 500 | 650 | 530 |
| Other legal status[6] | 800 | 910 | 1,000 | 1,200 | 1,500 | 1,700 |

*Numbers*

| *Legal status* | *2000*[3] | *2001*[3] | *2002*[3] | *2003*[3] | *2004*[2] |
|---|---|---|---|---|---|
| All children[4] | 58,100 | 58,900 | 59,700 | 60,800 | 61,100 |
| Care orders[5] | 36,400 | 37,600 | 38,400 | 39,600 | 39,400 |
| S20 CA 1989 (voluntary arrangements) | 19,300 | 19,100 | 19,000 | 18,900 | 19,200 |
| On remand or committed for trial or detained[5] | 620 | 320 | 310 | 240 | 240 |
| Other legal status[6] | 1,700 | 1,900 | 2,000 | 2,100 | 2,300 |

*Notes:*
1. Figures exclude children looked after under an agreed series of short-term placements.
2. Figures are taken from the SSDA903 return.
3. Figures are taken from the CLA100 return.
4. Includes both full and interim care orders.
5. For the years ending 31 March 1998 to 2000, includes children who were subject to a compulsory care order under Sections 90–92 of the Criminal Courts (Sentencing) Act 2000.
6. Includes child protection orders and freed for adoption. See Table K for a breakdown of the figure for 2004.

**Mrs. May:** To ask the Secretary of State for Education and Skills how many and what percentage of looked after children were placed *(a)* outside their original local authority and *(b)* more than 20 miles outside their home authority, broken down by age for each of the last five years. [11808]

**Maria Eagle:** The following table provides the information requested in part *(a)*. Information on the distance between home and placement has not been collected in the past but will be made available when the Department's 2004–05 looked after children data collection has been processed. These data are expected to be available during the first quarter of 2006.

*Number of children in England placed outside council boundary under foster placements, children's homes and hostels at 31 March*[1,2,3]

| | | | *Age at 31 March* | | | | |
|---|---|---|---|---|---|---|---|
| | *All children* | *As percentage of all looked after children* | *Under 1* | *1–4* | *5–9* | *10–15* | *16 and over* |
| 2000 | 11,400 | 20 | 350 | 1,200 | 2,500 | 5,700 | 1,700 |
| 2001 | 11,400 | 19 | 280 | 1,100 | 2,500 | 5,800 | 1,700 |
| 2002 | 12,900 | 22 | 320 | 1,200 | 2,700 | 6,600 | 2,000 |
| 2003 | 13,900 | 23 | 370 | 1,300 | 2,900 | 7,300 | 2,100 |
| 2004 | 15,400 | 25 | 430 | 1,400 | 3,000 | 8,100 | 2,400 |

[1] Figures exclude children looked after under an agreed series of short term placements.

[2] Figures are taken from the SSDA903 return and have been rounded

[3] Excludes independent homes and hostels not subject to Children's Homes Regulations

**Mr. Burstow:** To ask the Secretary of State for Education and Skills pursuant to the answer of 4 July 2005, *Official Report*, columns 165–66W, on missing children, which local authorities recorded in the delivery and improvement statement *(a)* had not appointed a senior manager to monitor missing from care incidents and *(b)* did not have protocols with the police. [12693]

**Maria Eagle:** Based on information provided by the 2004 development and improvement statement:

*(a)* The councils that had not appointed a manager to monitor missing from care incidents were:

Bracknell Forest
Hartlepool
Lambeth
Milton Keynes
North East Lincolnshire
Thurrock

*(b)* The councils that did not have protocols with the police for monitoring missing from care incidents were:

Barking and Dagenham
Bexley
Brent

Bromley
Cornwall
Cumbria
Havering
Islington
Middlesbrough
North East Lincolnshire
North Yorkshire
Northumberland
Redcar and Cleveland
Rochdale
Southend-on-Sea
Sutton
Wakefield
Westminster

This information was provided in 2004 and does not necessarily reflect the current practices of these authorities.

**Mr. Burstow:** To ask the Secretary of State for Education and Skills pursuant to the answer of 4 July 2005, *Official Report*, columns 162–63W, on looked-after children, what guidance has been issued to local authorities concerning the number of in year placements; and if she will make a statement. [12693]

**Maria Eagle:** Since the Government initiated the quality protects programme in 1998, the promotion of placement stability for looked-after children has been an important aspect of our programme. Data on the number of children who move three times in one year has been collected since that time. This data indicates that the percentage of children looked-after at 31 March each year who had three or more placements in one year had declined from 16 per cent. to 13 per cent. between 1998 and 2004.

Although the Government have not issued specific guidance solely concerned with placement stability, since 1998, all relevant publications relating to looked after-children, such as materials issued as part of the Choice Protects programme, which is intended to improve the availability and quality of foster care and local authority placement commissioning, and the Green Paper "Every Child Matters (2003)", have emphasised the importance of placement stability, in order that looked-after children are enabled to secure the same outcomes as all other children

As part of the current DfES programme to support the delivery of our revised PSA target with the Treasury to improve placement stability, we are developing further strands of work, in order to analyse and promote good practice in delivering placement stability for looked after children.

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many children from *(a)* Angola, *(b)* Nigeria and *(c)* Sierra Leone are in the care of social services in England. [12809]

**Maria Eagle:** The information requested is not collected centrally.

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many children are placed in independent children's homes out of area of the placing authority. [12814]

**Maria Eagle:** The information requested is not collected centrally for this type of placement. Information on looked after children who are placed outside of the placing authority for homes, which includes homes run by local authorities, the voluntary and independent sectors, and hostels that are subject to children's homes regulations may be found in table J of the Department's publication "Children Looked After by Local Authorities, Year Ending 31 March 2004 Volume 1: Local Authority Tables". This is available on the internet at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000569/vweb01-2005_1.pdf.

### Ministerial Visits

**Helen Jones:** To ask the Secretary of State for Education and Skills how many requests have been received from hon. Members for ministerial visits to their constituency since the general election. [9299]

**Maria Eagle:** Since the general election, Ministers have received a total of 25 requests from hon. Members for visits to their constituencies.

### Modern Apprenticeships

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the drop-out rates for modern apprenticeships were in each year between 1994 and 2004. [12022]

**Phil Hope:** The Learning and Skills Council routinely publish Apprenticeship outcomes in the Statistical First Release series "Further Education and Work Based Learning for Young People—Learner Outcomes in England".

### Musical Instrument Tuition

**Mr. Gibb:** To ask the Secretary of State for Education and Skills how many primary schools offered musical instrument tuition in 2003–04. [13268]

**Jacqui Smith:** This information is not part of the Department's statutory annual data collection for 2003–04. However, in February we undertook a survey of all music services, and this included information on the number of primary pupils in each local authority who were learning a musical instrument in 2004–05. The survey findings will be available in the autumn.

The national curriculum provides all children aged 5–14 with a statutory entitlement to music lessons, giving them the opportunity to sing, to play musical instruments, to hear live and recorded music from a range of traditions and styles, to compose and to perform.

### National Literacy Strategy

**Mr. Cameron:** To ask the Secretary of State for Education and Skills (1) what level of consultation will be undertaken by the National Literacy Strategy review panel; and with which organisations and groups; [10019]

(2) what the terms of reference are for the review of the National Literacy Strategy; [10020]

(3) what criteria are being used to select the members of the National Literacy Strategy review panel. [10021]

**Jacqui Smith:** My right hon. Friend the Secretary of State announced on 3 June 2005 that there will be an independent review of best practice in the teaching of early reading, including the role of synthetic phonics. The review is being led by Jim Rose, the former Director of Inspection at Ofsted. It is independent from, and is not being conducted by, the Government's Primary National Strategy.

Jim Rose has invited a group of advisers, with considerable experience as practitioners and researchers in this field, including early years expertise, to provide him with advice on conducting his review. The group will consist of the following members:

Professor Greg Brooks, University of Sheffield

Professor Morag Stuart, Institute of Education

Professor Pam Sammons, University of Nottingham

Professor Kathy Sylva, University of Oxford

HMI Janet Brennan

In addition to the specialist phonics advice that Janet Brennan will provide Ofsted will also be contributing to Mr. Rose's review by HMI Tim Key providing information from Ofsted's inspection data.

In making his recommendations Mr. Rose will draw on his advisers' expertise, and he will also examine academic research and best practice for using synthetic phonics in reading in primary schools and early years settings. He will seek views from a broad range of individuals and organisations that represent the interests of those sectors, as well as examining recent reports on reading by the Education and Skills Select Committee, Ofsted, the study in Clackmannanshire local authority in Scotland and other evidence.

### Higher Education Access

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what plans there are for the Office for Fair Access to audit a sample of access agreements provided by higher education institutions; and how many institutions will be included in the sample. [10046]

**Bill Rammell:** In order to minimise the regulatory burden on institutions, OFFA has no current plans to audit access agreements. Institutions have set out within their access agreements how they intend to monitor the implementation of their own agreements and OFFA will take assurance from the information that institutions produce for their own purposes, and the other data that is already collected through institutions such as the Higher Education Statistics Agency.

### Part-time Students

**Mr. Boswell:** To ask the Secretary of State for Education and Skills if she will lift the cap on fee waivers for poor part-time students. [12483]

**Bill Rammell:** The discretionary fee waiver scheme for part-time students ran from 1998/99 to 2003–04. In 2004/05 for the first time non-repayable grants were introduced for part-time students: a fee grant of up to £575 (to replace the fee waiver), and a non-repayable course grant of up to £250. Transitional protection was put in place for continuing students who had received a fee waiver in 2003/04.

The support available to part-time students is being further improved for 2005/06: the maximum fee grant is being increased to £885; the income threshold below which students can get both the fee and course grants is also being increased; and the amount of fee support the student receives will, in future, be linked to the intensity of their study. The grants are means-tested in order to target funding most effectively at those on the lowest incomes.

**Mr. Boswell:** To ask the Secretary of State for Education and Skills (1) what research she has conducted on the financial situation of part-time students; [12484]

(2) what research she has conducted on the impact of new fees regulations in higher education institutions with an atypically high level of part-time students; [12485]

(3) what recent assessment she has made of the merits of fee deferrals for part-time students; [12486]

(4) what representations she has received from *(a)* higher education institutions and *(b)* the Office for Fair Access on the impact on student access of differences between the full-time and part-time student support regimes. [12487]

**Bill Rammell:** Over the last 12 months, Ministers and officials have met regularly with representatives from higher education institutions with high proportions of part-time undergraduate students to discuss a range of issues, including the changes to the student funding system which will be introduced in 2006–07. Ministers have listened to concerns raised by institutions and are considering the most effective means of using available funding to support part-time undergraduate provision. This includes an ongoing consideration of the merits of fee deferral in light of a deepening understanding of the diverse part-time student body.

To understand better the part-time undergraduate student body, the Department for Education and Skills commissioned Alan Woodley from the Open University's Institute of Educational Technology to survey part-time students. The report "Earning, learning and paying: the results from a national survey of the costs and financing of part-time students in higher education" was published in November 2004. Additionally, part-time undergraduates are included within the scope of the 2004/05 "Student Income and Expenditure Survey" (SIES). The SIES is due for publication early in 2006.

The Woodley survey confirmed the heterogeneity of the part-time undergraduate student body and that the barriers which individuals may face to participation are, by no means, uniform. Notably, 65 per cent. of part-time undergraduates are in full-time employment with a further 18 per cent. in part-time employment. Moreover, 36 per cent. of part-time undergraduate students have all their fees paid by an employer. Consequently, any consideration of the merits of fee deferral for part-timers must address the financial resources available to individual students and the likelihood of replacing existing employer support.

The Higher Education Funding Council for England (HEFCE) has considered representations from institutions for special funding in response to concerns about the impact of variable fees on large scale providers of part-time undergraduate higher education. The Council announced its findings on 1 March. These included a commitment to develop a widening participation measure, from the 2006/07 academic year, designed to ensure that the most disadvantaged students will continue to be able to study on a part-time basis. Details of the measure will be confirmed by the HEFCE board in the autumn. No representations have been received from the Office for Fair Access with regard to part-time undergraduate provision.

### Primary Schools (Language Tuition)

**Mr. Gibb:** To ask the Secretary of State for Education and Skills how many primary schools offered language learning opportunities in 2003/04; and in which languages. [13269]

**Jacqui Smith:** This information is not part of the Department's statutory annual data collection. However, research carried out for the DfES in 2002/03 showed that 44 per cent. of schools teaching pupils aged 7–11 offered some form of language learning, 35 per cent. of which took place in curriculum time. This is up from 21 per cent. of schools offering some form of language learning in 2000, and we expect that number will have increased again significantly last year. Our research showed that French is the language most commonly taught, followed by Spanish, German and Italian. 28 LEAs reported other languages being taught. We know from our Key Stage 2 language pathfinders that a wide range of languages are now being taught at primary schools, including community and other world languages.

### School Admissions

**Mr. Maude:** To ask the Secretary of State for Education and Skills how many appeals were made to the Independent School Admissions Panel for *(a)* primary and junior schools and *(b)* secondary schools for each English county in each of the last eight years. [11859]

**Jacqui Smith:** The information requested is shown in the following table.

*Maintained primary schools[1]: Number of admission appeals lodged and heard each academic year 1996/97 to 2003/04 by each English county local education authority*

| | | Maintained primary schools | | | | | |
|---|---|---|---|---|---|---|---|
| | | 1996/97 | | | 1997/98 | | |
| | | Appeals lodged | Appeals heard | Percentage heard[2] | Appeals lodged | Appeals heard | Percentage heard[2] |

[1] Includes middle schools as deemed.
[2] Number of appeals heard by a panel expressed as a percentage of the number of appeals lodged by parents
[3] Before Local Government Reorganisation.
[4] After Local Government Reorganisation.
Figures have been rounded to the nearest 10.
*Source:*
Annual Schools' Census and Admission Appeals Survey

*Maintained secondary schools[1]: Number of admission appeals lodged and heard each academic year 1996/97 to 2003/04 by each English county local education authority*

Annual Schools' Census

### School Leavers

**Mr. Evans:** To ask the Secretary of State for Education and Skills how many people have left school at 16 years in *(a)* the Ribble Valley, *(b)* the North West and *(c)* England with no qualifications in each of the last five years. [13303]

**Jacqui Smith:** The information requested can be found in the following table.

*Percentage of 15-year-old pupils with no passes*

| | *Ribble Valley* | *North West* | *England* |
|---|---|---|---|
| 2003/04 | 3.0 | 4.3 | 4.1 |
| 2002/03 | 3.6 | 5.4 | 5.2 |
| 2001/02 | 1.9 | 5.3 | 5.4 |
| 2000/01 | 1.1 | 5.5 | 5.5 |
| 1999/2000 | 1.3 | 5.2 | 5.6 |

*Notes:*
1. The information for this answer is derived from data collected for the School and College Achievement and Attainment Tables (formerly Performance Tables) that are published annually.
2. As standard the results reported relate to pupils aged 15 at the start of the academic year ie 31 August.
3. For 2003/04 results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. For 1999/2000 to 2002/03 results are based on GCSEs and GNVQs only.
4. Parliamentary constituency and regional figures are based only on all maintained schools (including city technology colleges and, from 2003, academies) and have been adjusted in respect of pupils recently arrived from overseas.
5. England figures are based on all schools and have not been adjusted in respect of pupils recently arrived from overseas.
6. Maintained secondary schools in Ribble Valley in 2004 were:
Archbishop Temple Church of England High School and Technology College, Preston
Bowland High School
Clitheroe Royal Grammar School
Corpus Christi Catholic High School
Fulwood High School and Arts College
Hillside School, Longridge
Longridge High School
Our Lady's Catholic High School
Ribblesdale High School Technology College
St. Augustine's Roman Catholic High School, Billington
St. Cecilia's RC Technology College

### School Management Information Systems

**Mr. Forth:** To ask the Secretary of State for Education and Skills pursuant to the answer of 9 June 2005, *Official Report*, column 698W, on school management information systems, what the average cost was of a core administration software package for *(a)* secondary, *(b)* primary and *(c)* special schools in each of the last five years. [12068]

**Jacqui Smith:** The Department does not routinely collect information on the amount that individual schools spend from their delegated budgets on core administrative software packages.

Becta, the Department's strategic partner for ICT in education, collects some market intelligence, often provided on a commercially confidential basis, as a part of its continuing strategic role in understanding and influencing market activity.

From the available information, Becta is able to estimate typical costs, which suppliers derive by taking account of the number of pupils in a school and the range of software being licensed.

Becta's understanding of the annual charges applied by suppliers to a typical primary school is:

| | £ |
|---|---|
| 1999 | 140 |
| 2000/01 | Between 200 and 210 |
| 2002 | Between 220 and 230 |
| 2003 | 275 |
| 2004 | [1]380 |

[1] The latest year for which Becta has usable data

Becta's understanding of the annual charges made by suppliers to a typical secondary school is:

| | £ |
|---|---|
| 1999 | 570 |
| 2000 | 800 |
| 2001 | 870 |
| 2002 | 1,100 |
| 2003 | 1,375 |
| 2004 | [1]1,900 |

[1] The latest year for which Becta has usable data

It is not possible to estimate typical costs for special schools because of the different mix of age ranges of pupils and the scope and complexity of the curriculum structures within a particular school. These factors determine whether a school needs to license administrative software predominantly covering the needs of a primary school or a secondary school.

These estimates do not reflect differences in the functionality and service levels offered by individual suppliers. Any comparisons between these estimates and charges made by a particular supplier must therefore take these into account and be made with caution.

In addition to the estimated typical costs shown above, some suppliers also levy charges for services on local authority support teams. Depending on the policy of the education authority, these extra charges may be passed on to schools.

### Second World War Anniversary

**Mr. Amess:** To ask the Secretary of State for Education and Skills what steps her Department is taking to promote *(a)* knowledge of and *(b)* interest in the 60th anniversary of the end of the second world war in schools; and if she will make a statement. [12279]

**Jacqui Smith:** The national curriculum programmes of study for history cover teaching about Britain and the second world war at key stage 2 and the holocaust and the second world war in key stage 3. In addition the Department was instrumental in the creation of the national remembrance programme of "Their Past Your Future", being delivered by the Imperial War Museum, and also 'Home Front Recall'.

The Department worked with the MOD in its plans for commemoration last week. This work included preparing resources for schools attending the 'Living Museum' in St. James Park, such as education trails and a ration book. The DfES also continues to assist the MOD in its work on raising awareness and knowledge of veterans in society by helping educational organisations to prepare resources and facilities suitable

for schools. This was particularly important for the build up to the 60th anniversary, as the DfES helped to co-ordinate and promote information and to advise on delivery.

### Departmental Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Education and Skills how many days the Department has lost due to sickness in the past five years for which figures are available. [11468]

**Maria Eagle:** My Department remains committed to managing sickness absence effectively and to putting in place the recommendations of the recently published report "Managing Sickness Absence in the Public Sector".

I refer the hon. Gentleman to the figures contained in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based. The most recent report is for the calendar year 2003 and was announced by ministerial statement on 1 November and copies placed in the Libraries of the House. Reports for 1999, 2000, 2001 and 2002 are also available in the Library and on the Cabinet Office website at: http://www.civilservice.gov.uk/management_information/conditions_of_service/caje/publications/index.asp#sickness.

### Sixth Form Students

**Dr. Kumar:** To ask the Secretary of State for Education and Skills if she will estimate the percentage of school leavers in *(a)* England, *(b)* Teesside and *(c)* the Middlesbrough, South and East Cleveland constituency who went on to sixth form college in the last period for which figures are available. [12527]

**Bill Rammell:** Estimates of the percentage of 16-year-olds participating in full-time education in sixth form colleges at end 2003 in England, the Tees Valley Learning and Skills Council area and LEAs within this area are given in table 1 as follows together with estimates of the total in full-time education in each area. Estimates are not available below LEA level.

*Table 1: Percentages of 16-year-olds in full-time education, end 2003 (provisional)*

| | *Full-time education in sixth form college* | *Total full-time education* |
|---|---|---|
| England | 10 | 72 |
| Tees Valley LSC | 26 | 68 |
| Darlington LEA | 32 | 69 |
| Hartlepool LEA | 23 | 65 |
| Middlesbrough LEA | 17 | 69 |
| Redcar and Cleveland LEA | 29 | 63 |
| Stockton-on-Tees LEA | 29 | 73 |

### Special Educational Needs

**Bob Spink:** To ask the Secretary of State for Education and Skills (1) what assessment she has made of Essex local education authority's policy on funding special needs pupils; and what changes in policy have taken place over the last three years; [12169]

(2) how much funding was allocated to each child in each special needs band by Essex local education authority in each of the last three years for which figures are available; [12249]

(3) what level of funding will be allocated to a moderate learning difficulty school in Essex in respect of a newly admitted Band *(a)* D, *(b)* E and *(c)* F special needs pupil in (i) 2005–06 and (ii) 2006–07; [12445]

(4) whether she expects Band *(a)* D, *(b)* E and *(c)* F special educational needs pupils currently in moderate learning difficulty schools in Essex will continue to receive their band funding in full during their entire time at the school. [12468]

**Jacqui Smith:** In its most recent inspection of Essex in October 2004, Ofsted said that, on support for special educational needs, the authority had strong, innovative and forward-thinking strategic leadership.

The funding allocated to children with special educational needs is a matter for each local authority. The Department is unable to provide figures on the level of funding allocated to pupils with moderate learning difficulties in schools in Essex, to the level of detail requested.

**Bob Spink:** To ask the Secretary of State for Education and Skills (1) what the admissions procedure is for moderate learning difficulty schools in Essex; and what weighting is given to parental choice in the process; [12185]

(2) whether Essex local education authority has consulted *(a)* headteachers and staff, *(b)* parents, *(c)* county councillors, *(d)* hon. Members and *(e)* the public on possible changes to the system of funding (i) moderate learning difficulty and (ii) severe learning difficulty special needs pupils; and if she will make a statement; [12243]

(3) what system is used to band special educational needs children in Essex; and what process is used to make assessments; [12245]

(4) what admissions criteria Essex local education authority has placed on the admission of Band *(a)* D, *(b)* E and *(c)* F special educational needs children to moderate learning difficulty schools; and when these criteria were last revised. [12492]

**Maria Eagle:** Arranging provision for children with special educational needs (SEN) is a matter for schools and local education authorities (LEAS), within the framework set out in the Education Act 1996 and taking account of statutory guidance, such as the SEN Code of Practice. That framework and guidance sets out a graduated approach to meeting children's SEN, including, where necessary, a process for the assessment of children's SEN and the drawing up of SEN statements. Admission to special schools, including those for children with moderate learning difficulties, is through the school being 'named' on the statement, other than in exceptional circumstances, such as where a child is admitted for the purposes of an assessment

When a statement is being drawn up or the description of a child's educational needs on a statement and the provision to meet those needs is being amended, parents can ask for the school of their choice, mainstream or special, to be named. The LEA must consider the parents' preference carefully and whether the school is suitable for the child's needs and whether placing the child there is compatible with the education of other children at the school and the efficient use of resources. If the LEA does not name the parents' preferred school, the parents can appeal to the SEN and Disability Tribunal, whose decisions are binding on LEAs.

The provision made for children with moderate and severe learning difficulties, and the funding for it in the case of those with statements, should be decided upon individually. However, it is open to LEAs to have general SEN funding arrangements, as long as they are prepared to vary those arrangements in individual cases. In May 2004 the Department published guidance on "The management of SEN expenditure" which recommended that changes to funding arrangements should be consulted on widely. However, precise arrangements in each local authority area are matters for the relevant LEA.

### Teachers Recruitment (Ethnic Minorities)

**Mr. Jim Cunningham:** To ask the Secretary of State for Education and Skills what steps her Department is taking to promote the recruitment of teachers from ethnic minorities. [12201]

**Jacqui Smith:** The TTA's target since 2000 has been to increase recruitment of trainees from a minority ethnic background to 9 per cent. of total places. For courses beginning in autumn 2004, provisional figures for entry into initial teacher training show that 2,943 (9.1 per cent.) were from a minority ethnic background. This is an increase of 759 trainees (35 per cent.) since 2002.

Despite meeting the 9 per cent. national target two years early, increasing recruitment of trainee teachers from a minority ethnic background further will continue to be a priority over the next three years at least.

For 2005/06, the TTA has allocated £1.5 million of funding to enable initial teacher training institutions to take local action to increase their recruitment and retention of trainees. This funding has been used to provide race awareness training for staff involved in initial teacher training (ITT) courses; review and refine recruitment processes; develop targeted marketing of ITT courses to minority ethnic communities; facilitate application support workshops; update school mentor training and support other activities aimed at improving recruitment and retention.

### Select Committee Report (Reading)

**Mr. Gibb:** To ask the Secretary of State for Education and Skills when she will respond to the Education and Skills Select Committee report into the Teaching of Reading. [11705]

**Jacqui Smith:** The DfES response to the Select Committee report into the Teaching of Reading was sent to the clerk of the committee on Friday 7 July 2005.

### Unemployed Graduates

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what the unemployment rate among first degree graduates was one year after graduation in each year between 1994 and 2004. [9566]

**Bill Rammell:** The latest available information, which shows the percentage of newly qualified graduates who were unemployed six months after graduation, is shown in the table.

*Unemployment rates of UK domiciled full-time first degree graduates UK HE institutions*

| | | of which, those who were unemployed: | |
|---|---|---|---|
| *Academic year* | *Total graduates with known destination*[1] | *Number* | *Percentage* |
| 1994/95 | 162,020 | 14,930 | 9 |
| 1995/96 | 170,975 | 13,980 | 8 |
| 1996/97 | 171,280 | 11,905 | 7 |
| 1997/98 | 172,660 | 9,920 | 6 |
| 1998/99 | 176,205 | 9,720 | 6 |
| 1999/00 | 170,750 | 9,330 | 5 |
| 2000/01 | 176,415 | 11,050 | 6 |
| 2001/02 | 176,390 | 12,110 | 7 |
| 2002/03 | 176,215 | 12,410 | 7 |
| 2003/04 | 181,870 | 11,845 | 7 |

[1] The response rate for these surveys is around 80 per cent.; the graduate figures in the table therefore exclude those who did not respond to the survey.
Figures have been rounded to the nearest 5.
*Source:*
First Destination Survey (FDS) 1994/95–2001/02, and Destination of Leavers from Higher Education survey (DLHE) for later years. Both surveys are conducted by the Higher Education Statistics Agency (HESA).

Additional research commissioned by the Department on the longer term career patterns of graduates shows that destinations at the six month point are not representative of longer-term outcomes. A survey of 1995 graduates shows a significant fall in unemployment rates over time. After one year post-graduation, 5.2 per cent. of graduates were out of work, falling further still to 2.6 per cent. after two years, and 1.3 per cent. after three and a half years.[1]

In addition, projections of occupational demand show that of the 13.5 million total jobs expected to be filled by 2012, 50 per cent.—that is, 6.8 million—are in occupations most likely to demand graduates[2].

[1] Data from Elias, P et al (1999) "Moving On: graduate careers three years after graduation." CSU/DfEE.
[2] Based on data from Wilson, R et al (2004) "Working Futures: new projections of occupational employment by sector and region, 2002–2012" IER, Warwick.

### Voluntary-aided Schools

**Dr. Kumar:** To ask the Secretary of State for Education and Skills what plans are being considered for *(a)* voluntary-aided and *(b)* voluntary-aided faith schools in Teesside. [12526]

**Jacqui Smith:** Local authorities have the statutory responsibility for planning school places in their area. The local authorities on Teesside will therefore liaise with the churches, other faith organisations and governing bodies about plans for their schools.

Independent promoters, including church and faith organisations, may also publish proposals to open new faith schools at any time. The Department has no role in the planning process.

## DEPUTY PRIME MINISTER

### Telecommunications 3G Masts

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the answer of 5 July 2005, *Official Report*, column 317W, on mobile phone masts/technology, what estimate the Government have made of the number of 3G masts necessary to have a 100 per cent. coverage of the population. [11961]

**Yvette Cooper:** The Government have made no estimate of the number of 3G masts necessary to have a 100 per cent. coverage of the population. The Government will be commissioning further research to identify the future direction of mobile phone technology and the future need for mast developments.

### Affordable Housing

**Margaret Moran:** To ask the Deputy Prime Minister how many affordable housing units built or procured through the Housing Corporation Approved Development Programme and Challenge Fund have been *(a)* mixed funded social rented housing, *(b)* temporary social rented housing, *(c)* Homebuy general market purchase, *(d)* Homebuy general new build, *(e)* mixed funded low cost home ownership for sale, *(f)* miscellaneous works to registered social landlord (RSL) stock, *(g)* reimprovements to rented RSL stock, *(h)* works only rehabilitation of rented RSL stock, *(i)* works only rehabilitation of RSL stock for sale, *(j)* intermediate rent for key workers, *(k)* Homebuy market purchase for key workers, *(l)* Homebuy new build for key workers, *(m)* mixed funded sale for key workers and *(n)* Starter Home Initiative in the east region in each year since 1997–98; and how much was spent on each category in each year. [8848]

**Yvette Cooper:** The following tables show the number of homes built or acquired, and funding provided, through the Housing Corporation Approved Development Programme, the Challenge Fund and the Starter Home Initiative, in the east region for categories from *(a)* to *(n)*, for each year since 1997–98.

Funding and completions are not directly comparable, as funding will relate to projects running, not necessarily units completed, in any one year.

The information in the tables does not include all programmes that the ADP is used for and therefore does not represent the total funding for the north east region. Other categories with funding during the time period covered by the table are Right to Acquire, Voluntary Purchase Grant, Do-It-Yourself Shared Ownership, and Temporary Intermediate and Market Rent Housing.

*Number of homes built or acquired in the eastern region*

| | | 1997–97 | 1998–99 | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|---|---|---|---|---|---|
| *(a)* | Mixed Funded Rent | 1,726 | 2,170 | 1,708 | 1,573 | 1,576 | 1,629 | 1,492 | 1,826 |
| *(b)* | Temporary rent | 122 | 175 | 88 | 68 | 52 | 20 | 38 | 13 |
| *(c)* | Homebuy market purchase | n/a | n/a | 0 | 145 | 105 | 155 | 242 | 3 |
| *(d)* | Homebuy New Build | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 0 |
| *(e)* | Mixed Funded sale | 316 | 135 | 65 | 75 | 53 | 34 | 127 | 129 |
| *(f)* | Miscellaneous Works | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| *(g)* | Re-improvements rent | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| *(h)* | Works only rehabilitation for rent | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| *(i)* | Works only rehabilitation for sale | n/a | n/a | n/a | n/a | n/a | n/a | n/a | n/a |
| *(j)* | Intermediate rent for Keyworkers | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 64 |
| *(k)* | Homebuy Market Purchase for Keyworkers | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 485 |
| *(l)* | Homebuy New Build for Keyworkers | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 0 |
| *(m)* | Mixed Funded sale for Keyworkers | n/a | n/a | n/a | n/a | n/a | n/a | n/a | 28 |
| *Challenge Fund* | | | | | | | | | |
| *(a)* | Mixed Funded Rent | n/a | n/a | n/a | n/a | n/a | n/a | 35 | 157 |
| *(d)* | Homebuy New Build | n/a | n/a | n/a | n/a | n/a | n/a | 6 | 0 |
| *(e)* | Mixed Funded sale | n/a | n/a | n/a | n/a | n/a | n/a | 13 | 48 |
| | Intermediate Rent | n/a | n/a | n/a | n/a | n/a | n/a | 22 | 25 |
| *(n)* | Starter Home Initiative | n/a | n/a | n/a | n/a | 4 | 147 | 486 | 52 |

Miscellaneous works, re-improvements to rented RSL stock, works only rehabilitation of rented RSL stock and works only rehabilitation of RSL stock for sale are not recorded as completed dwellings as they may previously have received funding and could therefore be double-counted.

*Expenditure in the eastern region for the listed categories*

*£ million*

### Audit Commission

**Mrs. Spelman:** To ask the Deputy Prime Minister what the *(a)* budget of and *(b)* number of full-time equivalent staff employed by the Audit Commission was in each year since its creation; and what the estimated figure is for 2005–06. [13119]

**Mr. Woolas:** This is an operational matter for the Audit Commission. I will ask the Chief Executive to write to the hon. Member and to ensure the answer is made available to the House.

### Local Government Research

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister what the cost is of the research his Department has commissioned from BMG Research on people's views on local authorities; how many people will be surveyed; how the replies will be collated; when the results will be published; how recipients of questionnaires were selected; and for what purposes the research was commissioned. [12753]

**Mr. Woolas:** BMG have been contracted by the Office of the Deputy Prime Minister through the Local and Regional Government Research Programme to undertake a national level survey which will track public satisfaction rates with local government and its services between rounds of the BVPI surveys that all English local authorities are required to undertake every three years. This survey will also provide information which will allow for the current standardised BVPI user-satisfaction questionnaire to be developed into an instrument that is of even more practical value to local authorities in understanding drivers of satisfaction with local government and the actions that can be taken to address them at a local level.

BMG have sent 8,000 questionnaires to individuals across England as part of this national survey.

The sample for the survey was selected randomly from the Postal Address File. Thus every address listed on the Postal Address File had an equal chance of being sent a questionnaire. Returns are anonymised and treated in the strictest confidentiality.

BMG will be paid £36,000 plus VAT by ODPM for the national survey of public-satisfaction with local government and its services. This survey is currently in the field.

The responses to the survey will be entered into a statistical computer package which will collate the data.

The data collection and analysis for this work is likely to be completed by the autumn of 2005. A report on this work will be subsequently published by the end of 2005.

### Business Rates

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate he has made of the average reduction in bills for small business rate relief in England in 2005–06. [11999]

**Mr. Woolas:** The Office of the Deputy Prime Minister estimates the average relief to be around £650.

**Mrs. Spelman:** To ask the Deputy Prime Minister (1) what estimate the Government have made of the notional revenue forgone from introducing small business rate relief in England in 2005–06; [12006]

(2) what estimate the Government have made of the revenue raised from increasing the business rates multiplier by 0.7 pence for medium and large firms. [12007]

**Mr. Woolas:** On the basis of returns completed by local authorities before the start of the current financial year, an estimated £390 million is expected to be claimed in small business rate relief for 2005–06 and an estimated £355 million raised from those business properties not eligible for the relief. These estimates will be revised in due course in the light of actual applications made for relief and the amount of revenue actually collected from non-eligible properties. Applications for small business rate relief may be made up to six months after the end of the financial year to which the application relates, or six months from notification of an alteration to a rateable value that makes the hereditament eligible for relief.

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate he has made of the claim rate for small business rate relief in England in 2005–06. [12010]

**Mr. Woolas:** The Office of the Deputy Prime Minister estimates the claim rate for small business rate relief in England for 2005–06, per rateable value band, to be as follows.

| Rateable value band (£) | Midpoint | Percentage relief for midpoint | Assumed claim rate (percentage) |
|---|---|---|---|
| 0–1,500 | 750 | 50 | 22.1 |
| 1,501–2,500 | 2,000 | 50 | 50.9 |
| 2,501–3,000 | 2,750 | 50 | 49.2 |
| 3,001–4,000 | 3,500 | 50 | 48.2 |
| 4,001–5,000 | 4,500 | 50 | 52.9 |
| 5,001–6,500 | 5,750 | 42.5 | 54.9 |
| 6,501–8,000 | 7,250 | 27.5 | 47.9 |
| 8,001–9,000 | 8,500 | 15 | 52.9 |
| 9,001–10,000 | 9,500 | 5 | 52.9 |

## Social Housing

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister how many people were registered on council housing waiting lists in each local authority *(a)* in 1997 and *(b)* on the last date for which figures are available. [11160]

**Yvette Cooper:** Information on the number of households on the housing waiting list (excluding tenants awaiting a transfer) in each local authority in England has been placed in the Library of the House. Figures provided are as at 1 April 1997 and 2004, the latest year available.

Local authorities sometimes maintain a common waiting list with the RSLs, sometimes known as Housing Associations, in their district. However, information is not held centrally where a RSL maintains a separate waiting list to the local authority.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister how many families were housed in temporary accommodation by each local authority *(a)* in 1997 and *(b)* on the last date for which figures are available. [11161]

**Yvette Cooper:** Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households in temporary accommodation on the last day of the quarter, and since 2002 those that include dependent children or a pregnant woman.

A table presenting information on the number of households in temporary accommodation by each local authority as at 31 March 1997, and the number as at 31 March 2005 (the latest available date) together with the number that contain dependent children or a pregnant woman, has been placed in the Library of the House.

The Government have set a target to halve the number of households in temporary accommodation by 2010. Homeless acceptances in the first quarter of 2005 were 20 per cent. lower than the corresponding period in 2004.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister whether his Department keeps a list of tenants' advisers for housing transfers. [9640]

**Yvette Cooper:** The Office of the Deputy Prime Minister has a record of tenants' advisers who undertake a range of work which may include work related to housing transfer, but which primarily relates to work on training and networking. The Office of the Deputy Prime Minister does not maintain a list of "approved" tenants advisers solely for housing transfer work.

**Sarah Teather:** To ask the Deputy Prime Minister how many homes have been built in the social rented sector as a result of planning gain agreements between developers and local authorities in each year since 1997. [12221]

**Yvette Cooper:** Information has only been collected centrally since 2000–01. An estimate of the annual number of units of dwellings provided for the social rented sector in England under Section 106 agreements without other funding since 2000–01 are in the following table:

| | Number |
|---|---|
| 2000–01 | 700 |
| 2001–02 | 1,000 |
| 2002–03 | 700 |
| 2003–04 | 1,500 |

*Source:*
Housing Strategy Statistical Appendix returns from local authorities to ODPM.

Further dwellings are delivered with fixed funding.

**Sarah Teather:** To ask the Deputy Prime Minister how many homes have been built for the social rented sector by local authorities or other registered social landlords in each year since 1997. [12222]

**Yvette Cooper:** The annual numbers of dwellings built for rent by either local authorities or by registered social landlords (through Housing Corporation's Approved Development Programme and Transitional Local Authority Social Housing Grant) are in the following table:

| | Local authority | Registered social landlords |
|---|---|---|
| 1997–98 | 323 | 22,851 |
| 1998–99 | 194 | 22,278 |
| 1999–2000 | 88 | 19,513 |
| 2000–01 | 179 | 17,303 |
| 2001–02 | 63 | 17,494 |
| 2002–03 | 200 | 16,601 |
| 2003–04 | 180 | [1]16,100 |

Local Authority house building returns (P2) to ODPM; Housing Corporation

**Mr. Gerrard:** To ask the Deputy Prime Minister if he will produce guidance for housing associations and local authorities on support for tenants *(a)* with mental health problems and *(b)* who exhibit antisocial behaviour. [12162]

**Yvette Cooper:** The Office of the Deputy Prime Minister (ODPM) has already published a range of guidance on these two areas.

ODPM is committed to working closely with the Home Office and the Housing Corporation, as part of the 'TOGETHER' campaign to support social landlords and other relevant practitioners in tackling antisocial behaviour by way of balanced approaches involving prevention, support and enforcement. This

includes providing material aimed at social landlords on the Together website, access to a helpline (the Together hotline) and the Together Academy (a centre of excellence in tackling all aspects of ASB).

Guidance produced is as follows:

*(a)* In April 2004, ODPM published guidance "Achieving positive shared outcomes in health and homelessness", jointly with the Department of Health, to local authorities, PCTs and other health providers on key positive outcomes which health and housing partnerships might work towards, including improving mental health treatment and preventing homelessness through targeted health support.

*(b)* "Action on Mental Health" was published by ODPM in October 2004 as a follow up to the Mental Health and Social Exclusion report published in June 2004. The pack contains a number of factsheets aimed at both service users and service providers and gives guidance to promoting social inclusion for adults who are affected by mental health problems. The factsheet on housing gives information on ensuring appropriate housing allocations, enabling someone to keep their home and preventing and addressing homelessness for this vulnerable group.

*(c)* In March 2005, ODPM published guidance on "Accommodation and support options for people with mental health problems". This was primarily aimed at local authority Supporting People officers and local service commissioners, but will also be of assistance to landlords in understanding the needs and support options of tenants.

The Housing Corporation's Regulatory Code and guidance sets out the fundamental obligations and expectations of registered social landlords. In July 2004 the corporation published circular "Tenancy Management: Eligibility and Evictions" which provides guidance on RSLs working with local authorities and other agencies to arrange appropriate support, so that it is available at the beginning of a tenancy, to those individuals whose assessments indicate vulnerability for whatever reason.

In August 2004 the corporation published circular "Statutory Housing Management Guidance on Anti-social Behaviour Policies and Procedures" which sets out the corporation's expectations of RSLs' compliance with section 12 of the Anti-social Behaviour Act 2003 and how compliance will be assessed. In addition the corporation has published statutory guidance on the prevention of antisocial behaviour including measures such as mediation services, uniformed warden patrols and reward schemes for tenants with a record of a well conducted tenancy.

**Alan Simpson:** To ask the Deputy Prime Minister pursuant to his answer to the hon. Member for North-West Leicestershire (David Taylor) on 29 June 2005, *Official Report*, columns 1295–96W, if he will break down the £6.5 billion levered into the housing sector via stock transfers by source; and what the market value is of the transferred stock now managed by *(a)* arm's length management organisation, *(b)* registered social landlords and *(c)* the private sector. [11533]

**Yvette Cooper:** Stock transfers are always to a Registered Social Landlord (RSL). In both ALMOs and PFI the ownership of the stock stays with the council. The Office of the Deputy Prime Minister do not hold information on the source of the private finance levered in by an RSL through stock transfer or the current market value of the transferred stock.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister if he will list the registered social landlords which have been the subject of mergers or take-overs since 1998; and how many homes belong to each. [11156]

**Yvette Cooper:** Details of transfer of engagements or undertakings between RSLs for the past two years have been placed in the Library of the House. The cost to the Housing Corporation of searching back through individual RSL files to provide details of cases from 1998 to April 2003 to find out whether a merger had taken place or not would be disproportionate.

## Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the presence of a shed in the garden of a residential property will be taken into account as a property attribute in the council tax revaluation. [11438]

**Mr. Woolas:** The purpose of the council tax revaluation is to establish the market value of properties at 1 April 2005. In order to do this the Valuation Office Agency will look at certain attributes of properties as a means of ensuring that they are valued fairly and accurately in relation to one another. Garden sheds are not one of these attributes.

**Mrs. Spelman:** To ask the Deputy Prime Minister how many people have been fined for non-payment of council tax in England in each year since 1997–98. [11994]

**Mr. Woolas:** I refer the hon. Lady to the answer given on 20 June 2005, *Official Report*, column 817W.

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the written statement of 7 July 2005, *Official Report*, columns 14–15WS, on council tax capping 2005–06, what the Band D council tax in 2005–06 is in each of the eight local authorities which have been designated for capping; what the *(a)* pre-capping band D district precept including average parish precepts and *(b)* pre-capping band D bill for the whole billing authority of each is; and what the estimated revised (i) post-capping band D district precept including average parish precepts and (ii) band D bill for the whole billing authority of each is. [12001]

**Mr. Woolas:** The information requested for authorities designated for capping in 2005–06 is tabled as follows:

| *Authority* | *Pre-capping band D district precept (including parish precepts)* | *Pre-capping band D: whole billing authority* | *Estimated post-capping band D district precept (including parish precepts)* | *Estimated post-capping band D: whole billing authority* |
|---|---|---|---|---|
| Aylesbury Vale | 161 | 1,223 | 159 | 1,221 |
| Daventry | 167 | 1,178 | 159 | 1,171 |
| Hambleton | 102 | 1,188 | 96 | 1,182 |
| Huntingdonshire | 161 | 1,191 | 155 | 1,184 |

| Authority | Pre-capping band D district precept (including parish precepts) | Pre-capping band D: whole billing authority | Estimated post-capping band D district precept (including parish precepts) | Estimated post-capping band D: whole billing authority |
|---|---|---|---|---|
| Mid Bedfordshire | 166 | 1,336 | 159 | 1,329 |
| North Dorset | 146 | 1,289 | 131 | 1,275 |
| Runnymede | 118 | 1,193 | 110 | 1,185 |
| South Cambridgeshire | 186 | 1,216 | 139 | 1,169 |

*Notes:*
Estimated post capping figures assume that authorities reduce their budgets to the maximum permitted budget requirement. Although parish precepts have been included they are not subject to capping. In addition, the principles set for 2005–06 were applied to each authority individually and not to 'the whole billing authority'.

### Departmental Staff

**David T.C. Davies:** To ask the Deputy Prime Minister how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11506]

**Jim Fitzpatrick:** I refer the hon. Member to Table C of Civil Service Statistics 2004 which is available on the internet at http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_ c.xls

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library of the House.

### Building Regulations (Domestic Water Appliances)

**Mary Creagh:** To ask the Deputy Prime Minister if he will amend building regulations to limit the temperature on domestic water appliances to minimise the risk of scalding. [3101]

**Yvette Cooper:** Hot water safety has been considered in the review of part G of the Building Regulations; limiting the risk of scalding has been discussed. Direct control of temperatures is one of the options, although there are other ways of addressing it. Currently there are no immediate plans to introduce specific measures.

### Empty Homes

**Mr. Hollobone:** To ask the Deputy Prime Minister what his latest estimate is of the number of empty homes in each local authority area in England. [11412]

**Yvette Cooper:** The available information on empty homes in each local authority area in England has been made available in the Library of the House. This data has been provided from a combination of the ODPM's Housing Strategy Statistical Appendix return and Housing Corporation's Regulatory and Statistical Return. The total number of vacant dwellings in 2004 was 693,800, a drop of 73,400 since 1997.

### English Regions Network

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will make a statement on the *(a)* role and *(b)* funding of the English Regions Network. [11991]

**Yvette Cooper:** The English Regions Network is the umbrella body for the regional assemblies outside London. Its primary role is to represent the collective views of the regional assemblies to Government and other key institutions; encourage new thinking and research in areas of concern to regions; to share best practice and facilitate inter regional networking amongst assemblies.

The English Regions Network is funded from the ODPM grant allocation to the regional assemblies. In 2005–06 the level of grant payable will be £194,000.

### Fire and Rescue Services

**Mr. Sanders:** To ask the Deputy Prime Minister what his estimate is of the amount of income which will be raised from charging under the Fire and Rescue Services Act 2004 in the 2005–06 financial year. [11992]

**Jim Fitzpatrick:** Section 19 of the Fire and Rescue Services Act 2004 states that "taking one year with another" a Fire and Rescue Authority (FRA) may not recover more in charges for its total provision of services in a particular category than it incurred in making that provision. The Office of the Deputy Prime Minister do not collect data on the amount raised by FRAs through s19 charging.

**Mr. Sanders:** To ask the Deputy Prime Minister which fire authorities have submitted plans for charging under the Fire and Rescue Services Act 2004; and what charges have been approved in each case. [11995]

**Jim Fitzpatrick:** Section 19 of the Fire and Rescue Services Act 2004 provides for the Secretary of State to make an order specifying categories of service for which a Fire and Rescue Authority (FRA) may charge. The first such order (SI 2004/2305) specifies 16 such categories. FRAs do not need any further permission from the Office of the Deputy Prime Minister to charge under these categories. ODPM do not collate information centrally on which FRAs have decided to charge for a specified category.

**Mr. Hoyle:** To ask the Deputy Prime Minister what criteria were used to determine the membership of county fire authorities; what guidance has been issued on their composition; and if he will require authorities to include members of district councils in their membership. [12477]

**Jim Fitzpatrick:** Where the county council is the county fire and rescue authority, the membership of the fire and rescue committee is governed by the normal arrangements for local authority committees, and the guidance issued in respect of such committees applies. The membership of a Combined Fire Authority, such as Lancashire, is set out in the relevant Combination Scheme. The Lancashire Fire Services (Combination Scheme) Order 1997 follows the usual pattern and

provides for members from the county council and from the unitary authorities in the former county area, i.e. Blackpool and Blackburn with Darwen. I have no plans to change these arrangements.

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the Government plans to extend insurance cover for fire fighters; and if he will make a statement. [13068]

**Angela Watkinson:** To ask the Deputy Prime Minister what plans he has to extend insurance cover for firefighters; and if he will make a statement. [13179]

**Jim Fitzpatrick:** Government do not provide insurance cover for firefighters. Firefighter pay, pension and injury arrangements reflect the nature of the job and the risks that may be incurred.

Cabinet Office is working with other Government Departments to address the cross-emergency service issue concerning terrorism exclusions in some personal insurance policies.

**Mrs. Spelman:** To ask the Deputy Prime Minister what commitment the Government gave to extend insurance cover for the fire fighters in the 2003 pay agreement. [13069]

**Angela Watkinson:** To ask the Deputy Prime Minister what commitment the Government gave to extend insurance cover for firefighters in the 2003 pay agreements. [13180]

**Jim Fitzpatrick:** Government do not provide insurance cover for firefighters. Firefighter pay, pension and injury arrangements reflect the nature of the job and the risks that may be incurred. Depending on the circumstances of an individual, these can provide a lump sum of up to seven times pensionable pay in the event of death and an ill-health pension and injury benefits giving up to 85 per cent. of salary in the event of an injury curtailing earning capacity.

Cabinet Office is working with other Government Departments to address the cross emergency service issue concerning terrorism exclusions in some personal insurance policies.

**Mrs. Spelman:** To ask the Deputy Prime Minister what changes have been made to insurance cover for firefighters since May 1997. [13099]

**Angela Watkinson:** To ask the Deputy Prime Minister what changes have been made to insurance cover for firefighters since May 1997. [13181]

**Jim Fitzpatrick:** Government do not provide insurance cover for firefighters. Firefighter pay, pension and injury arrangements reflect the nature of the job and the risks that may be incurred.

Cabinet Office is working with other Government Departments to address the cross emergency service issue concerning terrorism exclusions in some personal insurance policies.

**Mrs. Spelman:** To ask the Deputy Prime Minister what insurance cover is provided for firefighters; whether this includes terrorism cover; and if he will place in the Library a copy of the standard insurance policy for firefighters. [13100]

**Angela Watkinson:** To ask the Deputy Prime Minister what insurance cover is provided for firefighters; whether this includes terrorism cover; and if he will place in the Library a copy of the standard insurance policy for firefighters. [13182]

**Jim Fitzpatrick:** Government do not provide insurance cover for firefighters. Firefighter pay, pension and injury arrangements reflect the nature of the job and the risks that may be incurred. Individuals may take out personal insurance policies, which may include terrorism cover, however this is a matter of personal choice for those individuals.

Cabinet Office is working with other Government Departments to address the cross emergency service issue concerning terrorism exclusions in some personal insurance policies.

**Mr. Amess:** To ask the Deputy Prime Minister when he expects the regional fire control rooms to be operational; and if he will make a statement. [13552]

**Jim Fitzpatrick:** Current project completion is scheduled for the first quarter of 2009. Subject to final decisions on the project, this timetable will be revised, and a new one published as soon as practicable.

### Fische Planning Appeal Inquiry

**Tim Loughton:** To ask the Deputy Prime Minister for what reasons his Department provided details of the planning appeal inquiry into the Fische in Shoreham-by-Sea to the press before informing the appellants and Adur council. [12799]

**Yvette Cooper:** The normal procedure in such cases is for the appellants and council to receive notification of decisions by recorded delivery in advance of any wider announcement. I am sorry that, as a result of a misunderstanding between the issuing office and the Government News Network in this case, the local press was notified on the same date as the letters were despatched to the appellants and the council. I regret the apparent lack of courtesy in this case which was certainly not intended.

**Tim Loughton:** To ask the Deputy Prime Minister (1) whether he plans to issue further planning guidance on the mooring of houseboats following the ruling on the Fische in Shoreham-by-Sea, West Sussex; and if he will make a statement; [12800]

(2) why houseboats are not considered to be developments for planning purposes. [12801]

**Yvette Cooper:** The Office of the Deputy Prime Minister has no plans to issue guidance on the mooring of houseboats. Because they are mobile property, boats are 'chattels' rather than buildings or structures. This means they are outside planning control unless one is moored for so long in the same place that it can be regarded as bringing about a material change of use of land. Local planning authorities have enforcement powers where land-use is changed without the necessary permission.

### Gypsy/Traveller Sites

**Julie Morgan:** To ask the Deputy Prime Minister what estimate he has made of the accommodation needs

of Gypsies and Travellers in Essex in each year since 1994; and what provision has been made by local councils to meet this need. [12768]

**Yvette Cooper:** The Government do not make detailed assessment of accommodation needs for Gypsies and Travellers in particular areas. It is for local authorities to make such assessments when considering what provision to make. The Housing Act 2004 requires local authorities to carry out a housing needs assessment for Gypsies and Travellers. Under the provisions of the Planning and Compulsory Purchase Act 2004, local authorities must identify sites within their local plans to meet any identified need.

It is understood that Essex county council is in the process of carrying out a housing needs assessment. Local authorities in Essex provide 165 pitches on 11 sites. These currently accommodate some 249 caravans.

**Julie Morgan:** To ask the Deputy Prime Minister whether he has asked the Law Commission to include legal protection for those living on rented Gypsy and Traveller sites in its review of tenancy law. [12770]

**Yvette Cooper:** The Office of the Deputy Prime Minister has not asked the Law Commission to include Gypsy and Traveller site issues in its review of tenancy law. The issues are being considered within the Office of the Deputy Prime Minister.

**Julie Morgan:** To ask the Deputy Prime Minister how many inquiries he has received from registered social landlords seeking information about borrowing capital for the development of Gypsy and Traveller sites; what steps he has taken to publicise his policy on such loans; when he expects to publish guidelines; and how he intends to *(a)* promote this policy and *(b)* monitor its effectiveness. [12771]

**Yvette Cooper:** Secondary legislation providing for registered social landlords (RSLs) to provide sites for Gypsies and Travellers will come into force in time for the next bidding round for 2006–07. This facility has already been publicised in a variety of ways, including in Parliament and in the Government's response to the ODPM Select Committee Inquiry. The Office of the Deputy Prime Minister will be explaining the new arrangements in more detail to RSLs, in general terms via guidance from the Housing Corporation and through specific bidding guidance on the next bidding round. This guidance will include an explanation of arrangements for monitoring the progress of schemes. Clearly it is too early to assess the effectiveness of this policy, but we will be keeping the progress of this initiative under close review as part of a wider package of measures we are taking to promote increased site provision generally.

**Mrs. Spelman:** To ask the Deputy Prime Minister what plans the Government have to give stronger powers to local councils to *(a)* remove illegal Traveller camps and *(b)* tackle unauthorised development. [11996]

**Yvette Cooper:** Local authorities and the police have strong powers under the Criminal Justice and Public Order Act 1994 to evict unauthorised encampments of Gypsies and Travellers from land. The Department has also introduced new police powers in the Anti-Social Behaviour Act 2003 which will enable the police to remove Gypsies and Travellers from unauthorised encampments with greater speed.

Under powers in the 1990 Town and Country Planning Act, as amended by the 1991 Planning and Compensation Act, local planning authorities have wide-ranging enforcement powers to deal with unauthorised development. Since 7 March this year, local planning authorities have been able to use temporary stop notices, where they consider that there has been a breach of planning control and it is important that the activity which amounts to the breach is stopped.

The use of these powers is very varied across the country. The Department is working with local authorities and the police to improve the understanding and use of these powers and to renew their operation to see if further action is needed.

**Julie Morgan:** To ask the Deputy Prime Minister what steps he has taken in response to the Council of Ministers' request for legal changes on licences and tenancies to give effect to the ruling of the European Court of Human Rights in the O'Connor case. [12769]

**Yvette Cooper:** The Housing Act 2004 s.211 allows judges to suspend eviction orders against residents of local authority Gypsy and Traveller sites. This brings the situation for residents of local authority sites in line with those on private Gypsy and Travellers sites and those with secure tenancies in bricks and mortar housing in this respect. The provision came into force on 18 January 2005.

The Office of the Deputy Prime Minister recognises that the provisions of the Housing Act do not fully address the issues raised by the Connors case, and is continuing to consider issues of tenure of local authority Gypsy and Traveller sites.

### Homelessness

**Sarah Teather:** To ask the Deputy Prime Minister what the actual revenue grant payments made by the Homelessness Directorate were in support of local homelessness strategies in each local authority in London in *(a)* 2003–04 and *(b)* 2004–05. [12226]

**Yvette Cooper:** The following table provides details of actual revenue grant payments made by the Homelessness and Housing Support Directorate to local authorities in London. It also shows the full revenue allocations, as some payments are subject to authorities submitting outstanding supporting documentation.

Funding provided by the Directorate has supported action to successfully reduce rough sleeping by more than 70 per cent. since 1998, end the use of B&B hotels as long-term accommodation for families with children, and develop homelessness strategies and preventive approaches which have resulted in the first sustained fall in new cases of homelessness for nearly a decade. Homelessness acceptances dropped by 20 per cent. in 2004.

The National Audit Office have estimated that, by achieving reductions in the use of B&B hotels for families, local authorities nationally have achieved

annual savings of up to £50 million. London authorities were generally the highest users of B&B accommodation so will have accrued significant savings.

In addition to providing revenue grants the Directorate has also, since 2004–05, provided capital funding to authorities and also provides grants to voluntary sector agencies providing services across more than one borough. Capital funding to London authorities was £10.8 million in 2004–05 and is increasing to £14.9 million in 2005–06. Including capital grants and funding to voluntary sector agencies funding from the Directorate to London has increased from £42.7 million in 2003–04 to £43.7 million in 2004–05 and will increase further to £44.0 million in 2005–06. These figures exclude homelessness capital funding provided from the Housing Corporation's Approved Development Programme.

Homelessness grants supplement a number of other programmes that help local authorities to tackle homelessness, including housing capital investment, Supporting People and Revenue Support Grant which was increased by £8 million per annum to enable authorities to prepare the homelessness strategies required by the Homelessness Act 2002.

£

| | *Homelessness revenue grant payments:* | | *Homelessness revenue grant allocations:* |
|---|---|---|---|
| | *2003–04* | *2004–05* | *2004–05* |
| Barking and Dagenham | 68,000 | 14,000 | 28,000 |
| Barnet | 416,787 | 123,750 | 165,000 |

| Wandsworth | 546,000 | 300,000 | 300,000 |
| Westminster | 4,434,374 | 7,366,000 | 7,366,000 |

**Sarah Teather:** To ask the Deputy Prime Minister if he will break down Homelessness Directorate funding in support of local homelessness strategies by Government Office Region for each year since 2002–03. [12227]

**Yvette Cooper:** The Homelessness and Housing Support Directorate provide both revenue and capital funding to support the implementation of local homelessness strategies. While predominantly provided to local authorities some funding, particularly in London, is provided direct to voluntary sector agencies.

The following table breaks down homelessness grants by Government Office Region.

*£ million*

| | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
|---|---|---|---|---|
| London | 43.6 | 42.7 | 43.7 | 44.0 |
| Eastern England | 3.5 | 3.3 | 3.0 | 3.0 |
| East Midlands | 2.6 | 2.2 | 4.3 | 3.4 |
| North East | 0.8 | 0.9 | 1.0 | 1.0 |
| North West | 4.3 | 4.0 | 3.6 | 4.1 |
| South East | 6.6 | 6.4 | 5.9 | 6.6 |
| South West | 5.2 | 4.3 | 4.5 | 3.8 |
| West Midlands | 2.3 | 2.2 | 2.3 | 2.3 |
| Yorkshire and The Humber | 1.8 | 1.7 | 2.1 | 3.0 |

*Note:*
These figures exclude homelessness capital funding provided from the Housing Corporation's Approved Development Programme.

Homelessness grants represent only one element of the funding available to local authorities, supplementing other programmes that help authorities to tackle homelessness, including housing capital investment, Supporting People and Revenue Support Grant.

**Sarah Teather:** To ask the Deputy Prime Minister which local authorities in London will receive less Homelessness Directorate funding in support of local homelessness strategies in 2005–06 than they did in 2004–05; and if he will make a statement. [12228]

**Yvette Cooper:** The Homelessness and Housing Support Directorate provides both revenue and capital funding to support the implementation of local homelessness strategies.

Overall homelessness funding to local authorities in London has increased from £32.9 million in 2004–05 to £34.8 million in 2005–06. Including grants paid direct to voluntary sector agencies, funding in London has increased from £43.7 million to £44 million over these two years. These figures exclude homelessness capital funding provided from the Housing Corporation's Approved Development Programme.

Within this overall increase 12 authorities had funding maintained at the same level, eight had their funding increased and 13 had their funding reduced.

The 13 that saw a reduction in funding are: Barnet, Corporation of London, Croydon, Greenwich, Hounslow, Islington, Lewisham, Newham, Redbridge, Southwark, Sutton, Wandsworth and Westminster.

Of these Barnet, Greenwich, Hounslow, Islington, Redbridge and Sutton saw reductions of less than £40,000, for the Corporation of London the reduction was due to the transfer of funding for one project to another authority and for Lewisham and Westminster the reduction was due to elements of capital funding coming to completion.

### Design for Manufacture Competition

**Mrs. Spelman:** To ask the Deputy Prime Minister in which Government Office Regions he expects the homes provided under the Government's £60,000 homes

competition will be built; and whether he expects homes will be built on *(a)* formerly contaminated land and *(b)* privately owned land. [11396]

**Yvette Cooper:** The sites in the design for manufacture competition are located in the South East (seven sites), East Midlands (one site), London (one site) and Yorkshire and the Humber (one site).

All the sites in the Design for Manufacture competition include formerly contaminated land. Site appraisal will be carried out in due course.

All the sites are owned by the public sector. School Road, Hastings, is owned by the South East England Development Agency (SEEDA) and all the other sites are owned by English Partnerships.

**Mrs. Spelman:** To ask the Deputy Prime Minister what estimate the Government has made, or what conditions the Government has required, for the longevity or building life of the residential accommodation provided in the £60,000 home competition. [13111]

**Yvette Cooper:** All the homes to be built through the Design for Manufacture competition will be to high quality standards. The competition evaluation process includes examination of the component life, building process and material performance of the construction process proposed by bidders as well as the maintenance costs and the environmental sustainability of the proposals. The competition also requires that all building methods proposed are capable of achieving all necessary approvals, including conformity with current building regulations and certification by the National House Building Council, and are also capable of being insured and attracting mortgage lending.

### Housing Standards

**Mrs. Spelman:** To ask the Deputy Prime Minister what assessment he has made of the proportion of households satisfied with the quality of homes in which they live *(a)* in England and *(b)* in deprived areas in each year since 1996–97 for which figures are available. [11397]

**Yvette Cooper:** Figures on households' overall satisfaction with their accommodation for *(a)* England and *(b)* deprived areas for each year since 1996–97 are in the following table.

*Percentage of households that said they were satisfied with their accommodation*

| | *England* | *Deprived areas* |
|---|---|---|
| 1996–97 | 90 | 83 |
| 1997–98 | 91 | 84 |
| 1998–99 | 91 | 85 |
| 1999–2000 | 91 | 85 |
| 2000–01 | 91 | 83 |
| 2001–02 | 91 | 85 |
| 2002–03 | 92 | 86 |
| 2003–04 | 91 | 82 |

*Source:*
Survey of English Housing.

The "deprived areas" referred to in the above table are the 10 per cent. most deprived wards in England as based on a combination of measures covering six domains: income; employment; health and disability; education and skills; housing; and geographical access to services.

**Mrs. Spelman:** To ask the Deputy Prime Minister what role the Government offices of the regions play in setting targets and priorities for local councils in relation to housing. [11420]

**Yvette Cooper:** The Government Offices work closely with local authorities to support them deliver targets and priorities determined by central Government. For example, helping local authorities ensure that all their properties by 2010 (and an increased proportion of private sector homes occupied by vulnerable people) meet the Decent Homes standard.

### Milton Keynes Local Development Scheme

**Dr. Starkey:** To ask the Deputy Prime Minister what assessment he has made of the implication for the Milton Keynes growth area of the overlapping timetables for the *(a)* Western Expansion Area Development Framework, *(b)* Local Plan and *(c)* Master Plan. [10448]

**Yvette Cooper:** The Milton Keynes Council's Local Development Scheme (LDS), which is a project plan for producing new planning documents, provides information on the emerging Western Expansion Area Development Framework, Local Plan and Master Plan. It sets out how they will be prepared in the context of the new planning system and their relative status, relationship and timing. The LDS has been assessed by the First Secretary of State who decided to allow it to proceed and is publicly available.

### Housing (Chorley)

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will use English Partnership land for low cost and social housing in Chorley. [11141]

**Yvette Cooper:** English Partnerships (EP) currently owns 54.6 hectares of land in Chorley. One site (consisting of 4.4 hectares) has planning consent for residential development. This site will be jointly marketed with Chorley borough council (CBC) in about three months time. EP and CBC are also discussing the development brief for a parcel of land adjacent to this site that is owned by CBC.

The amount of low cost and social housing on the site will be determined by the borough council as the planning authority.

Development of the other approximately 50 hectares of land owned by English Partnerships in Chorley is either employment or agricultural land or has some form of constraint.

### Home Buying and Selling

**Mr. Kidney:** To ask the Deputy Prime Minister when he plans to publish the Regulations to implement the provisions of the Housing Act 2004 relating to changes to the home buying and selling system; and if he will publish them first in draft. [11871]

**Yvette Cooper:** An announcement will be made shortly. Regulations will be published in draft in each case.

### Housing Tenure

**Mrs. Spelman:** To ask the Deputy Prime Minister how many households comprised *(a)* social tenants, *(b)* private rented tenants, *(c)* owner occupiers owned outright and *(d)* owner occupiers, with a mortgage in England in (i) 1997 and (ii) the latest year for which figures are available. [13198]

**Yvette Cooper:** Estimates of the number of households within each housing tenure in England in 1997 and in 2004 are tabled as follows:

*Number of households by housing tenure, England, 1997 and 2004*

| | 1997 | | 2004 | |
|---|---|---|---|---|
| *Tenure* | *Thousand* | *Percentage* | *Thousand* | *Percentage* |
| Social tenants | 4,194 | 21 | 3,784 | 18 |
| Private rented tenants | 2,053 | 10 | 2,226 | 11 |
| Owner occupiers/owned outright | 5,236 | 26 | 6,239 | 30 |
| Owner occupiers/with mortgage | 8,351 | 42 | 8,337 | 40 |
| Total | 19,834 | 100 | 20,586 | 100 |

*Source:*
Labour Force Survey

### Key Worker Living Initiative

**Mr. Hoban:** To ask the Deputy Prime Minister how long homes built under the Key Worker Living Initiative have to remain empty before alternative uses can be found. [12756]

**Yvette Cooper:** Each scheme is dealt with on an individual basis taking into account the marketing activities of the Registered Social landlord and local market demand and supply. There is flexibility which allows for changes to tenure and widening of the eligibility criteria where local evidence demonstrates that this is needed and where no added grant is required. Scheme review will be triggered only where units have been empty for at least three months.

**Mr. Hoban:** To ask the Deputy Prime Minister what mechanisms are in place to prevent an oversupply of properties available to key workers. [12757]

**Yvette Cooper:** The Housing Corporation is monitoring supply of property for key workers in all of its regions to ensure that what is available is sold or let and that future supply is not in competition with existing proposals and does not exceed demand.

### Local Government Finance

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will list the special discounts that individual local authorities in England have chosen to adopt under Clause 76 of the Local Government Act 2003. [11986]

**Mr. Woolas:** A table setting out data provided by local billing authorities on the CTB1 Supplementary Form 2005–06 on discounts provided from April 2004 to March 2005 under section 13A of Local Government Finance Act 1992, inserted by section 76 of the Local Government Act 2003, has been placed in the Library of the House. We will collect data relating to April 2005 to March 2006 from the CTB1 Supplementary Form 2006–07 which will be sent out this autumn.

**Mrs. Spelman:** To ask the Deputy Prime Minister how a decision by a billing authority to adopt a special discount under Clause 76 of the Local Government Act 2003 affects *(a)* the revenues of precepting authorities other than the billing authority and *(b)* Government grant to the billing authority and other precepting authorities. [11987]

**Mr. Woolas:** The revenues of precepting authorities are unaffected where a billing authority grants a special discount under section 13A of Local Government Finance Act 1992, inserted by section 76 of the Local Government Act 2003. The shortfall that would otherwise arise is adjusted by a transfer from the general fund of the billing authority to its collection fund and the balances in the collection fund are then shared with precepting authorities accordingly.

No adjustment to Government grant is made in respect of discounts provided by billing authorities under section 13A of Local Government Finance Act 1992, inserted by section 76 of the Local Government Act 2003.

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the decision to adopt a special discount under Clause 76 of the Local Government Act 2003 is the decision solely of the billing authority. [11989]

**Mr. Woolas:** The power to provide special discounts under section 13A of Local Government Finance Act 1992, inserted by section 76 of the Local Government Act 2003 rests with the billing authority alone.

**Mrs. Spelman:** To ask the Deputy Prime Minister what proportion of local government total assumed spending in England was made up of specific grants in each year since 1996–97. [11387]

**Mr. Woolas:** The information requested is provided in the following table:

| | *(A) Total of Formula Spending Shares[1] and specific grants (£ billion)* | *(B) Specific grants (£ billion)* | *(B) as a proportion of (A)* |
|---|---|---|---|
| 1997–98 | 49.6 | 5.1 | 10 |
| 1998–99 | 48.4 | 5.7 | 12 |
| 1999–2000 | 51.5 | 6.4 | 13 |
| 2000–01 | 55.0 | 8.3 | 15 |
| 2001–02 | 59.1 | 10.3 | 17 |
| 2002–03 | 62.5 | 12.7 | 20 |
| 2003–04 | 72.0 | 13.3 | 18 |
| 2004–05 budget | 77.0 | 16.4 | 21 |
| 2005–06 budget | 81.5 | 17.6 | 22 |

[1] Formerly Standard Spending Assessments up to 2002–03.

### Daventry District Council

**Mr. Hollobone:** To ask the Deputy Prime Minister what assessment was made of the transitional funding arrangements accompanying the abolition of local authority social housing grant in assessing the inclusion of Daventry district council in the Council Tax Limitation (England) (Maximum Amounts) Order 2005. [12403]

**Mr. Woolas:** I assume the question is referring to transitional arrangements for Negative Housing Subsidy Authorities.

The points made by the Council in their written representations and at their meeting with me on 25 May were carefully considered. As part of those considerations the Government examined the transitional measures scheme and concluded that the Council's points did not justify setting an excessive budget requirement. I should highlight that the proposed order does not affect the authority's entitlement to benefit from the transitional measures.

### Local Government Pensions

**Mrs. Spelman:** To ask the Deputy Prime Minister whether he plans to publish a regulatory impact assessment in relation to revoking the Local Government Pension Scheme (Amendment) (No. 2) Regulations 2004. [13117]

**Mr. Woolas:** A Regulatory Impact Assessment for the Local Government Pension Scheme (Amendment) (No. 2) Regulations 2004 was published on 13 July and copies were placed in the Libraries of the House.

### Local Strategy Partnerships

**Vera Baird:** To ask the Deputy Prime Minister what arrangements are in place for the exchange of best practice among local strategy partnerships. [11902]

**Mr. Woolas:** The Office of the Deputy Prime Minister works with Local Strategy Partnerships (LSPs) to help them improve their performance and encourages them to learn from what works. We have developed a range of resources to enable them to do so. These include:

establishing www.renewal.net, a web-based source of evaluated evidence about what works for LSPs, presented in a practical and user-friendly format. Renewal.net also has a series of discussion fora which encourage LSPs to exchange best practice;

developing regional LSP networks, supported by Government Offices for the regions, which enable LSPs to learn from each other;

providing technical advice from our pool of Neighbourhood Renewal Advisers, ensuring that LSPs have access to specialist knowledge about established and emerging best practice;

organising national and regional events for LSPs designed to highlight what works and enable LSPs to exchange best practice.

### London Governance

**Mrs. Spelman:** To ask the Deputy Prime Minister when the Government intends to publish their plans to reform *(a)* London governance and *(b)* the powers of the Mayor of London. [12005]

**Jim Fitzpatrick:** The Government gave a manifesto commitment to review the powers of the London Mayor and the Greater London Authority. We will make a further announcement in the autumn.

**Mrs. Lait:** To ask the Deputy Prime Minister what the timetable is for the handover of responsibilities of the Government Office for London to the mayor. [12855]

**Jim Fitzpatrick:** The Government is undertaking a review of the powers of the London mayor and the Greater London authority. Any decision about the transfer of further responsibilities to the mayor, including any implications for the Government Office, will be made once the review has been completed. We will make a further announcement about the review by the end of the year.

### Mayoral Referendums

**Anne Milton:** To ask the Deputy Prime Minister what *(a)* secondary legislation and *(b)* procedural advice the Government has published in relation to local authorities holding Mayoral referendums; and if he will deposit a copy of those documents in the Library. [12846]

**Mr. Woolas:** The following secondary legislation relating to Mayoral referendums has been issued:

Local Authorities (Referendums) (Petitions and Directions) (England) Regulations 2000;

Local Authorities (Conduct of Referendums) (England) Regulations 2001;

Local Authorities (Conduct of Referendums) (England) (Consequential Amendment) Order 2001;

Local Authorities (Referendums) (Petitions and Directions) (England) (Amendment) Regulations 2001;

Local Authorities (Referendums) (Petitions and Directions) (England) (Amendment) (No. 2) Regulations 2001;

Local Authorities (Referendums) (Petitions and Directions) (England) (Amendment) (No. 3) Regulations 2001.

Guidance material has also been published to assist local authorities holding Mayoral referendums.

Copies of these documents have already been placed in the Library of the House.

### Neighbourhood Improvement Districts

**Mrs. Spelman:** To ask the Deputy Prime Minister what plans the Government have to legislate for neighbourhood improvement districts. [13070]

**Mr. Woolas:** The Office of the Deputy Prime Minister currently has no plans to legislate for neighbourhood improvement districts.

"Citizen Engagement and Public Services: Why Neighbourhoods Matter" (January 2005), invited discussion about the idea. These discussions are ongoing.

### Olympics 2012

**Mr. Hancock:** To ask the Deputy Prime Minister what the implications are of the successful bid to hold the 2012 Olympic games in London for the *(a)* workload and *(b)* staffing levels of his Department. [11677]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister will continue to support delivery of the Olympic games, as it has the Olympic bid. The Olympic park is in the Thames Gateway and I would expect both the Thames Gateway and Sustainable Buildings Directorate and the London Thames Gateway Urban Development Corporation (which we sponsor) to play a significant role in helping to deliver a successful games in 2012.

### Overcrowded Accommodation

**Sarah Teather:** To ask the Deputy Prime Minister what assessment his Department has made of the effects of living in overcrowded accommodation. [12229]

**Yvette Cooper:** The Office of the Deputy Prime Minister published in May 2004 a review by De Montfort university of the evidence and literature relating to the impact of overcrowded housing on health and education. The report, the Impact of Overcrowding on Health and Education (ISBN 1 85112 711 0), was placed in the Library of the House.

### Park Land

**Lorely Burt:** To ask the Deputy Prime Minister (1) if the Government will make changes to planning law to protect existing park land from being sold by local authorities; [12398]

(2) how much park land was sold by local authorities for development between June 2001 and May 2005. [12399]

**Yvette Cooper:** Park land is protected by the provisions of national planning policy guidance note 17 (PPG 17). This requires planning authorities to protect from development all forms of open space, including parks, unless they are demonstrated to be surplus to the requirements of the community. There are no current plans to change this guidance.

The Office of the Deputy Prime Minister does not hold central records of the amount of all park land disposed of by local authorities. We are however committed to developing a national database of green spaces in England, which will help us to identify the location, quantity and changes to green spaces.

### Parliamentary Questions

**Mary Creagh:** To ask the Deputy Prime Minister when he will reply to question reference 3101 from the hon. Member for Wakefield. [13156]

**Yvette Cooper:** I have today replied to my hon. Friend's question.

### Planning Guidance (Car Parking)

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister if he will review planning guidance which states that only 0.9 car parking spaces per dwelling must be provided. [12851]

**Yvette Cooper:** I refer the hon. Member to the written statement made on 17 July 2003, *Official Report*, columns 53–57WS by my right hon. Friend the Member for Streatham (Keith Hill)

This explains that local authorities parking standards should result in an average of 1.5 off-street parking spaces per dwelling over their plan area. The 1.5 is intended to be an average across the plan area. Planning policy does not expect all dwellings in new developments to have 1.5 car parking spaces.

The Government accepts that parking needs vary, according to location and housing type. To help the development of appropriate standards, research has been commissioned to consider how varying levels of car parking can be achieved in ways consistent with the Government's policies on sustainable residential environments. This research will inform the preparation of the Planning Policy Statement 3: "Housing", a draft of which will be the subject of consultation later this year.

### Regional Assemblies

**Mrs. Spelman:** To ask the Deputy Prime Minister what offices regional chambers have outside the United Kingdom; and what the annual cost was of each in the last year for which figures are available. [12000]

**Yvette Cooper:** Each of the regional assemblies makes a contribution with regional partners, including the regional development agency and regional local government association, towards an office outside the United Kingdom. Details of the cost incurred by each assembly is:

| *Assembly* | *Location of office or representation* | *Cost of maintenance (£)* | *Explanation of cost* | *Source of funding* |
|---|---|---|---|---|
| East | Brussels | 321,740 | Contribution to maintenance of office | Non-ODPM funding |
| East Midlands | Brussels | 7,500 | Contribution to maintenance of joint office | ODPM funding |
| North East | Brussels | 90,190 | Contribution to maintenance of joint office | Non-ODPM funding |
| North West | Brussels | 19,810 | Contribution to maintenance of joint office | Non-ODPM funding |
| South East | Brussels | 53,600 | Contribution to maintenance of joint office | Non-ODPM funding |
| South West | Brussels | 11,000 | Contribution to maintenance of joint office | ODPM funding |
| West Midlands | Brussels | 6,900 | Contribution to maintenance of joint office | ODPM funding |
| Yorkshire and the [illegible] | Brussels | 278,000 | Contribution to maintenance of joint office | Non-ODPM funding |

**Mrs. Spelman:** To ask the Deputy Prime Minister whether the regional chambers send copies of their annual accounts to his Department. [12003]

**Yvette Cooper:** The regional assemblies are required to submit copies of their annual audited accounts to the relevant Government Office as soon as possible after the end of the accounting period.

**Mrs. Spelman:** To ask the Deputy Prime Minister if he will place in the Library, a copy of the ministerial guidance on regional chambers referred to on page 10 of the Department's research report, evaluation of the role and impact of regional chambers: feasibility study. [12011]

**Yvette Cooper:** I have today arranged for copies of the guidance to be placed in the Library of the House.

### Regional Housing/Planning Boards

**Mrs. Spelman:** To ask the Deputy Prime Minister what assessment he has made of the implications for London of merging regional housing boards with regional planning boards. [12004]

**Yvette Cooper:** The Office of the Deputy Prime Minister consulted on this recently and are now considering a number of points of detail, including the implications for all regions.

### Regional Spatial Strategy (East of England)

**Bob Spink:** To ask the Deputy Prime Minister for what reasons examination in public of the Regional Spatial Strategy for the East of England has been postponed from September to November; and if he will make a statement. [11416]

**Yvette Cooper:** Given the need to allow all parties additional time to gain an appreciation of the submitted representations, together with EERA's need for additional time to prepare adequately for the Examination in Public (EiP), the Panel established to conduct the EiP into the Regional Spatial Strategy for the East of England has decided that the start date should be deferred until 1 November 2005.

**Bob Spink:** To ask the Deputy Prime Minister how he intends to publicise the examination in public of the Regional Spatial Strategy for the East of England to ensure people in South Essex are made aware of it. [11417]

**Yvette Cooper:** The Examination in Public (EiP) has been publicised in the following ways:

in publishing the draft RSS for consultation the East of England Regional Assembly (EERA) issued a press release and wrote to around 4,000 consultees advising of the arrangements for the EiP;

in responding to around 6,000 requests for the draft RSS, EERA advised of the arrangements for the EiP;

EERA also publicised the arrangements for the EiP at 13 public meetings held as part of the consultation exercise on their draft RSS;

in accordance with the Town and Country Planning (Regional Planning) (England) Regulations 2004 the First Secretary of State has published a notice of intention to hold an Examination in Public on the Go-East website at

www.goeast.gov.uk/goeast/planning/regional_planning/regional_spatial_strategy/rss_examination_in_public/

the notice is also published on EERA's website at

http://www.eera.gov.uk/category.asp?cat=469

and the information is repeated on many local authority websites;

The EiP Panel has written to all 21,530 respondents advising them of the arrangements for the EiP.

### Local Councillors

**Mr. Meacher:** To ask the Deputy Prime Minister what the political make-up of each local authority is; and how many of the representatives of each party are female for each authority. [12096]

**Mr. Woolas:** The Office of the Deputy Prime Minister does not itself hold comprehensive information either on the political make-up of local authorities or the number of authority members who are female. However, information on the names and political allegiance of members of each authority can be found in the Municipal Year Book.

### Sickness Absence

**David T.C. Davies:** To ask the Deputy Prime Minister how many days the Department has lost due to sickness in the past five years for which figures are available. [11469]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002. The number of days lost due to sickness are contained in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based on. The most recent of which (for calendar year 2003) was announced by Ministerial Statement on 1 November and copies placed in the Libraries of the House. Reports for 1999, 2000, 2001 and 2002 are also available in the Library and on the Cabinet Office website at: http://www.civilservice.gov.uk/management_information/conditions_of_service/caje/publications/index.asp#sickness

The Department is committed to managing sickness absence effectively and is putting in place the recommendations of recently published report "Managing Sickness Absence in the Public Sector".

### Standards Board

**Mr. Dismore:** To ask the Deputy Prime Minister in how many complaints to the Standards Board disposed of *(a)* directly by the Standards Board, *(b)* after an adjudication panel and *(c)* after a local standards committee hearing the respondent to the complaint was (i) disqualified from office, (ii) suspended from office for (A) a period less than three months, (B) three to six months and (C) for over six months and (iii) subjected to a lesser penalty in each of the last three years; and if he will make a statement. [11199]

**Mr. Woolas:** Information in respect of the number of cases where members were subject to penalties following determinations by the Adjudication Panel or local standards committees each year is as follows:

| | | *Suspended (months)* | | | |
|---|---|---|---|---|---|
| | *Disqualified* | *less than 3* | *3 to 6* | *over 6* | *Lesser penalty* |
| *Determinations by the Adjudication Panel* | | | | | |
| 2002–03 | 27 | 1 | 0 | 0 | 1 |
| 2003–04 | 97 | 17 | 4 | 2 | 2 |
| 2004–05 | 25 | 1 | 12 | 6 | 0 |
| *Determinations by local standards committees* | | | | | |
| 2002–03 | not applicable | not applicable | not applicable | not applicable | not applicable |
| 2003–04 | not applicable | 14 | 2 | not applicable | 18 |
| 2004–05 | not applicable | 19 | 15 | not applicable | 26 |

*Note:*

1. Regulations empowering standards committees to determine cases came into effect in 2003–04. Standards committees have no remit to disqualify members, and can only impose a suspension for a maximum of three months.
2. The Standards Board for England itself has no remit to suspend or disqualify members.

### Swindon Borough Council

**Mr. Wills:** To ask the Deputy Prime Minister how much has been provided in grants from central Government to Swindon borough council in each year since 1997. [12543]

**Mr. Woolas:** The amounts of central Government grant allocated to Swindon borough council since 1997 are shown in the following table. The figures are shown in £000.

£000

| | Amount |
|---|---|
| 1997–98 | 90,376 |
| 1998–99 | 97,101 |
| 1999–2000 | 103,743 |
| 2000–01 | 116,696 |
| 2001–02 | 123,792 |
| 2002–03 | 129,179 |
| 2003–04 | 150,195 |
| 2004–05 | 148,256 |
| 2005–06 | 165,028 |

The data are taken from the RS (outturn) forms for all years except 2004–05 and 2005–06 when the data are taken from the RA (budget) form. These forms are completed each year by individual local authorities.

Grants in the table include special and specific grants inside "Aggregate External Finance", Revenue support grant and Redistributed Non-domestic rates.

Comparisons across years may not be valid due to changing local authority responsibilities.

### Tees Valley

**Vera Baird:** To ask the Deputy Prime Minister what steps he is taking to increase the economic activity rate in the population of the Tees Valley. [11904]

**Mr. Woolas:** The stimulation of economic activity and promotion of entrepreneurial activity are complex and long-term issues, which need to be tackled through the co-ordinated efforts of a range of public, private and community sector organisations.

The Regional Development Agency for North East England, One NorthEast, is currently engaged in an extensive consultation process on the review of the Regional Economic Strategy. One of the aims of the strategy is to

> "to create an enterprising, risk-taking culture across all sectors, underpinned by a fit for purpose support network",

and One NorthEast and other regional partners can expect to receive the full support of Government in its efforts to achieve this.

Tees Valley has a fully rolled out Jobcentre Plus service delivering job-seeking and benefit services under one roof, and from October 2005 will have a Pathways to Work programme to help people claiming incapacity benefit to move into work.

**Vera Baird:** To ask the Deputy Prime Minister how many new business start-ups there were in Tees Valley in the first half of 2005; and what the start-up rate in England was. [11905]

**Yvette Cooper:** Figures for the number of new business start-ups in Tees Valley and in England are not yet available covering the first half of 2005.

The latest available figures show that in 2003 there were 1,120 VAT registrations in Tees Valley. This represents a rate of 22 per 10,000 members of the population aged 16-plus and compares to a rate of 42 per 10,000 for England.

**Vera Baird:** To ask the Deputy Prime Minister what steps he is taking to improve the productivity of working people in the Tees Valley. [11906]

**Yvette Cooper:** The Office of the Deputy Prime Minister does not have lead responsibility for productivity, but does work closely with other Departments—through Government offices, regional development agencies and other regional partners—to ensure that the overall contribution to the issues from the public sector is maximised.

Proposed work to improve productivity in Tees Valley is contained in section 8 of the 'Tees Valley City Region Development Programme', which was published with 'Moving Forward: The Northern Way Business Plan 2005–2008' in June 2005, copies of which are available in the Library of the House.

**Vera Baird:** To ask the Deputy Prime Minister (1) what his assessment is of the effect on Redcar of its designation as part of the Coastal Arc in Tees Valley; [11907]

(2) what resources have been invested in Redcar consequent on its designation as part of the Tees Valley Coastal Arc; [11908]

(3) what the core aim is of the designation of part of the Tees Valley as Coastal Arc; [11909]

(4) how many jobs are expected to be generated through the designation of Redcar as part of the Tees Valley Coastal Arc; and in what sectors of employment; [11914]

(5) if he will make a statement on the effect of the designation of Redcar as part of the Tees Valley Coastal Arc on planning. [11915]

**Yvette Cooper:** The Government welcome the leadership that the Tees Valley Partnership have shown in setting out an ambitious investment programme, including areas in my hon. and learned Friend's constituency through the Coastal Arc proposals. The Government, and the regional development agency ONE North East, will be studying these proposals carefully, with a view to supporting priority projects that deliver sustainable economic development.

## HEALTH

### Bereavement Counselling

**Ms Gisela Stuart:** To ask the Secretary of State for Health what funding is available from her Department to organisations which provide bereavement counselling. [10944]

**Ms Rosie Winterton:** In the current year, 2005–06, the Secretary of State for Health, through the section 64 General Scheme of Grants (section 64 of the Health Services and Public Health Act 1968) has awarded £414,750 to organisations which provide bereavement counselling. In addition, we are aware of a range of locally funded innovative projects in national health service trusts and voluntary organisations around the country which are aimed at developing services for the bereaved locally.

## Breast Cancer

**Mr. Bailey:** To ask the Secretary of State for Health what steps are being taken to break down cultural and language barriers preventing women from accessing breast screening services. [5671]

**Ms Rosie Winterton** *[holding answer 21 June 2005]:* For cultural and/or religious reasons, some women are less likely to accept invitations for screening than the general population as a whole. Language and access to acceptable and meaningful information can also be a significant barrier and can effect the coverage levels.

The national informed choice leaflet, "Breast Screening: The Facts", which is sent out with every invitation for screening, has now been translated into 18 languages.

In December 2003, NHS Cancer Screening Programmes published "Inequalities of Access to Cancer Screening: A Literature Review". The recommendations in the review have been sent to all local screening programmes.

A number of local actions have been put in place to combat inequalities in inner-city areas. For example, in Haringey, sessions on screening have been held in community centres, with advocates from the relevant communities attending to translate and encourage women to attend their screening appointment. Many primary care trusts are conducting similar initiatives across the country.

In 2004, to raise awareness about the availability of breast cancer screening, the NHS Cancer Screening Programmes issued a regional communications pack to all local breast screening programmes to increase coverage rates, the packs include advice on raising the awareness of screening and posters.

**Mr. Baron:** To ask the Secretary of State for Health (1) what additional measures are planned to ensure that adequate resources are in place to implement the proposed two-week wait for urgent and routine breast referrals; [12447]

(2) what additional measures are planned to support patients with information and counselling within the proposed two-week wait for urgent and routine breast referrals. [12448]

**Ms Rosie Winterton:** The 2005 Labour party manifesto gave the commitment that all women with breast symptoms should be seen within two weeks of referral by their general practitioner by 2008. Details of this commitment and how it will be resourced and implemented are yet to be determined with stakeholders and finalised.

**Mr. Baron:** To ask the Secretary of State for Health what measures are in place to implement the recommendation of the National Institute for Health and Clinical Excellence that women aged 40 to 49 years with a family history of breast cancer should be entitled to annual screening. [12449]

**Ms Rosie Winterton:** Clinical guidelines from the National Institute for Health and Clinical Excellence (NICE) are reflected in the standards published by the Department which provides a framework for continuous improvement in the overall quality of care people receive. Clinical guidelines are covered by the developmental standards, standards which the national health service is expected to achieve over time. The Healthcare Commission has a responsibility for assessing progress towards achieving these standards.

Clinicians are expected to take full account of NICE's guidelines because they are based on the best available evidence and have been put together after wide consultation, drawing on the views of patients and carers as well as the experts in the field.

## Breastfeeding

**Mr. Kidney:** To ask the Secretary of State for Health how much her Department has given in each of the last five years to voluntary organisations to promote breastfeeding; if she will list those organisations; and for what specific purposes the funding was provided. [11204]

**Caroline Flint:** The Government are committed to increasing support for breastfeeding and have provided funding to four voluntary organisations over the past five years whose activities support the Department's policy priorities relating to breastfeeding.

The table lists the funds provided to the voluntary organisations from 2000–05.

£

| | *National Childbirth Trust* | *Breastfeeding Network* | *Association of Breastfeeding Mothers* | *La Leche League* |
|---|---|---|---|---|
| 2000–01 | 20,000 | 10,000 | 5,000 | 5,000 |
| 2001–02 | 30,000 | 30,000 | 5,800 | 10,000 |
| 2002–03 | 32,800 | 8,000 | 5,000 | 7,000 |
| 2003–04 | 16,348 | 14,893 | 6,300 | 10,000 |
| 2004–05 | — | 22,249 | — | 10,350 |
| Total | 99,148 | 85,142 | 22,100 | 42,350 |

In addition, the Department will also provide £450,000 for the National Breastfeeding Helpline over the next three years.

**Keith Vaz:** To ask the Secretary of State for Health what research she has *(a)* commissioned and *(b)* undertaken into the health impacts of (i) breastfeeding and (ii) bottle feeding. [11573]

**Caroline Flint:** The Government are committed to increasing support for breastfeeding. There is a wealth of documented evidence internationally on the positive health impacts of breastfeeding and the benefits over feeding infant formula milk. We have responded to this evidence by raising awareness of the health benefits of breastfeeding through a national breastfeeding awareness week and focusing on increasing support for breastfeeding, particularly among women from

disadvantaged groups. We have not commissioned specific research into the health impacts of breastfeeding or bottle feeding.

**Mrs. Betty Williams:** To ask the Secretary of State for Health how much central funding the Department of Health is providing to promote breastfeeding in 2005–06. [10762]

**Caroline Flint:** The Government are committed to increasing support for breastfeeding and have identified £2 million for activities related to healthy start and breastfeeding, including, national breastfeeding awareness week and a new national breastfeeding helpline. The five yearly national infant feeding survey to be conducted later this year will be funded separately.

## Cancer Treatment

**Dr. Gibson:** To ask the Secretary of State for Health what representations she has made to the National Institute for Health and Clinical Excellence regarding its appraisal of cancer treatment-induced anaemia. [6718]

**Jane Kennedy:** None. The Department, as a registered stakeholder in the development of this appraisal, has been invited to respond to a consultation document published by National Institute for Health and Clinical Excellence on 1 July.

**Lady Hermon:** To ask the Secretary of State for Health if she will make a statement on the availability of the cancer drug anastrozole on the NHS in England. [11229]

**Ms Rosie Winterton:** Anastrozole is licensed in England for the adjuvant treatment of postmenopausal women with hormone receptor positive early invasive breast cancer and can be prescribed on the NHS for patients who fit the licensed indication.

New hormonal therapies for the treatment of early breast cancer, including anastrozole, are being appraised by the National Institute for Health and Clinical Excellence (NICE). Guidance is expected in November 2006

The Department has made it clear that funding for newly licensed treatments should not be withheld because guidance from NICE is unavailable.

In these circumstances, we expect primary care trusts to take full account of available evidence when reaching funding decisions. This is confirmed in Health Service Circular 1999/176, which asks NHS bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not available at the time the treatment or technology first became available.

**Mr. Havard:** To ask the Secretary of State for Health if she will meet the Pan Birmingham Cancer Network to discuss their policy on the use of cancer treatments which have not been approved by the National Institute for Health and Clinical Excellence. [12989]

**Ms Rosie Winterton:** It is for individual cancer networks and primary care trusts to make decisions on the drugs they wish to make available to patients, taking into account the needs of the local population and, where appropriate, national guidance from National Institute and Health and Clinical Excellence.

## Contraception (Under-16s)

**Tim Loughton:** To ask the Secretary of State for Health how many girls under 16 have been prescribed *(a)* contraceptive pills, *(b)* contraceptive implants and *(c)* contraceptive long-term injections in each of the last eight years; [4639]

(2) what the age is of the youngest girl to have received contraceptive prescriptions in the last five years. [4640]

**Caroline Flint:** Data from the prescription cost Analysis for England[1] is only available since 2001 and is shown in table 1. Data may not be complete as under 16s may also have been supplied with contraception under a separate exemption category—exemption for contraception supplied free of charge—and data by age is not available for this category. It should also be noted that contraceptive pills may be prescribed for purposes other than contraception, for example, heavy periods or acne.

[1] Prescription Pricing Authority.

*Table 1: Total contraceptive items dispensed by type*

| | 2001 | 2002 | 2003 | 2004 |
|---|---|---|---|---|
| Tablet-based items prescribed | 33,000 | 33,000 | 34,000 | 33,000 |
| Injection-based items prescribed | 680 | 560 | 630 | 490 |
| Implant-based items prescribed | 21 | 140 | 76 | 110 |
| Total | 34,000 | 34,000 | 34,000 | 34,000 |

The estimated number of young women aged under 16 whose primary method of contraception was the pill, injection or implant obtained from community contraception clinics in the period 1996–97 to 2003–04 is shown in table 2.

*Table 2: First contacts with women aged under 16 at national health service family planning clinics by primary method of contraception, England, 1996–97 to 2003–04*[1]

| | Pill | Injection | Implant |
|---|---|---|---|
| 1996–97 | 23,400 | 1,000 | 100 |
| 1997–98 | 22,800 | 1,200 | 0 |
| 1998–99 | 21,400 | 1,200 | 0 |
| 1999–2000 | 23,000 | 1,500 | 0 |
| 2000–01 | 23,800 | 2,000 | 100 |
| 2001–02 | 24,200 | 2,300 | 100 |
| 2002–03 | 24,500 | 2,500 | 200 |
| 2003–04 | 25,000 | 2,700 | 300 |

[1] *Source:*
Department of Health Statistics Division; return KT31.
*Notes:*
1. This data has been calculated from the "under 16" exemption category on prescription forms. The data are based on a one in 20 sample of all prescriptions that are exempt from charges; prescriptions are free for the under 16s. Individuals may have more than one prescription dispensed during a 12 month period.
2. Numbers rounded to the nearest hundred; zero indicates less than 50 cases.

Information on the youngest girl to have received contraceptive prescriptions in the last five years is not available.

## Dentistry

**Mr. Walker:** To ask the Secretary of State for Health how many dentists in Hertfordshire have personal dental service contracts; and if she will make a statement. [7486]

**Ms Rosie Winterton:** The numbers of dental practices which have an open personal dental service (PDS) contract as at 31 May 2005 in Hertfordshire are shown in the table.

| *Primary care trust* | *Total number of dental practice addresses* | *Number of dental practice addresses in PDS* |
|---|---|---|
| Hertsmere | 25 | 1 |
| Welwyn Hatfield | 181 | — |
| North Hertfordshire and Stevenage | 39 | — |
| South East Hertfordshire | 27 | — |
| Royston, Buntingford and Bishop's Stortford | 15 | 1 |
| Watford and Three Rivers | 37 | — |
| Dacorum | 30 | — |
| St. Albans and Harpenden | 36 | 1 |

*Note:*
The total number of dental surgery addresses include all addresses with either open general or personal dental service contract at 31 March 2005.

**Mr. Steen:** To ask the Secretary of State for Health if she will list the public funds made available by *(a)* grants and *(b)* loans to NHS dental clinics in south Devon in each of the last five years; and whether conditions regarding continuing to practice within the NHS were attached to them. [7845]

**Ms Rosie Winterton** *[holding answer 28 June 2005]:* In 2001, The Department made £35 million available via the dental care development fund to expand local national health service dental capacity. The Department does not hold details of whether dental clinics in south Devon received funds from the dental care development fund. Health authorities imposed conditions on the grant: that the additional capacity was maintained, usually for three years; and that the practices in receipt of funds contributed around 50 per cent. of the total value of the grant.

The Department made £50 million available to strategic health authorities to buy back local dental capacity from dentists in 2004–05. Of this, £1.56 million was made available to the South West Peninsula Strategic Health Authority, who allocated £242,000 to the primary care trusts covering south Devon: Torbay (£149,000); and south Hams and west Devon (£93,000). The amounts of money allocated to individual dental clinics is not held by the Department. The grant was intended to support NHS practice, but no specific conditions regarding continuing to practice in the NHS were attached to the moneys.

**Mr. Francois:** To ask the Secretary of State for Health how many NHS dental practices were operating in South Woodham Ferrers, Essex, on 1 May; and how many people were unable to register with an NHS dentist in South Woodham Ferrers on that date. [9315]

**Ms Rosie Winterton** *[holding answer 6 July 2005]:* The number of dental surgery addresses within the Maldon and South Chelmsford Primary Care Trust (PCT) area, which provides dental services to the residents of South Woodham Ferrers, and the number of people and the percentage of people who are registered with an national health service dentist, based on the 2003 estimated population figures, are shown in the table.

*General dental services (GDS) and personal dental services (PDS)—number of dental surgery addresses and people registered with a NHS dentist in the specified PCTs at the specified dates*

| *Maldon and South Chelmsford* | *Number/ percentage* |
|---|---|
| Total number of dental surgery addresses as at 30 April 2005 | 12 |
| Total number of people registered with an NHS dentist as at 31 March 2005 | 44,222 |
| Percentage of people registered with an NHS dentist[1] as at 31 March 2005 | 51 |

[1] Based on 2003 estimated population figures.

*Notes:*

1. The number of registrations are based on a snapshot of the Dental Practice Board's registration database taken at the end of March each year and subsequent retrospective notifications of changes to registrations have not been included.

2. An active registration is a patient registered with a dentist at the end of March each year. Some PDS schemes do not have any registrations, for example, dental access centres and will not therefore be included in these figures.

3. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.

4. The patient registrations have been allocated to areas according to the postcode of the dentist's surgery.

5. The areas have been defined using practice postcodes within the current boundaries.

There were three dental practices, with eight general dental practitioners (GDPs), operating in South Woodham Ferrers on 1 May 2005. At that point, the three practices had 10,860 NHS patients registered with them.

Information on the number of people unable to register with an NHS dentists in South Woodham Ferrers is not held centrally.

Maldon and South Chelmsford PCT has invested £19,970 revenue to improve access, in addition to the 54,590 it received in capital grants from the Department.

This additional money, which equates to an additional 0.5 general domestic practitioner, has already delivered 1,200 new patient registrations across the PCTs area.

The PCT has also recruited a dentist from Poland, through the Department's international recruitment programme, and expect this to deliver a further 2,000 new patient registrations.

**Mr. Hoyle:** To ask the Secretary of State for Health if she will make a statement on the availability of NHS dental care in Chorley. [9619]

**Ms Rosie Winterton:** Chorley and South Ribble primary care trust (PCT) received £212,000 in 2004–05. This was divided as follows; £135,423 capital, £57,778 revenue and £19,291 for the salaried dental service (community clinics).

The total additional registrations agreed for the investment of the revenue funds was 9,500. In the 10 months since the allocation of this funding, 4,349 additional registrations have been delivered.

As at 31 May 2005, there are 24 dental practices within the Chorley and South Ribble PCT area. Nine practices have converted to personal dental service (PDS) contracts, meaning 38 per cent. of practices have been secured to provide national health service dentistry. This equates to 38,000 NHS patients registered with the personal dental service practices. Dental Practice Board figures show a total of 102,661 registrations across the PCT area.

These practices—the Jones, Buxton and Eccleston dental practices—received a total of £362,000 in growth money to enable them to increase the number of sessions that they perform. This equates to 26 sessions as approved by the PDS team. The practices concerned are all gradually increasing their list sizes.

Chorley and South Ribble PCT anticipates that over the course of the next five years, 5,000 extra patients will be registered with PDS practices alone. The PCT is working with dental practices to achieve this in a staged manner.

The PCT is also exploring alternatives to increase capacity. This includes international recruitment opportunities, identifying capacity in current premises and including extra dental provision in the PCT's new capital developments. In addition, one of the largest dental practices in Chorley is currently negotiating with the PCT to move to PDS.

**Sandra Gidley:** To ask the Secretary of State for Health what estimate she has made of the average income of NHS dentists in Hampshire in each year since 1997. [9795]

**Ms Rosie Winterton:** Primary care provided by independent general dental practitioners (GDPs) forms the major element of national health service dental services. Most GDPs operate within the national terms of the general dental service (GDS), although some have opted to provide similar patient services under local contracts agreed with their primary care trust (PCT) as part of the recently introduced personal dental service (PDS).

The table shows the estimated average income of NHS dentists in Hampshire for each year since 1997, calculated on a headcount basis. Whole time equivalent information is not available. A number of dentists moved from GDS to PDS, mainly in 2004–05. These dentists are known to be more committed to the NHS; hence, the effect of their leaving the GDS pool is to reduce the average GDS payments for those who remained at the end of 2004–05.

It is important to note that a dentist with an open GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses and that the Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.

*Average gross fees per GDS dentist[1] in Hampshire, 1996–97 to 2004–05*

£

| | *Average gross GDS fees*[2] | *Average gross PDS payments*[3,4,5] |
|---|---|---|
| 1996–97 | 62,966 | — |
| 1997–98 | 61,109 | — |
| 1998–99 | 61,186 | — |
| 1999–2000 | 60,665 | — |
| 2000–01 | 60,041 | — |
| 2001–02 | 61,893 | — |
| 2002–03 | 61,378 | — |
| 2003–04 | 61,445 | — |
| 2004–05 | 56,2246 | 114,650 |

[1] Averages are calculated on a headcount basis.
[2] Figures based on dentists with an open GDS contract at the end of the financial year.
[3] Figures based on 114 dentists with a live PDS contract at 31 March 2005.
[4] No PDS payments are available prior to 2004–05.
[5] Average gross PDS fees are based on the full-year value of contractual commitments made by PCTs.
[6] Break in series due to movement of 114 dentists from GDS to PDS.

*Notes:*
1. Prison contracts have not been included in this analysis.
2. In view of the boundary changes from health authorities to PCTs in 2002, the areas have been defined using practice postcodes.
3. Average income is shown gross of any income contributed by dental charges payable by patients.

**Anne Main:** To ask the Secretary of State for Health how many dental surgeries *(a)* carrying out only NHS work and *(b)* carrying out both NHS and private work there are in St. Albans; and if she will make a statement. [10845]

**Ms Rosie Winterton:** As at 31 May 2005, there were 36 national health service dental surgery addresses within St. Albans and Harpenden primary care trust (PCT)[1].

A dentist with a general dental services or personal dental services contract may provide as little NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists. Statistical data about dentists' private practice is not collected centrally.

*Source:*
[1] Dental Practice Board.

## Digital Hearing Aids

**Dr. Stoate:** To ask the Secretary of State for Health what the average period of time is that *(a)* new patients and *(b)* patients with existing analogue hearing aids living in (i) the Dartford, Gravesham and Swanley Primary Care Trust area and (ii) the Medway Primary Care Trust area have to wait before they are fitted with a digital hearing aid after their initial referral for an audiology assessment by their GP. [11534]

**Caroline Flint:** The information requested is not collected centrally.

## IVF

**Mr. Amess:** To ask the Secretary of State for Health if she will make it her policy to limit the number of embryos created through IVF to reduce the amount of embryo wastage; and if she will make a statement. [12728]

**Caroline Flint:** During an in vitro fertilisation (IVF) treatment cycle more than one embryo needs to be created if the patient is to have a realistic chance of having a child at the end of the treatment. This is because not all the embryos developed will be of sufficient quality to give the patient a chance of becoming pregnant. Additionally, where good quality embryos are available, only two will be transferred to the patient to limit the risk of a multiple pregnancy. Spare embryos are not automatically allowed to perish as the patient has the option of either storing them for future treatment or donating them for use in the treatment of others or research.

The Government have no plans to adopt a policy that would limit the number of embryos that can be created during treatment.

### Emergency Planning

**Mr. Donohoe:** To ask the Secretary of State for Health what plans are in place to stockpile medical consumables for use in the event of a civil or terrorist emergency; and if she will make a statement. [12641]

**Ms Rosie Winterton:** The Department and national health service is prepared to deal with a variety of incidents. Specifically, developed plans and preparations are in place to handle chemical, biological or radiological (CBRN) incidents, however caused.

The Department has procured and stockpiled medical consumables, including vaccines, antibiotics, antidotes and specialist equipment as part of the response to emergency incidents. Stocks are held at a number of centres throughout England, and there are tried and tested procedures for the rapid deployment of these stocks in emergency situations.

### Erythropoietin

**Dr. Gibson:** To ask the Secretary of State for Health how much the NHS has spent on erythropoietin over the last three years. [6716]

**Jane Kennedy:** The data is not available in the form requested. Data on prescriptions dispensed in primary care is available. The table shows how much was spent on erythropoietin when it was dispensed in the community over the last three years.

*Net ingredient cost*

| | *Total (£000)* |
|---|---|
| 2002 | 36,430.74 |
| 2003 | 38,594.86 |
| 2004 | 39,268.79 |

*Source:*
Prescription Pricing Authority

Data on prescriptions dispensed in secondary care is not yet publicly available. Contractual obligations prevent the data being released.

### Terminally Ill People

**Mr. Amess:** To ask the Secretary of State for Health how many times her Department has been consulted *(a)* formally and *(b)* informally by (i) hon. Members and (ii) Members of the House of Lords about end of life decision making since 1997. [12729]

**Ms Rosie Winterton:** This information is not held centrally.

### Food Irradiation

**Mr. Amess:** To ask the Secretary of State for Health if she will list each EU country where food irradiation is permitted; what products can be irradiated in each case; what assessment she has made of the irradiation of products from non-EU countries imported into the United Kingdom; and if she will make a statement. [10464]

**Caroline Flint:** Food irradiation falls into the Food Standards Agency's (FSA) area of responsibility. I am advised by the FSA that all European Union countries permit the irradiation of food, subject to their irradiation facilities obtaining approval from their national competent authority. Although irradiated food is permitted in all EU countries, it does not follow that there are approved food irradiation facilities in each member state. An up-to-date list of approved food irradiation facilities in EU member states is available at: http://europa.eu.int/comm/food/food/biosafety/irradiation/approved_facilities_en.pdf.

Dried aromatic herbs, spices and vegetable seasonings are currently the only foods that can be irradiated in, and traded freely between, all EU countries. A number of EU countries also permit other categories of food to be irradiated. However, up-to-date information on all the permitted foods in the different member states is not held centrally. In practice, not all permitted foods are in fact irradiated as this depends on the existence of an approved facility for the irradiation of each foodstuff. The European Commission provides annual reports on all food irradiated in practice each year at EU facilities. The most recent information currently available is for the year 2002 at http://europa.eu.int/eur-lex/en/com/rpt/2004/com2004_0069en01.pdf.

Irradiated foods imported into the EU from non-EU countries must have been irradiated at facilities approved by the European Union. There are currently five approved facilities outside the EU, three in South Africa, one in Turkey and one in Switzerland. Decisions on the approval of food irradiation facilities in non-EU countries are based on the results of inspections performed by the Food and Veterinary Office of the European Commission. FVO inspection reports are published at http://europa.eu.int/comm/food/fs/inspections/fi/reports/index_en.html.

All food imported from non-EU countries is subject to food safety controls carried out on the basis of risk assessment by local food authorities at the point of entry into the United Kingdom. As regards irradiated food, food products that do not comply with the Food (Control of Irradiation) Regulations 1990 (as amended) can be refused entry or destroyed.

### GPs

**Sarah Teather:** To ask the Secretary of State for Health what proportion of general practitioners are refusing to make advance appointments in *(a)* each London primary care trust and *(b)* London. [8330]

**Jane Kennedy:** The information requested is not collected centrally.

However, the Department collects information on the percentage of patients who cannot book an appointment more than two days in advance. The information for each of the primary care trusts (PCTs) and strategic health authorities (SHAs) in London is shown in the table.

*Percentage of patients who cannot book more than two days in advance*

| PCT code | SHA code | Organisation name | Percentage |
|---|---|---|---|
| Q04 | Q04 | North West London SHA | 0 |
| Q05 | Q05 | North Central London SHA | 1.2 |
| Q06 | Q06 | North East London SHA | 3.2 |
| Q07 | Q07 | South East London SHA | 3.4 |
| Q08 | Q08 | South West London SHA | 0 |
| 5AT | Q04 | Hillingdon PCT | 0 |
| 5H1 | Q04 | Hammersmith and Fulham PCT | 0 |
| 5HX | Q04 | Ealing PCT | 0 |
| 5HY | Q04 | Hounslow PCT | 0 |
| 5K3 | Q04 | Brent PCT | 0 |
| 5K6 | Q04 | Harrow PCT | 0 |
| 5LA | Q04 | Kensington and Chelsea PCT | 0 |
| 5LC | Q04 | Westminster PCT | 0 |
| 5A9 | Q05 | Barnet PCT | 4.7 |
| 5C1 | Q05 | Enfield PCT | 0 |
| 5C9 | Q05 | Haringey PCT | 0 |

*Source:*
*June primary care access survey.*

## Haemophilia

**Laura Moffatt:** To ask the Secretary of State for Health whether haemophilia patients with inhibitors and patients with factor VII (7) deficiency are eligible for treatment with recombinant products; and whether *(a)* primary care trusts and *(b)* haemophilia centre directors have been informed accordingly. [10923]

**Caroline Flint:** All haemophilia patients are now eligible for treatment with recombinant products. This includes patients with inhibitors and patients with factor VII deficiency. The chairman of the United Kingdom Haemophilia Centre Doctors' Organisation wrote to all haemophilia centre directors in England on 10 February 2004 to inform that they should start to make arrangements to treat remaining haemophilia A and B patients with recombinant products from 1 April 2005.

Information has been collected on patients with inhibitors or congenital factor VII deficiency who are eligible for recombinant products, and allocations have been made so that these patients are included in this final year of the roll out of recombinant. Due to the difficulty in predicting usage for inhibitor patients, further data will be collected to allow a six month review.

Primary care trusts receiving funding were informed about their allocation through the limits report sent to them on Tuesday 28 June.

## Health Funding

**Mr. Whittingdale:** To ask the Secretary of State for Health what the financial surplus or deficit recorded by each *(a)* NHS trust and *(b)* primary care trust in Essex was for 2004–05. [12121]

**Ms Rosie Winterton:** The latest year for which audited data on the financial position of national health service organisations is available is 2003–04. The Department does not currently publish unaudited information.

Audited information in respect of the 2004–05 financial position of all strategic health authorities, primary care trusts and NHS trusts will be published in their individual annual accounts, and will be available centrally in autumn 2005.

**Mr. Whittingdale:** To ask the Secretary of State for Health how much financial support was received by each *(a)* NHS trust and *(b)* primary care trust in Essex from the Essex NHS Bank in 2004–05; and how much is owed by each to the Essex NHS Bank. [12122]

**Ms Rosie Winterton:** The NHS Bank provides special assistance to the most financially challenged strategic health authorities (SHAs). Essex SHA has not received any special assistance from the NHS Bank.

**Mr. Whittingdale:** To ask the Secretary of State for Health how much funding per capita was given to each primary care trust in Essex in 2004–05. [12123]

**Ms Rosie Winterton:** Essex primary care trust's (PCTs) allocation per head of population (per capita) for 2004–05 is shown in the table.

*£000*

| | *2004–05 allocation per head* |
|---|---|
| Basildon | 1,002 |
| Billericay, Brentwood and Wickford | 875 |
| Castle Point and Rochford | 866 |
| Chelmsford | 852 |
| Colchester | 830 |
| Epping Forest | 959 |
| Harlow | 1,042 |
| Maldon and South Chelmsford | 773 |
| Southend on Sea | 1,034 |
| Tendring | 1,068 |
| Thurrock | 873 |
| Uttlesford | 787 |
| Witham, Braintree and Halstead Care Trust | 798 |

*Source:*
Department of Health Resource Allocation and Monitoring Analysis

**Mr. Lancaster:** To ask the Secretary of State for Health what the health expenditure per head of population in Milton Keynes has been in each year since 1997. [11570]

**Ms Rosie Winterton:** Expenditure based on Milton Keynes is not available. The expenditure per weighted head on health in Buckinghamshire Health Authority (HA) area and Thames Valley Strategic Health Authority (SHA) area is shown in the table.

*£ per head*

| | *Buckinghamshire HA* | *Thames Valley SHA area* |
|---|---|---|
| 1997–98 | 599.87 | n/a |
| 1998–99 | 637.24 | n/a |
| 1999–2000 | 699.93 | n/a |
| 2000–01 | 755.09 | n/a |
| 2001–02 | 976.85 | n/a |
| 2002–03 | n/a | 904.32 |
| 2003–04 | n/a | 1,140.04 |

*Notes:*

1. Expenditure has been taken from audited health authority summarisation forms and primary care trust summarisation schedules, which are prepared on a resource basis and therefore differ from cash allocations in the year. The figures have not been adjusted for inflation.
2. Figures for 1997–98 to 2001–02 have been prepared using gross expenditure figures. Figures for 2002–03 and 2003–04 have been adjusted to eliminate expenditure, which would be double counted where an authority acts as a lead in commissioning healthcare or other services. In 2001–02, there was a high degree of inter authority transactions, which have increased the apparent expenditure per head.
3. In many HAs there are factors, which distort the expenditure. These include:
the HA acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and
asset revaluations in national health service trusts being funded through HAs or PCTs.
4. The majority of general dental services expenditure is separately accounted for by the Dental Practice Board. An element of pharmaceutical services expenditure is accounted for by the Prescription Pricing Authority. Total expenditure on these items by the Dental Practice Board and the Prescription Pricing Authority cannot be allocated to individual health bodies, therefore the total expenditure in the answer by health authority does not capture all NHS expenditure within the area.

*Sources:*

Buckinghamshire HA audited accounts 1997–98 and 1998–99.
Buckinghamshire HA audited summarisation forms 1999–2000 to 2001–02.
Thames Valley SHA audited summarisation forms 2002–03 and 2003–04
Primary care trust (PCT) audited summarisation schedules 2000–01 to 2003–04 for bodies within the above health authority areas.
Weighted population figures.

## Hepatitis B

**Mr. Amess:** To ask the Secretary of State for Health (1) what the incidence of hepatitis B in England was in the last period for which figures are available; and what measures are being taken to control its spread; [10001]

(2) if she will commission a national strategy for hepatitis B. [10003]

**Caroline Flint:** Information on the incidence of hepatitis B in England is available from the Health Protection Agency's website at: www.hpa.org.uk/infections/topics_az/hepatitis_b/data.htm.

There are a range of measures being taken to control the spread of hepatitis B in England, these include:

screening of blood donations and viral inactivation of blood products;
immunisation of groups at increased risk of infection;
antenatal screening;
harm reduction services for injecting drug users, including needle and syringe exchanges;
services to prevent the spread of sexually transmitted infections, including hepatitis B;
infection control procedures in health care settings; and
regulation of tattooing and cosmetic piercing businesses.

The joint committee on vaccination and immunisation is reviewing the hepatitis B immunisation programme to assess whether it needs to be altered.

The National Institute for Health and Clinical Excellence is appraising the clinical and cost effectiveness of adefovir dipivoxil and pegylated interferon for the treatment of chronic hepatitis B infection. Guidance is expected in February 2006.

We have no current plans to commission a national strategy for hepatitis B but policy is kept under ongoing review.

**Mr. Amess:** To ask the Secretary of State for Health how many patients, other than those who have received transplants, are being treated for chronic hepatitis B in England. [10002]

**Caroline Flint:** This information is not held centrally.

## Heroin Addicts (Plymouth)

**Mr. Streeter:** To ask the Secretary of State for Health what the average waiting time is for heroin addicts in Plymouth to access residential treatment. [11332]

**Caroline Flint** *[holding answer 11 July 2005]:* Information on waiting times for drug rehabilitation places is published by the National Treatment Agency on a quarterly basis. In March 2005, the average waiting time for residential rehabilitation in Plymouth was five days.

## Hospital-acquired Infections

**Mr. Lidington:** To ask the Secretary of State for Health pursuant to answer of 27 June 2005, *Official Report*, column 1363W, on Hospital Acquired Infections, during which month this summer she plans to publish the results from the mandatory surveillance of *Clostridium difficile*. [9372]

**Jane Kennedy** *[holding answer 4 July 2005]:* We expect to publish this data in August.

## Infant Formula

**Lynne Jones:** To ask the Secretary of State for Health if she will press for changes in the Revision of Commission Directive 91/321/EEC on infant formulae and follow-on formulae in order to bring this Directive into line with the International Code and subsequent relevant World Health Assembly Resolutions. [10199]

**Caroline Flint:** In the "Choosing Health" White Paper, published last November, the Government promised to press for amendments to the European Commission Directive on infant formula and follow-on formula. The Government supports amendments being

proposed in the recast directive, which aim to protect the promotion of breastfeeding throughout the European Union.

### Medical Staff Numbers

**Mr. Maude:** To ask the Secretary of State for Health how many *(a)* nurses of all grades, *(b)* junior physiotherapists, *(c)* senior physiotherapists, *(d)* diagnostic radiographers, *(e)* therapeutic radiographers, *(f)* senior managers, *(g)* managers and *(h)* allied health professionals were employed in NHS hospitals in (i) West Sussex, (ii) Surrey, (iii) Durham, (iv) the East Riding of Yorkshire and (v) each strategic health authority in each of the last eight years. [7912]

**Mr. Byrne:** The information requested as at 30 September each year since 1997 has been placed in the Library.

### Mental Health

**Ms Abbott:** To ask the Secretary of State for Health what assessment she has made of the implications of Delivering Race Equality for the training of *(a)* psychiatrists and *(b)* other mental health professionals. [8945]

**Ms Rosie Winterton:** "Delivering Race Equality in Mental Health Care" (DRE) was published in January 2005. It is clear on the need for all those involved in planning or providing mental health services for black and minority ethnic communities to receive training in cultural sensitivity. This could include religious and linguistic needs, care and recovery planning, needs assessment and community engagement.

To support this training, the National Institute for Mental Health in England (NIMHE) and the Sainsbury Centre for Mental Health have developed 10 essential shared capabilities that everyone working in mental health care should achieve during pre-qualification training. The Department and NIMHE will issue further guidance, for example, on education and training for the new community development workers described in DRE shortly.

**Paul Flynn:** To ask the Secretary of State for Health how many hospital admissions on mental health grounds in the past three years have resulted from the use of *(a)* pharmaceutical drugs, *(b)* heroin, *(c)* cocaine, *(d)* cannabis, *(e)* alcohol, *(f)* nicotine, *(g)* khat and *(h)* magic mushrooms. [10849]

**Ms Rosie Winterton:** Number of admissions under mental illness specialties with a primary diagnosis (ICD-10) of a mental or behavioural disorder due to psychoactive substance abuse or poisoning caused by drugs, for the years 2001–02 to 2003–04 are shown in the table.

| *Type of drug* | *2001–02* | *2002–03*[1] | *2003–04*[1] |
|---|---|---|---|
| Pharmaceutical drugs | 330 | 390 | 380 |
| Heroin | 3,480 | 3,210 | 3,070 |
| Cocaine | 160 | 190 | 220 |
| Cannabis | 580 | 580 | 710 |
| Alcohol | 11,470 | 11,700 | 11,280 |

| *Type of drug* | *2001–02* | *2002–03*[1] | *2003–04*[1] |
|---|---|---|---|
| Nicotine | 10 | 10 | 10 |
| Stimulants | 310 | 350 | 310 |
| Hallucinogens | 80 | 70 | 80 |
| All | 16,420 | 16,490 | 16,060 |

[1] Figures for years 2002–03 and 2003–04 have not yet been adjusted for shortfalls in data and/or clinical error. Therefore, the data is ungrossed.

*Source:*
Hospital episode statistics, National Health Service Health and Social Care Information Centre.

### Myasthenia Gravis

**Mr. Chaytor:** To ask the Secretary of State for Health what recent estimate she has made of the number of individuals in England suffering from myasthenia gravis; what guidance her Department has issued to NHS trusts in respect of support for those diagnosed with the disease; and if she will make a statement. [11215]

**Mr. Byrne:** We do not make estimates of the number of individuals suffering from specific conditions.

The recently published national service framework for long-term conditions provides guidance on delivering health and social care support for those people with long-term conditions, including myasthenia gravis.

### Myeloma

**Mr. Lansley:** To ask the Secretary of State for Health what steps she is taking to improve the care offered to those with myeloma. [12603]

**Ms Rosie Winterton:** The Government are committed to providing high-quality cancer services across the country, irrespective of cancer type. The National Institute for Health and Clinical Excellence (NICE) has been commissioned to continue the improving outcomes series of guidance to ensure there is a comprehensive package of cancer services guidance covering all cancers.

The NICE improving outcomes in haematological cancers guidance was published in October 2003 and addresses multiple myeloma.

The Department is also considering referring the drug Velcade for the treatment of multiple myeloma to NICE for appraisal.

### NHS Research Ethics Committees

**Mr. Lansley:** To ask the Secretary of State for Health how many members sit on NHS research ethics committees; and whether she plans to introduce payment for their services. [10031]

**Jane Kennedy:** An estimated 1,900 members currently sit on NHS Research Ethics Committees (RECs) in England. At present members are paid expenses for attending meetings. The Government have recently published the report of the ad hoc advisory group on the operation of NHS RECs, which includes the following as one of its recommendations

> "The time commitment required of members and support staff for training should be more formally recognised, as should the time taken in committee hearings and preparation. This implies paying REC members appropriately, either directly or through compensating their employers."

The National Patient Safety Agency will prepare an implementation plan for the report's recommendations which will be subject to public consultation.

## NHS Staff (Assaults)

**Mr. Lansley:** To ask the Secretary of State for Health on what date the national reporting system for physical assaults on NHS staff was established; and on what date she first expects data collected under the scheme to be published. [10022]

**Jane Kennedy:** In April 2003, the NHS Security Management Service (NHS SMS) was created and assumed policy and operational responsibility for the management of security in the national health service, including work to tackle violence against NHS staff.

On 20 November 2003, the NHS SMS introduced a comprehensive range of measures to tackle incidences of violence against NHS staff, both proactively and reactively, including the establishment of a national reporting system for physical assaults. Work is currently taking place to audit and validate data relating to physical assaults so that for the first-time ever the NHS will have accurate information on the true nature, scale and extent of this matter; it is expected that this will be completed later this year and results will be released thereafter.

**Mike Penning:** To ask the Secretary of State for Health how many staff employed by West Hertfordshire Hospital Trust were assaulted while on duty in the year *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004; and how many prosecutions resulted from these assaults. [10782]

**Ms Rosie Winterton:** The table shows the number of reported violent incidents against national health service staff in the West Hertfordshire Hospital Trust for the years 2000–01, 2001–02 and 2002–03. The information is from the violence, accidents and harassments in the NHS survey. As the sufvey has been discontinued, figures for 2004 are not available. The Department does not collect information about the number of prosecutions resulting from violent assaults.

*NHS hospital and community health services: recorded incidents of violent attacks and assaults on staff within West Hertfordshire Hospital Trust in each specified period*

| | *Number of recorded incidents* |
|---|---|
| 2000–01 | 8 |
| 2001–02 | 110 |
| 2002–03 | 42 |

*Notes:*
1. Covers 1 April to 31 March for specified years.
2. The data collection was discontinued in 2003.

*Source:*
Survey of violence, accidents and harassments in the NHS.

## Patients' Forums

**Mr. Lansley:** To ask the Secretary of State for Health how many patients' forums there were *(a)* in total and *(b)* in each strategic health authority area in the most recent year for which figures are available; and how many members community health councils had in each (i) in total and (ii) by strategic health authority area in the last year of their existence. [9312]

**Ms Rosie Winterton:** There are 572 patient and public involvement forums in England, one for each primary care trust and national health service trust. On the 4 July 2005, there were 4,838 members. Figures about the number of forum members by strategic health authority areas are not available centrally. Information about the number of community health council members is not available.

## PCTs (Birmingham)

**John Hemming:** To ask the Secretary of State for Health what her plans are for the number of primary care trusts in Birmingham. [11305]

**Ms Rosie Winterton:** Decisions on the configuration of local services are a matter for the local health community.

Birmingham and the Black Country Strategic Health Authority reports that no decisions have been made about the future configuration of primary care trusts (PCTs) in the Birmingham area.

The Department is intending to publish guidance on the future role of PCT shortly.

## Pensioners (Free Eye Tests)

**Julie Morgan:** To ask the Secretary of State for Health what the cost has been to public funds of free eye tests for pensioners in each year since 1997–98. [10317]

**Ms Rosie Winterton:** Estimates of the total costs of national health service sight tests for patients aged 60 and over in England and Wales for the years from 1997 are shown in the table.

*£ million*

| *Year*[1] | *England costs* | *Wales costs* |
|---|---|---|
| 1999–2000 | 49.6 | 3.7 |
| 2000–01 | 58.0 | 3.7 |
| 2001–02 | 64.5 | 4.1 |
| 2002–03 | 69.1 | 4.6 |
| 2003–04 | 74.4 | 4.8 |

[1] Eligibility for free eye tests for all those aged over 60 re-commenced in 1999–2000.

## Retinopathy

**Mrs. Betty Williams:** To ask the Secretary of State for Health how many primary care trusts have protocols in place for recalling people with diabetes to receive retinal screening. [11339]

**Ms Rosie Winterton:** This information is not held centrally. Information from strategic health authorities (SHAs) currently indicates that the national health service is on course to meet the target for March 2006, that is, that 80 per cent. of people with diabetes are offered screening for the early detection of diabetic retinopathy as part of a systematic screening programme; call and recall arrangements are an important part of systematic screening. The Department is working with all SHAs to ensure robust performance management of progress.

**Mrs. Betty Williams:** To ask the Secretary of State for Health how many follow-up appointments at specialist eye clinics for those people needing treatment for sight-related retinopathy were cancelled in the last period for which figures are available. [11340]

**Ms Rosie Winterton:** This information is not held centrally.

**Mrs. Betty Williams:** To ask the Secretary of State for Health how many follow-up appointments were *(a)* cancelled and *(b)* rescheduled for people with diabetes needing laser eye treatment in the last period for which figures are available. [11344]

**Ms Rosie Winterton:** This information is not held centrally.

### West Hertfordshire Hospital Trust

**Mike Penning:** To ask the Secretary of State for Health what the target waiting times are for *(a)* MR1 scans and *(b)* ultrasound scans at West Hertfordshire Hospital Trust. [10698]

**Ms Rosie Winterton:** By 2008, no patient will have to wait more than 18 weeks from a general practitioner referral to start of treatment. This will include diagnostic procedures. It is the responsibility of local trusts to deliver acceptable access standards for all out-patients having taken into account clinical priority.

**Mike Penning:** To ask the Secretary of State for Health what the target waiting times are for orthopaedic surgery at West Hertfordshire Hospital Trust. [10699]

**Ms Rosie Winterton:** From 1 April 2004, the maximum waiting time for in-patient treatment was reduced from 12 months to nine months and from end 2005 a maximum waiting time of six months will be introduced. By 2008, patients will be admitted for treatment within a maximum of 18 weeks from referral by their general practitioner, and those with urgent conditions will be treated sooner.

**Mike Penning:** To ask the Secretary of State for Health how many beds in hospitals covered by West Hertfordshire Hospital Trust are available for patients with severe neck or spinal trauma. [10701]

**Ms Rosie Winterton:** The information requested is not collected centrally.

## HOME DEPARTMENT

### Airwave

**Mr. Henderson:** To ask the Secretary of State for the Home Department how much funding he allocated to provide the Airwave National Fallback Service. [11584]

**Hazel Blears:** The Home Office has approved expenditure of up to £345 million over the life of the contract for the Airwave National Fallback Service.

### Antisocial Behaviour Orders

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what plans he has to extend the disability equality duty to the application by police or local authorities for antisocial behaviour orders. [12165]

**Hazel Blears:** The disability equality duty, introduced by the Disability Discrimination Act 2005, will apply to all functions of public authorities with the exception of a few narrow exemptions. All agencies eligible to apply for antisocial behaviour orders, including the police and local authorities, will be covered by the disability equality duty.

Courts will not be subject to the duty when considering whether to issue orders as this would undermine judicial independence.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department whether antisocial behaviour orders have been *(a)* applied for and *(b)* granted in respect of persons living in social housing properties who are known to have a mental health problem. [12166]

**Hazel Blears:** Information is not collected centrally about the characteristics or circumstances of persons issued with an antisocial behaviour order.

### Asylum/Immigration

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what assessment he made of UN Security Council Resolution 1244 in the framing of his Department's Asylum Policy Instruction on the internal relocation of ethnic Albanians in Kosovo. [12191]

**Mr. McNulty:** Security Council Resolution 1244 adopted by the Security Council at its 4011th meeting on 10 June 1999 ordered the withdrawal of all Yugoslav military forces and the establishment of an international peacekeeping force and made a commitment to ensure the safe and unimpeded return of all refugees and displaced persons to their homes in Kosovo. Resolution 1244 does not affect the view based on the available objective country information and case law that there is in general freedom of movement for all ethnic Albanians in Kosovo and that it would not be unduly harsh for ethnic Albanians to relocate internally within Kosovo, to an area where they will not face persecution.

**Andrew Rosindell:** To ask the Secretary of State for the Home Department how many asylum seekers accepted into the UK since 1997 have been convicted of criminal offences. [8459]

**Mr. McNulty:** This information is not recorded centrally.

**Bob Spink:** To ask the Secretary of State for the Home Department what estimate he has made of the proportion of people in the UK being assessed for asylum who will *(a)* fail in their application and *(b)* leave the UK after failing. [10454]

**Mr. McNulty:** Asylum numbers are continuing to fall dramatically year on year, and provisional figures for the whole of 2004 show UK asylum applications including dependants fell by 33 percent., twice the rate of the rest of Europe.

The number of cases awaiting an initial decision has continued to fall, to 8,700 at the end of March—the lowest level for more than a decade. It is not possible to know exactly what proportion of these applications will fail, or will result in applicants subsequently leaving the UK after failing.

On the basis of the latest statistics on initial decision outcomes and appeal outcomes, it can be assumed that around 70–80 percent. of the 33,930 asylum applications received in 2004 will ultimately prove to be unfounded.

The level of removals in 2004 (12,430 principal applicants) is equivalent to around half this level of unfounded applications made in 2004. The equivalent proportion for 1996 is 20 percent. In addition some failed asylum seekers may leave the UK without informing the Immigration Service.

Our target is to increase the monthly number of removals so that they exceed the monthly number of new asylum applicants expected to be unfounded, by the end of 2005. Increasing removals is a key part of our five year immigration and asylum plan, in particular working with source countries to secure more returns.

Information on the numbers of asylum applications and removals of failed asylum seekers is published in the quarterly asylum statistics on the Home Office Research Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

**John Bercow:** To ask the Secretary of State for the Home Department what assessment his Department has made of the impact of the use of Arab translators upon the accuracy of the recording of the testimony of Darfuri asylum seekers. [11062]

**Mr. McNulty:** Qualified interpreters in the Darfuri primary languages of Fur, Zaghawa and Massaleit are not available, but every effort is made to provide an Arabic-speaking interpreter who understands and can be understood by the person being interviewed. At the beginning of every asylum interview, the interviewer will ensure that the applicant understands the interpreter and vice versa, and will also ask the applicant at the end if he has understood the questions. We do not accept that the use of Arabic-speaking interpreters has disadvantaged Sudanese asylum seekers from the Darfur region.

**Mr. Mallon:** To ask the Secretary of State for the Home Department how many *(a)* asylum seekers and *(b)* immigration detainees in respect of whom all coroners' inquests and legal proceedings are completed have (i) died and (ii) been recorded as harming themselves in the last five years for which figures are available; how long each person concerned had been held in detention prior to death or harm; what the verdict was of the coroners' or other inquiry held into such incidents; and in which establishment each person was held. [12295]

**Mr. McNulty** *[holding answer 14 July 2005]:* There have been four immigration detainee deaths in the last five years where the coroner's verdict is known:

| *Date of death* | *Length of detention* | *Verdict* | *Establishment* |
|---|---|---|---|
| 31 January 2003 | 3 months | Suicide | Haslar |
| 7 May 2003 | 1 day | Killed | Harmondsworth |
| 1 May 2004 | 2 months | Natural causes | Haslar |
| 12 July 2004 | 4 days | Natural causes | Port of Dover |

There is no record of any having self-harmed in the period prior to their deaths.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department if he will introduce legislation to put the criteria for the detention of asylum seekers on a statutory basis. [12968]

**Mr. McNulty:** No. Immigration detention powers are contained in schedules two and three to the Immigration Act 1971 and Section 62 of the Nationality, Immigration and Asylum Act 2002. These provide for detention to be authorised in the following circumstances: for persons on arrival subject to further examination before deciding whether to grant or refuse leave to enter; for illegal entrants and others liable to removal; and for persons subject to deportation. The Government's position on the normal use of these statutory powers is already in the public domain. Any changes to that position would also be made public.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department if he will make it his policy that a decision to detain an asylum seeker is automatically and regularly reviewed as to its *(a)* legality, *(b)* necessity and *(c)* appropriateness by a court or other independent body. [12969]

**Mr. McNulty:** We do not accept that it would be appropriate or necessary to introduce automatic judicial or other independent oversight of individual decisions to detain. Immigration detainees may challenge the lawfulness of their detention before the courts through the processes of judicial review or habeas corpus. We are satisfied that the procedures for authorising detention under Immigration Act powers comply with Article 5 of the European Convention on Human Rights.

**Mr. Rosindell:** To ask the Secretary of State for the Home Department how many *(a)* illegal immigrants and *(b)* failed asylum seekers entered the UK between 1997 and 2004. [313]

**Mr. McNulty:** The information is as follows.

*(a)* No government has ever been able to produce an accurate figure for the number of people who enter the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report, on 30 June 2005, which included an estimate of the size of the illegal migrant population in the UK in 2001. It should be noted that the report included an estimate, not an accurate or definitive figure.

As mentioned in the report the only method to estimate the size of the unauthorised migrant population in the UK that currently can sensibly be applied is the residual method. As the method relies on data from the census of the population undertaken every 10 years, it is not possible to produce an estimate for other years.

Failed asylum seekers who do not comply with instructions to leave the UK, who are not appealing or who have exhausted their rights of appeal (including those who abscond during the process) are included in the definition of 'unauthorised' or 'illegally resident' migrant population used in the report.

A copy of the RDS On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

*(b)* Information on when asylum seekers enter the country is not available and could be obtained only at disproportionate cost.

**Mr. Love:** To ask the Secretary of State for the Home Department when all of those who applied for the family concession from October 2003 will have their cases concluded; and if he will make a statement. [11840]

**Mr. McNulty:** It is not possible to provide a precise time scale of when all those currently being considered under the exercise will have had their cases concluded.

The time it takes to reach a decision depends both on individual circumstances and on the number of cases in the consideration process. Sometimes people do not complete the Family ILR Exercise Questionnaire properly, or fail to provide the documentation requested. The checks we conduct on potentially eligible applicants can also take some time to complete, depending on individual circumstances. We also encounter a number of complex cases that can take some time to resolve.

The main factor, though, which makes providing a meaningful completion date for the exercise difficult, is the substantial number of cases we still have to consider. In addition, we continue to receive a number of applications for the scheme, each of which requires careful assessment. We are hoping to have completed consideration of the majority of cases by the end of April 2006.

Key statistics relating to the Family ILR Exercise were published as part of the quarterly asylum statistics on 17 May. These show the current status of the exercise up to and including 31 March 2005 and are available to the public on the Home Office Research Development and Statistics (RDS) website. The full web address is:

www.homeoffice.gov.uk/rds/immigration1.html

These statistics will be updated in August to include the second quarter of 2005.

**Mr. Love:** To ask the Secretary of State for the Home Department (1) how many cases in *(a)* Greater London, *(b)* the London borough of Enfield and *(c)* Edmonton are still outstanding under the family concession exercise of October 2003; and if he will make a statement; [11841]

(2) how many residents of *(a)* the London borough of Enfield and *(b)* Edmonton who have not yet had their cases under the family concession exercise determined, submitted their application in each quarter since the last quarter of 2003; and if he will make a statement. [11842]

**Mr. McNulty:** We are unable to provide accurate figures of the numbers of outstanding applicants by location. General key statistics relating to the progress of the exercise were published as part of the quarterly asylum statistics on 17 May. These show the current status of the exercise up to and including 31 March 2005 and are available to the public on the Home Office Research Development and Statistics (RDS) website. The full web address is:

www.homeoffice.gov.uk/rds/immigration1.html

These statistics will be updated in August to include the second quarter of 2005.

**Keith Vaz:** To ask the Secretary of State for the Home Department what estimate he has made of how many illegal immigrants live in the UK; and what research he has commissioned into the routes of illegal migration into the UK. [10102]

**Mr. McNulty:** No government has ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report, on 30 June 2005, which included an estimate of the size of the illegal migrant population in the UK in 2001. It should be noted that the report included an estimate, not an accurate or definitive figure.

As mentioned in the report the only method to estimate the size of the unauthorised migrant population in the UK that currently can sensibly be applied is the residual method. As the method relies on data from the census of the population undertaken every 10 years, it is not possible to produce an estimate for a more recent year.

A copy of the Research Development and Statistics Directorates (RDS) On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

The Home Office has commissioned research that provides some information on the routes of illegal migration into the UK. The findings are contained in an RDS On-line report 20/05 "A survey of the illegally resident population in detention in the UK" (found at: http://www.homeoffice.gov.uk/rds/onlinepubs1.html).

**Keith Vaz:** To ask the Secretary of State for the Home Department what estimate the Government have made of how many immigrants are in the UK having overstayed their visas. [10103]

**Mr. McNulty:** Information on the total number of immigrants who have overstayed their visa, is not available. This could be obtained only at disproportionate cost by examination of individual case records. In addition some applicants may leave the United Kingdom without informing the Immigration Service.

E-borders and ID cards will enable us to monitor this more precisely in the future.

No government has ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report, on 30 June 2005, which included an estimate of the size of the illegal migrant population in

the UK in 2001. It should be noted that the report included an estimate, not an accurate or definitive figure.

Overstayers are included in the definition of 'unauthorised' or 'illegally Resident' migrant population used in the report.

A copy of the RDS On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

**Bob Spink:** To ask the Secretary of State for the Home Department what assessment he has made of the routes by which people living in the UK illegally first entered the country. [10455]

**Mr. McNulty:** Persons living in the UK illegally may have entered the UK unlawfully, either clandestinely or by deploying deception, or may have entered the UK legally and remained beyond any permitted permission to remain. The methods and routes used to enter the country are varied and change in response to a number of factors, including the impact of new security measures.

The Immigration and Nationality Directorate routinely monitors the trends and changes to methods of illegal entry into the UK. These assessments are used to inform policy and operational initiatives.

Many of those entering the UK use the services of criminal groups to provide documentation, transport and to provide assistance once here. Under Reflex, the Government's multi-agency taskforce to combat organised immigration crime, intelligence assessments of the routes and methods used to enter the United Kingdom are regularly updated and are used to direct targeted operations against the criminal gangs involved.

The main route for clandestine entry to the UK has been through the South East ports while those entering by air often use false documents and take circuitous routings. A number of successful countermeasures have been introduced to combat these routes such as the introduction of juxtaposed controls, enhanced freight searching, deployment of overseas officers, the development of risk assessment units at key visa posts overseas and regular alerts to front-line staff on developments in document abuse.

**Mr. Lilley:** To ask the Secretary of State for the Home Department (1) what estimate he has made of the change in the number of unauthorised residents in the UK since 2001; [10806]

(2) what proportion of the unauthorised migrant population estimated in his Department's research study were estimated to have arrived in the UK between 1991 and 2001. [10807]

**Mr. McNulty** *[holding answer 7 July 2005]:* No government has ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report, 30 June 2005, which included an estimate of the size of the illegal migrant population in the UK in 2001. It should be noted that the report included an estimate, not an accurate or definitive figure.

As mentioned in the report the only method to estimate the size of the unauthorised migrant population in the UK that currently can sensibly be applied is the residual method. As the method relies on data from the census of the population undertaken every 10 years, it is not possible to produce an estimate for a more recent year. It is also not possible to estimate the proportion of the unauthorised migrant population who arrived in the UK between 1991 and 2001.

A copy of the RDS On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many visits were made to employers by Immigration Service officers in 2004–05. [10073]

**Mr. Charles Clarke:** In 2004–05, 1,858 enforcement visits to business premises were reported by UK Immigration Service local enforcement offices. Other visits to employers to explain the law on illegal working would also have been undertaken, but figures for these are not held centrally.

### Work Permit System (Ethnic Minorities)

**Harry Cohen:** To ask the Secretary of State for the Home Department what assessment he has made of the likely effect of his proposals for changes to the work permit system on ethnic minority businesses in the catering sector in relation to their ability to recruit skilled staff from the Indian sub-continent; and if he will make a statement. [4164]

**Mr. McNulty:** The Government's plans for changes to the work permits system and for current sector based schemes are outlined in "Controlling our borders: making migration work for Britain" the five-year plan for asylum and immigration. The Government are committed to ensuring that UK employers have access to the skills and experience they need in order to maximise the economic benefits to the UK from migration. Skilled migrant workers should be enabled to fill vacancies which cannot be filled from within the UK or EU.

The written ministerial statement on 23 June announced that, following a review of the scheme and in the light of additional labour available from the new EU countries, the current sectors based scheme for the hospitality sector would be ended. The findings of that review have been placed on work permits (UK)'s website. If additional needs are identified in future, small tightly managed quota-based schemes will be established for specific shortage areas for fixed periods.

### Biometric Passport Databases

**Mr. Oaten:** To ask the Secretary of State for the Home Department whether, following the implementation of the International Civil Aviation Organisation biometric standards, immigration staff at

ports and airports will be able to access other countries' biometric passport databases in order to verify the validity of documents presented by passengers. [10072]

**Mr. Charles Clarke:** In order to realize the benefits of biometrics, Immigration Officers need to be able to access the biometric information stored on the passport's chip and verify that the person presenting the passport is the rightful holder. Immigration Officers will not have access to databases of other countries but it is the intention of the Immigration, Asylum and Nationality Bill that they will have access to the data contained within the passport chip in biometric passports of overseas nationals. The bill also seeks to provide Immigration Officers with the power to ask the holder of the passport to provide biometric information, such as fingerprints, for comparison with data held in the passport chip to ascertain whether the person presenting the passport is the rightful holder of the document.

## Bombings

**Mr. Amess:** To ask the Secretary of State for the Home Department (1) if he will list the *(a)* dates and *(b)* locations of crimes using bombs or other explosive devices that have taken place in England and Wales resulting in death or personal injury in each year since 1976; and if he will list the number of (i) casualties and (ii) convictions that have been secured; [10550]

(2) if he will list the names of organisations and individuals who claimed responsibility for crimes using bombs or other explosive devices that have taken place in England and Wales resulting in death or personal injury for each year since 1976. [10551]

**Mr. Charles Clarke:** The information requested is not held centrally and could be provided only at disproportionate cost.

## Correspondence

**Mr. Burns:** To ask the Secretary of State for the Home Department pursuant to the answer of 13 June 2005, *Official Report*, column 151W, on correspondence, when he will provide a substantive reply to the letter of 28 February from the hon. Member for West Chelmsford. [9098]

**Fiona Mactaggart** *[holding answer 4 July 2005]*: I wrote to the hon. Member on 30 June.

**Mr. Barstow:** To ask the Secretary of State for the Home Department when he will reply to the letter from the hon. Member for Sutton and Cheam concerning his constituent Mr. Sebastian John D'Souza, dated 18 May, ref D'Souza/180505/Stonecot/by. [4917]

**Mr. McNulty:** I wrote to the hon. Member on 15 July.

## Crime

**Mr. Streeter:** To ask the Secretary of State for the Home Department what the trends in criminal activity in the East sector of Plymouth are for the last 12 months; and if he will make a statement. [11324]

**Hazel Blears** *[holding answer 11 July 2005]*: Statistics are not collected centrally for the East Sector of Plymouth. The latest published information is for the Plymouth Crime and Disorder Reduction Partnership area and covers 2003–04. The statistics cover six key offence groups and give comparisons with 2002–03 and rates per 1,000 population.

The data is available on the Home Office website at:
http://www.homeoffice.gov.uk/rds/pdfs04/cdrptabs.xls

**John Hemming:** To ask the Secretary of State for the Home Department how many *(a)* final warnings and *(b)* reprimands have been issued under the Crime and Disorder Act 1998 in each year for each (i) classification of crime and (ii) age cohort. [11790]

**Hazel Blears:** Information from the Home Office Court Proceedings database on the number of persons in each age cohort under the age of 18 who have been issued with a reprimand or final warning since the introduction of the Crime and Disorder Act 1998, by offence type, England and Wales, 1999–2003 is contained in the table.

Statistics for 2004 will be available in the autumn.

*Number of juveniles given a reprimand or final warning by offence type and age cohort, England and Wales 1999–2003*[1,2]

| | 1999 | | | 2000 | | |

[1] These data are on the principal basis
[2] Juvenile cautions were replaced by reprimands and final warnings in June 2000

**Mr. Hoyle:** To ask the Secretary of State for the Home Department if he will make a statement on changes in the level of crime in *(a)* Lancashire and *(b)* Chorley in the last five years. [6611]

**Hazel Blears:** Information from police recorded data for the years 1999 to 2004 is contained in the tables.

Chorley is a Crime and Disorder Reduction Partnership (CDRP) area. The most recent available information relates to 2003–04. Data for the period up to 31 March 2005 will be included in the forthcoming publication "Crime in England and Wales 2004–05" which will be available on the Home Office website and in the Library.

In terms of violent crime, much of the rise in violence against the person which is shown in the tables can be accounted for by changes to the way the police define and record certain offences. Police recorded crime data are subject to changes in police recording practices, including those relating to national Counting Rules and recording standards. The Counting Rules changes in 1998 had a very significant impact on violent crime, across England and Wales the numbers of such crimes recorded by the police increased by 83 per cent. in the first year of using the new rules. The National Crime Recording Standard, introduced in April 2002, again resulted in increased recording of violent crimes, particularly for less serious violent offences. In addition, increased police activity can have an impact on how many offences are recorded, because, in such circumstances, police officers may encounter and record incidents that may not previously have been reported or recorded.

In comparison, British Crime Survey data, widely regarded as the most authoritative view of violent crime, shows considerable reductions in violent crime across England and Wales since 1997.

*Table 1a: Recorded crime for six key offences in the Chorley Crime and Disorder Reduction Partnership area, 1999–2000 to 2001–02*[1]

| | 1999–2000 | 2000–01 | 2001–02 |
|---|---|---|---|
| Violence against the person | 551 | 581 | 646 |

| Drug and other offences | 5,963 | 5,702 |
| Total | 130,507 | 151,835 |

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
[2] All burglary, including attempted burglary.
[3] Including theft of and from a motor vehicle.

**Mr. Hollobone:** To ask the Secretary of State for the Home Department what the annual number of recorded crimes per 1,000 population was for *(a)* Northamptonshire police force, *(b)* Northamptonshire's most similar family of forces and *(c)* an average for England and Wales in each of the last 10 years. [11192]

**Hazel Blears:** The information requested is given in the table.

Since 1997, there have been two major changes to the way crime is recorded. The effect of the change in the counting rules in 1998 was to artificially increase total recorded crime nationally by 14 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further increase of 10 per cent. in total recorded crime in its first year.

*Total recorded crime in Northamptonshire and it's most similar forces—rate per 1,000 population 1994 to 2003–04*

*Rate per 1,000 population*

| *Police force area* | *1994* | *1995* | *1996* | *1997* | *1998–99*[1] |
|---|---|---|---|---|---|
| Cambridgeshire | 90 | 98 | 100 | 85 | 94 |
| Cheshire | 77 | 75 | 68 | 62 | 66 |
| Hampshire | 82 | 78 | 78 | 71 | 73 |
| Hertfordshire | 65 | 66 | 63 | 58 | 57 |
| Kent | 101 | 100 | 95 | 79 | 83 |
| Northamptonshire | 97 | 95 | 96 | 89 | 107 |
| Staffordshire | 89 | 87 | 87 | 85 | 87 |
| Warwickshire | 86 | 78 | 78 | 71 | 76 |
| England and Wales | 102 | 99 | 97 | 88 | 98 |

| | *1999–2000* | *2000–01* | *2001–02* | *2002–03*[2] | *2003–04* |
|---|---|---|---|---|---|
| Cambridgeshire | 95 | 89 | 95 | 120 | 112 |
| Cheshire | 66 | 64 | 72 | 86 | 94 |

| Kent | 79 | 81 | 75 | 83 | 86 |
| Northamptonshire | 99 | 91 | 97 | 117 | 123 |
| Staffordshire | 93 | 99 | 111 | 104 | 104 |
| Warwickshire | 76 | 73 | 83 | 87 | 89 |
| England and Wales | 101 | 98 | 104 | 113 | 113 |

[1] Figures using the expanded offence coverage and revised counting rules which came into effect on 1 April 1998.
[2] The National Crime Recording Standard was introduced on 1 April 2002. Figures before and after that data are not directly comparable.

### Deepcut Barracks

**Lembit Öpik:** To ask the Secretary of State for the Home Department if he will inquire into the reasons for the time taken by Devon and Cornwall police to investigate the Surrey police's review of deaths at the Deepcut army barracks; and if he will make a statement. [6924]

**Hazel Blears:** The terms of reference for this Inquiry require the Devon and Cornwall constabulary to examine a number of issues as they relate to the Surrey police investigation into four deaths at Deepcut Barracks.

These matters are not straightforward and include, among other things, issues around the disposition of officers and others involved in the investigation. These matters are very challenging and deal with issues that have not previously been examined by a police inquiry. A substantial number of documents have had to be examined in close detail and cross referenced to other material and witnesses. The inquiry is essentially a review of four deaths over a seven year period in five distinct and different areas.

### Departmental Contracts

**Stephen Williams:** To ask the Secretary of State for the Home Department what the normal payment terms are for his Department to settle the invoices of building contractors who have performed work for the Home Office. [11679]

**Mr. Charles Clarke:** The normal payment terms for the Home Office to settle the invoices of building contractors who have performed work for us is within 30 days of delivery and receipt of a valid invoice.

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for the Home Department if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11728]

**Mr. Charles Clarke:** The Home Office is not able to answer this question without incurring disproportionate cost.

### Departmental Spending (Security)

**David Davis:** To ask the Secretary of State for the Home Department how much the Department has spent on ensuring that his residence has adequate security measures in each of the last three years. [6912]

**Mr. Charles Clarke:** The Home Office do not discuss security arrangements for individuals including costs, for protection reasons.

### Disqualified Drivers

**Mr. Chaytor:** To ask the Secretary of State for the Home Department how many drivers were disqualified from driving for a period of over two years in each of the last five years; how many subsequently applied to the sentencing court for part of the disqualification period to be lifted on grounds of hardship; and how many were successful. [11549]

**Paul Goggins:** Available information taken from the Home Office Court Proceedings Database on the number of disqualifications imposed on drivers for motoring offences for a period of two years and over from 1999 to 2003 (latest available), is given in the table.

2004 data will be available early in 2006.

Information is not held centrally on the number of appeals and outcome against disqualifications from driving.

*Driving disqualifications[1] imposed at all courts for a period of two years and over for motoring offences, England and Wales, 1999 to 2003*

*Number of offences*

| | *Disqualification period* | | |
|---|---|---|---|
| | *2 years and over* | *Life* | *Total* |
| 1999 | 44,844 | 45 | 44,889 |
| 2000 | 43,780 | 26 | 43,806 |
| 2001 | 46,300 | 18 | 46,318 |
| 2002 | 50,803 | 35 | 50,838 |
| 2003 | 53,453 | 46 | 53,499 |

[1] Excludes persons disqualified by the courts under section 35 of the Road Traffic Offenders Act 1988 (penalty points system).

### Drug Rehabilitation

**Anne Main:** To ask the Secretary of State for the Home Department what the average waiting time to have an appointment for drug rehabilitation treatment was in 2004–05 with the consultant psychiatrist employed by the Health Partnership Trust in St. Albans; and what proportion of his patients are the subject of drug rehabilitation requirements and a drug treatment testing order. [11226]

**Ms Rosie Winterton:** I have been asked to reply.

The information requested is not collected centrally.

### EU Public Procurement Directive

**Malcolm Bruce:** To ask the Secretary of State for the Home Department what responsibilities will fall to his Department as a result of EU Public Procurement Directive 2004/18/EC; and what actions his Department plans to take in response to the Directive. [4655]

**Mr. Charles Clarke:** The Office of Government Commerce (OGC) is currently running a consultation on the draft regulations implementing the new EU Directives on procurement in the public sector (Directive 2004/18/EC) which ends on 12 September. Following this consultation period the deadline for implementation into UK law is 31 January 2006. Once the UK regulations are published the Home Office will be responsible for adhering to the requirements of the new directive which consolidates the current supplies, services, and works directives. The OGC will be issuing guidance on implementation which will be promulgated to all procurement specialists in the Home Office.

### Command Papers

**Mr. Amess:** To ask the Secretary of State for the Home Department how many *(a)* Green and *(b)* White Papers his Department has produced since 1997, broken down by date. [10511]

**Mr. Charles Clarke:** A list of all Command Papers produced by Departments from 10 May 2001 to the end of June 2005, prepared by the Office of Public Sector Information (OPSI) has been placed in the Library. This list by Department details the Command Paper number, title and date of publication.

It is not possible to separately identify the number of Green and White Papers. Information is not available prior to 10 May 2001, and could be obtained only at disproportionate cost.

A list of Command Papers from 2001 onwards is also available on the OPSI website at www.opsi.gov.uk with links to the Command Papers where known. The list can be viewed alphabetically by Department as well as numerically."

### Identity Cards

**Mr. Oaten:** To ask the Secretary of State for the Home Department whether he expects that the Government's proposal on Identity Cards will help individuals to verify that they are not dealing with bogus officials. [10996]

**Mr. Charles Clarke:** The statutory purposes of the Identity Cards Scheme are to facilitate the provision of a convenient method for individuals to prove registerable facts about themselves to others and the provision of a secure and reliable method for registerable facts about individuals to be verified wherever that is necessary in the public interest.

Identity Cards will assist the public to verify the identity of individuals, as the public will be able to visually compare the photograph on the Identity Card with the individual that is before them. Members of the public will also be able to compare the name on the card with the name of the individual that they are expecting. However it is not proposed that Identity Cards will have the occupation of the individual either on the face of the card or contained within the register, neither would there be any legal obligation for an official to produce a card on request.

**Mr. Oaten:** To ask the Secretary of State for the Home Department if he will publish his Department's technical evaluation of the London School of Economics work on Identity Cards. [10999]

**Mr. Charles Clarke:** A technical evaluation of the London School of Economics report will be published shortly.

### Illegal Alcohol Sales

**Steve Webb:** To ask the Secretary of State for the Home Department how many people were prosecuted for selling alcohol to under-age children in each year since 1997 in *(a)* England and *(b)* each region. [8681]

**Andy Burnham:** The available information from the Home Office Court Proceedings database, relating to those prosecuted against for selling alcohol to under-age children in England and each region, 1997 to 2003, is shown in table 1.

Statistics for 2004 will be available in the autumn.

The penalty notice for disorder scheme provides for persons who commit specified penalty offences to be issued with a fixed penalty notice instead of being prosecuted. The offence of selling alcohol to persons aged under 18 was added to the PND scheme on 1 November 2004 for use on bar or off-licence staff, licensees will be prosecuted to enable action to be taken to revoke their licences. Table 2 lists the number of penalty notices issued for this offence in 2004 and 2005 to the end of May.

*Table 1: Defendants proceeded against at magistrates courts for offences relating to the sale of alcohol to underage persons[1], England and each region, 1997 to 2003*

| Offence description | Statute | Region | 1997 | 1998 | 1999 |
|---|---|---|---|---|---|
| Selling etc., intoxicating liquor to persons under 18 for consumption on the premises | Licensing Act, 1964, section 169(1); Licensing (Occasional Permissions) Act 1983, schedule (sec. 3) para. 4(1) | North East | 34 | 94 | 41 |

[3] Provisional data January-May 2005

### Young Offenders

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age who had been placed in custody have re-offended in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [10197]

**Fiona Mactaggart:** Information in respect of Jarrow alone, South Tyneside alone and the North East alone is not collected centrally. In England and Wales as a whole, 70.4 per cent. of young people under 18 released from custody in 2001 were re-convicted within one year. The comparable figure for 2002 was 68.3 per cent.; and for 2003, 69.4 per cent. Figures for other years since 1997 are not available.

**Mr. Hepburn:** To ask the Secretary of State for the Home Department how many young people of school age *(a)* found guilty of a crime and *(b)* placed in custody were found to suffer from some form of mental illness in each of the last five years. [10195]

**Fiona Mactaggart:** This information is not collected centrally.

### Kidnaps

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many people were kidnapped in England and Wales in each of the last three years. [7330]

**Hazel Blears** *[holding answer 27 June 2005]:* There were 3,125 recorded offences of kidnapping in England and Wales in 2003–04. This corresponds with 3,184 offences in 2002–03 and 2,788 in 2001–02.

### Homicide

**Mr. Amess:** To ask the Secretary of State for the Home Department how many persons convicted of *(a)* murder and *(b)* manslaughter in England and Wales were subsequently (i) charged with and (ii) convicted of murder or manslaughter following their release on licence in each year since 1975. [10507]

**Hazel Blears:** The available information is as follows:

During the period 1975 to date, a total of 68 persons in England and Wales, released following a conviction for homicide, were known to have been convicted of a second offence of homicide.

The figure excludes persons who have been convicted outside England and Wales (for whom there is incomplete information), and persons who have been killed by those not previously convicted of homicide by reason of their mental state.

A breakdown for each year since 1975 by type of homicide is given in the following table.

*Suspects convicted of a second homicide following release from a previous conviction for homicide in England and Wales 1975 to 2004*

| | Murder second conviction | | | Manslaughter second conviction | | |
|---|---|---|---|---|---|---|
| | Homicide offence of previous conviction | | | | | |
| | Murder | Manslaughter | Total | Murder | Manslaughter | Total |
| 1975 | 0 | 1 | 1 | 0 | 1 | 1 |
| 1976 | 1 | 1 | 2 | 1 | 0 | 1 |
| 1977 | 0 | 2 | 2 | 0 | 1 | 1 |
| 1978 | 1 | 1 | 2 | 0 | 0 | 0 |
| 1979 | 0 | 1 | 1 | 1 | 0 | 1 |
| 1980 | 0 | 0 | 0 | 0 | 0 | 0 |
| 1981 | 1 | 0 | 1 | 1 | 1 | 2 |
| 1982 | 1 | 0 | 1 | 0 | 1 | 1 |
| 1983 | 0 | 2 | 2 | 0 | 1 | 1 |
| 1984 | 0 | 2 | 2 | 0 | 1 | 1 |
| 1985 | 1 | 1 | 2 | 0 | 1 | 1 |
| 1986 | 1 | 2 | 3 | 0 | 0 | 0 |
| 1987 | 0 | 0 | 0 | 0 | 1 | 1 |
| 1988 | 2 | 1 | 3 | 0 | 0 | 0 |
| 1989 | 1 | 3 | 4 | 0 | 0 | 0 |
| 1990 | 1 | 0 | 1 | 1 | 1 | 2 |
| 1991 | 0 | 0 | 0 | 0 | 2 | 2 |
| 1992 | 2 | 0 | 2 | 0 | 2 | 2 |
| 1993 | 0 | 2 | 2 | 0 | 0 | 0 |
| 1994 | 0 | 0 | 0 | 0 | 2 | 2 |
| 1995 | 0 | 5 | 5 | 0 | 1 | 1 |
| 1996 | 0 | 1 | 1 | 0 | 0 | 0 |
| 1997 | 0 | 1 | 1 | 0 | 0 | 0 |
| 1998 | 1 | 0 | 1 | 1 | 0 | 1 |
| 1999 | 2 | 1 | 3 | 0 | 1 | 1 |
| 2000 | 0 | 2 | 2 | 0 | 0 | 0 |
| 2001 | 0 | 0 | 0 | 0 | 0 | 0 |
| 2002 | 0 | 1 | 1 | 0 | 0 | 0 |
| 2003 | 0 | 1 | 1 | 0 | 0 | 0 |
| Total | 15 | 31 | 46 | 5 | 17 | 22 |

### National Offender Management Service

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will publish the business case for the establishment of the National Offender Management Service. [4966]

**Fiona Mactaggart:** The strategic business case for the establishment of the National Offender Management Service is being finalised and will be published as soon as is reasonably practicable thereafter.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will publish the pilot service level agreements between regional offender managers and the probation boards. [12028]

**Fiona Mactaggart:** In preparation for the move to commissioning of offender services, a programme of work is underway to develop a standard service level agreement. Service level agreements will then be drawn

up between regional offender managers and all probation boards within their region for operation in 2006–07. As part of this work, "shadow" service level agreements have been drafted this year with the following probation boards:

Bedfordshire;

Cambridgeshire;

Cheshire;

Cumbria;

Essex;

Greater Manchester;

Hertfordshire;

Lancashire;

Merseyside;

Norfolk;

Suffolk.

Copies of these "shadow" service level agreements have been placed in the Libraries of both Houses.

## Parking Fines

**David Davis:** To ask the Secretary of State for the Home Department how much was raised by parking fines in *(a)* Humberside and *(b)* England in each of the last five years. [6554]

**Mr. Charles Clarke:** Information on the revenue raised from parking summary offences is not available.

Available information, given in the tables show the number of fines at magistrates' court and the number of fixed penalty notices issued for all offences of obstruction, waiting and parking in the Humberside police force area and England, during the calendar years 1999 to 2003 (latest available).

Not all fines and fixed penalties will have been paid.

Information for 2004 will be available early in 2006.

Under The Road Traffic Act 1991 decriminalised parking enforcement (DPE) powers allow local authorities to take over responsibility for enforcing parking contraventions from the police. Data on fixed penalty notices issued under DPE are not included within the tables. Humberside does not operate DPE.

*Table 1: Fixed penalty and court proceedings data for obstruction, waiting and parking offences[1] within Humberside police force area[2] 1999–2003*

*Number of offences*

| | *Fixed penalties* | | | | *Court proceedings[3]* | | |
|---|---|---|---|---|---|---|---|
| | *Endorsable* | | *Non-endorsable* | | | | |
| | *Number of tickets[4]* | *Estimated revenue (£)* | *Number of tickets[4]* | *Estimated revenue (£)[5]* | *Number of fines* | *Total amount of fine (£)* | *Average fine (£)* |
| 1999 | 2 | 80 | 23,900 | 478,200 | 303 | 9,200 | 30 |
| 2000 | 4 | 173 | 26,600 | 576,200 | 125 | 3,600 | 29 |
| 2001 | 3 | 180 | 25,700 | 771,000 | 83 | 3,400 | 40 |
| 2002 | 2 | 120 | 26,500 | 795,100 | 160 | 6,200 | 39 |
| 2003 | 1 | 60 | 25,500 | 765,100 | 214 | 8,400 | 39 |

[1] Offences under the Road Traffic Act 1988 s.22; Transport Act 2000 ss.173 (5); 173 (6); 173 (7); 174 (3); 175 (2); 175 (3); 175 (4); 190 Highway Act 1835 ss 72 and 78; RTA 1988 ss. 19 and 21; Highways Act 1980 s. 137 (1); Road Traffic Regulations Act 1984 ss. 5 (1), 8, 32–36 and 45–53; Road Vehicles (Construction and Use) regulations 1986 Regs. 101 and 103; Transport Act 2000 Part III.

[2] On-street parking in the force area is not decriminalised.

[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

[4] Only covers tickets paid where there is no further action.

[5] Underestimates based on the lowest level of non-endorsable penalty charge: 20 to October 2000 and 30 from November 2000.

*Table 2: Fixed penalty and court proceedings data for obstruction, waiting and parking offences[1] England[2] 1999–2003*

*Number of offences*

| | *Fixed penalties* | | | | *Court proceedings[3]* | | |
|---|---|---|---|---|---|---|---|
| | *Endorsable* | | *Non-endorsable* | | | | |
| | *Number of tickets[4]* | *Estimated revenue (£)* | *Number of tickets[4]* | *Estimated revenue (£)[5]* | *Number of fines* | *Total amount of fine (£)* | *Average fine (£)* |
| 1999 | 196 | 7,800 | 1,656,000 | 33,124,000 | 14,400 | 877,300 | 61 |
| 2000 | 158 | 6,800 | 1,450,000 | 31,411,000 | 12,500 | 889,600 | 71 |
| 2001 | 148 | 8,900 | 1,195,000 | 35,836,000 | 12,000 | 829,300 | 69 |
| 2002 | 111 | 6,700 | 1,031,000 | 30,920,000 | 11,300 | 807,600 | 71 |
| 2003 | 144 | 8,600 | 915,500 | 27,465,000 | 11,900 | 845,600 | 71 |

[1] Offences under the Road Traffic Act 1988 s.22; Transport Act 2000 ss.173 (5); 173 (6); 173 (7); 174 (3); 175 (2); 175 (3); 175 (4); 190 Highway Act 1835 ss 72 and 78; RTA 1988 ss. 19 and 21; Highways Act 1980 s. 137 (1); Road Traffic Regulations Act 1984 ss. 5 (1), 8, 32–36 and 45–53; Road Vehicles (Construction and Use) regulations 1986 Regs. 101 and 103; Transport Act 2000 Part III; Metropolitan Police Act 1839s. 54(1).

[2] Does not include Decriminalised Parking Enforcements (DPE).

[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

[4] Only covers tickets paid where there is no further action.

[5] Underestimates based on the lowest level of non-endorsable penalty charge: 20 to October 2000 and 30 from November 2000.

## Parliamentary Questions

**Mr. Crabb:** To ask the Secretary of State for the Home Department when he will reply to the questions, references *(a)* 2586 and *(b)* 2589, tabled by the hon. member for Preseli Pembrokeshire on 3 June. [7295]

**Hazel Blears:** I replied to the hon. Member on 11 July 2005, *Official Report*, volume 436, column 750W

## Passport Service

**Mr. Oaten:** To ask the Secretary of State for the Home Department what the estimated total cost of HM Passport Service's Authentication by Interview scheme is; and what assessment he has made of the annual changes arising from its implementation *(a)* in cost terms and *(b)* in terms of the number of fraudulent applications prevented. [10071]

**Mr. Charles Clarke:** The estimated cost of the Passport Service's Authentication by Interview (ABI) scheme in its year of introduction is aggregated within the total estimated unit cost of £67.93 for 2006–07, published within the Corporate and Business Plan.

The ABI initiative is intended both to deter and to detect fraudulent applications among first time applicants but its business case has been constructed on its potential deterrent effect, for which evidence exists. UKPS data sampling have identified the first time adult channel as accounting for 74 percent. of all fraudulent applications, although this group accounts for less than 10 percent. of all applications processed annually by the Agency. ABI closes the loophole that currently exists in the postal application system by bringing together the physical applicant, and current biographical information, to ensure they are one and the same. A fraudster will now be faced with having to act out their false identity, and risk a real possibility of detection. There have been a number of instances in the past where the requirement to attend for interview would have enabled UKPS to identify a fraudulent application and prevent the issue of a passport in a false identity.

The savings the scheme is designed to deliver are in deterring fraudulent applications passport applications and thus contributing to the overall fight against identity fraud.

## Police

**Mr. Dismore:** To ask the Secretary of State for the Home Department what steps he is taking to ensure the Metropolitan Police Service in each London borough has sufficient numbers of detectives. [7073]

**Hazel Blears:** The Metropolitan Police Service (MPS) has record police numbers. At the end of September 2004 the force had 30,111 police officers. At 31 March 2005, I am advised by the MPS, they had 6,432 detectives. The allocation of officers to London boroughs and other operational units in the MPS is an operational matter for the commissioner (Sir Ian Blair).

**Dan Norris:** To ask the Secretary of State for the Home Department how many full-time equivalent police officers have been employed in the Avon and Somerset police force in each year since 1989–90. [12541]

**Hazel Blears:** Information on the number of police service personnel for the Avon and Somerset constabulary since 1989 is set out in the following table. Police service strength for 31 March 2005 will be published at the end of July.

*Avon and Somerset constabulary: police strength 1989 to 2005*

| As at 31 March | Number of police officers | Number of police (support) staff | Number of community support officers |
|---|---|---|---|
| 1989 | 3,014 | 765 | — |
| 1990 | 3,094 | 835 | — |
| 1991 | 3,092 | 902 | — |
| 1992 | 3,081 | 899 | — |
| 1993 | 3,068 | 1,171 | — |
| 1994 | 3,033 | 1,195 | — |
| 1995 | 3,000 | 1,204 | — |
| 1996 | 2,981 | 1,213 | — |
| 1997 | 2,989 | 1,439 | — |
| 1998 | 2,976 | 1,393 | — |
| 1999 | 2,999 | 1,424 | — |
| 2000 | 2,934 | 1,436 | — |
| 2001 | 2,960 | 1,452 | — |
| 2002 | 3,096 | 1,611 | — |
| 2003 | 3,149 | 1,768 | — |
| 2004 | 3,401 | 1,987 | 45 |
| 2004[1] | 3,399 | 2,036 | [2]149 |

[1] 30 September.

[2] Estimated strength for 31 March 2005.

**Mr. Wallace:** To ask the Secretary of State for the Home Department how many custody suites are operated by Lancashire police; how many cells there are in each; and where each suite is located. [10799]

**Hazel Blears:** This is an operational matter for the chief constable of Lancashire constabulary but I understand that there are eight custody suites in this police area and these are at the following locations and contain the following numbers of cells:

| | Number of cells |
|---|---|
| Blackburn | 44 |
| Blackpool | 36 |
| Burnley | 27 |
| Fleetwood | 10 |
| Lancaster | [1]11 |
| Leyland | 10 |
| Preston | 25 |
| Skelmersdale | 13 |
| Total | 176 |

[1] To be increased to 22 by July 2006

This represents the total number in regular use and includes detention rooms. It excludes those held in reserve for constabulary contingency, overspill or special operational use.

**Jessica Morden:** To ask the Secretary of State for the Home Department how many police community support officers have been introduced in Newport, East; and what assessment he has made of the impact they have had on levels of crime and antisocial behaviour in Newport East. [13311]

**Hazel Blears:** Gwent constabulary had 77 community support officers (CSOs) on 31 March 2005. Information is not centrally collected about the number of CSOs in Basic Command Units. Arrangements are being made to collect such data.

We have commissioned a national evaluation of community support officers (CSOs) which will be published later this year. An interim report, "National Evaluation of Community Support Officers", published in December 2004 (available at www.policereform.gov.uk), indicated that CSOs are having a positive impact on some types of anti-social behaviour and lower level crime, for example vehicle related crime and personal robbery. The main aim of CSOs is to provide a visible and reassuring presence on the streets.

**Jessica Morden:** To ask the Secretary of State for the Home Department how many police officers there were in Newport, East in 1997; and how many there were in the last period for which figures are available. [13312]

**Hazel Blears:** Information on police officer strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. This data has only been collected since March 2002. Information for 31 March 2005 will be published at the end of July. Information on police strength at constituency level is not collected. The deployment of police staff to BCUs is a matter for the chief constable (Mr. Mike Tonge).

**Mr. Hollobone:** To ask the Secretary of State for the Home Department how many *(a)* special constables and *(b)* police support and administrative staff there were in the Northamptonshire police force in each of the last 10 years. [11197]

**Hazel Blears:** The available information is given in the following table.

*Special constable and police service staff Northamptonshire*

| *Strength at 30 September* | *Special constables (headcount)* | *Police service staff[1] (full-time equivalent)* |
|---|---|---|
| 1995 | 298 | 464 |
| 1996 | 301 | 560 |
| 1997 | 314 | 564 |
| 1998 | 262 | 608 |
| 1999 | 210 | 601 |
| 2000 | 195 | 648 |
| 2001 | 184 | 745 |
| 2002 | 175 | 797 |
| 2003[2] | 175 | 830 |
| 2004[2] | 192 | 938 |

[1] Not including community support officers and traffic wardens.

[2] Excludes staff on career breaks or maternity/paternity leave, for comparison with earlier years.

**Mr. Lancaster:** To ask the Secretary of State for the Home Department what guidance is available to police officers when it is known before an arrest is made that an individual is mentally or physically disabled. [12253]

**Hazel Blears:** The Association of Chief Police Officers (ACPO), in conjunction with National Police Training, produced guidance in 1996 on restraint techniques entitled "Personal Safety Training". The guidance covers conflict management and highlights factors, including mental illness, which should be taken into account by officers when assessing the appropriate level of response in a given situation. The guidance is subject to ongoing review and update.

Police and Criminal Evidence Act 1984 (PACE) Code of Practice C, issued under the PACE Act 1984 sets out the special considerations which must be applied when dealing with mentally vulnerable and physically disabled persons in custody. Annex E of Code C provides a summary of provisions relating to mentally disordered and otherwise mentally vulnerable people.

Guidance on local protocols relating to mental health, including an appropriate place of safety under section 136 of the Mental Health Act 1983, was issued to chief officers of police under Home Office Circular 17/2004. The guidance was issued in consultation with ACPO, the National Institute for Mental Health and other stakeholders.

**Mr. Amess:** To ask the Secretary of State for the Home Department how many complaints have been made against the police since 1997 in each year in *(a)* England, *(b)* Essex and *(c)* Southend. [10912]

**Hazel Blears** *[holding answer 11 July 2005]:* Figures held by the Home Office for complaints made against the police since 1997 to 2004 for England are amalgamated with those against Welsh police services.

The responsibility for collating figures after 2004 falls to the Independent Police Complaints Commission (IPCC) and will not be published until later this year. I will ensure that the chairman receives a copy of the question and replies to you directly once the figures are published. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Under the Police Reform Act 2002, the chief constable of Essex police has the responsibility for recording all complaints made against his staff. Your request for complaints made against the police in Southend has been passed to him. I will ensure that he replies to you directly and copies of the letter containing Essex Police's response will be placed in the House Libraries. directly and copies of the letter containing Essex police's response will be placed in the House Libraries.

| | *England and Wales* | *Essex* | *Southend* |
|---|---|---|---|
| 1997–98 | 35,820 | [1]— | [1]— |
| 1998–99 | 31,653 | [1]— | [1]— |
| 1999–2000 | 30,807 | 538 | [1]— |
| 2000–01 | 31,034 | 549 | [1]— |
| 2001–02 | 26,710 | 540 | [1]— |
| 2002–03 | 24,562 | 436 | [1]— |
| 2003–04 | 25,376 | 500 | [1]— |
| 2004–05 | [1]— | 590 | [1]— |

[1] Not held

**Mr. Hollobone:** To ask the Secretary of State for the Home Department if he will estimate the three-year cumulative change in formula grant funding for the police forces in England and Wales between 2003–04 and 2005–06 *(a)* before and *(b)* after the floor damping scheme. [11194]

**Hazel Blears:** The information is set out in the table.

£ million

| Local authority | Formula grant before floor damping | | | Formula grant after floor damping | | |
|---|---|---|---|---|---|---|
| | 2003–04 | 2005–06 | Change | 2003–04 | 2005–06 | Change |
| Avon and Somerset police | 157.1 | 172.2 | 15.1 | 157.1 | 170.0 | 12.9 |
| Bedfordshire police | 60.2 | 65.7 | 5.5 | 60.1 | 65.1 | 5.0 |
| Cambridgeshire police | 73.2 | 80.1 | 6.9 | 71.1 | 77.9 | 6.8 |
| Cheshire police | 105.6 | 110.8 | 5.3 | 103.9 | 111.3 | 7.4 |
| Cleveland police | 84.5 | 91.9 | 7.4 | 84.1 | 90.9 | 6.8 |
| Cumbria police | 57.8 | 61.0 | 3.2 | 57.7 | 62.1 | 4.4 |
| Derbyshire police | 97.3 | 103.7 | 6.4 | 97.9 | 105.0 | 7.0 |
| Devon and Cornwall police | 160.4 | 171.2 | 10.8 | 161.5 | 173.0 | 11.5 |
| Dorset police | 58.6 | 61.8 | 3.2 | 61.6 | 66.0 | 4.4 |
| Durham police | 81.7 | 86.9 | 5.2 | 81.5 | 87.8 | 6.3 |
| Dyfed-Powys[1] | 48.9 | 51.0 | 2.1 | 49.3 | 52.2 | 2.9 |
| Essex police | 143.3 | 153.3 | 10.0 | 155.9 | 167.0 | 11.1 |
| GLA—police | 1788.5 | 1976.3 | 187.9 | 1764.0 | 1927.8 | 163.8 |
| Gloucestershire police | 56.5 | 59.8 | 3.3 | 57.0 | 61.1 | 4.1 |
| Greater Manchester police | 388.5 | 418.3 | 29.8 | 380.8 | 412.5 | 31.7 |
| Gwent[1] | 69.6 | 72.9 | 3.3 | 69.6 | 74.1 | 4.5 |
| Hampshire police | 179.7 | 192.7 | 13.0 | 184.5 | 197.7 | 13.2 |
| Hertfordshire police | 97.0 | 104.1 | 7.1 | 101.5 | 108.8 | 7.3 |
| Humberside police | 111.1 | 118.2 | 7.0 | 110.9 | 118.9 | 7.9 |
| Kent police | 168.7 | 177.9 | 9.2 | 176.8 | 189.5 | 12.6 |
| Lancashire police | 179.1 | 192.1 | 13.0 | 177.1 | 190.8 | 13.7 |
| Leicestershire police | 98.9 | 109.8 | 10.9 | 98.8 | 107.7 | 9.0 |
| Lincolnshire police | 58.2 | 64.0 | 5.7 | 58.7 | 63.4 | 4.7 |
| Merseyside police | 243.1 | 255.6 | 12.5 | 240.5 | 257.7 | 17.2 |
| Norfolk police | 79.6 | 86.0 | 6.4 | 79.6 | 85.9 | 6.3 |
| North Wales[1] | 73.4 | 76.3 | 2.9 | 73.4 | 78.3 | 4.9 |
| North Yorkshire police | 68.2 | 72.6 | 4.4 | 70.4 | 75.4 | 5.0 |
| Northamptonshire police | 64.2 | 69.2 | 5.0 | 62.2 | 67.8 | 5.6 |
| Northumbria police | 221.1 | 235.4 | 14.3 | 214.3 | 232.2 | 17.8 |
| Nottinghamshire police | 123.7 | 133.9 | 10.1 | 123.6 | 133.3 | 9.8 |
| South Wales[1] | 158.3 | 165.1 | 6.8 | 163.0 | 174.5 | 11.5 |
| South Yorkshire police | 172.7 | 184.1 | 11.4 | 172.3 | 185.7 | 13.4 |
| Staffordshire police | 104.3 | 111.0 | 6.7 | 105.8 | 113.3 | 7.6 |
| Suffolk police | 63.1 | 67.6 | 4.5 | 63.9 | 68.5 | 4.6 |
| Surrey police | 71.1 | 77.2 | 6.1 | 85.4 | 91.5 | 6.1 |
| Sussex police | 144.8 | 152.1 | 7.4 | 153.1 | 164.0 | 10.9 |
| Thames Valley police | 204.0 | 216.5 | 12.5 | 205.9 | 220.6 | 14.7 |
| Warwickshire police | 47.8 | 52.0 | 4.1 | 48.2 | 51.8 | 3.6 |
| West Mercia police | 103.0 | 109.3 | 6.3 | 104.4 | 111.8 | 7.4 |
| West Midlands police | 413.6 | 442.3 | 28.7 | 386.5 | 426.5 | 40.0 |
| West Yorkshire police | 298.6 | 318.3 | 19.6 | 289.4 | 313.6 | 24.2 |
| Wiltshire police | 58.7 | 61.7 | 3.0 | 58.7 | 62.9 | 4.3 |

[1] Because the Welsh Assembly does not operate a grant damping mechanism, the Home Secretary has for several years provided additional funding to ensure Welsh police authorities receive at least a minimum increase in grant in line with English authorities. These additional grants amounted to £5. 1 million.

**Mr. Hollobone:** To ask the Secretary of State for the Home Department what the effect on the grant to the Northamptonshire Police Authority was as a result of the Floor Damping scheme for formula grant funding in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06. [11196]

**Hazel Blears:** Government funding for police authorities is chiefly allocated using a funding formula that distributes resources on the basis of relative need and resources. A damping mechanism subsequently applied to protect all authorities against financial instability ensures all authorities receive an increase in grant at least equal to the "floor" level on a like-for-like basis year-on-year. Grant floors will remain an integral part of the finance system.

The general grant floor of 3.75 per cent. this year guaranteed a minimum increase in general grants for all police authorities. Northamptonshire Police Authority's increases are given in the table.

*Northamptonshire Police Authority general grants allocation*

| | *Before damping (£ million)* | *After damping (£ million)* | *Effect of damping (£ million)* | *Net increase (percentage)* |
|---|---|---|---|---|
| 2003–04 | 64.2 | 62.2 | -2.0 | 4.90 |
| 2004–05 | 66.5 | 64.3 | -2.2 | 3.30 |
| 2005–06 | 69.2 | 67.8 | -1.4 | 5.50 |

The average increases for England and Wales were 4.3 per cent., 3.3 per cent. and 4.8 per cent.

**David Howarth:** To ask the Secretary of State for the Home Department on how many occasions in the last five years persons have been *(a)* charged with and *(b)* convicted of offences in relation to unauthorised (i) access to and (ii) disclosure of information held on the Police National Computer. [11988]

**Hazel Blears:** It is not possible to identify from the Home Office Court Proceedings database offences relating to the misuse of the Police National Computer, as details of individual offences are not centrally collected.

The Police Information Technology Organisation (PITO) get requests for investigations from forces on misuse of the police national computer should a force become suspicious of abuse of the system. Data on the number of prosecutions brought as a result of these investigations are not collected centrally.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many police officers in each police force in England and Wales were assaulted in each of the last five years. [4996]

**Mr. Charles Clarke:** The information requested relates to recorded offences of assault on a constable and is given in the table. The figures should be seen in the context of the introduction nationally of the National Crime Recording Standard (NCRS) in April 2002. The effect of this was a 23 per cent. increase in overall recorded violence against the person.

*Recorded offences of assault on a constable*

| *Police force area* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|---|---|
| Avon and Somerset | 305 | 312 | 319 | 405 | 534 |
| Bedfordshire | 258 | 210 | 241 | 343 | 313 |
| Cambridgeshire | 216 | 238 | 251 | 281 | 260 |
| Cheshire | 522 | 483 | 554 | 617 | 724 |
| Cleveland | 93 | 133 | 206 | 314 | 236 |

| Greater Manchester | 1,891 | 1,905 | 1,972 | 2,016 | 796 |
| Gwent | 530 | 641 | 505 | 595 | 316 |
| Hampshire | 578 | 636 | 688 | 976 | 1,008 |
| Hertfordshire | 257 | 304 | 387 | 449 | 702 |
| Humberside | 523 | 509 | 538 | 754 | 439 |
| Kent | 722 | 620 | 635 | 851 | 755 |
| Lancashire | 973 | 1,239 | 1,366 | 1,536 | 814 |
| Leicestershire | 213 | 315 | 337 | 447 | 432 |
| Lincolnshire | 223 | 178 | 218 | 281 | 160 |
| London, City of | 37 | 30 | 39 | 45 | 34 |
| Merseyside | 1,237 | 1,429 | 1,361 | 1,651 | 979 |
| Metropolitan Police | 1,401 | 1,367 | 1,269 | 1,908 | 2,796 |
| Norfolk | 457 | 405 | 439 | 549 | 444 |
| North Wales | 298 | 445 | 434 | 550 | 246 |
| North Yorkshire | 508 | 426 | 449 | 582 | 274 |
| Northamptonshire | 392 | 331 | 305 | 353 | 305 |
| Northumbria | 1,018 | 1,171 | 1,176 | 1,608 | 588 |
| Nottinghamshire | 433 | 477 | 543 | 452 | 509 |
| South Wales | 720 | 868 | 893 | 1,032 | 700 |
| South Yorkshire | 756 | 923 | 785 | 689 | 434 |
| Staffordshire | 690 | 748 | 661 | 792 | 525 |
| Suffolk | 245 | 255 | 297 | 362 | 321 |
| Surrey | 209 | 266 | 223 | 288 | 413 |
| Sussex | 760 | 891 | 1,120 | 1,089 | 625 |
| Thames Valley | 826 | 802 | 1,254 | 1,527 | 709 |
| Warwickshire | 286 | 258 | 259 | 310 | 233 |
| West Mercia | 640 | 587 | 768 | 845 | 523 |
| West Midlands | 2,606 | 3,234 | 3,811 | 2,817 | 360 |
| West Yorkshire | 1,388 | 1,488 | 1,503 | 1,695 | 634 |
| Wiltshire | 224 | 276 | 288 | 345 | 269 |
| Total | 26,115 | 28,000 | 30,095 | 33,743 | 21,927 |

*Note:*
The National Crime Recording Standard was introduced on 1 April 2002 and figures before and after that date are not directly comparable.

**Mr. Gordon Prentice:** To ask the Secretary of State for the Home Department how many police stations in England were *(a)* open round the clock, *(b)* open part-time and *(c)* mothballed in the latest year for which figures are available. [11874]

**Hazel Blears:** This information is not held centrally.

The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who make arrangements in the context of local needs. The ownership of police stations is vested in the local police authority, not the Home Office. Use and disposal of police premises are matters for local decision.

## Prison Service

**Mr. Drew:** To ask the Secretary of State for the Home Department what recording methods are in place for the number of self-harm incidents occurring in women's prisons. [8408]

**Fiona Mactaggart:** In December 2002, the Prison Service introduced a revised system for self-harm data collection that required staff to complete an F213SH form for every incident of self-harm known to occur within the establishment, irrespective of the method, intent or severity of any injury: from superficial scratches of the skin to noose/ligature-making, self-suffocation and attempted hanging. The F213SH is used in all prisons, both male and female. The form is designed to be user-friendly and to enable the manageable and consistent collection of standardised, accurate information. The completed F213SH is then imputed to the Prison Service's Incident Reporting System (IRS).

**Sarah Teather:** To ask the Secretary of State for the Home Department how many prisoners committed suicide in prisons in London in *(a)* 1997 and *(b)* 2004. [8419]

**Fiona Mactaggart:** Eight prisoners apparently took their own lives in London prisons during the calendar year 1997; 12 prisoners apparently took their own lives in London prisons during the calendar year 2004.

Reducing the number of such tragic incidents is a key priority, and an unprecedented amount of work is being done to reduce the likelihood of vulnerable individuals taking their lives.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many remand prisoners self-harmed in *(a)* 2003 and *(b)* 2004. [8990]

**Fiona Mactaggart:** 1,294 remand prisoners are recorded as having self-harmed in 2003 and 1,367 in 2004. Remand prisoners are over-represented in self-harm statistics. The heightened risk is associated with the fact that the majority of remand prisoners are in the early phases of imprisonment. Remand prisoners, as compared to sentenced prisoners, have also been shown to have higher rates of a number of risk factors that we know increase the likelihood of self-harm, such as mental disorder, substance dependence, previous self-harm and previous abuse (Singleton et al, 1998).

A broad, integrated and evidence-based prisoner suicide prevention and self-harm management strategy is in place.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the average age of a remand prisoner was in *(a)* 2002, *(b)* 2003 and *(c)* 2004. [8991]

**Fiona Mactaggart:** The average age of the remand population on 30 June in each of the years in question, as recorded on the Prison Service IT system, is as follows.

| | *Average age* |
|---|---|
| 2002 | 27 |
| 2003 | 27 |
| 2004 | 28 |

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the *(a)* cost and *(b)* original budgeted figure for running each prison was in the financial year 2004–05. [9014]

**Fiona Mactaggart:** The costs and original budgeted figures for running each prison within the Public Prison Service for 2004–05 are given in table 1.

The 2004–05 figures for contracted figures are not yet available. The costs for running each contracted prison in the financial year 2003–04 are given in table 2. The original budgeted figures for each contracted prison in 2003–04 are not held centrally.

[1] Table does not include Bronzefield and Peterborough, both of which opened after the reporting period.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many suicides there have been in each of the last 12 months, broken down by prison. [9066]

**Fiona Mactaggart:** The number of apparently self-inflicted deaths in prisons in England and Wales, July 2004–June 2005 is provided in the table.

Reducing the number of such tragic incidents is a key priority, and an unprecedented amount of work is being done in this area.

The number of apparently self-inflicted deaths fluctuates. The four deaths in April and May this year represent the lowest in a two month period since 1992. Sadly, sometimes there are also apparent 'clusters' of self-inflicted deaths, such as the 16 deaths in June. Each death will be the subject of a coroner's inquest and a thorough investigation by the prisons and probation ombudsman. The Prison Service and contracted prisons will be looking to see if there are any early lessons to learn and act on.

**Mrs. James:** To ask the Secretary of State for the Home Department what support is given to women prisoners who enter prison with a drug addiction. [10670]

**Fiona Mactaggart:** A comprehensive range of drug treatment services is available to women prisoners with substance-misuse needs. These services include:

Clinical services (detoxification and maintenance-prescribing programmes);

CARATs (counselling, assessment, referral, advice and through-care services); and

Intensive drug rehabilitation programmes.

**Mrs. James:** To ask the Secretary of State for the Home Department what support is given to women prisoners who have previously been victims of domestic violence. [10671]

**Fiona Mactaggart:** A range of support is given to women prisoners who disclose that they have been victims of abuse, which may include the experience of domestic violence. This includes offering individual support of counselling; giving advice and information about abuse; and referral on to appropriate outside agencies. Individual establishments work closely with local community agencies with specialist expertise in abuse issues. The support offered will be determined following a full assessment of individual need.

Copies of the Home Office leaflet on domestic violence are available to women in prison and a women's aid/refuge domestic violence number is on the recommended helpline list devised by the National Offender Management Service Safer Custody Group. Good Practice Guidelines for supporting women who have experienced abuse or domestic violence were circulated by the Prison Service Women's Team to all women's establishments in June 2005.

**Mrs. James:** To ask the Secretary of State for the Home Department if he will make a statement on sexually-transmitted disease *(a)* prevention and *(b)* screening in prisons in England and Wales. [10673]

**Ms Rosie Winterton:** I have been asked to reply.

Services for the identification and management of sexually transmitted diseases are part of the overall health care services provided for prisoners, who are one of the target groups identified in the Department's national strategy for sexual health and HIV implementation action plan (2002). National health service primary care trusts are now responsible for commissioning the primary health care services at all but three of the publicly-run prison establishments in England. By April 2006, that responsibility will be fully devolved to the NHS.

Prison doctors were advised in 1995 that they should make condoms available to individual prisoners, on application if, in their clinical judgment, there was a risk of the transmission of HIV infection during sexual activity. The Prison Service expects shortly to issue revised guidance and instructions aimed at clarifying its policy on condom provision and ensuring that it is applied more consistently across the estate.

All prisoners undergo a health screening on first reception to identify those who have immediate health needs, or who are at a high risk of having a significant health problem. This, or other harm minimisation or health promotion resources, may result in individual

prisoners requesting an appointment with a sexual health service, which may lead to testing, and associated pre-and post-test discussion, for blood borne viruses.

**Mr. Allen:** To ask the Secretary of State for the Home Department pursuant to the answer of 27 January 2005, *Official Report*, column 472W, on Dartmoor prison, when he will place in the Library copies of contracts or agreements relating to the provision of offending behaviour courses by faith-based organisations at Dartmoor prison; what the budgeted cost is of the programmes; who bears the cost of the programmes; how many prisoners are taking part; and over what period the programmes will operate. [8690]

**Fiona Mactaggart:** A copy of the service level agreement between Dartmoor prison and The InnerChange Freedom Initiative Project has today been placed in the Library. The document sets out the agreement for the delivery of the programme to prisoners known as The InnerChange Freedom Initiative. The programme, which is delivered by the chaplaincy department, is wholly funded by the Tufton Trust, which is a charitable organisation, and no cost is borne by the Prison Service.

There are currently 10 prisoners taking part in the programme which lasts a year and is based on Christian values. The programme is wholly multi-faith, and prisoners with diverse faiths and beliefs are currently represented. This is a pilot project in place for one year only at Dartmoor. Although it is evaluated at varying intervals, a full evaluation will be undertaken at the end of the pilot and results analysed and discussed before a decision is taken on whether or not to expand the project to other establishments.

**Keith Vaz:** To ask the Secretary of State for the Home Department what percentage of current prisoners are repeat offenders. [7895]

**Fiona Mactaggart:** Of the sentenced prison population at 30 June 2002, 70 percent. of young males, 77 percent. of adult males and 50 percent. of adult females had at least one previous conviction for a standard list offence. More detailed figures available in the table.

*Population in prison establishments under sentence by number of previous convictions, age group and sex; England and Wales, 30 June 2002*

*Percentage*

| *Previous convictions* | *Young male offenders* | *Adult male offenders* | *Adult female offenders* |
|---|---|---|---|
| Nil | 17 | 15 | 37 |
| 1–2 | 18 | 12 | 12 |
| 3–6 | 26 | 17 | 14 |
| 7–10 | 16 | 14 | 9 |
| 11 and over | 10 | 34 | 15 |
| Unknown[1] | 13 | 8 | 13 |

[1] The criminal history of the prison population was obtained by matching prison records to the Home Office criminal database, the offenders index. Information could not be matched for 13 percent. of young male offenders, 8 percent. of adult males and 13 percent. of adult females in prison at 30 June 2002 and thus previous convictions for these offenders could not be found.

**Lynne Jones:** To ask the Secretary of State for the Home Department pursuant to the answer of 6 July 2005, *Official Report*, column 547W on Transexual Prisoners, if he will give the reasons for the delay in publishing guidelines on the treatment of transexual prisoners. [12062]

**Fiona Mactaggart:** The Prison Service regrets that the need to devote resources to other work has meant that it has not yet proved possible to complete these guidelines. Prisoners with gender dysphoria are, however, already being cared for, managed and treated in accordance with the general principles contained in the emerging guidelines.

## Probation Service

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many places are available in probation hostels in England and Wales; and how many were occupied by high risk offenders on the latest date for which figures are available. [5004]

**Mr. Charles Clarke:** As at 31 March 2005, 2,241 bedspaces were available in approved premises, formerly bail and probation hostels. Of those, 918 were occupied by offenders who are assessed as high or very high risk of harm to the public.

**John McDonnell:** To ask the Secretary of State for the Home Department what steps the national probation directorate is taking to improve the retention of probation staff in probation areas in England and Wales. [4791]

**Fiona Mactaggart** *[holding answer 16 June 2005]*: The National Probation Service (NPS) seeks at all times to retain the right profile of staff to deliver a high standard of service and to meet a stringent set of performance targets. The latest available figures for turnover of operational staff in the probation service in England and Wales are as follows:

*The latest available figures for turnover of operational staff in the probation service in England and Wales*

| *Grade* | *Percentage* |
|---|---|
| SPO | 6.30 |
| SP | 3.14 |
| PO | 7.07 |
| TPO | 4.88 |
| PSO | 9.47 |
| Ops Total | 7.60 |

These figures are based on leavers in 2004–05 financial year who have left the service as a whole. For the same period the turnover rate for non-operational staff was 13.55 percent. The annual average turnover rate based on these figures is 10.06 percent. This figure is significantly better than the national average for the public and private sectors.

As part of the service's strategy for building and maintaining an excellent, fit for purpose organisation, we are investing in our people by developing and supporting staff, building and refreshing their motivation and skills. This is being achieved in a number of ways including: designing and implementing new policies on pay, reward and conditions of service, work/life balance policies including flexible working; investment in leadership, management, training and development: and the development of a national workload measurement tool.

These and other initiatives are designed, in part, to maintain a balanced workforce and make the NPS an employer of choice.

However a small number of staff will always leave an organisation because their circumstances change or because they want to develop a career elsewhere. For staff committed to a career in the probation service we hope that that the measures outlined above will provide rewarding working environment.

## Secure Training Centres

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many cases of self-harm have been recorded in each secure training centre since they came into operation. [10981]

**Mr. Charles Clarke** *[holding answer 11 July 2005]:* Secure training centres record every instance of self harm and injury, including minor ones.

No young people from Medway, Rainsbrook or Oakhill required hospital treatment as a result of self-harm during the period for which data are available (2001 onwards).

With the tragic exception of Adam Rickwood, who died in August 2004, no young people at Hassockfield required hospital treatment as a result of self-harm during that period.

Details are given in the following table:

*Self harm in secure training centres*

| | 2001[1] | 2002 | 2003 | 2004 |
|---|---|---|---|---|
| Medway | 49 | 40 | 39 | 219 |
| Hassockfield | 29 | 18 | 49 | 138 |
| Rainsbrook | 13 | 35 | 84 | 70 |
| Oakhill[2] | — | — | — | 29 |

[1] Data for the period prior to 2001 is not available.
[2] Oakhill secure training centre opened in August 2004.

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many child protection matters have been referred to the local child protection team at each secure training centre; and what the outcome was of each referral. [10983]

**Mr. Charles Clarke** *[holding answer 11 July 2005]:* The following table sets out the available data.

*References of secure training centre trainees to local child protection teams*

| Centre | 2002 | 2003 | 2004 | 2005 |
|---|---|---|---|---|
| Medway | [1]— | [2]27 | [2]16 | [2]6 |
| Rainsbrook | [1]— | [1]— | [2]2 | 0 |
| Hassockfield | [2]45 | [2]31 | [2]35 | [2]9 |
| | — | — | [3]1 | [3]2 |
| | — | — | [4]1 | — |
| Oakhill (opened August 2004) | — | — | [2]26 | [3]12 |
| | — | — | — | [3]1 |
| | — | — | — | [5]1 |

[1] Data not readily available.
[2] No further action by CP team or police.
[3] Matter outstanding.
[4] Employment of one staff member terminated following charge for alleged assault.
[5] CP team advised dismissal of staff member following inappropriate use of restraint.
*Note:*
Where there is no further action by Child Protection team (CP) or the police, the allegations are subject to the centre's internal investigation procedures. Details of these outcomes are not held centrally.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what the rates of pay are for *(a)* duty directors, *(b)* duty operation managers, *(c)* training supervisors, *(d)* training assistants, *(e)* control room staff, *(f)* nurses and *(g)* other staff at secure training centres. [11000]

**Mr. Charles Clarke:** Rates of pay for the staff at secure training centres are as follows.

*Pay scales in secure training centres*

| | Oakhill[1] | Medway, Rainsbrook[1] |
|---|---|---|
| Duty directors | £38,000 to £40,000 | [3]— |
| Duty operation managers | £26,000 to £30,000 | [3]— |
| Training supervisors | £22,000 | [4]£18,727<br>[5]£20,214 |
| Training assistants | £18,000 | [6]£16,524<br>[7]£17,947 |
| Control room staff | £17,000 | £17,139 |
| Nurses | In accordance with NHS pay scales | [3]— |
| Other staff | Other staff fit on pay scale of £15,000 to £26,000 | [3]— |

[1] basic 42 hour week
[2] basic 40 hour week
[3] Commercial in confidence
[4] Night Supervisors
[5] Day Supervisors
[6] Night Assistants
[7] Day Assistants

*Hassockfield uses different staffing categories*

| Centre | Hassockfield[1] (£) |
|---|---|
| Duty director | 33,000 |
| Head of education | 34,226 |
| Residential care manager | 28,135 |
| Residential care team leader | 19,831 |
| Care officers | 15,856 |
| Ops officers | 14,916 |
| Nurses | 24,870 |
| Admin staff | [2]15,000 |

[1] basic 40 hour week
[2] average

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many members of staff at each secure training centre have been dismissed for misconduct in each of the last three years; and what reasons were given in each case. [11001]

**Mr. Charles Clarke:** Details for 2003 onwards are given in the following table:

*Reasons for dismissal of STC employees*

| Centre | Year/Period | Reason for dismissal |
|---|---|---|
| Medway | 2003 | One member of staff dismissed for unacceptable comments, gestures and making physical contact with a female colleague |
| | 2004 | One member of staff dismissed for inappropriate comments, verbally abusive language, unacceptable comments of a sexual nature, refusal to comply with operational instruction |
| | 2004 | One member of staff dismissed for sexual harassment |
| | 2004 | One member of staff dismissed for falsifying records; not completing SASH (Suicide and Self Harm) watches or 15 minute watches |
| Rainsbrook | 2003 | One member of staff dismissed for falsifying records; not completing SASH watches or 15 minute watches |
| Oakhill | 2005 | One member of staff dismissed for inappropriate use of force |
| Hassockfield | 2003 | One member of staff dismissed for inappropriate behaviour |
| | 2004 | One member of staff dismissed for inappropriate use of force |
| | 2004 | One member of staff dismissed for failure to report an incident |
| | 2005 | One member of staff dismissed for inappropriate use of force |

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many cases of staff being referred to the Protection of Children Act (POCA) list have been recorded at each secure training centre since it came into operation; and how many referrals to the POCA list have resulted in names being included on the list. [11002]

**Mr. Charles Clarke:** The information requested is given in the table.

*Referrals to POCA list*

| Centre | Referrals to POCA list | Permanently included on list |
|---|---|---|
| Medway | 4 | 0 |
| Rainsbrook | 1 | 0 |
| Oakhill | 1 | 1 |
| Hassockfield | 9 | 0 |

## Security Industry (Regulation)

**Dr. Starkey:** To ask the Secretary of State for the Home Department (1) how many unregistered door supervisors the Security Industry Authority permitted to work through their Approved Contractors Scheme on the latest date for which figures are available; [11314]

(2) what assessment he has made of whether the Security Industry Authority's Approved Contractor Scheme is consistent with the recommendations of the Better Regulation Taskforce; [11316]

(3) whether he has met the National Security Inspectorate to discuss their concerns about the Security Industry Authority's Approved Contractor Scheme. [11317]

**Hazel Blears:** The Approved Contractor Scheme (ACS) under the Private Security Industry Act (SIA) 2001 has not yet been implemented. The Home Office is currently working with the SIA and others to prepare a Regulatory Impact Assessment (RIA) consultation document and has sought advice from the Better Regulation Taskforce. It will be issued for public consultation shortly. I will meet the National Security Inspectorate in early autumn to discuss their concerns on a variety of matters including the Approved Contractor Scheme.

## Speed Cameras

**Mr. Scott:** To ask the Secretary of State for Transport how many motorists have been penalised as a result of the speed camera at the southern end of the M11. [11963]

**Paul Goggins:** I have been asked to reply.

Information on penalties generated by individual speed cameras is not collected centrally.

**Mr. David Jones:** To ask the Secretary of State for the Home Department what guidance is given to police forces with regard to their participation in safety camera partnerships. [11711]

**Hazel Blears:** There is no such guidance. Decisions as to participation in the national safety camera scheme are an operational matter for individual chief officers of police.

## UK Ancestry Visa

**David Howarth:** To ask the Secretary of State for the Home Department what the conditions are for granting a UK ancestry visa; how long applicants can be out of the United Kingdom on holiday or business without such absences affecting an application for indefinite leave to remain; and what changes to the rules have been made in the past five years. [12035]

**Mr. McNulty** *[holding answer 14 July 2005]:* A Commonwealth citizen, aged 17 or over, who is able to show that one of his grandparents was born in the United Kingdom and Islands, that he intends to take or seek employment here and is able to maintain and accommodate himself without recourse to public funds may be granted leave and entry clearance on the basis of his United Kingdom ancestry. A person holding such an entry clearance will normally be admitted for an initial period of four years, and may apply for settlement at the end of that period.

In order to qualify for entry to the United Kingdom under UK ancestry, an applicant would need to prove that he/she:

is a Commonwealth citizen; and holds a valid United Kingdom entry clearance for entry in this capacity or has previously been granted an extension of stay in this capacity;

is aged 17 or over; and

is able to provide proof that one of his grandparents was born in the United Kingdom and Islands; and

will be able to maintain and accommodate himself and any dependants without recourse to public funds; and

is able to work and intends to take or seek employment in the United Kingdom.

In assessing whether or not an applicant has fulfilled the current requirement to have spent four years in continuous residence in the same capacity, short absences abroad, for example for holidays (consistent with annual paid leave) or business trips (consistent with maintaining employment or self-employment in the United Kingdom), may be disregarded, provided he has clearly continued to be based here.

In addition, time spent here in this capacity may exceptionally be aggregated, and continuity not insisted upon, in cases where there have been no absences abroad apart from those described above and authorised employment has not been broken by any interruptions of more than three months or amounting to more than six months in all. The only change that has been made to the UK ancestry rules in the last five years is the no switching for UK ancestry policy which was introduced on 25 October 2004. A person seeking leave to enter on the basis of United Kingdom ancestry must hold an entry clearance for that purpose. Leave to remain will only be granted if the person entered the United Kingdom with holding a UK ancestry entry clearance based on their UK ancestry or if they had previously been granted leave to remain on the basis of UK ancestry. A person cannot switch into this category after entry to the United Kingdom.

No other changes have been made in the last five years.

### Uninsured Drivers

**Mr. Ian Austin:** To ask the Secretary of State for the Home Department how many drivers were prosecuted for driving without insurance in each of the last three years, broken down by police authority area. [12618]

**Paul Goggins:** Information from the Home Office court proceedings database on the number of defendants prosecuted for driving with no insurance, by police authority area, 2001–03 is contained in the table.

Statistics for 2004 will be available in the autumn.

*Number of defendants proceeded against at magistrates courts under S.143(2) Road Traffic Act 1988 by police force area, 2001–03*[1]
*Offence description: Using motor vehicle uninsured against third party risks*
*Statute: Road Traffic Act 1988 S.143(2)*

| | Proceeded against | | |
|---|---|---|---|
| *Police force area* | *2001* | *2002* | *2003* |
| Avon and Somerset | 7,355 | 8,293 | 9,620 |
| Bedfordshire | 2,879 | 2,871 | 3,065 |
| Cambridgeshire | 1,334 | 1,518 | 1,728 |
| Cheshire | 3,011 | 3,434 | 4,052 |
| City of London | 1,423 | 1,820 | 1,947 |

| Gwent | 2,813 | 2,673 | 2,248 |
| North Wales | 1,781 | 2,402 | 3,799 |
| South Wales | 7,562 | 9,042 | 9,449 |
| Total | 227,570 | 242,188 | 271,918 |

[1] These data are on the principal offence basis
[2] Includes City of London

### Violent Crime

**Mr. Laurence Robertson:** To ask the Secretary of State for the Home Department if he will make a statement on how the sport of airsoft will be affected by the provisions of the Violent Crime Reduction Bill. [12956]

**Hazel Blears:** Only realistic imitation firearms will be caught by the proposed ban on manufacture, import or sale; owners of existing airsoft guns will be able to retain and use them. We are currently considering representations about the effect the Violent Crime Reduction Bill will have on airsoft games and whether any exemptions from the provisions of the Bill would be appropriate.

### Vulnerable Witnesses

**Mr. Streeter:** To ask the Secretary of State for the Home Department when the intermediary scheme provided for in the special measures for vulnerable witnesses of the Youth Justice and Criminal Evidence Act 1999 will be rolled-out nationally. [11294]

**Fiona Mactaggart:** The intermediary special measure is currently being piloted in Devon and Cornwall, Merseyside, West Midlands, Thames Valley, Norfolk and South Wales. The pilot is being evaluated in order to identify good practice to provide a model for national roll out. Evaluation will continue until March 2006 after

which a decision on the precise timetable for full implementation of the scheme across England and Wales will be taken.

**Mr. Streeter:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the intermediary scheme provided for in the special measures for vulnerable witnesses of the Youth Justice and Criminal Evidence Act 1999. [11296]

**Fiona Mactaggart:** The intermediary special measure is currently being piloted in Devon and Cornwall, Merseyside, West Midlands, Thames Valley, Norfolk and South Wales. The pilot is currently being evaluated in order to identify good practice to provide a model for national roll out. Emerging findings have shown that intermediaries are enabling access to justice for some of the most vulnerable people in society.

# Written Answers to Questions

*Tuesday 19 July 2005*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Bottled Water

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the number of litres of bottled *(a)* sparkling and *(b)* still water consumed in the United Kingdom in each year since 2002; and what percentage was supplied in (i) plastic, (ii) glass and (iii) other materials. [4436]

**Mr. Bradshaw:** It is estimated based upon records of consumer purchases from the Expenditure and Food Survey that 736 million litres of mineral water were consumed in the UK in the 12 month period starting in April 2003. These are the latest estimates available. In the same period a year earlier it was 655 million litres.

Defra does not collect statistics which distinguish between sparkling and still waters or the way water is packaged. However, figures published by Mintel in its Bottled Water Report of June 2003 indicate that 75 per cent. of bottled water in 2003 was still and 25 per cent. sparkling. In addition, 79 per cent. was packaged in plastic bottles, 20 per cent. in glass bottles and 1 per cent. in cans.

### Bovine TB

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the incidence of bovine tuberculosis in the deer population over the last five years. [13036]

**Mr. Bradshaw:** Accurate data for bovine TB in deer across the UK are not available, because there is no statutory routine testing programme for bovine TB in deer.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what timescale she envisages for the badger culling trial in the South West; and if she will make a statement. [13176]

**Mr. Bradshaw:** The Independent Scientific Group on Cattle TB aims to reveal the outcome of the pro-active culling effect of the Randomised Badger Culling Trial to Ministers in spring 2006 and publish its final report, covering all its works and findings, in spring 2007.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs whether compensation is payable to farmers who have suffered consequential loss through their herds being infected by tuberculosis; and if she will make a statement. [13186]

**Mr. Bradshaw:** No compensation is payable for consequential losses. The payment of consequential loss to producers falls within the definition of state aids and cannot therefore be paid without the agreement of the EU Commission.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the level of compensation paid to farmers for herds which are infected by tuberculosis. [13187]

**Mr. Bradshaw:** I refer the hon. Member to the answer given on 30 June 2005, *Official Report*, column 1638W.

### Common Agricultural Policy

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from Commonwealth countries about the effects of the EU's common agricultural policy on the developing world. [12363]

**Jim Knight** *[holding answer 18 July 2005]:* My right hon. Friend the Secretary of State and her ministerial team have regular meetings with Commonwealth country representatives to talk about a range of issues, including the EU's common agricultural policy. A number of such representations have been received in the past, and there is every intention of continuing to be receptive to such representations in the future.

### Departmental Publications

**Mr. Amess:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the publications issued by her Department in each of the last seven years; and what the *(a)* circulation, *(b)* cost and *(c)* purpose of each was. [10465]

**Jim Knight:** A list of publications produced by the Department for Environment, Food and Rural Affairs (and includes those relevant publications from the Departments that formed Defra in June 2001) is detailed on the Defra website ("Publications" link on the main website 'home' page).

The Government have a duty to explain their policies, decisions and actions; to inform the public about their rights and liabilities; and to provide the public with advice and warnings. Defra regularly publishes reports, consultations and publicity material in accordance with these principles.

The individual production cost of each of the publications could be collated only at a disproportionate cost.

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the companies from which her Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11733]

**Jim Knight:** The information for the last three financial years has been made available in the Library of the House.

## Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11504]

**Jim Knight:** Information on staff numbers is contained in Table C of Civil Service Statistics 2004 which is available on the internet at: http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library of the House.

## Departmental Travel

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what targets she has set for reducing car mileage within her Department since 1997; and what the mileage levels were in each year from 1997. [12642]

**Jim Knight** *[holding answer 18 July 2005]:* The Department for Environment Food and Rural Affairs was created in June 2001. Since then, we have worked towards published targets of reducing road transport vehicle carbon dioxide emissions by at least 10 per cent. by 31 March 2006 (against the baseline year 2002–03) and increasing the percentage of alternatively fuelled fleet cars to exceed 10 per cent. in the same period. We are reviewing mileage data by business area with the aim of reducing where delivery will not be comprised.

Full year road mileage data for Defra and its executive agencies is available for the years 2002–03 and 2003–04. Collation of data for 2004/05 is not yet complete.

| | *Miles (Thousand)* | *$CO_2$ emissions (Thousand kg)* |
|---|---|---|
| 2002–03 | 20,510 | 6,072 |
| 2003–04 | 20,381 | 5,403 |

## Energy Efficiency

**Alan Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of properties to be assisted under the revised Warm Front scheme are expected to be improved to an energy efficiency rating of SAP 65 or higher. [13546]

**Mr. Morley:** It is our aim wherever practical aim to achieve a SAP rating of 65 for households assisted by Warm Front. As part of our monitoring of the delivery of Warm Front we will assess the number of households achieving that SAP rating.

Where it is not possible to achieve this SAP rating we will offer applicants a benefit entitlement check to enable them to review whether they are receiving all state benefits they may be entitled to.

## Fallen Stock

**Hywel Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment was made of the potential demand that would be placed on the fallen stock scheme during lambing in North West Wales prior to the scheme's implementation. [12370]

**Mr. Bradshaw** *[holding answer 18 July 2005]*: As part of the business case for the scheme an assessment was made of the potential demand for fallen stock collection from the farming industry and the ability of the collection and disposal industry to meet the demand. At a national level, as the latter has consistently maintained, there has been sufficient capacity to meet demand.

However, it was always anticipated that there may be localised areas, particularly during times of peak demand, where there may be difficulties in meeting the demand for collection services. Given that in advance of the scheme starting it was difficult to know how many farmers would join the scheme in a given area or which areas fallen stock collectors would wish to cover it was not possible to identify with any certainty the extent of such difficulties in advance.

Unfortunately in parts of North West Wales only one collector was available. This collector made every effort to increase capacity for the lambing season but was unable to meet the demand. Positive steps have now been taken by the National Fallen Stock Company, the farming industry and the collector concerned to learn from this and ensure demand can be met for next year's lambing season.

**Hywel Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what consultations were undertaken with farming interests in Wales prior to the implementation of the fallen stock scheme. [12371]

**Mr. Bradshaw** *[holding answer 18 July 2005]*: Extensive consultations took place with farming interests throughout the UK, including Wales, and the scheme was fully supported by all the major farming unions.

**Hywel Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what consideration was given to granting a derogation for North West Wales from the fallen livestock scheme prior to its implementation. [12372]

**Mr. Bradshaw** *[holding answer 18 July 2005]*: Any derogation would need to be from the EU Animal By-Products Regulation which bans on-farm burial of fallen stock. The scheme is there to assist farmers in their compliance with the regulation. Under the regulation one of the criteria for meeting the requirements for a derogation is that the area concerned should have a low livestock density. This is not true for North West Wales and therefore it would be difficult for the National Assembly for Wales to make a case for granting one.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers have signed up to the Fallen Stock Scheme; and if she will make a statement. [13177]

**Mr. Bradshaw:** The National Fallen Stock Company, which runs the Scheme, is pleased with the response it has had from farmers with nearly 32,000 members in the UK joining since 22 November 2004.

### Farm Animal Welfare Council

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the implications of farm assurance schemes for animal welfare, with particular reference to the recent report of the Farm Animal Welfare Council. [12458]

**Mr. Bradshaw:** Assurance schemes can make a positive contribution to the welfare of farmed animals. The Government welcome the report of the Farm Animal Welfare Council on this subject, published on 30 June 2005. We are currently considering the report and will respond in due course.

### Farm Subsidies

**Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the total amounts that will be paid in each of the next three years in export subsidies for UK agricultural products. [11306]

**Jim Knight:** Commission estimates of the total amounts that will be paid in export subsidies are only available on an EU-wide basis, up to 2006, as follows:

| | € *million* |
|---|---|
| | *EU export refunds* |
| 2004 | 3,327 |
| 2005 | 3,773 |
| 2006 | 3,436 |

*Source:*
EU Commission Provisional Draft Budget (PDB) 2006

The UK accounted for approximately 10 per cent. of export refunds in 2004.

### Farm Waste

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to ensure that the disposal of farm waste takes place as close to the farm of origin as possible; and if she will make a statement. [13178]

**Mr. Bradshaw:** The Agricultural Waste Stakeholders' Forum, together with the Environment Agency, is producing a National Recycling Directory. This is a web-based system and its key aim is to help farmers locate recovery and disposal outlets for their waste. The Directory will be available to every farmer who has access to the web and will assist in ensuring that the recovery or disposal of agricultural waste takes place as close as possible to the farm of origin. Farmers who do not have web access will be able to contact the Environment Agency's National Customer Contact Centre who will carry out a search on their behalf. The Environment Agency plans to launch the Directory to farmers and growers in the autumn 2005.

### Farming

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of farm acreage in *(a)* England and *(b)* Northamptonshire is accurately digitally mapped for the entry level Stewardship scheme. [12106]

**Jim Knight** *[holding answer 14 July 2005]:* It is a requirement of the entry level scheme (ELS) that land must be digitally mapped on the Rural Land Register (RLR). To date 72.5 per cent. of farm hectarage has been digitally mapped in England and 97 per cent. in Northamptonshire.

The Rural Development Service (RDS) has access to all digitally mapped land for ELS. Work is still ongoing within the RLR to process outstanding new land registrations and amendments to existing mapped land arising from the introduction of the single payment scheme and additional land being entered into ELS. Common land is not included in these figures.

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the information requested in parts A to C of the Rural Payment Agency's customer registration form (CReg 01) is replicated on the single farm payment scheme's application form (SP5). [12145]

**Jim Knight** *[holding answer 14 July 2005]:* The proportion of information on the Rural Payments Agency's (RPA) Customer Register form (CReg 01) Parts A to C replicated on the single payment scheme form (SP5) is limited to the name and contact details of the applicant. In the majority of cases such details are pre-populated on the SP5 from the information held on RPA's customer register. Of the 41 questions listed at parts A to C of the CReg 01, only three (7 per cent.) are included on the SP5.

### Gardens (Biodiversity)

**Mr. Burstow:** To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has commissioned to evaluate the contribution of suburban and urban back garden land to biodiversity; and what its main finding and recommendations were. [13530]

**Jim Knight:** The Department is jointly funding a research project by the University of Sheffield. The project ("BUGS 2") is looking at the environmental and biodiversity value of domestic gardens in urban areas.

The research builds on the work done in the previous BUGS project (funded by the Natural Research Environment Council) which examined the biodiversity value of gardens within a single city (Sheffield). The latest project, which is being carried out over three years (2004–07), widens the scope of this work to four cities: Leicester, Oxford, Cardiff and Belfast. The results, therefore, are not yet available. Further information about the project can be found at www.sheffield.ac.uk/uni/projects/bugs/.

### Hydro Electricity

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs whether water mills converted to micro-generation of electricity are required to pay the Environment Agency for water abstraction. [12765]

**Mr. Morley:** The Environment Agency has a scheme of charges for abstractions, which is approved by Ministers. Charges are levied for licensed abstractions of water for most purposes, including for power generation. But where the installed generation capacity is less than 5 MW then no charges are payable.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what account is taken of the contribution to achieving renewable energy targets in setting water abstraction licensing costs for micro-generating water mills. [12766]

**Mr. Morley:** The Environment Agency has a scheme of charges for abstractions, which is approved by Ministers. Charges are levied for licensed abstractions of water for most purposes, including for power generation. But where the installed generation capacity is less than 5 MW then no charges are payable.

Where charges are payable, they are calculated as a function of several factors: the volume of water licensed; the Environment Agency region in which the abstraction takes place; the source of the water; the season(s) in which water abstracted; and the purpose of abstraction, via a factor reflecting the net loss of water from the source.

### Labelling

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce a Produced in the UK logo scheme; and if she will make a statement. [13189]

**Jim Knight:** The Government have no plans to introduced a "Produced in UK" logo scheme. However, there is nothing to stop retailers and others in the food chain from indicating the UK as the country of origin where it is appropriate to do so. Guidance on country of origin labelling has been issued by the Food Standards Agency.

### Licences

**Mr. Andrew Turner:** To ask the Secretary of State for Environment, Food and Rural Affairs which licences *(a)* her Department and *(b)* agencies of her Department issue; what the fee is for each; how much was collected in fees for each in the last year for which figures are available; what the issuing agency is for each; and on what date she approved the fees for each. [11773]

**Jim Knight:** A list of the licences issued by or on behalf of Defra when this topic was last reviewed (July 2004) will be made available in the Library of the House. There are nearly 200 licenses shown and there will almost certainly have been a few changes since. The table shows the issuing authority, where this was not core Defra.

Further information to update the table could be provided only at a disproportionate cost.

### Milk (Primary Schools)

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the promotion of liquid milk in primary schools over the next 12 months using EU grants. [11648]

**Jim Knight:** The European Commission has provided £50,000 with match funding from the trade organisation Dairy UK and the Milk Development Council, a Defra-sponsored NDPB, for action to encourage primary school children to drink more milk. The money will pay for a range of promotional activities in England and Wales in 2005–06, including during School Milk Week in October.

Primary school children already have access to milk subsidised by the EU and an additional national top-up which, in England, amounts to an annual maximum of £1.5 million. We welcome further work by the industry to help inculcate a milk-drinking habit at an early age.

### Organisation Internationale de la Vigne et du Vin

**Mr. Dismore:** To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of the UK's subscription to the Organisation Internationale de la Vigne et du Vin in the last year of membership; for what reasons her Department took the decision to withdraw from the organisation; what assessment she has made of the effects on the UK wine trade and wine producers of withdrawal; what opportunities the UK will have to influence policy at a technical level within the international wine trade after withdrawal; and if she will make a statement. [10683]

**Jim Knight:** I refer the hon. Member to the answer given on 4 March 2005, *Official Report*, column 1440W.

### Police Authorities (Stray Dogs)

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs whether police authorities will be required, pursuant to regulations made under the Clean Neighbourhoods and Environment Act 2005, to transfer to local authorities a sum equivalent to that which police authorities have been expending on stray dogs to reflect the transfer of responsibilities. [12531]

**Mr. Bradshaw:** An appropriate transfer of funds from police authorities to local authorities will be completed before section 68 of the Clean Neighbourhoods and Environment Act 2005 commences. The sum to be transferred will be agreed between the Home Office, the Office of the Deputy Prime Minister and the Local Government Association.

### Red Tractor Logo

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the guidelines are for the use of the Red Tractor logo; and if she will make a statement. [13188]

**Jim Knight:** The Red Tractor logo is owned by the National Farmers Union and is administered by a private company, Assured Food Standards, which sets the conditions under which the logo can be used. The Government have no role in this process.

### Single Payment Scheme

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many single payment scheme forms were received before the deadline but were then returned to applicants. [10325]

**Jim Knight:** A total of 7,031 single payment scheme applications forms were returned to applicants for amendment before the deadline of 16 May 2005.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many single payment scheme forms were received *(a)* incomplete and *(b)* after the deadline for submissions. [10327]

**Jim Knight:** Until the Rural Payments Agency has captured all data and completed validation definitive figures are not available. To date 9,368 applications have been returned to applicants for amendment, including 7,031 which were returned before the 16 May deadline. While a total of 8,494 applications have been received after the 16 May 2005 deadline.

## CHURCH COMMISSIONERS

### Church Bells

**Mr. Hollobone:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners, what *(a)* financial and *(b)* other help the Commissioners provide for the restoration of church bells to church towers which no longer have bells. [12102]

**Sir Stuart Bell:** The Church Commissioners do not make moneys available for this purpose.

The Archbishops' Council's Cathedral and Church Buildings Division, the relevant Diocesan Advisory Committee and the Central Council of Church Bell Ringers advise on all aspects of this subject including alternative sources of funding.

### Redundant Churches

**Mr. Hancock:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners, what disciplinary powers are available to the Church in dealing with clergymen in respect of settling the future of redundant churches. [12401]

**Sir Stuart Bell:** There is no such thing as a disciplinary process in respect of redundant churches.

The Church Commissioners are required under the provisions of the Pastoral Measure to publish a draft scheme making provision for the future of a redundant church. A notice is served on certain statutory bodies, which include the incumbent and parochial church council, but it is open to anyone who wishes to do so to make written representations to the Commissioners for or against the provisions of such a scheme. The Commissioners exercise a quasi-judicial role in adjudicating on any objections received.

## SOLICITOR-GENERAL

### Witnesses

**Mr. Streeter:** To ask the Solicitor-General how many vulnerable witnesses have been interviewed by the police in each of the last five years. [11295]

**Fiona Mactaggart:** I have been asked to reply.

The information requested is not held on a central database and could be obtained only at disproportionate cost.

## SCOTLAND

### Departmental Conferences

**David T.C. Davies:** To ask the Secretary of State for Scotland how much the Department has spent on *(a)* organising and *(b)* sponsoring conferences in each of the last five years. [10248]

**David Cairns:** The Scotland Office spent the following on organising or sponsoring conferences in the last five years.

| | £ |
|---|---|
| 2000–01 | 0 |
| 2001–02 | 0 |
| 2002–03 | 3,296 |
| 2003–04 | 0 |
| 2004–05 | 0 |

### Parades Review

**Mr. McGovern:** To ask the Secretary of State for Scotland (1) what discussions he has had with the Scottish Executive regarding the implementation of the recommendations of the parades review conducted by Sir John Orr in Scotland; [13508]

(2) what assessment he has made of the evidence of sectarianism in Scotland during the last marching season; and if he will make a statement. [13451]

**David Cairns:** These issues are devolved and therefore a matter for the Scottish Executive. However, I understand that Scottish Ministers accepted all the recommendations in Sir John Orr's review, which aim to professionalize and modernise the decision-making process for processions, and are now working with the police and local authorities to take these forward.

### Scottish Parliament (Elections)

**Mr. Hood:** To ask the Secretary of State for Scotland (1) when his Department expects to make further changes to the system for the elections to the Scottish Parliament; and if he will make a statement; [10752]

(2) what assessment he has made of the effect that the additional member system of voting for elections to the Scottish Parliament has had on Scottish people's perception of the political system; what conclusions he has reached on the extent to which the additional member system has *(a)* encouraged and *(b)* discouraged political engagement; and if he will make a statement. [10753]

**Mr. Darling:** I shall consider whether any changes to the voting system for elections to the Scottish Parliament might be appropriate in the light of the report and recommendations of the Commission on Boundary Differences and Voting Systems, under Sir John Arbuthnott's chairmanship, which is due to report to me at the end of this year.

I expect that the commission will include in its report an assessment of the operation of the additional member system for elections to the Scottish Parliament.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Scotland how many days the Office has lost due to sickness in the past five years for which figures are available. [11472]

**David Cairns:** The Scotland Office was established on 1 July 1999.

The days lost to sickness in the Scotland Office, including the Office of the Advocate General, are set out in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. This report gives details of both the average working days absence per staff-year and the number of staff years on which that calculation is based.

The most recent report for 2003 was announced by ministerial statement on 1 November 2004, *Official Report*, column 1WS and copies placed in the Libraries of the House.

The Scotland Office and Office of the Advocate General are committed to managing sickness absence effectively and to putting in place the recommendations of the recently published "Managing Sickness Absence in the Public Sector".

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Scotland if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8825]

**David Cairns:** I refer the hon. Member to the answer given by my right hon. Friend, the Prime Minister, on Monday 4 July 2005, *Official Report*, column 36W.

## CABINET OFFICE

### Computer crime

**Mr. Burstow:** To ask the Chancellor of the Duchy of Lancaster how many cases of computer *(a)* hacking, *(b)* fraud and *(c)* theft his Department recorded in each year since 2001–02; and for each year, on how many occasions computer systems have been illegally accessed by computer hackers (i) within and (ii) outside his Department. [7181]

**Mr. Hutton:** The number of cases of computer hacking recorded in the Department was one in 2003–04 and three in 2004–05. All four were perpetrated by persons outside the Department.

There were no cases of computer fraud recorded in the Department in 2002–03, 2003–04 and 2004–05.

The number of cases of computer theft (including laptops) recorded in the Department was five in 2002–03, 10 in 2003–04 and four in 2004–05.

### Food Supplements Directive

**Chris Grayling:** To ask the Chancellor of the Duchy of Lancaster what role is played by the European Legislation Unit in his Department in formulating and implementing strategies for the achievement of Government objectives in relation to the food supplements directive; what action has been taken by his officials to influence the intentions of the European Commission in relation to legislation on food supplements following the initial ruling of the European Court of Justice on the directive; and if he will make a statement. [11765]

**Mr. Hutton:** Responsibility for the food supplements directive rests with my right hon. Friend, the Secretary of State for Health. However, the Cabinet Office European Secretariat, is responsible for supporting the Prime Minister by co-ordinating European Union policy across all Departments at both ministerial and official level. As part of this remit officials have worked closely with the Food Standards Agency, Department of Health and the United Kingdom Permanent Representation to the European Union to formulate and implement strategies—including lobbying of the European Commission—for the achievement of Government objectives in relation to the food supplements directive.

## HOUSE OF COMMONS COMMISSION

### Lighting

**Norman Baker:** To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will take steps to amend the light settings in the toilets, bathrooms and public areas in Portcullis House so that they are activated by motion rather than remaining permanently on. [12645]

**Nick Harvey:** Energy saving measures of this nature for the parliamentary estate are implemented from an annual budget in order of pay-back period. The light fittings in toilets, bathrooms and public areas of Portcullis House will be equipped with motion detectors when their investment priority is reached. The office corridors in Portcullis House are not lit when adjacent office lighting is off.

## LEADER OF THE HOUSE

### Members' Salaries

**Mr. Love:** To ask the Leader of the House what an hon. Member's salary will be in each year from 2005–06 to the next expected Senior Salaries Review Body report; and if he will estimate what it would be if it were raised each year in line with the public and private sector comparators. [11277]

**Mr. Hoon:** It is not possible to provide the information requested.

As the hon. Member will be aware, between reviews of parliamentary pay and allowances, Members' salaries are increased by the rate of revalorisation of the senior civil service pay bands and target rates. The next report from the Senior Salaries Review Body on senior civil service pay is expected in February 2006.

## DEFENCE

### Afghanistan

**Mr. Wallace:** To ask the Secretary of State for Defence if he will make a statement on the security situation in Afghanistan. [2695]

**Mr. Ingram:** The security situation in Afghanistan is stable. The UK and our international partners, in both the coalition and the NATO-led International Security Assistance Force (ISAF), continue to support the Government of Afghanistan build a safe and prosperous country.

### Army Uniform

**Mr. Hoyle:** To ask the Secretary of State for Defence what the proposed *(a)* service uniform and *(b)* mess dress for the King's Lancashire and Border Regiment are; and where its (i) headquarters and (ii) museum will be based. [12157]

**Mr. Touhig:** Each of the new regiments to be created under the Future Infantry Structure has a committee made up of representatives from its antecedent regiments to consider a range of issues arising from the mergers. When the King's, Lancashire and Border Regiment Committee has agreed its recommendations on dress and accoutrement regulations these will be put to the Army Dress Committee for approval. We expect to be able to announce a decision later this year or early next.

A separate review is under way to determine the most effective and efficient method of delivering Regimental Headquarters (RHQs) functions in the light of the Future Infantry Structure announcement. This review will consider the number and location of RHQs required across the restructured infantry. It is too early to speculate on what the outcomes of this review will be, but it is anticipated that a final decision will be announced in early 2006.

At this stage no discussions have taken place regarding any changes to the location or structure of extant regimental museums. Any such discussions would be as much a matter for each individual museum's trustees as for the MOD. While the RHQ review will not look into the future of museums specifically, where museums are co-located with RHQs implications for the museums will be taken in to account in the consideration of options.

### Body Armour

**David T.C. Davies:** To ask the Secretary of State for Defence how many items of body armour issued to British troops since 2000 are unaccounted for. [8066]

**Mr. Ingram:** No body armour has been unaccounted for since 2000. An audit of stockholdings of body armour undertaken last year by the Defence Logistics Organisation showed that stock holdings accounted for 66 per cent. of the total number of Enhanced Combat Body Armour components procured between 1992 and 2003. The remainder will have been consumed over this period as a result of wear and tear, and operational loss. I refer the hon. Member to the data for this period that was published by the House of Commons Defence Committee on 8 June 2004 (HC 635), as part of the Government's response to its "Lessons of Iraq" inquiry.

Combat body armour has now been designated as an item of personal issue to regular service personnel (excluding the Royal Navy but including the Royal Marines). Individuals are held accountable for the care of their body armour. If damaged or lost, it will be replaced in line with existing procedures.

### Brigade Strength

**Ann Winterton:** To ask the Secretary of State for Defence of how many battalions each of the three medium-weight brigades will comprise. [12685]

**Mr. Ingram:** Under future army structures, the three medium-weight brigades will each comprise of three Infantry Battalions.

### Dean Hill Arms Depot

**Robert Key:** To ask the Secretary of State for Defence if he will make a statement on the sale of the former arms depot at Dean Hill. [11555]

**Mr. Touhig:** The Dean Hill site comprises 24 underground bunkers, ancillary offices, workshops and stores and 35 residential properties all set in 235 ha of land including a Site of Special Scientific Interest.

Where the land is still agricultural and has not been changed in character, former owners have been given the opportunity to buy back their former land at the current market value. This land is all outside the boundary fence and four former owners have expressed an interest in buying back their former land.

Some of the agricultural land outside the boundary fence, which has no development potential, is being offered for sale by private treaty to the tenant farmers.

34 of the 35 residential properties have already been sold and the remaining house is likely to be acquired by a housing association.

The area within the boundary fence and the remaining adjoining land, part of which may have some development potential (a total of some 156 ha), is being

offered for sale by tender in one lot on the open market. Marketing commenced the week beginning 27 June and a large number of inquiries have been received.

Defence Estates, the Ministry of Defence Agency responsible for the defence estate, has had extensive discussions about the sale with the two planning authorities Test Valley borough council and Salisbury district council and the local community. Test Valley borough council produced a Planning Position Statement for that part of the depot which falls within their district and Salisbury district council are currently working on one for that part of the depot which falls within their area. The intention is that these statements will be adopted as supplementary planning policy.

Defence Estates has also had discussions with English Nature about the Site of Special Scientific Interest, which has statutory protection and is an important site for chalk down-land, juniper bushes, yew trees and flora and fauna. Defence Estates has an agreement with English Nature (The Joint Declaration of Intent) whereby Defence Estates will offer surplus land of high conservation value to a conservation body nominated by English Nature at market value. English nature nominated Hampshire and Isle of Wight Wildlife Trust and extensive negotiations have been held between the Trust and Defence Estates but at the present time it seems unlikely that the Trust will be acquiring any part of the depot..

### Defence Export Services

**Malcolm Bruce:** To ask the Secretary of State for Defence if he will list the individuals, companies, organisations and Government bodies which attended the Defence Export Services Organisation Symposium held on 9 March. [10675]

**Mr. Ingram:** I will place in the Library of the House a list of the companies, organisations and Government Departments from which representatives were expected at the Defence Export Services Organisation Symposium. No record is available identifying the individuals who were present at the event.

**Malcolm Bruce:** To ask the Secretary of State for Defence if he will place in the Library a copy of the *(a)* programme and *(b)* minutes of the Defence Export Services Organisation Symposium held on 9 March. [10676]

**Mr. Ingram:** The proceedings of the Defence Export Services Organisation (DESO) Symposium were not minuted. The day's programme, and the speeches by my right hon. Friend the Secretary of State for Defence, the noble Lord the Minister for Defence Procurement, and my hon. Friend the Parliamentary Under Secretary for the Foreign and Commonwealth Office, will be placed in the Library of the House.

### Defensive Aid Suites

**Ann Winterton:** To ask the Secretary of State for Defence if he will make a statement on the contract with Akers Krutbruk Protection AB for defensive aid suites; and what the purpose is of defensive aid suites. [10927]

**Mr. Ingram:** A defensive aids suite (DAS) describes a group of integrated sensors and counter-measures for self-defence of armoured fighting vehicles and other military platforms. A DAS is capable of providing automatic or semi-automatic response to threats, thereby increasing survivability without the weight burden of additional armour.

A contract was awarded to Akers Krutbruk Protection AB in May 2005. The contract will enable the Department to assess and further develop the armoured fighting vehicles effectiveness of DAS systems.

### Departmental Budget

**David T.C. Davies:** To ask the Secretary of State for Defence how much was allocated to the Department for each year since 1975. [11519]

**Mr. Touhig:** Final annual allocations to the Ministry of Defence are voted by Parliament in the spring supplementary estimates, copies of which are held in the Library of the House. In addition, the Defence Analytical Services Agency publishes annual statistics on defence expenditure, available on its website, which include comparative figures over time. These figures are, however, based on actual outturns, rather than allocations. The hon. Member will wish to note also that financial planning and management moved from a cash to a resource basis in two incremental stages from 2001–02 and 2003–04, with the result that direct comparisons across these periods are not possible.

### Future Rapid Effects System

**Ann Winterton:** To ask the Secretary of State for Defence whether the Panther Command and Liaison vehicle is an integral part of the Future Rapid Effects System package. [12675]

**Mr. Ingram:** Panther is being procured to provide a multi-purpose vehicle for the Army employed primarily in command and liaison tasks. While it is not an integral element of the Future Rapid Effect System (FRES) programme it is one of a number of options being assessed during the initial Assessment Phase to establish whether it has the potential to fulfil some elements of the FRES requirement.

### HMS Invincible

**Mr. Hancock:** To ask the Secretary of State for Defence if he will make a statement on the future of HMS Invincible. [11288]

**Mr. Ingram:** I refer the hon. Member to the answer I gave him about the planned decommissioning date for HMS Invincible on 13 July 2005, *Official Report*, column 1078W.

### Iraq

**Adam Price:** To ask the Secretary of State for Defence which document Colonel Terrington saw in December 2003 to which the Minister of State referred in his letter to the hon. Member for Camarthen, East and Dinefwr of 31 January. [9038]

**Mr. Ingram:** Colonel Terrington saw a document on 26 December 2003, entitled "CJTF-7 CG MEMO—CJTF-7 Interrogation and Counter-Resistance Policy"

dated 28 September 2003. We have no further information on the content of that document, which was not the extant CJTF-7 interrogation policy at that time.

**Mr. Ancram:** To ask the Secretary of State for Defence what recent discussions he has had with his US counterpart regarding the co-ordination of withdrawal of US and UK troops from Iraq. [13271]

**John Reid:** I hold regular discussions with the United States Secretary of Defense about progress in establishing a free, stable and democratic Iraq. We both agree that coalition forces should remain in Iraq for as long as the Iraqi Government judge that the coalition is required to provide security and to assist the Iraqi Security Forces (ISF).

Factors in determining the scope and timeline for eventual UK force level reductions in Iraq will include: the readiness of the ISF to take responsibility for the range of security tasks; the overall security situation; and progress in the political process.

### Japanese Internees

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence how many applications under the ex gratia scheme for British groups interned by the Japanese during the second world war have been refused on grounds of their not satisfying the bloodlink criteria; if he will reconsider these applications in response to the report of the parliamentary and health service ombudsman of 12 July; and if he will make a statement. [13497]

**Mr. Touhig:** We estimate that some 1,100 claims were rejected because they did not meet the "bloodlink" criterion. As will be clear from my written statement on 13 July 2005, *Official Report*, columns 28–29WS, we do not consider that the parliamentary and health service ombudsman's report provides grounds for reviewing these cases. The Department's rejection of claims on the "bloodlink" criterion is also affected by the recent High Court decision on the application for judicial review by Mrs. Diana Elias. The Secretary of State for Defence is considering his response to this judgment.

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence what steps he is taking in response to the conclusion of the parliamentary and health service ombudsman (HC 324) that there was injustice to Professor Jack Hayward and others caused by the maladministration of the ex gratia scheme for British groups interned by the Japanese during the second world war; and if he will establish a departmental inquiry. [13499]

**Mr. Touhig:** I refer my hon. Friend to my written ministerial statement on 13 July 2005, *Official Report*, columns 28–29WS. I have no plan to undertake a departmental inquiry.

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence what the reasons were for his rejection of the first and second remedies proposed by the parliamentary and health service ombudsman in the case of Professor Jack Hayward and maladministration in relation to the devising, announcing and operation of the ex gratia scheme for British groups interned by the Japanese during the second world war (HC 324); and if he will make a statement. [13500]

**Mr. Touhig:** The Government's reasons for rejecting the first and second remedies proposed by the parliamentary and health service ombudsman are set out fully in their response which was published as an annex to the ombudsman's report (4th Report—Session 2005–2006, HC 324) when it was laid before Parliament on 12 July 2005.

### Military Uniform Contract

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will place in the Library the minutes of the recent meeting on the cut and sew contract; and if he will make a statement. [12410]

**Mr. Ingram:** If my hon. Friend would provide details of the meeting to which he is referring I would be pleased to consider his request.

**Mr. Hoyle:** To ask the Secretary of State for Defence how many regiments have been provided with battle dress made in China under the cut and sew contract. [12479]

**Mr. Ingram:** This information is not held centrally and could be provided only at disproportionate cost. While it would be possible to identify the provenance of a specific item of clothing from the contract number on its label, there is no mechanism, nor any business requirement, to track general issues of clothing to operational units by country of manufacture.

### Natural Disasters (Military Assistance)

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to his answer of 13 June 2005, *Official Report*, columns 15–16W, on natural disasters (military assistance), if he will list the improvements identified in the review of operations following the tsunami. [6483]

**Mr. Ingram:** The Ministry of Defence has carried out a formal Lessons Study conducted by the Directorate of Operational Capability, to identify what improvements could be made in any such future operation. The lessons identified will inform the Humanitarian and Disaster Relief Operations Doctrine and associated procedures.

In addition, the MOD is undertaking steps to improve the information flow both within the Department and cross-Government, in particular, enhancing liaison and potentially information infrastructures with DFID and the Post Conflict Reconstruction Unit. This fully supports the Government's effort to reform cross-Government interoperability.

### Negligence Discharges

**Ann Winterton:** To ask the Secretary of State for Defence how many infantry private soldiers have been subject to negligence discharge from the *(a)* Regular Army and *(b)* Territorial Army since hostilities started in Iraq. [12678]

**Mr. Touhig:** Our records indicate that, between March 2003 and June 2005, 80 Regular Army infantry private soldiers, and two Territorial Army infantry private soldiers, have been disciplined as a result of negligent discharges in Iraq.

### Project Aquatrine

**Robert Key:** To ask the Secretary of State for Defence if he will list the works that are *(a)* planned and *(b)* under way in Salisbury constituency in connection with Project Aquatrine; who the contractors are; and if he will make a statement. [11554]

**Mr. Touhig:** The Aquatrine Private Finance Initiative (PFI) commercial arrangements involve the leasing of up to 28 types of water and wastewater assets to the Service Provider, Brey Services Ltd. who is responsible for operation and maintenance, and capital development of the assets over the 25-year period of the PFI. Brey is required to maintain a three-yearly Rolling Operations Programme, which outlines their prioritised capital development programme. Brey's Capital Solutions Partner for the Salisbury area is Earth Tech Engineering. Brey's Rolling Operations Programme currently includes 21 planned capital works schemes. Of these, 17 are still in the planning stage and contracts have not been awarded. There are currently four capital works schemes for which the contractor is known. These are:

Boscombe Down Sewage Treatment Works development commencing 18 July 2005—contractor is Delta Water Services;

Salisbury Plain Training Area Knook Camp Water Treatment Works development commencing September 2005—contractor is Earth Tech Engineering;

Boscombe Down Water Network development commencing 6 October 2005—contractor is Earth Tech Engineering; and

Warminster Garrison Sewage Treatment Works development commencing December 2005—contractor is Earth Tech Engineering;

There are no capital works schemes under way at the present time.

### Queen's Lancashire Regiment

**Mr. Hoyle:** To ask the Secretary of State for Defence (1) how many and what percentage of serving Queen's Lancashire Regiment personnel were recruited *(a)* in Lancashire and *(b)* from overseas; [12158]

(2) how many and what percentage of serving King's Own Borderers were recruited *(a)* in Cumbria and *(b)* from overseas; [12159]

(3) how many and what percentage of serving members of the Queen's Lancashire Regiment were recruited in Cumbria; [12421]

(4) how many and what percentage of serving members of the King's Own Borderers were recruited in Lancashire; [12422]

(5) how many and what percentage of serving King's Regiment personnel were recruited from *(a)* Cumbria, *(b)* Lancashire and *(c)* overseas; [12423]

(6) how many *(a)* officers, *(b)* non-commissioned officers and *(c)* other ranks he expects to be made redundant or allowed early retirement following the merger of the King's, King's Own Borderers and Queen's Lancashire Regiment; what the strength is of each regiment; and what percentage is overseas recruits. [12424]

**Mr. Touhig:** The following table sets out the trained strength of the King's Own Royal Border Regiment (KORBR), the King's Regiment (KINGS) and the Queen's Lancashire Regiment (QLR) as at 1 May 2005. A breakdown between personnel of UK nationality and foreign nationality is shown.

| *Nationality* | *Officers* | *Soldiers* | *Total* |
|---|---|---|---|
| *King's Own Royal Border Regiment* | | | |
| UK | 80 | 490 | 570 |
| Overseas | 0 | 45 | 45 |
| Total | 80 | 540 | 615 |
| Overseas as percentage | 0.0 | 8.6 | 7.5 |
| *King's Regiment* | | | |
| UK | 65 | 505 | 570 |
| Overseas | — | 25 | 30 |
| Total | 65 | 535 | 595 |
| Overseas as percentage | — | 4.9 | 4.5 |
| *Queen's Lancashire Regiment* | | | |
| UK | 65 | 605 | 670 |
| Overseas | 0 | 5 | 5 |
| Total | 65 | 610 | 675 |
| Overseas as percentage | 0.0 | 1.0 | 0.9 |

'—' indicates a number fewer than five.

*Notes:*

1. Figures are rounded to the nearest five.
2. Totals and sub totals are rounded separately so may not equal the sum of their parts.

It is not possible to provide a breakdown of personnel by the recruiting centre in which they attested because this information is not held centrally. However, recruiting centres recruit to the infantry as a whole and not exclusively for their local infantry regiment. Only on completion of initial training are recruits finally assigned to a particular regiment, the location of attestation having no bearing on this decision.

Redundancy is one of the mechanisms being utilised to achieve a manning balance post implementation of the Future Infantry Structure. To the maximum extent possible those posts released from the reduction to the infantry will be reinvested elsewhere in the Army and personnel re-rolled and re-trained. However, in order to prevent structural imbalances and career blockages, 121 officers have been, and up to 195 soldiers will be, selected from across the infantry for redundancy under the Army Redundancy Programme 2006–07. There is no other Army redundancy programme in place at the current time.

Infantry officers have now been notified of their redundancy and will be retired from the Army by 30 June 2006. All of the officers who were selected for redundancy had expressed a prior interest in accepting the package on offer. The officers selected are drawn broadly from across the infantry. With regard to specific regiments, two of those selected are serving with KINGS, five with KORBR and four with QLR.

Soldiers will be selected for redundancy in spring 2006 and retired from the Army by 30 April 2007.

### RAF Innsworth

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence if he will ensure that personnel from RAF Innsworth are not disadvantaged when applying for posts at High Wycombe following the transfer of operations; and if he will make a statement. [12112]

**Mr. Ingram:** Ministry of Defence policy and procedures will be followed. It is envisaged that the majority of posts across the collocated RAF HQ will be openly competed. In the first instance the competition will be amongst existing civilian employees at Headquarters Personnel and Training Command, Strike Command, and those in the MOD-wide redeployment pool.

For service personnel, career aspirations and commitments will be taken into account under normal career management, as is the case now.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what estimate he has made of the cost of redundancies from *(a)* RAF Innsworth and *(b)* High Wycombe, following the transfer of operations; and if he will make a statement. [12113]

**Mr. Ingram:** Redundancies resulting from the planned collocation of the RAF Headquarters at High Wycombe form part of the 10,000 civilian post reductions announced as part of the July 2004 Defence White Paper "Delivering Security in a Changing World". It is not yet known how many staff, or at which grades, will be made redundant at each site. It is therefore too early to estimate the cost of these redundancies.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what estimate he has made of the cost of the removal and transfer of *(a)* staff and *(b)* operations from RAF Innsworth to High Wycombe; and if he will make a statement. [12114]

**Mr. Ingram:** The total estimated cost of removal and transfer of staff and operations for the collocated RAF Headquarters at High Wycombe is in the region of £23 million. £6 million is for staff costs, £3 million of which is identified for staff relocation packages, in accordance with the appropriate departmental guidelines. The other £3 million, spread over a period often years, is for additional housing cost allowance payable to civilian staff. £17 million is for operational costs.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what recruitment and retention allowance is paid to staff at *(a)* RAF Innsworth and *(b)* High Wycombe; and if he will make a statement. [12115]

**Mr. Ingram:** A recruitment and retention allowance (RRA) of £2,000 is paid to all civilian staff below the senior civil service at RAF High Wycombe. No recruitment and retention allowance is currently paid at RAF Innsworth.

The RRA was taken into account in the investment appraisal which underpinned the decision to collocate the two headquarters at RAF High Wycombe.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what steps he has taken to obtain the agreement of other agencies to use the RAF Innsworth site following closure; and if he will make a statement. [12125]

**Mr. Ingram:** We are still considering whether RAF Innsworth might be suitable for alternative defence requirements. If none are identified the site will be placed on the English Partnerships (EP) Public Asset Register to allow other Government Departments and agencies 40 days to declare an interest.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what interest has been expressed by developers in the RAF Innsworth site following closure; and if he will make a statement. [12126]

**Mr. Ingram:** None at this stage. This may be because the RAF Innsworth site has not at present been declared surplus to MOD requirements.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence if he will extend the date for consultation on the closure of RAF Innsworth; and if he will make a statement. [12127]

**Mr. Ingram:** Any request from the trade unions for an extension to the consultation period, identifying the length of time required and defining the reasons why it is needed, will be considered very carefully.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence when the decision was made to move the Armed Forces Personnel Administration Agency from the RAF Innsworth site; and if he will make a statement. [12141]

**Mr. Ingram:** The planning assumption that the Armed Forces Personnel Administration Agency (AFPAA) should move from Innsworth in mid-2008 was agreed as part of the RAF HQ collocation study in consultation with relevant stakeholders. Funding for the relocation of AFPAA from Innsworth was included in collocation costings. This decision formed part of my written statement of 16 June 2005, *Official Report*, column 21WS.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence when he first considered the recommendation to close RAF Innsworth; and if he will make a statement. [12142]

**Mr. Ingram:** A recommendation on the collocation of Headquarters Strike Command and Headquarters Personnel and Training Command was submitted to me on 13 May 2005 and a decision was announced on 16 June 2005, *Official Report*, column 21WS. The decision was not taken lightly and followed a comprehensive study into the feasibility of collocating the two headquarters (currently based at RAF High Wycombe and RAF Innsworth) by rationalising and collocating them on a single site.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence what assessment he has made of the financial effect on the Innsworth area of the decision to close the RAF site; what plans he has to provide financial assistance to the area following the closure; and if he will make a statement. [12143]

**Mr. Ingram:** The RAF HQ Collocation Business Case examined all direct costs and benefits as well as other considerations such as economic impact. We estimate that the 1,800 service and civilian jobs on the Innsworth site make up approximately 3.5 per cent. of local employment. However, as jobs on the site reduce progressively over the next three years, the economic impact will clearly depend on the future use of the site. We will work with local employers and the local

authorities to keep them informed of the progress of the collocation and enable them to plan as effectively as possible.

**Mr. Laurence Robertson:** To ask the Secretary of State for Defence when it was decided to include the Armed Forces Personnel Administration Agency in the review of operations on the RAF Innsworth site; and if he will make a statement. [12397]

**Mr. Ingram:** The Armed Forces Personnel Administration Agency (AFPAA) was automatically considered as part of the RAF Headquarters collocation study, which has been under way since February 2004. The cost of relocating AFPAA was taken into account in the Investment Appraisal.

### RAF Menwith Hill

**Mr. Drew:** To ask the Secretary of State for Defence if he will publish the financial agreement in place between the MOD Police Agency and the US authorities at RAF Menwith Hill for services rendered. [1298]

**Mr. Ingram:** I am placing the information requested in the Library of the House.

### Royal Navy (Personnel)

**Mr. Laws:** To ask the Secretary of State for Defence how many members of staff have been employed in the Royal Navy for each year since 1980–81; and if he will make a statement. [12280]

**Mr. Touhig:** Trained naval services strength (including Royal Marines) on 1 April each year since 1980 are given in the following table:

| *As at 1 April each year* | *UK Regulars*[1] | *FTRS* |
|---|---|---|
| 1980 | [2]63,700 | — |
| 1981 | 65,540 | — |
| 1982 | 67,270 | — |
| 1983 | 65,820 | — |
| 1984 | 65,390 | — |
| 1985 | 64,200 | — |
| 1986 | 61,540 | — |
| 1987 | 59,410 | — |
| 1988 | 58,840 | — |
| 1989 | 57,700 | — |
| 1990 | 56,660 | — |
| 1991 | 55,510 | — |
| 1992 | 55,930 | — |
| 1993 | 55,290 | — |
| 1994 | 52,410 | — |
| 1995 | 48,200 | — |
| 1996 | 45,550 | — |
| 1997 | 41,680 | — |
| 1998 | 40,360 | 130 |
| 1999 | 39,070 | 250 |
| 2000 | 38,540 | 340 |
| 2001 | 38,020 | 520 |
| 2002 | 36,770 | 720 |
| 2003 | 36,590 | 1,010 |
| 2004 | 36,380 | 1,090 |
| 2005 | 35,420 | 900 |

[1] UK Regulars includes nursing services and excludes full-time reserve services (FTRS) and mobilised reservists.

[2] Only available rounded to nearest 100. The rest of the figures are rounded to the nearest 10. When rounding to 10, numbers ending in 5 have been rounded to the nearest 20 to avoid systematic bias.

### Royal Ordnance Factory

**Mr. Hoyle:** To ask the Secretary of State for Defence what the value is of contracts to be produced at Chorley Royal Ordnance Factory in 2005–06. [11647]

**Mr. Ingram:** Chorley Royal Ordnance Factory is part of BAE Systems Land Systems. The level and value of production activity at Chorley are commercial matters for BAE Systems.

### School Fees

**Andrew Mackinlay:** To ask the Secretary of State for Defence how much was spent by his Department on school fees in each of the last three years; who is entitled to claim the cost of fees; what the maximum amount payable per claimant is; and if he will make a statement. [11547]

**Mr. Ingram** *[holding answer 18 July 2005]:* The net sum paid annually in respect of service education allowances for boarding and day school fees by the Ministry of Defence in each of the past three years is shown in the table:

| | £ |
|---|---|
| 2002–03 | 69,488,884.11 |
| 2003–04 | 81,650,940.11 |
| 2004–05 | 91,078,265.42 |

In addition to the above amounts, service education allowances are subject to income tax and national insurance contributions (NIC) when paid to service personnel based in the UK. These are paid by the MOD under grossing up arrangements through a PAYE settlement agreement (PSA). The income tax and NIC PSA payment amounts are not held centrally and could be provided only at a disproportionate cost.

Service education allowances are available to all regular service personnel, provided they meet the eligibility criteria. In order to claim any of the service education allowances, the service claimant must fully accept the overriding principle that their family will accompany them on each posting, whether in the United Kingdom or overseas.

There are a range of service education allowances available, depending on whether the child is attending a boarding or day school, as a junior or senior pupil and whether they have a special educational need. The various maximum annual rates of service education allowance per child from 2002 onwards are shown in the table.

£

| | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
|---|---|---|---|---|
| *Boarding* | | | | |
| Junior Pupil | 8,700 | 9,525 | 10,224 | 10,488 |
| Senior Pupil | 11,166 | 12,060 | 12,990 | 13,670 |
| *Day* | | | | |
| Junior Pupil | 5,163 | 5,742 | 6,165 | 6,426 |
| Senior Pupil | 6,900 | 7,494 | 8,022 | 8,358 |
| Special educational needs addition (SENA) | 18,000 | 18,000 | 19,389 | 2,406 |
| SENA (day) | 12,000 | 12,000 | 12,846 | 13,383 |

### Second World War Anniversary Ceremonies

**Mr. Amess:** To ask the Secretary of State for Defence if he will list the Ministers in each Department who were present in an official capacity at ceremonies to mark the 60th anniversary of the end of the Second World War; and if he will make a statement. [12737]

**Mr. Touhig:** On National Commemoration Day, Sunday 10 July, the Prime Minister attended the three events organised by the Ministry of Defence in London, at Westminster Abbey, Buckingham Palace and Horse Guards Parade. He was accompanied by my right hon. Friend, the Secretary of State for Defence. I also attended as the Minister for Veterans. In addition, my right hon. Friend the Minister for the armed forces attended commemorative events in Edinburgh and the noble Lord, the Minister for Defence Procurement attended a commemorative event at the National Memorial Arboretum, near Lichfield, Staffordshire.

Other Departmental Ministers were invited to attend the events in London and I am sure others will have attended similar events which took place throughout the country. However, we do not have a definitive list of Ministers who attended such events in an official capacity.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Defence how many days the Department has lost due to sickness in the past five years for which figures are available. [11470]

**Mr. Touhig:** The following tables show the numbers of days' sickness absence for non-industrial and skill-zone (former industrial) civil servants in the Ministry of Defence since 1999.

*Non-industrial civil servants in the Ministry of Defence*

| | *Sickness absence (working days)* |
|---|---|
| *Calendar year* | |
| 1999 | 538,700 |
| 2000 | 526,100 |
| 2001 | No reliable data available |
| 2002 | — |
| 2003 | 481,000 |
| *Financial year* | |
| 2003–04 | 494,100 |

*Skill-zone civil servants in the Ministry of Defence*

| | *Sickness absence (working days)* |
|---|---|
| *Calendar year* | |
| 1999 | 320,990 |
| 2000 | No reliable data available |
| 2001 | 304,900 |
| 2002 | 259,700 |
| 2003 | 209,900 |
| *Financial Year* | |
| 2003–04 | 187,100 |

*Notes:*
1. Excludes MOD staff in Trading Fund Agencies and Royal Fleet Auxiliaries.
2. Sickness absence days are based on full-time equivalent (FTE) working days lost. For example, if a part-time employee (working 50 per cent. full-time hours) is sick for seven calendar days, this is five working days lost and 2.5 FTE working days lost.
3. Absences with unreasonably long values have been edited and some logical inconsistencies corrected.
4. There is no sickness absence information for skill-zone staff available for 2000 or for non- industrial for 2001, for data quality reasons.

### Surface Fleet

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answer of 28 June 2005, *Official Report*, column 1400W, on the surface fleet, if he will identify each of the 25 destroyers and frigates to which reference is made in Cm 6269 (page 18); and if he will make a statement. [9614]

**Mr. Ingram:** The destroyers and frigates that are currently in-service with the RN are as follows:

*Type 42 Batch 2 destroyers:*
- HMS Exeter
- HMS Southampton
- HMS Nottingham
- HMS Liverpool

*Type 42 Batch 3 destroyers:*
- HMS Manchester
- HMS Gloucester
- HMS Edinburgh
- HMS York

*Type 22 frigates:*
- HMS Cornwall
- HMS Cumberland
- HMS Campbeltown
- HMS Chatham

*Type 23 frigates:*
- HMS Argyll
- HMS Lancaster
- HMS Iron Duke
- HMS Monmouth
- HMS Montrose
- HMS Westminster
- HMS Northumberland
- HMS Richmond
- HMS Somerset
- HMS Sutherland
- HMS Kent
- HMS Portland
- HMS St Albans

As stated in Cm 6269, we have a requirement for eight Type 45 destroyers. The capability provided by the Type 45s will progressively succeed the capability provided by the Type 42 destroyers from 2009.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Defence pursuant to the answer of 23 June 2005, *Official Report*, column 1146W, on taxis, what estimate he has made of the cost of providing the information requested. [12690]

**Mr. Touhig:** The general procedure in the Ministry of Defence is that taxi fares are paid by the hirers and reclaimed from the Department, often combined with other elements of travelling and subsistence claims. The costs of taxi fares are not collected centrally or recorded

separately once claims are authorised for payment. Providing the information would therefore entail personal analyses of claims by every serviceman and civil servant. Receipts are only required to be retained for three years after the end of the financial year in which claims are made, and information would not be obtainable from personnel who have left the services or Department.

I do not consider this a practicable exercise, and it is therefore unrealistic to attempt to estimate the very considerable cost of mounting it.

### Territorial Army (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on the *(a)* role and *(b)* use made of the Territorial Army barracks at Chorley. [12160]

**Mr. Touhig:** Chorley TA Centre is home to: Chorley Detachment of 5 General Support (GS) Medical Regiment (Volunteer); 29 Company Detachment of 3 (Volunteer) Military Intelligence (MI) Battalion; Chorley Detachment Army Cadet Force; and Salerno Company Headquarters of Lancashire Army Cadet Force. In total these units generally use the TA centre three evenings per week and weekends to train personnel.

### Troop Redeployment

**Mr. Meacher:** To ask the Secretary of State for Defence what consideration he has given to the redeployment of UK troops from *(a)* Iraq, *(b)* Afghanistan and *(c)* the UK or elsewhere to Iran; and under what circumstances he might consider such action in future. [12193]

**Mr. Ingram:** We have not considered, nor do we have any plans to redeploy troops from Iraq, Afghanistan, the UK or elsewhere to Iran.

### Wormwood Scrubs

**Mr. Hands:** To ask the Secretary of State for Defence pursuant to the answer of 28 June 2005, *Official Report*, column 1402W on Wormwood Scrubs, whether development proposals include traffic management schemes. [11276]

**Mr. Touhig:** The London borough of Hammersmith and Fulham is obliged to consult the Ministry of Defence under the provisions of the Wormwood Scrubs Act 1879 on development proposals on Wormwood Scrubs. Development proposals are defined in Section 4 of the Act as

"... lay out, drain, level, plant and improve the Scrubs."

The definition covers all but the most minor of works. Therefore the requirement for this Department's approval would depend on the nature of any works needed under a proposed traffic management scheme.

I have previously referred to a related agreement in the form of a Memorandum of Agreement dated 1 October 1980. This is relevant as it sets out the management arrangements in respect of Wormwood Scrubs between the Secretary of State for Defence and the Council and further defines under what circumstances this Department's approval is required. The pertinent section of the 1980 agreement states:

"The Secretary of State for Defence agrees for the purposes of the Act that the Greater London Council may carry out on the non-military portion of the Scrubs any operation to lay out drain level plant and improve the Scrubs without requiring his further approval provided the operation is otherwise lawful and does not form part of a major scheme likely to affect the general character of any part of the Scrubs and does not require the consent of the Secretary of State for the Environment."

Public roads would not be a military part of the Scrubs.

Therefore the Ministry of Defence would expect to be consulted if the Council proposed a development falling within the definition of the Act over the military portion of the Scrubs or was a major scheme.

## DEPUTY PRIME MINISTER

### Disabled Facilities Grant

**Mr. Martyn Jones:** To ask the Deputy Prime Minister what the conclusions were of the Disabled Facilities Grant review. [12202]

**Yvette Cooper** *[holding answer 18 July 2005]*: The Disabled Facilities Grant programme is subject to an interdepartmental review and a team from Bristol university is currently looking at the operation of the programme including the means test. The review is continuing and Ministers will put forward any proposals for change in due course.

### Fire Service

**Alan Simpson:** To ask the Deputy Prime Minister which fire authorities have currently set performance targets relating to the reduction of deaths and injuries in non-accidental, non-domestic emergencies. [13549]

**Jim Fitzpatrick:** The information requested is not held centrally and could be provided only at disproportionate cost. However, the Government's new fire Public Service Agreement target for England is, by 2010, to reduce the number of accidental fire related deaths in the home by 20 per cent. and the number of deliberate fires by 10 per cent.. Since 2003 every Fire and Rescue Authority (FRA) has been required to produce a local integrated risk management plan (IRMP) that sets out the authority's assessment of local risk to life and, in line with this analysis, how it is going to deploy its resources to tackle these risks and improve the safety of all sections of society. The Fire and Rescue National Framework requires FRAs to set out in their IRMPs, the targets and standards it will apply to meet the specific pattern of local risk.

**Mr. Amess:** To ask the Deputy Prime Minister how many of the convergence work tasks for the fire control project have been completed; and if he will make a statement. [13551]

**Jim Fitzpatrick:** The work on convergence is being led by the Chief Fire Officers' Association (CFOA) and supported by the Office of the Deputy Prime Minister. Its aim is to enable fire and rescue services to communicate and work together effectively by

introducing standard procedures and terminology for the national radio system and control centre network. 34 convergence products have been developed and are out for consultation with fire and rescue services. Seven are under development. In addition the work to date has identified a further ten products for development.

### Homelessness

**Sarah Teather:** To ask the Deputy Prime Minister (1) what average length of time a homeless household in temporary accommodation in each Government Office Region had to wait before being made an offer of a permanent home in each year since 1997; [12224]

(2) what average length of time a homeless household in temporary accommodation in each local authority area in London had to wait before being made an offer of a permanent home in *(a)* 1997 and *(b)* 2004. [12225]

**Yvette Cooper:** Information reported quarterly by local authorities on their activities under homelessness legislation includes the number of households that, during the quarter, left temporary accommodation provided by the authority, or who were no longer registered as "homeless at home", by the length of stay in broad time bands.

A table which presents the proportion of households in each time band for each year since 1997, by Government Office region, along with a corresponding table presenting the position for London boroughs in 1997 and 2004, has been placed in the Library of the House. These include households who have been given settled accommodation by the authority, but also those who left temporary accommodation voluntarily as well as those who ceased to be eligible or who became intentionally homeless.

The Government have set a target to halve the number of households in temporary accommodation by 2010. Homeless acceptances in the first quarter of 2005 were 20 percent. lower than the corresponding period in 2004.

### Housing

**Mr. Hoyle:** To ask the Deputy Prime Minister what powers are available to him in relation to directing English Partnerships to use land they hold for social housing. [12864]

**Yvette Cooper:** English Partnerships' statutory purpose and powers are laid out in the Leasehold Reform, Housing and Urban Development Act 1993 and the New Towns Act 1981. These acts provide the Secretary of State with powers to issue guidance and make directions to English Partnerships (EP) in relation to government policies and objectives. The Secretary of State does not however have the powers to appoint English Partnerships as a housing authority. Therefore EP acquires, remediates and disposes of land, providing housing through partnerships and joint ventures with housing developers.

The Secretary of State also approves English Partnerships' Corporate plan each year which sets out EPs' corporate priorities for the corporate plan period.

### Modular Building Techniques (Fire Risk)

**Mrs. Spelman:** To ask the Deputy Prime Minister what assessment the Government have made of the fire risk from modular building techniques; and if he will make a statement. [13118]

**Jim Fitzpatrick:** 'Modular buildings' can include a wide range of different materials and construction techniques and many have been in production for a considerable period, using well-tested approaches. We have not undertaken any detailed assessment of the potential fire risk from modular building techniques.

However, we intend to look at the fire safety aspects of such innovative construction products and techniques, including modular buildings, in the research programme planned for this financial year, which underpins the health and safety requirements of the Building Regulations.

### New Buildings

**Lynne Jones:** To ask the Deputy Prime Minister if he will make it his policy to require building regulations to specify that all new buildings have built-in means of microgeneration of energy. [12637]

**Yvette Cooper:** The Building Regulations set levels of required energy performance rather than prescribing solutions. This approach offers designers the flexibility to choose solutions that best meet their needs, that are cost-effective and practical, and that enable innovation. It would not therefore be appropriate to prescribe particular microgeneration technologies.

### Pensions

**Mr. McGovern:** To ask the Deputy Prime Minister what the terms of reference are for the tri-partite commission discussing changes to public sector pensions. [13507]

**Mr. Woolas:** The terms of reference for the tri-partite committee have been published on the local Government pension scheme website and can be found at www.xoq83.dial.pipex.com.

### Sustainable Communities

**Mr. Hollobone:** To ask the Deputy Prime Minister what assessment his Department has made of *(a)* the funding requirements of and *(b)* the sources of funding for the North Northamptonshire Together local delivery partnership; and what assessment he has made of the partnership's capacity to deliver the sustainable communities spatial strategy for North Northamptonshire. [13331]

**Yvette Cooper:** The draft business plan for North Northants Together indicates that an income of £1.473 million is needed to cover expenditure in the 2005–06 financial year. This total includes in kind contributions from partners. The sources of funding are the Office of the Deputy Prime Minister (£500,000), the five relevant local authorities, emda, English Partnerships and Catalyst Corby. Details for future years are still under consideration. North Northants

Together has submitted a bid for funding from the Growth Area Fund for the years 2006–07 and 2007–08. A decision on the bid will be announced in due course.

North Northants Together was formally established in February 2005. Its draft business plan outlines how the partnership aims to deliver the sustainable communities spatial strategy for North Northamptonshire. It addresses the capacity of the delivery vehicle. The business plan will be an important reference point for future decisions on funding and for reviewing performance.

### Taxis

**David T.C. Davies:** To ask the Deputy Prime Minister how much the Department has spent on taxis in each of the last five years. [6492]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created following Machinery of Government changes on 29 May 2002. Expenditure on taxi hire in the three financial years completed since then is as follows.

| | £ |
|---|---|
| 2002–03 | 92,395 |
| 2003–04 | 138,465 |
| 2004–05 | 145,186; |

There is also a contract in place at Ashdown House Hastings whereby officials order taxis for local use and the bill is repaid centrally. This contract is managed by the Department for Transport on behalf of both Departments, but prior to the current financial year DfT did not recharge the Office of the Deputy Prime Minister for its expenditure. It is thus not possible to provide precise figures for ODPM's expenditure on the contract in the three years above, but based pro-rata on the spend in this financial year, the figures are likely to be between £1,000 and £2,000 a year.

### Unitary Local Government

**Mrs. Spelman:** To ask the Deputy Prime Minister what expenditure the Government have undertaken relating to unitary local government since the north east regional referendum. [13106]

**Mr. Woolas:** No expenditure has been undertaken relating to unitary local government since the north east regional referendum other than some portion, not separately identified, of the Office of the Deputy Prime Minister's administration costs relating to a small team whose responsibilities include dealing with questions about local governance and structures.

## TRANSPORT

### A14 (Blackbridge)

**Mr. Hollobone:** To ask the Secretary of State for Transport when the proposed new Blackbridge bridge over the A14 between Cranford and Burton Latimer for pedestrians, cycles and horses will be constructed. [13330]

**Dr. Ladyman:** Subject to available funding, work on the new bridge should start in November 2005. It will take approximately 12 weeks to complete.

### Road Hauliers (Costs)

**Alan Simpson:** To ask the Secretary of State for Transport if he will take steps to increase the costs to road hauliers to cover the full social and environmental costs, including greenhouse gas emissions, air pollution, noise, congestion, accidents and deaths, of transporting freight by road. [12817]

**John Healey:** I have been asked to reply.

Decisions on taxation are taken by the Chancellor on a Budget-by-Budget basis, taking account of all the relevant social, economic and environmental factors.

In addition to this, as the Secretary of State for Transport announced on 5 July 2005, *Official Report*, column 173, the Government are looking into how all lorries can contribute to the costs that they impose on UK roads as part of a wider national road pricing scheme.

### South Hampshire Rapid Transit Scheme

**Peter Viggers:** To ask the Secretary of State for Transport whether a decision on the funding of the South Hampshire Rapid Transit Scheme phase 1 will be announced before Parliament adjourns for the summer recess. [13042]

**Derek Twigg** *[holding answer 18 July 2005]:* I will announce a decision in due course.

## FOREIGN AND COMMONWEALTH OFFICE

### Drugs (Afghanistan)

11. **Andrew Selous:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the supply of illegal drugs from Afghanistan to the UK. [12888]

**Ian Pearson:** Support for Afghan action to tackle the production and supply of heroin remains a top priority for HMG. We are committed to working with Afghanistan for the long-term. We are spending around £176 million over 2003–06 for this purpose. As lead nation, the UK is helping the Government of Afghanistan to deliver their National Drug Control Strategy. We work closely with international partners and with Afghanistan's neighbours on this.

### Israel

12. **Mr. MacDougall:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of progress made by Israel with its disengagement plan. [12889]

**Mr. Straw:** Disengagement is a real opportunity for progress in resolving the Middle East conflict. Israel has begun the preparatory phase and, crucially, there is now some co-operation between the two sides. We are working with both sides to support this activity. The G8 Summit this July agreed to support a three year $3 billion per annum package of assistance for Gaza.

### Iraq

13. **Adam Price:** To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence he has received of human rights abuses by members of the Iraqi security services. [12891]

**Ian Pearson:** I have seen the Human Rights Watch Report dated 25 January this year and we are aware of allegations of abuse by members of the Iraqi security forces and people wearing police uniform as well as recent press reports. We condemn all abuse and have raised our concerns with the Iraqi authorities at the highest levels. They have told us they take these allegations very seriously and that they will investigate them.

20. **Siobhain McDonagh:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Iraqi Government on the development of trade unions in Iraq. [12899]

**Mr. Straw:** The Government attach great importance to developing trade unions and civil society in Iraq. We welcomed the provision in the Transitional Administrative Law giving Iraqis the right to join a trade union. Trade unions can make a positive contribution to the development of a stable, democratic and open society in Iraq and to the modernisation of the Iraqi economy. The Prime Minister and the FCO Minister of State met a delegation of Iraqi trade unionists on 28/29 June and reaffirmed the Government's support for the development of trade unions in Iraq .

### Lebanon

14. **Huw Irranca-Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to disarm Hezbollah forces in southern Lebanon in compliance with Security Council resolution 1559. [12892]

**Mr. Straw:** We support full implementation of UN Security Council resolution 1559, including the disarmament of Hezbollah, and will work with the new Lebanese Government in its efforts to deliver the political, economic and security sector reforms that will be necessary to resolve this complex task. Yesterday, the EU external relations council was briefed at my invitation, by Terje Roed-Larsen, the UN Special Envoy for the implementation of UN Security Council Resolution 1559.

### EU Budget

15. **Jeff Ennis:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his EU counterparts on capping the EU budget. [12893]

**Mr. Douglas Alexander:** The Government has regular contacts with all our EU partners. We have, as presidency, started a process of consultation with other member states, with a view to making progress in the negotiations to set the EU budget from 2007 to 2013.

The UK remains convinced that a budget worth no more than 1 per cent. of EU GNI is sufficient to meet the needs and priorities of the enlarged Union.

### Zimbabwe

16. **Mr. Mackay:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's relations with Zimbabwe. [12894]

**Mr. Straw:** It is not least because of our long standing ties with Zimbabwe that the pain of its people for the misgovernment it has suffered is so keenly felt in the United Kingdom, including in this House. Since September 2001, the UK has provided over £71 million of humanitarian assistance; and has worked successfully to see the suspension of Zimbabwe from the Commonwealth and the imposition of EU sanctions.

My right hon. Friend the Secretary of State for International Development and I spoke to the UN Secretary General, Kofi Annan about Zimbabwe on 6 July. We shall consider what further action is needed once the report of the Secretary General's Special Envoy, Anna Tibaijuka, is published.

**Mr. Andrew Turner:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the African Union on the promotion of good governance in Zimbabwe. [12890]

**Ian Pearson:** My noble Friend the Minister for Africa (the Lord Triesman of Tottenham), and my right hon. Friend the Secretary of State for International Development (Hilary Benn) attended the African Union Summit in Sirte on 4/5 July. They made our views clear to African leaders there. I am encouraged by the response of Presidents Mbeki and Obasanjo to engage Zimbabwe on the political and economic crisis in that country. I also welcome the initiative of chairman of the African Union to send an Envoy, even though the Government of Zimbabwe has so far blocked his mission. African leaders have a crucial role to play in ending the Zimbabwe crisis, and we will continue to urge them to do so in support of their responsibilities toward fellow Africans.

### UK Visas

17. **Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to streamline procedures for individuals from Commonwealth countries applying for visas to the UK. [12895]

**Ian Pearson:** We are delivering both good services to customers and tight immigration control. We are making the visa application process faster, including through convenient regional application centres, only interviewing where necessary, improved staff training and more resources. We have introduced risk assessment units in high risk posts and plan more. All overseas visa applicants are subject to certain security checks.

### Uganda

18. **Paul Rowen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the security situation in northern Uganda. [12896]

**Ian Pearson:** The security situation has deteriorated since the expiry of the cease-fire in February and the onset of the rainy season. The Lord's Resistance Army continue to attack and loot for food and supplies.

We support those working to end this conflict. My right hon. Friend the Secretary of State for International Development and the noble Lord Triesman of Tottenham discussed this with President Museveni on 4 July.

### Iran

19. **Mr. Crispin Blunt:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the UK's relations with Iran, with particular reference to Iran's continued possession of Royal Naval vessels. [12898]

**Mr. Straw:** We have serious concerns about Iranian policies in a number of areas. These include Iran's nuclear and ballistic missile programmes and its approach to human rights, Iraq, terrorism and the middle east peace process. We aim to encourage progress through a policy of critical and conditional engagement.

We continue to press for the return of the Royal Navy boats held by the Iranian authorities since June 2004.

### Darfur

21. **Mr. Evennett:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK support for the African Union mission in Darfur. [12900]

**Ian Pearson:** My right hon. Friend the Secretary of State for International Development announced on 13 June 2005 an increase in the UK contribution to the AU to £19 million. This brings our total contribution to the African Union mission in Sudan since its inception to almost £32 million. The UK fully supports the work of the African Union in Darfur, where it is having a significant effect.

22. **Tony Baldry:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Darfur. [12901]

**Ian Pearson:** I refer the right hon. Gentleman to the answer I gave to the hon. Member for Guildford earlier today (UIN 12881).

### India

23. **Peter Luff:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the appropriateness of travel advisory notices for UK travellers to India. [12902]

**Ian Pearson:** Foreign and Commonwealth Office travel advice, including for India, is designed to help British travellers to make informed decisions about travelling abroad and to avoid trouble, by providing relevant information. Travel advice for India is kept under constant review, and is amended when considered necessary.

### British Mercenaries

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will introduce legislation to control the operations of British mercenaries abroad; and if he will make a statement. [12973]

**Mr. Straw** *[holding answer 18 July 2005]:* The issue of regulation of the overseas activities of UK private military and security companies was considered in the Government's Green Paper 'Private Military Companies', published on 12 February 2002. Last autumn I instituted a further detailed review of options for regulation, including legislation. The review is now complete and is being considered by Ministers. The Government will keep Parliament fully informed of its decisions in this area.

### Bulgaria

**Mrs. Ellman:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 11 July 2005, *Official Report*, column 663W, on Bulgaria (EU accession), what elements Bulgaria needs to implement in relation to justice. [12446]

**Mr. Douglas Alexander** *[holding answer 18 July 2005]:* The European Commission wrote to the Bulgarian Government at the start of June 2005. It noted that Bulgaria still needs to implement reforms in its judicial system:

"in particular to ensure the efficiency and transparency in the pre-trial phase as regards the Criminal Procedure Code and other related laws including the Judicial System Act, the Criminal Code and the Ministry of Interior Act".

### China

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what initiatives the UK Government will be taking during the course of its presidency of the European Union *(a)* to promote negotiations between China and representatives of the Dalai Lama over the future of Tibet, and *(b)* to address concerns about human rights abuses in Tibet and China. [13164]

**Ian Pearson:** We will continue to monitor developments in Tibet closely and will continue to regularly raise Tibet issues with the Chinese Government. This year my right hon. Friend the Foreign Secretary, my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Lord Triesman of Tottenham) and I have all raised Tibetan issues with Chinese interlocutors. We have made clear to the Chinese authorities that a long-term, legitimate and peaceful solution to the Tibet issue can be found only through dialogue and we will continue to urge them to engage productively with the Dalai Lama and his representatives. The EU has, under the UK presidency, issued a statement on 6 July welcoming the fourth round of dialogue.

### Embassies

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs which embassies *(a)* have been closed over the past five years and *(b)* are planned to be closed over the next two years; and what the value of ground sales of embassies over the last five years was. [13339]

**Mr. Straw:** The British embassies in Bamako, Managua, San Salvador, Tegucigalpa and Asuncion have been closed in the last five years. It is intended to close the embassies in Antananarivo and Dili in the next two years.

The embassy offices in Bamako, Managua and Tegucigalpa were leased. The gross proceeds from the sale of the El Salvador office were £940,000. The sale of the Asuncion Office is not due to be completed until autumn 2005.

### Equatorial Guinea

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will list the major UK commercial interests in Equatorial Guinea; [12168]

(2) what assessment he has made of the levels sectors of UK investment in Equatorial Guinea; and in which sectors such investment has been made. [12172]

**Ian Pearson:** The UK has limited commercial interests in Equatorial Guinea. Most UK companies working there are sub-contractors operating in the oil and gas sector. UK Trade and Investment has not made any detailed assessment of the levels of UK investment.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* embassy and *(b)* consulate arrangements are in place to represent UK interests in Equatorial Guinea. [12972]

**Ian Pearson** *[holding answer 18 July 2005]:* The UK does not have representation in Equatorial Guinea. We are officially represented by the non-resident Ambassador based in Yaounde, Cameroon.

We are in the process of recruiting a new Honorary Consul in Malabo. Consular duties are currently being covered by our High Commission in Yaounde.

A United Kingdom Trade and Investment consultant, on a short term contract, represents British commercial interests in Equatorial Guinea.

### Eritrea

**Mr. McGovern:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Eritrea regarding the cases of trade unionists Tewelde Ghebremedhin, Minase Andezion and Habtom Weldemicael. [13506]

**Ian Pearson:** Our ambassador in Asmara has discussed this case with EU partners. The previous local EU presidency in turn raised it with a senior official of the Government. We understand that Tewelde Ghebremedhin, Minase Andezion and Habtom Weldemicael may face criminal charges. However, we and our EU partners continue to monitor this case closely and will raise it again with the Government if necessary.

### EU Committee of the Regions

**Mrs. Spelman:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much the UK contributed *(a)* directly and *(b)* indirectly to the costs of the EU's Committee of the Regions in the last period for which figures are available. [11959]

**Mr. Douglas Alexander:** The UK makes its contributions to the EC Budget as a whole, and not to individual parts of it. This year's member state financing of the 2005 Adopted EC budget amounts to €105 billion, of which the UK share, after taking account of the abatement, will be 13.05 per cent. The EC's estimate for Committee of the Regions expenditure in 2005 is €60,277,251.

### Guantanamo Bay

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he responded to the letter from Clive Stafford Smith dated 28 June, regarding British residents in Guantanamo; and if he will place a copy of his response in the Library. [11271]

**Ian Pearson:** My hon. Friend the Minister of State (Dr. Howells) replied to Mr. Stafford Smith's letter of 28 June on 7 July. A copy of this response has been placed in the Library of the House.

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he responded to the letter from Clive Stafford Smith dated 15 February, regarding Omar Deghayes; and if he will place a copy of his response in the Library. [11272]

**Ian Pearson:** My right hon. and noble Friend the former Foreign and Commonwealth Office Minister of State (Baroness Symons of Vernham Dean) replied to Mr. Stafford Smith's letter of 15 February on 28 February. A copy of the reply has been placed in the Library of the House.

### High Commissions

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs which high commissions *(a)* have been (i) closed and (ii) merged over the past five years and *(b)* are planned to be closed over the next two years; and what the value of ground sales of high commissions over the last five years was. [13338]

**Mr. Straw:** The British High Commission in Nassau is the only High Commission to have been closed in the last five years. It is planned to close the High Commissions in Port Vila, Nuku'Alofa, Tarawa, Mbabane and Maseru in the next two years.

The High Commission in Nassau was leased.

### Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13623]

**Mr. Straw:** No central record is kept of the benefits that have arisen from implementing the recommendations of management consultancies. The information requested could be provided only at disproportionate cost.

### Nigeria

**Mr. Lancaster:** To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in reducing external support for militants in Nigeria. [12915]

**Ian Pearson:** We are concerned at the level of criminal activity and instability in the oil-rich Niger Delta region, in particular the supply of small arms to the area, and the ethno-religious instability in the Middle Belt. My hon. Friend the then Parliamentary Under-secretary of State at the Foreign and Commonwealth Office (Mr. Mullin), raised the issue of the high levels of criminality in the Niger Delta with the Rivers State Governor during his visit in February 2005. We are also looking at ways we can assist the Nigerian Government on small arms control.

## CULTURE, MEDIA AND SPORT

### Antisocial Behaviour

**Dr. Kumar:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the role of sport and recreational activities in tackling antisocial behaviour; and if she will make a statement. [12550]

**Mr. Caborn:** Research commissioned by the Home Office and undertaken by MORI of the national Positive Futures programme, which aims to tackle antisocial behaviour through sport, found that 72 per cent. of respondents surveyed in 2004 felt that the programme had made a positive difference to the local community in crime, drug use and antisocial behaviour. The figure increased to 76 per cent. in 2005.

Furthermore, since 2004, approximately 136,500 young people most at risk of social exclusion or antisocial behaviour have taken part in the Positive Activities for Young People (PAYP) programme which also uses sport as a diversionary activity.

### Big Lottery Fund

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what discussions she had with the Chancellor of the Exchequer on plans to establish the Big Lottery Fund. [13251]

**Mr. Caborn:** Plans to establish the Big Lottery Fund were agreed within Government. However, neither my right hon. Friend the Secretary of State nor I have had any specific discussions with the Chancellor of the Exchequer on this matter.

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what her Department's projections are for the balances held by the Big Lottery Fund. [13253]

**Mr. Caborn:** The Department issues projections for income from the lottery as a whole. It does not produce estimates of individual distributors' income or balances. However, data recently submitted by the Big Lottery Fund suggests that its balance will fall from its June 30 level of £851 million to £678 million by the end of this financial year.

### Buckmore Park Scout Centre

**Jonathan Shaw:** To ask the Secretary of State for Culture, Media and Sport if she will direct Sport England to recover £2 million of lottery funding given to Buckmore Park Scout Centre now that it is in the ownership of the Rochester Bridge Trust. [12653]

**Mr. Caborn** *[holding answer 18 July 2005]*: Sport England understands that the land on which Buckmore Park Scout Centre stands is no longer in the ownership of the Rochester Bridge Trust.

Sport England is closely working with the liquidators appointed for Buckmore Park Centre and my Department's legal advisers to ascertain what, if any, monies are recoverable. To this end, Sport England is facilitating a meeting between the new freeholder and an interested leisure operator to discuss future options for the facility and the potential for the recovery of lottery funding and community use.

### Commonwealth Games

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the role Chorley played in the Manchester Commonwealth games. [12239]

**Mr. Caborn:** In addition to the Queen's Jubilee Baton Relay passing through Chorley in advance of the Manchester Commonwealth games, I am also aware that the sporting facilities in and the residents of Chorley made a significant contribution these games.

Rivington Park successfully hosted the outdoor cycling events, including the mountain bike events, the road races and the road time trials. The role of volunteers in the staging of events of this size cannot be overlooked and I am aware of the numbers of volunteers from Chorley who gave up their time to help in the staging of this event. These were key contributors to the successful staging of this significant sporting event.

### Community Coaches

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport how many community coaches she intends to fund in Oxfordshire. [12406]

**Mr. Caborn** *[holding answer 18 July 2005]:* Four community sports coaches are currently in place in Oxfordshire and funding has been agreed and allocated for a further 21 coaches. These coaches will be recruited by the end of the summer.

### Community Lottery Fund

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what steps she has taken to ensure that charitable funding is not disrupted following the closure of the Community Lottery Fund and related programmes. [13254]

**Mr. Caborn:** This is a matter for the Big Lottery Fund. They are conscious of the need to avoid disruption and are committed to introducing new demand led funding

programmes at the earliest opportunity. The fund are also ensuring that 60–70 per cent. of their funding goes to voluntary and community sector organisations.

### Community Radio

**Anne Milton:** To ask the Secretary of State for Culture, Media and Sport (1) what process Ofcom follows for considering bids for community radio licences; [12841]

(2) what applications Ofcom has received for community radio licences in the Guildford area; what the process is for the consideration of those applications; and if she will make a statement. [12842]

**James Purnell:** The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the chief executive of Ofcom to respond directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

### Gambling Act

**Mr. Crabb:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to protect young people from addictive gambling; and if she will make a statement. [12433]

**Mr. Caborn:** The Gambling Act 2005 includes important new safeguards to protect children and vulnerable adults, and we will bring it into force as soon as the necessary preparatory and transitional measures have been taken.

**Anne Milton:** To ask the Secretary of State for Culture, Media and Sport what the timetable is for *(a)* the implementation of the Gambling Act 2005, *(b)* the passage of secondary legislation under the Act and *(c)* the publication of guidance for local authorities. [12837]

**Mr. Caborn:** We plan to commence the provisions of the Act establishing the Gambling Commission with effect from October, and to make the subordinate legislation required to implement the Act over the following 20 months in order to complete the process of implementation in September 2007.

It will be the responsibility of the Gambling Commission to issue guidance to licensing authorities; and current plans envisage that it will do so from May 2006, having previously consulted on the terms of that guidance.

### Licensing Act

**Anne Milton:** To ask the Secretary of State for Culture, Media and Sport when the needs test that magistrates considered for new licensed premises was abolished; and if she will make a statement. [12838]

**James Purnell:** The new regime introduced by the Licensing Act 2003 makes no provision for licensing authorities to take need, or the means of applicants, into account in their decisions. The new regime is designed to advance the licensing objectives of ensuring public safety, preventing crime and disorder, preventing public nuisance, and protecting children from harm. To those ends, the 2003 Act allows licensing authorities to take full account of the possible effects of the concentration of licensed premises on levels of crime and disorder. This is a separate matter to need or means, the consideration of which is allowed under the current licensing regime.

Under the provisions of the Licensing Act 1964, licensing justices can consider need or means, along with other matters at their discretion, in dealing with licence applications. The consideration of means in such decisions was reviewed by the Departmental Committee on Liquor Licensing, under the chairmanship of Lord Erroll of Hale. The Committee concluded in December 1972 that, in the special context of liquor licensing law, the application of the test of need to new applications for justices' on-licences was out of date and unnecessary.

That conclusion informed subsequent guidance, including the last Good Practice Guide to licensing committees published under the old licensing regime. This was produced by the Justices' Clerks' Society in consultation with the Magistrates' Association, and stated that

> "when considering the question of need/demand, committees do not attach much, if any, weight to the threat from competition and should not consider trade protection as a matter which is relevant when exercising their discretion."

However, different licensing committees continue to be inconsistent in their applications of tests of need. In this and other areas, the 2003 Act will bring greater consistency to licensing decisions.

**Jenny Willott:** To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of premises in Wales licensed under *(a)* the Licensing Act 1964 and *(b)* the Local Government (Miscellaneous Provisions) Act 1982 which fall into each of the rateable value bands for licence fees under the Licensing Act 2003 (Fees) Regulations; how many in each category will be required to pay the fee multiplier; and if she will make a statement. [12539]

**Mr. Roger Williams:** To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of premises in Cardiff Central licensed under *(a)* the Licensing Act 1964 and *(b)* the Local Government (Miscellaneous Provisions) Act 1982 which fall into each of the rateable value bands for licence fees under the Licensing Act (Fees) Regulations; how many in each category will be required to pay the fee multiplier; and if she will make a statement. [13229]

**James Purnell:** As at 30 June 2004 there were, under the Licensing Act 1964, 10,909 on-and off-licensed premises, and 1,442 registered clubs in Wales. On this date there were 1,117 on- and off-licensed premises, and 68 registered clubs in the Cardiff petty session division.

DCMS deposited the source publication for these figures "Statistical Bulletin Liquor Licensing (England and Wales, July 2003-June 2004)" on 27 October 2004 in the House Libraries. This document is available on the DCMS website at: http://www.culture.gov.uk/global/research/statistics_outputs/liquor_licensing_statistics.htm

Figures for the numbers of premises licensed under the Local Government (Miscellaneous Provisions) Act 1982 are not collected centrally. However, surveys

suggest that approximately 46,000 public entertainment licences are issued in England and Wales annually. Such licences would include those issued under the London Government Act 1963 as well as those under the Local Government (Miscellaneous Provisions) Act 1982.

No estimates have been made centrally about the numbers of licensed premises in Wales or in Cardiff Central that fall into each of the fee bands, or how many in these areas will be required to pay the fee multipliers. It is likely that individual licensing authorities have estimates for these figures. However, the Regulatory Impact Assessment in respect of the fees regulations estimated the spectrum of premises lying in each band as a percentage of the total, as follows:

| *Rateable value bands* | *Non-domestic rateable value* | *Percentage of premises in band* |
|---|---|---|
| A | £0-£4,300 | 19 |
| B | £4,301-£33,000 | 60 |
| C | £33,001-£87,000 | 13 |
| D | £87,001-£125,000 | 3 |
| E | £125,001 and over | 5 |

It also estimated that approximately 2,000–4,000 premises falling in Bands D and E across England and Wales would meet the definition of being primarily or exclusively engaged in the sale of alcohol for consumption on the premises, meaning that they would be required to pay the fee multipliers.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Secretary of State for Culture, Media and Sport which five management consultancies received the highest value of contracts awarded by her Department in each of the last three years; and what the total value was of the contracts awarded to each. [12579]

**Mr. Caborn:** The total value of contacts awarded to the five relevant management consultancies in the last three years, is as follows:

| | £ |
|---|---|
| *2002-03* | |
| Hay Group | 136,195 |
| Stanton Harris | 85,00 |
| PricewaterhouseCoopers | 81,750 |
| Atkins Management Consultants | 44,965 |
| Experian | 42,400 |
| *2003-04* | |
| Spectrum Strategy Consultants | 205,000 |
| ASK Europe Plc. | 130,070 |
| Philip Graf | 80,000 |
| Europe Economics | 47,000 |
| BMRB | 43,267 |
| *2004-05* | |
| PricewaterhouseCoopers | 275,497 |
| PA Consulting | 151,410 |
| Patrick Barwise | 96,000 |
| PKF | 85,568 |
| Shared Intelligence | 61,300 |

### National Lottery

**Mr. Lidington:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the Government's policy on allowing rival lottery operators to compete for sales with the national lottery. [12442]

**Mr. Caborn:** It remains the Government's policy that, in the interests of maximising income for good causes, the national lottery should be protected from competition from other lotteries through limits on their sales and prizes. Those limits are subject to periodic review.

**Mr. Hepburn:** To ask the Secretary of State for Culture, Media and Sport what the highest individual payment awarded from the lottery in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK has been in each year since 1997; and which project or organisations was awarded the payment in each case. [12923]

**Mr. Caborn:** The table shows the highest award made in each of the areas specified.

The table is derived from the Department's lottery award database, searchable at www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

| | *Distributing body* | *Amount (£)* |
|---|---|---|
| *Jarrow* | | |
| 1997 | Heritage Lottery Fund | 3,000,000 |
| 1998 | Heritage Lottery Fund | 115,300 |
| 1999 | Community Fund | 5,000 |
| 2000 | Community Fund | 88,413 |
| 2001 | Sport England | 287,328 |
| 2002 | Community Fund | 179,026 |
| 2003 | Community Fund | 148,731 |
| 2004 | New Opportunities Fund | 804,477 |
| 2005 | Awards For All (England) Joint Scheme | 5,000 |
| *South Tyneside* | | |
| 1997 | Heritage Lottery Fund | 3,000,000 |
| 1998 | Heritage Lottery Fund | 241,800 |
| 1999 | New Opportunities Fund | 3,031,000 |
| 2000 | Community Fund | 325,500 |
| 2001 | Heritage Lottery Fund | 866,500 |
| 2002 | New Opportunities Fund | 997,901 |
| 2003 | Community Fund | 191,442 |
| 2004 | New Opportunities Fund | 2,409,500 |
| 2005 | Home Front Recall | 7,868 |
| *North East* | | |
| 1997 | Arts Council England | 6,947,000 |
| 1998 | Heritage Lottery Fund | 6,949,000 |
| 1999 | North East | 47,308,500 |
| 2000 | Heritage Lottery Fund | 5,047,000 |
| 2001 | Heritage Lottery Fund | 4,140,000 |
| 2002 | Heritage Lottery Fund | 10,258,750 |
| 2003 | Heritage Lottery Fund | 10,000,000 |
| 2004 | Millennium Commission | 2,750,000 |
| 2005 | Community Fund | 300,000 |
| *UK* | | |
| 1997 | Millennium Commission | 604,000,000 |
| 1998 | Heritage Lottery Fund | 30,939,800 |
| 1999 | Sport England | 120,000,000 |
| 2000 | Sport England | 92,000,000 |
| 2001 | Heritage Lottery Fund | 20,500,000 |
| 2002 | Millennium Commission | 100,000,000 |
| 2003 | New Opportunities Fund | 38,650,000 |
| 2004 | Sport England | 21,320,000 |
| 2005 | Heritage Lottery Fund | 20,000,000 |

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what her Department's definition is of the principle of additionality in relation to the use of lottery good cause funding. [13250]

**Mr. Caborn:** It is set out in our July 2003 policy statement:

"Lottery funding will not be allowed to become a substitute for funding that would normally fall to mainstream Government spending."

As the statement made clear, the same basic principle has been expressed in slightly different ways in the past by successive Governments.

### Olympics 2012

**Mr. Crabb:** To ask the Secretary of State for Culture, Media and Sport (1) who will operate the new Olympic scratchcard game; and when contracts will be awarded; [12418]

(2) whether the new Olympics scratchcard game will be operated on a not-for-profit basis. [12752]

**Mr. Caborn:** The scratchcard will be operated as part of the national lottery by Camelot, whose licence to run the lottery was awarded in 2002. In accordance with that licence Camelot is entitled to a profit for effective performance.

**Mr. Crabb:** To ask the Secretary of State for Culture, Media and Sport when the new Olympic scratchcard game is expected to be on sale. [12419]

**Mr. Caborn:** The scratchcard will be available shortly, subject to regulatory approval by the National Lottery Commission.

**Mr. Crabb:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the likely effect on household spending on gambling of the introduction of the new Olympics scratchcard game. [12759]

**Mr. Caborn:** We do not think that the scratchcard will have any significant impact on overall household spending.

**Dr. Cable:** To ask the Secretary of State for Culture, Media and Sport when the Government plan to publish costings and funding arrangements between her Department, the Treasury and the London Mayor for the Olympic Games; and in what form she expects them to be published. [12367]

**Tessa Jowell** *[holding answer 18 July 2005]:* The funding arrangements for the Olympic and Paralympic Games in 2012 agreed between the Government and the Mayor of London are set out in the Memorandum of Understanding attached to Command Paper 5867, dated June 2003. Costings for the Games were contained in the Candidature File submitted to the International Olympic Commission in November 2004, copies of which were placed in the Library of the House.

**Daniel Kawczynski:** To ask the Secretary of State for Culture, Media and Sport what role is planned for Shropshire in the London Olympics 2012. [11872]

**Tessa Jowell:** I am determined that the whole of the United Kingdom benefits from the Olympic games in 2012.

As we set out to the International Olympic Committee, we expect the 2012 Olympic games and paralympic games to be an inspiration to our children and young people, to get involved in sporting activity and engage with the UK wide cultural festival and education programme.

The games will also deliver significant economic benefits. The games will attract investment, offer UK companies the opportunity to compete for billions of pounds worth of contracts, offer each nation and region the opportunity to bid for preparation camps and provide a welcome boost to the UK tourism industry.

I am aware that Lilleshall, as part of the English Institute of Sport, is already providing world class facilities and services to a number of elite athletes and aspiring athletes, particularly the sport of gymnastics, to enable them to compete and deliver success at the highest level.

I also had the pleasure of visiting Much Wenlock, the inspiration for the modern Olympic movement, recently. I am aware of their proud involvement with the Olympic games and I am sure they will want to be involved as our plans for 2012 are developed.

**Dr. Cable:** To ask the Secretary of State for Culture, Media and Sport what mechanisms are being put in place to ensure that there are no cost overruns in the London Olympics. [11893]

**Tessa Jowell** *[holding answer 13 July 2005]:* London's bid underwent rigorous assessment by the International Olympic Committee, Treasury and the Office of Government Commerce. The Government remains committed to ensuring the 2012 games are delivered on time and on budget.

The London Olympics Bill, now before the House, proposes an Olympic delivery authority (ODA) to co-ordinate all aspects of Olympic infrastructure and transport planning. The ODA will work closely with the London Organising Committee to ensure delivery of the project to time and to budget, and their progress will be overseen by the Olympic stakeholders: myself, the Major and the chair of the British Olympic Association.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will consider Chorley for a cycle training camp for the 2012 Olympics. [12238]

**Mr. Caborn:** I am aware that Rivington park played a key role in the delivery of the 2002 Commonwealth games, hosting the outdoor cycling events, including the mountain bike events, the road races and the road time trials.

Decisions on the location of training camps will be taken by National Olympic Committees choosing to hold them. As far as I am aware, no decisions have yet been taken about the location of training camps for the 2012 Olympics.

### Radio Broadcasting

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport whether Ofcom briefs her Department on *(a)* new and *(b)* existing commercial radio stations. [13568]

**James Purnell:** Ofcom are an independent regulator with responsibility for the planning, licensing and regulation of commercial radio. They have no specific duty to brief the Department for Culture, Media and

Sport on new or existing commercial radio services, but keep my Department informed of developments through regular contacts.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport when she last met Ofcom to discuss radio broadcasting. [13024]

**James Purnell:** My right hon. Friend the Secretary of State for Culture, Media and Sport met the chief executive and senior officials of the Office of Communications (Ofcom) on 6 April. They discussed various broadcasting issues, including radio.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on *(a)* the regulation and licensing of commercial radio and *(b)* the prospects for growth in the sector. [13025]

**James Purnell:** The regulation and licensing of commercial radio are a matter for Ofcom, acting within the framework we established in the Communications Act 2003.

As Ofcom indicated in their report, "Radio—Preparing for the future—Phase 1" they foresee opportunities for future growth especially through the increasing take-up of digital radio.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many radio licences are expected to be granted in 2005; and whether a licence is expected to be granted for Chorley. [13430]

**James Purnell:** The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the chief executive of Ofcom to respond directly to my hon. Friend. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many current commercial radio licences there are. [13610]

**James Purnell:** There are currently three national and 272 local commercial analogue radio licences. In addition, one national digital multiplex, carrying eight services, and 46 local multiplexes, carrying 196 services, have been licensed.

## Regional Casinos

**Anne Milton:** To ask the Secretary of State for Culture, Media and Sport what plans the Government have to increase the number of regional casino licences from the present cap of one; and if she will make a statement [12840]

**Mr. Caborn:** The Gambling Act 2005 provides that no more than one casino premises licence may have effect at any time in respect of regional casinos, and we are proceeding with plans for the implementation of the Act on that basis.

## Rugby

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport when *(a)* she and *(b)* Ministers in her Department last attended a (i) rugby union and (ii) rugby league match in an official capacity. [12265]

**Mr. Caborn:** In my capacity as Minister for Sport, I last attended a rugby union match on 27 November 2004 (England v Australia). However, I intend to attend the Powergen challenge cup final on 27 August 2005, and the rugby super league grand final on 15 October 2005.

My right hon. Friend the Secretary of State last attended a rugby union match on 6 March 2004.

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what *(a)* assistance and *(b)* funding her Department provided to rugby league in 2004–05. [12264]

**Mr. Caborn:** One of Sport England's 10 priority sports, the success of rugby league in achieving modernisation and participation targets was a major factor behind the decision (announced February 2005) to allocate the sport £11.5 million in funding spread over the next four years.

Although funding has been essential for achieving the sport's aims, Sport England has also worked with the Rugby Football League (RFL) the national governing body, in a consultative capacity, helping to develop business plans and to streamline and modernise its internal structure. The latest phase of cooperation between the RFL and Sport England has seen an increased focus on the autonomy of the governing body in defining and delivering its own objectives whilst maintaining the high level of support and advice offered by Sport England.

For the financial year 2004–05, rugby league received a total of approximately £3,323,000 in funding through Sport England. Of this, £465,000 was provided by the Exchequer and approximately £2,858,000 was lottery funding. A full breakdown is provided in the following table. It should be noted that with the exception of those programmes marked[1], funding was administered via the RFL.

| *Programme* | *Amount received (£)* | *Source of funding* |
|---|---|---|
| Development Funding | 320,000 | Exchequer |
| DCMS Volunteer Programme—Step Into Sport | 50,000 | Exchequer |
| PESSCL Club Links | 40,000 | Exchequer |
| UK Coaching Certificate | 55,000 | Exchequer |
| World Class Programme | 1,500,000 | Lottery |
| Interim Funding for Whole Sport Plan | 410,000 | Lottery |
| County Sports Partnerships funding[1] | 293,000 | Lottery |
| Community grants funding[1] | 655,000 (approx) | Lottery |

*Notes:*

1. Total exchequer funding—£465,000.
2. Total lottery funding—£2,858,000 (approx).
3. Overall total funding—£3,323,000 (approx).

## Swimming Pools

**Sarah Teather:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* privately operated and *(b)* publicly operated swimming pools have been closed or taken out of use in each London borough in each year since 1997. [12256]

**Mr. Caborn:** Eight swimming pools have closed or been taken out of use in the following London boroughs since 1997:

| *London Borough* | *Swimming pool* |
|---|---|
| Brent | Willesden Pool |
| Camden | Swiss Cottage Baths[1] |
| Hackney | Haggerston Baths |
| | Clissold Leisure Centre |
| Hammersmith and Fulham | Janet Adegoke Pool[2] |
| Harrow | Wealdstone Open Air Baths |
| Hillingdon | Uxbridge Lido |
| Westminster | Marshall Street Baths |

[1] Currently being refurbished and due to re-open by December 2005.
[2] Currently being refurbished and due to re-open by December 2005.

We do not hold details of the public or private ownership status of these swimming pools.

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport (1) pursuant to the answer of 13 June 2005, *Official Report*, column 66W, on swimming pools (parental supervision), when she expects to announce the series of measures agreed at the meeting on 5 April about parental supervision of children in swimming pools; [5530]

(2) pursuant to the answer to question ref. 5530, when she expects to announce the measures agreed at the meeting on 5 April about parental supervision of children in swimming pools. [12713]

**Mr. Caborn:** My Department expects to announce this week the package of measures which has been agreed in responding to the issue of parental supervision of children in swimming pools.

### Talented Athlete Scholarship Scheme

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to promulgate the Talented Athlete Scholarship Scheme in Oxfordshire. [12404]

**Mr. Caborn** *[holding answer 18 July 2005]:* The Talented Athlete Scholarship Scheme (TASS) is run by SportEngland and delivered through educational institutions. Sporting services are provided to TASS athletes in the Oxfordshire region by Oxford and Oxford Brookes Universities.

Information regarding the programme is provided to educational institutions and current and potential TASS athletes through the TASS Operations Team, National Governing Bodies of Sport, SportsAid and University College Sport.

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport how many Talented Athlete Scholarship Scheme places have been awarded to 12 to 18-year-olds living in Oxfordshire. [12405]

**Mr. Caborn** *[holding answer 18 July 2005]:* The Talented Athlete Scholarship Scheme (TASS) provides sporting services to help young athletes fulfil their sporting potential. Awards are in the form of bursaries to 16 to 19-year-olds, scholarships to 18 to 25-years-old and 2012 scholarships aimed at 12 to 18-year-olds.

There are 27 athletes on the TASS programme that are from Oxfordshire or receiving sporting services in Oxfordshire. Five of these athletes are aged 12 to 18 of which four will be receiving a 2012 scholarship.

## NORTHERN IRELAND

### After-school Clubs

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what steps he is taking to increase the provision of after school clubs in Northern Ireland; and how much funding has been directed towards these in each of the last five years for which figures are available. [11347]

**Angela E. Smith:** There are no mainstream funds available to support an out of schools programme in Northern Ireland. However, the Department of Education is pursuing a number of developments along similar lines, such as Full Service (Extended) Schools, Education Action Zones and provision within the North and West Belfast area that will be supported through the Integrated Development Fund. All of these envisage schools as the learning hubs of their communities, supporting and encouraging provision throughout the extended school day.

I understand from the Big Lottery Fund that, since its launch in 1999, the New Opportunities out of school hours learning programme has committed over £8.3 million across Northern Ireland for study support activities held outside school hours. This was an open programme and there was no annual allocation.

Peace II payments to Playboard Projects under Priority 1 Measure 5 in each of the last five years are as follows:

| *Financial year* | *Amount paid (£)* |
|---|---|
| 2001–02 | 118,222 |
| 2002–03 | 675,512.23 |
| 2003–04 | 753,438.64 |
| 2004–05 | 1,115,236.15 |
| 2005–06 (to 7 July 2005) | 170,696.55 |
| Total | 2,833,105.57 |

### Alley Gating Schemes

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what funding has been allocated to alley gating schemes in Northern Ireland in each of the last five years. [12051]

**Mr. Hanson:** During 2004–05 the Government spent 50 per cent. of a £40,000 budget allocated to salary and administration costs associated with the implementation of a pilot alley gating project in Belfast. Prior to 2004–05 financial year a number of alley gates were installed as part of larger schemes and these costs are not available at this time.

The Northern Ireland Office's Community Safety Unit is currently working with Belfast Community Safety Partnership and a range of partners, including a

community organisation to implement a pilot alleygating project in five localities within Belfast. The Unit has allocated capital funding of £200,000 over the next two years to fund two out of a planned five locations as part of a pilot scheme. Belfast Community Safety Partnership has submitted a bid for the remaining three areas, which form the pilot project, and this is currently being considered by the Department for Social Development under the Neighbourhood Renewal Programme. A decision is awaited.

### Assets Recovery Agency

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many people from Northern Ireland have been investigated by the Asset Recovery Agency. [11713]

**Mr. Woodward:** To date the Assets Recovery Agency in Northern Ireland has actively investigated 37 people, and 14 are under assessment for investigation.

### Costello Report

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland if he will make it his policy to ensure that the implementation of the proposed entitlement curriculum will not require post-primary pupils to travel between different school sites. [12959]

**Angela E. Smith:** Each school will determine how best to provide their pupils with access to the full range of courses which will be required by the entitlement framework. The aim will be to keep pupil movement to a minimum by using a range of delivery mechanisms including teachers rather than pupils moving, distance learning and block timetabling.

### Crime (Elderly People)

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many crimes against the elderly there were in *(a)* urban and *(b)* rural areas in each of the last five years. [11775]

**Mr. Woodward:** The Police Service of Northern Ireland only record details of a victim's age in the three offences detailed in the following tables.

*Crimes recorded by the age of the victim*

*2000–01*

| | *Under 65* | *65 +* | *Age unknown* | *Total* |
|---|---|---|---|---|
| *Northern Ireland* | | | | |
| Offences against the person | 16,238 | 186 | 4,956 | 21,380 |
| Personal robbery | 500 | 60 | 103 | 663 |
| Domestic burglary | 4,708 | 1,278 | 2,389 | 8,375 |
| *Urban Region* | | | | |
| Offences against the person | 7,871 | 97 | 3,095 | 11,063 |
| Personal robbery | 363 | 25 | 79 | 467 |
| Domestic burglary | 2,668 | 618 | 1,489 | 4,775 |
| *Rural Region* | | | | |
| Offences against the person | 8,367 | 89 | 1,861 | 10,317 |
| Personal robbery | 137 | 35 | 24 | 196 |
| Domestic burglary | 2,040 | 660 | 900 | 3,600 |

*2001–02*

| | *Under 65* | *65 +* | *Age unknown* | *Total* |
|---|---|---|---|---|
| *Northern Ireland* | | | | |
| Offences against the person | 23,568 | 194 | 2,342 | 26,104 |
| Personal robbery | 699 | 101 | 18 | 818 |
| Domestic burglary | 6,309 | 1,727 | 1,028 | 9,064 |
| *Urban Region* | | | | |
| Offences against the person | 12,170 | 111 | 1,523 | 13,804 |
| Personal robbery | 520 | 50 | 12 | 582 |
| Domestic burglary | 3,462 | 897 | 574 | 4,933 |
| *Rural Region* | | | | |
| Offences against the person | 11,397 | 83 | 818 | 12,298 |
| Personal robbery | 179 | 51 | 6 | 236 |
| Domestic burglary | 2,847 | 830 | 454 | 4,131 |

[1] Northern Ireland total includes two offences for which the locations are unknown and thus aren't assigned to a region

*2002–03*

| | *Under 65* | *65 +* | *Age unknown* | *Total* |
|---|---|---|---|---|
| *Northern Ireland* | | | | |
| Offences against the person | 26,889 | 269 | 1,297 | 28,455 |
| Personal robbery | 793 | 139 | 9 | 941 |
| Domestic burglary | 7,315 | 1,962 | 848 | 10,125 |
| *Urban Region* | | | | |
| Offences against the person | 13,683 | 151 | 817 | 14,651 |
| Personal robbery | 595 | 85 | 6 | 686 |
| Domestic burglary | 4,072 | 1,004 | 408 | 5,484 |
| *Rural Region* | | | | |
| Offences against the person | 13,206 | 118 | 480 | 13,804 |

| Personal robbery | 199 | 25 | 0 | 224 |
| Domestic burglary | 2,454 | 489 | 68 | 3,011 |

### Dementia

**Sammy Wilson:** To ask the Secretary of State for Northern Ireland what financial assistance is provided for the care of dementia sufferers in the Province. [12082]

**Mr. Hanson:** People who care for dementia sufferers may be entitled to receive carers allowance. In the 2004–05 financial year the Social Security Agency paid £84.5 million in carer's allowance. Information is not available on the number of people receiving this benefit who care for dementia suffers.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Northern Ireland how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11487]

**Angela E. Smith:** The number of full-time equivalent permanent staff, excluding casuals, working in the 11 Departments of the NI Administration, their agencies and the Northern Ireland Office at 1 April for each of the past five years was as follows:

| | *Number of full-time equivalents* |
|---|---|
| 2001 | 24,861 |
| 2002 | 25,841 |
| 2003 | 26,816 |
| 2004 | 27,764 |
| 2005 | 28,126 |

### Entrepreneurship

**Mark Durkan:** To ask the Secretary of State for Northern Ireland on which other departments' funding policies Invest Northern Ireland's policy on promoting entrepreneurship and business start-ups is based; and if he will make a statement. [11353]

**Angela E. Smith:** Invest Northern Ireland's funding policy for the promotion of Entrepreneurship and Business Start Up is fully consistent with the government's economic vision for Northern Ireland. The promotion and encouragement of enterprise through being entrepreneurial is one of the key drivers identified in the Operating plans of Department of Enterprise, Trade and Investment (DETI) and Invest NI to improve the global competitiveness of the Northern Ireland economy. DETI takes the lead responsibility for the oversight of the economic vision and a number of other departments fund actions which complement and contribute to enterprise development including Department of Employment and Learning through New Deal, and courses in Further and Higher Education; the Department of Education by promoting entrepreneurship through the school's curriculum; the Department of Agriculture and Rural Development promoting rural diversification and the Department of Culture, Arts and Leisure the creative arts sector.

### Firearms

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many illegal firearms have been found by the Police Service of Northern Ireland during searches, criminal investigations or at crime scenes in each of the last five years. [11781]

**Mr. Woodward:** The information requested is detailed in the following table.

| | *Number of illegal firearms found* |
|---|---|
| 2000–01 | 134 |
| 2001–02 | 96 |
| 2002–03 | 129 |
| 2003–04 | 148 |
| 2004–05 | 81 |

*Notes:*
The figures include all illegal firearms which have been seized/recovered:
as a result of searches carried out by PSNI/Army;
during/after a shooting incident, armed robbery, etc;
by members of the public.

### Human Rights Commission

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the *(a)* salary, *(b)* allowances and *(c)* other expenses payable to the chairperson of the Northern Ireland Human Rights Commission is; how many days per week the chairperson is expected to spend on Commission business; what secretarial and research facilities are made available to (i) the chairperson and (ii) the members of the Northern Ireland Human Rights Commission; and what allocation has been made for these costs. [7091]

**Mr. Hanson:** The chief commissioner post is a full-time post. The salary is £60,000 per annum.

The other details of the question are for the Commission to respond to. I have written to the chief executive asking that she respond to your query. A copy of her letter will be placed in the Library.

### Motoring Offences

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many fixed penalty fines for *(a)* speeding, *(b)* parking infringements and *(c)* other offences were issued in Northern Ireland in each of the last three years, broken down by (i) urban and (ii) rural region; and how much revenue was generated in each year. [12054]

**Mr. Woodward:** The information requested is provided in the following tables.

| *Calendar year* | *Endorsable FPN—speeding* | *Endorsable FPN—other* | *Non endorsable FPN—other* | *Non endorsable—parking infringements* | *Potential revenue generated (£)* |
|---|---|---|---|---|---|
| *Urban* | | | | | |
| 2002 | 8,350 | 422 | 2612 | 35,832 | 1,679,640 |
| 2003 | 13,805 | 836 | 7607 | 36,819 | 2,211,240 |
| 2004 | 15,289 | 836 | 11,772 | 42,015 | 2,581,110 |

| Calendar year | Endorsable FPN—speeding | Endorsable FPN—other | Non endorsable FPN—other | Non endorsable—parking infringements | Potential revenue generated (£) |
|---|---|---|---|---|---|
| *Rural* | | | | | |
| 2002 | 18,516 | 606 | 10,020 | 16,711 | 1,949,250 |
| 2003 | 14,149 | 842 | 15,911 | 18,345 | 1,927,140 |
| 2004 | 11,763 | 1,106 | 21,394 | 19,490 | 1,998,660 |

### Olympics 2012

**Kate Hoey:** To ask the Secretary of State for Northern Ireland what steps he plans to take to ensure that *(a)* Northern Ireland is and *(b)* Northern Ireland citizens are involved in the Olympic Games in London in 2012. [12760]

**Mr. Hanson:** The Government are delighted that London won the bid to host the 2012 Olympics. Northern Ireland has supported the bid from the outset, recognising the potential benefits in terms of sports infrastructure, improving health, inspiring our young people, providing opportunities for local businesses, boosting tourism and hosting preparation camps for participating nations.

The promise is already given by London 2012 that all those children born on 20 December 2004 in the United Kingdom will be offered the chance to take part in official ceremonies and cultural events scheduled to take place in 2012.

A regional steering group has been in place for 11 months to galvanise support for the bid and identify the opportunities for the region. It is developing a strategy to ensure the potential benefits are fully realised and that Northern Ireland and its citizens play a full part in the London 2012 Olympic and Paralympic Games.

### Pensioners

**Lady Hermon:** To ask the Secretary of State for Northern Ireland which Government agency will be responsible for making payment of the one-off tax free lump sum of £200 to pensioner households in Northern Ireland; what action pensioners will be required to take to receive such payments; and when they will receive it. [13282]

**Mr. Hanson:** Most pensioners who are entitled to the £200 payment will receive it automatically with their winter fuel payment from the Social Security Agency, an Executive agency within the Department for Social Development. However some may need to claim their payment. Anyone who has not received a payment by the end of December 2005, and who thinks that they may be eligible, may need to make a claim. All claims must be received by 30 March 2006. Details of how to make a claim and who to contact for more information will be issued at a later date.

### Personal Protection Weapons

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many applications for personal protection weapons have been made in Northern Ireland in each of the last 10 years. [11671]

**Mr. Woodward:** The chief constable of the Police Service of Northern Ireland has informed me that records of the number of applications made for personal protection weapons are only available from 2001.

The number of applications made in each full year since then is as follows:

| | Number of applications |
|---|---|
| 2001 | 274 |
| 2002 | 405 |
| 2003 | 324 |
| 2004 | 281 |

### Public Prosecution Service

**Mark Durkan:** To ask the Secretary of State for Northern Ireland what the *(a)* procedure and *(b)* timescale is for establishing regional offices for the Public Prosecution Service; where they are expected to be located; and if he will make a statement. [12013]

**Mr. Hanson:** The information is as follows:

*(a)* The procedure for the opening of the PPS Regional Offices is a phased 'rollout' over a period beginning with the creation of the first PPS pilot in December 2003 and completion by December 2006. A programme was established to acquire suitable premises in the preferred locations. A public procurement exercise was undertaken to secure the required premises, which to date has now identified suitable sites in Lisburn, Omagh and Ballymena. Suitable sites in Londonderry and Newry were not identified and the PPS is currently working closely with the Valuation and Lands Agency to identify either existing or potential premises in each of these locations.

*(b)* The PPS Project Board still intends to meet the December 2006 deadline for the completion of the PPS rollout. If premises in all the preferred locations are not available by that date, contingency plans are in place to accommodate the operations on those offices not yet ready for occupation in existing short term accommodation in Belfast. Currently the target dates for each site are as follows:

Lisburn—January 2006

Omagh and Ballymena—December 2006

Newry and Londonderry—Yet to be confirmed.

### Pupil Numbers

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many pupils are attending each *(a)* primary and *(b)* secondary school in Northern Ireland. [12072]

**Angela E. Smith:** As the information requested is extensive, I will arrange to have it placed in the Library.

### Sign Language

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what resources have been made available to support sign language in Northern Ireland in each year since 2001. [7633]

**Mr. Hanson:** The following resources have been made available to support sign language in Northern Ireland in each year since 2001.

| | *Amount (£)* |
|---|---|
| 2001–02 | 122,326.13 |
| 2002–03 | 149,681.67 |
| 2003–04 | 187,389.72 |
| 2004–05 | 202,608.71 |
| 2005–06 (Estimated) | 150,822.00 |

The cost of further education provision on sign language and of grants provided to a range of organisations to support disabilities including hearing impairment is not included in the above table. It is not possible to isolate expenditure on sign language from the overall expenditure in these areas.

Since 23 January 2004, several Departments have been working in partnership with representatives of the deaf community, to develop ideas for improving access to public services for sign language users. It is not possible to detail the exact sum provided for the cost of staff resources engaged in this exercise.

### Water Rates

**Mrs. Spelman:** To ask the Secretary of State for Northern Ireland if he will make a statement on the Government's plans for reform of water rates in Northern Ireland. [12009]

**Mr. Woodward:** I am currently conducting a detailed review of issues surrounding water reform and consulting with ministerial colleagues about related issues. Decisions about the detailed implementation of water reform and water charging will only be taken after careful consideration and a full statement will be made later in the year.

## TRADE AND INDUSTRY

### BNFL (Westinghouse)

**Paul Flynn:** To ask the Secretary of State for Trade and Industry what information he has received from BNFL in respect of plans to sell off its Westinghouse assets in the United States. [10816]

**Barry Gardiner** *[holding answer 13 July 2005]:* The company announced on 1 July 2005 that in line with the 2003 Strategy Review of BNFL (which concluded that the businesses should be managed to deliver value and control risks to the UK taxpayer) they were starting a structured sales process for the Westinghouse business.

As shareholder in BNFL, the DTI has been kept fully in touch with the development of this policy. Officials are also participating in the working group that is overseeing the sale process and have access to the key associated documents. This level of involvement will continue.

### Civil Partnerships Act

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry whether a same sex couple will each be permitted to nominate one property as their principle residence for the purposes of avoiding capital gains tax under the proposed terms of the Civil Partnerships Act 2004. [13315]

**Dawn Primarolo:** I have been asked to reply.

A same sex couple who register a partnership under the Civil Partnership Act 2004 will be entitled to capital gains tax private residence relief on only one residence from the time of registration. If they each own a residence when the partnership is registered and they continue to use both residences, they will be able to nominate jointly which is to be treated as the main residence. They may each qualify for private residence relief on their individual properties up to the time of registration provided all the conditions for relief have been met.

### Consumer Direct Helpline

**Mr. Greg Knight:** To ask the Secretary of State for Trade and Industry what the total cost to date of setting up and running the Consumer Direct helpline has been; how many members of the public have used this service in the last three months for which figures are available; and whether he intends to continue to fund this service. [10737]

**Mr. Sutcliffe** *[holding answer 14 July 2005]:* The total cost of setting up and running the Consumer Direct helpline to date is £18.5 million. The service is now available in eight regions: Scotland, Yorkshire and the Humber, Wales, south-west and south-east regions, east of England, London and the east midlands. Three remaining regions north-west, north-east and west midlands will be operational by March 2006. The helpline has received 194,142 calls from members of the public in the last three months. Contracts have been signed for the delivery of the service in each region until 2010.

### Harris Tweed

**Mr. MacNeil:** To ask the Secretary of State for Trade and Industry what action he has taken in each of the last four years to promote the sale of Harris Tweed and Harris Tweed products in *(a)* Europe, *(b)* the US and *(c)* other international markets. [8553]

**Alun Michael** *[holding answer 30 June 2005]:* None. Export promotion of the Harris Tweed industry is a devolved activity.

**Mr. MacNeil:** To ask the Secretary of State for Trade and Industry if he will estimate the *(a)* money and *(b)* hours of time expended in the promotion of Harris Tweed by his Department. [8554]

**Alun Michael** *[holding answer 30 June 2005]:* None. Promotion of the Harris Tweed industry is a devolved activity.

### Identity Cards

**Mr. Garnier:** To ask the Secretary of State for Trade and Industry what recent assessment he has made of the implications of the introduction of identity cards for his Department. [9883]

**Mr. Sutcliffe:** We have been working with the Home Office to identify any areas where the identity cards scheme could provide benefits to the administration of the Department. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Libraries of the House a paper containing the latest estimates of benefits of the identity cards scheme which shows that the benefits outweigh the costs once the scheme is fully operational.

### Legislative Reviews

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what reviews of effectiveness of significant legislation affecting business and industry his Department has carried out; what changes to legislation were proposed as a result of each review; and if he will place copies of the reviews in the Library. [10524]

**Alan Johnson:** The major pieces of legislation reviewed by the Department of Trade and Industry since 2001 are:

Consumer Credit Act 1974

Renewables Obligation Order 2002 (reviewed three times for different aspects)

Employment Relations Act 1999

Directors Remuneration Report Regulations (assessed for compliance and the extent of changes to remuneration practices).

Changes proposed as a result of these reviews include:

Publication of White Paper "Fair, Clear and Competitive—the Consumer Credit Market in the 21st century" following review of Consumer Credit Act 1974. Legislation to reform the licensing system and improve consumer redress is currently before the House;

Amendment Orders for the Renewables Obligation Order 2002;

Employment Relations Act 2004 incorporated recommendations from the review of the Employment Relations Act 1999;

The review of the Directors' Remuneration Report Regulations 2002 was completed in January 2005. Patricia Hewitt made a written parliamentary statement on 23 January 2005.

Copies of review documents are available in the Libraries of the House and on the DTI website for all of the above-mentioned reviews.

### Pregnant Workers

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what assessment he has made of the number of women who have faced discrimination at work because they were pregnant; and if he will make a statement. [12289]

**Mr. Sutcliffe:** The Maternity and Paternity Rights in Britain 2002: Survey of Parents (DWP In-House Report 131) found that six per cent. of all women who worked as employees during pregnancy said they were treated with less respect by their employer or line manager. Three per cent. of women who had worked during their pregnancy said they experienced difficulties with their employer concerning the time they started maternity leave.

The Maternity Rights and Benefits Survey of Mothers 2005, commissioned by DTI and DWP, also asked women about the treatment they had received at work during their pregnancy. The final report of that research will be published later this year.

### Renewables Obligation Scheme

**Mr. Salmond:** To ask the Secretary of State for Trade and Industry what percentage of renewable energy generated and consumed in each of the last five years in *(a)* the UK and *(b)* Scotland and sourced from generating plant accredited for Renewables Obligation Certificates was generated by (i) plant built and commissioned since 31 December 1989 and (ii) hydro plant which has been recently refurbished but was first commissioned before 31 December 1989. [12259]

**Malcolm Wicks:** For the last five years for the UK as a whole the percentages of electricity sales by licensed suppliers in the UK from renewable sources eligible under the Renewables Obligation (RO) are shown in the following table. These percentages can be divided into two parts; firstly the percentage generated from refurbished hydro plant and secondly the percentage generated from other eligible plant. On an RO basis the percentage measures for the UK are not meaningful at a sub national level because electricity generated in one part of the UK can be sold in a different part of the UK and the amount of electricity from renewable sources transferred from Scotland or Wales to England or from Scotland to Northern Ireland is not known.

*Percentage*

| | *Total generation on a renewables obligation basis* | *Of which refurbished large scale hydro* | *Balance = plant built and commissioned since 31 December 1989* |
|---|---|---|---|
| 2000 | 1.34 | — | 1.34 |
| 2001 | 1.52 | 0.02 | 1.50 |
| 2002 | 1.80 | 0.04 | 1.76 |
| 2003 | 2.21 | 0.19 | 2.02 |
| 2004 | 3.08 | 0.44 | 2.64 |

### Royal Lancashire Show

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what assessment he has made of the benefits arising from the funding allocated to the Royal Lancashire Show by the North West Development Agency. [13013]

**Alun Michael** *[holding answer 18 July 2005]:* The North West Development Agency made a financial contribution to the Royal Lancashire Show in 2003 through the Rural Development Programme of the Lancashire Rural Recovery Partnership. The programme provided a grant of £32,578 to part fund the marketing costs for the show.

Additional visitor spend associated with the grant given was estimated at £167,000. The actual figures recorded on assessment in August 2003 by the Partnership show an additional spend of £112,673.

### Tesco

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry what recent representations he has received about the position of Tesco in the grocery trade, with particular reference to the effect on farmers *(a)* in the UK and *(b)* overseas. [12412]

**Mr. Sutcliffe:** My right hon. Friend the Secretary of State, my fellow Ministers and I have received representations from Members of the House, the supermarket chains, small businesses, trade associations and pressure groups.

However, the prime responsibility for operating our competition regime rests with the independent competition authorities. In the specific case of supermarkets it is the Office of Fair Trading, which is currently responsible for keeping under the review the Code of Practice governing supermarket's relations with their suppliers and for dealing with any other competition issues in the sector.

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry what recent research he has *(a)* commissioned and *(b)* evaluated on whether Tesco has a monopoly position in the grocery trade. [12413]

**Mr. Sutcliffe:** The prime responsibility for operating our competition regime rests with the independent competition authorities. In the specific case of supermarkets it is the Office of Fair Trading, which is currently responsible for keeping under the review the Code of Practice governing supermarket's relations with their suppliers and for dealing with any other competition issues in the sector.

### Vision Boards

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry what the reasons are for creating vision boards in the north-west and if he will take steps to create a vision board for Chorley. [11763]

**Alun Michael:** I have asked the chief executive of the North West Regional Development Agency to write to the hon. Member: a copy of that letter will be placed in the Libraries of the House

### Warning and Prohibition Orders

**Mr. Love:** To ask the Secretary of State for Trade and Industry how many *(a)* warning orders and *(b)* prohibition orders have been issued by the Office of Fair Trading under the Estate Agents Act 1979 in (i) England and Wales, (ii) Enfield and (iii) Edmonton in each year since the introduction of the Act; and if he will make a statement. [13731]

**Mr. Sutcliffe:** This is a matter for Sir John Vickers, chairman of the Office of Fair Trading. He will write to the hon. Member.

## INTERNATIONAL DEVELOPMENT

### Afghanistan

**Linda Gilroy:** To ask the Secretary of State for International Development what value-added crops are being offered to farmers in Afghanistan as an alternative to growing opium poppies. [13336]

**Hilary Benn:** Afghanistan has the potential to produce, process and market a range of higher value agricultural products such as vegetables, fruits, nuts, and livestock and dairy products. None can compete economically with the returns available on growing opium poppy, and market links are not currently sufficiently developed to offer viable alternatives to the 700,000 farmers growing poppy.

The DFID-funded Research in Alternative Livelihoods Fund (RALF) is identifying new crops and agricultural technologies which can be marketed successfully and have the potential to be used by larger groups of current or potential poppy farmers. Crops being tested include oil seed crops (canola, pea nuts, soy beans, mung beans), medicinal crops/herbs (mint, saffron, cumin), and vegetables (onions, tomatoes, chillies, sweet peppers, mushrooms). Other donor projects are doing similar testing. Programmes to roll out successful pilots will be developed in 2006.

In the Badakhshan province in north-eastern Afghanistan DFID is funding a programme through the Aga Khan Foundation to increase the number of farmers accessing high quality seeds, and other agricultural inputs such as training in growing alternative crops. So far 29,000 farmers have benefited from this assistance.

**Linda Gilroy:** To ask the Secretary of State for International Development what steps are being taken to assist share-crop farmers in Afghanistan to deal with accumulated debt. [13337]

**Hilary Benn:** The Government of Afghanistan has a national programme, the Microfinance Investment Support Facility for Afghanistan (MISFA), which provides credit in rural areas, including to sharecroppers. Following a workshop on opium debt and rural finance jointly organised by the Government, the World Bank and DFID in December 2004, it was agreed that the MISFA would fund new ways to restructure informal debts to help farmers and sharecroppers break the cycle of opium indebtedness.

In March 2005, DFID committed a further £17 million to the MISFA (bringing our total contribution to £20 million), with £7 million specifically to increase the scale of the MISFA's work in the seven largest poppy producing provinces through a special funding window, which will pilot debt restructuring. Initial results from these pilots are expected by the end of the year. Writing off debts has been considered as an option, but considered socially unsustainable in rural areas.

### Conditionality

**Vera Baird:** To ask the Secretary of State for International Development what progress has been made on the production of new operational guidelines for his Department's staff following the publication of Partnerships for Poverty Reduction: Reducing Conditionality. [13511]

**Hilary Benn:** Operational guidelines have been prepared in draft. Over the next few weeks, we plan to consult with a number of external partners (including other donors, and non-government organisations) before finalising the guidelines.

### Malaria/Tuberculosis

**Michael Connarty:** To ask the Secretary of State for International Development what the results were of his Department's study of the incidence of malaria and tuberculosis worldwide. [8935]

**Mr. Thomas:** DFID has made no formal study of incidence of malaria and tuberculosis worldwide.

Globally there are between 350 and 500 million clinical episodes of malaria occurring each year, resulting in over one million deaths.[1] There were an estimated 8.8 million new cases of TB in 2003 (the year for which the most recent figures are available), with an estimated 1.7 million deaths.[2]

DFID launched a policy consultation on the challenge of TB and malaria control with external stakeholders in May. Discussions took place around DFID's current portfolio of activities, effectiveness and suggestions on where to place future efforts.

[1] World Malaria Report 2005: WHO/UNICEF

[2] Global Tuberculosis Control Report 2005: WHO

### Microfinance Projects

**Mark Simmonds:** To ask the Secretary of State for International Development if he will make a statement on microfinance projects supported by his Department in developing countries. [9271]

**Mr. Thomas:** Microfinance, or financial services for those on low or very low income, is a powerful tool to fight poverty and help reach the Millennium Development Goals. Approximately 50 million low income people have a loan from a microfinance institution, and at least 500 million have some form of bank account, but in some African countries still less than 10 per cent. of the population has access to a bank account.

Financial exclusion, or lack of access to financial services, acts as a constraint on economic growth and poverty reduction. Without access to loans, small enterprises can be restricted from expanding in size or into new markets. Families need access to a savings account, or to money transfer services, in order to ensure they have money at times of need, or to pay for education and other expenditure.

My Department is active in promoting access to financial services, including microfinance. DFID has funded financial sector and microfinance projects in 25 countries and is the major funder to the global Financial Sector Reform and Strengthening (FIRST) initiative. My Department was instrumental in setting up and supporting, the Consultative Group to Assist the Poor (CGAP), which is now made up of 29 international donor agencies. This is a resource centre for microfinance institutions and a centre of best practice for donors, Governments, and financial institutions. DFID also funds international agencies that actively support microfinance and financial sector development, such as the World Bank, the International Finance Corporation and the Asian Development Bank.

My Department has launched or designed eight country programmes to promote financial sector development, seven of which are in sub-Saharan Africa. In several cases these are co-funded with other donors. These programmes work to improve the policy, legal and institutional framework so that banks and other financial institutions are able to expand into microfinance, and in some cases provide direct support to financial institutions to do so. They also enable microfinance institutions to access training, management skills and technical assistance, and improve their governance and systems.

My Department jointly organised two high level conferences for the UN Year of Microcredit 2005, with the French and German Governments, that were attended by over 700 Government and donor representatives, as well as the private sector. We have a joint work programme with the World Bank and the United Nations Development Programme (UNDP) to promote financial inclusion through agreeing measures and targets for access to financial services by poor households.

DFID's Financial Deepening Challenge Fund has supported innovation by the private sector to extend access to financial services. For example, this Challenge Fund provided a grant to a Kenyan financial institution that then also invested at least as much of its own money, resulting in access to financial services in remote rural parts of Kenya through satellite-linked land rovers. A telecommunications company was also assisted to develop mobile phone-based banking services for low income people in East Africa, which is a technology that offers potential for significantly improving access to financial services across Africa.

### Poverty Reduction (Departmental Guidelines)

**Mr. Hancock:** To ask the Secretary of State for International Development what progress has been made on the production of new operational guidelines for his Department's staff following the publication of Partnerships for Poverty Reduction: Rethinking Conditionality. [12465]

**Hilary Benn:** Operational guidelines have been prepared in draft. Over the next few weeks, we plan to consult with a number of external partners (including other donors, and non-government organisations) before finalising the guidelines.

## EDUCATION AND SKILLS

### 14 to 19 White Paper

**Anne Main:** To ask the Secretary of State for Education and Skills what representations she has received on the Government's 14 to 19 White Paper. [12144]

**Jacqui Smith** *[holding answer 14 July 2005]:* I refer the hon. Member to the reply given by my right hon. Friend the Secretary of State for Education and Skills to the hon. Member for Croydon, Central (Mr. Pelling) on 14 July 2005, *Official Report*, columns 957–58.

### Aimhigher Programme

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills if she will list the local authorities in which *(a)* all schools, *(b)* some schools and *(c)* no schools receive funding from the Aimhigher programme. [11552]

**Bill Rammell:** This information is not held centrally.

Most funds for schools are routed from the Department to LEAs. Each LEA decides how to distribute these funds to schools. Some schools may also have received funds directly from their Aimhigher Area Steering Groups.

The Department has aggregate information on the amount of Aimhigher funds distributed to each LEA. In the 2004/05 academic year, the following LEAs received Aimhigher funding for schools.

Luton
Essex
Hertfordshire
Leicester City
Islington
Hackney
Barnet
Waltham Forest
Lambeth
Wandsworth
Brent
Harrow
Durham

### Child Poverty

**Mr. Hepburn:** To ask the Secretary of State for Education and Skills what assessment she has made of the impact of growing up in poverty on a child's *(a)* social, *(b)* educational and *(c)* personal development; and if she will make a statement. [12043]

**Beverley Hughes:** The Government assessment of the impact of child poverty is set out in the Child Poverty Review which was published alongside the 2004

Spending Review. The Child Poverty Review shows that poverty can affect children's lives through the effects of living in poor housing and eating less nutritious food, and the higher risks of accidents, ill health and problems with school work. Poverty can exclude children from the everyday activities of their peers and limit their opportunities to play safely. Poverty in childhood can prevent children from fulfilling their potential by leading to poorer educational attainment and higher chances of poverty and social exclusion in adult life.

Child poverty more than doubled between the mid 1970s and the mid 1990s in the UK and we had the highest rate in Europe. The Government are committed to halving child poverty by 2010 and eradicating it by 2020. We have already seen some success. By 2003–04 there were over half a million fewer children in relative low income households compared to 1998–99. The Department is working with partners within and beyond Government to meet the Government's target of eradicating child poverty.

### Dance and Drama

**Gordon Banks:** To ask the Secretary of State for Education and Skills what the budget for the Dance and Drama Awards scholarships funded by the Learning and Skills Council is in 2005–06. [10094]

**Bill Rammell:** The Dance and Drama Awards scholarship budget for 2005–06 is £10,330,000. The Dance and Drama Award provides a non-means tested contribution towards fees which is paid directly to the school by the Learning Skills Council (LSC).

Students in receipt of a Dance and Drama award can also apply for means tested 'fees and maintenance' support, where the amount of support that a student receives is dependent on their household income. Students from England, Scotland and Wales apply to Manchester LEA (who operate the means tested element of the programme on behalf of the LSC, the Scottish Executive and the National Assembly for Wales).

In April 2005, responsibility for the management of the Dance and Drama Award programme passed from the DfES to the LSC.

**Gordon Banks:** To ask the Secretary of State for Education and Skills what the budget is in 2005–06 for the Dance and Drama Fees and Maintenance Fund. [10720]

**Bill Rammell:** The budget for the Dance and Drama Fees and Maintenance Fund for students from England in 2005–06 is £3,070,000. The National Assembly for Wales holds the budget and is responsible for the student support costs for Welsh students and the Scottish Executive holds the budget and is responsible for the student support costs of Scottish students. Students from England, Scotland and Wales apply to Manchester LEA (who operate the means tested element of the programme on behalf of the Learning Skills Council (LSC), the Scottish Executive and the National Assembly for Wales).

In April 2005, responsibility for the management of the Dance and Drama Award programme passed from the DfES to the LSC.

### Dyslexic Students

**Helen Jones:** To ask the Secretary of State for Education and Skills what recent discussions she has had with examination boards about the criteria used to decide whether dyslexic students are allowed extra time during examinations. [13358]

**Maria Eagle:** The Secretary of State has had no recent discussions with awarding bodies about access arrangements or adjustments in examinations.

Any decision on the criteria to be used in determining extra time for examinations is a matter for the awarding bodies.

The Regulators (QCA, ACCAC and CEA) produce a code of practice requiring awarding bodies to ensure that there are no unnecessary barriers to assessment which prevent candidates from effectively demonstrating their attainment. The code specifies that access arrangements must include additional time except in those instances where performing a task in limited time is an assessment objective.

The code also requires the awarding bodies to publish details of special arrangements. The Joint Council for Qualifications (JCQ), on behalf of the awarding bodies, publishes these details every year. Their current guidance (1 September 2004 to 31 August 2005) is published in the document 'Regulations and Guidance Relating to Candidates who are eligible for Adjustments in Examinations'. That guidance states that centres can allow up to a maximum of 25 per cent. extra time for candidates with a Statement of Special Educational Need, or a psychological assessment carried out by a qualified psychologist, or specialist assessment carried out by a specialist teacher.

**Helen Jones:** To ask the Secretary of State for Education and Skills what discussions she has had with organisations dealing with dyslexia on the needs of students taking examinations. [13360]

**Maria Eagle:** The Secretary of State has held no discussions with organisations dealing with dyslexia on the needs of students taking examinations. Arrangements for candidates with particular assessment requirements are a matter for the Regulators and the awarding bodies.

Officials within the Department are currently consulting with stakeholders, including a range of disability organisations, about the extension of the Disability Discrimination Act to general qualifications bodies.

### Education Funding

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills pursuant to the answer of 11 July 2005, *Official Report*, columns 836–39W, on education, (1) what methodology was used to calculate the area cost uplift for each area; [12699]

(2) on what basis the zero area cost uplift for the West Midland conurbation, Warwickshire and Gloucestershire was calculated. [12832]

**Bill Rammell** *[holding answer 18 July 2004]:* The Learning and Skills Council's (LSC) National Rates Advisory Group (NRAG), which advises the LSC on

post-16 funding rates and related issues, commissioned the research which helped inform the LSC's area costs uplift. The research was carried out by independent consultants contracted by the LSC and was based on an analysis of differential salary data from the Labour Force Survey and the New Earnings Survey across England. The results were adjusted for affordability and generated the published area costs funding uplifts provided in my Answer of 11 July to Question reference 11107. The work generated a zero per cent area costs rate for the West Midlands Region, including Warwickshire, and for Gloucestershire. A summary of the NRAG recommendations is available on the LSC's website at http://www.lsc.gov.uk/National/Documents/SubjectListing/FundingLearning/FurtherEducation/default.htm, entitled Funding: Indicative Rates for Further Education, Work-Based Learning and School Sixth Forms in 2003–04.

**Derek Wyatt:** To ask the Secretary of State for Education and Skills (1) how much funding has been allocated to Kent county council for the financial years *(a)* 2005–06 and *(b)* 2006–07 for Sure Start schemes; [13102]

(2) what the total budget allocated by Kent county council is to Sure Start schemes in Kent in *(a)* 2005–06 and *(b)* 2006–07. [13103]

**Beverley Hughes** *[holding answer 18 July 2005]:* Kent county council has been allocated revenue funding of £6,777,085 in 2005–06 and £6,609,809 in 2006–07 for the Sure Start local programmes element of the council's children and families funding block of the local area agreement pilot of which the council is participating. The county council has also been allocated a total of £23,336,774 in the 2005–06 General Sure Start Grant (GSSG). This is made up of £5,415,544 capital and £17,921,230 revenue. The GSSG for 2006–07 will be communicated to local authorities around November 2005.

## Educational Psychologists

**Mr. Lidington:** To ask the Secretary of State for Education and Skills how many established full-time equivalent posts for educational psychologists there are in *(a)* each local education authority and *(b)* England; how many such posts are vacant; and if she will make a statement. [12385]

**Maria Eagle:** The following table provides the information requested for January of 2004, the latest information available at LEA level.

| | *Full-time equivalent educational psychologists*[1] | *Vacant full-time permanent posts* |
|---|---|---|
| Darlington | 3.8 | 1 |

[1] FTE educational psychologists includes those in post, on secondment for in-service training and on secondment for initial training as educational psychologists.

*Source:*
Annual Survey of Teachers in Service and Teacher Vacancies

**Mr. Burstow:** To ask the Secretary of State for Education and Skills when her Department *(a)* planned to let and *(b)* let the contract for the review of the functions and contribution of educational psychologists. [13531]

**Maria Eagle:** The written ministerial statement, issued on 1 February 2005, *Official Report*, column 52WS, announcing the proposed review indicated that its precise terms of reference would be agreed with the local authority employers' side, and that we expected the bulk of the work to be completed in 2005. We have had comments from representatives of the Local Government Association and the Employers' Organisation and would expect to issue invitations to tender for the work shortly. A contract with the successful applicant will be agreed as soon as is practicable thereafter.

## FE Colleges

**Colin Challen:** To ask the Secretary of State for Education and Skills in what ways her Department is assisting adults of all ages to study languages in colleges of further education. [13333]

**Bill Rammell:** My Department wants to continue to make available a wide range of learning opportunities for adults of all ages, including for the study of modern foreign languages. Provision locally is for the individual college to determine in conjunction with the local Learning and Skills Council, in the light of both local needs and national priorities. As part of the "Success for All" strategy modern foreign languages is a priority curriculum area for improving teaching and learning and introducing new approaches to continuing professional development. The aim is to improve the motivation and linguistic achievements of learners within the sector.

## Free School Milk

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills how many schools provided EU-subsidised milk in the last two years in *(a)* the UK and *(b)* Lancashire; and how many children received the milk. [11649]

**Jim Knight:** I have been asked to reply.

The Rural Payments Agency (RPA) pay subsidy on school milk in Great Britain. Officials in the Department of Agriculture and Rural Development pay the subsidy in Northern Ireland.

In Great Britain 19,093 schools have claimed school milk subsidy over each of the last two years, covering 3.85 million children.

In Lancashire 550 schools claimed subsidy, covering 94,000 children.

## Nursery Places

**Dan Norris:** To ask the Secretary of State for Education and Skills how many children in *(a)* North East Somerset and *(b)* South Gloucestershire have taken up free nursery places since the policy was introduced. [12547]

**Beverley Hughes:** All four-year-olds in England have been entitled to a free part-time early education place since September 1998. All three-year-olds in England have been entitled to a free part-time early education place since April 2004.

The available information on the numbers of free part-time early education places taken up by three and four-year-olds in Bath and North East Somerset, North Somerset and South Gloucestershire local education authority areas is shown in the tables.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 18/2005 "Provision for children under five years of age in England—January 2005 (provisional)" in May, which is available on the Department's website www.dfes.gov.uk/rsgateway/.

[7] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Changes in pupil figures may arise from changes to the underlying population in the local education authority area and other factors. However, my Department doesn't publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

### Progression Targets

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills what plans she has to introduce targets for progression at *(a)* 16 and *(b)* 18 for secondary schools; and if she will make a statement. [11553]

**Bill Rammell:** The Government's plans for developing measures of young people's progression in learning are set out in the 14–19 Education and Skills White Paper, published on 23 February 2005. We will record what qualifications Year 11 pupils go on to achieve by age 19 in order to develop a measure of how successful the pupils of each school are in gaining qualifications after statutory school leaving age. We will consider how this measure can be used to set targets to improve progression.

### Special Educational Needs (Essex)

**Bob Spink:** To ask the Secretary of State for Education and Skills (1) what the staffing ratios were for *(a)* Glenwood Severe Learning Difficulty and *(b)* Cedar Hall Moderate Learning Difficulty special schools in Castle Point in each of the last three years for which figures are available; [12179]

(2) what the staffing ratios are for *(a)* Glenwood Special School and *(b)* Cedar Hall Special School in Castle Point. [12186]

**Maria Eagle:** The information requested is shown in the following table.

*Pupil:teacher and pupil:adult ratio for Glenwood and Cedar Hall School*
*Position in January each year*

| | 2003 | | 2004 | | 2005[4] | |
|---|---|---|---|---|---|---|
| | Pupil:teacher ratio[1,2] | Pupil:adult ratio[2,3] | Pupil:teacher ratio[1,2] | Pupil:adult ratio[2,3] | Pupil:teacher ratio[1,2] | Pupil:adult ratio[2,3] |
| Glenwood School | 6.0 | 2.2 | 6.9 | 2.5 | 6.6 | 2.5 |
| Cedar Hall School | 8.8 | 4.9 | 8.8 | n/a | 7.8 | 4.3 |

n/a = not available

[1] The PTR is calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.

[2] For statistical purposes only, pupils who do not attend both morning and afternoon at least five days a week are regarded as part-time. Each part-time pupil is treated as 0.5 FTE.

[3] The PAR is calculated by dividing the total FTE number of pupils on roll by the total FTE number of all teachers and support staff employed in schools, excluding administrative and clerical staff.

**Bob Spink:** To ask the Secretary of State for Education and Skills what the average class size for *(a)* moderate learning difficulty (MLD) and *(b)* severe learning difficulty (SLD) special schools in Essex was in each of the last three years for which figures are available; and if she will estimate the average class size in (i) MLD and (ii) SLD special schools in Essex in 2005–06. [12188]

**Maria Eagle:** The information requested is not collected centrally.

**Bob Spink:** To ask the Secretary of State for Education and Skills if she will list the moderate learning difficulty (MLD) schools in Essex; and how many MLD schools there are in each local education authority. [12250]

**Maria Eagle:** The information requested is as follows.

*Special schools formally approved to make provision for moderate learning difficulties*[1]

*January 2005 (provisional v4)—Essex local education authority*

Kingswode Hoe School
The Hayward School
Cedar Hall School
Oak View School
Castledon School
The Endeavour School
The Leas School
The Edith Borthwick School
St. John's RC School (Essex)
Thriftwood School
Market Field School
Harlow Fields School
The Pioneer School

[1] Includes maintained and non-maintained special schools

*Number of special schools formally approved to make provision for moderate learning difficulties1, January 2005 (provisional v4), by local education authority area*

*Source:*
Annual Schools Census

**Bob Spink:** To ask the Secretary of State for Education and Skills how many special educational needs children there are in each band in Essex moderate learning difficulty schools. [12251]

**Maria Eagle:** Data collected in January 2005 shows that there were 1,340 pupils with special educational needs (SEN) with a statement in maintained and non-maintained special schools approved to make provision for moderate learning difficulties in Essex local education authority. The corresponding figure for pupils with special educational needs without a statement is zero.

## Sure Start

**Dr. Kumar:** To ask the Secretary of State for Education and Skills how many under-fives she estimates will be included in the Sure Start programme in *(a)* the North East, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland. [12978]

**Beverley Hughes:** Local authorities are currently developing Sure Start children's centres as part of the Government's strategy to deliver better outcomes for children and families. The following table shows target

reach figures for the number of under-fives expected to be supported through the Sure Start Children's Centres being created by local authorities covering *(a)* the North-East, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland areas by March 2006 and by March 2008.

| *Area* | *Target number of 0 to 4's to be reached through Sure Start Children's Centres by March 2006 (Phase 1)*[1] | *Target number of 0 to 4's to be reached through Sure Start Children's Centres by March 2008 (Phase 2)*[2] |
|---|---|---|
| North East | 60,054 | 112,689 |
| Tees Valley (Stockton on Tees LA) | 3,666 | 8,095 |
| Middlesbrough South (Middlesbrough LA) | 4,268 | 7,237 |
| East Cleveland (Redcar and Cleveland LA) | 3,457 | 6,036 |

[1] Represents target number of children to be reached in 20 per cent. most disadvantaged wards.
[2] Totals include the figure to March 2006 and cover the rest of the children in the disadvantaged areas and beyond.

**Dr. Kumar:** To ask the Secretary of State for Education and Skills (1) how many empty places there are in Sure Start nurseries in *(a)* England, *(b)* the North East, *(c)* the Tees Valley and *(d)* Middlesbrough South and East Cleveland; [12979]

(2) how many under-fives entitled to free places on the Sure Start scheme are on waiting lists *(a)* in England, *(b)* in the North East, *(c)* in the Tees Valley and *(d)* in Middlesbrough South and East Cleveland. [12981]

**Beverley Hughes:** All Sure Start Children's Centres provide child care. However, information about empty places or subsidised free places is not collected centrally. Sure Start Children's Centres also provide the free entitlement to child care and early learning for three and four-year-olds whose parents want it consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year (usually divided into three 11 week terms) for six terms before statutory school age, which is the term following their fifth birthday.

Some local authorities may additionally offer subsidised child care places but this information is not collected centrally.

The latest provisional figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-year-olds is 98 per cent. This covers all maintained, private, voluntary and independent providers and represents an estimated 546,400 three-year-olds and 573,500 four-year-olds.

Related information on the number of free nursery education places taken up by three and four-year-olds in Middlesbrough South and East Cleveland parliamentary constituency area is only available for January 2004. These figures are shown in the following table. The equivalent information for the North East Government Office region and the Middlesbrough, Stockton and Redcar and Cleveland local education authority areas is also shown for completeness.

*Number of free nursery education places*[1] *taken up by three and four-year-old children*

| | | *Three-year-olds* | *Position as at January 2004* |
|---|---|---|---|
| | *Maintained nursery and primary schools*[2] | *Other maintained and private, voluntary and independent providers*[3] | *Total three-year-olds*[2,3] |
| North East Government Office Region | 19,300 | 5,000 | 24,300 |
| Middlesbrough LEA | 1,400 | 170 | 1,600 |
| Redcar and Cleveland LEA | 1,400 | 90 | 1,400 |
| Stockton LEA | 1,600 | 220 | 1,800 |
| Middlesbrough South and East Cleveland parliamentary constituency[6] | 920 | 20 | 940 |

*Position as at January 2004*

| | | | *Four-year-olds* |
|---|---|---|---|
| | *Maintained nursery and primary schools*[4] | *Other maintained private, voluntary and independent providers*[5] | *Total four-year-olds*[4,5] |
| North East Government Office Region | 26,200 | 1,800 | 28,000 |
| Middlesbrough LEA | 1,600 | 50 | 1,700 |
| Redcar and Cleveland LEA | 1,600 | 20 | 1,600 |
| Stockton LEA | 2,100 | 140 | 2,200 |
| Middlesbrough South and East Cleveland parliamentary constituency[6] | 1,000 | 10 | 1,000 |

[1] Figures are rounded to the nearest 10 or 100 as appropriate.
[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.
[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[4] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.
[5] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[6] Providers are located in the Middlesbrough and Redcar and Cleveland LEAs.

The latest figures on early years provision for three and four-year-olds in England were published in Statistical First Release 18/2005 "Provision for children under five years of age in England—January 2005 (provisional)", which is available on the Department's website www.dfes.gov.uk/rsgateway/

**Dr. Kumar:** To ask the Secretary of State for Education and Skills if she will take steps to provide support in meeting the cost of Sure Start places for parents whose children are not entitled to free places but who are on low incomes. [12982]

**Beverley Hughes:** The majority of services available through Sure Start local programmes are free at the point of use. Local programmes are, however, able to charge parents for child care services provided. Given this, the Government are committed to ensuring that high quality places for children under five, where care and education are integrated, are both affordable and accessible to all parents, particularly those living in disadvantaged areas.

To this end, the 10-year child care strategy, published in December 2004, set out our vision for ensuring that every child gets the best start in life and giving parents more choice about how to balance work and family life.

Child care costs are currently subsidised by tax credits which are rightly targeted at lower and middle income families. The working tax credit is designed to help with the costs of registered or approved child care. From April 2005 the maximum child care element of the working tax credit increased from £135 to £175 for one child and from £200 to £300 for two or more children, subject to a maximum portion of child care costs payable of 70 per cent. From April 2006 the maximum will increase from 70 per cent. to 80 per cent. These changes were expected to benefit 20,000 families straight away and many more over time.

The Government currently provides support to all parents in meeting child care costs and is clearly committed to increasing such support in the future.

From 2006 the 12.5 hour free entitlement to early education for 33 weeks per year will be extended to cover 38 weeks per year for all children aged three or four. From 2007 the free entitlement will begin to increase to 15 hours per week, with all children receiving 15 hours by 2010 on the way to a goal of 20 hours per week. Parents will have the flexibility to use the free entitlement across a minimum of three days. This will result in better choices for all parents who need full day, all year round child care, improved affordability for parents; and more sustainable income for providers.

From April 2007 maternity leave will be extended to nine months with a goal to increase this to 12 months by the end of next Parliament, and with the right for the mother to transfer a portion of her maternity leave to the father. This will enable parents to have greater choice about how to balance their work and family responsibilities.

**Dr. Cable:** To ask the Secretary of State for Education and Skills how many people have been *(a)* checked, *(b)* approved and *(c)* declined by the Sure Start approval scheme since 4 January. [13227]

**Beverley Hughes:** Under the Childcare Approval Scheme (CAS) initial checks take various forms, predominately a telephone helpline service. Records are not maintained on the number of inquiries that relate to checks through this service. The total number of inquiries handled by the helpline is 12,134 since the service opened on 4 January 2005.

By 14 July 2005, 372 applications had been approved under the CAS and 511 were being processed. No applications for approval have been rejected.

**Dr. Cable:** To ask the Secretary of State for Education and Skills on what basis the decision to require child carers to renew their approval annually under the Sure Start approval scheme was made. [13228]

**Beverley Hughes:** Many "nannies" change employment on a regular basis and at present the enhanced Criminal Records Bureau (CRB) disclosure is only valid on the day it is issued. 90 per cent. of respondents to the consultation supported the proposal that renewal should be annual.

## Training Providers

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills (1) what assessment she has made of the effect on existing learners of the phasing out of lead and feed arrangements where existing training providers lose their contracts; and what estimate she has made of the number of learners who may be affected; [7121]

(2) what assessment she has made of the commercial implications of requiring training providers to establish a series of regional contracts before they can be consolidated into a single national contract with regional management arrangements; [7122]

(3) if she will make a statement on the commercial implications of replacing lead and feed arrangements in the awarding of contracts to training providers through the Learning and Skills Council with regional contracting in 2005–06 for providers already operating on a *(a)* regional and *(b)* national basis. [7123]

**Bill Rammell:** The 'lead and feed' arrangements were part of the Learning and Skills Council (LSC)'s contracting arrangements for 2004–05 and were designed to simplify the relationship between providers and the LSC. As part of its continuing drive to improve quality in work-based learning the LSC has reviewed its contracting arrangements, including 'lead and feed' arrangements and is introducing new systems for 2005–06. I have asked Mark Haysom, the Council's Chief Executive, to write to the hon. Gentleman with more detail about these issues. A copy of his reply will be placed in the Library.

*Letter from Mark Haysom to Mr. Stephen O'Brien, dated 8 July 2005:*

I have been asked by the Secretary of State for Education and Skills to provide you with a written response to your recent parliamentary questions regarding the LSC's regional contracting arrangements.

Lead and feed arrangements were introduced in August 2003 to meet the requirements of Success for All to introduce single contracts and development plans for national providers. The arrangements also enabled the LSC to meet requests from The

Association of Learning Providers to reduce the bureaucracy of contracting for large providers who worked across more than one local LSC area.

The arrangements were reviewed in 2004 and found to have met the objective of reducing bureaucracy. However, the review also found that the majority of large providers still had success rates below the national average. The review therefore recommended a move to regional contracting so that the LSC could dedicate more senior resource to support providers in improving their quality and success rates.

Many large, national providers have introduced their own regional management arrangements and the commercial impact of the regional contracting on providers is not expected to be significant.

Regional contracting will not affect the responsibility for local LSC's to decide which providers they contract with and for what programmes. Local LSC's will be making contracting decisions based on providers' past performance and local need. This may result in some providers not having their contract renewed but this will not be as a result of the introduction of regional contracting.

Where the decision not to contract with a provider would result in the displacement of learners, the LSC is fully equipped and ready to place each learner with a new provider so that the learner can complete their original programme with the minimum disruption. It is not possible to calculate the number of learners affected until contracting negotiations have taken place.

The LSC expects that regional contracting will give providers the opportunity to re-direct administration and management time to front line delivery as the number of points at which we liaise reduces from one per local LSC to one per region.

I trust that this covers the three questions you have raised.

## CONSTITUTIONAL AFFAIRS

### Claim Management Companies

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the level of service provided by claim management companies. [12475]

**Bridget Prentice:** The Government have decided that insufficient progress has been made in improving the service provided by claims management companies through effective self-regulation. The Government have therefore announced that it will introduce measures in the Compensation Bill to enable claims management companies to be effectively regulated.

### Commonwealth (Voting)

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the number of British nationals who voted in each of the Commonwealth countries in the last five years. [13503]

**Ms Harman:** Decisions about voting rights of British citizens resident in other Commonwealth countries are for the individual countries concerned. The number of resident British citizens who may be entitled to vote and who actually do so in elections held in other Commonwealth countries is not therefore collected by the UK Government.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs how many Commonwealth citizens voted in the last general election. [13504]

**Ms Harman:** This information is not collected. No record is kept of the country of origin or nationality of individual voters in UK elections, and it is not possible to differentiate between voters upon this basis.

### Data Protection Act

**Harry Cohen:** To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on her correspondence with the Information Commissioner concerning *(a)* the numbers of manual filing systems held by private sector bodies which are subject to the Data Protection Act 1998, *(b)* whether simple CCTV systems recording individual activities constitute the processing of personal data and *(c)* whether a record of a name of a public servant, recorded by a public authority amounts to personal data; and if she will place the correspondence in the Library. [9432]

**Bridget Prentice:** My Department is in regular discussion with the Information Commissioner on these and other matters. I have no plans at present to place any correspondence in the Library.

### Freedom of Information

**Norman Baker:** To ask the Minister of State, Department for Constitutional Affairs how many appeals have been received by the Information Commissioner's Officer against refusals to divulge information under the Freedom of Information Act 2000; and how many of those have been determined. [11267]

**Bridget Prentice:** At 30 June 2005, the total number of appeals received by the Office of the Information Commissioner was 1,157, of which 224 have been determined.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Minister of State, Department for Constitutional Affairs which five management consultancies received the highest value of contracts awarded by her Department in each of the last three years; and what the total value was of the contracts awarded to each. [12575]

**Bridget Prentice:** My Department has let consultancy contracts with the five following companies in the financial years shown, to the aggregate values indicated. Figures for financial year 2004–05 are not currently available.

£

| | 2001–02 | 2002–03 | 2003–04 |
|---|---|---|---|
| CMG | 1.2 million | — | — |
| PA Consulting | 773,000 | 509,000 | 1.5 million |
| Deloitte | 555,000 | 424,000 | 1.3 million |
| ASE Consulting | 546,000 | 912,000 | — |
| CI International | 522,000 | 641,000 | — |
| Logica CMG | — | 680,000 | 442,000 |
| PWC | — | — | 3.1 million |
| ORC | — | — | 250,000 |

My Department uses consultants for the provision of expert professional advice and support on specific, time-limited tasks, usually in connection with projects, but sometimes in support of the ongoing operation of the Department.

The levels of expenditure reflects the wide-ranging and fast-paced programme to modernise the Department's work, to increase efficiency, provide better customer service, and value for money for the taxpayer.

Delivering such a programme, in the most effective and efficient way, has necessitated the use of external expertise and skills to supplement the Department's own resources.

**Mr. Austin Mitchell:** To ask the Minister of State, Department for Constitutional Affairs what her Department's total spending on management consultants has been in each of the last three years. [13098]

**Bridget Prentice:** From April 2001 until March 2004, my Department's expenditure with management consultants was as follows:

| | *£ million* |
|---|---|
| 2001–02 | 6.5 |
| 2002–03 | 5.7 |
| 2003–04 | 9.0 |

Expenditure reflects the wide-ranging and fast-paced programme to modernise the Department's work, to increase efficiency, provide better customer service, and value for money for the taxpayer.

My Department uses consultants for the provision of expert professional advice and support on specific, time-limited tasks, usually in connection with projects, but sometimes in support of the ongoing operation of the Department.

Figures for the financial year 2004–05 are not currently available.

### Race Relations Act

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what account was taken of the provisions of the Race Relations Act 1976 in conducting the regulatory impact assessment for price competitive tendering. [12703]

**Bridget Prentice:** The Legal Services Commission fully recognises and actively seeks to fulfil its obligations under Race Relations legislation to eliminate unlawful discrimination, promote equality of opportunity and encourage good race relations. As such, prior to publication of its proposals for competitive tendering, the LSC had already carried out a partial race equality impact assessment on both black and minority ethnic (BME) firms and clients.

Close collaboration with the Law Society, the Black Solicitors Network and other specialist practitioner and representative groups will help to inform a full race impact assessment to be carried out during summer 2005.

In addition, the LSC is tendering for research into the issues faced by BME firms within its legal aid supplier base. The information from this research will further help to shape the development of competitive tendering policy.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs if she will take steps to protect small black minority and ethnic law firms as part of the proposed price competitive tendering for criminal legal aid contracts. [12984]

**Bridget Prentice:** The Legal Services Commission (LSC) is strongly committed to promoting diversity within the supplier base and is aware of the concerns of small black and minority ethnic (BME) firms providing London based criminal defence services.

The potential impact of competitive tendering upon BME firms was raised in the consultation paper "Improving value for money for publicly funded criminal defence services in London", published in January 2005. The LSC has been working closely with both BME suppliers and their representative bodies throughout the competitive tendering consultation process to address any concerns they may have.

The LSC is also commissioning research into the issues faced by BME firms within the legal aid supplier base. This research will help to cultivate further measures to protect small black and minority ethnic suppliers against unfair discrimination.

### Voting

**Mr. Hood:** To ask the Minister of State, Department for Constitutional Affairs what research the Department has *(a)* commissioned and *(b)* evaluated on compulsory voting; and if she will make a statement. [10754]

**Ms Harman:** My Department has neither commissioned nor evaluated research on proposals for a compulsory voting system.

## HOME DEPARTMENT

### Advertising

**David T.C. Davies:** To ask the Secretary of State for the Home Department how much the Department spent on advertising in each of the last five years. [10231]

**Mr. Charles Clarke:** The amount spent by the Home Office on advertising over the last five years was:

2000–01: £28.36 million. Campaigns included fire safety, vehicle crime and recruitment of police officers

2001–02: £14.4 million. Campaigns included fire safety, vehicle crime, internet child protection, drugs, recruitment of police officers and postal voting

2002–03: £9.9 million. Campaigns included vehicle crime, internet child protection, drugs, firearms amnesty and recruitment of police officers

2003–04: £12.487 million. Campaigns included vehicle crime, internet child protection, drugs, recruitment of police officers and domestic violence

2004–05: Figures are still being reconciled but current data shows £9.7million. Campaigns included recruitment of police officers, drugs, internet child protection, domestic violence and firearms.

### Anti-terrorism Legislation

**Dr. Starkey:** To ask the Secretary of State for the Home Department how many people were detained under anti-terrorism legislation in each year since 1975;

how many were *(a)* UK and *(b)* non-UK citizens; how many of those detained were subsequently charged with (i) terrorist and (ii) other criminal offences; and how many were deported. [4100]

**Mr. Charles Clarke:** I refer my hon. Friend to the answer given on 27 June 2005, *Official Report*, column 1240W.

### Asylum Seekers

**Mr. Gerrard:** To ask the Secretary of State for the Home Department if he will adopt the recommendation of the Home Affairs Select Committee of April 2003 to collect data on the numbers of people who abscond once they have reached the end of the asylum process. [12970]

**Mr. McNulty:** Work is ongoing to develop methodology to identify absconders using existing data sources and collate reliable data. If the data quality is sufficient to comply with National Statistics protocols, we will consider the most appropriate method for publishing this information.

### Child Abuse

**Mr. Drew:** To ask the Secretary of State for the Home Department how many successful prosecutions there have been of individuals for child abuse in cases where the child had been accused of witchcraft in each of the last five years; and whether religious leaders have been prosecuted in connection with such cases. [13196]

**Fiona Mactaggart:** It is not possible from the Home Office court proceedings database to identify those defendants prosecuted for child abuse, where the child had been accused of witchcraft, as the details of the offences are not centrally collected. Nor is it possible to identify those defendants who are religious leaders.

### Criminal Records Bureau

**Mr. Burstow:** To ask the Secretary of State for the Home Department pursuant to his Answer to the hon. Member for Leyton and Wanstead of 28 June 2005, *Official Report*, column 1451W, on the Criminal Records Bureau, what criteria will be taken into account in determining whether to proceed with the basic disclosure. [10188]

**Andy Burnham:** The criteria to be taken into account for determining whether to proceed with the basic disclosure service will include due consideration regarding the method of access for applicants to the service; the cost of delivering the service; the likely demand for the service; and methods for verifying the applicant's identity to ensure the integrity of the service.

### Departmental Bills

**Mr. Amess:** To ask the Secretary of State for the Home Department if he will list bills sponsored by his Department in each session since 1979. [10548]

**Mr. Charles Clarke:** The information for the period requested is not readily available across Whitehall and could only be answered by incurring disproportionate costs. Since 1997 the Home Office has sponsored the following Bills.

*1996–97 Session*

Firearms (Amendment) Bill—Royal Assent received 27 February 1997

Crime (Sentences) Bill—Royal Assent received 21 March 1997

Police Bill—Royal Assent received 21 March 1997

Police and Firemen's Pensions Bill—Royal Assent received 21 March 1997

Protection from Harassment Bill—Royal Assent received 21 March 1997

Sex Offenders Bill—Royal Assent received 21 March 1997

Sexual Offences (Protected Material) Bill—Royal Assent received 21 March 1997

*1997–98 Session*

Firearms (Amendment) (No.2) Bill—Royal Assent received 27 November 1997

Special Immigration Appeals Commission Bill—Royal Assent received 17 December 1997

Data Protection Bill—Royal Assent received 16 July 1998

Crime and Disorder Bill—Royal Assent received 31 July 1998

Criminal Justice (Terrorism and Conspiracy) Bill—Royal Assent received 4 September 1998

Human Rights Bill—Royal Assent received 9 November 1998

Registration of Political Parties Bill—Royal Assent received 19 November 1998

*1998–99 Session*

European Parliamentary Elections Bill—Royal Assent received 14 January 1999

Youth Justice and Criminal Evidence Bill—Royal Assent received 27 July 1999

Immigration and Asylum Bill—Royal Assent received 11 November 1999

*1999–2000 Session*

Representation of the People Bill—Royal Assent received 9 March 2000

Terrorism Bill—Royal Assent received 20 July 2000

Football (Disorder) Bill—Royal Assent received 28 July 2000

Regulation of Investigatory Powers Bill—Royal Assent received 28 July 2000

Disqualifications Bill—Royal Assent received 30 November 2000

Freedom of Information Bill—Royal Assent received 30 November 2000

Political Parties, Elections and Referendums Bill—Royal Assent received 30 November 2000

Race Relations (Amendment) Bill—Royal Assent received 30 November 2000

Sexual Offences (Amendment) Bill—Royal Assent received 30 November 2000

Criminal Justice and Court Services Bill—Royal Assent received 30 November 2000

Criminal Justice (Mode of Trial) Bill

Criminal Justice (Mode of Trial) (No.2) Bill

*2000–01 Session*

Vehicles (Crime) Bill—Royal Assent received 10 April 2001

Election Publications Bill—Royal Assent received 10 April 2001

Elections Bill—Royal Assent received 10 April 2001

Criminal Justice and Police Bill—Royal Assent received 11 May 2001

*2001–02 Session*

Anti-Terrorism, Crime and Security Bill—Royal Assent received 13 December 2001

Football Disorder (Amendment) Bill—Royal Assent received 1 May 2002

Proceeds of Crime Bill—Royal Assent received 24 July 2002

Police Reform Bill—Royal Assent received 24 July 2002

Mobile Telephones (Reprogramming) Bill—Royal Assent received 24 July 2002

Nationality, Immigration and Asylum Bill—Royal Assent received 7 November 2002

*2002–03 Session*

Criminal Justice Bill—Royal Assent received 20 November 2003

Sexual Offences Bill—Royal Assent received 20 November 2003

Crime (International Co-operation) Bill—Royal Assent received 30 October 2003

Extradition Bill—Royal Assent received 20 November 2003

Anti-Social Behaviour Bill—Royal Assent received 20 November 2003

*2003–04 Session*

Asylum and Immigration (Treatment of Claimants) Bill—Royal Assent received 22 July 2004

Domestic Violence, Crime and Victims Bill—Royal Assent received 15 November 2004

*2004–05 Session*

Prevention of Terrorism Bill—Royal Assent received 11 March 2005

Serious and Organised Crime Bill—Royal Assent received 7 April 2005

Drugs Bill—Royal Assent received 7 April 2005

*2005–06 Session*

Charities Bill

Identity Cards Bill

Violent Crime Bill

Racial and Religious Hatred Bill

Immigration, Asylum and Immigration Bill

### Domestic Violence

**Mr. Djanogly:** To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women have been (i) charged and (ii) convicted of offences relating to the making of false allegations concerning domestic violence in each of the last five calendar years. [12434]

**Fiona Mactaggart:** Statistics on persons charged with an offence are not centrally collected. Neither is it possible to identify those defendants on the Home Office court proceedings database convicted of offences relating to the making of false allegations concerning domestic violence, as circumstances surrounding an offence are not collected.

### Drug Rehabilitation

**Anne Main:** To ask the Secretary of State for the Home Department how many non-charitable organisations the Hertfordshire probation area administers for the provision of *(a)* drug treatment testing orders and *(b)* drug rehabilitation requirements. [11133]

**Fiona Mactaggart:** There are four non-charitable organisations involved with the provision of drug treatment and testing orders (DTTOs)/drug rehabilitation requirements (DRRs) supervised by Hertfordshire probation area. These are all community drug and alcohol teams (CDATs), which deliver clinical services i.e. prescribing, clinical and psychiatric assessments to offenders on DTTOs/DRRs in Hertfordshire.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for the Home Department if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9160]

**Mr. Charles Clarke:** The Home Office has enquired into procuring English wine for events in the past, however it has proved to be more cost effective to continue to use a diverse range of wine. Our procurement is in line with the EC's procurement rules to obtain value for money for the Department and where possible British products are used.

### Full-time Staff

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many full-time equivalent staff there were in *(a)* Home Office Central, *(b)* the Prison Service, *(c)* the United Kingdom Passport Service, *(d)* the Forensic Science Service and *(e)* the Fire Service College in (i) 2000–01, (ii) 2001–02, (iii) 2002–03, (iv) 2003–04 and (v) 2004–05. [12093]

**Mr. Charles Clarke:** The numbers of civil service staff on a full-time equivalent basis can be found in the following table. They are taken from the Home Office Departmental Report 2004–05 (Cm 6528).

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|---|---|
| Home Office Central | 13,204 | 13,204 | 14,909 | 17,976 | 19,316 |
| Prison Service | 41,609 | 42,057 | 42,570 | 44,431 | 46,015 |
| UK Passport Service | 1,690 | 2,132 | 2,845 | 2,736 | 2,772 |
| Forensic Science Service | 1,469 | 2,376 | 2,506 | 2,570 | 2,399 |
| Fire Service College[1] | 160 | [2]113 | — | — | — |
| Total | 59,930 | 59,927 | 62,833 | 67,713 | 70,502 |

[1] Fire Service College ceased to be part of the Home Office following the machinery of Government changes of 8 June 2001.

[2] The figures given for 2001–02 are end-period FTE actuals. Other figures are calculated on a five quarter moving average.

## Identity Cards

**Harry Cohen:** To ask the Secretary of State for the Home Department what estimate he has made of the number of times in a year *(a)* police, *(b)* security services and *(c)* tax officials will be provided with information from the national register associated with the identity card; and if he will make a statement. [13168]

**Andy Burnham:** Work has been conducted with the police, HM Revenue and Customs and the Security Service to identify their possible demand for verification requests and provision of information from the National Identity Register. These estimates have informed the development of the cost estimates published in the regulatory impact assessment on 25 May and the benefits overview published on 28 June. However these estimates remain under review as more detailed work with these organisations progresses and it would not be appropriate to publish them at this stage.

**Mr. Khan:** To ask the Secretary of State for the Home Department what research he has evaluated on the impact of identity cards on tackling crime in countries which have identity cards. [4167]

**Andy Burnham:** Most countries with identity cards have had schemes in place for many years and they are therefore not in a position to evaluate the impact they have on crime. However, it is clear that schemes in other countries do help in the fight against crime, for example the Spanish police have stated that identifying nearly all of the terrorists involved in the Madrid bombings was made significantly easier by their identity cards scheme. Identity cards were also used to identify the victims of the bombings quickly.

Biometrics are being used to more strongly tie a verified identity to an individual. In this way, biometrics can be used along with an ID card to verify that identity against the record held for that card. Other forms of authentication, such as PIN numbers and passwords can be stolen along with a card so are much weaker at linking a person to an identity.

All the Schengen states will be required to use biometrics in passports under Council Regulation 2252/2004. Fingerprint biometrics (rather than just fingerprints) will be introduced within three years of adoption. Non-Schengen states may choose to follow the requirements, although they would not be bound by the timetable.

Other EU member states which issue identity cards are considering introducing biometrics to increase security and some, for example Greece, Italy, Portugal and Spain, already collect one of more fingerprints as part of their national identity card schemes.

**Mr. Garnier:** To ask the Secretary of State for the Home Department what estimate he has made of the cost of equipping *(a)* the Prison Service and *(b)* other Home Office premises to which the public have access with identity card readers. [9754]

**Andy Burnham:** The Home Office has been working to identify areas where the identity cards scheme could provide business benefits. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the identity cards scheme which shows that the benefits outweigh the costs once the scheme is fully operational. In one area of Home Office business alone—the processing of Criminal Records Bureau disclosures—processing times could be cut from four weeks to three days.

The cost of equipping Prison Service and other Home Office premises will depend on the nature of the use of the identity cards scheme and the type of identity check(s) necessary to deliver the business benefits.

In some cases, benefits could be realised without the use of card readers and the cost of installing any readers needs to be considered alongside future plans to refresh or upgrade IT systems.

As the design of the scheme matures, during and after the procurement exercise, so will our understanding of where the scheme will be of most benefit which will allow us to further refine our estimates of benefits and the costs of realising them.

**Lynne Jones:** To ask the Secretary of State for the Home Department what assessment his Department has made of methods of fooling biometric readers using *(a)* thin laminate stuck to fingers for fingerprints and *(b)* contact lenses for iris recognition. [9918]

**Andy Burnham:** The Home Office has consulted biometrics experts, Communications and Electronic Security Group biometric spoofing and anti-fraud experts and scientific literature in our assessment of fooling biometric technologies and is working with these and other experts to address any risk. We are also in communication with other schemes that are now using biometrics with ID cards, to learn from their experiences.

We are working on process methods to reduce the likelihood of fake biometrics being successful, for example selecting a random finger for verification, from those available, rather than using only one fingerprint on all occasions. This also gives flexibility around issues arising from short term damage to fingers, such as a cut.

In enrolment situations the process would be supervised thereby reducing the risk of fraudulent use of biometrics. In verification situations, the individual would need to have obtained a stolen card as well as a copy of all of the fingerprints in order to attempt this exercise. Further process measures are being developed but in order to protect the integrity of the National Identity Register, it is not possible to disclose them.

The systems proposed by the various manufacturers during procurement, to meet the scheme business requirements, will be rigorously tested to ensure risks from fake biometrics are adequately mitigated and allow the scheme to achieve official security accreditation.

**Mr. Oaten:** To ask the Secretary of State for the Home Department when he expects that the police facial images national database will be operational. [9938]

**Mr. Charles Clarke:** The facial images national database should be operational by December 2006.

**Mr. Oaten:** To ask the Secretary of State for the Home Department if he will place in the Library a copy of the business case for the facial images national database. [9942]

**Mr. Charles Clarke:** At present the outline business case for the facial images national database is commercially confidential. The Police Information Technology Unit (PITO) are currently working on the outline business case which may be made available soon after the tender process has been completed and a contract has been let.

**Chris Huhne:** To ask the Secretary of State for the Home Department what assessment he has made of the error rates of the identifiers proposed in the Government's identity card scheme. [11044]

**Andy Burnham:** Neither the technology for doing biometric checks or the implementation of that technology or the way in which different biometric checks may be combined together and with other checks has been finalised. These choices will affect the accuracy attainable from biometric checks and so a definitive answer is not possible at this point in time.

The performance of one particular identifier or technology is not the key determinant. During enrolment in the scheme we will make a biometric check against all previously enrolled biometrics. Any matches with one particular biometric which may be 'false' would be resolved by other biometric matches or by inconsistencies with the information held about the applicant and the record against which it had been matched.

**Lynne Jones:** To ask the Secretary of State for the Home Department if he will place in the Library a copy of the 30-minute questionnaire given to the sample of people interviewed for the identity cards trade off research, mentioned on page 3 of the interim report published on 28 June. [11663]

**Andy Burnham:** A copy of the questionnaires used with UK citizens and verification service users as part of the identity cards trade off research will be placed in the Library. A full report of the identity cards trade off research will be published in quarter three 2005.

### Illegal Immigrants

**David Davis:** To ask the Secretary of State for the Home Department if he will estimate the number of illegal immigrants living in the UK. [9592]

**Mr. Charles Clarke:** No Government has ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report which included an estimate of the size of the illegal migrant population in the UK in 2001. It should be noted that the report included an estimate, not an accurate or definitive figure.

As mentioned in the report the only method to estimate the size of the unauthorised migrant population in the UK that currently can sensibly be applied is the residual method. As the method relies on data from the census of the population undertaken every 10 years, it is not possible to produce an estimate for a more recent year.

A copy of the Research, Development and Statistics On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html.

### National Identity Register

**David Howarth:** To ask the Secretary of State for the Home Department what *(a)* quality of service level and *(b)* other measures of availability he plans to set for the National Identity Register. [11990]

**Andy Burnham:** We are currently in discussion with various organisations who would be potential users of the identity card scheme for identification and identity verification to determine their performance requirements, which will include service levels and levels of availability. However, no final decisions will be ready until the procurement process has commenced.

**David Howarth:** To ask the Secretary of State for the Home Department what steps will be taken to prevent confidential personal information from being *(a)* recorded under an individual's national identity registration number and *(b)* otherwise connected to that individual's record on the register, with particular reference to recording of attendance at particular hospitals and clinics. [12033]

**Andy Burnham** *[holding answer 14 July 2005]:* The purpose of the National Identity Registration Number is described in clause 2(5), which provides that

> "An entry in the Register consisting of all the information recorded about an individual must be given a unique number, to be known as the National Identity Registration Number".

The information which can be recorded is that allowed for under Schedule one of the Identity Cards Bill and the definition of "registrable facts". Attendance at particular hospitals or clinics does not fall within the information which could be held on the Register.

**David Howarth:** To ask the Secretary of State for the Home Department what plans he has for limiting the use of the proposed National Identity Registration Number, or other identifying numbers established under the Identity Cards Bill, by *(a)* Government Departments, *(b)* executive agencies, *(c)* private sector organisations and *(d)* other bodies, including other Governments. [12034]

**Andy Burnham** *[holding answer 14 July 2005]:* The Government has made clear that the National Identity Registration Number would be a general identifier under the terms of Schedule one Part two, paragraph four of the Data Protection Act 1998 which states that:

> "personal data which contain a general identifier falling within a description prescribed by the Secretary of State by order are not to be treated as processed fairly and lawfully unless they are processed in compliance with any conditions so prescribed in relation to general identifiers of that description".

This means that the use of the number by other organisations would have to be specified in regulations.

There is no provision for providing information to other Governments, including the National Identity Registration Number, except in the limited circumstances provided for in clause 20 relating to existing provisions in the Anti-terrorism, Crime and

Security Act 2001. Any such provision of information is subject to restrictions, which means that the Secretary of State may veto the provision.

**David Howarth:** To ask the Secretary of State for the Home Department what failure rate levels would be assessed as unacceptable for biometrics to be used in the national identity card in relation to *(a)* failure to enrol, *(b)* false negatives in identification and *(c)* false positives in identification. [12036]

**Andy Burnham** *[holding answer 14 July 2005]:* The Home Office is currently in discussion with various organisations who would be potential users of the identity cards scheme for identification and identity verification. These discussions include what performance is acceptable from all forms of identification currently being considered—card, PIN and biometric identification. However no final conclusions regarding acceptable success or failure rate levels in the categories described, have been reached in these discussions.

The performance of one particular identifier or technology is not the key determinant. During enrolment in the scheme we will make a biometric check against all previously enrolled biometrics. Any matches with one particular biometric which may be 'false' would be resolved by other biometric matches or by inconsistencies with the information held about the applicant and the record against which it had been matched.

**David Howarth:** To ask the Secretary of State for the Home Department what assessment he has made of the risks to the public including the risks of identity fraud, that might arise from widespread use of a single identifying number for each individual in the proposed national identity number system; and what safeguards he plans to introduce against possible risks. [12037]

**Andy Burnham** *[holding answer 14 July 2005]:* An extensive risk assessment of the use of a single identifying number has been conducted by experienced fraud and security experts. This has resulted in the selection of a new single identifying number that is unrelated to any number issued by the Government at the present time. However, due to the nature of the information involved in the assessment and in order to protect the integrity of the National Identity Register, no further details can be provided. Under the terms of Schedule one Part two, paragraph four of the Data Protection Act 1998 the use of the National Identity Registration Number by other organisations would have to be specified in regulations.

### National Police Improvement Agency

**Mr. Denham:** To ask the Secretary of State for the Home Department when he expects to appoint the Chief Executive of the National Police Improvement Agency. [12828]

**Mr. Charles Clarke** *[holding answer 18 July 2005]:* The recruitment process is underway and I expect to be able to make an announcement in the autumn.

### Parenting Orders

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many parenting orders have been made in each year since the order became available; and how many have been breached, broken down by local authority area. [8327]

**Fiona Mactaggart:** 284 parenting orders were made during the pilot phase between September 1998 and March 2000. 5,631 orders have been made since they became available throughout England and Wales on 1 June 2000. The Youth Justice Board collects details of parenting orders by youth offending team area and the latest available information is shown in table 1. This includes parenting orders of all kinds including those made in connection with attendance and behaviour at school. The latest available information about the number of parenting orders that have been breached, identified from data collected by courts and showing the issuing court rather than local authority area, is shown in table 2.

*Table 1: Parenting orders*

## Police (Sickness Absence)

**David Davis:** To ask the Secretary of State for the Home Department how many days were lost through sick leave *(a)* per employee and *(b)* per officer in each police force in England and Wales in each year since 1997. [9590]

**Mr. Charles Clarke:** Information on working days lost is published in Police Performance Monitoring Reports.

Data in these reports cover the period 2001–02 to 2003–04 and are available on the following website: http://www.policereform.gov.uk/psu/performance monitors.html.

Data for 1999–2000 and 2000–01 can be found in the 2000–01 report of Her Majesty's Chief Inspector of Constabulary tables 10 and 11. This is available from the following: http://www.archive.official-documents.co.uk/document/hoffice/hc230/hmcreport.pdf.

Data prior to 1999–2000 are not available centrally.

## Prisons

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many people have committed suicide in prison since 1 January, broken down by *(a)* prison, *(b)* offence and *(c)* length of sentence; and how many were (i) under 21 years, (ii) 21 to 40 years, (iii) 40 to 60 years and (iv) over 60 years. [12090]

**Fiona Mactaggart:** The information requested with respect to apparently self-inflicted deaths in prisons in England and Wales, one January—end 11 July 2005 is shown in the following tables:

*(a)* Establishment:

| *Establishment* | *Number of apparent self-inflicted deaths* |
|---|---|
| Gloucester | 4 |
| Liverpool | 4 |
| Altcourse | 2 |
| Leicester | 2 |
| Norwich | 2 |
| Pentonville | 2 |
| Reading | 2 |
| Wandsworth | 2 |
| Brinsford | 1 |
| Bristol | 1 |
| Brixton | 1 |
| Chelmsford | 1 |
| Dorchester | 1 |
| Durham | 1 |
| Eastwood Park | 1 |
| Exeter | 1 |
| Full Sutton | 1 |
| Holme House | 1 |
| Lancaster Farms | 1 |
| Leeds | 1 |
| Lowdham Grange | 1 |
| New Hall | 1 |
| Nottingham | 1 |
| Preston | 1 |
| Rye Hill | 1 |
| Stoke Heath | 1 |
| Swaleside | 1 |
| Swansea | 1 |
| Wakefield | 1 |
| Weare | 1 |
| Wymott | 1 |
| Total | 43 |

(b) Offence type:

| Offence type | Number of apparent self-inflicted deaths |
|---|---|
| Violence against the Person | 18 |
| Sexual Offences | 4 |
| Burglary | 4 |
| Robbery | 6 |
| Theft and Handling | 5 |
| Fraud and Forgery | 1 |
| Drug Offences | 1 |
| Other Criminal Offences | 1 |
| Offences not recorded | 1 |
| Arson and Criminal Damage | 2 |
| Total | 43 |

(c) Length of sentence:

| Sentence length category | Number of apparently self-inflicted deaths |
|---|---|
| unsentenced | 25 |
| > three months and ⩽ 12 months | 2 |
| > 12 months and ⩽ 18 months | 1 |
| > 18 months and ⩽ three years | 1 |
| > three years and ⩽ 5 years | 2 |
| > five years and ⩽ 10 years | 5 |
| > 10 years and < life | 1 |
| life | 6 |
| Total | 43 |

(d) Age:

| Age Category | Number of apparently self-inflicted deaths |
|---|---|
| Under 21 years | 6 |
| 21 years-39 years | 26 |
| 40 years-59 years | 9 |
| Over 60 years | 2 |
| Total | 43 |

## Prisons

**Paul Flynn:** To ask the Secretary of State for the Home Department what changes have taken place in the level of illegal drug use in each prison in England and Wales in each of the past 10 years. [10864]

**Fiona Mactaggart:** The best measure of changes in drug misuse in prisons is provided by the random mandatory drug testing programme. Yearly percentage positive rates for each prison for the past ten years will be placed in the Library.

**Mr. Bellingham:** To ask the Secretary of State for the Home Department in how many instances at each prison members of the Independent Monitoring Board have disagreed with the outcome of a review of continued segregation in a prison segregation unit in each of the last five years; and if he will make a statement. [13391]

**Fiona Mactaggart:** This information is not held centrally.

## Scanner Technology

**Mr. Gerald Howarth:** To ask the Secretary of State for the Home Department what assessment he has made of the contribution which QinetiQ's scanner technology could make to the anti-terrorism campaign. [12436]

**Mr. Charles Clarke:** Millimetre wave imaging is one of a number of technologies being evaluated by the police service and the Home Office Scientific Development Branch for detecting bombs and weapons carried under clothing. It relies on non-ionising radiation which is emitted by all objects in the environment or can be generated artificially (for indoor use).

The underlying technology was developed with UK Government funding and devices have been deployed experimentally at an airport and operationally at channel ports, where they are used to detect stowaways in vehicles. QinetiQ's latest system will be evaluated as soon as it is available, probably in early August. The new device is smaller than the stowaway detection system and is designed to inspect individuals or groups of people. The image shows the surface of the body and objects under the clothing and needs to be interpreted by a trained operator.

Millimetre wave imaging systems have clear capabilities in this area. However, like all explosives detection systems they need to be deployed as part of a planned security system which incorporates equipment, staff and procedures to interpret and deal with the information gathered by the equipment.

## Sectors Based Scheme Review

**Mr. Malins:** To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 23 June 2005, *Official Report*, column 47WS, on Sectors Based Scheme Review, how many work permits were issued under the scheme in respect of Bangladesh; how many persons named in work permits were granted entry clearance; how many appeals against refusals have been heard to date; how many were successful; what consultation with Bangladeshi stakeholders took place in reviewing the scheme; if he will publish the results of the review of the scheme; what evidence has been disclosed as to abuse of the scheme; and what proposals he has for a substitute for the scheme before a new points system is introduced. [12161]

**Mr. McNulty:** 8,761 Sectors Based Scheme (SBS) work permits have been issued to Bangladeshi nationals since the scheme was introduced on 31 May 2003, of which 8,157 were issued for work in the hospitality sector and 604 for the food manufacturing sector. To date, 3,023 Bangladeshi nationals issued with SBS permits have been granted entry clearance.

We are unable to provide figures as to how many appeals against refusals to grant entry clearance have been heard to date and how many were successful due to the disproportional cost that would be incurred in obtaining this information.

The recent review of the SBS involved both the distribution of a review questionnaire to employers in the sector to assess the effectiveness of the scheme, and face-to-face interviews with key representatives. Over 200 responses were received to the questionnaire from

employers in the Indian restaurant trade, and a meeting at official level was held with the Bangladeshi Caterers Association on 29 September 2004.

The findings of the review of the Scheme, including evidence of abuse of the Scheme, were published on the Home Office website on 30 June 2005. The Government published its Five-Year Strategy for Asylum and Immigration on 7 February 2005.

This contained a commitment to phase out the existing low-skilled schemes, such as SBS, in light of the additional labour now accessible from the new accession states. The five year strategy contains a commitment to introduce small tightly managed quota based schemes, where there are identifiable needs that are not being met by workers from the expanded ED workforce. We will undertake further consultations with representatives from the hospitality sector in due course.

### Secure Training Centres

**Mr. Oaten:** To ask the Secretary of State for the Home Department how much has been paid by *(a)* his Department and *(b)* the Youth Justice Board to each of the contractors running secure training centres in each financial year of their operation. [10980]

**Mr. Charles Clarke** *[holding answer 11 July 2005]:* During the period for which information is available, the following sums were paid by the Youth Justice Board:

*Sums paid to secure training centre contractors*

£

| | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Medway[1] | 8,163,295 | 11,457,209 | 11,770,212 |
| Rainsbrook[2] | 8,530,938 | 9,684,211 | 9,830,808 |
| Hassockfield | 5,309,844 | 5,490,488 | 5,508,766 |
| Oakhill | — | — | 7,241,944 |

[1] Medway increased from 44 beds to 76 in November 2002

[2] Rainsbrook increased from 44 beds to 76 in June 2002

### Sexual Offences Act

**Sandra Gidley:** To ask the Secretary of State for the Home Department how many people have been prosecuted under section *(a)* 30 and *(b)* 38 of the Sexual Offences Act 2003; and how many prosecutions were successful in each case. [12929]

**Fiona Mactaggart:** Offences under the Sexual Offences Act 2003, including sections 30 and 38, came into force on 1 May 2004. Statistics of court proceedings for 2004 will be published in the autumn.

### Uninsured Drivers

**Mr. Ian Austin:** To ask the Secretary of State for the Home Department what steps he plans to take to reduce the number of uninsured drivers. [12617]

**Paul Goggins:** We have introduced in the Serious Organised Crime and Police Act 2005 a specific power for the police to seize immediately any vehicle driven by someone who is uninsured. Release of the vehicle is subject to the payment of prescribed charges and the production of a valid insurance certificate; otherwise the vehicle will be disposed of by the police. This power came into effect on 6 July 2005.

We also introduced in the same Act provisions to improve police access to the Motor Insurance Database (MID). These will make available to the police information about vehicles the use of which has been but is no longer covered by insurance and so enhance their ability to check an individual driver's status. The police use of this new facility, particularly in conjunction with automatic number plate recognition technology, should significantly improve their detection capability and help reduce the number of uninsured drivers.

### Victims of Crime

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will list organisations which have received funding from the Victims Fund to develop community-based services for victims of sexual crime, broken down by amount. [11954]

**Fiona Mactaggart:** A list of the organisations and amounts awarded from the Victims Fund in 2004–05 and 2005–06 will be published on the Government funding website in due course, in accordance with established best practice under the compact. Details of the successful organisations are set out in the following table.

*Victims Fund: Provision for victims of sexual offending*

**Mrs. Gillan:** To ask the Secretary of State for the Home Department when he plans to publish the responses to the consultation on the Victim's Code of Practice. [11955]

**Fiona Mactaggart:** Consultation on the draft Victims' Code of Practice ended on 30 May 2005. A summary of the responses received will be published in August and the final Victims' Code of Practice will be laid before Parliament in October.

## Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7865]

**Mr. Charles Clarke:** There is no requirement for departments to keep separate records of the number of days lost or the number of cases of work related stress and while the Home Office records sickness absence due to stress or anxiety it is not possible to state what percentage of these absences may be due specifically to

work related stress. For this reason the information requested relating to the number of work days lost, and the cost of this cannot be provided.

Where the Health and Welfare Service in the Home Office and the Staff Care and Welfare Service (SCWS) in the Prison Service record information on staff who self refer to them reporting work related stress or where this is a factor this information has been provided.

In the Home Office the number of interviews undertaken by the Health and Welfare Service over the last three years where work related stress has been cited as a factor as follows:

| | *Number* |
|---|---|
| 2002–03 | 747 |
| 2003–04 | 817 |
| 2004–05 | 1,091 |

These figures cover staff in the Home Office, United Kingdom Passport Service (UKPS) and the Forensic Science Service. It should also be noted that the figures may include multiple interviews with the same member of staff.

In the Prison Service figures for the last three years where staff have contacted SCWS reporting work related stress are:

| | *Number* |
|---|---|
| 2002 | 623 |
| 2003 | 542 |
| 2004 | 586 |
| 2005 (year to date) | 245 |

There have been no compensation payments made to current employees or former employees of the Home Office or any of its agencies as a result of work related stress over the last three years.

The Home Office and its agencies have a range of measures in place to reduce work related stress and to provide guidance, practical assistance and support to staff where it may arise.

These measures include the a clear statement of departmental values; provision of a range of work-life balance policies and practices, including flexible working, special leave and child care support; managing attendance; training to ensure that all staff have the right skills and competences to do their jobs; and comprehensive policies to tackle bullying, harassment and discrimination.

As the range and nature of the measures in place to reduce work related stress varies it is not possible to provide the costs except at disproportionate cost.

## WORK AND PENSIONS

### Access to Work Scheme

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions (1) what assessment has been made of the *(a)* effectiveness and *(b)* effects of the Access to Work scheme; [7079]

(2) how much has been spent in each of the last five years promoting Access to Work. [7080]

**Mr. Swire:** To ask the Secretary of State for Work and Pensions (1) how many people have made use of Access to Work in each of the past five years; [7326]

(2) what the cost of the Access to Work scheme has been in each of the last five years; [7327]

(3) how much the Department has spent advertising Access to Work in each of the last five years. [7328]

**Mrs. McGuire:** Access to Work provides practical advice and support aimed at overcoming work-related obstacles resulting from disability. It does this through a system of grants towards the cost of providing support. Types of help available include the additional costs in travelling to work; providing human intervention support in the workplace; adapting work premises, and providing special aids and equipment in the workplace. Access to Work is open to those who are employed as well as people moving out of unemployment and is a highly effective job retention measure.

A report published in June 2004 by the Disability Employment Coalition 'Access to Work for Disabled People', found that for every pound spent, the Exchequer recouped £1.48 in additional revenue. This report is available in the Library.

In an internal study published in September 2002, 'Evaluating the Impact of Access to Work: A Case Study Approach' report reference WAE 138, clear evidence was demonstrated that Access to Work helps people retain a specific job that they would otherwise have lost. This report is also available in the Library.

In the last five years we have invested around £300,000 a year in marketing and publicising our disability services and programmes. As Access to Work represents an integral part of this, separate information on Access to Work promotional costs is not available.

Promotional material is available for employers and disabled people in a wide range of media including leaflets, audiotapes and videos as well as on the Jobcentre Plus website. A new suite of leaflets about Access to Work has also recently been produced for promotion at conferences and exhibitions.

Our Disability Employment Advisers regularly meet local employers to promote the full range of disability services, including Access to Work, and information on Access to Work is also available to individuals and employers through our Access to Work Advisers. Many disability organisations actively promote Access to Work and some include information about Access to Work on their web pages, which we regularly quality assure.

Information on spend on the Access to Work programme in the last five years is in the following table:

*Access to Work spend*

| | £ million |
|---|---|
| 1999–2000 | 24.4 |
| 2000–01 | 32.5 |
| 2001–02 | 42.5 |
| 2002–03 | 50.3 |
| 2003–04 | 56 |

*Source:*
DWP Disability and Rehabilitation Division

Information on the number of people helped by Access to Work in each of the last five years is in the following table:

*Number of people helped by Access to Work in the last five years*

| | Beneficiaries | | |
|---|---|---|---|
| | *New* | *Existing* | *Total* |
| 1999–2000 | 9,786 | 10,943 | 20,729 |
| 2000–01 | 12,318 | 13,569 | 25,887 |
| 2001–02 | 13,137 | 19,661 | 32,798 |
| 2002–03 | 15,199 | 21,407 | 36,606 |
| 2003–04 | 15,433 | 19,411 | 34,844 |

*Note.*
New beneficiaries are people who receive Access to Work assistance for the first time ever within the financial year. Existing beneficiaries are people who received Access to Work assistance in a previous financial year, and continue to receive financial support.
*Source:*
Jobcentre Plus internal Management Information.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how much money has been spent on publicising the Access to Work scheme in 2004–05; and what the budget for promoting the scheme in 2005–06 is. [10685]

**Mrs. McGuire:** In 2004–05, we allocated around £300,000 for marketing and publicising our disability services and programmes, including access to work. The same amount has been allocated for 2005–06. Information is not yet available for costs incurred in promoting our disability services and programmes in 2004–05. Separate information on access to work promotional costs is not available.

### Administrative Costs

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what recent estimates he has made of the administrative cost of delivering *(a)* pension credit, *(b)* retirement pension and *(c)* child benefit for a period of one year, calculated on the same basis as that used by the Department to inform paragraph 13 of the Committee of Public Accounts Twelfth Report of Session 2002–03, Tackling Pension Poverty: Encouraging Take-up of Entitlements. [10764]

**Mr. Plaskitt:** Information is not currently available in the format requested. We expect information on administration costs to be available after our new suite of resource management systems is introduced in early 2006. Preliminary work will provide some data in the autumn of this year. In the meantime, the department's administration costs are set out by individual request for resources (RfR) in the departmental resource accounts, copies of which are placed in the Library.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the *(a)* administrative and *(b)* total costs in a year of (i) the winter fuel payment, (ii) free television licences for the over 75s, (iii) the pensioner Christmas bonus and (iv) the age-related pension top-up at age 80; and if he will make a statement. [1599]

**Mr. Timms:** Information on administrative costs is not currently available in the format requested. We expect information on administration costs to be available after our new suite of Resource Management systems is introduced in late 2005 and early 2006. In the meantime, the Department's administrations costs are set out, by individual Request for Resources (RfR), in the Departmental Resource Account for 2003–04, a copy of which was placed in the Library.

The 2003–04 outturn figures for total expenditure in cash terms are in the following table:

| | *Cost (£ million)* |
|---|---|
| Winter fuel payments | 1,935 |
| TV licences | 405 |
| Christmas bonus | 123 |
| Non-contributory state pension | 30 |

*Notes:*
1. Figures are for GB—but see note 2.
2. TV licence payments figure has been corrected since Budget 2005 and includes Northern Ireland expenditure.
3. Christmas bonus figure reflects contribution-based expenditure and includes expenditure on children and people of working age.
4. A non-contributory state pension (a Category D Pension) is paid to those from age 80 who are getting no state pension or a state pension that is lower than the level of a Category D Pension—£46.35 in 2003–04.
5. Benefit expenditure figures are consistent with Budget 2005.

*Source:*
DWP Forecasting Division's Expenditure Table 1. This table can also be found on the internet at: http://www.dwp.gov.uk/asd/asd4/expenditure.asp

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the annual cost to his Department of administering the *(a)* state pension and *(b)* pension credit; and if he will make a statement. [1036]

**Mr. Timms:** Information is not currently available in the format requested. We expect information on administration costs for state pension and pension credit to be available after our new suite of Resource Management systems is introduced in The Pension Service in early 2006. Preliminary work will provide some data in the autumn of this year. In the meantime, the department's administration costs are set out by individual Request for Resources (RfR) in the Departmental Resource Accounts, copies of which are placed in the Library.

### Benefit Fraud Hotline

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions how many calls have been made in each year to the benefit fraud hotline since the service started. [8188]

**Mr. Plaskitt:** Information regarding calls made to the National Benefit Fraud Hotline has only been available from April 2004. Between April 2004 and March 2005, 278,513 calls were made. However, available information regarding the number of calls actually answered from 1997 is in the table.

*Calls answered by the National Benefit Fraud Hotline*

| *April to March* | *Number* |
|---|---|
| 1997–98 | 188,038 |
| 1998–99 | 170,032 |
| 1999–2000 | 162,067 |
| 2000–01 | 208,201 |
| 2001–02 | 205,999 |
| 2002–03 | 159,290 |
| 2003–04 | 211,054 |
| 2004–05 | 199,004 |

*Note:*
Information not held prior to April 1997.
*Source:*
National Benefit Fraud Hotline

### Benefits Payment

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions pursuant to the answer given on 20 June 2005, *Official Report*, column 707W, on Benefits/Pensions (Payments Methods), if he will place Post Office Ltd.'s 'Operation Focus' publication in the Library. [9609]

**Mr. Plaskitt:** The Department for Work and Pensions has no involvement in the 'Operational Focus'. The publication is owned by Post Office Ltd.

### Carers

**Vera Baird:** To ask the Secretary of State for Work and Pensions if he will make a statement on the national insurance contributions towards a basic state pension of a person who cares for an elderly or a sick relative for less than 35 hours per week but because of their caring responsibilities cannot work. [7212]

**Mr. Plaskitt:** I refer the hon. Member to the written answer I gave her on 27 June 2005, *Official Report*, columns 1256–57W.

### Child Support Agency

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how much funding has been allocated to the child maintenance scheme for 2005 in *(a)* the UK and *(b)* Scotland; and if he will make a statement. [10066]

**Mr. Plaskitt:** The Child Support Agency has funding of £323 million for 2005–06 to undertake the administration of its UK operations. The funding is allocated to the Agency's two territories and within that to the six child support centres, headquarters and support locations. Each child support centre covers a wide geographical area and none is specific to Scotland.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many *(a)* parents with care, *(b)* non-resident parents and *(c)* children included in Child Support Agency maintenance assessments there are in each parliamentary constituency; what proportion of each group are new scheme cases, broken down by parliamentary constituency; and what proportion of parents with care receive income support or jobseeker's allowance, broken down by parliamentary constituency. [1988]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member.

*Letter from Stephen Geraghty to Mr. David Laws, dated 18 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many *(a)* parents with care *(b)* non-resident parents and *(c)* children included in Child Support Agency maintenance assessments there are in each parliamentary constituency; what proportion of each group are new scheme cases broken down by parliamentary constituency; and what proportion of parents with care receive income support or jobseeker's allowance broken down by parliamentary constituency.

At May 2005 there were around 262,500 old scheme cases held on the new computer system. I am not currently able to provide the information you are seeking in relation to these cases because of system limitations. However, I expect to be in a position to do so by this Autumn. In addition, at May 2005, there were a further 12,000 new scheme cases being progressed clerically for which I am unable to break down the information as requested.

I hope you find this helpful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many staff are employed in each Child Support Agency business unit; how many are assigned to *(a)* front end functions, *(b)* enforcement and *(c)* complaints; and what proportion of Agency staff each represents. [1995]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 19 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, how many staff are employed in each Child Support Agency business unit; how many are assigned to *(a)* front end functions *(b)* enforcement and *(c)* complaints; and what proportion of Agency staff each represents.

I am sorry that I could not be more helpful at this time.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will list the members of the Child Support Agency's management board since 2001; when each became a member; and what the reasons for each leaving the board were. [1993]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the requested information.

*Letter from Stephen Geraghty to Mr. David Laws, dated 19 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will list the members of the Child Support Agency's management board since 2001; when each became a member; and what the reasons for each leaving the board were.

I have listed below the executive and non-executive members of the CSA management board since 2001 in order of appointment, providing reasons for leaving where appropriate.

| | *Appointment* | *Reason for leaving* |
|---|---|---|
| *Executive members* | | |
| Mick Davison | September 1995 to January 2003 | Moved to a new role within DWP |
| Mike Isaac | April 1996 to present | — |
| Gerry Keenan | November 1998 to January 2004 | Moved to a new role within the Department for Social Development in Northern Ireland |
| Vince Gaskell | November 1999 to August 2003 | Left DWP |
| Paul Hedley | January 2000 to May 2002 | Moved to a new role within DWP |
| Marietta Di Ciacca | February 2000 to January 2001 | Moved to a new role within DWP |
| Doug Smith | September 2000 to April 2005 | Retired |
| Helen Ghosh | November 2000 to August 2001 | Left DWP |
| Elaine Fox | November 2000 to present | — |
| Mark Neale | November 2001 to November 2003 | Left DWP |
| Deb Chakravarty | October 2002 to September 2003 | Left DWP |
| Jim Edgar | January 2003 to present | — |
| John Oliver | June 2003 to October 2004 | Moved to new role within DWP |
| Michael Foley | October 2003 to March 2005 | Secondment ended |
| Sheila Bird | October 2003 to October 2004 | Secondment ended |
| Marilyn Stirling | November 2003 to May 2004 | Contract ended |
| Shirley Trundle | November 2003 to present | — |
| Barney McGahan | January 2004 to present | — |
| Ron Eagle | June 2004 to present | — |
| Mark Grimshaw | January 2005 to present | — |
| Stephen Geraghty | April 2005 to present | — |
| *Non executive team members* | | |
| Marjorie Brown MBE | January 1999 to June 2002 | Contract expired |
| Clare Dodgson | February 1999 to September 2001 | Moved to a new role |
| Mary Hay | May 2002 to present | — |
| Dorit Braun | September 2002 to December 2004 | Resigned |
| Barbara Moorhouse | February 2003 to present | — |
| John Cross | July 2003 to present | — |

As at April 05 the Agency has 9,795 staff (whole time equivalent employees). The information you requested is in the tables. Note these figures do not include staff employed in Northern Ireland.

*Number of CSA staff employed in each business unit*

| *Business units* | *Frontline staff* | *Total staff* |
|---|---|---|
| Northern territory | 2,917 | 3,392 |
| Southern territory | 3,186 | 3,793 |
| Eastern territory (Great Britain) | 518 | 575 |
| Enforcement | 271 | 294 |
| National helpline | 430 | 446 |
| HQ and support services | — | 1,295 |
| Agency total | 7,322 | 9,795 |

*Source:*
April 05 Capacity Report and Dataview Disc

*Number and proportion of total CSA staff employed in frontline functions, enforcement and complaints*

| | *Number of staff* | *Proportion (percentage)* |
|---|---|---|
| Frontline functions | 7,322 | 75 |
| Enforcement | 271 | 3 |
| Complaints | 678 | 7 |

*Source:*
April 2005 Capacity Report

I hope you find this useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions (1) if he will place in the Library a copy of the Child Support Agency's aftercare policy; [6194]

(2) if he will place a copy of the Child Support Agency's aftercare policy statement in the Library. [8743]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 19 July 2005:*

The Secretary of State has asked me to reply to your recent Parliamentary Questions on whether a copy of the Child Support Agency's aftercare policy will be placed in the Library. As he is currently on leave I am responding on his behalf.

There is a standard aftercare policy currently in operation for Independent Case Examiner complaints. The process is explained to the customer in the report they receive from the Independent Case Examiner and reads as follows:

'The *[Child Support]* Centre has agreed to monitor your case as part of the Agency's aftercare process. This means that within six weeks of the date of this report, the Centre will conduct a check of the case to ensure that there are no new or outstanding issues. If appropriate, you may be contacted by the Agency to give you up to date information about your case and to discuss any concerns you may have.'

We are currently looking at providing a consistent aftercare policy to cover all complaints made to the Agency, which will include Member of Parliament and ministerial correspondence complaints. I will make this policy available in the Library once it has been agreed and implemented.

I hope this is helpful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what information the Child Support Agency's Sapphire database contains; and what Sapphire payments are. [9326]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 19 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what information the Child Support Agency's Sapphire database contains; and what Sapphire payments are.

The Agency manages a clerical database which is a stand-alone IT system and is used to control cases that we can no longer progress on the mainframe CSCS or CS2 computer systems. This database was originally managed by a group of staff referred to as the Sapphire Team. We no longer use this term.

The database contains the following information:

Details of person with care and non-resident parent

Payments made to parent with care

Payments made to Secretary of State

Methods of collection and methods of payment

Schedules of collections and payments

The database helps to maintain clerical payments, which are currently issued through two processing centres. The Client Funds Account team in Longbenton receive the payments. Two processing centres in Cumnock and Stockport ensure the money is paid out to the person with care or Secretary of State.

I hope you find this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will make a statement on the purpose of the Child Support Agency's War Room. [9327]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 19 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, if he will make a statement on the purpose of the Child Support Agency's War Room.

"War Room" is an informal term used by many organisations to identify meetings held to discuss subjects of high importance and/or great complexity. This is also true for the Child Support Agency.

I hope you find this reply helpful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what action was taken following the recommendation by the Child Support Agency's internal audit to prevent staff manipulating their workflow to allow them to select cases which require minimum processing effort. [11853]

**Mr. Plaskitt:** The immediate response to the internal audit recommendation was to separate backlog work from new work, and deal with each stream separately. This solution is now giving way to an IT solution. The IT solution will restrict the ability to re-allocate work, so that only team leaders can do this.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will list the Child Support Agency's identified risks over the last four years; and what the failed *(a)* level and *(b)* nature of each was. [3865]

**Mr. Plaskitt:** Disclosure of this information would be likely to prejudice the effective management of the identified risks and would be likely to inhibit the free and frank provision of advice in these areas.

**Derek Wyatt:** To ask the Secretary of State for Work and Pensions what plans he has to reform the Child Support Agency; and if he will make a statement [9819]

**Mr. Plaskitt** *[holding answer 5 July 2005]:* The problems surrounding the Child Support Agency are well known. We have recently appointed a new Chief Executive and as a priority have asked him to carry out a wide ranging review of the agency's operations and structures.

He will be reporting his findings to us in the next few months setting out his proposals to improve the agency's performance.

### Disability Discrimination Act

**Roger Berry:** To ask the Secretary of State for Work and Pensions when he plans to announce his Department's response to the consultation on the Disability Discrimination Act 1995 Regulations as they affect people with a cancer diagnosis. [8180]

**Mrs. McGuire:** This consultation document (Cm6402) was published on 16 December 2004 and covered a wide range of issues, including proposals on the use of a regulation-making power to exclude certain cancers (mainly minor skin cancers) from the scope of the extended definition of disability in the Disability Discrimination Bill, now the Disability Discrimination Act 2005. The formal consultation ended on 18 March.

During consideration of the Disability Discrimination Bill in the House of Lords, the Government undertook not to use the cancer regulation-making power until it had reviewed in consultation with the Disability Rights Commission and cancer organisations, evidence relating to disability discrimination in respect of cancers not likely to require substantial treatment. This exercise supplemented the public consultation and was carried out in April and May. We are considering the outcomes of both these exercises and expect to be in a position to publish the results shortly.

### Disability Premium

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many single claimants aged *(a)* less than 25 years and *(b)* 25 years and older are in receipt of (i) disability premium, (ii) enhanced disability premium and (iii) severe disability premium. [1987]

**Mrs. McGuire:** The information is in the table.

*Single claimants of income support (IS), income-based jobseekers allowance(JSA), housing benefit (HB) and council tax benefit (CTB) by age and receipt of type of disability premium, Great Britain, May 2003*

| | *Disability premium (DP)* | *Severe disability premium (SDP)* | *Enhanced disability premium (EDP)* | *Claimants with one or more of DP, SDP or EDP* |
|---|---|---|---|---|
| All single claimants | 1,030,000 | 670,000 | 110,000 | 1,530,000 |
| Those under 25 | 70,000 | 10,000 | 10,000 | 70,000 |
| Those 25 and over | 960,000 | 660,000 | 100,000 | 1,450,000 |

*Notes:*
1. Due to the estimation procedure to produce the figures for housing benefit and council tax benefit and the collection procedures in Scotland, figures are rounded to the nearest 10 thousand.
2. Totals may not sum due to the estimation process involved in producing the figures.
3. Overlaps between the benefits have been removed, however there will be overlaps in the figures as it is possible to be in receipt of more than one of the premiums listed.
4. Council tax benefit cases exclude any second adult rebate cases.
5. Housing benefit cases exclude extended payment cases.

*Sources:*
1. Housing benefit and council tax benefit management information system, annual 1 per cent. sample taken in May 2003.
2. Income support and jobseekers allowance: Information Directorate, 5 per cent. samples

### Housing Allowance/Benefit

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what assessment he has made of the implications of using different IT systems to process housing benefit in the local housing allowance pilot areas for the administration of the system. [8865]

**Mr. Plaskitt:** It is the responsibility of each local authority to review the performance of their information technology supplier. The Department has not made an assessment of the implications of using different IT systems to process housing benefit in the local housing allowance pilot areas.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions whether the single housing benefit form HBRR1 is *(a)* included in all rapid claim packs and *(b)* applicable in every local authority. [5440]

**Mr. Plaskitt:** The housing benefit form HBRR1 is included in all rapid reclaim packs for income support and jobseeker's allowance. These packs are issued nationally by Jobcentre Plus and cover all local authorities.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions what effect the introduction of local housing allowances has had on the level of fraud in relation to housing benefit in the pathfinder areas; and if he will make a statement. [5473]

**Mr. Plaskitt:** The information requested is not available.

We are continuing to evaluate the local housing allowance (LHA) with the pathfinder areas. We are not yet in a position to estimate the impact of the LHA on the level of fraud or overpayments.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions what the *(a)* initial and *(b)* projected cost of setting up the local housing allowance scheme in the nine pathfinder areas is, broken down by (i) benefit payments and (ii) IT expenditure. [5490]

**Mr. Plaskitt:** The total administrative costs of the local housing allowance pathfinders in 2003–04 and 2004–05 were £6.1 million. Of this, £1.4 million covered IT expenditure. Administrative funding for 2005–06 is estimated at £2.75 million, none of which is earmarked for IT costs.

Benefit expenditure is estimated to be £23 million in 2004–05, although this does not represent full year costs for all nine pathfinders as not all of them had fully converted their caseload at the start of the year, and £32.5 million in 2005–06.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions what performance standards for local authority administration of housing benefit have been introduced since 1997; and how many local authorities have met these performance targets since they were introduced. [5491]

**Mr. Plaskitt:** The Performance Standards were first launched in March 2002 to set out clearly for the first time the standards of service that local authorities should be aiming to deliver. The standards described what needed to be done to administer housing benefit effectively and securely, and addressed all aspects of administration.

The Performance Standards were reviewed in 2004 and a revised publication was issued in March 2005, based on a significantly reduced set of standards to reduce the burden of self-assessment for all 408 local authorities.

The information is in the table.

*Number of authorities meeting the standards for processing claims to benefit in each of the years shown*

| *Performance standard:* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Number of local authorities recording new claim processing times of 36 days or less | 119 | 135 | 202 |
| Number of local authorities deciding on 90 per cent. of claims or more within 14 days | 73 | 63 | 109 |
| Number of local authorities recording change of circumstances processing times of nine days or less | 138 | 168 | 191 |

*Source:*
Local Authority submitted data.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many appeals have been made against housing benefit decisions in each year since 1997; and in what proportion of cases the appeal was decided in favour of the appellant. [5493]

**Mrs. McGuire:** This is a matter for Christina Townsend, chief executive of the Appeals Service. She will write to the hon. Member.

*Letter from Phil Teece to Mr. Paul Goodman, dated 18 July 2005:*

The Secretary of State has asked Christina Townsend, Chief Executive, to reply to your question regarding how many appeals have been made against Housing Benefit decisions in each year since 1997; and in what proportion of cases the appeal was decided in favour of the appellant. Christina is away from the office at the moment and I have been asked to reply.

The information you have asked for is not available in the format requested as the Appeals Service only assumed responsibility for Housing Benefit appeals from July 2001. The table below, therefore, only shows the number of appeals made against Housing Benefit decisions from 2001 and in what proportion of cases the appeal was decided in favour of the appellant.

*Housing Benefit Appeals Found in Favour of the Appellant*

| | *Lodged* | *Cleared in Favour* | *% Cleared in Favour* |
|---|---|---|---|
| Apr 01–Mar 02 | 3,940 | 305 | 7.71% |
| Apr 02–Mar 03 | 4,170 | 700 | 16.75% |
| Apr 03–Mar 04 | 4,180 | 645 | 15.38% |
| Apr 04–Mar 05 | 3,900 | 750 | 19.27% |

*Notes:*
1. All figures are subject to change as more up to date data becomes available.
2. Figures for the latest months will rise significantly as information feeds through to the Appeals Service.
3. Figures are rounded to the nearest five.
4. "Lodged" denotes the number of reconsiderations submitted to the first tire agency. Lodged data only enters the GAPS database when the Appeal reaches the Appeals Service.
5. The appeals service only started dealing with housing benefit appeals in July 2001.
6. The totals apply to Housing Benefit appeals only and not combined Housing Benefit and Council Tax Benefit appeals.

I hope this reply is helpful.

**Joan Walley:** To ask the Secretary of State for Work and Pensions what account his Department is taking of the concerns of landlords in the private rented housing sector regarding direct payment of housing benefit to tenants. [10696]

**Mr. Plaskitt:** The general provision is that payment of housing benefit is made to the tenant. Every tenant is personally responsible for paying their rent; of those who claim housing benefit, the vast majority accept that responsibility by paying rent to their landlords.

While the present regulations give consideration to the personal responsibility of the tenant and the legitimate interests of landlords, it is ultimately the landlord's own responsibility to ensure that he obtains whatever payments are properly due to him, irrespective of the tenant's source of income.

Housing benefit regulations give local authorities wide-ranging powers to pay benefit direct to a claimant's landlord where there are eight weeks arrears of rent, unless it is in the tenant's overriding interest not to do so, or the landlord is not regarded as fit and proper to receive such payments.

Local authorities also have discretion to make direct payments at any time where they decide that it is in the tenant's best interest to do so. This provision also caters for circumstances where it may be appropriate to make direct payments where there are no rent arrears, for example where the tenant has a history of rent arrears at a previous address or where social or medical problems clearly indicate that help with budgeting is needed.

If a tenant, having originally agreed to payment direct to his landlord, then withdraws his consent it is still open to the local authority to make direct payment if they are satisfied this would be in the tenant's interest, for example, to prevent rent arrears and possible eviction.

Early experience with the local housing allowance is that landlords are increasingly working with local authorities and their concerns over tenants not paying their rent have not been realised.

### Incapacity Benefit

**Mr. McFadden:** To ask the Secretary of State for Work and Pensions how many people in Wolverhampton South East constituency are in receipt of incapacity benefit. [10994]

**Mrs. McGuire:** As at February 2005, there were 4,600 incapacity benefit and severe disability allowance claimants in the Wolverhampton South East parliamentary constituency.

**Adam Afriyie:** To ask the Secretary of State for Work and Pensions what his estimate is of the number of people who did not receive the incapacity benefit to which they were entitled because they had incorrectly completed the initial application form in the last year for which figures are available. [12266]

**Mrs. McGuire:** The information is not collected centrally and could be obtained only at disproportionate cost.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) if he will list the organisations contracted by his Department to assess claims for incapacity benefit, broken down by region; [12951]

(2) if he will list the organisations responsible for the assessment of the performance of the organisations contracted by his Department to assess claims for incapacity benefit. [12952]

**Mrs. McGuire** *[holding answer 18 July 2005]:* No organisations have been contracted by the Department to assess claims for incapacity benefit. All such claims are assessed by Jobcentre Plus staff.

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what the estimated annual probability was of an *(a)* employed and *(b)* unemployed (i) man and (ii) woman remaining on incapacity benefit in each 12 month period since 1978–79. [13014]

**Mrs. McGuire** *[holding answer 18 July 2005]:* The information is not available.

### Jobcentre Staff (Attacks)

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many jobcentre staff have been the victims of offences of violence in each year for the last 10 years. [4945]

**Margaret Hodge:** The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

*Letter from Lesley Strathie to Mr. James Clappison, dated 19 July 2005:*

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus staff have been victims of violence in each year for the last 10 years. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The figures provided in the table relate specifically to actual physical assault as a result of staff carrying out their duties, rather than the number of victims of offences of violence as our data is not recorded in that way. Data prior to the periods covered is not available.

| *Calendar year* | *Assaults* |
|---|---|
| 2000* | 291 |
| 2001* | 326 |
| 2002 | 203 |
| 2003 | 235 |
| 2004 | 329 |

*Notes:*

1. Jobcentre Plus was set up on 1 April 2002, bringing together the former Department for Social Security's Benefit Agency (BA) and the Employment Service (ES);
2. data for the calendar years 2000* and 2001* reflects the combined figures for ES and BA. Data for the calendar years 2002–04 reflects total figures for Jobcentre Plus;
3. owing to a number of significant variables such as staffing levels, types and numbers of offices and methods of service delivery over the above period, year-on-year comparisons are not possible.

I hope this is helpful.

### Lone Parents

**Chris Ruane:** To ask the Secretary of State for Work and Pensions how many and what percentage of lone parents are in paid employment in each constituency in the UK, listed in descending order of percentage. [8267]

**Margaret Hodge** *[holding answer 4 July 2005]:* The information is not available in the form requested. The available information on the number and percentage of lone parents in employment by region in descending order of percentage is in the following table.

*Number and percentage of lone parents in employment*

| | *Number* | *Percentage* |
|---|---|---|
| South West | 85,000 | 66.4 |
| South East | 120,000 | 64.0 |
| Eastern | 75,000 | 60.4 |
| Wales | 55,000 | 59.8 |
| East Midlands | 70,000 | 58.4 |
| Yorkshire and Humberside | 85,000 | 57.5 |
| West Midlands | 90,000 | 57.4 |
| Scotland | 90,000 | 56.3 |
| North West | 135,000 | 55.1 |
| North East | 45,000 | 52.3 |
| London | 125,000 | 41.6 |

*Note:*
Numbers are rounded to nearest 5,000. Percentages are rounded to nearest percentage point.
*Source:*
Labour Force Survey, Autumn 2004.

### Medical Examination Centres

**Paul Holmes:** To ask the Secretary of State for Work and Pensions what level and type of medical qualification is required for a professional employed to conduct benefit claimants' medical examinations at a medical examination centre. [10079]

**Mrs. McGuire:** Doctors appointed by the Medical Service are specifically trained in disability assessment medicine.

All doctors who carry out work for Medical Services have to be fully registered with the General Medical Council. In addition, they must satisfy specific recruitment criteria. They are required to have at least three years post-registration experience with a spread of experience in appropriate fields, for example, General Practice, Orthopaedics, Rheumatology, rehabilitation medicine and Psychiatry.

On appointment, they must undergo specific training, show evidence of competence and be approved on behalf of the Secretary of State by the Chief Medical Advisor to the Department for Work and Pensions.

Annual continuing professional training, agreed between Atos Origin and the Department, is mandatory for every doctor providing services to the Department.

### New Deal

**Mr. Boswell:** To ask the Secretary of State for Work and Pensions what plans he has for incorporating basic skills education into the Building on New Deal programme. [6654]

**Margaret Hodge:** Basic skills is a key element of the Building on New Deal (BoND) programme. It is planned that Advisers will work with customers to identify potential literacy, language or numeracy needs and, where such needs are identified, referral for an independent assessment of those needs will be offered.

The assessment will identify the customer's current level of skill and help determine the most appropriate provision to address those needs and improve skills.

The planned suite of provision offered to clients within BoND contains courses to help improve literacy and language skills to a level where customers are able to compete more effectively in the labour market.

### Parliamentary Questions

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions when he will answer written parliamentary questions reference *(a)* 3169, *(b)* 3160, *(c)* 3158, *(d)* 3157, *(e)* 3156 and *(f)* 3153. [9582]

**Mr. Plaskitt:** Replies were given to the hon. Member on 4 and 13 July.

### Pathfinders Evaluations

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions when the next round of Pathfinders evaluations will be completed and published. [11703]

**Mr. Plaskitt** *[holding answer 14 July 2005]:* We are about to publish further evidence from the local housing allowance pathfinder evaluation. The expected publication dates for the next and future evaluation summaries and reports is given in the table. All these documents will be placed in the Library when they are published.

| *Interim summaries/reports* | *Provisional publication date* |
|---|---|
| Six month claimant report | 20 July 2005 |
| Interim landlord summary | 20 July 2005 |
| Interim landlord report | October 2005 |
| Fifteen month operational stakeholder report | End November 2005 |
| Fifteen month claimant summary | Mid December 2005 |
| Fifteen month claimant report | End March 2006 |
| Final evaluation reports | — |
| Stakeholder and market | End October 2006 |
| Claimants and landlords | Mid December 2006 |

### Pension Credit

**Andrew Rosindell:** To ask the Secretary of State for Work and Pensions whether it is his policy to uprate pension credit in proportion to average earnings for the length of this Parliament. [7532]

**Mr. Plaskitt:** The Government have given an undertaking to increase the guarantee credit in line with earnings up to March 2008.

### Pension Protection Fund

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions if he will assess the effectiveness of the Pension Protection Fund. [12508]

**Margaret Hodge:** The Pension Protection Fund (PPF) is up and running very successfully. Since its launch on 6 April 2005 10 schemes have entered an assessment period.

Since the PPF is a brand new organisation, involving a huge raft of new legislation, we have been closely monitoring the effectiveness of our regulations to ensure the PPF's smooth operation.

The PPF is working well with the pensions regulator and effective information flows have been established. The PPF also report that they have developed constructive relationships with a number of independent trustees.

There has been a broad welcome from the pensions industry to the publication of the PPF's Statement of Investment Principles and consultation on the Risk Based Levy.

### Pension Schemes/Service

**Mike Penning:** To ask the Secretary of State for Work and Pensions how the Government calculated the funding required for the financial assistance scheme. [12544]

**Mr. Plaskitt:** I refer the hon. Member to the reply I gave him on 13 July 2005, *Official Report*, column 1120W.

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions if he will break down the proportion of the total national insurance contracted out rebate going into *(a)* public and *(b)* private pension schemes by type of scheme for the latest year for which figures are available. [12146]

**Mr. Plaskitt** *[Holding answer 14 July 2005]:* The information is in the table and is based on the number of people in contracted-out schemes during the 2002–03 tax year, the latest year for which information is available:

| Type of scheme | Percentage of total rebate | | |
|---|---|---|---|
| | Public | Private | Total |
| Contracted out salary related | 36 | 26 | 62 |
| Contracted out money purchase | — | 2 | 2 |
| Contracted out mixed benefit | — | 4 | 4 |
| Appropriate personal pension | — | 32 | 32 |
| Total | 36 | 64 | 100 |

*Note:*
Percentages rounded to nearest whole figure.
*Source:*
"Second Tier Pensions provision" published by the Department for Work and Pensions using the Lifetime Labour Market Database which uses a 1 per cent. sample of national insurance records.

**Mrs. James:** To ask the Secretary of State for Work and Pensions (1) what the levels of *(a)* sickness and *(b)* other staff absence were at the Pension Service Centre in Swansea in the most recent period for which figures are available; and if he will make a statement; [11395]

(2) how many staff there are at the Pension Service Centre in Swansea, broken down by grade pay scales; and if he will make a statement. [11400]

**Mr. Plaskitt:** A breakdown of numbers of staff at Swansea pension centre is given in Tables 1 and 2. In June 2005 the average number of working days lost per member of staff as a result of sickness was 8.06 days and the average absence due to other factors was 12.63 days.

*Table 1: Permanent staff, Swansea pension centre, week beginning 4 July 2005*

| Grade | Whole-time equivalent staff | Headcount |
|---|---|---|
| Grade 6 | 1.00 | 1 |
| Grade 7 | 1.00 | 1 |

*Table 1: Permanent staff, Swansea pension centre, week beginning 4 July 2005*

| Grade | Whole-time equivalent staff | Headcount |
|---|---|---|
| Senior Executive Officer | 6.00 | 6 |
| Higher Executive Officer | 8.90 | 9 |
| Executive Officer | 166.25 | 177 |
| Administrative Officer | 300.48 | 319 |
| Administrative Assistant | 17.45 | 19 |
| Total | 501.08 | 532 |

*Table 2: Non-permanent staff, Swansea pension centre, week beginning 4 July 2005*

| Grade | Whole-time equivalent staff | Headcount |
|---|---|---|
| Administrative Officer | 59.07 | 61 |
| Administrative Assistant | 43.00 | 45 |
| Total | 102.07 | 106 |

**Mrs. James:** To ask the Secretary of State for Work and Pensions (1) what work has been transferred to the Pension Service Centre in Swansea following closure of other offices in North Devon and Cornwall; and if he will make a statement; [11401]

(2) what volume of work was processed at the Pension Centre in Swansea in each of the last 12 months for which figures are available; and if he will make a statement. [11426]

**Mr. Plaskitt:** Table 1 sets out the volumes of work processed at Swansea Pension Centre between July 2004 and June 2005. Table 2 indicates the volumes of work processed at the Pension Centre in respect of North Devon, Cornwall and Wales. Work in respect of North Devon and Cornwall was transferred to Swansea between September 2004 and March 2005.

*Table 1: Volumes of work processed, Swansea pension centre, July 2004–June 2005*

| | State pension claims processed | State pension, changes processed | Pension credit applications processed | Pension credit changes processed |
|---|---|---|---|---|
| July 2004 | 2,594 | 18,412 | 4,741 | 21,282 |
| August 2004 | 2,444 | 16,765 | 3,734 | 23,321 |
| September 2004 | 3,612 | 20,098 | 2,828 | 30,854 |
| October 2004 | 3,051 | 22,731 | 2,666 | 26,501 |
| November 2004 | 3,357 | 18,833 | 3,175 | 22,297 |
| December 2004 | 3,000 | 21,548 | 2,259 | 21,858 |
| January 2005 | 3,783 | 27,200 | 3,217 | 30,452 |
| February 2005 | 2,991 | 18,185 | 3,619 | 28,123 |
| March 2005 | 3,559 | 19,657 | 4,970 | 31,128 |
| April 2005 | 3,911 | 18,118 | 2,865 | 22,160 |
| May 2005 | 4,175 | 15,202 | 2,939 | 22,720 |
| June 2005 | 4,425 | 18,251 | 2,875 | 24,650 |
| Total | 40,902 | 235,000 | 39,888 | 305,346 |

*Table 2: Swansea pension centre: workload in respect of North Devon, Cornwall and Wales, June 2005*

| | State pension live accounts | Pension credit live accounts |
|---|---|---|
| North Devon | 66,500 | 28,104 |
| Cornwall | 64,000 | 27,551 |
| Wales | 393,623 | 159,683 |

*Notes:*
1. Swansea pension centre currently covers the whole of Wales, plus North Devon and Cornwall.
2. Figures for state pension live accounts for North Devon and Cornwall are approximate only.
*Source:*
Swansea pension centre

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how many pension schemes in the Coventry South area would be eligible for assistance from the Financial Assistance Scheme; and if he will make a statement. [12509]

**Margaret Hodge:** On 22 February the Government published an indicative list of schemes potentially eligible for the Financial Assistance Scheme (FAS). The list is based on information from a data collection exercise at the end of last year. From the information available none of the schemes on that list appears to be in the Coventry South area. After the FAS regulations

have come into force, there will be a six-month period during which other schemes will have the opportunity to notify their details to the FAS.

The list of schemes is available in the Library.

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how many pension schemes in Coventry South operate under a defined benefit scheme. [12510]

**Margaret Hodge:** Information relating specifically to Coventry South is not available. There are around 110 such schemes in Coventry.

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions when the Government plan to review the *(a)* Pension Protection Fund and *(b)* Financial Assistance Scheme to evaluate their efficiency and the quality of assistance they provide. [12511]

**Margaret Hodge:** While the Department has no responsibilities in the operational activities of the Pension Protection Fund, it has a primary role of stewardship. This involves active engagement with the organisation to ensure value for money and effective delivery against objectives.

The Pension Protection Fund must adhere to formal reporting and audit requirements and engage in regular Accountability Reviews with the Department. As a non-departmental public body, the Pension Protection Fund is accountable to Parliament and is legally required to lay its annual report and accounts before Parliament.

Board members are accountable for their decisions and performance—they must adhere to the legal framework of the organisation, and they can be removed from office for not meeting their terms and conditions. The Government made clear, on introducing the Financial Assistance Scheme (FAS) in May 2004, that its operation will be reviewed after three years. In addition, a report on FAS's operation for each financial year will be laid before Parliament.

**Mr. Denham:** To ask the Secretary of State for Work and Pensions if he will estimate the national insurance rebates for pension provision that will be payable in 2026. [12794]

**Mr. Plaskitt:** The Government Actuary's Department has estimated that, assuming real earnings growth of 2 per cent. a year, the national insurance rebate for pension provision in Great Britain that would be payable in 2026 is £17.3 billion in cash terms, or £10.3 billion in constant 2005–06 prices. These estimates are based on the projections carried out for the update of the Quinquennial Review of the National Insurance Fund published in December 2004.

**Derek Wyatt:** To ask the Secretary of State for Work and Pensions what the level of the core benefit in the Financial Assistance Scheme is; and if he will make a statement. [13316]

**Margaret Hodge:** A qualifying member or former member of a scheme who was within three years of his or her normal retirement age for that scheme, on 14 May 2004, will receive assistance that will top up his or her scheme pension to a level broadly equivalent to 80 per cent. of his or her expected pension. Payments will be subject to a de minimis level and a cap.

The expected pension is the core component of the pension that a scheme member would have received each year had their scheme been able to meet its liabilities to in full. For non-pensioner members will look at the rate of accrued pension when active service ceased. For pensioner members we will look at the rate of unreduced pension that would have been in payment had the scheme not started to wind-up. Rights will be revalued to age 65.

If a qualifying member dies at any point after the start of scheme wind-up, his or her surviving spouse or civil partner will receive FAS payments at 50 per cent. of the member's entitlement.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 11 July 2005, *Official Report*, column 679W, on the Financial Assistance Scheme, for what reasons the rate payable to the terminally ill is set at 60 per cent.; and whether this is the case even where the members' pension scheme has completed wind-up. [13513]

**Margaret Hodge:** Where a pension scheme qualifying for help from the Financial Assistance Scheme (FAS) has completed wind-up, assistance for eligible members (including terminally ill people) will top up to 80 per cent. of core pension rights.

The top-up rate for discretionary initial payments made to eligible members before wind-up has been completed, including terminally ill people, has been set at 60 per cent. of core pension rights. This is because at that stage scheme trustees will not know how the scheme's assets compare with its liabilities and how much pension individual members have lost. This follows the precedent whereby trustees may, where funds allow, make interim payments at a safe rate to pensioner members from the pension scheme itself before wind-up is completed. Initial payments from the FAS will take account of any interim payments from the pension scheme. The top-up rate will be adjusted to 80 per cent. on the completion of wind-up and, if needed, arrears will be paid to compensate for the lower rate of payment during wind-up.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 11 July 2005, *Official Report*, column 679W, on the Financial Assistance Scheme, if he will list the occasions when his Department has encouraged the trustees of schemes eligible for the Financial Assistance Scheme to start making payments as quickly as possible. [13514]

**Margaret Hodge:** In the written ministerial statement on 2 December 2004, *Official Report*, columns 64–66WS, we made clear that trustees should fulfil their duty to wind-up schemes in an expeditious manner (including annuitisation where appropriate). That remains the Government's position.

Once the formal scheme notification period for the Financial Assistance Scheme (FAS) starts on 1 September 2005, guidance will be available for trustees to explain the FAS and the requirements it places upon them, and to re-emphasise the importance of their making payments to their members as soon as they can.

### Return to Work Support

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions how many long-term claimants of incapacity benefit in Birkenhead have been offered support to return to work through *(a)* the New Deal for Disabled People, *(b)* work preparation, *(c)* workstep, *(d)* the permitted work rules, *(e)* benefit run-ons and *(f)* other Jobcentre Plus provision. [12640]

**Mrs. McGuire** *[holding answer 18 July 2005]:* The information is not collated or held centrally and could be obtained only at disproportionate cost.

### Strychnine Hydrochloride

**David Maclean:** To ask the Secretary of State for Work and Pensions how many accidents affecting human health as a result of strychnine hydrochloride used by mole catchers have occurred in the last 10 years. [6273]

**Mrs. McGuire:** The Health and Safety Executive has not received any reports in the last 10 years of accidents affecting human health as a result of strychnine hydrochloride used by mole catchers.

### Winter Fuel Payment

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many payments of the winter fuel allowance were made to pensioners living overseas in each year from 2001–02 to 2005–06; in which countries the qualifying pensioners lived; and if he will make a statement. [12408]

**Mr. Timms** *[holding answer 18 July 2005]:* The number of payments made to pensioners living overseas is in the table. Payments for winter 2005–06 have not yet been made.

| Country | Payments made in winter: 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Gibraltar | 32 | 49 | 73 |
| Republic of Ireland | 660 | 1,397 | 2,367 |
| Austria | 15 | 25 | 45 |
| Belgium | 21 | 37 | 65 |
| Denmark | 12 | 19 | 32 |
| Finland | 10 | 12 | 21 |
| France | 1,780 | 3,797 | 6,472 |
| Germany | 88 | 226 | 369 |
| Greece | 63 | 150 | 271 |
| Italy | 96 | 201 | 360 |
| Luxembourg | 4 | 4 | 9 |
| Netherlands | 24 | 58 | 83 |
| Norway | 2 | 8 | 13 |
| Portugal | 104 | 257 | 432 |
| Spain | 5,167 | 10,390 | 16,215 |
| Sweden | 7 | 28 | 40 |
| Switzerland | 9 | 21 | 45 |
| Iceland | 0 | 0 | 4 |
| Cyprus | 0 | 0 | 1,408 |
| Malta | 0 | 0 | 264 |
| Poland | 0 | 0 | 27 |
| Hungary | 0 | 0 | 21 |
| Slovenia | 0 | 0 | 1 |
| Czech Republic | 0 | 0 | 1 |
| Lithuania | 0 | 0 | 1 |
| Latvia | 0 | 0 | 2 |
| Totals | 8,094 | 16,679 | 28,661 |

*Notes:*

1. Pensioners living overseas were first paid in winter 2002–03, these payments included any arrears due for earlier winters. It is not possible to give a separate breakdown of these earlier years.
2. Entitled pensioners living in the 10 countries that joined the European Union in May 2004 could be paid from winter 2004–05.

### Work-related Stress

**Lynne Featherstone:** To ask the Secretary of State for Work and Pensions how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7877]

**Mrs. McGuire:** The Department for Work and Pensions does not collect information in the format requested. Our sick absence statistics contain figures for absences due to mental and behavioural disorders, which is the category which includes stress-related absences, both those which are work-related and those which are not.

In the year to May 2005, the average working days lost per staff year was 12.4, which is an absence rate of 5 per cent. Of this total, days lost due to mental and behavioural disorders represent about 30 per cent. The table sets out the detail about the working days lost due to mental and behavioural disorders.

| Period (1 June to 31 May) | Occurrences | Total working days lost | Salary costs (£) |
|---|---|---|---|
| 2002–03 | 14,965 | 406,747 | 22,800,243 |
| 2003–04 | 15,648 | 434,852 | 25,652,989 |
| 2004–05 | 13,320 | 362,907 | 22,245,941 |

The Department does not collect separate information about compensation payments relating to work-related stress. The total paid in compensation in the last three years is in the table.

| Period | Amount of compensation |
|---|---|
| 2002–03 | 74,209 |
| 2003–04 | 130,550 |
| 2004/05 | 62,080 |

The Department introduced a well-being at work policy in September 2004 as a means of tackling work-related stress. The HSE Management Standards and associated processes underpin the well-being policy and feature as part of the annual DWP staff survey. In addition, the Department has contracts with Atos Origin to provide an occupational health service, and with Right Core Care to provide an employee assistance service. Such provision is not, however, confined to work-related stress, which means it is difficult to apportion a cost to what is being done to reduce this.

## HEALTH

### Abortions

**Mr. Amess:** To ask the Secretary of State for Health how many abortions have been performed in *(a)* Great Britain and *(b)* Essex under the Abortion Act, as amended by the Human Fertilisation and Embryology Act 1990; and what percentage and how many were performed to save the life of the mother. [8120]

**Caroline Flint:** The number of abortions performed in England and Wales on residents of England and Wales in the years 1968 to 2003 was 4.92 million. Of these 23,470 (0.5 per cent.) were performed under Sections 1(1)*(c)* and 1(4) of the Abortion Act 1967. These are cases where the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated, or where the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant woman.

Due to boundary changes, it is not possible to give the total number of abortions performed in Essex in the years 1968 to 2003. In 2002 there were 4,626 abortions performed in Essex, which accounted for about 3 per cent. of all abortions England and Wales in 2002.

**Mr. Amess:** To ask the Secretary of State for Health how many doctors specialising in abortion procedures there are in the Southend West constituency. [9927]

**Caroline Flint:** This information is not collected centrally.

**Mr. Amess:** To ask the Secretary of State for Health (1) how many abortions were performed in Southend Primary Care Trust, broken down by *(a)* grounds, *(b)* the age of the woman and *(c)* the number of previous abortions in each of the last 10 years for which figures are available; [9969]

(2) how many abortions were carried out at each week of gestation between 18 and 32 in the last year for which figures are available; [10419]

(3) how many women in England had an abortion in each of the last five years for which figures are available who already had had *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five previous abortions; [10422]

(4) how many women in the Southend area had an abortion in each of the last five years for which figures are available who already had had *(a)* one, *(b)* two, *(c)* three, *(d)* four and *(e)* five previous abortions; [10423]

(5) what the total number of abortions performed in *(a)* England, *(b)* Wales and *(c)* Scotland was in each of the last five years for which figures are available; and how many were performed in (i) NHS and (ii) private hospitals; [10595]

(6) how many selective reduction abortions there were in each of the last 10 years for which figures are available; [10602]

(7) whether her Department requires doctors performing selective reduction of pregnancies to require a certificate stating the grounds for termination of unborn babies under the Abortion Act 1967; [10603]

(8) what proportion of women having an abortion in the latest year for which figures are available were married at the time of the abortion; what the statistical mode figures were for *(a)* the age of the woman, *(b)* the gestation of the pregnancy, *(c)* the number of previous children born to the woman and *(d)* the number of previous abortions undergone by the woman; and what the most common legal grounds were under which the abortion was performed. [10937]

**Caroline Flint:** The Abortion Act 1967 requires any registered medical practitioner who terminates a pregnancy to give notice of the termination to the Chief Medical Officer, including selective reduction of pregnancies.

The available information for abortions performed in England and Wales is contained in the annual Office for National Statistics publication, "Abortion Statistics, series A8"; Office for National Statistics and the Department's, "Statistical Bulletin 2003/23", and "Statistical Bulletin 2004/14". Data for 1991 onwards can be found on the Department's website at: www.dh.gov.uk/PublicationsAndStatistics/Statistics/StatisticalWorkAreas/StatisticalPublicHealth/fs/en. Copies of the publications are also available in the Library.

**Mr. Amess:** To ask the Secretary of State for Health how many abortions were performed on girls aged *(a)* 10, *(b)* 11, *(c)* 12, *(d)* 13, *(e)* 14, *(f)* 15, *(g)* 16 and *(h)* 17 years of age in each year since 1975; and how many were performed to save the life of the pregnant woman. [10420]

**Caroline Flint:** The information available is shown in the table.

With regard to the number of abortions performed to save the life of the pregnant woman, I refer the hon. Member to the reply I gave earlier.

*Legal abortions: number of abortions by age between 10 and 17 years, residents, England and Wales, 1975 to 2003*

| | | Ages | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | *Total all ages* | *10* | *11* | *12* | *13* | *14* | *15* | *16* | *17* |
| 1975 | 106,224 | 0 | 0 | 12 | 120 | 747 | 2,691 | 5,411 | 6,394 |
| 1976 | 101,912 | 0 | 6 | 14 | 122 | 738 | 2,545 | 5,429 | 6,285 |

[1] not published.
[2] data relate to age under 15.
[3] data relate to age under 14.

**Mr. Amess:** To ask the Secretary of State for Health how many abortions have been performed in England on grounds of foetal handicap under the provisions of the Abortion Act 1967 (as amended); and what percentage this represents of the total number of abortions. [10593]

**Caroline Flint:** The information requested is shown in the table.

*Legal abortions: number and percentage that were performed on the grounds of foetal handicap, residents, England and Wales, 1968 to 2003*

| | Section 1(1)(d) | Total abortions | Percentage |
|---|---|---|---|
| 1966 | 1,304 | 22,332 | 5.8 |
| 1969 | 1,849 | 49,829 | 3.7 |
| 1970 | 2,048 | 75,962 | 2.7 |
| 1971 | 2,237 | 94,570 | 2.4 |
| 1972 | 2,013 | 108,565 | 1.9 |
| 1973 | 2,019 | 110,568 | 1.8 |
| 1974 | 1,686 | 109,445 | 1.5 |
| 1975 | 1,572 | 106,224 | 1.5 |
| 1976 | 1,316 | 100,912 | 1.3 |
| 1977 | 1,474 | 102,677 | 1.4 |
| 1978 | 2,356 | 111,851 | 2.1 |
| 1979 | 2,151 | 120,611 | 1.8 |
| 1980 | 1,900 | 128,927 | 1.5 |
| 1981 | 1,818 | 128,581 | 1.4 |
| 1982 | 2,006 | 128,553 | 1.6 |
| 1983 | 2,019 | 127,375 | 1.6 |
| 1984 | 2,007 | 136,388 | 1.5 |
| 1985 | 1,921 | 141,101 | 1.4 |
| 1986 | 1,963 | 147,619 | 1.3 |
| 1987 | 1,862 | 156,191 | 1.2 |
| 1988 | 1,732 | 168,298 | 1.0 |
| 1989 | 1,651 | 170,463 | 1.0 |
| 1990 | 1,589 | 173,900 | 0.9 |
| 1991 | 1,710 | 167,376 | 1.0 |
| 1992 | 1,802 | 160,501 | 1.1 |
| 1993 | 1,935 | 157,846 | 1.2 |
| 1994 | 1,796 | 156,539 | 1.1 |
| 1995 | 1,823 | 154,315 | 1.2 |
| 1996 | 1,929 | 167,916 | 1.1 |
| 1997 | 1,853 | 170,145 | 1.1 |
| 1998 | 1,830 | 177,871 | 1.0 |
| 1999 | 1,813 | 173,701 | 1.0 |
| 2000 | 1,833 | 175,542 | 1.0 |
| 2001 | 1,722 | 176,364 | 1.0 |
| 2002 | 1,894 | 175,932 | 1.1 |
| 2003 | 1,941 | 181,582 | 1.1 |
| Total | 66,374 | 4,917,572 | 1.3 |

*Note:*
Section 1(1)*(d)* of the Abortion Act, that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.

**Mr. Amess:** To ask the Secretary of State for Health what the number of *(a)* live births and *(b)* abortions was in each year since 1976. [10594]

**Caroline Flint:** The information requested is shown in the table.

*Number of live births and abortions, England and Wales, 1976 to 2004*[1]

| | Live births | Abortions |
|---|---|---|
| 1976 | 584,270 | 129,673 |
| 1977 | 569,259 | 133,004 |
| 1978 | 596,418 | 141,558 |
| 1979 | 638,028 | 149,746 |
| 1980 | 656,234 | 160,903 |
| 1981 | 634,492 | 162,480 |
| 1982 | 625,931 | 163,045 |
| 1983 | 629,134 | 162,161 |
| 1984 | 636,818 | 169,993 |
| 1985 | 656,417 | 171,873 |
| 1986 | 661,018 | 172,286 |
| 1987 | 681,511 | 174,276 |
| 1988 | 693,577 | 183,798 |
| 1989 | 687,725 | 183,974 |
| 1990 | 706,140 | 186,912 |
| 1991 | 699,217 | 179,522 |
| 1992 | 689,656 | 172,069 |
| 1993 | 673,467 | 168,714 |
| 1994 | 664,726 | 166,876 |
| 1995 | 648,138 | 163,638 |
| 1996 | 649,485 | 177,495 |
| 1997 | 643,095 | 179,746 |
| 1998 | 635,901 | 187,402 |
| 1999 | 621,872 | 183,250 |
| 2000 | 604,441 | 185,375 |
| 2001 | 594,634 | 186,274 |
| 2002 | 596,122 | 185,385 |
| 2003 | 621,469 | 190,660 |
| 2004 | 639,721 | n/a |

[1] Number of live births relate to births occurring in England and Wales. Number of abortions relate to residents of England and Wales.

**Mr. Amess:** To ask the Secretary of State for Health how many women were refused an abortion because their particular circumstances did not fit the criteria in the Abortion Act 1967 (as amended) in the last 12 months. [10598]

**Caroline Flint:** This information is not collected centrally.

**Mr. Amess:** To ask the Secretary of State for Health which organisations in the field of reproductive health are funded by her Department; how much was given to each in each of the last five years for which figures are

available; and whether account is taken of an organisation's stance on abortion in allocating public funds. [10604]

**Caroline Flint:** Amounts received by voluntary organisations in the reproductive health field funded by the Department through the Section 64 grant scheme over the past five years are shown in the following tables.

£

| Financial year | Name of voluntary organisation: Brook | Family planning association |
|---|---|---|
| 2001–02 | 105,000 | 80,000 |
| 2002–03 | 100,000 | 80,000 |
| 2003–04 | 90,000 | 100,000 |
| 2004–05 | 90,000 | 95,000 |
| 2005–06 | 90,000 | 170,000 |
| Total | 475,000 | 525,000 |

A further £11,000 was also provided as a one-off payment to the organisation Education for Choice in 2004, as a contribution towards the costs of website development.

In addition, the following voluntary organisations in the field of assisted reproduction have received Departmental funding within the last five years:

British Infertility Counselling Association.
CHILD (The National Infertility Support Network).
Infertility Network UK.
ISSUE (The National Fertility Association Ltd).
National Gamete Donation Trust.

The total amount of funding provided each year to these organisations is shown in the following table.

| | Total (£) |
|---|---|
| 2001–02 | 73,357 |
| 2002–03 | 102,000 |
| 2003–04 | 165,000 |
| 2004–05 | 186,515 |
| 2005–06 | 100,900 |
| Total[1] | 627,772 |

[1] Grand total for five years.

The Department considers requests for funding on a case by case basis and will fund organisations where they represent value for money and where we are confident that they have the skills, knowledge and capacity to deliver what is required.

Funding has also been provided to the Human Fertilisation and Embryology Authority (HFEA), as shown in the following table.

*Departmental funding for HFEA since 2001–02*[1]

£ million

| | Baseline | Register[2] | Accommodation[3] | Other projects | Total |
|---|---|---|---|---|---|
| 2001–02 | 0.577 | — | — | 0.967[4] | 1.544 |
| 2002–03 | 0.577 | 1.195 | 0.067 | — | 1.839 |
| 2003–04 | 1.650 | 1.957 | 0.433 | — | 4.040 |
| 2004–05 | 1.500 | 4.350 | — | — | 5.850 |
| 2005–06[5] | 1.500 | 4.767 | — | — | 6.267 |

[1] All funds paid by the Department, home country contribution (based on the Barnet Formula) recovered during financial year.
[2] Project funding for the redevelopment for the database register and audit of the accuracy of previously recorded data.
[3] Project funding towards costs of relocation to new premises at 21 Bloomsbury Street.
[4] Additional funds to offset in-year budget pressures.
[5] Provisional funding for 2005–06.

The HFEA is a statutory regulatory body. For that reason, it does not promote a view on abortion issues.

**Mr. Amess:** To ask the Secretary of State for Health (1) when each of the nine recommendations contained in the report of the Select Committee on the Abortion (Amendment) Bill 1975 were implemented; [10606]

(2) if she will list the recommendations contained in the Select Committee on the Abortion (Amendment) Bill 1975, and the First and Second Reports from the Select Committee on Abortion 1975–76 which were implemented *(a)* in part and *(b)* in full. [10607]

**Caroline Flint:** The nine recommendations of the Select Committee on the Abortion (Amendment) Bill 1974–75 were implemented as follows:

*Abortion (Amendment) Bill 1974–75*

| | | Recommendation |
|---|---|---|
| 1 | Counselling of women | Implemented in full in July 1977 (HC(77)26). |
| 2 | Examination of the women | Implemented in part in March 1976 (SI 1976 No.15). |
| 3 | Certification and notification | Implemented in part in March 1981 (SI 1980 No. 1724). |
| 4 | Disclosure of information | Implemented in full in March 1976 (SI 1976 No. 15). |
| 5 | Private sector arrangements | Implemented in part in September 1975 through the system of "assurances", which proprietors of approved places are required to give to the Secretary of State. |
| 6 | Foreign women | Implemented in part in December 1975. |
| 7 | National health service—termination after the 20th week | Discussed with regional medical Officers in 1975 and 1983. |
| 8 | Referral agencies | Implemented in full in March 1977. |
| 9 | The use of foetuses and foetal material for research (the Peel Report) | The Peel code of practice issued in 1972 was voluntarily accepted by the professions. The Department ensures that arrangements for supply of foetal material for research from private sector places carrying out abortions comply with the code of practice. |

Updating this information and providing information on the additional recommendations contained in the first and second reports from the Select Committee on Abortion, session 1975–76, could be done only at disproportionate cost. Since 1976, a wide range of issues relating to abortion were considered by Parliament during the debates informing the Human Fertilisation

and Embryology Act 1990. In 2001, the national strategy for sexual health and HIV set out the Government's 10 year strategy for sexual health, further bolstered by the 2004 public health White Paper. In this context, the Health Select Committee has itself conducted inquiries into sexual and reproductive health, including abortion issues, in 2003 and 2005.

It is accepted parliamentary practice that proposals for changes in the law on abortion have come from hon. and right hon. Members on the back benches and that decisions are made on the basis of free votes. The Government has no plans to change the law on abortion.

### Alcohol-related Illness

**Sarah Teather:** To ask the Secretary of State for Health how many people *(a)* under and *(b)* over the age of 18 were admitted to hospital for alcohol-related problems in each of the last 10 years for which figures are available, broken down by region. [12234]

**Caroline Flint:** The information requested is shown in the table.

*Counts of finished admission episodes for selected alcohol-related diseases[1] by strategic health authority (SHA) of residence and age grouping, national health service hospitals, England 1996–97 to 2003–04*

| SHA | 1996–97 | | 1997–98 | | 1998–99 | | 1999–2000 | |
|---|---|---|---|---|---|---|---|---|
| | Under 18 | Over 18 | Under 18 | Over 18 | Under 18 | Over 18 | Under 18 | Over 18 |

### Arrhythmias and Sudden Death Programme Board

**Lady Hermon:** To ask the Secretary of State for Health (1) if she will make a statement on the representation from Northern Ireland on the new Arrhythmias and Sudden Death Programme Board; [11355]

(2) whether the new National Service Framework chapter on arrhythmias and sudden cardiac death extends to Northern Ireland. [11237]

**Ms Rosie Winterton** *[holding answer 13 July 2005]:* Chapter eight of the national service framework for coronary heart disease, "Arrhythmias and Sudden Cardiac Death", was written and produced in consultation with a large expert group, including members from Northern Ireland, Scotland and Wales.

The Arrhythmias and Sudden Death Programme Board has been formed to implement the chapter but with the membership limited. Devolved Administrations such as Northern Ireland will not be represented on the board because it is responsible for implementation of the new chapter in England.

### Asthma

**Mr. Hancock:** To ask the Secretary of State for Health how many *(a)* adults and *(b)* children in Portsmouth are suffering from asthma. [12823]

**Caroline Flint:** The Department does not centrally hold the information requested on the number of people suffering from asthma. However, the Health and Social Care Information Centre is due to publish data shortly about the numbers of people in each primary care trust area recorded with asthma in 2004–05, which will be available on their website.

### Bedfordshire Health Spending

**Mrs. Dorries:** To ask the Secretary of State for Health how much was spent per capita from central Government funds on health in the county of Bedfordshire in each year since 2000. [11005]

**Ms Rosie Winterton:** The expenditure per weighted head on health in Bedfordshire Health Authority (HA) area, which corresponded to the county of Bedfordshire and Bedfordshire and Hertfordshire Strategic Health Authority (SHA) area is shown in the table. Expenditure based on the county of Bedfordshire is not available for 2002–03 and 2003–04.

*£ per head*

| | Bedfordshire Health Authority area | Bedfordshire and Hertfordshire Strategic Health Authority area |
|---|---|---|
| 2000–01 | 779.74 | n/a |
| 2001–02 | 970.12 | n/a |
| 2002–03 | n/a | 939.08 |
| 2003–04 | n/a | 1,061.38 |

*Notes:*

1. Expenditure is taken from audited HA summarisation forms and primary care trust summarisation schedules which are prepared on a resource basis and therefore differ from cash allocations in the year. The figures have not been adjusted for inflation.

2. Figures for 2000–01 and 2001–02 have been prepared using gross expenditure figures. Figures for 2002–03 and 2003–04 have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning health care or other services.

3. In many HAs there are factors which distort the expenditure. These include:

the HA acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and

asset revaluations in national health service trusts being funded through HAs or primary

care trusts (PCTs).

4. The majority of general dental services expenditure is separately accounted for by the Dental Practice board. An element of pharmaceutical services expenditure is accounted for by the Prescription Pricing Authority. Total expenditure on these items by the Dental Practice Board and the Prescription Pricing Authority cannot be allocated to individual health bodies. Therefore, the total expenditure in the answer by health authority does not capture all NHS expenditure within the area.

*Sources:*

Bedfordshire HA audited summarisation forms 2000–01 and 2001–02.

Bedfordshire and Hertfordshire SHA audited summarisation forms 2002–03 and 2003–04.

PCT audited summarisation schedules 2001–02 to 2003–04 for bodies within the above HA areas weighted population figures.

## Breastfeeding

**Mr. Kidney:** To ask the Secretary of State for Health how many primary care trusts *(a)* are collecting reliable data on breastfeeding initiation and duration rates and *(b)* have appointed a breastfeeding co-ordinator. [11206]

**Caroline Flint:** The latest data provided to the Department for 2004–05, found there were 201 primary care trusts collecting reliable data on breastfeeding initiation, where reliable has been defined as consistent data in which at least 96 per cent. of mothers have their breastfeeding initiation status given.

Data on the number of primary care trusts who have appointed a breastfeeding co-ordinator are not collected centrally.

**Mr. Kidney:** To ask the Secretary of State for Health what the baseline breastfeeding initiation data as outlined in the Priorities and Planning Framework 2003 to 2006 are for each primary care trust. [11207]

**Caroline Flint:** Data for breastfeeding initiation are not yet sufficiently robust to reliably assess levels of breastfeeding initiation for all primary care trusts (PCTs). However, the data quality is improving. The percentage of others for whom breastfeeding initiation status was not known decreased from 14.6 per cent. in 2003–04 to 5.6 per cent. in 2004–05. We continue to monitor the progress of PCTs in improving the data quality.

## Cancelled Operations (Southend)

**Mr. Amess:** To ask the Secretary of State for Health how many operations in Southend primary care trust were cancelled on *(a)* the day of and *(b)* the day after admission; and how many of these patients were not readmitted within a month in each quarter of the last five years for which figures are available. [10532]

**Ms Rosie Winterton:** The Department does not collect information about cancelled operations at primary care trust level.

However, the table shows the number of operations cancelled at the last minute for non clinical reasons and the number of patients not admitted within 28 days at Southend Hospital National Health Service Trust.

| *Quarter* | *Number of last minute cancellations for non clinical reasons in the quarter* | *Number of patients not admitted within 28 days of cancellation on the day of surgery* |
|---|---|---|
| *2004–05* | | |
| April-June | 124 | 5 |
| July-September | 250 | 30 |
| October-December | 298 | 28 |
| January-March | 335 | 39 |
| *2003–04* | | |
| April-June | 177 | 1 |
| July-September | 149 | 1 |
| October-December | 226 | 3 |
| January-March | 139 | 2 |
| *2002–03* | | |
| April-June | 81 | 11 |
| July-September | 34 | 3 |
| October-December | 179 | 5 |
| January-March | 215 | 4 |
| *2001–02* | | |
| April-June | 86 | 0 |
| July-September | 113 | 0 |
| October-December | 104 | 0 |
| January-March | 97 | 14 |

*Notes:*
1. Data were collected by health authority only prior to 2001–02. Trust level data were collected from 2001–02 onwards
2. A last minute cancellation is one that occurs on the day the patient was due to arrive, after they have arrived in hospital or on the day of their operation. For example, a patient is to be admitted to hospital on a Monday for an operation scheduled for the following day (Tuesday). If the hospital cancels his/her operation for non-clinical reasons on the Monday, then this would count as a last minute cancellation. This includes patients who have not actually arrived in hospital and have been telephoned at home prior to their arrival.
3. An operation which is rescheduled to a time within 24 hours of the original scheduled operation should be recorded as a postponement and not as a cancellation. The QMCO collection does not record the number of postponements.
4. Some common non-clinical reasons for cancellations by the hospital include: ward beds unavailable; surgeon unavailable; emergency case needing theatre; theatre list over-ran; equipment failure; admin error; anaesthetist unavailable; theatre staff unavailable; and critical care bed unavailable.

## Cancer Treatment

**Lady Hermon:** To ask the Secretary of State for Health how many people are being treated with the cancer drug Anastrozole in each NHS health authority area in England. [11227]

**Ms Rosie Winterton:** Information on the number of people currently being treated by Anastrozole in each national health service health authority area in England and Wales is not collected centrally. However, the prescription cost analysis database contains the following data for Anastrozole dispensed in the community. The data do not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions.

*Number of items and cost of Anastrozole dispensed in England, 1995 to 2004*

| | *Items* | *Cost (£)* |
|---|---|---|
| 1995 | 1,131 | 109,341 |
| 1996 | 27,896 | 2,764,835 |
| 1997 | 65,487 | 6,595,537 |
| 1998 | 97,275 | 9,883,452 |
| 1999 | 121,150 | 12,457,630 |
| 2000 | 145,746 | 14,909,606 |
| 2001 | 171,971 | 17,556,672 |
| 2002 | 218,438 | 22,322,882 |
| 2003 | 275,043 | 28,359,636 |
| 2004 | 331,582 | 34,358,711 |

## Care Homes (Essex)

**Mr. Amess:** To ask the Secretary of State for Health how many *(a)* local authority and *(b)* private sector care homes there are in each local authority in Essex. [10531]

**Ms Rosie Winterton:** Information on the number of care homes by type of provider in Essex at 31 March 2001 is shown in the table.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

*Number of care homes in Essex by type of provider at 31 March 2001*

| | Rounded number[1] | | | |
|---|---|---|---|---|
| | Residential homes[2] | | Nursing homes[3] | |
| Councils with social services responsibilities | Local authority staffed | Independent[4] | Independent |
| Total for Essex area | 45 | 490 | [5]120 |
| Essex | 40 | 355 | n/a |
| Southend | 5 | 110 | n/a |
| Thurrock | 5 | 25 | n/a |

n/a = Data not available.

[1] Figures may not sum due to rounding.

[2] Excludes dual registered homes.

[3] Includes general and mental nursing homes, private hospitals and clinics. Dual registered homes are included under nursing homes.

[4] Includes voluntary, private and small homes.

[5] Data on nursing homes relates to North Essex and South Essex health authorities.

*Source:*

RA Form A,RH(N) Form A.

## Chlamydia

**Mr. Amess:** To ask the Secretary of State for Health how many *(a)* males and *(b)* females have been diagnosed with Chlamydia in each of the last five years for which figures are available. [12780]

**Caroline Flint:** I refer the hon. Member to the reply I gave to the hon. Member for West Chelmsford (Mr. Burns) on 5 July 2005, *Official Report*, columns 364–65W.

## Clostridium Difficile

**Mr. Lidington:** To ask the Secretary of State for Health (1) when she will publish the terms of reference of her proposed inquiry into *Clostridium difficile*; [7737]

(2) whether the terms of reference of her proposed inquiry into *Clostridium difficile* will cover the role of *(a)* her Department and *(b)* the Health Protection Agency in responding to the trend in the incidence of *Clostridium difficile* and the discovery of strain 027 in English hospitals; [8957]

(3) if she will frame the terms of reference of her proposed inquiry into *Clostridium difficile* to cover each hospital where strain 027 has been confirmed. [8960]

**Jane Kennedy** *[holding answers 4 July 2005]:* In asking the Healthcare Commission to undertake its investigation, the Secretary of State made it clear that the first priority must be to bring the outbreak at Stoke Mandeville under control and requested that the investigation only commence once all parties agreed that it was sensible to do so. The Healthcare Commission are drawing up the terms of reference for the investigation and these will be available shortly.

The Healthcare Commission has been asked to undertake an investigation into *Clostridium difficile* at Stoke Mandeville Hospital. It is hoped that any learning and best practice arising from the investigation will be shared across the national health service.

## Consultant Vacancies

**Mike Penning:** To ask the Secretary of State for Health which hospitals in Hertfordshire have vacancies for consultants; and in what departments. [10697]

**Ms Rosie Winterton:** The vacancy rates for trusts in Hertfordshire are shown in the tables. This is the latest data available as at 31 March 2004. Figures for 2005 are due for publication at the end of July 2005.

*Three month vacancy rate and number for consultants by specialty and selected trust in Bedfordshire and Hertfordshire Strategic Health Authority (SHA) as t 31 March 2004*

## Contaminated Blood Products (Ex-gratia Payments)

**Michael Connarty:** To ask the Secretary of State for Health what progress her Department has made in offering ex-gratia payments from the Skipton Fund to those who have contracted hepatitis C from contaminated blood products. [11221]

**Caroline Flint:** The Skipton Fund was set up to administer an ex-gratia payment scheme for people infected with hepatitis C through contaminated blood and blood products. The table shows information on the number of applications processed by the Skipton Fund since it was launched in July last year.

| | Stage one applications | Stage two applications | Amount paid (£) |
|---|---|---|---|
| England | 2,642 | 432 | 63,640,000 |
| Scotland | 528 | 70 | 12,310,000 |
| Northern Ireland | 97 | 18 | 2,390,000 |
| Wales | 201 | 29 | 4,745,000 |
| Number of applicants paid in the United Kingdom | 3,468 | 549 | 83,085,000 |

*Note:*
Figures as at 1 July 2005.

## Contraceptive Training

**Mr. Amess:** To ask the Secretary of State for Health how much each primary care trust in England has spent in 2005–06 on contraceptive training; and how much each plans to spend in each of the next three years. [12779]

**Caroline Flint:** The information requested is not held centrally.

## Dentistry

**Steve Webb:** To ask the Secretary of State for Health how many NHS dentists in *(a)* England and *(b)* each strategic health authority were accepting new NHS patients at the latest date for which figures are available; and if she will make a statement. [8085]

**Ms Rosie Winterton:** Information on which practices are currently taking on new national health service patients is not centrally collected. This information should be available from NHS Direct or from local primary care trusts.

**Mr. Stewart Jackson:** To ask the Secretary of State for Health how many NHS dentists there are in the Peterborough constituency; and how many are taking on new NHS patients. [10487]

**Ms Rosie Winterton:** As at 31 March 2005, there were 68 NHS dentists in the Peterborough constituency area[1].

Information about the number of dentists taking on new national health service patients is not collected centrally.

However, information about dental practices within primary care trusts (PCTs) currently taking on new NHS patients can be found on the NHS website at http://www.nhs.uk/England/AuthoritiesTrusts/Pct/list.aspx, from NHS Direct or from the local PCTs.

[1] *Source:*
Dental Practice Board—based on dentists whose practice address postcode is within the constituency boundary.

**Mr. Amess:** To ask the Secretary of State for Health what percentage of the *(a)* adult and *(b)* child population was registered with an NHS dentist in the Southend primary care trust area in each of the last five years for which figures are available. [10530]

**Ms Rosie Winterton:** The estimated percentages of child, adult and total population registered with general dental service (CDS) and personal dental service (PDS) dentists for Southend primary care trust (PCT) for March each year are shown in the table.

*Percentage*

| | Child | Adult | All |
|---|---|---|---|
| 2001 | 68 | 51 | 54 |
| 2002 | 66 | 50 | 54 |
| 2003 | 65 | 50 | 54 |
| 2004 | 62 | 47 | 50 |
| 2005 | 62 | 44 | 48 |

*Notes:*
1. Registration rates, that is, the percentage of the population registered with a dentist, have been estimated by including registrations in the area of the dentist according to the postcode of the dental surgery (not the patient's address). So the registration rates for some areas may be affected by some patients receiving dental treatment in a different area from the one in which they live. This can lead to figures being unusually high (even over 100 per cent. for child registrations), whilst other areas may have estimated rates lower than the actual proportion of residents who are registered with a dentist in or outside their own area.

2. The registration rates use population estimates for the PCT areas for the nearest year for which data are available. Figures for 1997 to 2000 have been calculated from 2001 population data. Figures for 2004 and 2005 have been calculated from 2003 population data, as this is the most up to date available.
3. The numbers of registrations are based on a snapshot of the registration database taken at the end of March each year and subsequent retrospective notifications of changes to registrations have not been included.
4. Some double counting may occur in the totals when a patient has been newly registered with a dentist in one PCT, but not yet de-registered from a dentist in another PCT.
5. The changes in the registration period from two years to 15 months under the GDS from 1 September 1996 affected the registration numbers from December 1997 onwards, so the 1997 figures are not comparable with later figures.
6. Most PDS schemes that have registrations have a re-registration period in excess of 15 months, so the figures for PDS schemes are generally higher than they would have been for the same attendance pattern under GDS.
7. Some PDS schemes do not have any registrations, for example, dental access centres and will not therefore be included in these figures.
8. There is a small number of unallocated registrations.
*Sources:*
Dental Practice Board.
Office of National Statistics population data.

**Mr. Wallace:** To ask the Secretary of State for Health what proportion of the £50 million allocated to strategic health authorities in 2004 to improve dental access was given to Cumbria and Lancashire Strategic Health Authority. [12059]

**Ms Rosie Winterton:** Cumbria and Lancashire Strategic Health Authority received £2.013 million funding in 2004–05 to improve dental access.

## Emergency Contraception

**Mr. Amess:** To ask the Secretary of State for Health if she will list the *(a)* organisations and *(b)* individuals consulted by Oxford Primary Care Trust before they expanded a pilot scheme offering free morning-after pills to teenagers to cover 24 pharmacies in the region; and if she will make a statement. [12778]

**Caroline Flint:** This information is not held centrally.

**Mr. Amess:** To ask the Secretary of State for Health (1) why it is necessary for a pharmacist with a conscientious objection to prescribing emergency contraception over the counter without prescription to refer a patient to another pharmacist who does not have such a conscientious objection; and if she will make a statement; [12788]

(2) if she will introduce legislation to allow a pharmacist with a conscientious objection to prescribing emergency contraception over the counter without prescription to rely on the rights created by section 4 of the Abortion Act 1967; and if she will make a statement. [12789]

**Caroline Flint:** Emergency hormonal contraception (EHC) is not a method of abortion. In 2002, there was a High Court ruling that the supply and use of EHC is lawful and that the prevention of implantation, which is brought about by emergency contraception products, does not amount to procuring a miscarriage under the 1861 Offences Against the Person Act. The conscience clause set out in section 4 of the Abortion Act is therefore not relevant to the supply of EHC.

The Royal Pharmaceutical Society of Great Britain's code of ethics and standards states that

> "where pharmacists' religious beliefs or personal convictions prevent them from providing a service they must not condemn or criticise the patient and they or a member of staff must advise the patient of alternative sources for the service requested."

**Mr. Amess:** To ask the Secretary of State for Health how many prescriptions of the morning-after pill there were in the last 10 years for which figures are available; and if she will break down prescription by age. [10571]

**Caroline Flint:** Hormonal emergency contraception, the morning-after pill, may be prescribed by general practitioners or by family planning clinics. The numbers of prescriptions in the last 10 years may be found in the statistical bulletin, "NHS Contraceptive Services, England, 2003–04", which is available in the Library and also on the Department's website at www.dh.gov.uk/assetRoot/04/09/00/22/04090022.pdf.

Table 10 in the bulletin shows GP prescriptions and table five those in family planning clinics. Hormonal emergency contraception is also available at pharmacies but statistical information about pharmacy provision is not available.

An age breakdown is not available for GP prescriptions. The age breakdown of women prescribed hormonal emergency contraception by family planning clinics is shown in table six of the bulletin.

**Mr. Amess:** To ask the Secretary of State for Health (1) what research has been commissioned by her Department into the safety of post coital contraception with respect to girls aged *(a)* 12 to 14 and *(b)* 14 to 16 years; and if she will make a statement; [10611]

(2) what clinical trials involving girls between the ages of 11 and 15 years have been conducted with respect to levonorgestrel; [10612]

(3) if levonorgestrel is licensed for use by girls between the ages of 11 and 15. [10613]

**Caroline Flint:** As with all marketed medicines, the safety of post coital contraception is continuously monitored by the Medicines and Healthcare products Regulatory Agency (MHRA).

Post coital contraception is currently available as a levonorgestrel, containing emergency hormonal contraceptive (Levonelle/Levonelle-2) and as the post-coital insertion of a copper-containing intra-uterine device (IUD).

No safety concerns were identified in two World Health Organisation (WHO) sponsored clinical trials of emergency hormonal contraception that included girls aged 16 and under. In addition, extensive worldwide use of levonorgestrel in over 9 million women, including those under 16 years, have not identified any serious safety concerns or provided evidence that the safety of levonorgestrel is any different in the under 16s. There are also no safety concerns about the use of IUDs in women age under 16. However, these are very rarely used in young women with no children.

Clinical trials for new drugs are not routinely conducted on young people under 16 unless they are specifically indicated for use in children. The judgment on the balance of risks and benefits in women under 16

is the responsibility of the prescribing physician. Health care professionals are encouraged to discuss the potential side effects with everyone who seeks treatment. In addition, prescribers are expected to satisfy themselves that all women understand the risks and benefits of using post coital contraception and that it is in their best interests to receive the treatment.

In the event of any important new safety information emerging, the MHRA will take action to ensure that this is accurately reflected in the product information and communicated to health professionals and women using these products.

No clinical trials of levonorgestrel use specific to women under 16 have been conducted in the United Kingdom. The marketing authorisation that was granted in 1999 for the prescription-only product was supported by evidence from two large randomised controlled trials, one conducted by the WHO[1], and one using published data from uncontrolled studies. Most women in the clinical trials were aged between 16 and 48, but a few girls aged 14 and 15 were included. No data were available for girls between ages 11 and 14 years. Age analysis of efficacy and safety in randomised studies did not identify any population that responded differently to treatment. Since then another WHO-sponsored study has evaluated 4,136 women aged between 14 and 52 years (mean age 27 years) who attended family planning clinics requesting emergency contraception[2]. In excess of 2,700 women were given levonorgestrel, and of these, 439 were teenage girls (with 85 aged 16 and under). No safety concerns were identified in the study.

Levonorgestrel is available as Levonelle-2®, a prescription-only medicine licensed for emergency contraception that is available only under medical supervision. The licence does not specify a lower age limit for women but health care professionals are expected to satisfy themselves, in accordance with guidelines, that treatment is in the patient's best interests and that she understands the advice she is receiving.

Levonorgestrel is also available as Levonelle® which is for sale in pharmacies and is not recommended for use by young women under 16 years of age without medical supervision. Comprehensive guidance and training on best practice for the supply of Levonelle in pharmacies has been issued to all pharmacists. This includes what questions should be asked of women, which women should be referred to a doctor for advice and ensuring that they are satisfied that the client is aged 16 or over.

[2] Von Hertzen H et al., Lancet 2002;360:1803–10

### Food Labelling

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what discussions she has had with supermarkets about the effective labelling of food to help consumers understand where the items are produced; and if she will make a statement. [13190]

**Caroline Flint:** I have had no discussion with supermarkets on the labelling of the geographical origin of foods. However, the Food Standards Agency (FSA) has issued good practice guidance on country of origin labelling, following a consultation with all stakeholders, including the food retail sector. The FSA is currently undertaking a survey to assess the extent to which this guidance is being followed. The outcome of this survey will inform a review of this guidance, and this review will involve further discussions with the food retail sector.

**Norman Baker:** To ask the Secretary of State for Health what controls are in place on the *(a)* labelling and *(b)* sale of imported food derived from cloned animals. [12646]

**Caroline Flint** *[holding answer 18 July 2005]*: There are no European Union controls which apply specifically to the labelling or import of food derived from cloned animals. The authorisation of cloned animals for food production would fall within the scope of the EU novel foods regulation which would also provide controls for the labelling of such food products.

No such application has been received within the EU to date.

### Food Preparation and Cooking NVQ

**Paul Flynn:** To ask the Secretary of State for Health what discussions she has had with *(a)* the Department for Education and Skills and *(b)* the Food Standards Agency on making nutrition a mandatory element of the Food Preparation and Cooking NVQ. [11461]

**Caroline Flint:** The Department has not had any discussions with the Department for Education and Skills or the Food Standards Agency on making nutrition a mandatory element of the food preparation and cooking national vocation qualification.

### Genito-urinary Medicine

**Mrs. May:** To ask the Secretary of State for Health what methods were used *(a)* to monitor and *(b)* to record performance against the target set out in her Department's National Strategy for Sexual Health and HIV that by the end of 2004 all genito-urinary medicine clinic attendees should be offered an HIV test on their first screening for sexually transmitted infections. [9885]

**Caroline Flint:** Data on HIV tests taken and offered in genito-urinary medicine clinics are collected and published by the Health Protection Agency (HPA). Indicators for the national strategy for sexual health HIV goals were published by the Health Protection Agency (HPA) in their annual report, "Focus on Prevention. HIV and other sexually transmitted infections in the United Kingdom in 2003" is available on their website at www.hpa.org.uk.

### Health Services (Milton Keynes)

**Mr. Lancaster:** To ask the Secretary of State for Health how many general practitioners there have been in the Milton Keynes Primary Care Trust in each year since 1997. [11571]

**Ms Rosie Winterton:** The information requested is shown in the table.

*General medical practitioners (excluding retainers and registrars)[1] for specified organisations, 1999–2004*

| | Number (headcount) |
|---|---|
| *4051—Milton Keynes Primary Care Group* | |
| 1999 | 117 |
| 2000 | 119 |
| 2001 | n/a |
| 2002 | n/a |
| 2003 | n/a |
| 2004 | n/a |
| December 2004 | n/a |
| *5CQ—Milton Keynes Primary Care Trust* | |
| 1999 | n/a |
| 2000 | n/a |
| 2001 | 119 |
| 2002 | 123 |
| 2003 | 121 |
| 2004 | 125 |
| December 2004 | 127 |

n/a = data are not applicable.

[1] General medical practitioners, excluding retainers and registrars, includes contracted GPs, general medical service (CMS) others and personal medical service (PMS) others. Prior to September 2004 this group included GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other, flexible career scheme GPs and GP returners.

*Note:*

Data as at 1 October 1999, 30 September 2000–04 and 31 December 2004.

*Source:*

NHS Health and Social Care Information Centre GMS and PMS statistics.

## Hip Replacements

**Mr. Lancaster:** To ask the Secretary of State for Health how many patients in the Milton Keynes Primary Care Trust have been waiting more than *(a)* three months, *(b)* six months, *(c)* nine months and *(d)* 12 months for hip replacement operations. [11445]

**Ms Rosie Winterton:** The information requested is shown in the table.

*Patient count of finished in-year admission episodes, main operative procedure hip replacement (OPCS-4 = W37-W39); primary care trust (PCT) of residence—Milton Keynes PCT, national health service hospitals, England 2003–04*

| Waiting time grouping | Total patients |
|---|---|
| Up to 3 months | 20 |
| More than 3 up to 6 months | 26 |
| More than 6 up to 9 months | 21 |
| More than 9 up to 12 months | 35 |
| More than 12 up to 18 months | 8 |
| Not known | 1 |
| Total | 111 |

*Note:*

1. A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the datayear. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Patient counts are based on the unique patient identifier HESID. This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and national health service number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.

3. The main operation is the first recorded operation in the hospital episode statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g., time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

4. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

5. Time waited (days)—time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

*Source:*

HES, Health and Social Care Information Centre.

## Influenza Vaccinations

**Dan Norris:** To ask the Secretary of State for Health what the take-up rate for influenza vaccinations was in *(a)* north-east Somerset and *(b)* south Gloucestershire in each of the last five years. [12546]

**Caroline Flint:** The take-up rates for influenza vaccinations for those aged 65 and over in north Somerset and south Gloucestershire in each of the last five years are shown in the table.

*Percentage*

| | North Somerset | South Gloucestershire |
|---|---|---|
| 2000–01 | [1]67 | [1]67 |
| 2001–02 | [1]65 | [1]70 |
| 2002–03 | 71 | 73 |
| 2003–04 | 72 | 76 |
| 2004–05 | 69 | 75 |

[1] Data collected for these years were by health authority. Data by primary care trust were collected from 2002–03 onwards.

## Liquid Eggs (Food Poisoning)

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what assessment she has made of the incidence of food poisoning from liquid eggs; and if she will make a statement. [13122]

**Caroline Flint:** The Health Protection Agency receives reports of outbreaks of infectious intestinal disease. No outbreaks associated with liquid eggs were reported in the years 1992 to 2004.

## Medicines and Healthcare Products Regulatory Agency

**Paul Flynn:** To ask the Secretary of State for Health what plans she has to review the work of the Medicines and Healthcare Products Regulatory Agency. [10851]

**John Austin:** To ask the Secretary of State for Health what plans she has to carry out a review of the Medicines and Healthcare Products Regulatory Agency; and if she will make a statement. [12153]

**Jane Kennedy:** The recent Health Select Committee report into the influence of the pharmaceutical industry recommended that the work of the Medicines and Healthcare Products Regulatory Agency should be reviewed. The Government are currently considering its response to the report. This issue will be addressed fully in that response.

### Mumps

**Dr. Kumar:** To ask the Secretary of State for Health what measures are being taken to reduce the incidence of mumps at universities. [12523]

**Caroline Flint:** The Department continues to advise that all children receive two doses of the measles, mumps and rubella (MMR) vaccine as part of the routine childhood immunisation programme. We are also advising 15 to 24-year-olds to ensure they are properly protected against MMR.

### National Alcohol Needs Assessment

**Mr. Burstow:** To ask the Secretary of State for Health if she will set out the remit, main findings and recommendations of the National Alcohol Needs Assessment for England. [13541]

**Caroline Flint:** In the alcohol harm reduction strategy for England, there is a commitment for the Department to conduct an audit of the demand for and provision of alcohol treatment in England. The audit is intended to provide information on gaps between demand and provision of treatment services at both national and local levels and will be used as a basis for the Department to develop a programme of improvement to treatment services.

A summary of the report's main findings will be published in September 2005 as part of the wider programme of improvements for alcohol treatment services, which will make best practice recommendations to local alcohol treatment service commissioners and providers.

The programme of improvement will be published on the Department's website.

### National School Fruit Scheme

**Mr. Burstow:** To ask the Secretary of State for Health how many schools are participating in the National School Fruit scheme; how many deliveries are made per week to these schools; what percentage of fruit supplied to schools under the National School Fruit scheme is sourced from *(a)* suppliers within 25 miles of the school supplied, *(b)* UK suppliers and *(c)* overseas suppliers; and what percentage of fruit supplied to schools under the National School Fruit scheme is sourced according to seasonal variations in local and national availability. [11105]

**Caroline Flint:** The number of schools participating in the school fruit and vegetable scheme by February 2005 was 16,069. This figure represents 97 per cent. of eligible schools.

Deliveries are made a maximum of three times per week. We are working to minimise the environmental impact of bulk transport and over the last 12 months have reduced deliveries to five times per fortnight to 39 per cent. of schools.

We do not hold information centrally about the distance of school fruit and vegetable scheme suppliers in relation to the schools they supply, but, wherever possible, we match local produce to local schools.

We have designed the school consumption calendar to reflect any seasonality for produce on a national and international level. During the United Kingdom season, approximately 39 per cent. of fruit and vegetables are sourced from the UK. Some fruit, such as satsumas and bananas, cannot be grown in the UK and other types of fruit, including apples and pears, may only be available in certain areas at certain times of the year. We are keen to explore ways of maximising locally grown produce, but we also need to ensure that all children should have access to the same quality and variety of fruit and vegetables wherever they are in the country.

### Obesity

**Andrew Rosindell:** To ask the Secretary of State for Health what steps she is taking to tackle childhood obesity; and if she will make a statement. [11660]

**Caroline Flint:** Reducing obesity in both children and adults is one of the key overarching priorities of the Government White Paper, "Choosing Health". The White Paper sets out a comprehensive strategy for tackling obesity and has given a solid foundation for future work. Delivery plans for "Choosing Health, Choosing a Better Diet and Choosing Activity" were published in March this year and show how we will deliver action to tackle childhood obesity.

We have also set a national public service agreement target to halt, by 2010, the year-on-year increase in obesity among children under 11 in the context of a broader strategy to tackle obesity in the population as a whole. National Institute for Health and Clinical Excellence guidance on the prevention, identification, assessment and management of overweight and obesity in adults and children will also be available early in 2007.

Current action on diet includes investment in the "Five-a-day" programme, including the school fruit and vegetable scheme, promotion of breastfeeding, action to improve diet and nutrition across the whole school, including the food in schools programme, as well as work with industry on food promotion to children and reducing salt, fat and sugar. Current action on physical activity includes investing in school sport and the local exercise and activity pilots.

**Dr. Naysmith:** To ask the Secretary of State for Health what progress has been made in ensuring that primary care trusts produce strategies to address obesity; what *(a)* guidance and *(b)* resources are made available to trusts to assist them in producing such strategies; and whether that assistance includes information about slimming on referral. [11898]

**Caroline Flint:** As part of the local delivery plan process, strategic health authorities are required to submit plans to tackle obesity. These have been received and are being assessed. The obesity care pathway, weight loss guide and obesity toolkit will help support primary care trusts in delivering their plans, prior to National Institute for Health and Clinical Excellence guidance in 2007. The White Paper, "Choosing Health", also made a commitment to assess the role validated programmes, such as slimming on referral, can play in providing effective behaviour change programmes.

**Mr. Burstow:** To ask the Secretary of State for Health which strategic health authorities have submitted plans to tackle obesity as part of the local delivery plan process. [12540]

**Caroline Flint:** All strategic health authorities (SHAs) have been required to develop local delivery plans to tackle obesity. The Department is in the process of agreeing SHA plans and progress will be monitored against these.

**Bob Russell:** To ask the Secretary of State for Health what assessment she has made of the need for action to tackle obesity at primary care level. [13545]

**Caroline Flint:** As part of the local delivery plan process, strategic health authorities are required to submit plans to tackle obesity. These have been received and are being assessed. The obesity care pathway, weight loss guide and obesity toolkit will help support primary care trusts in delivering their plans, prior to National Institute for Health and Clinical Excellence guidance in 2007.

### Orthopaedic Prosthesis

**Anne Main:** To ask the Secretary of State for Health pursuant to the answer of 27 June 2005, *Official Report*, column 1377W, on orthopaedic prosthesis, if she will take steps to ensure that no NHS trust standardises orthopaedic prosthesis. [10839]

**Ms Rosie Winterton:** There are no plans for the standardisation of orthopaedic prosthesis.

### Positron Emission Tomography Services

**Mr. Baron:** To ask the Secretary of State for Health what steps have been taken following the publication of the Framework for the Development of Positron Emission Tomography Services in England on 28 July 2004 and the subsequent consultation; and if she will make a statement. [13592]

**Ms Rosie Winterton:** We are currently considering responses to the draft, "National Framework for the Development of Position Emission Tomography Services in England." The report is due to be published shortly.

### Prisons

**Mrs. James:** To ask the Secretary of State for Health what estimate she has made of the number of prisoners infected with hepatitis C in England and Wales. [10672]

**Ms Rosie Winterton:** I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Leeds, North-East (Mr. Hamilton) on 12 July 2005, *Official Report*, columns 973–74W.

### Processed Food Industry

**Mr. Mike Hall:** To ask the Secretary of State for Health what estimate she has made of the cost to the processed food industry of the Food Standards Agency's decision to recall products containing Sudan 1 and Para Red. [12866]

**Caroline Flint** *[holding answer 18 July 2005]:* This information is not held centrally by the Food Standards Agency (FSA). Estimated costs on the action taken by the FSA to recall products would be available from the industry.

### Public and Patient Involvement Forums

**Mr. Hollobone:** To ask the Secretary of State for Health when the public and patient involvement forums for *(a)* ambulance services, *(b)* mental health trusts and *(c)* acute hospital trusts will be abolished; and what mechanisms will be set up to ensure patient consultation. [10733]

**Ms Rosie Winterton** *[holding answer 11 July 2005]:* It is intended, subject to legislation, that patient forums for ambulance services, mental health trusts and acute hospital trusts will be abolished in August 2006. We plan to combine forums and work is under way to ensure that the work these specialist trust forums are doing is continued under the new arrangements. Section 11 of the Health and Social Care Act 2001 on the duty to consult patients and the public is unaffected by this change.

### Section 64 Funding

**Ms Gisela Stuart:** To ask the Secretary of State for Health for what reason bereavement was removed from the criteria for eligibility for section 64 funding for 2005–06. [12255]

**Ms Rosie Winterton:** In 2005–06, bereavement organisations received grants totalling more than £200,000 through the section 64 general scheme of grants.

Funding for section 64 grants is limited and always over subscribed. In these circumstances, funding for new projects from 2006–07 was directed at priorities other than bereavement. However, a number of bereavement organisations continue to receive funding through previous section 64 awards through until 2008.

### Smoking

**Mr. Gordon Prentice:** To ask the Secretary of State for Health what research she has commissioned on the possibility of smoking being a contributing factor in the onset of blindness; and if she will make a statement. [11875]

**Caroline Flint:** The Government have not commissioned research on the possibility of smoking being a contributing factor in the onset of blindness. However, it is widely recognised that smoking is linked to many serious and chronic conditions.

### Surrey and Sussex Strategic Health Authority

**Tim Loughton:** To ask the Secretary of State for Health if she will list the board members of health trusts within the Surrey and Sussex Strategic Health Authority who have left their positions in the last three years. [12798]

**Caroline Flint:** The information is not held centrally, nor is it collected locally by the strategic health authority.

Responsibility for appointments functions relating to the appointment of non-executive directors of national health service trusts was delegated to the NHS Appointments Commission when it was established in 2001. The chair of the NHS Appointments Commission will write to the hon. Member directly with the information he has asked for.

### Walnuttree Hospital, Sudbury

**Mr. Yeo:** To ask the Secretary of State for Health what representations her Department has received from *(a)* patients, *(b)* patients' relatives, *(c)* medical staff and *(d)* other health authority staff regarding the proposal to close the Walnuttree hospital in Sudbury. [9337]

**Ms Rosie Winterton:** The Department has received letters and emails from patients, patients' relatives and medical staff on the proposal to close the Walnuttree hospital in Sudbury. In addition, a 10,000 signature petition was presented to the Department on 24 November 2004 on behalf of the campaigners, "Hands Off Our Hospital".

### World Health Organisation

**Mr. Amess:** To ask the Secretary of State for Health how much her Department has given to the World Health Organisation in each year since 1997; whether there are restrictions on the use of these funds; and if she will make a statement. [12719]

**Ms Rosie Winterton:** The Department pays the United Kingdom's annual subscription to the World Health Organisation (WHO) in line with the United Nation's scales of assessment, which is shown in the table. There are no restrictions on the use of these funds.

*UK annual subscriptions from 1997 to 2004*

| | *Departmental contributions to the WHO* | *Thousand* |
|---|---|---|
| | *United States ($)* | *£*[1] |
| 1997 | 21,560 | 13,342 |
| 1998 | 21,416 | 12,891 |
| 1999 | 19,677 | 12,180 |
| 2000 | 20,751 | 13,170 |
| 2001[2] | 20,293 | 14,400 |
| 2002[2] | 22,683 | 14,950 |
| 2003[2] | 20,071 | 12,673 |
| 2004[2,3] | 22,030 | 12,959 |

[1] Figures are in sterling and based on the United Kingdom's financial year starting from 1997–98 to 2004–05.
[2] Figures are not comparable to previous years due to the introduction of the resource accounting and budgeting out-turn exercise. This information is compiled in line with the requirements of "Government Accounting 2000".
[3] Amount in sterling is provisional.
*Notes:*
1. WHO contributions against the UK are in US dollars and converted into sterling by using the exchange rates used by the Bank of England.
2. Figures are rounded to the nearest thousands.

In addition to the annual subscription, the Department has made voluntary contributions targeted to specific WHO programmes in the following areas:

Disease surveillance

Environment and health, including chemical safety and air quality

Immunisation (pandemic flu)

Non communicable diseases (health inequalities, WHO global strategy on diet, physical activity and health)

Patient safety

Tobacco control

Smallpox.

## TREASURY

### Child Trust Fund

**Mr. Sarwar:** To ask the Chancellor of the Exchequer how many Child Trust Fund cheques have been invested; and if he will make a statement. [13642]

**Mr. Ivan Lewis:** I refer the hon. Member to the reply I gave to the hon. Member for Yeovil (Mr. Laws) on 6 June 2005, *Official Report*, columns 286–87W. Figures are published quarterly and the next figures will be published at the end of August.

### Childcare Vouchers

**Dr. Starkey:** To ask the Chancellor of the Exchequer what information his Department is providing to parents to explain the effect of claiming tax-free childcare vouchers on *(a)* child tax credit and *(b)* superannuation contributions. [10790]

**Dawn Primarolo:** Guidance on the effect of accepting tax-free childcare vouchers on tax credits and pension contributions where these are offered by employers in return for a salary sacrifice is available on HMRC's website at www.hmrc.gov.uk/specialist/salary_sacrifice.htm

Employers should advise employees of any effect of childcare vouchers on tax credits and pension contributions.

**Dr. Starkey:** To ask the Chancellor of the Exchequer what the effect of take-up of tax-free childcare vouchers by employees will be on occupational pension contributions for *(a)* men and *(b)* women. [10791]

**Dawn Primarolo:** The tax and NICs exemption for employer-provided childcare vouchers has no effect on occupational pension contributions for men or women. Whether employers choose to alter pension contributions is entirely a matter for them.

### Class A Drugs

**Mr. Oaten:** To ask the Chancellor of the Exchequer how many people have been arrested for trafficking class A drugs at *(a)* airports and *(b)* ports in each of the last five years. [13212]

**Dawn Primarolo:** HMRC does not currently collect arrest data in a way that readily allows production of this kind of breakdown.

HMRC prosecution statistics for class A offences are regularly published by the Home Office in Drug Seizure and Offender Statistics reports. However, these do not include breakdowns by locations of seizure.

The most recent of these reports was published in July 2004, covering results for 2001 and 2002. In 2001, there were 560 prosecutions for illegal import or export of class A drugs. In 2002, there were 1,220.

## Cost Recovery

**Bob Spink:** To ask the Chancellor of the Exchequer pursuant to the answer of 28 June 2005, *Official Report*, column 1424W, on cost recovery, when he expects the National Partnership Group for Palliative Care to publish the further information on full cost recovery to which he refers. [10402]

**Ms Rosie Winterton:** I have been asked to reply.

The information on health care resource groups, payment by results and the principles of full cost recovery being prepared for the national partnership group for palliative care is presently out for consultation with the group. We expect to issue this information once the consultation process is complete.

## Council Tax

**Mrs. Spelman:** To ask the Chancellor of the Exchequer pursuant to the answer of 6 July 2005, *Official Report*, column 432W, on council tax, if he will place in the Library a copy of the written advice or reports submitted to the Valuation Office Agency by *(a)* Cole Layer Trumble, *(b)* the International Association of Assessing Officers, *(c)* the International Property Tax Institute, *(d)* the Institute of Revenue Rating and Valuation, *(e)* the Royal Institution of Chartered Surveys and *(f)* KPMG. [13160]

**Dawn Primarolo:** I have asked the Valuation Office Agency (VOA) to arrange for hardcopy versions of "Mass Appraisal of Real Property" and "Property Appraisal and Assessment Administration" published by the International Association of Assessing Officers and "A vision for valuation" published by the RIGS (Royal Institution of Chartered Surveyors) to be placed in the House of Commons and the House of Lords Libraries. ("A vision for valuation" is also available on www.rics.org.). The Valuation Office Agency has used these publications to aid their review of potential techniques which may assist the revaluation, and also discussed aspects with representatives of the bodies concerned.

The remaining written advice provided by *(a)*, *(b)*, *(c)*, *(d)*, *(e)* and *(f)* has been given to assist in the formulation of Government policy on the future assessment of properties for council tax purposes using computer aided mass appraisal techniques, which are still under development. This written advice has been provided in confidence, and in addition disclosure could in some cases prejudice the commercial interests of the supplier and their relationship with the VOA.

## Drug-related Deaths (Teesside)

**Dr. Kumar:** To ask the Chancellor of the Exchequer in how many deaths in Teesside the use of *(a)* heroin, *(b)* ecstasy, *(c)* amphetamines, *(d)* other illicit substances, *(e)* alcohol and *(f)* tobacco was recorded as a cause in each year since 1997. [12552]

**John Healey:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Dr. Ashok Kumar, dated 19 July 2005:*

As National Statistician, I have been asked to reply to your recent question asking in how many deaths in Teesside the use of *(a)* heroin, *(b)* ecstasy, *(c)* amphetamines, *(d)* other illicit substances, *(e)* alcohol and *(f)* tobacco was recorded as a cause in each year since 1997. (12552)

The most recently available information for mortality is deaths registered in 2004 and deaths occurring in 2003. Relevant figures are only readily available for deaths where the underlying cause was either related to drug poisoning or directly related to alcohol (alcohol abuse, dependence and poisoning, and diseases directly related to alcohol use). It is not possible to identify from death certificates which substance was the primary cause when more than one was involved.

Teesside has not been a recognised administrative area since 1974 when major administrative re-structuring took place. Teesside county borough council now lies within three unitary authorities: Middlesbrough; Redcar and Cleveland; and, Stockton-on-Tees. Figures for these areas are provided in the table below.

It is not known how many people die through tobacco use each year as this information is not recorded on the death certificate. Estimates can be made however and the most recent for England were published by the Health Development Agency in 2004.[1] This report estimated that in England an average of 86,500 deaths were caused by smoking each year over the period 1998–2002. Estimates were not published at unitary authority level, however for Primary Care Trusts (PCTs) the percentages of all deaths from causes associated with smoking at ages 35 and over were published. The unitary authorities of Middlesbrough, Redcar and Cleveland, and Stockton-on-Tees lie within the PCTs of Middlesbrough, Langbaurgh and North Tees. The percentages of deaths of those aged 35 and over in these areas from causes associated with smoking were 38 per cent., 32 per cent. and 35 per cent. respectively.

Figures for alcohol-related deaths to usual residents of the three unitary authorities registered in the years 1997 to 2004 are given in the table below. ONS compiles a special database to analyse mortality from drug-related poisoning, adding more detail than is available on routine annual extracts. This database is compiled using the annual occurrences extract of mortality data. Figures showing deaths related to drug poisoning involving heroin/methadone, ecstasy and amphetamines, occurring in the years 1997 to 2003, to usual residents of the three areas are given in the table below. Information on deaths involving illicit substances is not available, as how the deceased obtained a particular drug is not recorded at death registration.

However the attached table does show the number of deaths where a controlled substance, other than heroin/morphine or amphetamines (including ecstasy), was mentioned.

It should be noted that the figures on drug-related poisoning and alcohol-related deaths are not directly comparable for the following reasons:

The figures for alcohol-related deaths include the long-term effects of alcohol use, such as cirrhosis of the liver, whereas the figures for drugs all relate to poisoning from drug use.

Deaths from poisoning which involved both drugs and alcohol are coded as being due to drug poisoning, in accordance with international rules for coding cause of death.

The figures on alcohol include only those where the underlying cause was alcohol-related. The figures on specific drugs include any mention of the substance where the death was related to drug poisoning.

[1] Twigg L, Moon G and Walker S. The smoking epidemic in England. Health Development Agency, 2004.

*Number of alcohol-related deaths[1] and deaths from drug-related poisoning[2] involving selected drugs[3] to usual residents of the Unitary Authorities of Middlesbrough, Redcar and Cleveland, and Stockton-on-Tees, 1997 to 2004[4]*

| | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 |

[1] For the years 1997–2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 291, 303, 305.0, 425.5, 571, E860. For the years from 2001 onwards the cause of deaths was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes F10, 142.6, K70, K73, K74, X45.
Deaths were selected using the original underlying cause. The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.
[2] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5 for 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes F11-F16, F18-F19, X40-X44, X60-X64, X85 and Y10-Y14 from 2001 onwards.
[3] Drugs mentioned on the death certificate of a death where the underlying cause was drug poisoning.
[4] Figures for alcohol-related deaths are numbers registered in each calendar year. Figures for drug-related poisoning deaths are numbers occurring in each calendar year.
[5] Fewer than 5 deaths.

## Economic Conditionality

**Mr. Hancock:** To ask the Chancellor of the Exchequer what action is being taken to promote the UK position on economic conditionality at the International Monetary Fund. [12464]

**Vera Baird:** To ask the Chancellor of the Exchequer what steps are being taken to promote the Government's policy on economic conditionality within the International Monetary Fund. [13593]

**Mr. Ivan Lewis:** As set out in the recently published policy paper "Partnerships for Poverty Reduction: rethinking conditionality", the Government believes that the relationship between donors and each developing country should be a partnership, based on shared commitments and priorities taken from the country's own poverty reduction strategy, and that progress should be measured against benchmarks from that strategy.

This approach was endorsed recently in the G8 statement on trade from the recent Gleneagles summit. This stated that this kind of flexibility will

> "help least developed countries to decide, plan and sequence their overall economic reforms in line with their country-led development programmes and their international obligations".

The IMF is currently undertaking a review of their approach to conditionality to be discussed later this year. In the context of this review and individual country discussions, the UK will work in the IMF Executive Board to promote the new approach proposed by the UK. The UK will also use the annual meetings of both the IMF and the World Bank in September 2005 to promote this approach.

## Economic Inactivity

**Mr. Frank Field:** To ask the Chancellor of the Exchequer what proportion of men and women aged *(a)* 16 to 44 and *(b)* 45 to 64 years who were (i) employed and (ii) economically inactive reported a limited longstanding illness from 1979 to the most recent available date. [11441]

**John Healey** *[holding answer 11 July 2005]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Frank Field, dated 19 July 2005:*

As National Statistician I have been asked to reply to your parliamentary question about employed and economically inactive men and women with longstanding illness in the UK. (11441)

Tables 1 and 2 attached provide the available information for the years 1995 to 2005.

For the years 1995 to 1997 the long-term health problem definition included those people whose problem affected the kind of paid work they did. In the 1998 the definition of long-term health problem was extended to include problems affecting the amount of paid work that could be done. For the years 1999 onwards the figures are based on LFS questions designed to reflect the criteria of the Disability Discrimination Act.

The proportion of disabled people in table 2 are on a consistent basis, which is comparable from 1999 onwards. However, table 1 shows a clear discontinuity due to questionnaire changes. This should be taken into account if comparisons are made over time.

These estimates from the labour force survey are, as with any sample survey, subject to sampling variability.

*Table 1: Proportions of people of working age[1] with long-term health problem[2] United Kingdom*

*Percentage (not seasonally adjusted)*

| | *Age 16 to 44* | | | |
|---|---|---|---|---|
| | *Men* | | *Women* | |
| *Three months ending February* | *In employment* | *Inactive* | *In employment* | *Inactive* |
| 1995 | 4.1 | 23.6 | 3.5 | 13.8 |
| 1996 | 4.1 | 26.0 | 3.7 | 14.6 |
| 1997 | 7.1 | 33.9 | 6.2 | 20.1 |
| 1998[3] | 5.4 | 33.1 | 5.6 | 20.2 |

*Percentage (not seasonally adjusted)*

| | Age 45 to 64 | | Age 45 to 59 | |
|---|---|---|---|---|
| | Men | | Women | |
| Three months ending February | In employment | Inactive | In employment | Inactive |
| 1995 | 8.0 | 64.9 | 7.1 | 41.2 |
| 1996 | 7.7 | 64.2 | 7.2 | 42.9 |
| 1997 | 12.1 | 69.5 | 10.5 | 50.9 |
| 1998[3] | 9.5 | 69.5 | 10.4 | 50.7 |

[1] Men aged 16 to 64 and women aged 16 to 59.
[2] Long-term health problems defined by self-classification of LFS respondents as limiting the kind of paid work they can do.
[3] In 1998 the definition of long-term health problems was extended to include problems affecting the amount of paid work that could be done.

*ONS Labour Force Survey*

## Energy-saving Products

**Lynne Jones:** To ask the Chancellor of the Exchequer if he will make it his policy to introduce a stamp duty rebate for the installation of energy saving products at the time of home purchase. [12636]

**John Healey:** The Government keeps all taxes under review.

## Gift Aid

**Mr. Vaizey:** To ask the Chancellor of the Exchequer how much money was received by charities via Gift Aid in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [13263]

**Mr. Ivan Lewis:** The amounts donated by individuals and tax repaid to charities under Gift Aid for the years 2000–01 to 2004–05 are shown in the table. The figures

for 2004–05 are provisional. HM Revenue and Customs do not have data for corporate Gift Aid donations during this period.

Statistics on Gift Aid are published on the HM Revenue and Customs website at www.hmrc.gov.uk/stats/charities/table10–3.xls

£ million

| | Total gift aid donations | Tax repaid |
|---|---|---|
| 2000–01 | 996 | 222 |
| 2001–02 | 1,884 | 415 |
| 2002–03 | 2,300 | 506 |
| 2003–04 | 2,666 | 586 |
| 2004–05 | 2,838 | 625 |

### Handcuff Exports

**Lynne Jones:** To ask the Chancellor of the Exchequer what investigations Her Majesty's Revenue and Customs have undertaken of breaches of strategic export controls in relation to the export of oversized handcuffs from the UK to *(a)* the United States of America and *(b)* Hong Kong. [13557]

**Dawn Primarolo:** HMRC has investigated one case concerning alleged exports of oversized handcuffs from the UK to the United States of America and no cases involving exports to Hong Kong.

### Import Duties

**Mr. Crabb:** To ask the Chancellor of the Exchequer if he will list the import duties that apply to goods manufactured outside the EU; and what the purpose is of each. [12470]

**Malcolm Wicks:** I have been asked to reply.

The EU's import duties are set out in the EU's common external tariff and comprise over 15,000 separate tariff lines with varying duty rates. It is not practical to list all of them individually. The information can be found in the UK Customs Tariff published by HMSO on behalf of HM Revenue and Customs (HMRC). A copy is currently available in the Libraries of the House.

The European Community has exclusive competence for commercial policy including the setting of import duties. Import duties are a source of Government revenue. The level of duty reflects both the degree of sensitivity of the product concerned and also what was negotiable over time through various rounds of multilateral trade negotiations.

### Income Tax

**Mr. Tom Harris:** To ask the Chancellor of the Exchequer (1) how many workers living in *(a)* West Dunbartonshire council and *(b)* West Lothian council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate; [13222]

(2) how many workers living in *(a)* Clackmannanshire council, *(b)* Comhairle nan Eilean Siar, *(c)* Dumfries and Galloway council, *(d)* Dundee city council and *(e)* East Ayrshire council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate; [13259]

(3) how many workers living in *(a)* Aberdeen city council, *(b)* Aberdeenshire, *(c)* Angus council, *(d)* Argyll and Bute council and *(e)* City of Edinburgh local authority areas pay income tax at (i) the basic rate and (ii) the higher rate; [13260]

(4) how many workers living in *(a)* Scottish Borders council, *(b)* Shetland Islands council, *(c)* South Ayrshire council, *(d)* South Lanarkshire council and *(e)* Stirling council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate [13283]

(5) how many workers living in *(a)* North Ayrshire council, *(b)* North Lanarkshire council, *(c)* Orkney Islands council, *(d)* Perth and Kinross council and *(e)* Renfrewshire council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate; [13284]

(6) how many workers living in *(a)* Glasgow city council, *(b)* Highland council, *(c)* Inverclyde council, *(d)* Midlothian council and *(e)* Moray council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate; [13286]

(7) how many workers living in *(a)* East Dunbartonshire council, *(b)* East Lothian council, *(c)* East Renfrewshire council, *(d)* Falkirk council and *(e)* Fife council local authority areas pay income tax at (i) the basic rate and (ii) the higher rate. [13290]

**Dawn Primarolo:** The information on revenue raised from personal taxation by local authority areas is not available pending a review of National Statistics on income tax and personal incomes. Further details of the review can be found on the HMRC website at the following page:

http://www.hmrc.gov.uk/stats/income_tax/NS_Review.htm.

The only related information available is the published National Statistics on mean and median income by each county, unitary authority or district which can be found on the HM Revenue and Customs website:

http://www.hmrc.gov.uk/stats/income_distribution/table314-0203.xls.

**Mr. Iain Wright:** To ask the Chancellor of the Exchequer how many and what proportion of people in *(a)* England and Wales, *(b)* North East region, *(c)* Tees Valley sub region and *(d)* Hartlepool pay income tax at the (i) starting rate of 10 per cent., (ii) basic rate of 22 per cent. and (iii) higher rate of 40 per cent. [13442]

**Dawn Primarolo:** The information for taxpayers in England and Wales is in the table.

Similar information by tax bands on regional or sub-regional income tax revenue statistics is not available pending a review of National Statistics on income tax and personal incomes. Further details of the review can be found on the HMRC website at the following page: http://www.hmrc.gov.uk/stats/income_tax/NS_Review.htm

*England and Wales taxpayers only, 2002–03*

| | *Number of taxpayers (thousand)* | *Percentage* |
|---|---|---|
| Starting rate | 2,700 | 11 |
| Savers' and basic rate[1] | 20,100 | 79 |
| Higher rate | 2,800 | 10 |

[1] Includes taxpayers with a marginal rate of 20 per cent. on savings, 22 per cent. on earnings and 10 per cent. on dividends.

The number of people liable for tax in the North East region, and Hartlepool and Tees Valley unitary authorities, can be found in tables 3.11 'Income and tax, by region and country' and 3.14 'Total income by borough and district or unitary authority' on the HM Revenue and Customs' website www.inlandrevenue.gov.uk/stats/income_distribution/menu.htm

The income tax information is based upon the Survey of Personal Incomes (SPI) and 2002–03 is the latest survey year. The survey is based on information held by the HM Revenue and Customs tax offices on persons who are liable to UK tax.

### Inheritance Tax

**Mrs. Spelman:** To ask the Chancellor of the Exchequer (1) on how many estates the UK inheritance tax was paid in each year since 1996; [13112]

(2) if he will list the inheritance tax threshold in each year since 1996. [13113]

**Dawn Primarolo:** The number of estates paying inheritance tax each year are published on the HM Revenue and Customs website at

www.hmrc.gov.uk/stats/tax_receipts/table1–4.xls

The inheritance tax threshold applying in each year is also given on the HM Revenue and Customs website at

http://www.hmrc.gov.uk/stats/inheritance_tax/table-a8.xls

In Budget 2005 the threshold was increased to £275,000 in 2005–06, £285,000 in 2006–07 and £300,000 in 2007–08.

**Mr. Iain Wright:** To ask the Chancellor of the Exchequer how many estates in Hartlepool have had a value in excess of the nil-band threshold of inheritance tax in each of the last five years for which figures are available. [13445]

**Dawn Primarolo:** 94 per cent. of estates do not pay inheritance tax. Figures are not available at local levels.

### Lorry Road User Charge

**Mr. Duncan:** To ask the Chancellor of the Exchequer what discussions with industry associations he *(a)* had prior to and *(b)* has had since his announcement of the lorry road user charge. [12764]

**John Healey:** Ministers and officials from HM Treasury, HMRC and the Department for Transport hold meetings on a regular basis with a wide range of representative bodies from the haulage and other related industries, primarily through the Road Haulage Forum (RHF) and its Lorry Road User Charge sub-group.

I also talk regularly to leaders of the Freight Transport Association and the Road Haulage Association to discuss their concerns.

**Mr. Duncan:** To ask the Chancellor of the Exchequer how much the Chairman of the Lorry Road User Charge division within HM Revenue and Customs was paid in 2004–05; and if he will make a statement on the future of the post. [12715]

**John Healey:** The Director of the Lorry Road User Charge Programme within HM Customs and Excise received a civil service salary within the senior civil service pay band 2. Details of senior civil service pay bands for 2004–05 were published by the Review Body on Senior Salaries in its Twenty-Seventh Report on Senior Salaries (Cm 6451).

The posts of Chief Executive and Director were merged into one post within HM Revenue and Customs in June 2005. Following the announcement by the Secretary for State for Transport on 5 July 2005, *Official Report*, column 173, that the Government will now take forward the plans for distance-based lorry charging as part of the wider work on national road pricing, this post is now under review.

**Tom Brake:** To ask the Chancellor of the Exchequer how many people are employed on the project to introduce lorry road user charging; and what their budget is. [5182]

**Mr. Duncan:** To ask the Chancellor of the Exchequer (1) how much has been spent on preparatory work for the lorry road user charge; [12747]

(2) how many people are employed in the lorry road user charge division within HM Revenue and Customs. [12763]

**John Healey:** The LRUC programme has regularly reviewed its needs to ensure the right level of skills and resources; during 2004–05, the last complete year for which figures are available, the equivalent of around 159 full-time staff were engaged on the programme. The provisional total for the expenditure by HM Customs and Excise on the LRUC programme since they were assigned responsibility in May 2002 up to 31 March 2005 was £39.1 million.

This work on the LRUC programme has strengthened the Government's view that distance-based charging for using the UK's roads is technically achievable. In particular, "proof of solution" work with prospective suppliers has enabled us to see the technology in action, and is confirming our expectations of its ability to deliver a distance-based charge. The Government will continue to work with the haulage industry and ensure that we carry the full experience gained from this project into the wider work to develop a national road pricing system.

### Money Laundering

**Mr. Roger Williams:** To ask the Chancellor of the Exchequer how many people in the UK *(a)* have had their bank accounts closed and *(b)* been refused a bank account on grounds of suspicion of money laundering in each of the last three years. [12742]

**Mr. Ivan Lewis:** This information is not held by the Government.

### National Insurance

**Dr. Cable:** To ask the Chancellor of the Exchequer what the cost would be of increasing the personal and employer and employee national insurance contribution thresholds to £8,615 *(a)* keeping a 10 per cent. starting rate on the first £2,090 above £8,615 and *(b)* removing the starting rate, in both cases decreasing the basic rate limit so that the upper rate was applied at the same point as at present. [13203]

**Dawn Primarolo:** Increasing the personal allowance (PA) and employer and employee national insurance contribution thresholds to £8,615 and reducing the basic rate band limit to £28,680, while keeping the 10 per cent. starting rate on the first £2,090 above the PA would reduce the tax/national insurance contribution revenue by around £38.5 billion in 2005–06.

The cost would fall to £32.6 billion in 2005–06 if the first £2,090 above the PA is absorbed into the basic rate band.

These estimates have been obtained after increasing all personal allowances (i.e. the personal allowances and personal allowances for individuals aged 65 and above) to £8,615, increasing the Primary and Secondary Thresholds to £166 per work and keeping the higher rate income-tax threshold at the current £37,295.

The second costing assumes the first £2,090 is taxed at 22 per cent. on earnings and 20 per cent. on savings—the dividends starting rate is kept at 10 per cent.

There would be no savings from lower tax credits since tax credit entitlement is based on gross income.

The income tax information is based upon the 2002–03 Survey of Personal Incomes (SPI) projected forward to 2005–06 and information on national insurance contribution information has been provided by the Government Actuary's Department (GAD). Estimates are in line with Budget 2005 assumptions.

The figures exclude any estimate of behavioural response to the tax and national insurance contributions changes, which could be significant given the scale of the changes, nor do they consider the longer-term consequences of lower accruals of pension benefits and levels of rebates.

### National Statistics

**Mr. Fallon:** To ask the Chancellor of the Exchequer what progress is being made with the Framework Review of National Statistics; when he expects it to be compiled; whether it will be published; and if he will make a statement. [13492]

**John Healey:** The "Framework for National Statistics" came into force in 2000, and included a commitment for its review in five years. The Government will honour this commitment.

### North Sea Oil Revenues

**Mr. Salmond:** To ask the Chancellor of the Exchequer whether the Government have revised their forecast of North sea oil revenues in the 2005–06 financial year to take account of higher than expected oil prices and sterling/dollar movements; and if he will make a statement. [12519]

**Dawn Primarolo:** The Government will publish an update of the effect of oil prices on the UK's public finances and updated forecasts for the UK and world economies in the pre-Budget report as usual, taking into account all relevant factors and developments, including oil prices.

### Offshore Tax Avoidance

**Mr. MacNeil:** To ask the Chancellor of the Exchequer what guidance he has issued on the awarding of contracts to companies who register crews offshore to avoid tax. [12469]

**Dawn Primarolo:** The Government awards contracts in accordance with procurement procedures. I refer the hon. Member to the answer I gave him on 15 June 2005, *Official Report*, column 391W.

### Oil and Gas Revenues

**Mr. Salmond:** To ask the Chancellor of the Exchequer if he will estimate oil and gas revenues accruing to the Exchequer in the 2005–06 financial year assuming oil prices at *(a)* $50, *(b)* $60 and *(c)* $80 a barrel. [12520]

**Dawn Primarolo:** The impact of higher oil prices on the public finances is discussed in Box 2.5 in the 2004 Pre-Budget Report.

### Overseas Civil Service

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer (1) how many former employees of Her Majesty's Overseas Civil Service benefited from a waiver of interest on tax liabilities for the year 1997–98 that were reported after the 31 January deadline as a result of the Hong Kong Government's decision to give a 10 per cent. rebate on tax charged for that year; [13230]

(2) what the total loss to the Exchequer was resulting from waiver of interest charges on tax liabilities of former employees of Her Majesty's Overseas Civil Service for the year 1997–98 that were reported after the 31 January deadline as a result of the Hong Kong Government's decision to give a 10 per cent. rebate on tax charged for that year; [13231]

(3) how many former employees of Her Majesty's Overseas Civil Service were charged interest on tax liabilities for the year 2001–02 that were reported after the 31 January deadline as a result of the Hong Kong Government's decision to give a 50 per cent. rebate on tax charged for that year. [13232]

(4) how much interest was charged on tax liabilities of former employees of Her Majesty's Overseas Civil Service for the year 2001–02 that were reported after the 31 January deadline as a result of the Hong Kong Government's decision to give a 50 per cent. rebate on tax charged for that year. [13233]

**Dawn Primarolo:** The information requested is not available centrally and could be obtained only at disproportionate cost.

## PAYE

**Chris Huhne:** To ask the Chancellor of the Exchequer what progress has been made in modernising the computerisation of Pay As You Earn (PAYE) by Her Majesty's Revenue and Customs; when current computer projects concerning PAYE are due to be completed; what the *(a)* original and *(b)* expected cost of each project is; what functional improvements are expected; and if he will make a statement. [12613]

**Dawn Primarolo:** PAYE computer systems and processes are being changed in order to support the recommendations of the 2001 Carter Report on Payroll Services which the Government accepted in the 2002 Budget. They include mandatory online submission of Employer's Annual Returns by large and medium-sized employers and incentives for voluntary online submission by small employers. The changes also support the submission of cleaner data to newly defined quality standards. The changes are scheduled for completion in September 2005.

The original estimated development and running costs for this Programme (for the period 2003–04 to 2008–09) were £122 million. The expected costs for the same period, which are in line with the formally agreed business case, are £156 million. The difference is accounted for primarily by increased IT development and running costs driven out by detailed design and analysis work.

935,000 (62 per cent.) 2004–05 Employer's Annual Returns, covering 87 per cent. of employee data, were made online. This compares with 6.6 per cent. of Returns the previous year.

As part of its normal business, HMRC keeps computer support for PAYE under review with a view to improving processes and meeting public service agreement targets on customer service and efficiency.

## Pension Funds

**Gregory Barker:** To ask the Chancellor of the Exchequer what recent representations he has received from British businesses regarding taxes on pension funds since 1997. [10873]

**Mr. Ivan Lewis:** The Treasury receives representations from a number of parties, including British businesses on a wide range of issues, including tax and pensions.

## Pension Savings (Tax Relief)

**Mr. Denham:** To ask the Chancellor of the Exchequer if he will estimate cost of tax relief on pension savings in 2026. [12791]

**Mr. Ivan Lewis:** No estimates are available.

## Pensions

**Mr. Austin Mitchell:** To ask the Chancellor of the Exchequer what criteria he used in deciding to make property owners eligible for the self-invested personal pensions scheme. [12853]

**Mr. Ivan Lewis:** Currently most pension funds may invest in residential property, and many do. Pension tax simplification, which replaces the numerous existing tax regimes with a universal regime for tax-privileged pension savings, will also allow Self-Invested Personal Pensions (SIPPs) and Small Self-Administered Schemes (SSASs) to invest in residential property from 6 April 2006. This new regime will provide greater flexibility to some 15 million pension savers.

Creating a single set of allowable investments across all pension schemes fits the requirement to create a single regime for tax privileged pension saving and corrects an existing distortion by giving investors greater choice.

Paragraphs 55 and 56 of the Regulatory Impact Assessment (RIA) "Simplifying the Taxation of Pensions" published in April 2004, which can be found at http://www.hmrc.gov.uk/ria/simplifying-pensions.pdf deal specifically with the potential consequences of allowing residential property into SIPPs and SSASs.

The Government will keep this aspect of the tax system, as with all others, under review.

## Revenue and Customs

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many staff at Her Majesty's Revenue and Customs are engaged in the handling, processing and analysis of information returned on form IHT205. [13255]

**Dawn Primarolo:** No staff spend their whole time dealing with form IHT205, but the department estimates that it occupies the equivalent of about five full-time units. This compares to eight units dealing with the smaller number of "excepted estates" under the pre-2004 arrangements, plus further staff dealing with estates which were then required to submit a full IHT return but would now be able to use form IHT205. The new arrangements are designed to help executors get things right first time and have eliminated most of the follow-up inquiries which used to be necessary. Burdens on executors have reduced accordingly.

## Science Investment

**Dr. Iddon:** To ask the Chancellor of the Exchequer pursuant to his answer of 7 July 2005, *Official Report*, column 620W, on science investment, by what amount private sector investment would need to *(a)* increase and *(b)* decrease to cause him to change the projected real-terms average annual growth of 5.8 per cent. in public sector funding for the science base over the next three years as outlined in the 2004 Spending Review. [12824]

**John Healey:** The spending plans for the next three years are as stated in the 2004 Spending Review. The 2004 Spending Review increased funding for the public science base, through the DTI and DfES, at an average annual rate of 5.8 per cent. in real terms over the Spending Review 2004 period (2004–05 to 2007–08). The Government have no plans to change its commitment to the public science base over the 2004 Spending Review period, irrespective of levels of private sector investment in R&D over the same period.

## Seal Skins

**Mr. Hancock:** To ask the Chancellor of the Exchequer how many seal skins were *(a)* imported into and *(b)* exported from the UK in each of the last five years, broken down by species; and how much marine mammal oil was (i) imported into and (ii) exported from the UK in each year. [12711]

**Dawn Primarolo:** Figures on the imports and exports of seal skins and marine mammal oil are published in the Overseas Trade Statistics by HM Revenue and Customs which are available in the Library of the House and via www.uktradeinfo.com, which includes latest information. HM Revenue and Customs strongly suspects trade recorded against 43031010 in recent years has arisen as a result of miscoding by the importers concerned. Ongoing activities to ensure the quality of the trade statistics have resulted in some adjustments to the data; some further amendments may be necessary.

## Self-assessment

**Dr. Cable:** To ask the Chancellor of the Exchequer what percentage of self assessment tax payers paid their tax liability by *(a)* the due date and *(b)* within 12 months of the due date in each of the last five years for which information is available. [13202]

**Dawn Primarolo:** Her Majesty's Revenue and Customs only hold the information requested from year 2001–02. The following table shows the number of balancing payments paid by the due date expressed as a percentage of the number of self assessment taxpayers who have filed their returns.

| *Tax year* | *Percentage of taxpayers who pay by the due date* | *Percentage of taxpayers who pay within 12 months of the due date* |
|---|---|---|
| *2001–02* | | |
| Due 31 January 2003 | 89.3 | 98.6 |
| *2002–03* | | |
| Due 31 January 2004 | 89.8 | 98.7 |
| *2003–04* | | |
| Due 31 January 2005 | 88.6 | 98.7 |

## Stamp Duty

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer what estimate the Department has made of the aggregate annual cost to those required to complete stamp duty land tax returns of solicitors' work involved in completing such returns *(a)* in respect of all land transactions and *(b)* in respect of those land transactions in which no stamp duty land tax is payable. [12638]

**Mr. Ivan Lewis:** HM Revenue and Customs does not have an estimate of the compliance costs of stamp duty land tax (SDLT) on solicitors, conveyancers and other practitioners, nor of the costs passed on to purchasers in respect of completion of land transaction returns, regardless of whether SDLT is payable.

**Mrs. Spelman:** To ask the Chancellor of the Exchequer on how many transactions in *(a)* England, *(b)* Wales, *(c)* Scotland, *(d)* the UK and *(e)* each Government office region Stamp Duty was paid in each year since 1997. [13114]

**Mr. Ivan Lewis:** The estimated number of residential transactions, where Stamp Duty was payable, is given in the following table for the years and regions for which the information is available. Stamp Duty was payable for these years if the value of the transaction was above the £60,000 threshold, except for transactions from 30 November 2001 with values above £60,000 and up to £150,000 in certain disadvantaged areas, which were relieved from Stamp Duty.

*Number (thousand)*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|
| North East | 15 | 12 | 16 | 17 | 16 | 20 | 31 |
| North West | 41 | 45 | 57 | 68 | 76 | 86 | 83 |
| Yorkshire and the Humber | 32 | 32 | 39 | 46 | 44 | 51 | 47 |
| East Midlands | 29 | 32 | 41 | 49 | 51 | 51 | 62 |
| West Midlands | 43 | 44 | 54 | 59 | 62 | 81 | 60 |
| East of England | 70 | 70 | 87 | 96 | 109 | 121 | 97 |
| London | 122 | 121 | 155 | 148 | 159 | 163 | 130 |
| South East | 137 | 134 | 167 | 158 | 199 | 230 | 174 |
| South West | 65 | 67 | 87 | 90 | 117 | 137 | 126 |
| England | 554 | 557 | 703 | 729 | 833 | 941 | 809 |
| Wales | 17 | 17 | 23 | 22 | 32 | 37 | 46 |
| Scotland | n/a | n/a | n/a | n/a | 55 | 66 | 75 |
| United Kingdom | n/a | n/a | n/a | n/a | 942 | 1,069 | 964 |

n/a = Not available.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer what percentage of stamp duty land tax returns has been rejected as incorrectly completed by HM Revenue and Customs since the introduction of the form; and what percentage of those so rejected have subsequently been accepted as correct without amendment. [12023]

**Mr. Ivan Lewis:** In 2005 the percentage of returns received in which HMRC sought additional information or clarification of information included in stamp duty land tax returns has averaged approximately 33 per cent. A recent review suggested that in approximately 5 per cent. of cases received, one or more fields were either not captured or were misinterpreted during the scanning process. This figure includes returns where the handwriting results in information being captured incorrectly. As a result of this review, HMRC have identified a number of modifications which will quickly reduce the percentage of cases in which there is a scanning error.

## Tax Credits

**Mr. Andrew Turner:** To ask the Chancellor of the Exchequer how many copies of note TC 602 have been printed; what the instructions are for circulation thereof; and how many tax credit recipients have received a copy with each *(a)* payment and *(b)* assessment. [8708]

**Dawn Primarolo:** Form TC 602 is a computer-generated notice (accompanied by guidance notes) issued by HMRC under section 23 of the Tax Credits Act 2002. Its purpose is to set out the amount of tax credit entitlement and how that entitlement will be paid.

An award notice is issued whenever the award or payment details change. Legislation requires that separate notices be issued to each individual in a joint award. Where a claim is made, or a change of circumstance is notified, via the internet an additional copy of each notice is provided for claimants to sign and return to confirm that the details shown are correct.

For the number of award notices issued, and hence the number of forms TC 602 issued, may I refer the hon. Member to the answer I gave on 4 July 2005, *Official Report*, column 99W.

**Mr. Laws:** To ask the Chancellor of the Exchequer what information on *(a)* official error in payment of and *(b)* overpayment of tax credit is collated on a (i) quarterly; (ii) half-yearly and (iii) annual basis; and if he will make a statement. [8843]

**Dawn Primarolo:** For monthly figures of the amounts written off each month from June 2004 I refer the hon. Gentleman to the reply I gave him on 4 July 2005, *Official Report*, columns 101–2W.

In general, overpayments can only be established at the end of year, when families report their finalised income and circumstances. Information about overpayments is published in the spring of each year under National Statistics.

**Mr. Laws:** To ask the Chancellor of the Exchequer if he will make a statement on the computer problems which have been experienced by the Inland Revenue Tax Credits department over the last two years. [9330]

**Dawn Primarolo:** It is still the case that the system is stable in terms of speed and accessibility. As I have made clear in recent statements and debates, there has been IT problems which have affected system performance, some of which were mentioned during the PAC hearing on 24 January 2005. Others which have come to light more recently were mentioned in HMRC's contribution to the Ombudsman's recent special report on tax credits. These problems are being resolved as they arise, and none is currently leaving claimants without payment.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many people are employed in HM Revenue and Customs to handle *(a)* tax credits overpayments and *(b)* tax credits underpayments. [9731]

**Dawn Primarolo:** Information about the number of people employed to handle overpayments and underpayments in HM Revenue and Customs is not available, as it is not organised along these dividing lines.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how much has been paid out to tax credit claimants in compensation for Her Majesty's Revenue and Customs errors in each of the last three years. [9843]

**Mr. Laws:** To ask the Chancellor of the Exchequer (1) what his latest estimate is of the number of compensation payments due to errors and delays in the Tax Credit Office in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06; and if he will make a statement; [8739]

(2) what decisions his Department made in *(a)* 2002 and *(b)* 2003 about notifying tax credit claimants of their compensation entitlements following incorrect payments of the credits due to official error and IT problems; and if he will make a statement. [10017]

**Dawn Primarolo:** The circumstances in which HM Revenue and Customs will make compensation payments to its customers are explained in the Department's Code of Practice 1 "Putting things right" which is available at www.hmrc.gov.uk. The Department will pay compensation for reasonable costs incurred as a direct result of their mistakes or delays and to recognise worry and distress caused by those mistakes and delays. They do not keep separate details of compensation payments made specifically due to errors or delays.

For details of compensation payments the Department made to tax credits claimants in 2002–03, 2003–04 and 2004–05, I refer the hon. Members to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 4 July 2005, *Official Report*, columns 95–96W.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the *(a)* number and *(b)* value was of overpayments of (i) working families tax credit and (ii) family credit for each year from 1995–96 to 2002–03; and if he will make a statement. [9865]

**Dawn Primarolo:** Working families tax credit and family credit awards were fixed for 26 weeks. They were based on a snapshot of income and circumstances around the time of claim, and were not amended in any circumstances for the length of the award, regardless of a rise or fall in income or addition of, for example, another child. The fixed award period meant that it is not possible to calculate under or overpayments.

**Danny Alexander:** To ask the Chancellor of the Exchequer how many fax machines are sited at the work stations of staff of the tax credit helpline. [10268]

**Dawn Primarolo:** None. The tax credit helpline does not deal with fax requests from the public.

**Mr. Laws:** To ask the Chancellor of the Exchequer what assessment his Department has made of the *(a)* costs and *(b)* effects of returning to a fixed system of tax credit awards; and if he will make a statement. [10781]

**Dawn Primarolo:** The Government carefully examined the issue of how tax credits could respond to changes in families income and circumstances, and consulted on it when designing the child and working tax credits. A consultation document, 'New Tax Credits Supporting families, making work pay and tackling poverty', was published in July 2001. In the light of that consultation exercise, the April 2002 publication

"The Child and Working Tax Credits: The Modernisation of Britain's Tax and Benefit System Number Ten" set out how the system would work.

**Danny Alexander:** To ask the Chancellor of the Exchequer what assessment he has made of the merits of reforming the tax credits system to provide benefits for carers; and if he will make a statement. [11787]

**Dawn Primarolo:** The Government recognise the problems faced by carers moving into work.

HMRC continues to consult with interested parties on the practicalities of extending support to this group.

**Mr. Laws:** To ask the Chancellor of the Exchequer what representations he has received from social work departments about the tax credit system. [11845]

**Dawn Primarolo:** HM Revenue and Customs consult extensively with the Tax Credit Consultation Group, which includes representatives from the Local Government Association.

**Mr. Frank Field:** To ask the Chancellor of the Exchequer when he will reply to the letter of 15 June from the right hon. Member for Birkenhead regarding the tax credits of his constituent, Mrs. Smith. [12147]

**Dawn Primarolo:** HM Revenue and Customs will reply to my right hon. Friend shortly.

They aim to reply to 80 per cent. of correspondence within 15 working days and 95 per cent. within 40 working days.

**Mr. Laws:** To ask the Chancellor of the Exchequer what his latest estimate is of the total number of staff members involved in all forms of tax credit administration; and if he will make a statement. [12274]

**Dawn Primarolo:** The role of many HMRC staff may involve some element of tax credits administration, and the extent changes with the tax credits cycle.

For numbers of staff employed on tax credits I refer the hon. Gentleman to the answer I gave him on 18 July 2005, *Official Report*, column 1332W.

**Mr. Laws:** To ask the Chancellor of the Exchequer what the average time taken to resolve a dispute over the recovery of overpaid tax credits was in *(a)* 2003–04 and *(b)* 2004–05; and what the figure is to date in 2005–06. [12390]

**Dawn Primarolo:** The information requested is not available.

**Mr. Laws:** To ask the Chancellor of the Exchequer what estimate he has made of the proportion of tax credit expenditure that offsets tax liabilities. [12391]

**Dawn Primarolo:** The amount of the net payments of tax credits for 2003–04 that is attributed to negative tax is shown in the Inland Revenue Trust Accounts, Note 3, for the year ending 31 March 2004.

**Mr. Laws:** To ask the Chancellor of the Exchequer how many changes have been made to child and working tax credit award notices and the information included with them; and if he will place samples of each in the Library. [12394]

**Dawn Primarolo:** HMRC review and update all of the main tax credits forms, including the award notice, each year. For April 2006, they plan to introduce an improved version of the notice that has been developed in conjunction with representative groups. Copies of the new design have been placed in the Library today.

**Jessica Morden:** To ask the Chancellor of the Exchequer how many people in each ward of Newport East claim *(a)* child tax credit and *(b)* working tax credit. [13262]

**Dawn Primarolo:** Estimates of the number of in-work families (broken down by families with and without children) in each region, local authority and constituency with tax credits for 2003–04 awards, based on final family circumstances and incomes for 2003–04, appear in the HMRC statistical publication "Child and Working Tax Credits Statistics. Finalised Awards 2003–04. Geographical analyses." More recent provisional estimates for in-work families, as at selected dates in 2004–05, in each such area appear in the publication "Child and Working Tax Credit Statistics Geographical analyses." The estimates are based on samples and are subject to significant sampling uncertainty.

Both of these publications can be found on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm. Estimates for smaller areas are not currently available.

**Mr. George Osborne:** To ask Chancellor of the Exchequer (1) how many eligible families did not receive *(a)* the working tax credit and *(b)* the child tax credit in 2003–04; [13688]

(2) what estimates he has made of the number of eligible families not receiving *(a)* the working tax credit and *(b)* the child tax credit, broken down by income range. [13689]

**Dawn Primarolo:** On average for 2003–04 5.7 million families benefited from child tax credit and working tax credit and initial analysis suggests that in its first year, child tax credit achieved an estimated take-up rate of 80 per cent. by caseload. Further work to produce final take-up rate estimates for child tax credit and working tax credit for 2003–04 is continuing and we expect this analysis to be completed towards the end of 2005–06.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what proportion of *(a)* new claims, *(b)* renewals and *(c)* changes of circumstance within the tax credit system were decided accurately in 2003–04. [13712]

**Dawn Primarolo:** I refer the hon. Member to the answer I gave my hon. Friend the Member for High Peak (Tom Levitt), on 26 January 2005, *Official Report*, column 407W.

**Mr. Dunne:** To ask the Chancellor of the Exchequer what the cost to HM Revenue and Customs of processing appeals and complaints regarding the tax credits system was in 2004–05. [8185]

**Dawn Primarolo:** The estimated administrative cost of dealing with tax credit appeals and complaints in 2004–05 was around £15 million.

### Tax Returns

**Mr. Wills:** To ask the Chancellor of the Exchequer what percentage of appeals against penalties imposed for late submission of tax returns were upheld by the General Commissioners in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003 and *(e)* 2004. [13294]

**Dawn Primarolo:** HM Revenue and Customs do not have this information.

### Testicular Cancer

**Mr. Drew:** To ask the Chancellor of the Exchequer what the incidence of testicular cancer per 1,000 population was in *(a)* Gloucestershire and *(b)* Stroud District in each of the last five years. [13617]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. David Drew, dated 19 July 2005:*

As National Statistician, I have been asked to reply to your recent question concerning what the incidence of testicular cancer per 1,000 population men was in *(a)* Gloucestershire and *(b)* Stroud District in each of the last five years. (13617)

The most recent available figures for the incidence of testicular cancer are for the year 2002. Over the five year period 1998–2002, there were on average 22 cases of testicular cancer each year in the current county of Gloucestershire, too few to reliably calculate annual age-standardised incidence rates. For the five year period 1998–2002, the age-standardised incidence rate (directly standardised to the European standard population) for Gloucestershire was 8.0 per 100,000 men. For comparison, the corresponding rate for England was 6.5 per 100,000 men.

In the five year period 1998–2002, there were 12 cases of testicular cancer in the local authority of Stroud. The numbers of cases are too few to reliably calculate either annual age-standardised incidence rates or an age-standardised rate for the five-year period.

### Tonnage Tax

**Mr. Hancock:** To ask the Chancellor of the Exchequer what his estimate is of corporation tax forgone since the introduction of tonnage tax; and how much tonnage tax has been raised during that period. [13462]

**Dawn Primarolo:** Estimates of the corporation tax foregone in the first four years of the tonnage tax based on the level of UK shipping activity when tonnage tax was introduced can be found at: http://www.hmrc.gov.uk/international/tonnage.htm

Over this same period around £10 million in corporation tax has accrued to the Exchequer from companies using the net tonnage of ships operated as a means of calculating shipping profits.

### UK Royal Dutch Shell

**Mr. Mark Field:** To ask the Chancellor of the Exchequer if he will make a statement on the position of the minority shareholders in UK Royal Dutch Shell who, following the reconstruction of the Shell Group, will be liable for capital gains tax. [12425]

**Dawn Primarolo:** Ministers cannot comment on the tax affairs of individual taxpayers.

The UK has rules relating to share exchanges, which provide for relief by deferring tax on capital gains. Whether that relief is due to shareholders affected by the Shell reconstruction depends on exactly how the reconstruction is carried out. The detail of the reconstruction is, of course, entirely a matter for the companies concerned.

### Vehicles (Revenue)

**Mr. Duncan:** To ask the Chancellor of the Exchequer how much revenue his Department received from *(a)* fuel duty, *(b)* vehicle excise duty, *(c)* VAT on car sales, *(d)* VAT on fuel and *(e)* company car tax in the last year for which figures are available. [12716]

**John Healey:** The information is as follows:

(a) and *(e)* Revenue collected by HM Revenue and Customs for the latest year available are published on the following websites:

www.uktradeinfo.co.uk

http://www.hmrc.gov.uk/stats

(b) Vehicle Excise Duty are published in table C8 of Financial Statement and Budget Report (HC 372).

(c) and *(d)* HM Revenue and Customs do not collect data on VAT for individual goods or services.

# Written Answers to Questions

*Wednesday 20 July 2005*

## SOLICITOR-GENERAL

### Parliamentary Question

**Lynne Jones:** To ask the Solicitor-General what the *(a)* formal job titles and *(b)* grades were of the officials involved in drafting the parliamentary answer to Baroness Ramsey (HL2172); and from which Department each came. [13558]

**The Solicitor-General:** I refer the hon. Member to the replies given by the Attorney General on 28 February 2005, *Official Report*, column WA1 and 14 March 2005, *Official Report*, column WA108. All the officials concerned were members of the senior civil service or, in the case of the FCO, Senior Management Structure.

### Serious Fraud Trials

**Kate Hoey:** To ask the Solicitor-General what the reasons are for deciding that serious fraud trials should not be decided by jury. [12496]

**The Solicitor-General:** The Government's decision to implement section 43 of the Criminal Justice Act 2003 will give effect to recommendations made nearly 20 years ago by Lord Roskill's Fraud Trials Committee, and more recently by Sir Robin Auld in his "Review of the Criminal Courts", that the most serious and complex fraud cases should be heard without a jury. The justification for the change is that the efforts made by the prosecution and the court to keep such cases to a manageable length mean that sometimes the defendant cannot be tried for charges that fully expose the extent of the criminality alleged. Moreover, notwithstanding these efforts, some trials are inordinately long and impose an unreasonable burden on juries, whose members ask to be excused and sometimes as a result the jury becomes unrepresentative. In other cases the number of jurors can fall worryingly low because jurors cannot continue to serve for a prolonged period.

### Attorney-General (Publications)

**Mr. Ancram:** To ask the Solicitor-General if he will list the publications issued by the Attorney-General's office in each of the last seven years; and what the *(a)* circulation, *(b)* cost and *(c)* purpose of each was. [10579]

**The Solicitor-General:** The Law Officers' Departments each publish a number of documents within a year. Detailed information for each publication is not available without incurring disproportionate cost. But the following information can be provided in respect of the costs of departmental report and departmental annual reports and business plans.

| *Department and publication* | *1997–98* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|---|---|---|---|

n/a = not available

[1] Published by the Crown Prosecution Service on behalf of the Law Officers' Departments

The Law Officers' Departments departmental report is a requirement of HM Treasury, explaining departmental expenditure plans and performance. It covers all the Law Officers' Departments and is laid in the Library of the House. The report is circulated throughout the Law Officers' Departments, to HM Treasury and is available to CJS partners and other Government Departments on request. From time to time, the Attorney-General's office also publishes an Attorney-General's review and individual reports on specific areas of work.

The Director of Public Prosecutions is required to report annually to the Attorney-General under section 9 of the Prosecution of Offences Act 1985. The business plan describes key business initiatives and how the CPS plans to deliver its performance targets. The annual report is laid in the Library of the House. Both documents are circulated throughout the CPS headquarters and its 42 areas in England and Wales, to Criminal Justice System partners and other Government Departments.

HM Crown Prosecution Service was established as an independent statutory body on 1 October 2000. It is required to publish its Chief Inspector's annual report under section 2(2) of the Crown Prosecution Services Act 2002. A copy is laid in the Library of the House. The annual report and business plan are available on HMCPSI's website. HMCPSI also publishes inspection reports which are its core business and distributed to the Law Officers, senior managers in the CPS, to the staff of the business units inspected and those interviewed, as well as media and academics who have requested copies. Area reports are also sent to Members of Parliament

whose constituents are served by the inspected area. HMCPSI also published a Race Equality Scheme (April 2002) and a Freedom of Information Scheme (July 2003).

The Revenue and Customs Prosecutions Office was established in April 2005 and has to date made no publications. For its predecessor, the Customs and Excise Prosecutions Office, details appropriate to annual reports and business plans were in included in the relevant documents for HM Customs and Excise.

The Serious Fraud Office annual report and resource accounts are also a statutory publications, the former designed to inform readers about the work of the office.

The Treasury Solicitor's Department is an agency. As such, its annual report includes its accounts, although its resource accounts have also been published separately since 2000–01. The annual report provides a description of the Treasury Solicitor's business, its aims and objectives and business strategy with a review of performance over the past year and of its finances and accounts. The report is laid in the Library of the House. Copies are provided to the Law Officers, to other Law Officers' Departments, internally to staff and, on request, to media and clients. The business plan is distributed electronically internally. Both annual report and business plan are now available on the website. The Treasury Solicitor's Department has also published the Government Legal Service Journal and Government Legal Service Recruitment Brochure for circulation to universities and other educational establishments or potential applicants, to raise the profile and attract recruits to the Government Legal Service.

**Work-related Stress**

**Lynne Featherstone:** To ask the Solicitor-General how many cases of work-related stress have been reported in the Law Offices in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7876]

**The Solicitor-General:** This answer covers those Departments for which I am accountable—the Crown Prosecution Service CPS, the Treasury Solicitor's Department (TSol), the Serious Fraud Office (SFO), the Revenue and Customs Prosecutions Office (RCPO) and EM CPS Inspectorate (HMCPSI).

*CPS*

The Crown Prosecution Service (CPS) does not hold records for cases of work-related stress.

There have been two cases in the last three financial years (2002–03 to 2004–05) in which staff have made a claim against the CPS for injury due to work-related stress. One claim was withdrawn, and the Service reached an out of court settlement for £10,000 without acceptance of liability in the remaining case.

The total number of days lost and the estimated cost is shown in the following table for the two cases in which "work-related stress" was alleged.

| | *Days lost* | *Cost (£)* |
|---|---|---|
| 2002–03 | 85 | 23,708 |
| 2003–04 | 32 | 8,925 |
| 2004–05 | 26 | 7,252 |

The CPS provides Counselling and Support services for all its staff. The cost of this over the last three years was £550,054. Over the past year, extra support has been provided to those whose work entails the handling of sensitive and difficult casework.

*SFO*

| *Financial year* | *Number of cases reported* | *Work days lost* |
|---|---|---|
| 2002–03 | 3 | 42 |
| 2003–04 | — | 1 |
| 2004–05 | 2 | 18 |
| Total | 7 | 61 |

No compensation was paid in respect of cases of work related stress. Salaries continued to be paid during each period of absence.

The cost to the SFO of the lost work days was £6,166.

The Serious Fraud Office is committed to meeting targets for reducing the number of working days lost due to sickness absence. The SFO's strategy is based upon the continuing need to support staff as well as to generally help line managers to take a proactive role in what can be a sensitive area. The strategy results in no additional cost to the office.

*TSols*

While The Treasury Solicitor's Department monitors all sick absence, it does not have a specific system in place for reporting and monitoring cases of work-related stress.

The Department subscribes to a free and confidential telephone helpline service, offering support and information on a wide range of issues, including stress. The Welfare Officer is available to all staff during the working day and face-to-face surgeries are held every six weeks. All staff may apply to alter their standard working patterns under the flexible working arrangements scheme. The only direct cost is that for the telephone helpline service at £6,000 per annum.

*HMCPSI*

HM Crown Prosecution Service Inspectorate's (HMCPSI) records show no days having been lost due to cases of work-related stress in any of the last three years. No cost is therefore associated with days lost or compensation paid.

Workload is monitored and managed appropriately by line managers. Staff attendance is also monitored and staff are able to tailor working arrangements to suit personal circumstances by discussion with line managers, in accordance with our policies on leave and attendance as set out in the Staff Handbook.

HMCPSI are committed to providing a healthy and secure environment for its staff. There is a Health and Safety Policy, that covers such issues. Forums for staff to raise any such concerns include Whitley council (where health and safety is a standing agenda item), the

HMCPSI Sounding Board and group meetings. To date no concerns regarding work-related stress have been raised.

*RCPO*

RCPO is a new Department created on 18 April 2005 when staff transferred from HM Customs and Excise and the Inland Revenue. Systems operating in the predecessor Departments do not separately record work-related stress.

The Revenue and Customs Prosecutions Office has policies and procedures in place to address the long hours culture, performance management, personal development and attendance management. It also has anti-bullying policies and deploys phased return to work to aid the rehabilitation of staff from long-term sick absence. A welfare service is provided for staff.

## CHURCH COMMISSIONERS

### Housing Portfolio (London)

**Kate Hoey:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what plans the Church Commissioners have to sell off their remaining housing portfolio in London. [13396]

**Sir Stuart Bell:** Following the recent sale of residential properties at Stoke Newington, Maida Vale and part of the Waterloo estate, the Commissioners have decided to prepare their remaining properties on the Octavia Hill estates in London for sale.

Over the coming months the Commissioners will be compiling information on these properties and this process will most likely take them into the autumn. They will be in a position to offer further information on how the sale will proceed when this stage is complete.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Biofuels

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the Chancellor of the Exchequer on providing further incentives for biofuel production. [12108]

**Mr. Morley** *[holding answer 14 July 2005]:* The Department is in regular contact with Treasury Ministers to discuss a whole range of matters related to energy and environmental policy. In addition, my right hon. Friend, the Secretary of State, meets regularly with the Chancellor of the Exchequer on a wide range of matters that affect the business of the Department. As with all tax matters, decisions on duty incentives rest with the Chancellor of the Exchequer.

### Bovine Spongiform Encephalopathy

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether feed-based sources of BSE continue to be a problem. [14046]

**Mr. Bradshaw:** An independent review by Professor William Hill FRS, of the University of Edinburgh, was requested by Defra and published on 7 July 2005. The review examined the possible reasons for the cases of BSE occurring since the reinforced feed ban in 1996, together with the control measures being applied by the government. The review's conclusions re-confirmed the elimination of feed-borne sources to be the key to the eradication of BSE, and recommended that risk-based controls and monitoring should be maintained on animals and feed.

The review is available on Defra's internet site on the BSE home-page under 'Latest developments' at: http://www.defra.gov.uk/animalh/bse/index.html.

### Carbon Emissions

**Mr. Brazier:** To ask the Secretary of State for Environment, Food and Rural Affairs what the total UK carbon emissions were for *(a)* commercial buses, *(b)* other commercial vehicles, *(c)* cars, *(d)* trains and *(e)* UK airlines for the most recent year for which information is available. [12962]

**Mr. Morley:** The total UK carbon emissions (in mega tonnes), for commercial buses, other commercial vehicles (defined as light goods vehicles and heavy goods vehicles), cars, diesel rail and domestic and international aviation, for 2003, are shown as follows. These data are from the UK Greenhouse Gas Inventory published in 2005.

When reporting emissions from rail following internationally agreed reporting guidelines, the UK Greenhouse Gas Inventory only covers exhaust emission from diesel trains. Emissions from the generation of electricity at power stations that is used to supply electric trains are covered, separately, under 'power station' emissions.

The aviation emissions refer to all civil aircraft at UK airports, not specifically those from UK airlines.

| | *MtC* |
|---|---|
| Buses | 0.97 |
| Other commercial vehicles | 11.68 |
| Cars | 19.39 |
| Diesel rail | 0.26 |
| Aviation (domestic and international) | 8.67 |

**Mr. Brazier:** To ask the Secretary of State for Environment, Food and Rural Affairs what the annual volumetric change in UK carbon emissions attributable to *(a)* aviation and *(b)* road vehicles was for each of the most recent 10 years for which information is available. [12963]

**Mr. Morley:** The following table shows year on year changes in the volume of emissions of carbon dioxide from 1993–94 to 2002–03, for aviation (domestic and international) and for all road transport. These data are from the UK Greenhouse Gas Inventory published in 2005.

*Percentage increase*

| | *Aviation* | *Road transport* |
|---|---|---|
| 1993–94 | 3.38 | 0.54 |
| 1994–95 | 6.33 | -0.79 |
| 1995–96 | 6.19 | 3.81 |
| 1996–97 | 6.17 | 1.25 |
| 1997–98 | 11.13 | -0.63 |
| 1998–99 | 8.78 | 0.81 |
| 1999–2000 | 10.15 | -0.64 |
| 2000–01 | -2.07 | 0.05 |
| 2001–02 | -1.71 | 2.05 |
| 2002–03 | 2.49 | -0.16 |

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the available EU Emissions Trading budget she estimates will be taken up by the aviation sector by 2040. [12555]

**Mr. Morley:** The European Commission is planning to publish a Communication on reducing the climate change impacts of aviation and has indicated that this may favour emissions trading. The UK has made taking forward this work programme a priority for the UK Presidency of the Council of Ministers. We want to use our Presidency to debate the options and agree a way forward.

At present, it is too early to provide a reliable estimate of the amount of allowances covered by either the EU ETS or the aviation sector within it in 2040. Both of these will depend on a number of factors including the overall number of allowances any additional measures introduced and the detailed design for the inclusion of aviation into the EU ETS. These factors have yet to be specified and will be subject to discussion with other member states.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs for what percentage of UK carbon emissions aviation was responsible in *(a)* 1990 and *(b)* 2000; and what estimate she has made of the likely percentage in (i) 2010, (ii) 2020, (iii) 2030, (iv) 2040 and (v) 2050 (A) assuming the absence of new policy levels to change behaviour and (B) assuming (A) but with the entry of aviation into the EU Emissions Trading Scheme. [12556]

**Mr. Morley:** The following table shows an estimate of the percentage of total carbon dioxide emissions which aviation is responsible for at each decade from 1990 to 2050 assuming the absence of new policy.

| | *Aviation as a percentage of total $CO_2$ emissions* |
|---|---|
| 1990 | 2.7 |
| 2000 | 5.5 |
| 2010 | 7.6 |
| 2020 | 11.5 |
| 2030 | 15.3 |
| 2040 | 18.3 |
| 2050 | 21.2 |

The 1990 and 2000 figures are based on the latest UK greenhouse gas inventory.

The projections for aviation emissions are based on central case forecasts by the DfT for the Air Transport White Paper.

Projections of UK carbon dioxide emissions in 2010 and 2050 assume the UK will reach its Energy White Paper targets of 20 per cent. and 60 per cent. carbon dioxide emissions reduction from 1990 levels. These do not include international aviation. Projections for 2020, 2030 and 2040 assume linear interpolation of 2010 and 2050 Energy White Paper levels.

The details of aviation's participation in the EU ETS will be decided by what the European Commission proposes, and what is negotiable and practicable.

## GM Crops

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures to avoid the unintended presence of genetically modified organisms in other products her Department has taken, with reference to Article 26A of EU Directive 2001/18. [13037]

**Mr. Morley** *[holding answer 18 July 2005]:* Before there is any commercial GM cultivation we plan to have appropriate measures in place to ensure the co-existence of GM and non-GM crops, consistent with Article 26a of Directive 2001/18. No GM crops are expected to be grown here commercially before 2008 at the very earliest.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress she has made in establishing a liability regime in respect of GM crops. [13038]

**Mr. Morley** *[holding answer 18 July 2005]:* Last year we held a number of stakeholder workshops as the first step in consulting on measures to ensure the co-existence of GM and non-GM crops. We plan to issue a full consultation paper on this issue later this year. It will set out options for a possible liability regime in respect of financial losses that might be incurred by non-GM farmers, if their crops have an unintended GM presence above the EU 0.9 per cent. labelling threshold.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what margin of buffer zone, in miles, she estimates is necessary to guarantee zero cross-contamination of non-GM crops by GM crops. [13039]

**Mr. Morley** *[holding answer 18 July 2005]:* Non-GM crops can only be cross-pollinated by GM crops of the same or very closely related species. In addition, for some crops like beet or potatoes, cross-pollination does not affect the harvested material, so if a GM variety cross-pollinated a non-GM variety, the produce of the latter would not have any GM content. Pollen produced by crop plants may be dispersed by insects or on the wind. The frequency of cross-pollination events between crops decreases with distance, but it is known that they may occur infrequently over very long distances. This makes it difficult to think in terms of guaranteeing zero cross-contamination by the use of buffer zones.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what weight her Department gives to *(a)* environmental and *(b)* human health considerations in determining its policy on the co-existence of GM and non-GM crops. [13040]

**Mr. Morley** *[holding answer 18 July 2005]:* None. GM crops will not be approved for cultivation unless they pass a detailed case-by-case assessment of possible risks to human health or the environment. Co-existence measures are therefore not needed for safety reasons.

### Hydrology (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the seven outlets which drain into rivers in Lancashire, broken down by river. [13482]

**Mr. Morley:** This information has been provided by the Environment Agency, and tables containing details of 203 sewer outlets which drain into rivers in Lancashire will be made available in the Library of the House.

### Pollution (Hertfordshire)

**Anne Main:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* air quality and *(b)* noise quality management areas there are in (i) St Albans and (ii) Hertfordshire; and how many there were in 1997. [13406]

**Mr. Bradshaw:** Local authorities only started reviewing and assessing local air quality from 1997 onwards.

Within Hertfordshire, only two authorities have currently designated air quality management areas (AQMAs). Firstly, St. Albans city and district council designated six AQMAs in September 2002 in respect of the annual mean nitrogen dioxide objective. Following the further review and assessment which concluded that there had been an over-estimation of the levels of nitrogen dioxide, five of the AQMAs were revoked, which left one remaining AQMA close to the M25. Furthermore, following the second round of air quality reviews and assessments which started in May 2003, St. Albans declared two more AQMAs in November 2004; one area at the M1 junction 7 with M10; and the other comprising properties in London road, city centre.

The other authority in Hertfordshire, Hertsmere borough council declared 14 AQMAs in September 2001; 10 of which were revoked in 2003. Following the second round of reviews and assessments Hertsmere declared a further two AQMAs in January 2005 bringing the total to six in their borough in respect of nitrogen dioxide, all of which relate to local road transport.

DEFRA does not have an equivalent to the local air quality management system for noise; therefore no noise management area system was in place in 1997 or is in place now. However, legislation exists that allows local authorities to investigate and if necessary mitigate or control noise issues when they occur.

**Anne Main:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of poor air quality on the structure of historic buildings in St. Albans; and what steps are being taken to reduce air pollution in St. Albans city centre. [13407]

**Mr. Bradshaw:** Defra has not assessed the effect of poor air quality on the structure of historic buildings in St. Albans. The effect of acid rain on materials has been studied by the then Department of the Environment through the National Materials Exposure Programme (NMEP). This was initiated by Building Effects Review Group (BERG) in 1987 and consisted of 29 sites. The UK NMEP was part of the International Materials Exposure Programme set up under the United Nations Economic Commission for Europe framework. The UK continues to maintain sites in London and Lincoln as part of this programme. Details of this programme can be found at www.unece.org/env/wge/materials.htm.

In recent years concern for the effects of pollutants on heritage buildings has focussed on the multipollutant atmospheres found in modern urban areas. In cities such as St. Albans where brick is commonly used the main concern is the soiling of facades by particulates from vehicles. Details can be found at http://www.corr-institute.se/MULTI-ASSESS/

The pollutants that form acid rain are principally sulphur dioxide and nitrogen oxides. These are released from the combustion of fossil fuels like coal and oil. The UK is a party to several protocols under the United Nations Economic Commission for Europe's Convention on Long-Range Transboundary Pollution aimed at reducing emissions of acidifying gases. The UK has also agreed to meet emissions ceilings according to the national emissions ceilings directive. National emissions of sulphur dioxide have reduced from 3,721 kilotonnes in 1990 to 1,002 kilotonnes in 2002; and national emissions of nitrogen oxides have reduced from 2,771 kilotonnes in 1990 to 1,582 kilotonnes in 2002. These improvements are due mainly to reduced emissions from electricity generation, industry, domestic heating and road transport.

St. Albans city and district council has designated three air quality management areas in respect of the annual mean nitrogen dioxide objective which has to be achieved by end of December 2005; one of the air quality management areas designated in November 2004 comprises properties in London Road, central St. Albans and this relates to emissions from local road transport.

Once a local authority has designated an air quality management area, it has a duty to take action, along with other stakeholders, to work towards meeting the air quality objective(s). Where local road transport is identified as a major source of local air pollution concentrations, those local authorities are being recommended to integrate their air quality action plans into the local transport plan. St. Albans city and district council will therefore be working with Hertfordshire county council to take forward measures to tackle the emissions sources within the city centre.

### REACH

**Dr. Gibson:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have to discuss REACH during its EU Presidency; and if she will make a statement. [11439]

**Mr. Morley:** REACH is a high priority for our Presidency. We look forward to progressing it in Council and building on the good work of the preceding

Presidencies. We will explore areas of common ground on the key issues with a view to achieving political agreement at the November Competitiveness Council. We hope to continue working closely with the European Parliament, member states, the Commission and Stakeholders in order to explore areas of agreement. We must make sure that any agreement in Council is workable and based on an effective balance between economic, social and environmental considerations.

### Severn Trent (Ofwat Inquiry)

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will investigate the transparency of the recent Ofwat inquiry into Severn Trent. [12862]

**Mr. Morley:** Ofwat's investigation is not yet complete. I am confident that the Director General of Water Services will complete a thorough and balanced investigation of the allegations and that he will take whatever action he deems to be necessary to protect the interests of customers and fulfil his statutory duties.

I am aware that Ofwat has committed to publishing its findings and conclusions as well as providing details of its approach.

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with Ofwat on its investigations into Severn Trent. [12863]

**Mr. Morley:** I have discussions with the Director General of Water Services from time to time.

The Director General has mentioned to me his investigation into irregularities at Severn Trent Water. He has informed me that Ofwat have obtained a written assurance from Severn Trent that, if it were ever found that customers had been over charged, any necessary corrections would be effected in a prompt manner to be agreed between the company and Ofwat. The position of customers is therefore already protected.

### Sewage Disposal

**Mr. Whittingdale:** To ask the Secretary of State for Environment, Food and Rural Affairs how many properties in Essex are not connected to the public sewer system. [12117]

**Mr. Morley:** Research undertaken for the Consultation Paper for the Review of Private Sewers in England and Wales published in July 2003 estimated that about 4 per cent. of properties nationally connect to entirely private systems. It was estimated that shared private sewers, which then discharge to public sewers further downstream, serve approximately 40–45 per cent. of properties. Specific estimates for individual counties are not held.

**Mr. Whittingdale:** To ask the Secretary of State for Environment, Food and Rural Affairs what requirements there are on sewerage companies to accept delivered waste from cess pools and septic tanks for disposal at sewage treatment works. [12118]

**Mr. Morley:** There is no statutory duty on a sewerage undertaker to accept delivered waste from cesspools and septic tanks. Services for the collection, transportation, and treatment of such waste are open to competition and are offered by sewerage companies and by other firms.

**Mr. Whittingdale:** To ask the Secretary of State for Environment, Food and Rural Affairs how much sewage sludge has been licensed for disposal on farms in the Maldon District; and if she will make a statement. [12119]

**Mr. Morley:** The use of sewage sludge on agricultural land is regulated by The Sludge (Use in Agriculture) Regulations 1989. These set out specific requirements to protect human and animal health and the environment, but do not impose any requirement to obtain a permit or licence.

**Mr. Whittingdale:** To ask the Secretary of State for Environment, Food and Rural Affairs what tests have been carried out on sewage sludge at Sheepcoates Farm, Great Totham, by the Environment Agency; and if she will make a statement. [12120]

**Mr. Morley:** Under The Sewage (Use in Agriculture) Regulations 1989 there is no requirement for the Environment Agency to undertake tests at specific sites where sewage sludge is applied. However we understand that the Agency has issued a formal warning following complaints about odours relating to sewage sludge operations at Sheepcoates Farm.

### Sludge

**Mr. Blunt:** To ask the Secretary of State for Environment, Food and Rural Affairs what identified hazards the proposed sludge (Use in Agriculture) Regulations address that are not addressed by the Safe Sludge Matrix; when the regulatory impact assessment on the regulations will be published; and what her assessment is of the cost of implementing the regulations. [13393]

**Mr. Morley:** The Safe Sludge Matrix introduced voluntary controls which provide additional protection against the entry of pathogens into the food chain. The proposed amendments to the regulations would provide additional security by making these standards legally enforceable. They would also extend the ban to include septic tank sludge. A draft Regulatory and Environmental Impact Assessment, including costs, was published in October 2002 as part of the first consultation exercise on the proposals (please see www.defra.gov.uk/environment/consult/sewagesludge/index.htm).

This is currently being revised and updated and a further version will be published as part of the second consultation planned for later this year.

### Sustainable Development Action Plans

**Mr. Llwyd:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she has provided to Government Departments regarding the drawing up of their sustainable development action plans. [13022]

**Mr. Morley:** The UK sustainable development strategy[1] committed all central Government Departments and their executive agencies to produce

[1] Securing the Future: The UK Government Sustainable Development Strategy Cm. 6467 March 2005.

focused sustainable development action plans based onthe strategy by December 2005. The strategy also committed Government to strengthen the Sustainable Development Commission and to expand its role as an independent "watchdog" looking at Government's progress on the strategy.

The Sustainable Development Commission (SDC) has prepared draft guidance for Government Departments on what it considers to be the key elements of a good sustainable development action plan. This guidance has been made available to, and discussed with departmental officials and will be published on the SDC website shortly. A number of departments have already actively sought advice from the SDC about their proposed approach to the development of these plans.

### Sustainable Procurement

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the criteria applied by the Sustainable Procurement Taskforce to purchases by Government Departments. [12530]

**Mr. Morley:** The Sustainable Procurement Task Force met for the first time on 26 May 2005. Its remit is to develop a National Action Plan for Sustainable procurement by April 2006. No specific criteria for Government Department purchases have been identified or determined by the Sustainable Procurement Task Force at this stage. The action plan will set out how to embed economic, environmental and social considerations into public procurement decisions.

### UN Environment Programme

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her policy to support the transformation of the United Nations Environment Programme into a world environment organisation with enhanced powers. [13031]

**Mr. Morley:** It is HMG and EU policy to support the development of the United Nations Environment Programme into a specialised UN agency (or United Nations Environment Organisation) with a revised and strengthened mandate, supported by stable, adequate and predictable financial contributions.

The Millennium Review Summit in September provides an opportunity to initiate a process of negotiations on this proposal, in the context of wider UN reform and the UN Secretary-General's recommendation on the need for a more integrated structure of international environmental governance.

This position is set out in the Presidency Conclusions agreed at the 16–17 June 2005 European Council.

### Warm Front Programme

**Mr. Amess:** To ask the Secretary of State for Environment, Food and Rural Affairs what the targets are for the number of properties to be improved by the Warm Front programme in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; and if she will make a statement. [13757]

**Mr. Morley:** The focus of the new phase of Warm Front is to maximise the impact of the scheme in tackling fuel poverty. We have extended the range of assistance offered to qualifying households to ensure that all those who are eligible can be offered central heating—the single measure most likely to take a household out of fuel poverty, whilst retaining the offer of insulation measures to those households where it is available.

The Department agrees with the scheme manager, on an annual basis, the anticipated number of households to be assisted during a year, according to available funding. The final number will, however, depend on the characteristics and needs of those who apply to the scheme.

It is anticipated that the number of households to be assisted under the revised Warm Front since its launch in June 2005 to March 2006 will be in the region of 100,000.

As a result of the last spending round an additional £140 million was allocated to the Warm Front scheme taking Defra's annual spending to tackle fuel poverty to £251 million in 2007–08.

### Water

**Dan Norris:** To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of households in the Wessex Water supply area use metered water. [12515]

**Mr. Morley:** 170,900 household water customers (35.5 per cent.) in the Wessex Water supply area receive a metered supply in 2005–06.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the obligations and requirements in relation to water abstraction licensing of water mills that derive power directly from the main stream are different from those water mills with a mill race. [13395]

**Mr. Morley:** Where water is diverted from a watercourse into a mill race then it is regarded as an abstraction. If the quantity diverted exceeds 20 cu m per day then it will be licensable.

Where the generation equipment sits within a watercourse (ie there is no diversion of water) then there is no abstraction, and no licence is required.

**Anne Main:** To ask the Secretary of State for Environment, Food and Rural Affairs how many gallons of extra water will be needed to supply the 7,000 extra new homes planned in St. Albans; and if she will make a statement on the current level of the water table in the area supplying St. Albans. [13403]

**Mr. Morley:** The Environment Agency has calculated that an extra 7,000 properties in St. Albans would require 2.46 megalitres or 541,200 gallons per day.

For June 2005, the groundwater levels around St. Albans were recorded as 71.23 metres Above Ordnance Datum (mAOD), which is close to the June average of 72.70 mAOD. The level is dropping, which is normal for the time of year.

## LEADER OF THE HOUSE

### Management Consultants

**Mr. Austin Mitchell:** To ask the Leader of the House what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Office. [13628]

**Mr. Hoon:** My Office has not employed any management consultants during the last three years.

## WALES

### Older People (Quality of Life)

9. **Mr. Martyn Jones:** To ask the Secretary of State for Wales what recent discussions he has had with relevant Ministers on measures to improve the quality of life for older people in Wales. [12334]

**Nick Ainger:** I have regular discussions with Cabinet colleagues on a range of issues, including measures to improve the quality of life for older people in Wales.

I am proud that last month the Commissioner for Older People (Wales) Bill was introduced into the other place and received its Second Reading on 14 June.

### Devolution

10. **Huw Irranca-Davies:** To ask the Secretary of State for Wales if he will make a statement on the further devolution of legislative powers to Wales. [12335]

**Mr. Hain:** The Government's proposals are contained in the White Paper "Better Governance for Wales" which I published on 15 June.

### Out-of-hours GP Services

12. **Mr. Dunne:** To ask the Secretary of State for Wales what discussions he has had with National Assembly for Wales Secretaries on the cross-border implications of improvements to the out-of-hours GP services available in Wales. [12337]

**Nick Ainger:** I regularly meet with the Health Minister and we discuss a range of health issues.

Local Health Boards are monitoring the performance of providers and look for continual performance improvement. In addition, the Assembly also undertakes performance monitoring against the agreed quality standards.

### Cross-border Health Issues

13. **Mr. Andrew Turner:** To ask the Secretary of State for Wales what recent discussions he has had with the National Assembly for Wales Health Secretary on cross-border health issues. [12338]

**Nick Ainger:** I met with the Assembly Health Minister early this month and we discussed a range of health issues.

### GDP Levels

14. **James Duddridge:** To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Secretary for Economic Development on levels of GDP in Wales. [12339]

**Nick Ainger:** My right hon. Friend and I have regular discussions with Assembly Government Ministers on various issues of mutual interest, including those relating to Wales' economic performance. Gross Value Added per head in Wales in 2003, the latest year for which figures are available, was £12,629 or 79.0 per cent. of the UK average, its highest relative level for five years.

### National Assembly (List Members)

**Nia Griffith:** To ask the Secretary of State for Wales what plans he has to introduce legislation affecting the position of list members in the National Assembly for Wales. [12336]

**Mr. Hain:** In the White Paper the proposal is that a simple amendment should be made to the provisions in section 5 of the Government of Wales Act to prevent constituency candidates standing as list members.

### Post Office

**Peter Law:** To ask the Secretary of State for Wales what recent discussions he has had with his ministerial colleagues on the future of post offices in Wales. [12325]

**Mr. Hain:** I have regular discussions with Cabinet colleagues and the First Minister on a range of issues, including the post office network in Wales.

## EDUCATION AND SKILLS

### Adult Education (London)

**Sarah Teather:** To ask the Secretary of State for Education and Skills how many people are in adult education in each London borough per 1,000 population. [2481]

**Phil Hope:** This is a matter for the Learning and Skills Council (LSC). Mark Haysom, the Council's Chief Executive, will write to the hon. Member with the information requested and a copy of his reply will be placed in the Library.

*Letter from Mark Haysom to Ms Sarah Teather, dated 14 July 2005:*

I write in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, in which you asked how many people are in adult education in each London borough per 1,000 in population, this has been forwarded to me for a response.

I enclose a table showing the number of adults who were in some form of education funded by the LSC or by the Higher Education Funding Council in 2003/04 (the most recent figures available). Please note that the table I've enclosed shows the number of people who are resident of one of the London boroughs who are in education either in London or elsewhere. This definition has been chosen as it is the best way to make sense of a proportion based on resident population, in response to your specific request. This is not the same as the number of adults who are accessing learning in an institution within a particular borough.

*Headlines*

Overall, figures show that 15 per cent. of the adult population in London accessed some form of education in Further Education (FE), Adult and Community Learning (ACL) or Higher Education (HE) in 2003–04. Just over half of this provision was in FE, about a third in HE with the remaining one-sixth in ACL.

In addition, a further 50,000 adults in London accessed learning through Ufi and 3,000 were participating in work based learning.

The percentages by borough vary from 11 per cent. to 20 per cent. Interestingly, the boroughs with the highest proportions of adults in learning tend to be in the inner London boroughs. More than 18 per cent. of adults in Lambeth, Hackney, Islington, Newham, Waltham Forest, Haringey, Brent and Lewisham were accessing learning in 2003–04.

*Number of adult learners by residence of borough*

| | FE | ACL | HE | Total | Population | Learners per 1,000 population |
|---|---|---|---|---|---|---|
| Barking and Dagenham | 8,644 | 2,554.00 | 3,376.00 | 14,574 | 118,500 | 123 |
| Barnet | 19,177 | 2,931.00 | 14,279.00 | 36,387 | 244,500 | 149 |
| Bexley | 10,663 | 4,978.00 | 4,974.00 | 20,615 | 162,800 | 127 |
| Brent | 19,314 | 4,455.00 | 12,020.00 | 35,789 | 202,500 | 177 |
| Bromley | 15,667 | 7,592.00 | 8,799.00 | 32,058 | 226,500 | 142 |
| Camden | 13,896 | 4,173.00 | 9,112.00 | 27,181 | 166,700 | 163 |
| City of London | 447 | 213.00 | 530.00 | 1,190 | 7,000 | 170 |
| Croydon | 20,304 | 6,823.00 | 10,594.00 | 37,721 | 248,000 | 152 |
| Ealing | 16,336 | 3,442.00 | 14,745.00 | 34,523 | 231,800 | 149 |
| Enfield | 16,473 | 1,488.00 | 9,881.00 | 27,842 | 207,800 | 134 |
| Greenwich | 14,610 | 3,994.00 | 7,443.00 | 26,047 | 165,600 | 157 |
| Hackney | 16,781 | 3,847.00 | 8,961.00 | 29,589 | 150,300 | 197 |
| Hammersmith and Fulham | 9,553 | 4,107.00 | 6,332.00 | 19,992 | 139,300 | 144 |
| Haringey | 16,704 | 3,078.00 | 10,309.00 | 30,091 | 169,100 | 178 |
| Harrow | 12,559 | 4,324.00 | 9,198.00 | 26,081 | 157,900 | 165 |
| Havering | 13,352 | 3,376.00 | 4,488.00 | 21,216 | 169,500 | 125 |
| Hillingdon | 11,262 | 4,461.00 | 7,335.00 | 23,058 | 183,400 | 126 |
| Hounslow | 13,437 | 4,147.00 | 7,572.00 | 25,156 | 159,200 | 158 |
| Islington | 15,254 | 2,681.00 | 8,013.00 | 25,948 | 140,300 | 185 |
| Kensington and Chelsea | 7,784 | 2,033.00 | 5,695.00 | 15,512 | 141,400 | 110 |
| Kingston upon Thames | 7,108 | 6,410.00 | 5,641.00 | 19,159 | 115,100 | 166 |
| Lambeth | 22,933 | 7,068.00 | 12,196.00 | 42,197 | 207,300 | 204 |
| Lewisham | 17,105 | 4,804.00 | 10,518.00 | 32,427 | 185,700 | 175 |
| Merton | 9,250 | 3,690.00 | 6,694.00 | 19,634 | 147,100 | 133 |
| Newham | 18,396 | 3,231.00 | 10,029.00 | 31,656 | 172,500 | 184 |
| Redbridge | 12,516 | 4,627.00 | 9,325.00 | 26,468 | 180,700 | 146 |
| Richmond Upon Thames | 10,767 | 5,109.00 | 6,655.00 | 22,531 | 138,400 | 163 |
| Southwark | 18,379 | 2,068.00 | 11,775.00 | 32,222 | 192,500 | 167 |
| Sutton | 9,104 | 649.00 | 4,774.00 | 14,527 | 133,500 | 109 |
| Tower Hamlets | 12,561 | 4,039.00 | 6,885.00 | 23,485 | 150,400 | 156 |
| Waltham Forest | 16,278 | 5,147.00 | 8,521.00 | 29,946 | 164,400 | 182 |
| Wandsworth | 14,322 | 8,375.00 | 10,589.00 | 33,286 | 223,100 | 149 |
| Westminster, City of | 12,563 | 3,064.00 | 7,516.00 | 23,143 | 182,900 | 127 |
| Total | 453,499 | 132,978.00 | 274,774.00 | 861,251 | 5,586,100 | 154 |

10th June 2005

*Notes:*

Further Education (FE) includes funded and unfunded learners in 2003/04. All resident learners aged 19 and above.
Adult and Community Learning (ACL) includes all resident learners aged 19 and above during 2003/04.
Higher Education (HE) includes all resident learners aged 19 and above in 2002/03.
The population figures relate to the number of adults aged 20 and above and are from the 2003 mid-year estimates.

## Apprenticeships

**Mr. Hood:** To ask the Secretary of State for Education and Skills how many young people she expects will be participating in apprenticeship schemes by the end of August; and if she will make a statement. [8854]

**Phil Hope:** This is a matter for the Learning and Skills Council. Mark Haysom, the council's chief executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the House Library.

*Letter from Rob Wye to Mr. Jimmy Hood, dated 20 July 2005:*

I write on Mark Haysom's behalf, due to him currently being on annual leave, in response to your recent Parliamentary Question to the Secretary of State for Education and Skills, which has been referred to the Learning and Skills Council (LSC) by Phil Hope, regarding how many young people we expect will be participating in apprenticeship schemes by the end of August.

The exact number participating in Apprenticeships at any one time depends on the number who start and the length of time to complete. As the length of time for completion varies with the apprenticeship framework, the number is affected by the sectoral mix of apprentices recruited.

The LSC estimates that approximately 274,000 apprentices will be in learning at the end of July 2005. The number is unlikely to change significantly in between the end of July and the end of August.

To these numbers should be added approximately 1,000, the first cohort of young pre 16 apprentices and approximately 500 on the Apprenticeships for Adult trials.

I trust this is helpful.

## Bullying

**Mr. Evans:** To ask the Secretary of State for Education and Skills what estimate her Department has made of the number of children in *(a)* Lancashire and *(b)* Ribble Valley schools who have been victims of bullying in each of the last five years. [13304]

**Jacqui Smith:** Data on bullying are not collected centrally and there is no reliable basis for an estimate of prevalence in Lancashire and the Ribble Valley. Bullying cases appear to be reported more often now

than previously but we have no hard evidence that bullying is increasing or affecting more children. Indeed, as children and young people increasingly feel safe at school to report bullying, and confident that it will be tackled effectively and sensitively, it is likely reporting will rise.

However, any level of bullying is too high and we are determined to help schools tackle the problem. Our guidance pack "Bullying: Don't Suffer in Silence", the anti-bullying Charter and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. We also offer specific advice to schools on tackling homophobic bullying and are developing advice on racist bullying.

### Consultants

**Mrs. Dean:** To ask the Secretary of State for Education and Skills what plans she has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [6998]

**Bill Rammell:** The Department for Education and Skills (DfES) provides guidance to its employees regarding purchasing and managing external consultancy services. Departmental and Government-wide procurement policy and best practice advice is available to staff via a web-based Intranet site which contains a section on procuring external consultancy. This includes guidance on how to identify and establish the need for consultancy support, how to appoint a consultant, what are the considerations and risks and how to get the best out of a consultancy appointment. In addition to this guidance, the DfES provides a procurement helpline to employees if they wish to obtain specific advice on any aspect of the procurement process.

The Department promotes Government-wide procurement best practice advice and utilises OGC's web-based product the Successful Delivery Toolkit (www.ogc.gok.uk/sdtoolkit/). The guidance is aimed at public sector organisations and complies with government policy and regulations for procurement but is not specifically tailored to the voluntary sector. The guidance includes the use of consultants covering:

Purchasing consultancy services, covering the tendering process;

Use of professional advisers, including consultants;

Where it may be appropriate to use consultants, for example, in construction or specification writing;

Examples of specific guides that are relevant to the procurement and supply of consultancy services:

(i) Delivering world-class consultancy services to the public sector—A statement of best practice;

(ii) The Government Procurement Code of Good Practice for Customer and Suppliers.

### Education Funding

**Mr. Iain Wright:** To ask the Secretary of State for Education and Skills when she will make a decision on schools to be awarded the current round of Targeted Capital Funding. [13434]

**Jacqui Smith:** The Targeted Capital Fund applications received from local authorities are currently being assessed against criteria set out in published guidance. I expect to notify local authorities on the outcome of their bids in autumn 2005.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Education and Skills if she will ensure that English wine is made available at dinners, receptions and parties she hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if she will make a statement. [9163]

**Bill Rammell:** All procurement is in line with EU procurement rules and to obtain value for money for the Department. For events and meetings hosted by the Department as part of the UK presidency of the EU, we have aimed to keep costs to a minimum and, where wine is served, we are generally using house wine. This has included an English wine, served at a dinner for EU Education Ministers.

For events in Brussels, we are working with the Council Secretariat to try to provide British produce (as key ingredients) and drink for EU Council meetings during the UK presidency. For other events, we consider serving English wine subject to availability and value for money.

### Enterprise Education

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills if she will make a statement on the *(a)* funding and *(b)* availability of the proposed business schools courses for 12 to 18-year-olds. [10041]

**Jacqui Smith:** The Government have been developing enterprise education via a number of initiatives, such as the enterprise learning pathfinders and the recent enterprise in schools conferences that have been held all over England in the past three months. We are also considering developing plans to enable young people to take part in enterprise summer schools. At this stage, it is too early to give details of the extent of funding and availability of the proposed summer schools.

### Film Making

**Mr. Cameron:** To ask the Secretary of State for Education and Skills what grants her Department has made to film-makers in the past three years; what the object of the films were; and what amounts were given. [13756]

**Bill Rammell:** The Department has made no grants to film-makers in the past three years.

### Langland Report

**Mr. Nicholas Brown:** To ask the Secretary of State for Education and Skills when she expects to receive Sir Alan Langland's report on higher education and access to the professions; and when the Government expect to publish its response to the report. [13981]

**Bill Rammell:** I refer my right hon. Friend to the written ministerial statement that I issued earlier today.

## Mathematics

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the answer of 11 July 2005, *Official Report*, column 841W, on mathematics, how many pupils sat for advanced extension awards in mathematics in each year since their introduction. [13287]

**Jacqui Smith:** Advanced extension awards (AEAs) were introduced for advanced level students in England, Wales and Northern Ireland in summer 2002. The number of students who sat for an AEA in mathematics in each year is:

| | *Number* |
|---|---|
| 2001–02 | 964 |
| 2002–03 | 1,005 |
| 2003–04 | 992 |

Figures are those published by the Joint Council for Qualifications in August of each year. They include awards sat by students of all ages in England, Wales and Northern Ireland.

## Ministerial Meetings/Visits

**Helen Jones:** To ask the Secretary of State for Education and Skills how many meetings she has had with hon. Members since the general election; and what the purpose of each meeting was. [9300]

**Bill Rammell:** The Secretary of State for Education and Skills has had the following meetings with hon. Members since the general election.

| *Date* | *Member's name* | *To discuss* |
|---|---|---|
| 18 May 2005 | Jonathan Shaw MP | Jonathan Shaw's role as Parliamentary Private Secretary |
| 7 June 2005 | Alan Johnson MP | Regional Development Agency Chairs, Skills Alliance and upcoming meeting about MG Rover |
| 9 June 2005 | Des Browne MP | DfES financial issues |
| 16 June 2005 | Tessa Jowell MP | Positive Activities for Young People, Youth Green Paper |
| 21 June 2005 | Tony Blair MP and Alan Johnson MP | MG Rover |
| 28 June 2005 | Barry Sherman MP | Schools issues |
| 28 June 2005 | Labour Members of Parliament | Schools issues |
| 30 June 2005 | Alan Milburn MP | Constituency issues |

The Secretary of State also holds regular meetings with the hon. Members who are Ministers in her Department.

**Helen Jones:** To ask the Secretary of State for Education and Skills how many constituencies *(a)* she and *(b)* her Ministers have visited since the general election; and what the (i) purpose and (ii) duration was of each visit. [9298]

**Bill Rammell:** Ministers from the Department for Education and skills have made the following visits to constituencies since the general election.

| *Date* | *Constituency* | *Purpose* | *Duration* |
|---|---|---|---|
| *Ruth Kelly* | | | |
| 10 May 2005 | Holborn and St. Pancras | Ministerial Photocall at Sure Start Unit, Thomas Coram Children's Centre | 45 minutes |
| 13 June 2005 | Hackney | Visit the Breakfast Club at Millfields Primary School | 1 hour |
| 20 June 2005 | Lewisham | Visit Lewisham Further Education College | 1 hour |
| 24 June 2005 | Bury | Visit Bury Adult Education Centre | 30 minutes |
| 25 June 2005 | Vauxhall | Visit Archbishop Tenison School for Africa Commission Schools Day | 45 minutes |
| 30 June 2005 | Darlington | Visits to McNay Children's Centre; Department for Education and Skills Mowden Hall site; and Darlington Council | 2 hour 45 minutes |
| *Jacqui Smith* | | | |
| 10 May 2005 | Holborn and St. Pancras | Ministerial Photocall at Surestart Unit, Thomas Coram Children's Centre | 45 minutes |
| 25 May 2005 | Banbury | Visit to Banbury School | 6 hours 30 minutes |
| 26 May 2005 | Holborn and St. Pancras | Attend an Institute of Public Policy Research event—"Future Challenges: Living with Risk" | 1 hour |
| 7 June 2005 | West Chelmsford | Visit to Moulsham High School | 7 hours |

| 1 July 2005 | Acton, Ealing and Shepherds Bush | Visits to Jack Tizard Special School; Phoenix High School; Bulington Danes School | 2 hours |
| 1 July 2005 | Mitcham and Morden | Visits to Mitcham Vale School; Tamworth Manor School | 1 hour 55 minutes |

## Pupil Statistics

**Lynne Featherstone:** To ask the Secretary of State for Education and Skills how many children in Hornsey and Wood Green attend school outside the constituency. [13754]

**Jacqui Smith:** The information requested broken down by local education authority has been provided in the following tables.

*Pupils residing in Hornsey and Wood Green constituency attending schools within and outside of constituency*

| | Number | Percentage |
|---|---|---|
| Total number of pupils resident in Hornsey and Wood Green | 14,397 | 100.0 |
| Pupils attending schools in Hornsey and Wood Green | 10,776 | 74.8 |
| Pupils attending schools outside Hornsey and Wood Green | 3,621 | 25.2 |

*Source:* PLASC 2005 Provisional data

*Pupils residing in Hornsey and Wood Green constituency attending schools by local education authority*

| *Local education authority* | *Number* | *Percentage* |
|---|---|---|
| Haringey | 12,908 | 83.4 |
| Enfield | 912 | 6.3 |
| Barnet | 611 | 4.2 |
| Camden | 313 | 2.3 |
| Islington | 287 | 2.0 |
| Hertfordshire | 74 | 0.5 |
| Hackney | 56 | 0.4 |
| Brent | 31 | 0.2 |
| City of Westminster | 29 | 0.2 |
| Hammersmith and Fulham | 20 | 0.1 |
| Waltham Forest | 16 | 0.1 |
| Kensington and Chelsea | 9 | 0.1 |
| Other LEAs | 31 | 0.2 |

PLASC 2005 Provisional data

## School Attendance (Milton Keynes)

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills how many children of school age in Milton Keynes are not attending either a state school or an independent school. [13235]

**Jacqui Smith:** The information requested is shown in the following table.

*Pupils educated otherwise than at school under arrangements made by the local education authority[1]: Milton Keynes local education authority and England*

| | *Pupils in hospital[2]* | *Other pupils not in school[3]* | *January 2005 Total pupils not in school* |
|---|---|---|---|
| England | 243 | 16,741 | 16,984 |
| Milton Keynes local education authority | 0 | 197 | 197 |

[1] Pupils of compulsory school age (5 to 15) as at 31 August 2004.
[2] Includes non-statemented pupils in hospital excluding pupils in maintained general hospital or special hospital schools.
[3] Includes other pupils not in school e.g. pupils taught at home, traveller children, asylum seekers at FE colleges or with voluntary sector providers.

*Source:*
8B Survey

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills how many children who live in Milton Keynes attend a school in another local authority; and how many children in each school in Milton Keynes live in another local authority. [13236]

**Jacqui Smith:** The information requested broken down by local education authority has been provided in the following tables. The information requested at school level has been made available to the House of Commons Library.

*The number and percentages of pupils residing in Milton Keynes attending schools in other local authorities by phase of education*

| | *Number of pupils* | *Percentage of pupils* |
|---|---|---|
| Total number of pupils resident in Milton Keynes | 38,325 | 100.0 |
| *Local education authority* | | |
| Milton Keynes | 35,896 | 93.7 |
| Buckinghamshire | 1,031 | 2.7 |
| Bedfordshire | 838 | 2.2 |
| Northamptonshire | 513 | 1.3 |
| Other LEAs | 47 | 0.1 |
| Total pupils schooled outside of authority | 2,429 | 6.3 |

*Source:*
PLASC 2005 provisional data

*The number and percentages of the school population in Milton Keynes residing in other authorities*

| | *Number of pupils* | *Percentage of pupils* |
|---|---|---|
| Pupils attending schools in Milton Keynes | 36,337 | 100 |
| *Home authority* | | |
| Milton Keynes | 35,896 | 98.8 |
| Northamptonshire | 153 | 0.4 |
| Buckinghamshire | 138 | 0.4 |
| Bedfordshire | 53 | 0.1 |
| Other LEAs | 8 | [1] |
| Unknown/not given[2] | 89 | 0.2 |
| Total residing outside of authority | 441 | 1.2 |

[1] Denotes percentage of less than 0.05 per cent.
[2] Residence of pupil unknown/not given.

*Source:*
PLASC 2005 provisional data

## School Meals

**Lynne Jones:** To ask the Secretary of State for Education and Skills if she will make it her policy to encourage all schools to show all existing and all new pupils the clip from Jamie Oliver's programme "Jamie's School Dinners", where a group of pupils were given a demonstration of how processed chicken nuggets are made. [13533]

**Jacqui Smith:** Food education in both primary and secondary school teaches children about the importance of healthy eating. They learn about where food comes from and how it is processed through food technology, science and PSHE. They also learn about diet, nutrition, food safety and hygiene, practical food preparation and cooking.

The DfES does not specify educational resources or how subjects should be taught. Individual teachers use their professional judgement to select the resources that are most appropriate to the needs of their pupils, but TV clips such as this would certainly be a useful and engaging opportunity.

**Lynne Featherstone:** To ask the Secretary of State for Education and Skills how many school children in Hornsey and Wood Green *(a)* receive free school meals and *(b)* pay for schools meals, broken down by school. [13747]

**Jacqui Smith:** Information on pupils known to be eligible for free school meals is shown in the table. The number of pupils paying for school meals is not collected centrally.

*All schools: school meal arrangements*
*January 2005 (provisional)*
*Each school in Hornsey and Wood Green parliamentary constituency*

| | Number on roll[1] | Number of pupils known to be eligible for free school meals[1] | Percentage of pupils known to be eligible for free school meals |
|---|---|---|---|

*Source:*
Annual Schools' Census

### Schools (Violence)

**Mr. Davey:** To ask the Secretary of State for Education and Skills what estimate she has made of the number of school staff who have been victims of physical violence from students in *(a)* London and *(b)* England since 1997. [11891]

**Jacqui Smith:** Information on major injuries and injuries to workers involving more than three days absence is collected by the Health and Safety Executive. The available information is shown in the following tables. Prior to 2001 it was not possible to identify the type of assailant or to identify school staff accurately.

*Injuries to school staff[1] by pupils[2] in London*

| | 2002-03 | 2003-04 |
|---|---|---|
| Non-fatal major injury | 1 | 7 |
| Over-three-day injury | 25 | 27 |
| All reported injuries | 26 | 34 |

*Injuries to school staff[1] by pupils[2] in England*

| | 2002-03 | 2003-04 |
|---|---|---|
| Non-fatal major injury | 27 | 55 |
| Over-three-day injury | 178 | 217 |
| All reported injuries | 205 | 272 |

[1] The following Standard Occupational Classifications were used to identify school staff; educational assistants, primary and nursery education teaching professionals, school mid-day assistants, school secretaries, secondary education teaching professionals, special needs education teaching professionals, teaching professionals not classified elsewhere.

[2] There are no specific categories in HSE's coding framework that identify students/pupils as types of assailant. In this instance, students/pupils are identified on HSE systems by a combination of agent classifications: "persons receiving service" and "persons receiving care". However, other individuals may be included in these categories.

### Secondary Education (Wellingborough and Rushden)

**Mr. Bone:** To ask the Secretary of State for Education and Skills if she will make a statement on secondary education in Wellingborough and Rushden. [12104]

**Jacqui Smith:** The Department's Strategy for Children and Learners sets out a range of departmental policies and initiatives which will raise the quality of education, teaching and learning in the Wellingborough and Rushden area and across the country over the next five years.

For 2004/05, this Government have allocated an extra £870 per pupil in real terms to Northamptonshire local education authority since 1997/98, an increase of 32 per cent. Capital resources allocated to Northamptonshire LEA and its schools have increased from £8.5 million in 1997–98 to over £25 million in 2005–06.

Results in Wellingborough and Rushden are largely comparative to Northamptonshire averages. There has been significant improvement in East Northants in English and maths at KS3 and steady improvement at KS4. There is one school in the area, the Weavers School, which is in receipt of the Leadership Incentive Grant and has received additional partnership funding.

The LSC, Connexions and the local authority are working in partnership to improve 14–19 provision and standards in Northamptonshire. Each district partnership (including Wellingborough and East Northants) have been given funding to support area plans.

### Student Finance

**Mr. Nicholas Brown:** To ask the Secretary of State for Education and Skills if she will establish a commission

to examine the funding of undergraduate education and different schemes for the repayment of graduate contributions. [13993]

**Bill Rammell:** As the former Secretary of State announced in Parliament on 26 January 2004, an independent commission will be established to review the new arrangements for variable tuition fees, based on the first three years operation of the policy, which comes into effect from the 2006/07 academic year. The commission will examine the impact of the arrangements on higher education institutions, and on students and prospective students; and future policy.

## Synthetic Phonics

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 21 June 2005, *Official Report*, column 1026W, on Synthetic Phonics, whether she is in a position to announce the names of the people who will work alongside Mr. Jim Rose in conducting the review. [11774]

**Jacqui Smith:** I refer the hon. Member to the reply given to the hon. Member for Witney (Mr. Cameron) on 18 July 2005, *Official Report*, columns 1404–05W.

## Teachers

**Mr. Evans:** To ask the Secretary of State for Education and Skills what estimate her Department has made of the number of school staff who have been victims of physical abuse from students in *(a)* Ribble Valley and *(b)* Lancashire schools in each of the last five years. [13305]

**Jacqui Smith:** Information on major injuries and injuries to workers involving more than three days absence is collected by the Health and Safety Executive. Under this definition there were no reported physical assaults on school staff by students in Ribble Valley Constituency in 2002/03 or 2003/04. The available information for Lancashire is shown in the table. Prior to 2002/03 it was not possible to identify the type of assailant.

*Reported injuries[1] to school staff[2] by pupils[3] in Lancashire*

| | Non-fatal major injury | Over-3-day injury | All reported injuries |
|---|---|---|---|
| 2002/03 | 1 | 6 | 7 |
| 2003/04 | 7 | 11 | 18 |

[1] The HSE estimates that in recent years the reporting rate for all injuries involving more than three days absence in the education sector was around 32 per cent.
[2] The following Standard Occupational Classifications were used to identify school staff; Educational assistants, Primary and nursery education teaching professionals, School mid-day assistants, School secretaries, Secondary education teaching professionals, Special needs education teaching professionals, Teaching professionals not classified elsewhere.
[3] There are no specific categories in HSE's coding framework that identify students/pupils as types of assailant. In this instance, students/pupils are identified on HSE systems by a combination of agent classifications: 'persons receiving service' and 'persons receiving care'. However, other individuals may be included in these categories.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills pursuant to the answer of 29 June 2005, *Official Report*, columns 1634–5W, on teacher recruitment, what proportion of teachers were recruited to teach *(a)* science, *(b)* mathematics and *(c)* modern foreign languages on a (i) part-time and (ii) full-time basis in each year between 1994 and 2004. [11111]

**Jacqui Smith:** The following table provides the proportion of newly qualified teachers in science, mathematics and modern foreign languages entering maintained secondary school service on a part-time and a full-time basis in each year between 1993–94 and 2002–03, the latest information available.

*Percentage of newly qualified teachers[1] in science, mathematics and modern foreign languages entering part-time and full-time maintained secondary service in each year, 1993–94 to 2002–03*

| | Science | | Maths | | Modern foreign languages | |
|---|---|---|---|---|---|---|
| | Part-time | Full-time | Part-time | Full-time | Part-time | Full-time |
| 1993–94 | 5 | 95 | 4 | 96 | 6 | 94 |
| 1994–95 | 4 | 96 | 4 | 96 | 5 | 95 |
| 1995–96 | 7 | 93 | 7 | 93 | 7 | 93 |
| 1996–97 | 7 | 93 | 5 | 95 | 6 | 94 |
| 1997–98 | 5 | 95 | 3 | 97 | 6 | 94 |
| 1998–99 | 4 | 96 | 3 | 97 | 7 | 93 |
| 1999–2000 | 4 | 96 | 3 | 97 | 5 | 95 |
| 2000–01 | 3 | 97 | 3 | 97 | 4 | 96 |
| 2001–02 | 3 | 97 | 3 | 97 | 4 | 96 |
| 2002–03[2] | 2 | 98 | 3 | 97 | 3 | 97 |

[1] Includes those gaining qualified teacher status and going straight into teaching.
[2] Provisional
*Source:*
Database of Teacher Records.

**Mr. Evans:** To ask the Secretary of State for Education and Skills how many teachers have been employed in Ribble Valley schools in each of the last five years. [13306]

**Jacqui Smith:** The following table gives the full-time equivalent number of teachers in service in Ribble Valley constituency in each January between 2001 and 2005.

*Full-time equivalent teachers in Ribble Valley constituency*

| | Total teachers |
|---|---|
| 2001 | 860 |
| 2002 | 880 |
| 2003 | 890 |
| 2004 | 890 |
| 2005[1] | 900 |

[1] Provisional.

*Note:*
Figures are rounded to the nearest 10.
*Source:*
Annual School Census.

### Youth Training

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills what evaluation arrangements are in place to assess the *(a)* quality and *(b)* effectiveness of the alternative provision available to young people unable to secure a place on the Entry to Employment programme. [13900]

**Jacqui Smith:** I refer the hon. Member to the reply given on 22 June 2005, *Official Report*, column 1049W.

## TRADE AND INDUSTRY

### Coal Mines

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry how many coal mines closed in each financial year since 1975. [11514]

**Malcolm Wicks:** Annual figures for the period 1975–80 are not readily available. Data readily to hand show the total for this period and the number of larger deep mine closures in each year since 1980 to be as set out in the table:

| *Period* | *Collieries closed* |
|---|---|
| 1975–1980 | 27 |
| 1980–81 | 9 |
| 1981–82 | 12 |
| 1982–83 | 6 |
| 1983–84 | 15 |
| 1984–85 | 1 |
| 1985–86 | 27 |
| 1986–87 | 15 |
| 1987–88 | 14 |
| 1988–89 | 6 |
| 1989–90 | 11 |
| 1990–91 | 9 |
| 1991–92 | 15 |
| 1992–93 | 0 |
| 1993–94 | 31 |
| 1994–95 | 1 |
| 1996 | 4 |
| 1997 | 0 |
| 1998 | 2 |
| 1999 | 2 |
| 2000 | 2 |
| 2001 | 0 |
| 2002 | 2 |
| 2003 | 2 |
| 2004 | 3 |
| 2005 | 1 |

### Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Trade and Industry how many consultants were employed by his Department in each of the last three years; and what their names were. [1330]

**Alan Johnson:** Central records indicate that 1,421 consultancy companies were engaged in the financial year 2004–05. I have placed a list of these companies in the Libraries of the House. In addition the Department engaged 687 individual consultants in the financial year 2004–05. Information for further financial years can be provided only at disproportionate cost.

### Correspondence

**Steve Webb:** To ask the Secretary of State for Trade and Industry when he will reply to the letter from the hon. Member for Northavon dated 10 December 2004 regarding Carnaby Kitchens. [12706]

**Mr. Sutcliffe** *[holding answer 18 July 2005]:* The letter from the hon. Member to my right hon. Friend the Secretary of State was misplaced. It has now been relocated and I will ensure that you receive a response shortly. I apologise for the delay in dealing with your constituent's concerns.

### Democratic Republic of the Congo

**John Bercow:** To ask the Secretary of State for Trade and Industry if he will seek to revise the legislative position on controls on arms brokering to ensure that UK citizens are unable to exploit a legal loophole in order to profit from the sales of arms to the Democratic Republic of the Congo. [11870]

**Malcolm Wicks:** The Government do not accept that any such loophole exists. The Democratic Republic of the Congo (DRC) is subject to an EU arms embargo and as such the UK's controls on overseas trade in military equipment to the DRC are fully extraterritorial, applying to persons in the UK and UK persons anywhere in the world, including those whose sole involvement in the transaction is, for example, advertising, transport, or finance.

### Departmental Officials

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many Range 3 officials in his Department progressed to Range 4 in each of the last four years for which figures are available, broken down by directive; and what the requirements are for a Range 3 official in his Department to progress to Range 4. [10874]

**Alan Johnson:** The number of Range 3 officials in my Department progressed to Range 4 in each of the last four years is as follows:

| | *Number* |
|---|---|
| 2001–02 | 63 |
| 2002–03 | 89 |
| 2003–04 | 38 |
| 2004–05 | 42 |

The entry requirements for Range 3 and Range 4 officials in my Department are:

A minimum of 5 GCSE grade C passes or above including English Language and Mathematics, or equivalent qualifications, or NVQ Business Administration level 2 or an equivalent NVQ level 2 with relevance to office work and containing an assessment or examination in English language, or at least three years' work experience in a comparable position.

The job specific requirements for Range 3 officials to be progressed to Range 4 are set out in departmental vacancy notices advertising each post. However, in general, Range 3 officials would need to be able to demonstrate some or all of the following skills to be considered for progression to Range 4:

Ability to manage workload

Good written and oral communication skills

Ability to work with others and build relationships

Drive and commitment

Basic IT skills.

The number of Range 3 officials progressed to Range 4 broken down by Group in each of the last 3 years are as follows:

| *Group* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Innovation | 5 | 1 | 3 |
| Services | 27 | 7 | 27 |
| Business | 12 | 5 | 2 |
| Energy | 8 | 6 | 2 |
| Fair Markets | 24 | 10 | 4 |
| Legal Services | 3 | 3 | 2 |
| Strategy Unit | 1 | 1 | — |
| UK Trade and Investment | 5 | 2 | 2 |
| Office of Science and Technology | 4 | 1 | — |
| Office of Manpower Economics | — | 2 | — |
| Totals | 89 | 38 | 42 |

## Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for Trade and Industry if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11737]

**Alun Michael:** I have placed information for the core Department, the Small Business Service and Employment Tribunals Service in the Libraries of the House.

I have asked the Chief Executives of DTI's other Executive Agencies to respond directly to the hon. Member.

*Letter from Claire Clancy to Mr. Chris Grayling, dated 20 July 2005:*

I am responding to your recent parliamentary question to the Secretary of State for Trade and Industry on behalf of Companies House which is an Executive Agency of the DTI.

Companies House has purchased goods or services of a total value above £1 million from the following companies in each of the last three financial years.

*2002–03*

| | £ |
|---|---|
| Computacenter Ltd. | 4,665,289 |
| The Lewis Group Plc | 1,966,534 |
| O R Telematique | 1,656,051 |
| HBS Group Ltd. | 4,174,286 |
| HEDRA Consortium | 2,624,927 |
| Vertex Data Science Ltd. | 2,168,250 |
| Logica UK Ltd. | 2,591,689 |

*2003–04*

| | £ |
|---|---|
| Computacenter Ltd. | 2,723,346 |
| The Lewis Group Plc | 2,164,421 |
| O R Telematique | 1,905,689 |
| HBS Group Ltd. | 4,588,798 |
| Vertex Data Science Ltd. | 2,239,575 |
| Logica UK Ltd. | 2,441,669 |

*2004–05*

| | £ |
|---|---|
| Computacenter Ltd. | 2,856,698 |
| The Lewis Group Plc | 2,113,639 |
| O R Telematique | 1,831,112 |
| HBS Group Ltd. | 4,750,339 |
| Vertex Data Science Ltd. | 2,370,538 |
| Logica UK Ltd. | 1,175,000 |
| ServiceTec Ltd. | 1,446,361 |

*Letter from Ron Marchant to Mr. Chris Grayling, dated 20 July 2005:*

I am responding to this parliamentary question, tabled on 11 July 2005, concerning the purchase of goods and services from companies with a total value above £1 million in each of the last three years, and how much was spent in respect of each company.

A nil return is appropriate for the Patent Office.

*Letter from Dr. Jeff Llewellyn to Mr. Chris Grayling, dated 20 July 2005:*

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding the list of companies from which NWML has purchased goods and services of a value of above £1 million, in each of the last three years.

NWML over the last three years has not purchased goods and services of a total value of above £1 million.

*Letter from Desmond Flynn to Mr. Chris Grayling, dated 20th July 2005:*

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (706/2005) asking for a list of the companies from which the Agency has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company.

A table is attached to this letter showing the information you have requested.

*Over the last three years The Insolvency Service has purchased goods and services of a total value above £1 million from the following companies:*

| £000 *Company Name* | *2002–03* | *2003–04* | *2004–05* |
|---|---|---|---|
| Argles, Stoneham, Burstows | — | 1,502 | 1,422 |
| B and HS Management Ltd. | 1,525 | — | — |
| Brindley, Twist | 1,070 | — | — |
| Taft and James | | | |
| Capital and Regional Property Mgt | 1,608 | — | — |
| Cobbetts Solicitors | 1,041 | — | — |
| Dickinsons, Dees Solicitors | 1,335 | 1,321 | 1,843 |
| Fujitsu Services | 5,599 | 7,738 | 7,675 |
| Hays Office Support | — | — | 2,460 |
| Howes Percival | 2,069 | 1,892 | 1,431 |
| Indigo Selection | 4,700 | 4,005 | 4,555 |
| London Borough of Camden | 1,328 | — | — |
| Michael K. Howard Ltd. | — | — | 2,886 |
| Prudential Property Investment Mgt Ltd. | 1,410 | 2,717 | 3,410 |
| R.J Lewis Group | 1,038 | — | — |
| The Mall Corporation Ltd. | — | 1,650 | 2,020 |

*Over the last three years The Insolvency Service has purchased goods and services of a total value above £1 million from the following companies:*

| £000 Company Name | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| The Stationery Office | — | — | 1,322 |
| Wragge and Co. | 2,058 | 1,068 | 1,529 |

### Discrimination Law Review

**Mr. Burstow:** To ask the Secretary of State for Trade and Industry if he will set out the remit and timetable of the Discrimination Law Review. [13535]

**Meg Munn:** The Discrimination Law Review is tasked to review the effectiveness of Great Britain's equality legislation, with a view to making recommendations for creating a clearer and more streamlined equality legislation framework, aimed at producing better outcomes for those who experience disadvantage. The full terms of reference for the Review were placed in the Libraries of the House on 13 June 2005. The Review has begun work alongside the current independent Equalities Review which will report to the Prime Minister in 2006. Both the Equalities Review and the Discrimination Law Review will inform proposals for a Single Equality Bill which the Government have made a manifesto commitment to introduce in the lifetime of this Parliament.

### Electricity Generation

**Mr. Bellingham:** To ask the Secretary of State for Trade and Industry what percentage of electricity generated to meet demand was contributed by each mode of generation in the last period for which figures are available. [13380]

**Malcolm Wicks:** The 2004 figures, to be published in the Digest of UK Energy Statistics 2005 at the end of this month, show that 40 per cent. of the electricity supplied in the United Kingdom was from gas, 33 per cent. from coal, 19 per cent. from nuclear, 1 per cent. from hydro, 2½ per cent. from other renewables (such as wind, wave, solar and biomass), 1 per cent. from oil, 2½ per cent. from imported electricity, and 1 per cent. from other fuels (such as coke oven gas, blast furnace gas and waste products from chemical processes).

### Export Control Organisation

**Helen Goodman:** To ask the Secretary of State for Trade and Industry what account he took of the report of ASE management consultants on the privatisation of the Export Control Organisation in determining whether to privatise it. [12937]

**Malcolm Wicks:** The report has been fully taken into account as part of my consideration of the future of the Export Control Organisation.

**Mr. Drew:** To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the Export Control Organisation. [13968]

**Malcolm Wicks:** I expect to do so shortly.

### Fuel Poverty

**Alan Simpson:** To ask the Secretary of State for Trade and Industry when he expects to publish the findings of the Peer Review on the methodology for calculating fuel poverty figures for England. [13548]

**Malcolm Wicks:** The Peer Review into the fuel poverty methodology for England is expected to be published on 21 July 2005.

### Home Workers

**Mr. Amess:** To ask the Secretary of State for Trade and Industry what assistance is given to staff in his Department who wish to work from home, broken down by grade. [12290]

**Alan Johnson:** The Department introduced a flexible working policy including full guidance for managers and staff to ensure that new ways of working, including homeworking, are available to all individuals and the benefits to stakeholders, customers, managers and staff are maximised.

The Department supports a variety of homeworking options for staff: these include formal homeworking on a permanent basis, or part of the week on a regular basis or working at home on an ad hoc basis. Our staff survey shows that 78 per cent. of staff state that their managers allow working patterns including working at home to help them balance work and home life. Staff who work at home part of the week on a regular basis may have a local agreement to provide them with IT equipment.

Many flexible working patterns, including working from home, are negotiated locally and it is not possible to break down data by grade.

### Industry and Parliament Trust

**Mr. Laws:** To ask the Secretary of State for Trade and Industry what the total public sector financial support was for the Industry and Parliament Trust in each year from 2001–02 to 2006–07; and if he will make a statement. [12088]

**Alan Johnson** *[holding answer 18 July 2005]:* The Department has not provided financial support to the Industry and Parliament Trust (IPT) in any of the years specified and does not expect to do so.

### International Trade Advisers

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry what the average salary was of International Trade Advisers employed by the regional development authorities in the last period for which figures are available; and if he will make a statement. [10486]

**Ian Pearson:** International Trade Advisers are funded by UK Trade and Investment to deliver trade development services to business. They are employed by local providers of business support services, mostly Business Link Operators. As UK Trade and Investment is not the employer, no average salary figure is readily available. UK Trade and Investment is providing funding of £15.4 million to the local service providers in the 2005–06 financial year to cover the cost of an advice network of 282 advisers, including both adviser salaries and overheads.

### Liquefied Petroleum Gas

**Mr. McGovern:** To ask the Secretary of State for Trade and Industry what steps his Department is taking to promote the uptake of liquid petroleum gas *(a)* in petrol stations and *(b)* among consumers. [13453]

**Malcolm Wicks:** The Department's LPG Boost project, that ended in March 2005, raised the awareness with consumers of the use of LPG.

The Government also continue to support alternative fuels, including LPG, through fuel duty incentives as set out in the Chancellor of the Exchequer's alternative fuels framework, published in the 2003 pre-Budget report.

**Mr. McGovern:** To ask the Secretary of State for Trade and Industry how many petrol stations in England sell liquid petroleum gas. [13454]

**Malcolm Wicks:** The Liquefied Petroleum Gas Association (LPGA) informed the Department that there are currently 1,274 liquefied petroleum gas (LPG) filling stations in the UK, of which 669 are at petrol filling stations.

### Manufacturing

**Mr. Crabb:** To ask the Secretary of State for Trade and Industry what assessment he has made of the extent to which UK manufacturing job losses can be prevented through better regulation. [12471]

**Barry Gardiner:** The Government have a radical programme aimed at reducing costs to manufacturing and other businesses of complying with regulation. Reduced regulatory burdens will free up business resources to focus on growth and competitiveness—both drivers of job creation.

### Miners' Compensation

**John Mann:** To ask the Secretary of State for Trade and Industry (1) how many claims for vibration white finger have been submitted in *(a)* Bassetlaw and *(b)* the United Kingdom registered as being under the UDM/Vendside scheme for miners compensation by (i) Moss Solicitors, (ii) Brm solicitors, (iii) Beresfords solicitors, (iv) AMS Law solicitors, (v) Wake Smith Solicitors and (vi) the Union of Democratic Mineworkers; [12650]

(2) how many claims for chronic obstructive pulmonary disease have been submitted in *(a)* Bassetlaw and *(b)* the United Kingdom registered as being under the UDM/Vendside scheme for miners compensation by (i) Moss Solicitors, (ii) Brm solicitors, (iii) Beresfords solicitors, (iv) AMS Law solicitors, (v) Wake Smith Solicitors and (vi) the Union of Democratic Mineworkers; [12651]

(3) how many deceased claims for chronic obstructive pulmonary disease and vibration white finger have been submitted in *(a)* Bassetlaw and *(b)* the United Kingdom registered as being under the UDM/Vendside scheme for miners compensation by (i) Moss Solicitors, (ii) Brm solicitors, (iii) Beresfords solicitors, (iv) AMS Law solicitors, (v) Wake Smith Solicitors and (vi) the Union of Democratic Mineworkers; [12652]

(4) how many claims for *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger have been submitted in (i) Bassetlaw and (ii) the United Kingdom registered as being under the Union of Democratic Mineworkers/Vendside scheme for miners' compensation by solicitors. [12986]

**Malcolm Wicks** *[holding answer 18 July 2005]:* Following my request to the Union of Democratic Mineworkers for a list of all the claims they and their client solicitors have submitted, the Department's claims handlers, Capita, are undertaking a check against their own records. Until this exercise has been completed, the Department is unable to provide the requested information.

**Adam Price:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 11 July to Question reference 9089, which Ministers agreed that the Department would negotiate the strategy with the Union of Democratic Mineworkers and Vendside; on what dates; what reports Ministers received on the progress of negotiations; and on what dates Ministers agreed to the terms of the final outcome of the negotiations. [12826]

**Malcolm Wicks** *[holding answer 18 July 2005]:* My right hon. Friend the Member for Leeds, West (John Battle) agreed that the Department would negotiate the strategy for handling claims submitted by the Union of Democratic Mineworkers in December 1998. The proposed terms of the arrangements were put to Ministers on completion of the negotiations. In January 1999, my right hon. Friend the Member for Leeds, West agreed the terms of the vibration white finger handling arrangements. In November 1999, the then Energy Minister, agreed the handling arrangements for chronic obstructive pulmonary disease claims.

**John Mann:** To ask the Secretary of State for Trade and Industry how many deceased claims for chronic obstructive pulmonary disease from *(a)* Beresfords solicitors and *(b)* all solicitors have been rejected or withdrawn. [12903]

**Malcolm Wicks** *[holding answer 18 July 2005]:* Of 15,151 deceased chronic obstructive pulmonary disease claims settled by denial or withdrawal, Beresfords solicitors are registered as the claimant's representatives in 2,333.

**John Mann:** To ask the Secretary of State for Trade and Industry how much the Union of Democratic Mineworkers has been paid in fees for *(a)* chronic obstructive pulmonary disease (COPD) claims and *(b)* deceased COPD claims. [12904]

**Malcolm Wicks** *[holding answer 18 July 2005]:* The UDM/Vendside has been paid £16.3 million in fees for COPD claims of which £1.9 million relates to deceased COPD claims.

**John Mann:** To ask the Secretary of State for Trade and Industry how many *(a)* deceased chronic obstructive pulmonary disease (COPD) claims and *(b)* total COPD claims have been registered by the Union of Democratic Mineworkers. [12905]

**Malcolm Wicks** *[holding answer 18 July 2005]:* The UDM has been registered as claimant's representative for 16,678 COPD claims of which 1,589 are deceased COPD claims.

### Miners' Pensions

**Adam Price:** To ask the Secretary of State for Trade and Industry what assessment he has made of the likely effects of the European Directive on Investment on the Department's role in relation to the *(a)* Miners' Pension Scheme and *(b)* British Coal Staff Superannuation Scheme; and if he will make a statement. [12871]

**Malcolm Wicks:** The schemes are exempt from many of the requirements of Directive 2003/41/EC on the activities and supervision of institutions for occupational retirement provision by virtue of their Crown guarantee; but changes to scheme provisions were necessary to reflect the requirement that member states may not subject Trustees' investment decisions to any form of systematic notification or prior consent.

**Adam Price:** To ask the Secretary of State for Trade and Industry what the current value of the Investment Reserve Fund in the *(a)* Miners' Pension Scheme and *(b)* British Coal Staff Superannuation Scheme is. [12872]

**Malcolm Wicks:** The current values of the Investment Reserve Funds (at 31 March 2005) in respect of the Mineworkers' Pension Scheme and the British Coal Staff Superannuation Scheme are, respectively, £487 million and £940 million.

### Newspapers and Magazines (Distribution)

**Jim Dowd:** To ask the Secretary of State for Trade and Industry what progress he has made in promoting agreement between retailers and publishers with regard to the future distribution of newspapers and magazines. [8922]

**Mr. Sutcliffe:** It is for the companies concerned to make decisions about what distribution arrangements they put in place for their products while ensuring those arrangements comply with the law.

Following a request from certain newspaper and magazine publishers, the Office of Fair Trading (OFT) has considered whether arrangements for distribution of newspapers and magazines are likely to be compatible with competition law after 1 May 2005. OFT published a draft advisory opinion on 19 May and invited written comments by 17 June. I understand OFT has received representations from all parts of the newspaper and magazine supply chain. I am pleased interested parties are trying to arrange satisfactory solutions. OFT is currently considering all representations.

### Non-agricultural Market Access

**Nick Harvey:** To ask the Secretary of State for Trade and Industry if he will make a statement on the Government's position on the Non-Agricultural Market Access negotiations. [13774]

**Ian Pearson:** The UK Government objective in the Non-Agricultural Market Access negotiations of the Doha Development Agenda is for significantly improved real access to markets (except those of LDCs and other weak and vulnerable countries) for all WTO members. The European Commission leads for the European Union in these negotiations.

### Nuclear Power

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry if he will make a statement on the future of nuclear power stations; what proportion of electricity carried across the National Grid is generated by nuclear power; and if he will make a statement on the future of nuclear power in the UK. [13005]

**Malcolm Wicks:** Existing nuclear power stations are expected to continue in operation for some years, in one case, Sizewell B, up to the 2030s.

Our policy on possible new nuclear power stations remains as set out in the 2003 Energy White Paper. The Government has no specific proposals but does not rule out the nuclear option.

The most recent figure for the proportion of electricity supplied by nuclear power plants is given in the Energy Trends March 2005 which states that in 2004 19 per cent. of electricity was supplied.

### Ofgem (Social Action Plan)

**Dr. Iddon:** To ask the Secretary of State for Trade and Industry what response he will make to the conclusions on prepayment meter users in the Public Accounts Committee's recent report on Ofgem's Social Action Plan. [13318]

**Malcolm Wicks:** It is for Ofgem to respond to the Committee's conclusions and recommendations.

### Regional Development Agencies

**Mrs. Spelman:** To ask the Secretary of State for Trade and Industry what offices regional development agencies have outside the UK; and what the cost of each was in the last year for which figures are available. [12016]

**Alun Michael:** The Regional Development Agencies have offices in different countries. The following table gives details of their location by country and the cost associated with those offices.

£000

| Country | Advantage West Midlands | East of England Development Agency | East Midlands Development Agency | North West Development Agency | One North East | South East England Development Agency | South West of England Development Agency | Yorkshire Forward |
|---|---|---|---|---|---|---|---|---|
| Australia | 58 | — | — | [1]50 | [1]55 | 50 | 67 | [1]45 |

[1] Collaboration between North West Development Agency, One North East and Yorkshire Forward.
[2] Contribution towards East of England Office (other partners include all local authorities, Government Office-East, Regional Learning and Skills Council, Norfolk Constabulary and Anglia Polytechnic University (Business School).
[3] Partnership with North West Regional Assembly.
[4] Contribution towards Essex county council office in Jiangsu Province, China.
[5] Cost of offices in Osaka and Yokohama.
[6] Joint office with East of England International.
[7] There are offices in both countries, but expenses are paid centrally and cannot be separately identified.

The London Development Agency do not have any offices outside the UK.

### Rental Costs

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how much was paid by his Department in rent on *(a)* 1 Victoria Street, *(b)* 10 Victoria Street, *(c)* Kingsgate House and *(d)* 151 Buckingham Palace Road in each of the last 10 years for which figures are available; and how much he expects to pay in each of the next five years. [10523]

**Alan Johnson:** The rents paid (ex VAT where payable) for the last ten years are:

£6.5 million per annum to January 2001, £7.75 million to March 2005

£2.5 million per annum to February 2002, £3.0 million to March 2005

£3.7 million per annum. to March 2002, £6.2 million to March 2005

£7.75 million per annum to March 2004, £8.5 million to March 2005.

An estimate of future costs cannot be given either because of forthcoming rent reviews or because the level of future occupation is under review.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Trade and Industry how many days the Department has lost due to sickness in the past five years for which figures are available. [11473]

**Alan Johnson:** These figures contained in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based. The most recent of which (for calendar year 2003) was announced by Ministerial Statement on 1 November and copies placed in the Libraries of the House. Reports for 1999, 2000, 2001 and 2002 are also available in the Libraries and on the Cabinet Office website at: http://www.civilservice.gov.uk/management_information/conditions_of_service/caje/publications/index.asp#sickness

The DTI takes the management of sickness absence very seriously and is tightening up procedures for reporting and improving data collection and handling absences, including coaching managers on dealing with specific cases. Recommendations from the "Managing Attendance in the Public Sector" report are being considered and implemented as appropriate.

### Small Arms Exports

**Andrew George:** To ask the Secretary of State for Trade and Industry how many small arms were exported by G8 countries to *(a)* Sudan, *(b)* Uganda, *(c)* Democratic Republic of Congo, *(d)* Zimbabwe, *(e)* Ivory Coast, *(f)* Liberia, *(g)* Ethiopia, *(h)* Eritrea and *(i)* Somalia in the last 10 years for which records are available. [13079]

**Malcolm Wicks:** The information requested is not available because the system of classification used to record trade does not separately identify small arms.

### Spam Emails

**Mr. Ian Austin:** To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of spam emails to UK business in the last period for which figures are available. [12619]

**Alun Michael:** I understand that according to one industry source, the average time spent managing spam is 10 minutes per employee per day. The Government have not made an estimate of the quantity or cost of spam e-mails sent to UK businesses.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Trade and Industry if he will list the special advisers to his Department; what the area of expertise of each is; and what the employment cost of special advisers was in 2004–05. [8928]

**Alan Johnson:** I refer the hon. Member to the answer my right hon. Friend the Prime Minister gave to you on 4 July 2005, *Official Report*, column 36W.

### UK Trade and Investment

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry if he will reverse the decision to

reduce the expenditure UK Trade and Investment allocates to export development; and if he will make a statement. [10479]

**Ian Pearson:** As with the rest of Government, UKTI has to work within the resources allocated to it by the 2004 Spending Review and the conditions attached to that settlement.

### Vehicle Statistics

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many *(a)* cars, *(b)* vans, *(c)* trucks and *(d)* bus and coaches were built in the UK in each of the last three years; and how many people are employed in the automotive industry. [13007]

**Alun Michael:** UK vehicle production, and automotive industry employment for the last three years was as follows.

| | *Cars* | *Vans* | *Trucks* | *Bus and coach* | *Employment* |
|---|---|---|---|---|---|
| 2002 | 1,629,744 | 175,426 | 15,569 | 2,089 | 243,000 |
| 2003 | 1,657,558 | 172,955 | 14,179 | 1,737 | 237,000 |
| 2004 | 1,646,750 | 191,773 | 16,104 | 1,291 | [1]235,000 |

[1] 2004 employment has been estimated as 2004 ABI data are published in December 2005.

*Notes:*

1. Car manufacturing data have been sourced from Office of National Statistics.
2. Commercial vehicle data have been sourced from SMMT as ONS do not provide a breakdown by type of vehicle.
3. Employment data have been sourced from the ONS Annual Business Inquiry, and include vehicle, engine, body and component manufacture, auto electrical equipment, and tyres.

### Wind Farms

**Mr. David Jones:** To ask the Secretary of State for Trade and Industry what applications have been made to his Department in connection with the proposed development of the Gwynt y Mor wind farm off the coast of North Wales. [12697]

**Malcolm Wicks:** There have been no applications for development consent for the proposed Gwynt y Mor offshore wind farm.

**Mr. Bellingham:** To ask the Secretary of State for Trade and Industry what assessment he has made of the relative efficiency of each mode of electricity generation. [13384]

**Malcolm Wicks:** Data on the average thermal efficiencies and load factors of large generators by fuel type are published in table 5.10 of the DTI's "Digest of United Kingdom Energy Statistics"

http://www.dti.gov.uk/energy/inform/dukes/dukes2004/index.shtml

However, the technical and economic efficiency of generators have been a commercial matter for generating companies since industry privatisation in 1990–91.

**Mr. Hood:** To ask the Secretary of State for Trade and Industry how many wind farms are in operation in Scotland; what plans there are to build more wind farms in Scotland; and if he will make a statement. [10286]

**Malcolm Wicks:** There are currently 27 wind farms operating in Scotland, and I am delighted to say that I will be opening the 28th at Artfield Fell, Stranraer later this month.

The question of plans for further wind farm developments in Scotland is a devolved matter and therefore any inquiries along these lines should be directed to the Scottish Executive.

### World Trade Organisation

**Lynne Featherstone:** To ask the Secretary of State for Trade and Industry if he will make a statement on the recent Non-Agricultural Market Access negotiations at Doha. [13563]

**Ian Pearson:** The Non-Agricultural Market Access negotiations are part of the Doha Development Agenda trade round on which the European Commission leads for the European Union. Negotiations are on-going.

**Lynne Jones:** To ask the Secretary of State for Trade and Industry what representations he has received from and when he next plans to meet UK and foreign business representatives regarding the Non-Agricultural Market Access negotiations at the World Trade Organisation; and if he will make a statement. [13564]

**Ian Pearson:** I meet business representatives on a regular basis and discuss a wide range of issues with them, including, where appropriate the Non-Agricultural Market Access regulations.

## MINISTER FOR WOMEN

### Institutionalised Sexism

**Colin Challen:** To ask the Minister for Women what guidance her Department has recently issued to organisations in the public sector on combating institutionalised sexism. [13317]

**Meg Munn:** I have issued no such guidance recently.

## HOUSE OF COMMONS COMMISSION

### Parliamentary Mail Services

**Mr. Doran:** To ask the hon. Member for North Devon, representing the House of Commons Commission, if he will make a statement on the provision of parliamentary mail services. [14205]

**Nick Harvey:** The sorting of incoming Parliamentary mail, its preparation for delivery or forwarding, and collection and despatch of outward mail, have been provided by Royal Mail to both Houses for many years on an informal contractual basis, subject to annual revision in line with rising costs. In 2004 it was decided that, in order to comply with EU procurement rules and to ensure value for money, these mail services would be

the subject of a full tender exercise. Following the placing of an advertisement in the *Official Journal*, and the drafting of a full specification, four companies, including Royal Mail, were invited to tender. The award of the contract to Royal Mail, subject to agreement of detailed contractual terms, is being announced today to the parties concerned. It will run for three years from August 2005. Costs for the service are expected to be between £1 million and £1.5 million a year.

The new contract will provide for a significantly enhanced service to Parliament. More mail will be delivered to offices first thing in the morning; the 7pm collection will apply to all post boxes on the estate; forwarding will be more efficiently handled off-site; and there will be a rigorous and robust set of service standards, with regular service reviews and customer input. The price will be reviewed in line with RPI over years two and three of the contract.

This contract is quite separate from that for off-site screening of incoming mail, which will from August 2005 be carried out by Pitney Bowes under a separate contract let in 2004, and the provision by post office counters of postal services at its three outlets on the estate.

## DEFENCE

### Airlift Capacity

**Ann Winterton:** To ask the Secretary of State for Defence how many and what type of aircraft *(a)* constitute the airlift capacity and *(b)* are planned to constitute the airlift capacity in (i) 2010 and (ii) 2015; and what tonnage this (A) comprises and (B) is planned to comprise in each year. [12676]

**Mr. Ingram:** The following table provides details of our current planning assumptions for airlift capability in 2010 and 2015:

| | *2010* | | *2015* | |
|---|---|---|---|---|
| | *Number of aircraft* | *Maximum capacity (tonnes) for fleet* | *Number of aircraft* | *Maximum capacity (tonnes) for fleet* |
| C-130K | 14 | 280 | 0 | 0 |
| C-130J | 25 | 425 | 25 | 425 |
| A400M | 4 | 128 | 25 | 800 |
| C-17 | 4 | 300 | 5 | 375 |
| Total | 47 | 1,133 | 55 | 1,600 |

### Armed Forces Compensation Scheme

**Mr. Hancock:** To ask the Secretary of State for Defence what recent representations he has received on the Armed Forces Compensation Scheme as it applies to servicemen and women who have experienced hearing loss. [13526]

**Mr. Touhig:** I have recently replied to a letter from Dr. John Low, Chief Executive of the Royal National Institute for the Deaf (RNID) and the Department has also responded to a letter from Mr. Chris Underwood who is the RNID's Campaign Manager. Both raised concerns about the 50dB threshold used to determine eligibility for awards under the Armed Forces Compensation Scheme where bilateral noise induced sensorineural hearing loss has resulted from military service. I have offered to meet Dr. Low to discuss his concerns.

### Cadets

**Mr. Hoyle:** To ask the Secretary of State for Defence how many *(a)* state schools and *(b)* independent schools have (i) army, (ii) sea and (iii) air cadets. [13010]

**Mr. Touhig:** Army cadet detachments are found in 52 state schools and 199 independent schools.

Royal Naval detachments are found in nine state schools and 110 independent schools.

RAF detachments are found in 39 state schools and 155 independent schools.

In general, all Combined Cadet Force contingents begin by providing Army detachments, and subsequently providing detachments of the other armed forces, should there be a requirement, when the contingent is well established.

### Counter-insurgency Strategy

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what lessons he has drawn from past counter-insurgency campaigns overseas on the effects of announcing in advance timetables for the withdrawal of forces. [12659]

**John Reid:** The Government seek to apply lessons learned from past campaigns wherever possible, including through the Ministry of Defence's operational audit process. In particular, we believe that the United Kingdom force levels in all operations, including those with a counter-insurgency dimension, should be a function of the operational requirement for forces, not of artificial timetables.

### Critical Manning

**Mr. Moore:** To ask the Secretary of State for Defence if he will list the critical manning groups which have been identified in each of the three services; and what the shortfall against requirement was in each case. [9627]

**Mr. Touhig** *[holding answer 5 July 2005]:* The critical manning groups identified by each service and the shortfalls against requirement, as at 30 June 2005 and rounded to the nearest 10, are as follows:

| | *Strength* | *Requirement* |
|---|---|---|
| *Royal Navy* | | |
| Submarine Nuclear Watchkeepers | 120 | 170 |
| Leading Hand Warfare | 1,300 | 1,810 |
| Submarine Leading Hand Communicators | 40 | 80 |
| Leading Air Engineering Mechanics | 390 | 580 |
| Royal Marines (marine rank) | 2,520 | 3,100 |
| Petty Officer Marine Warfare | 40 | 60 |
| Fast Jet Pilot | 60 | 70 |
| Merlin Pilot | 60 | 80 |
| Merlin Observer | 60 | 100 |
| Merlin Aircrewman | 40 | 50 |
| Leading Aircraft Controller | 50 | 70 |
| Air Engineering Mechanics | 970 | 1,140 |

| | Strength | Requirement |
|---|---|---|
| *Army* | | |
| Vehicle Mechanic | 3,990 | 4,370 |
| Recovery Mechanic | 470 | 660 |
| Armourer | 500 | 570 |
| Ammunition Technician | 280 | 440 |
| Chef | 2,300 | 2,610 |
| Movements Controller | 360 | 390 |
| Petroleum Operator | 210 | 290 |
| Explosives Ordinance Disposal | 520 | 700 |
| Clerk of Works | 210 | 270 |
| Mechanical Engineering Fitter | 540 | 600 |
| Communications Systems Engineer | 730 | 960 |
| Geographic Technician | 300 | 370 |
| Information Systems Engineer | 280 | 380 |
| Military Intelligence Operator | 880 | 1,330 |
| Military Intelligence Linguist | 220 | 230 |
| Human Intelligence Operator | 40 | 80 |
| General Medical Practitioner | 110 | 210 |
| Nurse (officer) | 260 | 380 |
| Nurse (soldier) | 240 | 390 |
| *Royal Air Force* | | |
| Fighter Controller (Squadron Leaders and below) | 320 | 400 |
| Provost/Security (Squadron Leaders and below) | 140 | 170 |
| Admin Training (Squadron Leaders and below) | 230 | 260 |
| Medical Officers | 220 | 280 |
| Medical Support Officers | 70 | 90 |
| Legal Officers | 40 | 50 |
| Chaplains | 80 | 90 |
| Weapon Systems Operator Linguist | 40 | 70 |
| Air Load Master | 480 | 510 |
| Ground Engineering Technician | 590 | 640 |
| Vehicle Technician | 400 | 430 |
| Driver | 1,280 | 1,250 |
| Firefighter | 620 | 650 |
| RAF Regiment Gunner | 1,840 | 1,940 |
| Workshops Technician | 160 | 170 |
| Ground Equipment Technician | 680 | 740 |

### Defence Assistance Fund

**Mr. Hancock:** To ask the Secretary of State for Defence (1) what the total cost of the Defence Assistance Fund was for each of the last four years; how much of that funding in each year was used to promote military exports; and what the allocated funding is for 2005–06; [13455]

(2) what the cost of the Defence Assistance Fund was for the last year for which figures are available; how much of the funding was used to promote military exports; and what the allocated funding is for 2005–06. [13458]

**John Reid:** Defence Assistance Fund (DAF) expenditure was £7.2 million in 2001–02; £9.7 million in 2002–03, £10.4 million in 2003–04 and £13.5 million in 2004–05. Of this, the amount spent on supporting defence exports was £5 million in 2001–02; £4.2 million in 2002–03, £6 million in 2003–2004 and £4.7 million in 2004–05. The DAF allocation for 2005–06 is £17.6 million.

### Departmental Advertising

**David T.C. Davies:** To ask the Secretary of State for Defence how much the Department spent on advertising in each of the last five years. [10256]

**Mr. Touhig:** Until 2001–02 details of the Ministry of Defence's expenditure on advertising were included in those for "advertising and publicity" in the annual departmental performance reports, copies of which were placed in the Library of the House.

For 1999–2000 the information is shown on page 60, Cm 5000; for 2000–01 the information is shown on page 68, Cm 5290 and for 2001–02 the information is shown on page 71, Cm 5661.

The introduction of resource accounting and budgeting (RAB) in the Ministry of Defence has changed the way in which we account for and record our expenditure. Under RAB there is no specific heading for recording expenditure on advertising. This expenditure is included in the figures for "publicity and recruiting" but these figures could be separated only at disproportionate cost. The final outturn figure for publicity and recruiting, which includes advertising, for 2002–03, was £52.5 million and for 2003–04 they were £53.6 million.

The figures for financial year 2004–05 have not yet been finalised and will not be available until the departmental resource and accounts are published later this year.

### Fire Study Recommendations

**Mr. Hancock:** To ask the Secretary of State for Defence which recommendations made in the Fire Study 2000 have been implemented to date. [13456]

**Mr. Touhig:** The Fire Study 2000 recommendations are the subject of an ongoing implementation programme. It is planned to introduce a single, fully integrated and regionally based structure for the delivery of fire services, in line with Fire Study 2000, by the end of September 2006, and this has been accompanied by a review of the delivery of training at national, regional and local level and a rationalisation of vehicle and equipment requirements. As also recommended by Fire Study 2000, the introduction of specialist sponsored reserves for overseas deployments is also being developed.

### Headquarters Land

**Robert Key:** To ask the Secretary of State for Defence if he will make a statement on progress on the co-location of headquarters land. [11563]

**Mr. Ingram:** Work to rationalise and collocate HQ land command (currently based in Wilton) and HQ Adjutant General (currently based in Upavon) is ongoing. A review of the higher level organisations is underway and in parallel, a detailed cost/benefit analysis is being carried out on a number of site options. By the end of the year we expect to be reasonably clear about the size and structure of the new organisation(s). Sites currently under consideration are all within the travel to work area for most existing staff. Any significant collocation is unlikely to commence much before 2007, but if a major new build is required, moves may extend well beyond 2008.

### Health and Safety

**Mr. Hancock:** To ask the Secretary of State for Defence what plans his Department has to monitor the prevalence of noise-related hearing loss among servicemen and women serving in Iraq. [13578]

**Mr. Touhig:** There are currently no specific measures in place to monitor the prevalence of noise related hearing loss among servicemen and women serving in Iraq. However hearing tests of all service personnel are carried out at periodic medical examinations.

### Iraq

**Lynne Jones:** To ask the Secretary of State for Defence what discussions he has had with the Iraqi government on testing for Iraqi citizens who have been exposed to depleted uranium ammunition deployed by the UK in Iraq. [13670]

**Mr. Touhig:** None. However, Ministry of Defence officials are attending United Nations Environment Programme (UNEP) seminars at which depleted uranium (DU) matters, including environmental monitoring and sampling techniques are discussed with Iraqi representatives.

### Japanese Internees

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence when he will apologise to Professor Jack Hayward and others for the distress caused by maladministration in the development and announcement of the ex gratia scheme for British groups interned by the Japanese during the Second World War; and what tangible options are under consideration for the expression of that apology. [13498]

**Mr. Touhig** *[holding answer 19 July 2005]:* I made a public apology to Professor Hayward and those similarly affected by the way the scheme was introduced in my written statement on 13 July 2005, *Official Report*, columns 28–29WS. The possibility of giving tangible expression to this apology is currently under consideration; the options under consideration are financial. I expect to be able to make an announcement soon.

### Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence what his Department's total spending on management consultants has been in each of the last three years. [13058]

**Mr. Touhig:** MOD expenditure on External Assistance (EA), broken down into separate categories, is available in the Library of the House for financial years 1995–96 to 2003–04. Figures for financial year 2004–05 will be placed in the Libraries shortly.

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13627]

**Mr. Touhig:** This information is not held centrally in the form requested and could be provided only at disproportionate cost.

### Royal Navy Ships

**Mr. Gordon Prentice:** To ask the Secretary of State for Defence how many Royal Navy ships have been *(a)* decommissioned and *(b)* mothballed in each of the last 10 years. [13047]

**Mr. Ingram:** Since 1996 the number of Royal Navy ships either withdrawn from service or placed into very low readiness (other than for purposes of major refit) are as follows:

| | *Withdrawn from service* | *Placed into very low readiness (excluding for refit)* |
|---|---|---|
| 1996 | 3 | 0 |
| 1997 | 8 | 0 |
| 1998 | 4 | 0 |
| 1999 | 4 | 2 |
| 2000 | 4 | 0 |
| 2001 | 6 | 0 |
| 2002 | 5 | 1 |
| 2003 | 3 | 2 |
| 2004 | 2 | 0 |
| 2005 | 8 | 0 |

During the remainder of 2005 it is planned that a further four ships will be withdrawn from service and one ship will be placed into very low readiness. Vessels are routinely placed into very low readiness when undergoing major refit work. Therefore, only those ships that have been placed into very low readiness but which did not undergo refit have been included in the table. Vessels held in very low readiness remain available to the Royal Navy until reaching their out of service date and could be regenerated to the Fleet if required.

### Sollis Project

**Mike Gapes:** To ask the Secretary of State for Defence if he will make a statement on the Sollis Project. [12857]

**Mr. Ingram:** To date, extensive searches of MOD records have found no reference to a Sollis Project.

### Sonar 2087

**Dr. Julian Lewis:** To ask the Secretary of State for Defence which vessels are due to be fitted with Sonar 2087; and by what dates. [13051]

**Mr. Ingram:** On current plans eight of the Royal Navy's Type 23 Frigates will be fitted with the 2087 sonar system. It has already been fitted to HMS Westminster and will be installed on the seven remaining vessels during their next available upkeep periods. The currently planned start dates for these upkeep periods, which are subject to periodic review, are:

| *Ship* | *Upkeep start date* |
|---|---|
| HMS Northumberland | Under way |
| HMS Richmond | Under way |
| HMS Somerset | April 2006 |
| HMS St. Albans | May 2007 |
| HMS Sutherland | July 2007 |
| HMS Kent | January 2010 |
| HMS Portland | November 2010 |

## Submarines

**Dr. Julian Lewis:** To ask the Secretary of State for Defence which *(a)* Trafalgar and *(b)* Swiftsure-class submarines are (i) operational and (ii) non-operational; and for what reasons each non-operational submarine is not available to the fleet. [13053]

**Mr. Ingram:** There are 11 Swiftsure and Trafalgar Class submarines of which nine are currently available for fleet tasking. HMS Sovereign, HMS Spartan, HMS Superb, HMS Trafalgar, HMS Turbulent, HMS Torbay and HMS Trenchant are all fully operational. HMS Tireless and HMS Sceptre, while available to the fleet, are at a lower state of availability. HMS Tireless is currently undergoing a period of planned maintenance that will include a significant capability upgrade to include fitting Tomahawk Land Attack Missiles (TLAM). HMS Sceptre will shortly start an equivalent maintenance and upgrade period.

Two submarines are currently non-operational. HMS Talent is undergoing a scheduled long overhaul period, which includes a refuel of her nuclear reactor. HMS Triumph is about to start her long overhaul period and refuel.

## Surveys

**Mr. Moore:** To ask the Secretary of State for Defence what the top four reasons provided in exit surveys in the *(a)* Naval Service and *(b)* Royal Air Force for personnel leaving were; and what proportion of responses these answers represented in each year since 1997. [8620]

**Mr. Touhig:** Exit surveys are conducted within the Naval Services and RAF but it should be noted that, except for RAF officers, as only a relatively small proportion of those choosing to leave respond to these surveys, their results cannot be seen as necessarily representative of their Services as a whole.

The information requested is given the following tables.

### *RN Ratings*

*April 1997 to February 1998*

| *Aspects crucial or important in the decision to leave* | | *Number* | *Percentage* |
|---|---|---|---|
| 1 | Ability to plan own life | 265 | 53.8 |
| 2 | Separation from family and friends | 237 | 48.1 |
| 3 | Promotion prospects | 223 | 45.2 |
| 4 | Job satisfaction | 154 | 31.2 |

*March 1998 to February 1999*

| *Main reason for the decision to leave (1st choice aspects)* | | *Number* | *Percentage* |
|---|---|---|---|
| 1 | Desire to live at home | 62 | 13 |
| 2 | Wish to take up a different career | 55 | 11.5 |
| 3 | Promotion prospects | 46 | 9.6 |
| 4 | To marry and raise a family | 45 | 9.4 |

*March 1999 to February 2000*

| *Main reason for the decision to leave (1st choice aspects)* | | *Number* | *Percentage* |
|---|---|---|---|
| 1 | Desire to live at home | 65 | 14.2 |
| 2 | Separation from family and friends | 61 | 13.3 |
| 3 | Wish to take up a different career | 56 | 12.2 |
| 4 | To marry and raise a family | 52 | 11.4 |

*March 2000 to February 2001*

| *Main reason for the decision to leave (1st choice aspects)* | | *Number* | *Percentage* |
|---|---|---|---|
| 1 | Desire to live at home | 87 | 17.2 |
| 2 | Wish to take up a different career | 70 | 13.8 |
| 3 | To marry/raise a family | 52 | 10.3 |
| 3 | Separation from family and friends | 52 | 10.2 |
| 3 | Job satisfaction | 52 | 10.2 |

*March 2001 to February 2002*

[1] Percentages for 2003–04 responses include only those individuals who answered an individual item, not for the whole response rate. Responses for 1996 to 2003, however are for the whole response rate.

## TA Deployment

**Ann Winterton:** To ask the Secretary of State for Defence what the minimum qualification is for a Territorial Army private soldier to be called up for deployment. [12681]

**Mr. Touhig:** All Territorial Army (TA) personnel currently called up for deployments must be at least 18 years of age and have completed Phase 1 and Phase 2 training. Upon mobilisation, all soldiers receive health checks and additional preparation and training for 10 days at the Reserves Training and Mobilisation Centre (RTMC), before attending five days further pre-deployment training, designed specifically for the theatre to which they are deploying, at the Operational Training Advisory Group (OPTAG). Provided all training and medical standards have been met, soldiers are deemed fit to deploy to theatres and at this stage the majority will join a regular unit, for up to two months prior to deployment, where they will undergo further integration and training.

## Type 45 Destroyers

**Dr. Julian Lewis:** To ask the Secretary of State for Defence (1) what the planned in-service date will be for each Type 45 Destroyer; [12662]

(2) whether it remains his intention that eight Type 45 Destroyers will be built; [12660]

(3) when each of the remaining Type 45 Destroyers will be ordered. [12661]

**Mr. Ingram:** In July 2004 the Secretary of State for Defence announced plans for a class of eight Type 45 Destroyers, of which six hulls are on contract. Formal approval, and a subsequent order, for ships seven and eight will be sought at the appropriate time. The currently forecast In Service Date (ISD) for the First of Class, HMS Daring, is May 2009. The remaining five ships are planned to enter service at intervals over a four year period following the First of Class ISD.

## War Graves

**Mr. Hoyle:** To ask the Secretary of State for Defence how many UK war graves there are in *(a)* Singapore, *(b)* Malaysia, *(c)* Hong Kong, *(d)* Burma, *(e)* India, *(f)* Pakistan and *(g)* Thailand; what the cost was of the upkeep (i) in each country and (ii) per grave in each of the last five years; and when each site was last inspected. [13002]

**Mr. Touhig:** The following table shows the Commonwealth War Graves Commission's (CWGC) figures for the number of United Kingdom (UK) world war and non world war graves for each country listed and the date when each site was last inspected.

| *Country* | *World war graves* | *Non world war graves* | *Last CWGC inspection*[1] |
|---|---|---|---|
| Singapore | 2,729 | 1,385 | June 2005 |
| Malaysia | 1,531 | 2,428 | October 2004 |
| Hong Kong | 1,842 | 3,007 | September 2004 |
| Myanmar (Burma) | 7,311 | — | April 2005 |
| India | 7,484 | 200 | March 2005 |
| Pakistan | 834 | — | April 2005 |
| Thailand | 5,129 | 1 | February 2005 |

[1] The dates shown are those when each site was last inspected by CWGC staff. They do not include visits which may have been made by UK Government representatives.

The CWGC does not hold upkeep costs or costs per grave for each country. However, the world wide figures for the upkeep costs per grave in each of the last five years are as follows:

£

| | *Cost* |
|---|---|
| 2000–01 | 27.57 |
| 2001–02 | 28.09 |
| 2002–03 | 30.31 |
| 2003–04 | 32.00 |
| 2004–05 | 34.63 |

**Mr. Hoyle:** To ask the Secretary of State for Defence how many people work for the War Graves Commission in *(a)* Europe, *(b)* Asia and *(c)* the Middle East. [13003]

**Mr. Touhig:** The number of people who work for the Commonwealth War Graves Commission (CWGC) is in the region of 945 in Europe, 135 in Asia and 52 in the Middle East.

The figure for Europe includes CWGC staff based in the United Kingdom but who travel extensively in other parts of the world. The figures do not include the work undertaken by contract staff.

# CULTURE, MEDIA AND SPORT

## British Library

**John McDonnell:** To ask the Secretary of State for Culture, Media and Sport what the total cost of consultants employed by the British Library was in each of the past five years. [12097]

**Mr. Lammy:** The total cost of consultants employed by the British Library in the last five years is as follows:

| | *Total value of consultancy contracts let (£) per year* |
|---|---|
| 2000–01 | 435,000 |
| 2001–02 | 623,000 |
| 2002–03 | 529,000 |
| 2003–04 | 259,000 |
| 2004–05 | 546,000 |

**John McDonnell:** To ask the Secretary of State for Culture, Media and Sport what the average length of contracts awarded to consultants at the British Library was in each of the past five years. [12098]

**Mr. Lammy:** The average length of contracts awarded to consultants by the British Library in the last five years is as follows:

| | *Average duration of consultancy contracts (months)* |
|---|---|
| 2000–01 | 7.4 |
| 2001–02 | 3.1 |
| 2002–03 | 5.8 |
| 2003–04 | 5.5 |
| 2004–05 | 5.1 |

**John McDonnell:** To ask the Secretary of State for Culture, Media and Sport how many consultants have become permanent members of staff of the British Library following the end of their contract in each of the last five years. [12099]

**Mr. Lammy:** So far as the British Library is aware, no consultants have become permanent members of staff of the British Library following the end of their contract over the past five years.

**John McDonnell:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the added value made to the British Library by consultants employed by them in each of the past five years. [12100]

**Mr. Lammy:** The Department has made no assessment of the added value made to the British Library by consultants employed by them over the past five years. Under the terms of its financial memorandum, it is the Library's responsibility to ensure best value for money from consultancy services.

**John McDonnell:** To ask the Secretary of State for Culture, Media and Sport how many members of staff are employed by the British Library in *(a)* Boston Spa, *(b)* St. Pancras and *(c)* Colindale. [12101]

**Mr. Lammy:** The members of staff employed by the British Library are as follows:

| *Location* | *Headcount* | *Full time equivalent* |
|---|---|---|
| St. Pancras | 1,112 | 1,011.3 |
| Boston Spa | 1,045 | 944.98 |
| Colindale | 109 | 107.4 |
| Other sites | 79 | 75.66 |
| Total | 2,345 | 2,139.34 |

### National Lottery

**Mr. Prisk:** To ask the Secretary of State for Culture, Media and Sport which village halls and community centres have benefited from Lottery funding in the Hertford and Stortford constituency since 1997. [12767]

**Mr. Caborn:** Since 1997, Lottery distributors have made 204 awards totalling more than £8.4 million in the Hertford and Stortford constituency.

13 of these awards, between them totalling more than £215,000, were made by the former Community Fund (now part of the Big Lottery Fund) to the following village halls and community centres:

Bengeo Sports Association

Hunsdon Village Hall

Little Berkhamsted Parish Council

Much Hadham Parochial Church Council

Parish Hall, Stansted Abbotts

Sawbridgeworth Memorial Hall

The Eastwick and Gilston Village Hall

The High Wych Memorial Hall (three awards)

Thorley Community Centre Limited

Wareside Village Hall

Widford Village Hall

The Heritage Lottery Fund also awarded a grant to Church House, Sawbridgeworth, for the purpose of providing a meeting room for community use.

Further Lottery awards have been made by other distributors, including Arts Council England and Sport England for eligible activities taking place within community buildings.

### Olympics 2012

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what the implications are of the successful bid to hold the 2012 Olympic Games in London for the *(a)* workload and *(b)* staffing levels of her Department. [11676]

**Tessa Jowell:** We have already undertaken detailed planning on the resources needed to successfully deliver the 2012 Olympic and Paralympic Games. A transitional Organising Committee are already in place and an Olympic Delivery Authority will be established as part of the London Olympics Bill.

Within Government, the OGC are advising on the additional resources required to ensure Government will fulfil their obligations and delivers the commitments given.

**Dr. Cable:** To ask the Secretary of State for Culture, Media and Sport what assurances the Government have given to the International Olympic Committee of financial guarantees for the London Olympics in the event of cost overruns. [11895]

**Tessa Jowell** *[holding answer 13 July 2005]:* London's bid underwent rigorous assessment by the International Olympic Committee, Treasury and the Office of Government Commerce. The Government remains committed to ensuring the 2012 Games are delivered on time and on budget.

As part of the bidding process we have provided the International Olympic Committee with a guarantee that:

"the Government will act as the ultimate guarantor of Olympic funding should there be a shortfall between the LOCOG's (London Organising Committee of the Olympic Games) costs and revenues".

Copies of the guarantees given by the Government to the International Olympic Committee were deposited in the House Libraries on 19 November 2004.

### Young People (Summer Activities)

**Tony Baldry:** To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 11 July 2005, *Official Report*, columns 550–51, to the hon. Member for Worsley (Barbara Keeley), on young people (summer activities), if she will list the programmes of summer activities for young people that her Department intends to fund during the summer holidays. [12751]

**Mr. Caborn** *[holding answer 14 July 2005]:* My Department supports a number of activities funded across Government, our public bodies and by the Big Lottery Fund which will deliver a range of sporting and cultural opportunities for young people this summer. There are two main national programmes:

Positive Activities for Young People—with Department for Education and Skills, Youth Justice Board, ODPM, Government Offices and the Big Lottery Fund and

Do it For Real—run by the Big Lottery Fund

In addition there will be a wide range of local opportunities for young people supported by our public bodies and local authorities :

Many Museums will providing summer schools, festivals and other projects

Libraries will once again be running the summer reading challenge and other events.

Sport England will be supporting local clubs and projects such as the Street Games in London and the North East.

Art Council England will be supporting local arts clubs activity.

### Youth Development Sport Schemes

**Dr. Kumar:** To ask the Secretary of State for Culture, Media and Sport what support her Department is giving to sporting schemes and youth development through sport in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland constituency. [12955]

**Mr. Caborn:** This data are not held centrally in the format requested and could be provided only at disproportionate cost.

The PE, School Sport and Club Links (PESSCL) national strategy—being implemented jointly with the Department for Education and Skills—aims to increase the percentage of five to16-year-olds in England spending two hours each week on high quality PE and school sport within and beyond the curriculum, to 75 per cent. by 2006, and to 85 per cent. by 2008. The 2003–04 school sports survey—the largest and most comprehensive survey of school sport in England—found that overall 62 per cent. of pupils in the 6,500 schools taking part in the survey were already spending at least two hours a week on high quality PE and school sport in a typical week.

Spearheading action is the establishment of a network of 400 sports colleges and school sport partnerships. To date there are six live school sport partnerships (SSPs) in Teesside. This includes two in Middlesbrough South and East Cleveland. SSPs are 'families of secondary and primary schools' which come together to increase the amount and quality of sports opportunities for all children.

## DEPUTY PRIME MINISTER

### Airwave System

**Mr. Drew:** To ask the Deputy Prime Minister if he will publish the evaluation he has made of the Airwave system in advance of a decision on Firelink. [13664]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister is still engaged in the Firelink procurement and does not propose to release evaluation considerations because of the commercial sensitivity of the information.

### Civil Service

**Mr. Burstow:** To ask the Deputy Prime Minister if he will set out the remit and membership of the Sustainable Procurement Task Force. [13529]

**Mr. Morley:** I have been asked to reply.

Established in May 2005, the Sustainable Procurement Task Force is charged with drawing up an action plan by April 2006 to bring about a step-change in sustainable public procurement so that the UK is among the leaders in the EU by 2009.

The Action Plan will set out how to:

Avoid adverse environmental impacts arising on the government estate and in the supply-chain.

Make more efficient use of public resources.

Stimulate the market to innovate and to produce more cost effective and sustainable options for all purchasers.

Set an example for business and the public and demonstrate that government and the wider public sector is serious about sustainable development.

The Task Force is business led under the chairmanship of Sir Neville Simms but the membership of the group has been chosen to bring in a wide cross-section of expertise. Further information about the Sustainable Procurement Task Force can be found at: www.sustainable-development.gov.uk/delivery/global-local/ProcurementTaskForce.htm

### Consultants

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister what his Department's total spending on management consultants has been in each of the last three years. [13155]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was formed in May 2002. The information requested is not held centrally and could be provided only at disproportionate cost.

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13621]

**Jim Fitzpatrick:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister whether occupied Crown property is exempt from council tax. [11984]

**Mr. Woolas:** The largest class of dwellings owned by the Crown is armed forces' accommodation. This is exempt from council tax under section 4 of the Local Government Finance Act 1992. The Ministry of Defence pays contributions in lieu of council tax to billing authorities instead. The Local Government Finance Act 1992 applies to other occupied Crown owned property in the same way as it does to other domestic accommodation.

**Mrs. Spelman:** To ask the Deputy Prime Minister what definition of *(a)* composite hereditament and *(b)* hereditament is used for council tax purposes. [11985]

**Mr. Woolas:** For council tax purposes, the definition of a composite hereditament which is used is that contained in Part III of the Local Government Finance Act 1988 and the definition of a hereditament which is used is that in section 115(1) of the General Rate Act 1967, if that Act had remained in force.

**Mrs. Spelman:** To ask the Deputy Prime Minister what the penalties are for non-payment of council tax. [12002]

**Mr. Woolas:** If the appropriate reminder notices have been sent and a debt remains unpaid, a local billing authority may apply to the magistrates court for a Liability Order which formally establishes that there is a debt. The Liability Order enables enforcement action to be taken.

Local authorities have a wide range of enforcement powers, including attachment of earnings orders, deductions from some benefits, the levying of distress by bailiffs and, ultimately, where the billing authority has sought to levy distress and has failed to find any or sufficient goods on which to levy the amount, if the non-payment is due to wilful refusal or culpable neglect on the part of the council taxpayer, application to the magistrates court for commitment to prison.

**Mrs. Spelman:** To ask the Deputy Prime Minister pursuant to the answer of 5 July 2005, *Official Report*, column 298W, on council tax, what the percentage second homes council tax discount levied by the local authorities that cover his official residences at *(a)* Admiralty House and *(b)* Dorneywood is. [12031]

**Jim Fitzpatrick** *[holding answer 14 July 2005]:* The council tax on the flat at Admiralty House occupied by my right hon. Friend the Deputy Prime Minister is levied by the Westminster city council. The second home discount on council tax is 10 per cent.

Dorneywood is owned and operated by the Dorneywood Trust which is a registered charity and is not accountable to the Office of the Deputy Prime Minister.

### Council Tax/Business Rates

**Mrs. Spelman:** To ask the Deputy Prime Minister under what circumstances Travellers in unauthorised developments may be liable for business rates; and if he will make a statement. [11390]

**Mr. Woolas:** Liability for non-domestic rates falls on a person—the ratepayer—who is in occupation of all or part of a hereditament that is shown in a local non-domestic rating list, whether or not the hereditament forms part of an unauthorised development. Whether Travellers are liable for non-domestic rates will depend on the facts of the particular case.

### Departmental Purchasing

**Chris Grayling:** To ask the Deputy Prime Minister if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11734]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was formed in May 2002. For financial year 2002–03 it is not possible to provide an accurate list of companies with whom the Department has purchased goods and services with a value above £1,000,000 as expenditure in 2002–03 for ODPM suppliers cannot be separately identified from expenditure incurred by the Department for Transport on their suppliers. For 2003–04 and 2004–05 a table of those companies with whom the Department has purchased goods and services with a value above £1,000,000 has been provided as follows.

| | *Company* | £ |
|---|---|---|
| *2003–04* | | |
| 424050 | Marshall Specialist Vehicles Ltd. | 23,574,253.63 |

### Fire Service

**Mr. Lidington:** To ask the Deputy Prime Minister on what evidence the Parliamentary Under-Secretary of State, the hon. Member for Poplar and Canning Town (Jim Fitzpatrick), based the comment in his letter of 1 July to all hon. Members that *(a)* the Chief Fire Officers' Association and *(b)* the Local Government Association support the Government's plans to regionalise fire control rooms; and if he will make a statement. [12441]

**Jim Fitzpatrick:** The Chief Fire Officers' Association policy document, "CFOA Position on Regional Control Centres" of April 2005 expresses the organisation's support for the project (on http://www.cfoa.org.uk/cfoa_public). CFOA and the Local Government Association have expressed their support as "critical friends" of the project through membership of the project board, when briefing Regional Management Boards, and at other meetings.

**Mr. Fallon:** To ask the Deputy Prime Minister what estimate he has made of the total cost of establishing the proposed regional Fire Control Centre for south-east England. [4934]

**Jim Fitzpatrick:** Figures for the south-east only are not currently available, as the business case for the FiReControl project currently exists only at a national level. The estimated total net cost of setting up the new control centres across England is about £72 million. RCCs, once fully operational, should reduce running costs by 30 per cent.

The Office of the Deputy Prime Minister is working closely with Fire and Rescue Authorities to provide more detailed information on both costs and benefits at local level.

**Mr. Galloway:** To ask the Deputy Prime Minister (1) what assessment he has made of the impact of the recent cuts in the number of fire engines at Euston and Bethnal Green and the closure of Manchester Square fire station on the ability of the fire service to respond to the events of 7 July; and if he will make a statement; [12868]

(2) if he will reverse the recent reductions in fire cover in central London following the events of 7 July; and if he will make a statement. [12869]

**Jim Fitzpatrick:** I discussed these matters with the London Fire and Emergency Planning Authority (LFEPA) on Friday 8 July. I am advised that the London Fire Brigade's Integrated Risk Management Plan (the London Safety Plan) specifically addresses the question of maintaining resilience to deal with major acts of terrorism or other catastrophic emergencies. Fire engines are being redeployed to other stations rather than withdrawn from service and they remain available to provide support on incidents such as those on 7 July.

The authority assured both my right hon. Friend the Deputy Prime Minister and me that their planning—including recent changes to the location of fire engines and the significant Government investment in new specialist vehicles, equipment and training—have proved up to the task.

Each fire and rescue authority's arrangements are the responsibility of the elected members of the authority concerned. It is, therefore, for LFEPA to determine appropriate fire cover for its area.

**Mr. Amess:** To ask the Deputy Prime Minister when he expects to conclude the procurement process for Firelink. [13653]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister expects to award the Firelink contract in November 2005.

**Mr. Drew:** To ask the Deputy Prime Minister if he will list representations he has received on the Firelink Project. [11596]

**Jim Fitzpatrick:** Various members have written with questions about the Firelink procurement. Responses to these questions have been recorded in the *Official Report*. Since the National competition was announced my predecessors and I have received representations from hon. Members of this House on behalf of constituents and from a number of potential suppliers. The Government are committed to run a fair and open competition for Firelink in accordance with EU requirements. The decision as to which company will be awarded the contract will be made within the rules of the competition.

### Group 4 Securicor

**Mr. Henderson:** To ask the Deputy Prime Minister how much was spent by his Department and any public body or agency for which he is responsible on security contracts with Group 4 Securicor in the past year; and if he will list *(a)* the nature and location of services provided and *(b)* the start and end dates of any current such contracts. [13468]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister has no contracts with Group 4 Securicor to provide security services.

### Gypsy/Traveller Sites

**Julie Morgan:** To ask the Deputy Prime Minister if he will list the Gypsy and Traveller sites that have benefited from a refurbishment grant since the scheme was introduced, broken down by *(a)* date, *(b)* cost, *(c)* number of pitches and *(d)* estimated number of individuals expected to reside there. [12739]

**Yvette Cooper:** Information which lists the authorities awarded Gypsy Site Refurbishment grant, their sites, the amount of grant awarded and the year in which grant was paid has been placed in the Library of the House. This year's grant has not yet been announced.

The published caravan count holds information on the number of pitches on authority sites and is available in the Library of the House.

The Office of the Deputy Prime Minister does not hold information on the estimated number of people expected to reside on each site.

### Press Officers

**Mr. Burstow:** To ask the Deputy Prime Minister how many press officers the Department and its predecessors employed in each year since 1997; and what the cost was in each year. [8133]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002.

On 1 April 2003, ODPM*(c)* employed 21.8 full-time equivalent (FTE) press officers. Pay costs for the period 1 June 2002 to 31 March 2003 were £0.86 million.

On 1 April 2004, 23 FTE press officers were employed. Pay costs for the period 1 April 2003 to 31 March 2004 were £1.036 million.

On 1 April 2005, 20 FTE press officers were employed. Pay costs for the period 1 April 2004 to 31 March 2005 were £1.059 million.

Figures for years prior to the creation of ODPM are not available.

### Regional Emergency Control Centres

**Mr. Drew:** To ask the Deputy Prime Minister what role chief fire officers will have in signing off the safety case for the introduction of regional emergency control centres; and if he will make a statement. [13665]

**Jim Fitzpatrick:** The Chief Fire Officers Association (CFOA) is working closely with the Office of the Deputy Prime Minister to ensure that the project will achieve its aim of improving public and firefighter safety. Its representative chairs the project's Senior Operations Group, which comprises officers at Principal and Chief

Officer level. CFOA was fully engaged in drawing up the fire safety and protection strategy for the new control centres, set out in their circular 2005/1068 issued on 7 July.

### Regional Housing Boards

**Mr. Betts:** To ask the Deputy Prime Minister what the recommended investment strategy is for each regional housing board for 2006 to 2008. [13517]

**Yvette Cooper:** The submissions setting out recommendations on the allocation of Regional Housing Pot resources for 2006–07 and 2007–08 are, or will shortly be, available on Regional Housing Board or Government Office websites. The Government will set out its response in due course.

### Standards Board for England

**Sarah Teather:** To ask the Deputy Prime Minister what recompense for legal costs is available to individuals investigated by the Standards Board for England; and if he will make a statement. [12204]

**Mr. Woolas:** I refer the hon. Member to the answer given to my hon. Friend the Member for Hendon (Mr. Dismore) on 6 June 2005, *Official Report*, column 409W.

**Sarah Teather:** To ask the Deputy Prime Minister how many complaints investigated by the Standards Board for England in each of the past three years have related to elected councillors. [12248]

**Mr. Woolas:** The Standards Board for England can consider allegations of misconduct against elected or co-opted members of relevant authorities. Its records do not differentiate between these types of members.

**Sarah Teather:** To ask the Deputy Prime Minister how many complaints to the Standards Board for England about *(a)* Labour, *(b)* Conservative, *(c)* Liberal Democrat, *(d)* Independent and *(e)* other parties' councillors have been (i) referred for investigation and (ii) found to be in breach of the board's code of conduct. [12263]

**Mr. Woolas:** The Standards Board for England does not record information regarding the political affiliation of councillors who are the subject of allegations of misconduct.

**Sarah Teather:** To ask the Deputy Prime Minister whether his Department has undertaken research into the average cost of defending oneself in an investigation undertaken by the Standards Board for England. [12272]

**Mr. Woolas:** The Office of the Deputy Prime Minister has undertaken no such research.

**Sarah Teather:** To ask the Deputy Prime Minister how many people the Standards Board for England employs; and in what capacity each person is employed. [12273]

**Mr. Woolas:** Information on the number of staff employed by the Standards Board for England and which Departments they work in is provided in the board's annual report and accounts, a copy of which is available in the Library of the House.

**Sarah Teather:** To ask the Deputy Prime Minister how many people are eligible for investigation by the Standards Board for England. [12282]

**Mr. Woolas:** The code of conduct for members, alleged breaches of which are investigated by officers of the Standards Board for England, applies to over 100,000 members of local authorities, including parish councils, and of other public bodies, such as national park authorities, the Broads Authority, fire and civil defence authorities, police authorities, and passenger transport authorities.

**Sarah Teather:** To ask the Deputy Prime Minister what proportion of complaints made to the Standards Board for England have been about *(a)* elected representatives, *(b)* members of police authorities, *(c)* members of fire authorities, *(d)* members of park authorities and *(e)* members of the Broads Authority in each of the past four years. [12283]

**Mr. Woolas:** Information on the proportion of allegations of misconduct received each year by the Standards Board for England relating to members of police authorities, fire and civil defence authorities, national park authorities and the Broads Authority is given as follows. The board's records do not distinguish between allegations made in respect of elected and co-opted members.

*2002–03*

Members of police authorities: 0.3 per cent. of total number of allegations

Members of fire and civil defence authorities: 0.1 per cent.

Members of national park authorities and Broads Authority: 0.2 per cent.

*2003–04*

Members of police authorities: 0.2 per cent. of total number of allegations

Members of fire and civil defence authorities: 0.2 per cent.

Members of national park authorities and Broads Authority: 0.3 per cent.

*2004–05*

Members of police authorities: 1.2 per cent. of total number of allegations

Members of fire and civil defence authorities: 0.2 per cent.

Members of national park authorities and Broads Authority: 0.1 per cent.

The board does not keep separate records of the numbers of allegations received in respect of members of national park authorities and the Broads Authority, so combined figures are given for these bodies.

**Sarah Teather:** To ask the Deputy Prime Minister what the average time was for a case referred to the Standards Board for England to be resolved in each year since its inception. [12291]

**Mr. Woolas:** I refer the hon. Member to the answer given to my hon. Friend the Member for Hendon (Mr. Dismore) on 6 June 2005, *Official Report*, columns 407–08W.

**Sarah Teather:** To ask the Deputy Prime Minister what training investigating officers in the Standards Board for England receive in local government before starting employment; and how long such training lasts. [12292]

**Mr. Woolas:** Training provided for staff in the Standards Board for England's investigations Department consists of a six-week induction programme, part of which focuses on the structure and functions of local government and on how decisions are taken in local authorities. The board also provides training seminars and investigative skills training as part of its professional development programme. All staff are included in continuing professional development, which includes a regular assessment of training needs and the provision of training as appropriate.

**Sarah Teather:** To ask the Deputy Prime Minister what proportion of investigations officers employed by the Standards Board for England have previously worked in local government. [12293]

**Mr. Woolas:** Of the staff currently employed by the Standards Board for England who investigate allegations of misconduct, 65 per cent. have experience of working in local government.

### Thurrock Development Corporation

**Andrew Mackinlay:** To ask the Deputy Prime Minister (1) what the total cost has been of the Thurrock Development Corporation; and if he will make a statement; [12498]

(2) when the chief executive of the Thurrock Development Corporation was appointed; when he took up his appointment; and if he will make a statement; [12499]

(3) on what date the Thurrock Development Corporation opened an office in Thurrock; and what the reasons are for the delay in opening this office; [12500]

(4) when he proposes to lay an Order transferring planning functions to the Thurrock Development Corporation; to what parliamentary procedure it will be subject; and if he will make a statement; [12501]

(5) if he will make a statement on the progress made since its inception by the Thurrock Urban Development Corporation; what key decisions it has taken; and what the timetable is for its future work programme. [12507]

**Yvette Cooper** *[holding answer 18 July 2005]:* The Thurrock Thames Gateway Development Corporation was established in October 2003. Since then the Corporation has focussed on the development of its strategic plans and strategies with particular emphasis on corporate governance, business planning, regeneration, development control and spatial land use issues. The Corporation has also worked with local and regional partners with respect to the preparation of a broad programme of capital interventions, which will kick start the regeneration and growth of the area. Funding for the Corporation's first capital project (a regional RSPB Visitors Centre at Rainham Marshes) was announced in June 2005.

The appointment of the chief executive was announced by the Corporation on 14 October 2004. He took up the post on 18 October 2004. To 31 March 2005, the total cost of setting up the Corporation was £1,321,927. An Order making the Corporation the local planning authority for strategic development will be laid before Parliament shortly under the negative resolution procedure. The acute lack of office accommodation in Thurrock has prevented the Corporation from establishing itself in the Thurrock area. However the organisation will be moving to their new offices in Thurrock (Gateway House, Purfleet) at the beginning of August 2005.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Linda Gilroy:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will press the Afghan administration to take steps to prevent people associated with making substantial income from the narcotics trade in Afghanistan from participating in elections. [13334]

**Dr. Howells** *[holding answer 19 July 2005]:* The UK has suggested to the Joint Election Management Board (JEMB) and the UN that Parliamentary candidates be asked to make a specific statement confirming that they have no connections with the illegal drugs trade in Afghanistan.

Candidates for the Parliamentary and Provincial elections can only stand if they meet the criteria stipulated in article 85 of the Afghan Constitution, articles 14 and 15 of the Electoral Law or the JEMB regulations. The criteria include: being an Afghan citizen, having reached the required age, having resigned from his/her position as an electoral officer or senior government, security or justice official, not having been convicted of crimes against humanity or any other crime, not having been deprived of his/her civil rights by a court, not commanding or belonging to an unofficial armed group.

**Linda Gilroy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Italian counterpart on the development of the justice sector in Afghanistan; and if he will make a statement. [13335]

**Dr. Howells** *[holding answer 19 July 2005]:* My right hon. Friend the Foreign Secretary held talks with the Italian Foreign Minister on 19 July.

The UK supports Italy's role as lead nation for justice sector reform in Afghanistan. We welcome Italy's newly launched three year action plan which will focus on judicial capacity building and which aims to train 1,500 people.

As lead nation on counter narcotics the UK is working in support of the Afghan government's 2005 implementation plan, of which criminal justice is a key pillar.

### Bill Sponsorship

**Mr. Amess:** To ask the Secretary of State for Foreign and Commonwealth Affairs what Bills were sponsored by his Department in each Session since 1979. [10564]

**Mr. Straw** *[pursuant to the reply, 18 July 2005, Official Report, c. 1368W]:* I regret that the answer on 18 July 2005 was incomplete. The list of legislation for which the

Foreign and Commonwealth Office has been responsible since 1997 should also have included the Landmines Act 1998.

### Iraq

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK Government have been consulted by either party regarding Iran's proposed assistance with the training and upgrading of Iraq's armed forces; and if he will make a statement. [13205]

**Mr. Straw:** Our understanding is that Iran will not be training Iraqi armed forces. On 12 July, the Iraqi Defence Minister, Sa'dun al-Dulaymi said, in response to a journalist's question about the Iranian Defence Minister's claims that Iraq had agreed to Iranian training of Iraqi troops, that this had not been discussed between Iran and Iraq, adding that "we have 10 centres of training here in Iraq and we have the full capacity."

### Israel

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the extension of the nationality and entry into Israel law (temporary order) prohibiting residents or citizens of Israel who are married to residents of the occupied territories from living in Israel with their spouses was rescinded or amended at the review on 31 May 2005 of the citizenship and entrance to Israel law; and if he will make a statement. [13554]

**Dr. Howells:** On 15 May 2005 the Israeli Cabinet approved an amendment to the nationality and entry into Israel law, allowing men over the age of 35 and women over 25 to apply for immigration in the framework of family re-unification. The amendment has not yet passed the Knesset. On 30 May 2005 the Knesset extended the validity of the current law for a further three months.

We are concerned about this law and its effects, and we have raised these concerns with the Israeli Government. We will continue to monitor the situation with regard to this law.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Israeli Government on the *(a)* apprehension, *(b)* imprisonment and *(c)* current restrictions on Mordechai Vanunu; and if he will make a statement. [13656]

**Dr. Howells:** I refer my hon. Friend to the reply I gave to the hon. Member for West Worcestershire (Sir Michael Spicer) on 18 July 2005, *Official Report*, column 1372W.

### Palestine

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what his latest assessment is of the measures the Palestinian Authority is taking to prevent terror attacks being launched against Israel; [13416]

(2) what his assessment is of compliance by Hamas with the cease-fire commitment it agreed with the Palestinian Authority in Cairo in March. [13417]

**Dr. Howells:** We are greatly concerned at the escalation of violence in Israel and the Occupied Territories since 12 July 2005. We note that the Palestinian Authority has taken some steps to prevent militants from firing rockets into Israel from Gaza. Palestinian security forces have suffered casualties in attempting to do so. We call upon the Palestinian Authority to take immediate and effective action to control the security situation and urge Israel to co-operate in this regard, including by showing maximum restraint.

Palestinian militants, including Hamas militants, have fired rockets and mortars at Israeli targets, and there have also been violent clashes between Hamas militants and Palestinian Authority security forces. This appears to be in contravention of the agreement on 17 March 2005 in Cairo made by Palestinian militant groups to extend a period of calm until the end of 2005. We urge all groups to end violence, and call on Hamas to renounce violence for good and enter the political process.

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of the progress made by the Palestinian Authority in implementing the recommendations of the European Commission's observation mission on democratic elections. [13418]

**Dr. Howells:** I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Ogmore (Huw Irranca Davies) on 6 July 2005, *Official Report*, column 487W.

### People Trafficking

**Mr. Sarwar:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to tackle the trafficking of young women from Eastern Europe since the enlargement of the EU in 2004; and if he will make a statement. [13460]

**Dr. Howells:** Trafficking in human beings, for any purpose, is a particularly abhorrent crime and the UK is committed to taking firm action to combat it.

Since accession, all nationals of the new EU member states have rights of free movement throughout the EU. The UK also provides full access to its labour market to workers from the new member states through the worker registration scheme. A national from a new member state can therefore move to and work legally in the United Kingdom. But there is self-evidently a very clear distinction between voluntary movement of this sort and trafficking.

Trafficking is a priority issue for the UK's presidency of the EU. We aim to bring a particular focus on raising best practice, by improving the exchange of law enforcement information and supporting the development of intelligence-led policing. As presidency we will also work closely with other EU member states and the Commission on developing an EU plan to combat human trafficking, which provides a balanced and coherent framework that will support the efforts of

law enforcement and protect the victims of trafficking. We will also continue to work closely with the relevant international organisations, UN agencies and NGOs.

Nationally, as part of the UK's work to tackle organised immigration crime, the UK has established, under a multi-agency taskforce known as Reflex, a network of immigration liaison officers covering 23 key source and transit countries in Europe. One of Reflex's three key objectives is to target human trafficking and recent successful operations have specifically targeted the trafficking of women from Eastern Europe.

From the Foreign and Commonwealth Office, we have funded a number of projects to help combat the trafficking of young women from Eastern Europe, including through providing advisors to the Bulgarian and Macedonian Anti-Human Trafficking and Smuggling Units, support for Polish-Ukrainian cross-border co-operation and a project which raises awareness in Lithuania about the dangers of bogus employment agencies and facilitators and provides assistance to victims of trafficking.

### Sudan

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what progress is being made on the introduction of no-fly zones in Darfur. [12438]

**Ian Pearson:** The Government of Sudan (GoS) signed the Abuja Security Protocol on 9 November 2004, which commits them to refrain from all hostile military overflights over Darfur. Under United Nations Security Council Resolution 1591, the African Union (AU) is requested to monitor compliance by GoS with this commitment. We continue to make clear to both the GoS and the rebels that they must abide fully by the commitments they have made, and the UN Security-Council Resolution.

In early February the GoS announced that they would remove their Antonov aircraft from Darfur and refrain from hostile use of aircraft there. The Antonovs appear to have been withdrawn. Although helicopter gunships remain in Darfur, the AU and the UN Secretary-General report that the Government have not conducted any air attacks since January. My right hon. Friend the Secretary of State for International Development (Hilary Benn) raised this issue during his visit to Sudan on 12–14 June, where all sides agreed with this assessment.

### Uzbekistan

**Mr. Hands:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 29 June 2005, *Official Report*, column 1583W, on Uzbekistan, what response the Uzbek Government made to the General Affairs and External Relations Council's call on 13 June 2005 on the Government of Uzbekistan to convene a parliamentary committee to investigate the unrest in that country; and what the policy of the UK Government is on the partnership and co-operation agreement. [10946]

**Mr. Douglas Alexander:** On 13 June 2005, the EU's General Affairs External Relations Council (GAERC) called on the Uzbek Government to allow an international independent inquiry into the events of 12–13 May 2005 in Andizhan. The Uzbek President, Islam Karimov, responded to the repeated calls of the international community to allow such an investigation by creating a parliamentary committee, and inviting diplomats from the US, France, Russia, China and Uzbekistan's regional neighbours to observe its work. We and our EU partners, however, considered this an inadequate response, on the grounds that the enquiry needed to be external and independent.

The partnership and co-operation agreement (PCA) enshrines the basis of EU-Uzbekistan relations: mutual respect for the principles of democracy, rule of law, and human rights. There is growing evidence, such as the recent Office for the United Nations High Commissioner for Human Rights (OHCHR) report, which draws on the testimony of eyewitnesses now in Kyrgyzstan, that the Uzbek authorities used disproportionate and indiscriminate force in Andizhan. As presidency of the EU, we and our partners have condemned the Uzbek leadership for breaching these principles.

The EU is currently reviewing certain trade-related elements of the PCA, and cancelled the sub-committee on Trade and Investment meeting scheduled for 13 July 2005. We have also delayed consideration of President Karimov's March 2005 proposals for a further deepening of EU-Uzbek relations under the PCA.

On 18 July 2005, the GAERC invited Mr. Jan Kubis, the EU's newly appointed special representative for Central Asia, to visit the region as soon as possible. The EU will consider further appropriate action in the light of Mr. Kubis' report. The GAERC will, in particular, keep under review the case for suspension of further elements of the PCA, the introduction of an embargo on exports to Uzbekistan of arms, military equipment which might be used for internal repression, as well as other targeted measures.

### Voting Rights

**Mr. Djanogly:** To ask the Secretary of State for Foreign and Commonwealth Affairs which *(a)* Commonwealth and *(b)* other countries have reciprocal measures in place with the United Kingdom to allow British nationals, when resident in that country, to vote in the *(a)* local and *(b)* national elections. [13502]

**Mr. Douglas Alexander** *[holding answer 19 July 2005]:* The Representation of the People Act 1983 provides that all Commonwealth citizens who are lawfully resident in the UK are entitled to vote in parliamentary and local elections. The Foreign and Commonwealth Office has no information on the voting rights of British nationals in other Commonwealth or third countries. The voting rights of overseas nationals in Commonwealth countries are a matter for the country concerned. We are not aware of any formal reciprocal arrangements with any country.

According to Article 19 of the Treaty Establishing the European Community (TEC) British nationals resident in another EU member state have the right to vote in local but not in national elections; they can also vote in elections for the European Parliament.

### Weapons of Mass Destruction

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his policy to support the creation of a weapons of mass destruction-free zone in the Middle East. [13021]

**Dr. Howells:** I refer the hon. Member to the reply I gave to my hon. Friend the Member for Islington, North (Jeremy Corbyn) on 12 July 2005, *Official Report*, column 878W.

### Zimbabwe

**Kate Hoey:** To ask the Secretary of State for Foreign and Commonwealth Affairs on which non-governmental and voluntary organisations the British Embassy in Harare relies for monitoring and intelligence on the ground when assessing the individual circumstances relating to claims by Zimbabwean nationals for asylum in the UK. [12491]

**Ian Pearson:** The British embassy in Harare liaises with a variety of well-respected and well-established NGOs in order to assess the overall human rights situation in Zimbabwe and individual cases of Zimbabweans seeking asylum in the UK. However, given the environment in which NGOs have to operate, and the hostile attitude of the Government of Zimbabwe towards those NGOs in the human rights sector, we judge that it would be detrimental to their work to identify the specific groups involved.

## HOME DEPARTMENT

### African Child Immigrants

**Tim Loughton:** To ask the Secretary of State for the Home Department how many children from Africa have been killed in England and Wales in each of the last five years. [12804]

**Hazel Blears:** In 2001–02 there were four victims of homicide, under 16 years of age, known to be African and one in 2002–03. There were none recorded in the years 1999–2000, 2000–01 and 2003–04.

### Antisocial Behaviour Orders

**Mr. Gerrard:** To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in respect of persons with a known disability. [12164]

**Hazel Blears:** Information is not collected centrally about the characteristics of persons issued with an antisocial behaviour order.

### Asylum Seekers

**Mr. Gerrard:** To ask the Secretary of State for the Home Department how many asylum seekers have been detained under Immigration Act 1971 powers in each of the last five years; at what stage of the asylum process they were detained; and for how long. [12967]

**Mr. McNulty:** Information on the number of asylum seekers detained under the Immigration Act 1971 powers over a period of time is not available.

It is not possible to say which stage of the asylum process people are at when they are detained. The decision to detain is made on a case by case basis and may be appropriate in one or more of the follow circumstances: to effect removal; to establish a person's identity and claim; where a person presents a risk of abscond or where the application is capable of being considered quickly.

Information on the number of asylum seekers and the length of their detention is only available from December 2001. Quarterly snapshots are published showing the number of people detained under Immigration Act powers on the last Saturday of each quarter and these can be broken down by the length of detention. This information can be found in the Quarterly Asylum Statistics publications on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

### Consultation (Faith Communities)

**Mr. Paul Goodman:** To ask the Secretary of State for the Home Department what recent consultations have been carried out by his Department with representatives of faith communities; and if he will make a statement. [3232]

**Paul Goggins:** Faith communities have been involved in the following recent consultations carried out by the Home Office:

Needs of Faith Communities in Major Emergencies

Strength in Diversity

Burial Law and Policy in the 21st Century

Ministers of Religion from Abroad: Consultation on the English

Language Requirement

Discrimination Legislation

Incitement to Religious Hatred Legislation

Compact- Stop and Search- Holocaust Memorial Day

Citizens Day

ID Cards Consultation

Funding and Faith Monitoring

Charities Bill

### Criminal Justice Act 2003

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether he has established the mechanism to monitor the use of new sentences under the Criminal Justice Act 2003 in order to assess the impact on correctional resources; and if he will make a statement. [12065]

**Fiona Mactaggart:** Use of the new sentences is being monitored through the regular data collections covering sentencing decisions, probation workloads and prison populations. In addition more in-depth analysis will be possible through two sample surveys of court decision making which will compare the position before and after the Criminal Justice Act 2003 measures were implemented.

At this stage it is too early to assess the actual impact upon correctional resources.

### Departmental Report (Production Cost)

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the total production cost of the Home Office Departmental Report 2004–05 was.[12064]

**Mr. Charles Clarke:** The Home Office Departmental Report 2004–05 (Cm 6528) sets out to Parliament how the Department has delivered its public services and how it achieved its key targets during 2004–05.

The report also sets out the structure of the Department and summarises the plans for the next financial year—2005–06. The report reflects the Department's three pillars of responsibility, around which the ministerial team is organised. These are: policing, security, community safety and active communities; National Offender Management Service and the criminal justice system; and immigration, citizenship and nationality. Our activities and achievements are brigaded under the Department's strategic objectives.

The report is available to other stakeholders including the public and is accessible via the Home Office website.

The total production costs of the report incurred by the Department including design, layout and printing costs excluding VAT is £60,228 while the total VAT inclusive cost is £67,732. This does not included the potential cost of an HMTL web-version for the visually impaired, which it is intended to produce in the near future. Nor, as in previous years, does it include the costs of Home Office staff time involved in the production of the report as identifying these would involve disproportionate cost.

### Domestic Violence

**Mr. Burstow:** To ask the Secretary of State for the Home Department pursuant to his answer of 5 July 2005, *Official Report*, column 382W, on domestic violence, if he will make it his policy to extend the self-completion component of the British Crime Survey to adults over 59 years; and if he will make a statement. [12060]

**Hazel Blears:** Respondents over the age of 60 are not asked to undertake British Crime Survey (BCS) self-completions. Traditionally, this has been because older people are sometimes less able or willing to use the laptop computers. There is evidence from the BCS that older respondents in the 16 to 59 age group are more likely to require interviewer assistance for the self-completion (see Budd and Mattinson, 2000). There is, however, also anecdotal evidence from interviewers and survey companies to suggest that this is increasingly less of a problem.

However, the decision to limit the upper age range has remained, primarily for research reasons. Inclusion of the 60 and over age group in modules relating to 'interpersonal violence' issues (such as sexual victimisation) is methodologically problematic. The issue of 'elder abuse' (in common with the issue of child abuse) tends to be explored in a different context, using dedicated surveys.

### Fraud Prevention

**Lynne Jones:** To ask the Secretary of State for the Home Department what progress the Department has made with the second phase of its project, begun in November 2004, to explore the benefits, feasibility and legal impediments of sharing public sector deceased person information with other public agencies and organisations involved in fraud prevention; and whether he intends to bring forward legislation on these matters in the current parliamentary session. [13662]

**Andy Burnham:** The project is largely complete and results suggest that there would be benefits in sharing public sector deceased person information with the private sector, but this may be constrained by existing legislation. In light of this, the Office for National Statistics is exploring the extent to which information can be shared under existing powers and practices. It is anticipated that examination of these options will be completed by autumn 2005.

### Gun Crime

**Lynne Featherstone:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the work undertaken with communities to tackle gun crime. [13734]

**Hazel Blears:** The Government consider that the involvement of communities in tackling gun crime is vital to resolving this complex issue. Organisations such as the Trident Independent Advisory Group have demonstrated their effectiveness in raising awareness in communities and of providing a means to ensure that the community plays a part in tackling the problem.

Where funding is provided, projects are monitored to ensure that they have effectively carried out the work for which the grant was made.

### Identity Cards

**Harry Cohen:** To ask the Secretary of State for the Home Department if he will modify ministerial statements, public documents and answers to parliamentary questions which refer to the privacy protection afforded by the Data Protection Act 1998 in the context of the identity card to alert the reader to the fact that the European Commission has formally expressed an opinion that the Data Protection Act 1998 is a defective implementation of Directive 95/46/EC; and if he will make a statement. [13167]

**Andy Burnham:** The Identity Cards Bill is fully compliant with the Data Protection Act 1998 and with Directive 95/46/EC—the provisions of which the Act (together with other provisions in UK law) accurately and proportionately reflects. We are in discussion with the European Commission about some issues in respect of the operation of the data protection regime in the UK, which result from their work in reviewing the way in which all member states have implemented the directive.

**Harry Cohen:** To ask the Secretary of State for the Home Department if he will introduce an amendment to modify the Identity Card Bill so that personal information from the national register associated with the identity card cannot be used by any public authority

for the purpose of the efficient and effective delivery of public services without the consent of the identity card holder; and if he will make a statement. [13169]

**Andy Burnham:** The Government will not introduce such an amendment. The Bill as drafted only allows information to be used without a person's consent by specified public authorities named on the face of the Bill, or others subsequently approved by Parliament. These arrangements will be subject to independent oversight.

**Mark Fisher:** To ask the Secretary of State for the Home Department whether the identity card will be a *(a)* contact and *(b)* contactless card. [12612]

**Andy Burnham:** It is currently planned that identity cards issued to British nationals eligible for a passport could be used by individuals for travel within Europe. In order to facilitate this, the card will need to meet standards established by the International Civil Aviation Organisation (ICAO), which require the card to be contactless in order to be considered a valid travel document.

In addition, we are also investigating whether it would be beneficial and cost effective to be compatible with other card reader national infrastructures, such as the Chip & PIN network, which requires contact card.

Thus it is possible that an identity card will function as both a contact and contactless card.

### Identity Theft

**Mr. Oaten:** To ask the Secretary of State for the Home Department pursuant to his Answer of 28 June 2005, *Official Report*, column 1458W, on identity fraud/theft, what definition *(a)* he and *(b)* the Association for Payment Clearing Services uses of identity theft. [10090]

**Mr. Charles Clarke:** The Home Office Identity Fraud Steering Committee, of which Association for Payment Clearing Services (APACS) is a member, has produced a high-level definition of identity crime, within which identity theft is defined broadly as occurring when sufficient information about an identity is obtained to facilitate identity fraud, irrespective of whether, in the case of an individual, the victim is alive or dead.

For their purposes, APACS consider identity theft on cards as occurring when a criminal uses fraudulently obtained personal information to open or access card accounts in someone else's name.

### National Offender Management Service

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what progress his Department is making with the proposed introduction of the National Offender Management Service. [9056]

**Fiona Mactaggart:** A NOMS Offender Management model has been developed to implement in both community and custodial sentences. A pathfinder in the north-west region has been operational since October 2004. The first evaluation report (Action Research) was published on 30 June 2005, and outlines the value of the north-west's testing of the model. The information gained is being fed into the implementation plans for prison and probation areas. A national offender manager and 10 regional offender managers have been appointed. The latter will play the main role in commissioning and will help to build partnership working locally.

### Passports

**Mr. Oaten:** To ask the Secretary of State for the Home Department whether the umbrellas purchased by the Passport Agency in the summer of 1999 for use by customers have been retained by the agency. [13210]

**Mr. Charles Clarke:** The UK Passport Service purchased 1,200 umbrellas in 1999 due to the abnormal situation of those calling personally at our offices having to queue in the rain. The appointment system that has operated in all offices since 2002 resulted in the umbrellas no longer being required and they were donated to the charity, Oxfam. In 2004–05, 94 per cent. of customers that applied personally were seen within 20 minutes of their appointment time. Customers' brief wait to be seen will normally be inside our office building.

**Lynne Jones:** To ask the Secretary of State for the Home Department pursuant to the answer of 12 July 2005, *Official Report*, column 911W, on passports, what the reasons are for the increase in the average unit cost of producing passports from 2005–06 to 2006–07. [13480]

**Andy Burnham:** The increase in the average unit cost of producing passports from 2005–06 to 2006–07 is due largely to the delivery of a number of key counter fraud initiatives in 2006–07 notably interviews for all first time adult applicants, linkages with other public sector databases and the full implementation of facial biometric passports.

### Payroll Giving

**Mr. Hollobone:** To ask the Secretary of State for the Home Department what steps he is taking to advertise and promote recent changes to the Payroll Giving Grants programme. [12364]

**Paul Goggins** *[holding answer 18 July 2005]:* There have been no changes to the Payroll Giving Grants Programme since its launch in January 2005. The programme is being promoted in a number of ways including: distribution of promotional materials; extensive media coverage; and the creation of an awards scheme.

### Police

**Ed Balls:** To ask the Secretary of State for the Home Department how many deaths in police custody occurred in *(a)* West Yorkshire police authority and *(b)* the UK in each year since 2001. [11823]

**Hazel Blears:** The total number of deaths of people during or following police custody are as follows:

| | *West Yorkshire police area* | *England and Wales*[1] |
|---|---|---|
| 2001–02 | 1 (0) | 21 (3) |
| 2002–03 | 1 (0) | 40 (8) |
| 2003–04 | 0 | 38 (7) |

[1] The statistics for deaths in police custody are collated for the period 1 April to 31 March.

*Note:*
The figures in brackets indicate the deaths that occurred within police stations.

The Home Office do not collate statistics on deaths during or following police custody for Scotland or Northern Ireland.

**Mr. Hollobone:** To ask the Secretary of State for the Home Department what guidance his Department gives to police forces on the employment of interpreters *(a)* from the National Register of Public Service Interpreters and *(b)* engaged through agencies. [13332]

**Hazel Blears** *[holding answer 19 July 2005]:* The Home Office has issued no advice on the employment of interpreters, which is an operational matter for chief officers of police.

**Mr. Dismore:** To ask the Secretary of State for the Home Department pursuant to his answer of 4 July 2005, *Official Report*, column 144W, when the Metropolitan Police commenced checking the list of names; how many officers are in the team which is doing the checking, broken down by rank; and if he will make a statement. [10461]

**Hazel Blears:** Since the War Crimes Unit was disbanded in 1999, the Metropolitan Police has continued to investigate all allegations of war crimes as and when they have arisen. Following receipt of the most recent allegations, it has now deployed a team of officers to investigate suspected Nazi War Criminals residing in the UK; this includes checking the list of 75 names against existing material. The team consists of a Senior Investigating Officer, an Investigating Officer, two Detective Sergeants, two Detective Constables, a Police Analyst and an Indexer.

### Pre-sentence Reports

**Mr. Amess:** To ask the Secretary of State for the Home Department where the information about convicted prisoners in pre-sentence reports originates. [8380]

**Fiona Mactaggart:** Pre-sentence reports (PSR) are informed by the Crown Prosecution Service court papers and there will normally be at least one face-to-face interview with the offender. Where the offender is already known to the probation service, probation files may also be used. Those consulted during the completion of a PSR will vary according to the needs of the case but might include social services, local authorities or other criminal justice agencies.

### Prisons

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the proportion of ethnic minority staff in public prisons were at 1 July. [12041]

**Fiona Mactaggart** *[holding answer 14 July 2005]:* At 30 June 2005, 5.6 per cent. of staff within public sector prisons, who have declared their ethnicity, were recorded as being from black and other minority ethnic groups.

### Retina Identification

**Mr. Burstow:** To ask the Secretary of State for the Home Department what assessment his Department has made of the accuracy of retina identification where a person is wearing contact lenses. [12536]

**Andy Burnham:** The Home Office is not proposing to use retina identification but may deploy iris identification.

We do not believe that iris identification will present difficulties for the average contact lens wearer.

### Secure Training Centres

**Ms Keeble:** To ask the Secretary of State for the Home Department pursuant to the answers of 11 July 2005, *Official Report*, column 790W and 11 July 2005, *Official Report*, column 791W, what the reasons were for the discrepancies in figures for total hospital admissions compared with admissions to hospital for illnesses and non-accidental injuries in Rainsbrook in 2002, 2003 and 2004 and in Hassenfield in 2003 and 2004. [12130]

**Fiona Mactaggart:** The answer to question 1567 11 July 2005, *Official Report*, column 790W gave total figures for admissions to hospital. The answer to question 1568 11 July 2005, *Official Report*, column 791W provided details of young people admitted because of illness and those admitted for treatment of non-accidental injuries. The difference between the figures in the answer to question 1567 and the totalled figures in the answer to question 1568 is accounted for by: *(a)* the additional category of admissions for the treatment of accidental injuries; and *(b)* the fact that one of the young people from Rainsbrook who went to hospital because of illness in 2004 was admitted twice. A full breakdown of admissions by establishment is given in the following table:

*Hospital admissions of secure training centre trainees 2001–05, broken down by reason for admission*

| | *Admissions to hospital 2001 to 2005* | | | | |
|---|---|---|---|---|---|
| *STC* | *2001* | *2002* | *2003* | *2004* | *2005*[1] |
| *Due to illness* | | | | | |
| Medway | 2 | 1 | 1 | [2]2 | [2]2 |
| Rainsbrook | 1 | 2 | 2 | [4]5 | 1 |
| Hassockfield | 0 | 1 | 0 | 1 | 0 |
| Oakhill[3] | — | — | — | 0 | 0 |
| *Due to non accidental injuries* | | | | | |
| Medway | 0 | 1 | 1 | 1 | 0 |
| Rainsbrook | 1 | 0 | 0 | 0 | 0 |
| Hassockfield | 0 | 0 | 0 | 0 | 0 |
| Oakhill[3] | — | — | — | 0 | 0 |

*Hospital admissions of secure training centre trainees 2001–05, broken down by reason for admission*

| STC | Admissions to hospital 2001 to 2005 | | | | |
|---|---|---|---|---|---|
| | 2001 | 2002 | 2003 | 2004 | 2005[1] |
| *Due to accidental injuries* | | | | | |
| Medway | 0 | 0 | 0 | 0 | 0 |
| Rainsbrook | 0 | 2 | 1 | 0 | 0 |
| Hassockfield | 0 | 0 | 1 | 1 | 0 |
| Oakhill[5] | — | — | — | 0 | 0 |

[1] Up to 27 May.
[2] Includes one termination of pregnancy.
[3] Includes one termination of pregnancy.
[4] One young person was admitted twice.
[5] Oakhill opened 19 August 2004.

### Sentencing

**Dr. Vis:** To ask the Secretary of State for the Home Department (1) how many people remanded into custody were given community penalties in each of the last five years; [1830]

(2) how many convicted but unsentenced people remanded into custody were given a custodial sentence in each of the last five years; [1831]

(3) how many people remanded into custody were given a custodial sentence in each of the last five years; [1832]

(4) how many people remanded into custody in each of the last five years were *(a)* acquitted and *(b)* had cases which were not proceeded with. [1836]

**Fiona Mactaggart:** The final court outcomes for persons proceeded against and remanded in custody at some stage in magistrates courts and the Crown court in each year from 1999 to 2003 is provided in the table. Information relating to the number of offenders committed for sentence to the Crown court from 1999 to 2003 is also provided.

*Persons on remand committed for sentence to the Crown court who were given custodial sentences, England and Wales*

*Persons (Thousand)*

| | Final court outcome | |
|---|---|---|
| | Remanded in custody[1] | Of which: Immediate custody |
| 1999 | 7.4 | 5.6 |
| 2000 | 6.8 | 5.3 |
| 2001 | 6.3 | 4.8 |
| 2002 | 7.6 | 5.7 |
| 2003 | 7.5 | 5.4 |

[1] Includes those remanded for part of the time in custody and part on bail.

## CONSTITUTIONAL AFFAIRS

### Court Service Computer System

**Mr. Greg Knight:** To ask the Minister of State, Department for Constitutional Affairs what the total cost has been to date of the computer system Xhibit used by the Court Service in Lincoln; whether she plans to introduce the system in other courts; what estimate she has made of the total cost of rolling out such a system in England and Wales; what assessment she has made of the *(a)* effectiveness and *(b)* reliability of such a system; and if she will make a statement. [10735]

**Ms Harman:** XHIBIT (eXchange Hearing Information By Internet Technology) was first used at Lincoln Crown Court on 11 April 2005. The Department is paying a fixed cost for the development and introduction of XHIBIT to all courts in England and Wales, and so is not charged on an individual court basis. XHIBIT will be in use in all 101 Crown court centres across England and Wales by April next year. The total charge to introduce and operate the system will be £20 million.

The decision to introduce nationally was based on pilots in Essex and at Snaresbrook Crown Court. These pilots, along with an assessment of the first 11 courts to receive XHIBIT, is showing that the new system is making Crown courts more effective. For example, it reduces the clerical effort required to capture and distribute hearing information, such as, results, bail orders and imprisonment orders. Previously, such information took days to reach other criminal justice agencies, now they can get it in minutes allowing them to operate better. Local assessment of XHIBIT's effectiveness in Lincoln is scheduled for September 2005. XHIBIT's reliability is currently above that which the supplier is contracted to provide. This is monitored on a daily basis by the XHIBIT National Support Centre.

### Data Protection Act

**Harry Cohen:** To ask the Minister of State, Department for Constitutional Affairs if she will introduce legislation to modify the Data Protection Act 1998 so that *(a)* the enforcement powers of the Information Commissioner under the Data Protection Act 1998 are equivalent to those of most other European Data Protection Commissioners, *(b)* the definition of personal data is broadened so that it reflects that of the Directive 95/46/EC and the intent of Article 8 of the Human Rights Act, *(c)* the provisions in the Data Protection Act 1998 which pertain to the transfer of personal data outside the European Economic Area reflect those provisions in most data protection laws enacted by other member states of the European Union, *(d)* there is a guarantee of the right of access to personal data in the UK, *(e)* moderately structured manual records about employees are reclassified as accessible

records so that such records qualify for the protection afforded by the Act and *(f)* CCTV systems which record the actions of identifiable individuals are subject to data protection; and if she will make a statement. [13163]

**Bridget Prentice:** We currently have no plans to modify the Data Protection Act 1998, as the Act properly and proportionately implements Directive 95/46/EC. The Act includes the powers available to the Information Commissioner; the definition of personal data (which is already relatively broad, as the directive requires it to be); the provisions relating to transfer of personal data outside the European Economic Area; the guarantee of the right of subject access (except where the Act provides legitimate exemptions, as allowed by the directive); and the position of structured manual records (where the directive makes clear that a high degree of structure must be involved). The full provisions of the Act also apply to CCTV systems recording the actions of identifiable individuals, as such information is clearly personal data within the meaning of the legislation.

## Safety Cameras

**Mr. David Jones:** To ask the Minister of State, Department for Constitutional Affairs what guidance is given to *(a)* the Crown Prosecution Service and *(b)* the Court Service with regard to participation in safety camera partnerships. [11712]

**Dr. Ladyman:** I have been asked to reply.

Safety Camera Partnerships consist of local authorities, the police, the magistrates courts and other local stakeholders.

The Department for Transport issues a Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales which defines the rules and guidelines that partnerships are required to follow in order to participate in the netting off arrangement. The Handbook for 2005–06 can be found in the Library of the House and on the Department for Transport website, www.dft.gov.uk. No further guidance beyond that in the Handbook is issued by the Department to the Crown Prosecution Service or Courts Service.

## TRANSPORT

### A14 (Kettering)

**Mr. Hollobone:** To ask the Secretary of State for Transport pursuant to the answer of 7 July 2005, *Official Report*, column 612W, on traffic statistics, what options the Highways Agency is considering for resolving the bottleneck on the A14 around Kettering; and what the timetable is for feasibility studies. [13620]

**Dr. Ladyman:** The Secretary of State's July 2003 response to the London to South Midlands Multi Modal Study recommendations to widen the A14 through the East Midlands to dual three lanes, tasked the Highways Agency (HA) with further work on the A14 Kettering Bypass section of the route.

The HA has commissioned an options study, and is currently gathering information and constructing a transport model for the area. The study is expected to report in February 2006. HA will then present the study's findings in spring/summer 2006 for a decision on how to proceed.

The traffic data requested are as follows. Further counts are being undertaken, which will be presented with the study.

*Traffic counts*

Traffic data are measured by automatic counters embedded in the A14 carriageway at three locations in the greater Kettering area. The data for the two most recent years are provided as follows, as average annual weekday traffic, rounded figures.

| | *Welford (A14 J0–1)* | *Kettering (A14 J8–9)* | *Thywell (A14 J11–12)* |
|---|---|---|---|
| 2003 | 44,700 | 70,000 | 44,200 |
| 2004 | 47,300 | 70,900 | 45,500 |
| Increase | +2,600 | +900 | +1,300 |

### Aviation (Complaints)

**Mr. Duncan:** To ask the Secretary of State for Transport how many complaints his Department has received about *(a)* night flights, *(b)* aircraft noise and *(c)* aircraft pollution in each year since 1997, broken down by (i) airport, (ii) Government Office Region and (iii) constituency. [12750]

**Mr. Darling:** Complaints about night flights, aircraft noise and pollution (as distinct from representations about policy) are properly a matter for individual airports, many of which regularly publish their own summary statistics of complaints or enquiries. The Department also receives a number of representations direct from members of the public or via Members of Parliament and, in responding, is able to comment on the Government's overall policy on these matters. The Department does not operate a 'complaints database' and could not provide information in the form requested.

### Bus Lanes (Motorcycles)

**Bill Wiggin:** To ask the Secretary of State for Transport if he will amend his Department's Local Transport Note 1/97, Keeping Buses Moving to take account of schemes which allow motorcycles to use bus lanes. [12922]

**Ms Buck:** Although Local Transport Note 1/97 recommends against generally allowing motorcycles to use bus lanes because of concerns for the safety of other road users, particularly cyclists and pedestrians, and of motorcyclists themselves, it remains open to local authorities to permit this if they consider it appropriate. The Department will be reviewing the Local Transport Note advice but is awaiting the results of monitored trials by Transport for London before doing so.

Initial indications from the trials were that the number of collisions involving motorcycles during bus lane operating times increased when motorcycles were allowed in. Transport for London has extended the duration of the trial to gather more robust data before drawing conclusions. It is anticipated that 36-months of casualty data will be available for the trials in March 2006.

### Container Handling Capacity

**Mrs. Dunwoody:** To ask the Secretary of State for Transport whether he expects there to be a shortfall in the UK's container handling capacity in *(a)* 2005–06 and *(b)* 2006–07. [13242]

**Dr. Ladyman:** The Department has not produced such an assessment and it is primarily for individual ports to assess their capacity requirements against short-term traffic expectations.

The Department has now commissioned consultants to produce national port traffic forecasts looking ahead to 2030, covering container and other major traffic sectors.

### Delayed Traffic Light Phasing

**Anne Main:** To ask the Secretary of State for Transport what assessment he has made of the impact of delayed traffic light phasing on *(a)* traffic management, *(b)* pedestrian safety, *(c)* noise pollution and *(d)* air quality; and if he will make a statement. [13404]

**Ms Buck:** Urban traffic control techniques are a key part of the delivery of sustainable local transport. The introduction of traffic signal control at individual junctions or over wide areas often requires a balance of the conflicting demands of vehicular traffic capacity and provision for vulnerable users such as pedestrians.

Studies have shown that good, coordinated traffic signal operation can reduce delays to traffic which in turn can lead to reductions in pollution. Benefits will vary from site to site but typical delay reductions due to coordinated operation under the SCOOT urban traffic control system, used in many UK towns and cities, compared with un-coordinated operation were measured as 23 per cent. in Worcester and 30 per cent. in Southampton.

The Department commissioned a research project in 2003 to explore how casualty rates for pedestrians and cyclists are affected by traffic signal control strategies ways of operating. It is intended that the findings of the project will form good practice guidance for local highway authorities who have responsibility for managing traffic in urban areas. The project is due to report around the end of 2005.

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for Transport if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11732]

**Ms Buck:** Information in respect of companies from which the Department for Transport has purchased goods and services with a total value in excess of £1 million has been placed in the Libraries of both Houses.

Separate figures are provided for the central Department and each executive agency. Details of companies where spend by the central Department and executive agencies is greater than £1 million in aggregate, but less than £1 million separately, are not held centrally and could be obtained only at disproportionate cost.

### Departmental Staff/Targets

**David T.C. Davies:** To ask the Secretary of State for Transport how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11525]

**Ms Buck:** The information is available in table C of Civil Service Statistics 2004 which is available on the internet at http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls.

This table shows the numbers of staff by Department and agency between 1998 and 2004, on a full-time equivalent basis. Copies of Civil Service Statistics are also available in the Library.

**Mr. Amess:** To ask the Secretary of State for Transport if he will list the targets that his Department has set for itself during the next 12 months. [12269]

**Ms Buck:** Public service agreement (PSA) targets are set every two years as part of the spending review. The Department's current set of PSA targets were set in spending review 2004 and came into effect in April 2005. All PSA targets and performance against them are reported in our annual reports and autumn performance reports, as well as on the Department's website.

### Hydrogen Fuel Cell Buses

**Bill Wiggin:** To ask the Secretary of State for Transport for how long the hydrogen fuel cell buses pilot scheme has been running; what the cost is; when the pilot is due to end; and what estimate has been made of the cost of *(a)* purchasing, *(b)* running and *(c)* maintaining (i) a hydrogen fuel cell bus and (ii) an ordinary bus. [12856]

**Dr. Ladyman:** The trial began in January 2004 and is due to finish in December 2005, although London and seven other cities taking part in similar trials are currently in discussions with the European Commission about extending the project for a further year.

We estimate that the total costs of the London trial will amount to over £3 million. Costs have been shared among a number of partners. The European Commission provided just over £1 million of support, and the UK Government provided just under £500,000 through the Department for Transport's New Vehicle Technology Fund programme. The trial was overseen by Transport for London and a number of other project partners provided financial and other support including London Bus Services Ltd., FirstGroup, Daimler-Chrysler, Ballard, BP and the Energy Savings Trust.

Comparing the purchase, maintenance and running costs of the hydrogen fuel cell buses against conventionally fuelled buses is neither straightforward nor meaningful. The hydrogen fuel cell buses are prototype vehicles which are not mass produced or commercially available. The approximate cost of each fuel cell bus was around £900,000, which is some seven times the cost of a similar, new diesel bus, but this cost included maintenance costs for the duration of the trial. As to running costs, the hydrogen fuel was granted a fuel duty exemption for the duration of the trial, making a direct comparison with the costs of diesel fuel difficult.

### Investment Priorities

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport if he will make a statement about his priorities in investment over the next year. [13208]

**Ms Buck:** The Department for Transport's investment priorities for next year were published on 4 July 2005 in the DfT business plan, "Delivering better transport: Priorities for 2005–06 to 2007–08." The plan was developed in the context of our long-term strategy which was published in the 2004 "Future of Transport" white paper.

Priority projects for the plan period include the completion of section 2 of the Channel Tunnel Rail Link, widening key sections of the M25, and progressing the West Coast Main Line upgrade.

### Light Rail Schemes

**Mr. Duncan:** To ask the Secretary of State for Transport if he will list the light rail schemes which have commenced construction since 1997. [12745]

**Mr. Darling:** The following light rail schemes have commenced construction since 1997:

Manchester Metrolink Phase II (to Eccles), 1997.

Tyne and Wear Metro Sunderland extension, 2000.

Nottingham Express Transit , 2000.

Docklands Light Railway extension to London City Airport , 2002.

Docklands Light Railway extension to Woolwich Arsenal, 2005.

Some advanced works have also been undertaken since 1997 for the following proposed schemes: Manchester Metrolink Phase III extensions; Merseytram; Leeds Supertram.

## Lorry Road User Charge

**Mr. Duncan:** To ask the Secretary of State for Transport when he expects a Lorry Road User Charge to commence operation in the UK. [12867]

**Mr. Darling:** I announced to the House on 5 July that we will take forward work on distance-based lorry charging as part of our wider work on road pricing. We will continue to work with the haulage industry to ensure that its needs are represented as we develop a national road pricing system.

## Motorways

**Mr. Greg Knight:** To ask the Secretary of State for Transport (1) when the *(a)* M1, *(b)* M18 and *(c)* M62 motorways between London and Hull will be devoid of roadworks; [12374]

(2) how many stretches of motorway on the *(a)* M1, *(b)* M18 and *(c)* M62 between London and Hull have been affected by (i) lane closures and (ii) motorway repair or construction work in the last month; for what reason such works were not phased to take place consecutively; and if he will make a statement; [12375]

(3) what his policy is regarding the phasing of roadworks on motorways so that those undertaking long journeys are not faced with repeated motorway lane closures. [12376]

**Dr. Ladyman:** The Highways Agency has a duty to keep the network under review and to carry out works to ensure the safety of the travelling public. This will include planned maintenance and improvements as well as emergency repairs.

The following stretches of the motorway on the M1, M18 and M62 between London and Hull were affected by (i) lane closures and (ii) motorway repair or construction work in the last month:

*M1 Motorway*

| *Date/Time* | *Location* | *Description* |
|---|---|---|
| 29 June 2005 21.00–04.00 | M1 J32 Northbound | Lane 3 closure for barrier repairs |
| 3 July 2005 10.12–11.05 | M1 J25–24A, Southbound, Nottinghamshire | Lanes 2 and 3 closed after Southbound entry sliproad—Road Traffic Collision involving three vehicles |
| 12 July 2005 22.00–06.00 | M1 J32 Northbound | Hardshoulder and Lane 1 closure to install South Yorkshire CCTV. |
| 12 July 2005 22.00–06.00 | M1 J32 Southbound | Hardshoulder and Lane 1 closure to install South Yorkshire CCTV |
| 12 July 2005 20.23–05.52 | M1 J25 ½ mile before J25 Southbound | Lane 1 and 2 closed road traffic collision involving heavy goods vehicle |
| 13 July 2005 21.00–04.00 | M1 J31 Northbound and Southbound | Lane 3 closure for barrier repairs. |
| 4 May-end August | M1 J29–30 Northbound and Southbound | Major maintenance work commenced on 4 May and is due for completion by the end of August. The work involves the replacement of worn out carriageway. Three lanes are maintained at peak times in the day and mainly two at night with certain works reducing this to one lane at night. All the work is done at night. |
| 14 June-14 July | M1 Junctions 8–19 | 59 Planned closures of varying lengths . All lane closures were overnight and mainly for routine maintenance works (lighting, signs, inspections etc.) |

*M18 Motorway*

| *Date/Time* | *Location* | *Description* |
|---|---|---|
| 13 June 2005 09.30–15.30 | M18 Jet 4 Southbound entry | Lane 2 closure to carry out barrier repairs |
| 13 June 2005 21.00–04.00 | J1 Northbound and Southbound | Lane 3 closure to carry out barrier repairs |
| 17 June 2005 10.00–15.30 | J7 Northbound | Hardshoulder and Lane 1 closure to carry out a Principal Inspection |
| 27–30 June 2005 21.00–06.00 | M18 J3–5 Northbound and Southbound | Various lane closures to install Cyclic and Road Studs |
| 8–14 July 2005 20.00–06.00 | M18 J7–6 Northbound and Southbound | Various lane closures to carry out concrete repairs |
| 11 July 2005 09.30–15.30 | M18 J3 Southbound | Hardshoulder closure to carry out barrier repairs |
| 11 July 2005 09.30–15.30 | M18 J5 Northbound | Hardshoulder closure to carry out barrier repairs |
| 12 July 2005 22.00–06.00 | M18 J3 Northbound | Hardshoulder and Lane 1 closure to install South Yorkshire CCTV |
| 12 July 2005 22.00–06.00 | J6-Southbound Entry | Hardshoulder and Lane 1 closure to install South Yorkshire CCTV |
| 13 July 2005 21.00–04.00 | M18 J2 Roundabout | Lane 2 closure to carry out barrier repairs. |

*M62 Motorway*

| *Date/Time* | *Location* | *Description* |
|---|---|---|
| 1–30 June 2005 | M62 J37–38 Gilberdyke to Newport | Various 24 hour lane closures major works to resurface of concrete carriageway |
| 6–30 June 2005 09.30–15.30 and 21.00–04.00 | M62 J34–38 | Lane 3 and hardshoulder closures |
| 17 June 2005 09.30–15.30 | M62 J37–36 Westbound | Hardshoulder closure to carry out barrier repairs |
| 29 June 2005 09.30–15.30 and 21.00–04.00 | M62 J36 Eastbound and Westbound | Lane 3 closure to carry out barrier repairs |
| 9 July 2005 07.00–11.00 | M62 J36 Eastbound and Westbound | Lane 3 closure to carry out barrier repairs |

The need to carry out works in a way that ensures the safety of the travelling public means that it is not always possible to carry out planned works consecutively.

To minimise disruption all planned routine maintenance works to the motorway network are carried out at night, when traffic volumes are at their lowest. These works are generally phased so that there are at least 10 kilometres between each set of works. Roadworks are also planned so that the length of road restricted by traffic management is generally no greater than 4.5 kilometres in length. There will be times when the application of this restriction may be untenable or unsafe and in such cases the impact on the travelling public is of primary concern when considering whether adjacent schemes should go ahead concurrently.

It is sometimes necessary to close lanes on the motorway at short notice due to incidents. The Agency aims to keep these closures and disruption to a minimum. Likewise when major maintenance is necessary lanes are closed over a period of time. Any associated routine maintenance works are undertaken during these periods in order to avoid further inconvenience to motorists and to minimise the safety risks for our workforce.

**Mr. Greg Knight:** To ask the Secretary of State for Transport what representations he has received in the last 12 months concerning the rules and restrictions which are in place in respect of motorway service areas; what plans he has to change them; and if he will make a statement. [12873]

**Dr. Ladyman:** In the last 12 months the Department has received representations concerning the regulations governing motorway service areas from a number of bodies including: the motorway service area operators, the road haulage industry, the RAC foundation, the AA Motoring Trust and the Association of Chief Police Officers.

**Mr. Greg Knight:** To ask the Secretary of State for Transport why fencing is being erected adjacent to the northbound carriageway of the M1 motorway, north of Junction 11 where the motorway abuts open fields. [12875]

**Dr. Ladyman:** The fencing in question is immediately to the north of housing in Leagrave. It is being provided as part of the second phase of a scheme specifically designed to bring effective noise protection to residential properties in Luton adjacent to M1 between junctions 10 and 12.

**Mr. Greg Knight:** To ask the Secretary of State for Transport for what reason the M1 motorway was closed between junctions 34 and 35 on 7 July; for how long the motorway was closed; and on whose authority it was closed. [13595]

**Dr. Ladyman:** The northbound carriageway of the M1 between junctions 34 and 35 was closed from 11 pm on 7 July until 5 am on 8 July in connection with ongoing works at Tinsley Viaduct. The closure took place to enable concreting works in the hard shoulder to be carried out safely and was authorised and agreed by the Highways Agency.

### Moving Vehicles (Music Volume)

**Mr. Amess:** To ask the Secretary of State for Transport if he will introduce legislation to control the playing of loud music from a moving vehicle; and if he will make a statement. [13618]

**Dr. Ladyman:** Legislation already exists to deal with this problem. Under regulation 97 of the Road Vehicles (Construction and Use) Regulations 1986, it is an offence to use a motor vehicle on the road in such a manner as to cause any excessive noise which could have been avoided by the exercise of reasonable care on the part of the driver. Enforcement of these powers is a matter for the police.

### Passenger Transport (Fuel Consumption)

**Mr. Brazier:** To ask the Secretary of State for Transport what the average fuel consumption in miles per gallon per passenger was for *(a)* commercial buses, *(b)* trains and *(c)* UK airlines for typical load factors and for typical journey distances for the most recent year for which information on each mode is available. [12964]

**Ms Buck:** It is only possible to give broad estimates of fuel consumption per passenger mile since the estimates depend on assumed passenger loading factors and average fuel consumption of each mode of transport.

| *Transport mode* | *Load factor (passengers per vehicle)* | *Fuel consumption (miles per gallon per passenger)* |
|---|---|---|
| Buses (national) | 9 | 98 |
| Passenger rail (diesel) | 90 | 182 |
| Air long haul | [1]300 | 66 |
| Air short haul | [1]100 | 40 |

[1] Approximately.

Fuel consumption estimates for buses are based on National Atmospheric Emissions Inventory (NAEI) estimates combined with road passenger kilometres taken from the 2002 Transport Statistics for Great Britain. Rail factors are also based on NAEI factors for diesel trains and the Department for Transport's statistics on rail passenger kilometres. Air factors are taken from DETR's Company GHG Reporting

Manual 1999. Long haul journeys refer to average journeys of 6,500 km and short haul refers to journeys of around 500 km.

All data has been converted into miles per gallon using information on the carbon content and density of the different fuel types.

### Public Transport

**Anne Main:** To ask the Secretary of State for Transport how many extra *(a)* bus routes, *(b)* train services, *(c)* community bus services and *(d)* other forms of public transport provision have been provided in (i) St. Albans and (ii) Hertfordshire since 1997; and if he will make a statement. [13402]

**Ms Buck:** We do not have information on the number of new bus routes in Hertfordshire provided by bus operators on a commercial basis or by the local authority using Revenue Support Grant or other funding.

Hertfordshire has however been able to use the Department's Rural Bus Subsidy Grant, first introduced in 1998, to provide rural bus services. The county's allocation for 2005–06 is £709,000, which is currently supporting 14 bus services, three of which serve the St. Albans district council area.

In addition between 1998 and 2003 the Department's Rural Bus Challenge scheme awarded funding for nine projects in Hertfordshire, totalling over £1.6 million. Three of these were for community transport schemes and one provided services in the St. Albans area. Neither of the above bus grants scheme were available in 1997.

Hertfordshire has also benefited from the continuing implementation of the West Coast Project with improved intercity journey times from Watford Junction, new rolling stock on West Coast trains and Silverlink, and longer platforms capable of taking 12 car trains.

The Thameslink service from St. Albans to central London, the Monday-Friday morning peak service has since 1997 been enhanced from nine to 11 trains per hour, and the Sunday service from four to six trains per hour.

**Dr. Pugh:** To ask the Secretary of State for Transport whether any feasibility study has been done *(a)* by his Department and *(b)* bodies working in conjunction with the Department on the practicality of installing devices capable of detecting the presence of explosives at underground or railway stations. [12495]

**Ms Buck:** The Department keeps developments on current and possible future protective security regimes including screening technologies under constant review. It is not our policy to comment on such detail.

**Dr. Pugh:** To ask the Secretary of State for Transport what discussions his Department has had with the Israeli government concerning security on public transport systems. [12497]

**Ms Buck:** The Department has discussed a wide range of transport security issues with Israel and other governments over the years. It is not our policy to comment on such detail.

### Railways

**Alan Simpson:** To ask the Secretary of State for Transport what plans he has to award freight grants to encourage hauliers to place more freight on rail. [12743]

**Derek Twigg:** The Department for Transport currently operates three schemes to encourage modal shift from road to rail. These are as follows:

*Track Access Grant:*

Provides revenue support for the movement of non-containerised goods by rail.

*Company Neutral Revenue Support:*

Provides revenue support for the movement of containerised traffic by rail.

The Department has made available funding of approximately £25 million per annum for 2005–06 and 2006–07 to support both of the above schemes. Both of the schemes remain open for new applications.

The third scheme is the Freight Facilities Grant, which is available for the construction of rail facilities to enable the movement of primary aggregates by rail instead of road. This scheme is currently funded through DEFRA's Aggregate's Levy Sustainability Fund and we expect up to £2 million to be available for rail over the next two years.

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what plans he has to increase investment to the Coventry and Nuneaton Rail Line. [13207]

**Derek Twigg:** I understand that three separate studies are currently considering transport provision along this corridor. These are: the Light Rapid Transit study being led by Centra; the Coventry, Solihull, Warwickshire Transport and Regeneration Study; and a Heavy Rail study commissioned by Warwickshire county council. Each of these pieces of work is nearing completion. It would be premature for me to form a view on the necessary investment or otherwise in advance any consideration of these studies.

**Lynne Featherstone:** To ask the Secretary of State for Transport how many miles of railway in England will be closed in the next *(a)* three and *(b)* five years; and if he will make a statement. [8688]

**Derek Twigg:** It is not possible to provide the figures in the format requested, as there are currently no new proposals to close any railway lines.

**Bob Spink:** To ask the Secretary of State for Transport what representations he has received from the Association of Train Operating Companies on congestion charging for rail travel. [9279]

**Derek Twigg:** No representations on congestion charging for rail travel have been received from the Association of Train Operating Companies.

### Regulation

**Mr. Geoffrey Robinson:** To ask the Secretary of State for Transport what the average time taken by his Department to draft regulations following primary legislation was in 2004–05. [13772]

**Ms Buck:** The information requested could be provided only at disproportionate cost.

### Renewables Transport Fuel Obligation

**Mr. Laurence Robertson:** To ask the Secretary of State for Transport what plans he has to apply the Renewables Transport Fuel Obligation; and if he will make a statement. [13162]

**Dr. Ladyman:** The Government are currently considering whether an obligation might be an appropriate mechanism to support the introduction of renewable road transport fuels, but no decision has yet been taken.

### Road Haulage Forum

**Mr. Duncan:** To ask the Secretary of State for Transport how many times the Road Haulage Forum has met in each year since its establishment. [12748]

**Mr. Darling:** The Road Haulage Forum has met on 17 occasions to date, as shown in the table.

| | *Road haulage forum meetings* |
|---|---|
| 1999 | 8 April, 19 July, 6 September, 8 December |
| 2000 | 9 February, 17 April, 26 July, 19 October, 14 November |
| 2001 | 19 February, 5 July |
| 2002 | 28 January, 23 October |
| 2003 | 11 September |
| 2004 | 26 April, 9 December |
| 2005 | 29 June |

### Roads Budget (Milton Keynes)

**Mr. Lancaster:** To ask the Secretary of State for Transport how much central funding Milton Keynes unitary authority has received for its roads budget in each year since 1997. [12917]

**Dr. Ladyman:** The Department for Transport has approved approximately £18.6 million of funding support for Milton Keynes unitary authority between April and March 2005 in local transport capital settlements. Approximately £10.9 million has been for capital highways maintenance and £7.7 million for local improvements to the road network and roads based public transport.

In addition central funding support for services, including routine highways services, is provided through revenue support grant. This is not allocated by the Government between individual council services.

The funding support provided directly to Milton Keynes unitary authority through the local transport capital settlement for each year is shown in the following table. It has been for Milton Keynes unitary authority to determine exactly how these allocations are spent, in line with its local transport plan and priorities.

*Milton Keynes unitary authority local transport capital settlement*

£000

| | *Capital highways maintenance* | *Integrated transport block* | *Major schemes* | *Total* |
|---|---|---|---|---|
| 1997–98 | 173 | 60 | 0 | 233 |
| 1998–99 | 694 | 169 | 0 | 863 |
| 1999–2000 | 920 | 523 | 0 | 1,443 |
| 2000–01 | 1,279 | 729 | 0 | 2,008 |
| 2001–02 | 2,069 | 1,600 | 0 | 3,669 |

*Milton Keynes unitary authority local transport capital settlement*

£000

| | *Capital highways maintenance* | *Integrated transport block* | *Major schemes* | *Total* |
|---|---|---|---|---|
| 2002–03 | 2,194 | 1,601 | 0 | 3,795 |
| 2003–04 | 1,645 | 1,510 | 0 | 3,155 |
| 2004–05 | 1,920 | 1,555 | 0 | 3,475 |

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Transport how many days the Department has lost due to sickness in the past five years for which figures are available. [11474]

**Ms Buck:** The Department for Transport was established following machinery of Government changes on 29 May 2002.

The annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office in November 2004 contains reported sickness absence data for the calendar year 2003 for the Department and its agencies.

Table A of the report gives details of both the average working days absence per staff year and the number of staff years on which that calculation is based on. Reports for earlier years are available on the Cabinet Office website.

From our internal recording process the total number of days recorded as sick across the Department including its agencies for 2004 is 175,860.

The Department is committed to managing sick absence effectively and to putting in place the recommendations of the "Managing Sickness Absence in the Public Sector" report. The DfT board takes an active interest in the issue of attendance management.

### South West Trains

**Mr. Hancock:** To ask the Secretary of State for Transport what plans he has to change the process for awarding the franchise held by South West Trains. [9073]

**Derek Twigg:** The award of the South Western franchise to replace the existing South West Trains and Island Line franchises in February 2007 will follow a similar process to that adopted for the Greater Western and Thameslink/ Great Northern replacements currently out to market. The process is set out in "Franchise Replacement Process, June 2005", which is available on the SRA website.

### Speed Cameras

**Mr. Scott:** To ask the Secretary of State for Transport how many speed related accidents occurred in *(a)* each of the three years before and *(b)* each year since the introduction of the speed camera at the southern end of the M11. [11962]

**Dr. Ladyman:** Tables highlighting accident data for the southbound carriageway of the M11 between Junctions 5 and 4 in the location of the camera are shown in the table. The tables show speed related injury

accidents since 1998, three years prior to installation of the camera, and for three years after its introduction. The camera was installed in May 2001.

*Before the camera was installed*

| | *Number of accidents* | *Number speed related* | *Speed accident injuries* |
|---|---|---|---|
| From Sept 1998 | 3 | 1 | 1 slight |
| 1999 | 3 | 3 | 2 slight, 1 severe |
| 2000 | 4 | 1 | 1 slight |
| To May 2001 | 0 | 0 | 0 |
| Total | 10 | 5 | 5 |

*After the camera was installed*

| | *Number of accidents* | *Number speed related* | *Speed accident injuries* |
|---|---|---|---|
| From June 2001 | 5 | 3 | 2 slight, 1 severe |
| 2002 | 5 | 3 | 1 slight, 2 severe |
| 2003 | 4 | 1 | 1 severe |
| To August 2004 | 4 | 4 | 3 slight, 1 severe |
| Total | 18 | 11 | 11 |

Although numbers of speed related accidents have increased since the installation of the camera, traffic flows have also significantly increased on this section of M11. However, because there has been a significant growth in traffic over this period the accident rate on this section has dropped overall, and is lower than the national average for a motorway.

The need for further safety measures on this section of road is continuously reviewed as is the need for the existing speed camera.

**Mr. David Jones:** To ask the Secretary of State for Transport how many drivers have been penalised in the North Wales Police force area in each of the last three years as a result of detection by *(a)* fixed and *(b)* mobile speed cameras. [12602]

**Dr. Ladyman:** The Department does not record fines paid, by camera type (fixed/mobile) but only records total fines received. In the last three audited years, the number of fixed penalty fines paid as a result of detections by safety cameras in the North Wales police force area was:

2001–02: 10,813

2002–03: 43,484

2003–04: 56,247

### Tonnage Tax

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what assessment he has made of the possible effects on the UK economy of a requirement for beneficiaries of the tonnage tax to employ only UK officers and crew. [13243]

**Dr. Ladyman:** No such assessment has been made. Under EU anti-discrimination law, we cannot reserve jobs solely for UK seafarers but have to include European economic area nationals as well.

### Uninsured Drivers

**Mr. Ian Austin:** To ask the Secretary of State for Transport what plans he has to use *(a)* the Driver and Vehicle Licensing Agency and *(b)* motor insurance databases to reduce the number of uninsured drivers. [12616]

**Dr. Ladyman:** Following the report on uninsured driving by Professor David Greenaway we commenced actions which will use both the DVLA and motor insurance databases to tackle the problem of uninsured driving.

The police already make considerable use of the motor insurance database (MID) to help detect uninsured driving. However we introduced in the Serious and Organised Crimes Act 2005 provisions to improve police access to the MID. This will enable them to have data on uninsured vehicles for use with their automatic number plate recognition (ANPR) equipment. This should significantly improve their detection capabilities. We plan to have the necessary regulations in place by autumn this year.

### Vehicle Registration

**Mrs. Spelman:** To ask the Secretary of State for Transport pursuant to the answer of 7 July 2005, *Official Report*, column 613W, on Vehicle Registration, what changes there have been to the requirement or option to submit V28 forms to the Driver and Vehicle Licensing Agency since 1996. [13193]

**Dr. Ladyman:** No changes have been made in this period to the requirement for local authorities or other enforcement agencies to notify DVLA on the V28 form of abandoned vehicles. The form was modified earlier this year to remove the option to notify a vehicle as "scrapped". This follows the introduction of the End of Life Vehicle Regulations 2003 which require cars and light vans to be disposed of through authorised treatment facilities.

### Yellow School Buses

**Alison Seabeck:** To ask the Secretary of State for Transport what assessment his Department has made of the effect of the yellow school bus pilots on traffic congestion. [13361]

**Ms Buck:** We know from our evaluation of various small-scale yellow and other dedicated school bus schemes that well-designed schemes have the potential to reduce car dependency for journeys to school and the traffic congestion that results from this. However, care needs to be taken to ensure that schemes are appropriate to local circumstances and, in particular, that they do not reduce levels of walking or cycling or undermine the viability of important commercial bus services.

We approved £18.7 million funding for a much larger yellow bus scheme serving schools in West Yorkshire as part of the local transport settlement for 2004–05. We are currently working closely with West Yorkshire PTE to evaluate the impacts of this scheme on a range of issues including traffic levels around schools and the number of pupils transferring from car to bus.

## WORK AND PENSIONS

### Children in Poverty

**Mr. Hepburn:** To ask the Secretary of State for Work and Pensions how many children of school age in

*(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK live in a family where neither parent works. [12067]

**John Healey:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Stephen Hepburn, dated 20 July 2005:*

As National Statistician, I have been asked to reply to your Parliamentary Question about children living in families where neither parent works. (12067)

The attached table shows the number and proportion of children, aged five to fifteen, in families with no resident parent in work for the three-month period ending November 2004. The figures include the children of married or cohabiting couples where neither parent is working, and those living with a lone parent who is not working.

These estimates are based on Labour Force Survey data which, as with any sample survey, is subject to sampling variability.

*Children of school age[1] living in families with no resident parent in work[2]; September to November 2004; not seasonally adjusted*

| | *Level (Thousand)* | *Proportion[3] (percentage)* |
|---|---|---|
| *United Kingdom* | | |
| Children of couples where neither parent is working | 364 | 6 |
| Children of lone parents who are not working | 922 | 46 |
| Children in all families where no resident parent is working | 1,286 | 16 |
| *North East* | | |
| Children of couples where neither parent is working | 19 | 9 |
| Children of lone parents who are not working | 50 | 50 |
| Children in all families where no resident parent is working | 69 | 23 |
| *South Tyneside[4]* | | |
| Children of couples where neither parent is working | 6 | 34 |
| Children of lone parents who are not working | 3 | 51 |
| Children in all families where no resident parent is working | 9 | 39 |
| *Jarrow[4]* | | |
| Children of couples where neither parent is working | 3 | 33 |
| Children of lone parents who are not working | 2 | 52 |
| Children in all families where no resident parent is working | 5 | 38 |

[1] Children aged 5 to 15 years.
[2] Estimates have not been adjusted for families in which the economic status of one or both parents is unknown.
[3] Percentages are based on families including couples and lone parents.
[4] Estimates for South Tyneside and Jarrow are based on smaller sample sizes and are therefore subject to a higher degree of sampling variability. They should therefore be treated with caution.

Labour Force Survey

## Consultants

**Mr. Mitchell:** To ask the Secretary of State for Work and Pensions which consultants have been employed by his Department in each of the last three years. [893]

**Margaret Hodge:** It is not possible to break this figure down into separate years because contracts can span more than one year and be extended due to delays. In the last three financial years the Department for Work and Pensions has employed consultants from the following 152 suppliers:

Booz Allen Hamilton
Cap Gemini UK plc
PA Consulting
IBM
Deloitte MCS Ltd.
ASE
Shreeveport Management Consultancy
PricewaterhouseCoopers LLP
Capita
CGEY
Accenture
Computer People
KPMG

**Mrs. Dean:** To ask the Secretary of State for Work and Pensions what plans he has to issue guidance on effective commissioning for those in the public and voluntary sectors who are commissioning work from external consultants. [7031]

**Margaret Hodge:** DWP recognises the need for effective commissioning on external consultancy. All requests for external consults for DWP and its businesses are acquired competitively through existing OGC and our own specialised frameworks to secure optimum value for money.

I also refer my hon. Friend to the answer given by my hon. Friend the Financial Secretary to the Treasury (John Healey) on 27 June 2005, *Official Report*, column 1286W.

DWP has no responsibility regarding the voluntary sector and does not fund any voluntary bodies to commission external resources.

### Coventry Area Pathfinders (IT Problems)

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions whether the IT problems in the Coventry area Pathfinders have been resolved. [11702]

**Mr. Plaskitt** *[holding answer 14 July 2005]:* Local authorities procure their IT systems through a tendering process and enter into a contract with their chosen IT supplier. Local authorities are then responsible for managing the contract including the quality of the product procured and the service provided. Therefore, this is a matter for the chief executive of Coventry city council.

### Departmental Advertising

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising in the last three years, broken down by media type. [9501]

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions how much the Department has spent on advertising in each of the last five years. [10240]

**Margaret Hodge:** The Department's media spend is available for the last three financial years and is set out in the following tables. Spend before this period, and the requested information on advertising spend of the Department's non-departmental public bodies is not held centrally and could be provided only at disproportionate cost.

*2004–05*

£

| *Campaign/subject* | *TV* | *Radio* | *Press*[1] | *Other*[2] |
|---|---|---|---|---|

[1] Press includes national press, regional press, specialist press, advertorials and featurelink.
[2] Other includes outdoor, online and ambient media.

*Notes:*
1. These tables do not include the following as the information is not held centrally and to obtain it would incur disproportionate cost: spend by non-departmental bodies for which the Department is responsible;
details of highly localised publicity activity by the Department's customer-facing businesses;
recruitment or procurement advertising. This also applies to figures for Jobcentre Plus publicity in 2002 to 2003 as at that time allocations sat with various policy teams and within regional budgets for ad hoc allocations.
2. The figures in these tables refer to media spend only, excluding production and other costs.
3. All figures have been rounded to the nearest thousand.
4. All figures are quoted net of VAT.

### Departmental IT Projects

**Mr. Laws:** To ask the Secretary of State for Work and Pensions which of his Department's IT projects are categorised as red light; and if he will make a statement. [10779]

**Mr. Plaskitt:** The Department for Work and Pensions has a strong record in adopting the Office of Government Commerce's (OGC) policy and best practice initiatives. All the Department's Mission Critical/High and Medium Risk Projects are subject to OGC Gateway Reviews. Disclosure of details relating to the traffic light status awarded by OGC Gateway Reviews would be likely to prejudice both the ability of OGC to examine the effectiveness, efficiency and economy with which Government Departments exercise their functions and also the formulation and development of Government policy.

### Departmental Staff

**Mike Wood:** To ask the Secretary of State for Work and Pensions how much staff time, and at what grade, has been spent at relevant assessment panels and moderating meetings in *(a)* 2003–04 and *(b)* 2004–05 in relation to his Department's Performance and Development System; how much money has been claimed in travel and subsistence by (i) panel members, (ii) chairs and (iii) human resources staff in each of those years; and what the cost has been of (A) hiring venues and (B) providing refreshments at the meetings in each of those years. [11311]

**Mrs. McGuire:** The information requested is not available.

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11522]

**Mrs. McGuire:** Table C of Civil Service Statistics shows the numbers of staff by department and agency between 1998 and 2004, on a full-time equivalent basis.

Civil Service Statistics 2004 is available in the Library.

### Departmental Union Representation

**Mr. Jenkins:** To ask the Secretary of State for Work and Pensions how many trade union learning representatives there are in his Department. [3315]

**Mrs. McGuire:** There are at present 337 accredited trade union learning representatives in the Department for Work and Pensions.

### Departmental Website

**Mr. Gerrard:** To ask the Secretary of State for Work and Pensions what his policy is on the time periods after which publications are removed from his Department's website. [12948]

**Mr. Plaskitt:** DWP publications are kept "live" on the website for the current and the previous calendar years.

Older publications are available from DWP's Library Archive, and can be requested via e-mail or post. Information on how to do this is displayed prominently on the relevant pages of the website.

### Disability Allowance

**Mrs. Dorries:** To ask the Secretary of State for Work and Pensions how many young people have been registered for disability allowance in the Mid-Bedfordshire parliamentary constituency in each year since 1997. [10906]

**Mrs. McGuire:** The administration of disability living allowance is a matter for the chief executive of the disability and carers service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mrs. Nadine Dorries, dated 20 July 2005:*

You asked the Secretary of State for Work and Pensions, how many young people have been registered for disability living allowance in the Mid-Bedfordshire parliamentary constituency in each year since 1997. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The requested information available is in the attached table.

I hope this is helpful.

*DLA recipients under the age of 16 in Mid-Bedfordshire constituency as at February each year since 1997*

*Thousand*

| | *DLA liveload*[1] |
|---|---|
| 1997 | 0.1 |
| 1998 | 0.2 |
| 1999 | 0.2 |
| 2000 | 0.2 |

*DLA recipients under the age of 16 in Mid-Bedfordshire constituency as at February each year since 1997*

*Thousand*

| | DLA liveload[1] |
|---|---|
| 2001 | 0.2 |
| 2002 | 0.2 |
| 2003 | 0.3 |
| 2004 | 0.4 |
| 2005 | 0.4 |

[1] Figures are less than 500 and subject to a high degree of sampling variation.

*Notes:*

1. Based on a 5 per cent. sample and therefore subject to sampling variation.
2. Figures are in thousands and rounded to the nearest hundred.
3. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.
4. Parliamentary constituencies are allocated using the relevant ONS post code directory.

*Source:*

Information Directorate, 5 per cent. data.

## Disability Benefits

**Ian Lucas:** To ask the Secretary of State for Work and Pensions how many recipients of *(a)* incapacity benefit and *(b)* severe disablement allowance there were in Wrexham in each year since 1997, broken down by ward. [126]

**Mrs. McGuire:** Ward level data is not available prior to 1998. The available information is in the tables.

*Incapacity benefit claimants in the parliamentary constituency of Wrexham: 1998 ward boundaries*

| | As at August | | |

Information Directorate, Department for Work and Pensions.

### Housing Benefit

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) what measures are in place to ensure that those on housing benefit are not discouraged from returning to work; [5439]

(2) what assessment he has made of the impact of the introduction of local housing allowances on disincentives to work. [5463]

**Mr. Plaskitt:** We are committed to making work pay for all those who are able to work, and to supporting households in sustaining employment.

We have made significant progress in taking forward our Housing Benefit Reform Programme which was launched in October 2002. As part of this reform, we implemented the local housing allowance in nine pathfinder authorities for tenants in the deregulated private sector. Nine more local authorities will implement the local housing allowance between April and July 2005. Early results from the Pathfinders are contained in the evaluation report "Delivering the Local Housing Allowance: A summary of the early experiences of implementing the Local Housing Allowance in the nine Pathfinder areas", published in April, which is available in the Library.

In April 2004, we introduced a number of measures to improve work incentives for housing benefit recipients. These included removing the need for people to reclaim housing benefit when they start a job. In most cases this ensures that benefit claims remain "live" while local authorities determine whether someone is entitled to continue claiming housing benefit. We also applied the additional earnings disregard in housing benefit and council tax benefit to those customers who are working for 16 or more hours a week and who have children or are disabled, and to some people of 50 or over who have recently returned to work. In addition, we extended housing benefit run-on to people receiving incapacity benefit and severe disablement allowance.

As part of our reform programme, we are also reducing administrative complexity and providing housing benefit recipients with a clearer understanding of their benefit entitlement on return to work.

We have also introduced a range of other measures which act as real incentives for people to move off benefit and into work. The National Minimum Wage was introduced in April 1999. It established minimum standards of pay in the labour market. In October 2004 the minimum wage was increased from £4.50 per hour to £4.85 for workers aged 22 and over and from £3.80 per hour to £4.10 per hour for people aged 18–21.

Building on the success of working families' tax credit (WFTC), disabled person's tax credit and the children's tax credit, from April 2003 we introduced two new tax credits: the child tax credit (CTC) and the working tax credit (WTC) both of which are designed to make work pay.

The Adviser Discretion Fund was introduced in July 2001, giving Jobcentre Plus Advisers direct access to funds to remove immediate barriers to employment and help people move quickly into work. In October 2004 we introduced Job Grant to help people manage until they receive their first wages. Additionally, housing benefit and council tax benefit extended payments allow maximum housing benefit and council tax benefit to continue for the first four weeks after starting work.

The effectiveness of work incentives will be monitored as part of the comprehensive Pathfinder evaluation.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions whether IT systems used to administer housing benefit by local authority departments, local Jobcentre Plus offices and his Department are able to communicate with each other directly; and if he will make a statement. [5443]

**Mr. Plaskitt:** Currently there are no facilities for direct communication between the Department for Work and Pension Information Technology (IT) Systems and Local Authority Housing Benefit IT systems. The Department does, however, supply local authorities with Remote Access Terminals that allow authorised users to view details of income support, pension credit and jobseekers allowance customers that are relevant to housing benefit and council tax benefit entitlement.

DWP also provides electronic transfers of data to relevant local authorities on awards, changes and terminations of income support, job seekers allowance and pension credit for customers known to be in receipt of housing benefit or council tax benefit. This allows any changes reported to DWP to be reflected in local authority systems.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the likely effects on costs of the introduction of the local housing allowance across England; and if he will make a statement; [5462]

(2) what the estimated cost of extending the local housing allowance scheme across England is, broken down by *(a)* benefit payments and *(b)* IT expenditure. [5464]

**Mr. Plaskitt:** We have put in place an independent, comprehensive evaluation of the nine pathfinders which will not conclude until spring 2006. This will inform the design of the scheme and the associated costs.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many housing benefit recipients were subject to the single room rent restriction on 1 April. [5631]

**Mr. Plaskitt:** Housing Benefit and Council Tax Benefit Quarterly Summary Statistics for February 2005 (the latest available published data) show that there were 11,200 housing benefit recipients assessed under the single room rent.

**Mr. Austin Mitchell:** To ask the Secretary of State for Work and Pensions whether housing benefit paid to council tenants is funded from *(a)* social security funds, *(b)* local authority funds and *(c)* central Government funds. [12859]

**Mr. Plaskitt:** Central Government funds housing benefit via interim payments of subsidy made to local authorities during the year. Authorities are then required to submit claims for subsidy, after the end of the financial year. These are compared to the interim amounts and further payments to, or recoveries from, authorities may be made.

Subject to certain restrictions housing benefit to which there is an entitlement is subsidised in full. Any shortfall in Government funding is met from local authority funds.

### Incapacity Benefit

**Mr. Heathcoat-Amory:** To ask the Secretary of State for Work and Pensions (1) if he will list the countries to which incapacity benefit claimants may move and continue to receive their benefit; and in which countries the benefit continues to be index-linked; [8994]

(2) how many incapacity benefit recipients live outside the UK in a country where they can receive *(a)* index-linked benefit entitlement and *(b)* non index-linked benefit entitlement. [8995]

**Mrs. McGuire:** As at February 2005 there were 9,800 recipients of incapacity benefit (IB) and severe disablement allowance (SDA) living outside the UK. Information on their countries of residence is not available.

IB is uprated in all countries where it can be paid. It is payable to recipients living in European Union (EU) and European Economic Area (EEA) countries and Switzerland under the European Community's social security regulations. It is also payable under bilateral social security agreements to recipients who live in the Isle of Man or the Channel Islands or in one of the countries in the following list:

*Non-EU/EEA countries where incapacity benefit is payable under bi-lateral agreements*

Bosnia-Herzegovina
Barbados
Croatia
Former Yugoslav Republic of Macedonia
Israel
Jamaica
State Union of Serbia and Montenegro
Turkey
USA

### Medical Examination Centres

**Roger Berry:** To ask the Secretary of State for Work and Pensions what plans he has to close medical examination centres; and if he will make a statement. [8181]

**Mrs. McGuire:** Following the award of a new medical services contract, the Department and Atos Origin are currently discussing a range of proposals, including an estates strategy that will both improve service standards and secure investment in other areas. Further information will be made available once these discussions have been concluded.

**Paul Holmes:** To ask the Secretary of State for Work and Pensions if he will list medical examination centres in the UK. [10078]

**Mrs. McGuire:** A list of all the existing medical examination centres in the UK has been placed in the Library.

**Mr. Todd:** To ask the Secretary of State for Work and Pensions what criteria have been used in deciding the programme of closures of medical examination centres. [7515]

**Mrs. McGuire:** Following the award of a new medical services contract, the Department and Atos Origin are currently discussing a range of proposals, including an estates strategy that will both improve service standards and secure investment in other areas. Further information will be made available once these discussions have been concluded.

**Dr. Iddon:** To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the impact of closure of the medical examination centre in Bolton on the residents of Bolton South East constituency; [7564]

(2) what saving will be obtained by closure of the Bolton Medical Examination Centre; [7565]

(3) how many redundancies will arise from the closure of the Bolton Medical Examination Centre; [7566]

(4) where those living in the Bolton South East constituency will be sent by his Department for medical examinations following the closure of the Bolton Medical Examination Centre; [7567]

(5) when the decision was made to close the Medical Examination Centre in Bolton; [7569]

(6) which *(a)* organisations and *(b)* individuals were consulted about the decision to close the Medical Examination Centre in Bolton; [7570]

(7) how many people from the Bolton South East parliamentary constituency have been examined at the Bolton Medical Examination Centre in each year since 1997; and how many were examined elsewhere in each year. [7571]

**Mrs. McGuire:** Following the award of a new medical services contract, the Department and Atos Origin are currently discussing a range of proposals, including an estates strategy that will both improve service standards and secure investment in other areas. Further information will be made available once these discussions have been concluded.

Available information on the number of incapacity benefit customers from the Bolton South East constituency attending Bolton Medical Examination Centre and other Medical Examination Centres in each year from 1997 to 2005 is set out in the following table:

| | *Bolton* | *Others* |
|---|---|---|
| 1997 | 0 | 0 |
| 1998 | 189 | 29 |
| 1999 | 578 | 77 |

| | Bolton | Others |
|---|---|---|
| 2000 | 1089 | 74 |
| 2001 | 1341 | 73 |
| 2002 | 1682 | 84 |
| 2003 | 1630 | 56 |
| 2004 | 1462 | 27 |
| 2005 | 686 | 10 |

*Notes:*

1. Atos Origin have only been able to provide information since 1 September 1998 when they were awarded the Contract.
2. The Others column relates to people who live in the BL1 and BL4 (Bolton South East constituency postcodes) who attended a different medical examination centre as it was more convenient for them to do so.

## National Insurance

**Barbara Follett:** To ask the Secretary of State for Work and Pensions what assessment his Department has made of the merits of reducing the lower earnings limit to bring more low-paid workers into the National Insurance system. [12301]

**Mr. Plaskitt** *[holding answer 18 July 2005]:* Currently the lower earning limit is £82 per week. There are around 1.7 million people with earnings below this level in the UK. Many of these people, particularly women, will benefit from credits or Home Responsibilities Protection that bring them into the National Insurance system.

At the Labour Party National Policy Forum held in July 2004, it was agreed with the trade unions that the Government would carry out a review of the lower earnings limit in determining access to benefits for low-paid workers.

This review is underway and will help inform the national pensions debate. Producing fairer outcomes for women and carers is one of the principles driving reform.

## Newtown Office

**Lembit Öpik:** To ask the Secretary of State for Work and Pensions (1) if he will reverse the decision to close his Department's office in Newtown, Powys; and if he will make a statement; [11949]

(2) what assessment he has made of the likely economic effect on Newtown, Powys, of the closure of his Department's facility in the town; and if he will make a statement. [11950]

**Margaret Hodge:** The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, who will write to the hon. Member.

*Letter from Leslie Strathie to Mr. Lembit Öpik, dated 20 July 2005:*

The Secretary of State has asked me to reply to your questions concerning the closure of the Jobcentre Plus office in Newtown and the economic effect on the town. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Firstly, I must make it clear that there are no plans to close the Jobcentre Plus Office in Newtown. As David Anderson, the former Chief Executive of Jobcentre Plus outlined in his letter to you of 31 March, it is the behind the scenes Benefit Processing work that will eventually transfer to our Processing Centre in Wrexham.

The centralisation of Benefit Processing, at a smaller number of larger sites, will play a crucial role in helping Jobcentre Plus to meet the Government's efficiency challenge and I know that Charles Morse, the District Manager for North West Wales and Powys wrote to you on 27 May detailing the timescales for the transfer of this work.

It is not envisaged that the transfer of Benefit Processing to Wrexham will have an adverse impact upon the wider local economy. Customers will continue to have access to the fully integrated Jobcentre Plus service at Afon House and, through our enhanced Personal Adviser service for customers on inactive benefits, we will continue to target our help at some of our most disadvantaged customers.

Nevertheless, I recognise that the decision to centralise Benefit Processing has led to surplus staff. Unfortunately, it has not proved possible to identify suitable redeployment opportunities for all those staff involved. Consequently, it has been necessary to run a Voluntary Early Release Scheme and in the coming months, as we complete the transfer of work to Wrexham, a number of staff will be leaving Jobcentre Plus under the terms of our scheme.

While the loss of experienced staff is always regrettable, the challenges that Jobcentre Plus has taken up are about providing a better and more efficient service to our customers, and there is no doubt in my mind that the decision to centralise Benefit Processing is the correct one. Charles Morse will continue to keep you fully informed as our plans take shape.

I hope this is helpful.

## Pension Credit

**Mr. Bone:** To ask the Secretary of State for Work and Pensions how many people were entitled to pension credit in *(a)* 2003 and *(b)* 2004; how many are currently entitled; and what estimate he has made of entitlement in (i) 2006, (ii) 2007 and (iii) 2008. [12695]

**Mr. Plaskitt:** National Statistics covering estimates of entitlement and take-up of pension credit in 2003–04 are planned for release in December 2005.

The current indicative projections of entitlement from 2004–05 onwards are shown in the table.

*Projections of entitlement to pension credit*

*£ million*

| | Entitled households | Entitled individuals |
|---|---|---|
| 2004–05 | 3.80 | 4.90 |
| 2005–06 | 3.85 | 5.00 |
| 2006–07 | 3.95 | 5.15 |
| 2007–08 | 4.10 | 5.35 |

*Notes:*

1. All figures are for Great Britain. They are in millions and rounded to the nearest 50,000.
2. Entitlement levels for pension credit are estimated using the 2002/03 Family Resources Survey modelled using the Department's Policy Simulation Model.
3. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only.
4. Analysis suggests that due to uncertainties, a margin of error of 250,000 should be placed around the central projections. So the projection for 2004–05 could lie in the range 3.55 million to 4.05 million households.
5. The projections of individuals include some people aged under 60 who are partners of claimants aged 60 or over.

*Source:*

Policy Simulation Model based on the 2002/03 Family Resources Survey.

## Pensions

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions how many occupational pension schemes have started winding up in each year since 1997. [12219]

**Mr. Plaskitt:** The information is not available in the form requested.

Such information as is available from the register of pension schemes that is maintained by The Pensions Regulator indicates that around 170 private sector defined benefit schemes started to wind up in 2000, around 170 in 2001, around 180 in 2002, and around 130 in 2003. In total around 720 private sector defined benefit schemes were recorded as having started to wind up sometime between 2000 and October 2004. These figures do not include schemes which completed wind up during that period. Figures on schemes starting to wind up between 1997 and 2000 are not available as the register does not contain information on whether the schemes that started to wind up before 2000 started before or after 1997.

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions how many stakeholder pension schemes have been opened in each year since 2002. [12220]

**Mr. Plaskitt:** The information requested is in the table.

| *Calendar year* | *Number of stakeholder pensions opened* |
|---|---|
| 2002 | 638,000 |
| 2003 | 560,000 |
| 2004 | 524,000 |
| Total | 1,722,000 |

*Notes:*
1. Figures from the Association of British Insurers (ABI).
2. Figures rounded to the nearest 1,000.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the expenditure on national insurance rebates for those contracted out of the *(a)* State Earnings Related Pension Scheme and *(b)* State Second Pension in each year from 1997–98 to 2009–10. [12395]

**Mr. Plaskitt:** The figures requested are given in the following table:

| | *Rebate in cash terms to 2004–05, constant 2005–06 prices thereafter (£ billion)* |
|---|---|
| 1996–97 | 6.9 |
| 1997–98 | 7.4 |
| 1998–99 | 7.8 |
| 1999–2000 | 8.2 |
| 2000–01 | 8.7 |
| 2001–02 | 9.0 |
| 2002–03 | 10.4 |
| 2003–04 | 10.1 |
| 2004–05 | 10.3 |
| 2005–06 | 10.7 |
| 2006–07 | 10.9 |
| 2007–08 | 10.4 |
| 2008–09 | 10.5 |
| 2009–10 | 10.6 |

*Note:*
Figures are for Great Britain only and are consistent with Budget 2005 estimates.

*Source:*
The Government Actuary's Department.

**Mr. Denham:** To ask the Secretary of State for Work and Pensions (1) if he will estimate the cost of state second pension payments in 2026 if no new rights are accrued from 2006 onwards; [12792]

(2) if he will estimate the cost of payments on the state second pension in 2026. [12793]

**Mr. Plaskitt:** The information requested is not available in the format requested. Such information as is available is as follows.

The long term projection for state earnings-related pension scheme (SERPS) payments and state second pension payments in 2026 is £21.1 billion. If no new rights were accrued for the state second pension from 2006 onwards, the estimated cost of SERPS and state second pension payments in 2026 would be £16.1 billion.

*Notes:*
1. Figures are for Great Britain in 2005–06 price terms, in billions rounded to the nearest £100 million.
2. The former costs are consistent with the pre-Budget report 2004.

For the latter figure:

3. The cost of future state earnings-related pension scheme payments and state second pension payments are calculated by using the December 2004 Update of the Government Actuary's Quinquennial Review of the National Insurance Fund, and use 2003 based population projections.
4. The cost is the net cost payable after accrued contracting out deductions have been made.
5. Contracting-out is also assumed to cease in 2006.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of retirement pension awards made in each of the last five years that were subsequently found to be incorrect and rectified. [10763]

**Mr. Plaskitt:** The information is not available in the form requested. Available information on state pension accuracy rates is set out in the following table:

*State pension awards 2000–01 to 2003–04: estimated accuracy rates*

| | *Accuracy rate* |
|---|---|
| 2000–01 | 97.8 |
| 2001–02 | 97.8 |
| 2002–03 | 97.0 |
| 2003–04 | 98.6 |

*Notes:*
1. The estimates are subject to sampling error.
2. The percentages quoted relate to the estimated proportion of cases where the payment is free of official error of 50p a week or more.

*Source:*
Pension Service Internal Assurance Services/Information Directorate, Department for Work and Pensions

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of active stakeholder pension schemes in existence. [12216]

**Mr. Plaskitt:** Information is not available in the format requested. Stakeholder pensions are designed to be flexible, with holders being permitted to take breaks in contributions without incurring penalty charges.

In the tax year 2002–03, 1,060,000 stakeholder pension policies received a contribution.

*Note:*

1. It is not an indication that stakeholder pensions sold since launch in 2001 but not receiving a contribution in 2002–03, will receive no further contributions.

2. This information is derived from a sample of annual returns of information submitted to the Inland Revenue (now HM Revenue and Customs) by stakeholder pension providers.

3. The figure is rounded to the nearest 10,000.

### Press Officers

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions how many press officers the Department and its predecessors employed in each year since 1997; and what the cost was in each year. [8136]

**Mrs. McGuire:** The Department for Work and Pensions was formed on 8 June 2001 from parts of the former Department of Social Security, the former Department for Education and Employment and the Employment Service. Information prior to 2001 is not held centrally and can be obtained only at disproportionate cost.

*Number of Press Officers employed*

| | *National Press Officers*[1] | *Regional Press Officers*[1] |
|---|---|---|
| 2001–02 | 21 | 0 |
| 2002–03 | 16 | 13 |
| 2003–04 | 20 | 20 |
| 2004–05 | 19 | 23 |

[1] The number of staff is the number in post at 31 March each year.

| | *Cost (£)* |
|---|---|
| 2001–02 | 816,725 |
| 2002–03 | 1,739,935 |
| 2003–04 | 1,146,255 |
| 2004–05 | 1,533,703 |

*Note:*
The costs are based on average salaries for the year and take into account the actual number of Press Officers and changes in post each month.

### Social Fund

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what plans he has to reform the Social Fund. [11855]

**Mr. Plaskitt:** The social fund plays an important role in the Government's agenda for tackling poverty and social exclusion. It provides valuable support to millions of people on low incomes, including some of the most vulnerable people in our society. We have recently announced a number of planned improvements to the social fund.

The Child Poverty Review, published on 12 July 2004, announced the Government's intention to abolish the Budgeting Loan "double debt" rule and to reduce the current standard repayment rate of 15 per cent. of a customers benefit to 12 per cent. These changes will come into effect on 3 April 2006 and will make budgeting loans more consistent and easier to understand and the social fund more effective in assisting those families most likely to experience debt problems.

These changes, which will make it easier for applicants to access loans, will be supported by a net increase in loans funding of £210 million over the three years from 2006–07. In the short-term these changes will strengthen the social fund's contribution to increasing access to affordable credit for those on the lowest incomes. In the longer term we intend to consider more widely the role the social fund might play in the wider financial inclusion agenda.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Work and Pensions how much the Department has spent on taxis in each of the last five years. [6493]

**Mrs. McGuire:** The information is not available.

### Vaccine Reactions

**Dr. Desmond Turner:** To ask the Secretary of State for Work and Pensions how many payments have been made for adverse reactions to vaccines for *(a)* hepatitis B, *(b)* polio, *(c)* MMR, *(d)* tetanus and *(e)* influenza in each of the last 10 years. [6928]

**Mrs. McGuire:** The Vaccine Damage Payment scheme provides for a tax-free lump sum payment to those who are severely disabled as a result of vaccinations against certain diseases specified in the Vaccine Damage Payment Act. Influenza and Hepatitis B are not included in the Act.

The Department does not hold information about the specific vaccines linked to a successful Vaccine Damage Payment claim.

Claimants are asked to specify on the claim form all the vaccinations that the disabled person received. Many vaccinations can be given in close proximity to each other and it is not always possible to determine exactly which vaccination is linked to the adverse reaction. Decisions are therefore not based on one particular vaccine. All the vaccinations given to the disabled person and their full medical history are considered. It is therefore not possible to attribute payments to a specific vaccination.

### Vibration White Finger

**Mr. Todd:** To ask the Secretary of State for Work and Pensions if he will issue guidance to staff handling claims for reduced earnings allowance in respect of PD A11 (vibration white finger) to take account of changes in rules consequent on the report from the Industrial Injuries Advisory Council. [12670]

**Margaret Hodge:** As with ail changes to the list of prescribed diseases under the Industrial Injuries Disablement Benefit scheme, guidance will be issued to alert staff to the changes to Prescribed Disease A11 (PD A11) and the effects of those changes on benefit entitlement.

### Winter Fuel Payment

**Mr. Lancaster:** To ask the Secretary of State for Work and Pensions how many households there were in North

East Milton Keynes with at least one person aged 75 years or over receiving the winter fuel payment in 2004–05. [13143]

**Mr. Plaskitt:** For winter 2004–05 there were 3,920 households in North East Milton Keynes with at least one person aged 75 or over that received the winter fuel payment. Information on winter fuel payments is available in the Library.

*Notes:*

1. Figures are rounded to the nearest five.

2. Local authorities and parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

3. Any residence found to have four or more occupants is not included in these figures as it is assumed to be a Residential Care or Nursing Home.

4. Please note that the figures for 2004–05 refer only to the main payment run so they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid in late payment runs (0.8 per cent. of all payments). Since most of the payments made in late payment runs are to people who are not receiving another benefit from DWP and whose claims had not been received by the qualifying week, most are men aged 60.

*Source:*

Information Directorate, 100 per cent. sample.

### Work Disincentives

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will list the disincentives to work that existed within the benefit system in 1997. [3151]

**Margaret Hodge:** Since 1997 the Government's priority has been to tackle the scourge of unemployment, inactivity and poverty through investment in, and reform of, the welfare state. The UK now has one of the strongest labour markets in the world, with the best combination of employment and unemployment of the major world economies. More people are moving from welfare back into work with employment up almost 200,000 in the last year and by over 2 million since 1997. With more people in jobs than ever before, we now spend £5 billion less on unemployment benefits than we did in 1997.

A central part of our strategy is to ensure that work pays, establishing a real incentive for people to move off benefit and into work.

The National Minimum Wage was introduced in April 1999 as part of our overall strategy, establishing minimum standards of pay in the labour market. In October 2004 the minimum wage was increased from £4.50 per hour to £4.85 for workers aged 22 and over and from £3.80 per hour to £4.10 per hour for people aged 18–21 inclusive.

Building on the success of working families' tax credit (WFTC), disabled person's tax credit and the children's tax credit, from April 2003 the Government introduced two new tax credits, the child tax credit (CTC) and the working tax credit (WTC). Entitlement to the tax credits is based on the particular circumstances of an individual or family.

The Adviser Discretion Fund was introduced in July 2001, giving Jobcentre Plus Advisers direct access to funds to remove immediate barriers to employment and thus help people move quickly into work. In addition, from October 2003, access to the Fund was further extended to all incapacity benefit customers in Pathways to Work pilot areas from the first day of their claim.

Job Grant was also introduced in October 2004 to help people manage until they receive their first wages. It replaced both the Lone Parents Run-On and the original Job Grant schemes.

Additionally the housing benefit and council tax benefit extended payments allow maximum housing benefit and council tax benefit to continue for the first four weeks after starting work. Help with mortgage interest in the first four weeks of employment may also be available through Mortgage Interest Run-On in the income-related benefits.

Today, Britain is working again. We are transforming the welfare state from a passive one-size-fits-all model to an active system that delivers both rights and responsibilities, tailoring help to the individual and providing the support and incentives people need to move from welfare and into work.

## TREASURY

### Boundary Reviews

**Mr. Betts:** To ask the Chancellor of the Exchequer what the population aged 18 years and over was at the last Census in each constituency agreed by the Boundary Commission as part of the current round of boundary reviews. [13518]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Clive Betts, dated 20 July 2005:*

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question asking what the population aged 18 years and over was at the last Census in each constituency agreed by the Boundary Commission as part of the current round of boundary reviews. (13518)

I refer you to the answer given in the *Official Report* volume 436 number 34 column 1166.

### Child Trust Fund

**Mr. Kemp:** To ask the Chancellor of the Exchequer (1) how many applications there have been for the new child trust fund nationally since its introduction; and how many children are eligible to receive it; [13566]

(2) how many applications there have been for the new child trust fund *(a)* nationally and *(b)* in Houghton and Washington East constituency since its introduction; and how many children (i) in the UK and (ii) in that constituency are eligible to receive it. [13567]

**Mr. Ivan Lewis:** Children are eligible for the child trust fund if they were born on or after 1 September 2002, a child benefit award has been made for them and they live in the UK and are not subject to immigration restrictions.

A CTF voucher is needed to open a child trust fund account and all eligible children receive one automatically once a child benefit award is made. No separate application is needed. So far around 1.7 million vouchers have been issued and I am encouraged by the fact that around one third of these vouchers have already been used and that awareness of the fund is virtually universal and many parents now see the child trust fund as the primary savings vehicle for their child. This positive action will help us to achieve our goal that every child—regardless of their background—gets the best start in life.

Information on the number of CTF vouchers issued by parliamentary constituency is only available at disproportionate cost. However for information on the number of children born to mother resident in each UK constituency since 1 September 2002 I refer the hon. Member to the answer given to the hon. Member for Battersea (Martin Linton) on 30 November 2004, *Official Report*, columns 87–88W.

## EU Directive 2001/17/EC

**Peter Viggers:** To ask the Chancellor of the Exchequer what the Government's policy is on EU Directive 2001/17/EC. [13046]

**Mr. Steen:** To ask the Chancellor of the Exchequer what plans he has to implement EU Directive 2001/17/EC; and by what method he proposes to implement it. [13368]

**Mr. Ivan Lewis:** Directive 2001/17/EC was implemented in the UK by the Insurers (Reorganisation and Winding-Up) Regulations 2004 for all insurance undertakings, apart from Lloyd's. Lloyd's unique structure did not prove readily compatible with the provisions of these regulations without further complex adaptation and refinement. Following consultation on draft regulations earlier this year, we intend to make the Insurers (Reorganisation and Winding-Up) (Lloyd's) Regulations 2005 using powers under section 2(2) of the European Communities Act.

## GDP (North-East)

**Mr. Iain Wright:** To ask the Chancellor of the Exchequer what the GDP per head is in *(a)* England, *(b)* the North East region, *(c)* the Tees Valley sub region and *(d)* Hartlepool. [13435]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Iain Wright, dated 20 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about GDP per head for England, the North East region, the Tees Valley sub region and Hartlepool. (13435)

The latest published information for GVA per head for England and the North East is for 2003. The Tees Valley is in the NUTS2 area of Tees Valley and Durham. Hartlepool is in the NUTS3 area of Hartlepool and Stockton-on-Tees, which is currently the lowest geographic level at which GVA per head is published. The latest published information for these two areas is for 2002.

The estimates in the table are based on the regional Gross Value Added[1] (GVA) estimates published in December 2004. These are available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7359

*Gross Value Added (GVA)[1] £ per head at current basic prices*

| | 2002 | [2]2003 |
|---|---|---|
| England | 15,633 | 16,339 |
| North East | 12,078 | 12,736 |
| Tees Valley and Durham | 11,184 | — |
| Hartlepool and Stockton-on-Tees | 12,019 | — |

[1] Information presented here is Gross Value Added (GVA) which is Gross Domestic Product (GDP) less taxes (plus subsidies) on products.
[2] Provisional

## Income Tax

**Mr. Graham Stuart:** To ask the Chancellor of the Exchequer what the average wage is in Beverley and Holderness. [13292]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Graham Stuart, dated 20 July 2005:*

As National Statistician I have been asked to reply to your recent Parliamentary Question what was the average wage in Beverley and Holderness is. (13292)

Average earnings are estimated from the Annual Survey of Hours and Earnings and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

I attach a table showing the average gross weekly earnings for full time employees in Beverley and Holderness in 2004. The data is also available on the National Statistics website on table 9:

http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=13101

The Annual Survey of Hours and Earnings, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent sample of all employees.

*Means and Medians for full-time employees in Beverley and Holderness in 2004*

| | Beverley and Holderness |
|---|---|
| Median | 387.7 |
| CV percentage* | [1]9.7 |
| Mean | 440.1 |
| CV percentage* | [1]5.0 |

[1] Guide to quality: The Coefficient of Variation (CV) is given to indicate the quality of a figure, the smaller the CV value the higher the quality.
The true value is likely to lie within +/- twice the CV e.g. for an average of 200 with a CV of 5 per cent., we would expect the population average to be within the range 180 to 220.
*Notes:*
1. The Annual Survey of Hours and Earnings, (ASHE), carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It is a 1 per cent. sample of all employees.

2. The ASHE replaces the New Earnings Survey (NES) from October 2004. The main difference between the ASHE and NES being that estimates are weighted to population totals from the Labour Force Survey.
3. Average gross weekly earnings for Adult Full-Time Employees whose pay for the survey period was not affected by absence.
*Source:*
Annual Survey of Hours and Earnings, ONS

## IT Projects

**Mr. Laws:** To ask the Chancellor of the Exchequer which of his Department's IT projects are categorised as red light; and if he will make a statement. [10780]

**John Healey:** The Treasury has a strong record in adopting OGC policy and best practice initiatives and all the Department's Mission Critical, High and Medium Risk Projects are subject to OGC Gateway Reviews.

The purpose of the 'traffic light' system is to bring to the attention of the Senior Responsible Owner significant or urgent issues that need to be addressed, and any designation of 'red', 'amber' or 'green light' conveys no suggestion as to whether a project should be continued. Information on our projects will continue to be published.

## National Statistics

**Mr. Geoffrey Robinson:** To ask the Chancellor of the Exchequer what the total population was of each of the counties surrounding London in each year since 1975. [13761]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Geoffrey Robinson, dated 20 July 2005:*

As National Statistician, I have been asked to reply to your question concerning the total population of all the counties surrounding London in each year since 1975. (13761)

The attached table provides population estimates for mid-1975 to mid-2003 for the counties of Buckinghamshire, Hertfordshire, Surrey, Essex and Kent and the former county of Berkshire.

The Local Government Reorganisation (LGR) between 1995 and 1998 resulted in major changes to some county boundaries. Therefore data has been provided on both former and current county boundaries for later years to enable comparison over time.

The most recent population estimates published are for mid-2003. (Estimates for mid-2004 will be published on 25 August 2005.)

*Mid-year population estimates: 1975 to 2003*[1,2]

*Thousand*

| *Year*[2] | *Buckinghamshire*[3,4] *Former county* | *Milton Keynes UA* | *Current county* | *Hertfordshire*[3,4] *Former/Current county* |

[1] Mid-2003 population estimates are the latest data available. Mid-2004 population estimates will be published on 25 August 2005.
[2] Population estimates for 1981 to 2000 have been revised in light of the 2001 census. These figures are on 2001 boundaries. Figures for 1975 to 1980 are on 1981 boundaries.
[3] The Local Government Reorganisation (LGR) between 1995 and 1998 resulted in major changes to some county boundaries. From 1997 Milton Keynes UA was no longer included in Buckinghamshire. From 1998 Medway UA was no longer included in Kent and Southend-on-Sea UA and Thurrock UA were no longer included in Essex. Also in 1998 Berkshire ceased to exist and was split into Reading UA, Bracknell Forest UA, West Berkshire UA, Slough UA, Windsor and Maidenhead UA and Wokingham UA.
[4] The data for 1975 to 1980 and for 1981 to 2003 are not directly comparable due to a number of boundary changes (in addition to the Local Government Reorganisation) between 1981 and 2001. There have been no boundary changes since mid-2001 affecting these counties.

*Notes:*
1. Population estimates are shown in thousands and rounded to the nearest 100 people.
2. Figures may not add exactly due to rounding.

Office for National Statistics

**Mr. Drew:** To ask the Chancellor of the Exchequer what the population of *(a)* Stroud District and *(b)* Gloucestershire was in each of the last five years for which figures are available. [13616]

**John Healey:** The information requested falls within the responsibility of the national statistician who has been asked to reply.

*Letter from Len Cook to Mr. David Drew, dated 20 July 2005:*

As National Statistician I have been asked to reply to your question concerning the populations of *(a)* Stroud and *(b)* Gloucestershire in each of the last five years for which figures are available. (13616)

The most recent population estimates published are for mid-2003. (Estimates for mid-2004 will be published on 25 August 2005.) Therefore, the table below provides population estimates for Stroud and Gloucestershire for mid-1999 to mid-2003.

*Mid-year population estimates: 1999 to 2003*

*Thousand*

| | Stroud | Gloucestershire |
|---|---|---|
| 1999 | 107.7 | 561.0 |
| 2000 | 107.9 | 564.6 |
| 2001 | 108.0 | 565.0 |
| 2002 | 108.2 | 565.9 |
| 2003 | 108.8 | 568.5 |

*Note:*
Population estimates are shown in thousands and rounded to the nearest 100 people.

Office for National Statistics

## Red Diesel

**Mr. Weir:** To ask the Chancellor of the Exchequer whether his plans for the red diesel rebate will affect the position of charter angling boats; and if he will make a statement. [13409]

**John Healey:** The excise duty paid on marine fuel (red diesel) used by crewed charter vessels with paying customers is fully repayable under the terms of the Energy Products Directive (2003/96/EC Article 14(1)*(c)*).

## Registrar General

**Mr. Hancock:** To ask the Chancellor of the Exchequer how many applications were received by the Registrar General during the period 1997 to 2004 in response to the concession announced on 21 April 1993 whereby personal information could be extracted from the 1911 decennial census if it would enable the applicant to establish a legal entitlement such as an inheritance. [13577]

**John Healey:** The information requested falls within the responsibility of the national statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Michael Hancock, dated 20 July 2005:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking how many applications were received during the period 1997 to 2004 in response to the concession announced on 21st April 1993 whereby personal information could be extracted from the 1911 decennial census if it would enable the applicant to establish a legal entitlement such as an inheritance. (13577)

During the period 1997 to 2004 there were 5 applications for the release of personal information from the 1911 census for the purpose of establishing a legal entitlement.

## Revenue and Customs

**Peter Luff:** To ask the Chancellor of the Exchequer when he will reply to the letter from the hon. Member for Mid-Worcestershire of 16 May requesting a meeting with the appropriate Minister to discuss the closure of the Revenue and Customs office in Droitwich Spa. [12834]

**Dawn Primarolo:** The chairman of HM Revenue and Customs replied to the hon. Gentleman on 19 July.

**Mr. Phillip Hammond:** To ask the Chancellor of the Exchequer how many staff at Her Majesty's Revenue and Customs are engaged in the handling, processing and analysis of stamp duty land tax (SDLT) returns; and what proportion of that staff time is attributable to returns in respect of transactions below the SDLT threshold. [13256]

**Mr. Ivan Lewis:** On average, 276 staff in HM Revenue and Customs (HMRC) are currently engaged in the handling, processing and analysis of SDLT returns. This encompasses guidance and support—by telephone and through correspondence—for customers submitting returns. We do not keep records for the proportion of staff time spent on transactions below the SDLT threshold.

## Suicides

**Chris Bryant:** To ask the Chancellor of the Exchequer how many *(a)* male and *(b)* female suicides there have been in each year since 1975. [13413]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Chris Bryant, dated 20 July 2005:*

As National Statistician, I have been asked to reply to your recent question asking how many *(a)* male and *(b)* female suicides there have been in each year since 1975. (13413)

In routine statistics, ONS defines suicides as deaths from both intentional self-harm and 'injury of undetermined intent'. The most recent available figures are for the calendar year 2003. The figures in the attached table show the numbers of deaths for intentional self-harm and injury of undetermined intent by sex for the calendar years 1975 to 2003.

*Number of deaths from intentional self-harm[1] and injury of undetermined intent[2] by sex, England and Wales, 1975 to 2003[3]*

| Calendar year | Males | Females |
|---|---|---|
| 1975 | 2,938 | 2,132 |
| 1976 | 3,131 | 2,193 |
| 1977 | 3,158 | 2,245 |
| 1978 | 3,256 | 2,251 |
| 1979 | 3,341 | 2,280 |
| 1980 | 3,392 | 2,291 |
| 1981 | 3,590 | 2,188 |
| 1982 | 3,542 | 2,110 |
| 1983 | 3,548 | 1,987 |
| 1984 | 3,619 | 1,988 |
| 1985 | 3,813 | 2,052 |
| 1986 | 3,819 | 1,865 |
| 1987 | 3,817 | 1,740 |
| 1988 | 4,174 | 1,761 |
| 1989 | 3,779 | 1,542 |
| 1990 | 4,050 | 1,494 |
| 1991 | 4,058 | 1,428 |
| 1992 | 4,060 | 1,426 |
| 1993 | 3,875 | 1,376 |
| 1994 | 3,887 | 1,257 |
| 1995 | 3,830 | 1,327 |
| 1996 | 3,654 | 1,239 |
| 1997 | 3,722 | 1,259 |
| 1998 | 3,929 | 1,225 |
| 1999 | 3,904 | 1,284 |
| 2000 | 3,659 | 1,262 |
| 2001 | 3,529 | 1,167 |
| 2002 | 3,470 | 1,195 |
| 2003 | 3,458 | 1,201 |

[1] The cause of death for intentional self harm was defined using the International Classification of Diseases, Eighth Revision (ICD-8) codes E950-E959 for the years 1975 to 1978, Ninth Revision (ICD-9) codes E950-E959 for the years 1986 to 2000, and, for the years 2001 to 2003, the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84.

[2] The cause of death for injury of undetermined intent was defined using the International Classification of Diseases, Eighth Revision (ICD-8) codes E980-E989 for the years 1975 to 1978, Ninth Revision (ICD-9) codes E980-E989 excluding E988.8 for the years 1986 to 2000, and, for the years 2001 to 2003, the International Classification of Diseases, Tenth Revision (ICD-10) codes Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending.

[3] Figures are for deaths registered in each calendar year from 1975 to 1992 and for deaths occurring in each calendar year from 1993 onwards.

## Tax Credits

**Lynne Featherstone:** To ask the Chancellor of the Exchequer how many people have been in receipt of the incorrect level of working tax credit, broken down by constituency; how many of these could not have been reasonably expected to know that a mistake had been made; and if he will make a statement. [8927]

**Dawn Primarolo:** Overpayments can arise for a number of reasons or from a combination of factors, for example, when a claimant's entitlement varies following a change in their circumstances.

Overpayments such as those arising from a change in circumstance or income are a normal feature of the tax credits system. They are not errors.

It is not possible to give separate information on underpayments and overpayments for working tax credits and child tax credits, nor is it possible to identify the cause of these overpayments or underpayments at constituency level.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) how many people have been waiting for an appeal relating to their tax credit payments in each month since 2002; [9728]

(2) what the total number of appeals on tax credit awards settled by agreement has been for each month since 2002; [9847]

(3) what the average length of time taken to process appeals for tax credits has been *(a)* when the case has been settled by agreement, *(b)* when the case has proceeded to a tribunal, *(c)* in all other cases and *(d)* in all cases in total for each of the last two years; [9848]

(4) what length of time the longest tax credit appeal case has taken. [9849]

**Dawn Primarolo:** The Department aims to settle tax credits appeals by agreement with the claimant wherever possible. If agreement is not reached in this way, the Department refers the appeal, an explanation of their

decision and any relevant papers to the Appeals Service who arrange for appeals to be heard by an independent appeals tribunal.

No information is available on the average length of time taken to process appeals for tax credits or on the length of time taken on the longest tax credit appeal case, as this is not data that the Department collates. The Appeals Service aims to consider an appeal referred to them within 12 weeks of receipt of the submission, and in 2004–05 achieved an average of less than eight weeks.

Until recently the Department did not collate figures relating to the number of people with an open appeal. However, the Department holds recent information on this, and figures for the last three months are:

| *Month end* | *Total number open of appeals* |
|---|---|
| March 2005 | 11,500 |
| April 2005 | 7,500 |
| May 2005 | 6,500 |

No figures are available of the number of appeals settled by agreement each month. But for the year to 31 March 2005 the Department had dealt with around 37,000 appeals, and of these around 1,650 were resolved at an appeals tribunal. So around 95 per cent. of tax credits appeals are settled by agreement.

The appeals process is explained in more detail in leaflet WTC/AP, available at http://www.hmrc.gov.uk/leaflets/wtc_ap.pdf.

Information on appeals dealt with by a tribunal can be found at: http://www.appeals-service.gov.uk/.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) how many of the overpaid tax credit awards in 2003–04 he expects to be rectified; and if he will make a statement; [11448]

(2) what proportion of the tax credit overpayment in 2003–04, excluding overpayments of £10 or less, he expects to be recovered. [11449]

**Dawn Primarolo:** I refer the hon. Gentleman to the reply I gave to the hon. Member for Yeovil (Mr. Laws) on 4 July 2005, *Official Report*, column 96W.

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many cases of over-payment of tax credits are awaiting a decision in the Chorley constituency. [12048]

**Dawn Primarolo:** Details on the number of disputed overpayments awaiting a decision by constituency are not available.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) if HM Revenue and Customs will send all customers who have received an overpayment, a letter setting out *(a)* the total amount they owe, *(b)* the reasons why the overpayment or excess payment in-year occurred and the date or dates it happened and *(c)* the applicable repayment arrangements enclosing a copy of Code of Practice 26 and drawing particular attention to the circumstances when recovery can be waived and the availability of additional tax credits in cases of hardship; [13467]

(2) whether, when in-year recovery of excess tax credits is justified, the Revenue will take steps to pay additional tax credits automatically to families in receipt of income support and income-based jobseeker's allowance; [13470]

(3) if he will take steps to ensure that all HM Revenue and Customs staff who have contact with tax credit customers are alert to the circumstances when additional tax credits might be appropriate so that they can invite an immediate claim; [13472]

(4) whether, when it has been decided that an excess payment in-year is recoverable in accordance with Code of Practice 26, recovery will be at the same rates as those for overpayments in the previous year; [13474]

(5) if he will take steps to ensure that *(a)* customers are alerted on the payments page of an award notice to the fact that the recovery of an overpayment of tax credits can be challenged if the overpayment was due to official error and in circumstances where a customer reasonably thought they were being paid the correct amount and *(b)* customers' attention will be drawn on the same page to Code of Practice 26 and the fact that, if they want to dispute an overpayment, they need to complete form TC846; [13475]

(6) if he will ensure that HM Revenue and Customs do not seek to recover either an excess payment made in the current year, or an overpayment from the previous year, until it has come to a decision, based on all the relevant facts, as to whether or not the excess payment should be recovered in accordance with Code of Practice 26; [13476]

(7) if he will take steps to ensure that tax credits staff who are in direct contact with customers are made aware of situations where interim payments of tax credits may be appropriate; [13477]

(8) if he will *(a)* print details of the availability of additional tax credits prominently on the payments page of an award notice and *(b)* give greater prominence to the issue of financial hardship and how HM Revenue and Customs can help in the guidance notes which accompany an award notice; [13478]

(9) if, whenever a Revenue error is identified which has led to an overpayment of tax credits, the customer will be immediately notified of what has happened and informed of the circumstances when recovery can be waived; [13684]

(10) if his Department will consider writing off all excess and overpayments caused by official error which occurred during 2003–04 and 2004–05; [13686]

(11) if his Department will consider adoption of a statutory test for recovery of excess payments and overpayments of tax credits, consistent with the test that is applied to social security benefits, with a right of appeal to an independent tribunal. [13690]

**Dawn Primarolo:** The hon. Gentleman's questions relate to the recommendations in the report of the Parliamentary Ombudsman, "Tax Credits: Putting Things Right". I am considering the report and, as my right hon. Friend the Chief Secretary to the Treasury

said in the debate on 12 July 2005, *Official Report*, column 723, I shall be providing the Parliamentary Ombudsman with my response shortly.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what the largest annual income for a household in receipt of tax credits was in the last 12 months. [13685]

**Dawn Primarolo:** The information requested is not available and could be obtained only at disproportionate cost.

## INTERNATIONAL DEVELOPMENT

### Africa

**Norman Baker:** To ask the Secretary of State for International Development what his policy is on the development of rural road networks in Africa. [12554]

**Hilary Benn:** DFID recognises the importance of improved rural road networks; which significantly improves the access that poor people have to markets, health services and schools. We support the view of the Commission for Africa that without investment in rural infrastructure, and rural roads in particular, potential for economic growth and improved livelihoods will not be fully realised.

DFID directly supports rural road development in Ethiopia, Mozambique, Malawi, Ghana and Nigeria. Our policy recognises the importance of adopting labour-based road-building technologies where appropriate, to maximise employment, and the need for adequate attention to maintenance.

**Andrew Rosindell:** To ask the Secretary of State for International Development whether he plans to withhold aid from any regime in Africa on the grounds of their political policies. [12559]

**Hilary Benn:** DFID has recently launched a new policy on conditionality. Our policy makes it clear that we do not believe that conditionality can "buy" reform. Our aid programmes are based on partner commitment to reducing poverty, respect for human rights and international obligations and the strengthening of financial systems. Should a partner country move substantially away from these commitments, then we will consider revoking our aid commitments.

Within this framework of partner commitments, 'political policies' per se are not specifically identified. But political actions which relate to rights and international obligations, for example with respect to good governance, the rule of law and conduct of elections, will be considered in respect of whether a country is substantially undermining the basis of our partnership.

**Andrew Rosindell:** To ask the Secretary of State for International Development how he plans to ensure that UK aid and debt relief is directed to those who need it most in Africa. [12561]

**Hilary Benn:** The Department for International Development uses a financial model to help inform decisions on bilateral aid allocation in Africa and other regions. The model takes account of the extent of a country's poverty and the likely effectiveness of aid in reducing poverty there. The amount of aid which countries are likely to receive from other donors is also taken into account. As such, there is a good correlation between UK aid to African countries and levels of poverty. For example, the three poorest countries in terms of GNI per capita, Sierra Leone, Malawi and Tanzania, are also the three highest recipients of UK aid per capita.

Once aid has been allocated, we take a number of actions to ensure it reaches the poor and impacts on poverty. We have learnt that the best way for aid to deliver sustainable poverty reduction is to support developing countries own priorities—and to build capacity and accountability for delivery of services which improve the lives of the poor. As such, we help countries to develop and implement their own Poverty Reduction Strategies, which take into account the interests and needs of the poor. An important part of this is to strengthen monitoring systems and the accountability of governments to their citizens (including the poor). We also work closely with countries to strengthen public financial management and tackle corruption.

Before providing funds directly through government systems, we undertake a rigorous assessment of whether policies are sound and funds will be properly used. Where risks are too high, we channel funds directly to the poor through the United Nations or non-government organisations.

Debt relief is provided to countries which qualify for the enhanced Heavily Indebted Poor Countries (HIPC) initiative. This also requires that countries have demonstrated their commitment to poverty reduction through developing and implementing sound Poverty Reduction Strategies, which includes careful monitoring of impact on the poor.

### African Health Workers

**Andrew George:** To ask the Secretary of State for International Development how many health workers were recruited from Africa by the respective G8 countries in each of the past 10 years for which records are available. [13078]

**Hilary Benn:** No figures are available for the number of health workers recruited from Africa by G8 countries over the last 10 years. For the UK, in September 2004, fewer than 5,600 doctors (4.9 per cent. of the total) working in NHS hospital and community health services had a primary medical qualification from Africa. Many of these have been working in the NHS for many years.

UK policy explicitly prevents the targeting of developing countries for recruitment of health workers. An element of this policy is the code of practice for International Recruitment of Healthcare Professionals (available at http://www.dh.gov.uk), which prevents the NHS from actively recruiting healthcare professionals from low and middle-income countries unless there is a Government-to-Government agreement in place. The code of practice was revised and strengthened last year

to widen its scope to include temporary workers and to enable all healthcare organisations, including in the independent sector, to sign up to it's principles.

### Arms Trade Treaty

**Andrew George:** To ask the Secretary of State for International Development which of the G8 countries are willing to sign the proposed international Arms Trade Treaty. [13077]

**Dr. Howells:** I have been asked to reply.

There is no text of an international treaty on the trade in conventional arms to which the Government has committed itself. Any eventual text will be the product of negotiations. We are working to secure a formal process of negotiation within the UN as soon as it is feasible to do so. We welcome the commitment made by G8 leaders at the Gleneagles summit on

"the need for further work to build a consensus for action to tackle the undesirable proliferation of conventional arms".

### Court of Auditors

**Mike Penning:** To ask the Secretary of State, Department for International Development what the status is of *(a)* investigations and *(b)* court cases resulting from ineligible expenditure referred to in paragraph (i) 65 on page 345, (ii) 43 on page 335, (iii) 31 on page 332, (iv) 9.45 and (v) 7.39 of the European Court of Auditors annual report for 2003; and if he will make a statement. [10085]

**Hilary Benn:** The European Court of Auditors cannot at this stage provide a greater level of specific information on the first three points than has been provided so far through its adopted reports. This is in order to protect the professional relationship between the Court, the Commission and any other institutions involved. Audit findings remain confidential while investigations continue.

In the fourth case (referred to in paragraph 9.45) it is encouraging that the Economic and Social Committee have taken corrective action to prevent similar errors recurring in future. In the case reported in paragraph 7.39, the irregularities (found at the level of implementing organisations) were not fraud cases, and in the event of any resulting ineligible expenditure, the Commission will deduct those amounts from future declarations unless the organisation can produce additional evidence.

### Debt

**Mike Penning:** To ask the Secretary of State for International Development (1) how much debt is owed by each developing country; [11746]

(2) who the top 20 creditor nations to the developing world are; and how much is owed to each. [11747]

**Hilary Benn:** DFID does not keep comprehensive records of the debts of developing countries or of debts owed to other creditor nations. Further information can however be found at http://devdata.worldbank.org/data-query. Details of the debts of heavily indebted poor countries to individual creditors are also provided in the heavily indebted poor countries Statistical Updates, available at www.worldbank.org/debt.

### Democratic Republic of the Congo

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment has been made of the effectiveness of EU development assistance in the Democratic Rupublic of the Congo; and if he will make a statement. [11819]

**Hilary Benn:** The EU has an important role in Democratic Republic of Congo (DRC), in terms of political support to the transition and as a donor. EU member states and the EC work together in Brussels and Kinshasa to try to ensure that messages and actions are properly co-ordinated. The EU's special representative to the Great Lakes, Aldo Ajello, has an important role in helping to ensure the effectiveness of EU engagement.

The European Commission has a large and ambitious programme in the difficult operating environment of the DRC. EC support to the DRC over the period 2003–07 is £205 million. We work closely with the EC on all aspects of their programme and believe it to be effective.

The EC have so far committed €80 million to DRC's elections trust fund managed by the United Nations Development Programme (UNDP), making the EC the largest donor to the electoral process in the DRC. It is also providing up to €8.9 million to the elections security project to train and equip DRC's police force in preparation for the series of elections due in the next year.

The EC also has substantial involvement in providing support on health and water and sanitation. It chairs the water and sanitation donor group in Kinshasa and is also an active member on the donor group supporting the development of the DRC's Poverty Reduction Strategy Paper. The EC is also active in work to improve the management of the DRC's natural resources, in particular in forestry, and is developing a new justice sector programme in the East of DRC.

There are also two EU member state joint missions currently operating in the DRC. EUPol Kinshasa is training and equipping 1,008 members of the Congolese National Police to protect Kinshasa's key institutions over the course of the transition period. EUSec DRC is providing expertise on security sector reform to the Government of DRC. DFID are funding two UK security sector reform experts to take part in this mission.

One of the key ways of improving all aid effectiveness in the DRC is through better co-ordination among donors and harmonisation of their approaches within the framework of national plans. There is an active discussion under way in Kinshasa on how to promote this, including DFID, the EC and other donors. One of the priorities for the UK's EU presidency role in Kinshasa is making progress on improved donor co-ordination and aid effectiveness in the DRC.

Globally, the EC's reforms of its external assistance overall are beginning to show improvements in efficiency and better portfolio management. While this is very encouraging, DFID continues to monitor EC effectiveness closely.

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for International Development if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11730]

**Mr. Thomas:** All contracts issued by DFID Headquarters are published on the DFID website. Significant IT purchases are made through the Office of Government Commerce (OGC) framework agreements and reported separately to the OGC. Collating expenditure figures for all DFID Departments would incur a disproportionate cost.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for International Development how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11486]

**Mr. Thomas:** The number of home civil service (HCS) full time equivalent staff that have worked for DFID in each of the past five years is as follows:

| | *Number of HCS staff* |
|---|---|
| 2004 | 1,780 |
| 2003 | 1,600 |
| 2002 | 1,520 |
| 2001 | 1,260 |
| 2000 | 1,210 |

The figures given above, at 1 April each year, are published in Table C of Civil Service Statistics 2004—copies of which are available in the Libraries of the House. The comparable figure for 1 April 2005 is 1,830.

In addition to permanent and pensionable HCS staff, DFID also employs a number of staff on fixed term contracts (FTC) to work on development assistance programmes in the UK and overseas, as well as a large number of locally engaged staff, or staff appointed in country (SAIC), to work in its network of overseas offices. The corresponding figures for these categories of staff are as follows:

| | *FTC* | *SAIC* |
|---|---|---|
| 2005 | 40 | 990 |
| 2004 | 150 | 910 |
| 2003 | 260 | 870 |
| 2002 | 360 | 740 |
| 2001 | 540 | 420 |
| 2000 | 600 | 400 |

*Note:*
All of the quoted figures above are rounded to the nearest 10.

### Equatorial Guinea

**Bob Spink:** To ask the Secretary of State for International Development (1) what aid his Department gave to Equatorial Guinea in 2004–05; and if he will make a statement; [12258]

(2) if he will make a statement on the education system in Equatorial Guinea; [12180]

(3) what proportion of girls remained in education up to the age of 15 years in Equatorial Guinea in 2004; [12184]

(4) what assessment he has made of the health concerns facing the people of Equatorial Guinea; and if he will make a statement. [12183]

**Hilary Benn:** DFID does not have a bilateral development programme in Equatorial Guinea. Our assistance is provided through multilateral channels such as the European Commission, UN agencies and the World Bank. The UK share of the EC's official development assistance was £0.3 million in 2000, £0.3 million in 2001, £2.72 million in 2002, and £0.96 million in 2003. The figure for 2004 is not yet available.

The latest World Development Indicators show that the percentage of female pupils in secondary education was: 38 per cent. in 2000, 38 per cent. in 2001 and 41 per cent. in 2002. Total adult literacy in 2000 was 83 per cent.; 74 per cent. for females and 93 per cent. for males. The gross enrolment ratio of females as a percentage of males at secondary school between 1998–2002 was 58 per cent.

DFID has made no health assessment of Equatorial Guinea.

### Fair Trade

**Andrew George:** To ask the Secretary of State for International Development what agreements the G8 countries reached during the Gleneagles summit on promoting the sale of fair trade goods. [13080]

**Hilary Benn:** As stated in the G8 Africa Communique, the G8 'welcomed the growing market for fair trade goods and their positive effect in supporting livelihoods and increasing public awareness of the positive role of trade and development.' Paragraphs 22 *(d)* . In the UK, DFID has provided £750,000 over three years to the Fairtrade Foundation (FTF) in support of its development awareness and education campaigns. Through investing in the future of Fairtrade, DFID aims to help achieve sustained improvement in livelihoods of disadvantaged producers in the south.

### G8 (Africa/Palestine)

**Tony Baldry:** To ask the Secretary of State for International Development how much of the $25 billion in new money for development for Africa committed at the recent G8 meeting will be paid by *(a)* the UK and *(b)* the European Union; and over what time scale in each case. [11972]

**Hilary Benn:** Commitments made by the G8 and other donors will lead to an increase in official development assistance to Africa of $25 billion a year by 2010.

By 2010, the UK's contribution to the additional $25 billion is likely to be around $3.3 billion. In the period of the current spending review, we are committed to

providing over £1.2 billion to Africa in financial years of 2007–08, which will increase to £2.10 billion ($3.3 billion) by 2010.

The EU has committed to double aid by 2010 from around $40 billion a year in 2004 to over $80 billion a year in 2010 and has agreed to allocate at least 50 per cent. of this increase to Africa. Therefore, by 2010, the EU will collectively provide $20 billion of the additional $25 billion.

**Tony Baldry:** To ask the Secretary of State for International Development how much of the $25 billion in new money for development for Africa agreed at the recent G8 meeting is planned to be allocated to *(a)* caring for AIDS orphans, *(b)* eradicating polio, *(c)* primary education, *(d)* secondary education, *(e)* university and further education and *(f)* tackling (i) malaria, (ii) HIV/AIDS and (iii) tuberculosis; and by what mechanism the money will be distributed in each case. [11974]

**Hilary Benn:** As G8 leaders agreed at the Gleneagles summit,

> "it is up to African countries themselves and their Governments to lead on development".

This includes deciding how best to use resources to accelerate progress in achieving the Millennium Development Goals. These policy decisions cannot and should not be imposed by donors. The UK will therefore provide additional resources in support of national poverty reduction plans, where partners have shown that they are committed to poverty reduction, protecting human rights and improving public financial management. We will deliver this as far as possible through national budgets, with more than half of our country programmes as poverty reduction budget or programme support by 2007–08. We will encourage G8 partners to do the same.

There are a few cases where aid is earmarked for sectors at the global level and channelled through specific mechanisms. This is generally for reasons of international co-ordination or advocacy. For example, funding for polio will be channelled through the polio eradication initiative. The UK has committed £20 million to close the polio funding gap this year and the G8 has committed to ensuring that the $829 million needed for 2006–08 found. The G8 committed to replenish the global fund to fight AIDS, TB and malaria (which needs $7.18 billion for 2005–08) and ensure that the education for all fast track initiative has the resources necessary for countries to implement their education strategies (estimated to require $2.3 billion extra a year). In the case of the fast track initiative, resources may either be channelled through the initiative or directly to support national education strategies. For both AIDS and education, additional resources will be required beyond those channelled through these global mechanisms. These will largely be provided by donors in support of developing countries' national strategies.

**Tony Baldry:** To ask the Secretary of State for International Development how much of the $3 billion aid package for the Palestinian Authority agreed by the G8 is intended for *(a)* Gaza and *(b)* the West Bank. [11975]

**Hilary Benn:** The G8 expressed support at the Gleneagles summit for Mr. James Wolfensohn, Quartet Special Envoy for Disengagement, to stimulate a global financial contribution of up to $3 billion per year over the coming three years. This will assist Palestinian economic regeneration and further Palestinian governance reform following Israeli disengagement from Gaza and parts of the West Bank.

Mr. Wolfensohn is working closely with both the Palestinian Authority (PA) and Israel to assess what needs to be done. Priority areas for joint working include: freedom of movement for Palestinians to move and trade; the fate of settlement assets, houses and greenhouses; a link between Gaza and the West Bank; and the need for a Gaza airport and seaport. Reform priorities for the Palestinians are: fiscal stabilisation; preparation of a medium-term development plan; and funding a package of quick impact economic programmes. The UK is working with the PA and the World Bank to help develop the PA's integrated development plan for Gaza and the West Bank. DFID is looking for the best way to support this and Mr. Wolfensohn's plans.

**Tony Baldry:** To ask the Secretary of State for International Development how much of the $3 billion aid package for the Palestinian authority agreed by the G8 is being contributed by the UK; and how it is to be distributed. [11977]

**Hilary Benn:** The G8 expressed support at the Gleneagles summit for Mr. James Wolfensohn, Quartet Special Envoy for Disengagement, to stimulate a global financial contribution of up to $3 billion per year over the coming three years. This will assist Palestinian economic regeneration and governance reform following Israeli disengagement from Gaza and parts of the West Bank. Details of how funding would be distributed have yet to be finalised. The UK is working closely with Mr. Wolfensohn and the Palestinian authority to help develop their plans and to ensure that our assistance is targeted at the highest priorities.

DFID's current plans are to spend £30 million per year on bilateral assistance to the Palestinians. DFID also contributes our share of European Community spending, amounting to a further £30 million last year. In 2004–05, the UK also contributed some £3.5 million through the Global Conflict Prevention Pool. This is jointly administered by the Foreign and Commonwealth Office, Ministry of Defence and DFID.

**Mr. Clappison:** To ask the Secretary of State for International Development what measures have been taken to ensure transparency and accountability in the use of aid promised to the Palestinian Authority following the G8 summit. [12056]

**Hilary Benn:** The G8 expressed support at the Gleneagles summit for James Wolfensohn, Quartet Special Envoy for Disengagement, to stimulate a global financial contribution of up to $3 billion per year over the coming three years. This will assist the Palestinians following Israeli disengagement from Gaza and parts of the West Bank. International financial support will depend on the Palestinian Authority (PA) providing a credible financial plan for development, with guarantees of fiscal prudence and transparency.

A significant proportion of UK aid to the PA is channelled through the World Bank-managed Public Financial Management Reform Trust Fund. Disbursement of funding is conditional on the PA's achievement of agreed reform benchmarks and is carefully monitored by the World Bank. Substantial improvements in the transparency and accountability of the PA's financial management systems have been made in recent years.

**Mr. Clappison:** To ask the Secretary of State for International Development what discussions took place in advance of the G8 summit between members of the G8 and the Palestinian Authority in respect of aid to the Authority; and what agreements have been entered into between the Authority and the G8 relating to aid. [12057]

**Hilary Benn:** Quartet Special Envoy for disengagement James Wolfensohn is working closely with both the Palestinian Authority (PA) and Israel to assess what needs to be done in order to support economic development and further Palestinian governance reform. Mr. Wolfensohn is leading in discussions with the PA, and has identified three key areas of reform: fiscal stabilisation; medium-term development planning; and quick impact economic programmes. He briefed the G8 fully at the Foreign Ministers' meeting on 23 June and at the summit in Gleneagles. G8 members support his excellent work. G8 members are also in contact with the PA bilaterally.

At the G8 summit in Gleneagles, the G8 expressed its support for Mr. Wolfensohn's intention to stimulate a global financial contribution of up to $3 billion per year from private and public sector sources for the next three years. No explicit agreements have yet been entered into. The UK, along with the rest of the international community, is considering how we can best support this. International financial support will be dependent on the PA providing a credible financial plan for development, with guarantees of fiscal prudence and transparency.

### Gender Equality (Africa)

**Andrew George:** To ask the Secretary of State for International Development (1) what proportion of the funds pledged during the Gleneagles Summit will be used to promote gender equality in Africa; [13082]

(2) what agreements were reached at the G8 Summit at Gleneagles to ensure that the Millennium Development Goal *(a)* to eliminate gender disparity in primary and secondary education and *(b)* that all boys and girls complete a full course of primary schooling are reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 Summit. [13085]

**Hilary Benn:** At the G8 Summit at Gleneagles, the G8 Heads agreed a package of comprehensive support to help accelerate progress towards the Millennium Development Goals (MDGs), particularly in Africa which is falling behind. In advance of the Summit, the United Nations published a comprehensive review of prospects for achieving the MDGs called 'Investing in Development', which informed UK policy.

As part of the Gleneagles agreement, the G8 leaders agreed to support African Governments' commitment to ensure that, by 2015, all children have access to and complete free and compulsory education of good quality. We also called on African countries to implement the African Charter on Human and People's Rights and its protocols, in order to encourage respect for the rights of ethnic minorities, women and children.

The UK firmly believes, as the G8 Heads recognised, that it should be up to developing countries to decide how best to use resources on a country-by-country basis to achieve the MDGs. The additional resources should therefore not be allocated to specific sectors. We will support developing countries to build on their existing national strategies and processes such as the Poverty Reduction Strategy process to develop more ambitious plans for achieving the MDGs, including with increased resources. In some limited cases, commitments have been made for specific interventions at the global level. This is generally for reasons of international coordination or advocacy. Support is still for implementation of nationally defined policies. In the case of the Education for All Fast Track Initiative, resources can be channelled through the Initiative or provided directly to support national education strategies. At Gleneagles, the G8 Heads agreed to ensure that this Initiative has the resources necessary for countries to implement their education strategies (estimated to cost around US$2.3 billion extra per year).

### Gross Domestic Product

**Peter Law:** To ask the Secretary of State for International Development what percentage of gross domestic product was allocated to aid to developing countries in each of the last 30 years. [12281]

**Hilary Benn:** The internationally recognised statistic is the oda/GNI ratio, ie official development assistance (oda) as a percentage of a donor's gross national income (GNI). The ratio for the UK over the past 30 years is set out as follows:

*UK oda/GNI ratio*

| | *Percentage* |
|---|---|
| 1975 | 0.38 |
| 1976 | 0.39 |
| 1977 | 0.44 |
| 1978 | 0.46 |
| 1979 | 0.51 |
| 1980 | 0.35 |
| 1981 | 0.43 |
| 1982 | 0.37 |
| 1983 | 0.35 |
| 1984 | 0.33 |
| 1985 | 0.33 |
| 1986 | 0.31 |
| 1987 | 0.28 |
| 1988 | 0.32 |
| 1989 | 0.31 |
| 1990 | 0.27 |
| 1991 | 0.32 |
| 1992 | 0.31 |
| 1993 | 0.31 |
| 1994 | 0.31 |
| 1995 | 0.29 |
| 1996 | 0.27 |
| 1997 | 0.26 |

*UK oda/GNI ratio*

| | *Percentage* |
|---|---|
| 1998 | 0.27 |
| 1999 | 0.24 |
| 2000 | 0.32 |
| 2001 | 0.32 |
| 2002 | 0.31 |
| 2003 | 0.34 |
| 2004 | [1]0.36 |

### Health Care (Developing Countries)

**Tony Baldry:** To ask the Secretary of State for International Development (1) what the Government's policy is on charging user fees for healthcare in developing countries; [7674]

(2) what discussions he has had with the World Bank on charging user fees for healthcare in developing countries. [7676]

**Hilary Benn:** I refer the hon. Member for Banbury to my response given to the hon. Member for St. Ives (Andrew George) on 30 June 2005, *Official Report*, columns 1679–680W.

**Tony Baldry:** To ask the Secretary of State for International Development whether he expects user fees for healthcare in developing countries to be addressed at the G8 summit. [7675]

**Hilary Benn:** The G8 summit discussed financing of healthcare in Africa. The Africa communiqué said people should have

"access to basic health care (free wherever countries choose to provide this)".

DFID is encouraging the removal of charges at the point of need in basic healthcare. We successfully sought, significantly increased resources for health and other priorities at the summit. However we recognise that the question of user fees is one for partner countries and that there are different approaches to financing healthcare.

### Iran

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment he has made of the effectiveness of British emergency aid in the aftermath of the Iranian earthquake in Bam. [9270]

**Mr. Thomas:** The UK committed £3.7 million in response to humanitarian needs in the wake of the Bam earthquake of 26 December 2003, including the UK's share of the European community contribution. DFID humanitarian advisors conducted two monitoring missions to assess the effectiveness of this support. The British embassy, Tehran has also been involved in monitoring the response. On the basis of this monitoring, we believe our assistance was well targeted, effective and appreciated by the beneficiaries.

DFID focussed its immediate support on life saving action through deployed search and rescue teams, the provision of tents and shelter materials and the hiring of aircraft for delivery of relief items and in the medium-term to sectors where it could have the greatest impact, including urban water supply and sanitation, primary health care and agricultural irrigation and livestock replenishment.

DFID support to Bam's agricultural sector was provided through the United Nations Development Programme for its work to repair wells and irrigation channels and for Action Against Hunger's work to provide livelihoods for vulnerable families. DFID assistance contributed to a successful 2004 date harvest of higher quality and quantity than normal and also to the provision of livelihoods to 1,200 families, including providing goats to several hundred families. DFID's funds through the United Nations Development Programme were almost completely spent on providing water supply for agriculture in and around Bam. This covered 10 per cent. of the agricultural area of Bam, and in that area prevented the date groves from drying up at a crucial point in the agricultural cycle. The United Nations Development Programme estimated that there would otherwise have been an 80 per cent. smaller date harvest.

In the health sector, the humanitarian effort prevented outbreaks of disease despite the threat following earthquakes. DFID played an important part in this, channelling its support through the World Health Organisation (WHO) for its activities in primary health care, and also through the United Nations Children Fund for its work in water and sanitation. There were delays by WHO in kitting out 10 urban health centres because of slower than expected progress in building the health centres, which were late in starting because of the need to wait for the necessary planning permission.

A planned commitment of £450,000 to the International Federation of the Red Cross (IFRC) was not disbursed, as the IFRC subsequently advised us that our support was no longer needed as their appeal was sufficiently funded by other contributions they received.

### Legislation

**Mr. Amess:** To ask the Secretary of State for International Development if he will list Bills sponsored by his Department in each Session since 1997. [10890]

**Hilary Benn:** DFID has sponsored two Bills since 1997. They were enacted as the Commonwealth Development Corporation Act 1999 and the International Development Act 2002.

### Malaria

**Mr. Drew:** To ask the Secretary of State for International Development what sums have been allocated to fight malaria in *(a)* Kenya, *(b)* Burundi, *(c)* Ethiopia, *(d)* Malawi and *(e)* Eritrea, with particular reference to (i) children and (ii) pregnant women in each of the last three years. [11598]

**Hilary Benn:** DFID supports malaria control through bilateral programmes in a number of countries. The following table shows the total funding DFID has provided for projects for malaria and other communicable diseases in Kenya, Burundi, Ethiopia, Malawi and Eritrea.

In addition, DFID has spent a further £13 million in these five countries on health projects which may have an impact on malaria. DFID is increasingly funding the broader health plans of developing countries. Such projects will build Governments' capacity to make the best use of their resources to diagnose and treat all main causes of illness.

£000

| Countries | Financial year 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Kenya | 3,488 | 3,765 | 5,117 |
| Burundi | 238 | 1,400 | 0 |
| Ethiopia | 0 | 2,473 | 0 |
| Malawi | 1,568 | 3,793 | 2,505 |
| Eritrea | 0 | 0 | 0 |

DFID is also a major donor to the Global Fund to Fight AIDS, TB and Malaria (GFATM). We have pledged more than £259 million through to 2008. Approximately 31 per cent. of GFATM funds go to malaria control, including projects in all five of these countries.

Further information on total funding in these countries for malaria control can be obtained from the World Malaria Report 2005: http://rbm.who.int/wmr2005

DFID supports countries to focus on groups most vulnerable to the impact of malaria—specifically pregnant women and children under five. For example in Kenya, Malawi and Ethiopia, DFID has supported the provision of highly subsidised or free insecticide treated mosquito nets to these groups.

**Mr. Drew:** To ask the Secretary of State for International Development what budget has been allocated to fund the provision of long-lasting insecticide-treated nets in Africa in 2005–06; and for how many people he estimates this will provide protection. [11599]

**Hilary Benn:** DFID provides finance for malaria control, including long-lasting insecticide-treated nets (LLINs), through bilateral country programmes, support to multilateral organisations such as the World Bank and European Commission, and contributions to the Global Fund to Fight AIDS, Tuberculosis and Malaria. DFID also works with other donors to support national malaria programmes. When funds are pooled in these ways, it is not possible to calculate the exact number of LLINs distributed as a direct result of DFID support.

However, we estimate that in 2005–06, DFID bilateral expenditure on African mosquito net programmes will be £40 million, which will see eight to 10 million nets (a mixture of insecticide treated and long lasting insecticide-treated nets) distributed, protecting 16 to 20 million people.

## Malawi

**Mr. Andrew Mitchell:** To ask the Secretary of State for International Development how much UK Government aid has been allocated to the treatment of *(a)* HIV/AIDS, *(b)* tuberculosis and *(c)* malaria in Malawi in each of the last two years. [8638]

**Hilary Benn:** The Malawi National AIDS Strategy and the National AIDS Commission (NAC) are the foundation for DFID's support to HIV and AIDS. £3.5 million is allocated to support the national response for HIV and AIDS through pooled funding with the Canadian International Development Agency (CIDA), the Norwegian Embassy and the World Bank to the NAC. The NAC is fully funded, by donors as well as Government of Malawi. There is no shortfall at the moment. Currently DFID has disbursed approximately £1 million towards this program. The following are the disbursement details:

| Financial year | Disbursed amount (£) |
|---|---|
| 2003–04 | 500,000 |
| 2005–06 | 400,000 |
| Total | 900,000 |

More support is also channelled through the Ministry of Health through the Sexual Reproductive Health programme. It is however difficult to disaggregate HIV spend. Expenditure for the programme has been as follows:

| Financial year | Disbursed amount (£) |
|---|---|
| 2003–04 | 5,871,583 |
| 2004–05 | 5,958,780 |
| Total | 11,830,363 |

DFID also supports the Banja La Mtsogolo Integrated Sexual and Reproductive Health Programme (BLM) to promote safer sexual and reproductive health practices by Malawians including increased use of high quality, accessible sexual reproductive health services which complement government services. Expenditure for the past two areas including technical assistance is as follows:

| Financial year | Disbursed amount (£) |
|---|---|
| 2003–04 | 977,759 |
| 2004–05 | 1,395,854 |
| Total | 2,373,604 |

DFID provides support to the Malawi National TB Control Programme. The purpose of the National TB Control Programme is to improve on an equitable basis, case detection, and quality of diagnosis and TB treatment outcomes. DFID's expenditure for past two years is as follows:

| Financial year | Disbursed amount (£) |
|---|---|
| 2003–04 | 779,024 |
| 2004–05 | 752,560 |
| Total | 1,531,584 |

DFID has been providing its support through UNICEF Malawi to assist the Ministry of Health in building the capacity of the Malaria National Control Programme, to be able to reduce the morbidity and mortality of children under 5 and women of childbearing age from malaria. The funds covered a wide range at central and district levels and included commodities (such as Insecticide Treated Bed nets, pre-treatment kits, and the drug Fansidar), social marketing, monitoring and supervision.

DFID's expenditure for past two years is as follows:

| Financial year | Disbursed amount (£) |
|---|---|
| 2003–04 | 3,792,678 |
| 2004–05 | 2,505,083 |
| Total | 6,297,761 |

**Stephen Williams:** To ask the Secretary of State for International Development if he will list non-governmental organisations in Malawi that seek to reduce poverty to which his Department has allocated funding in each of the last three years; and if he will make a statement. [11689]

**Hilary Benn:** DFID financed both directly and indirectly approximately 100 non-governmental organisations in Malawi over the course of the last three years. The following table lists those non-governmental organisation financed directly from DFID.

£

| Non-governmental organisation | 2002–03 | 2003–04 | 2004–05 |
|---|---|---|---|
| Afrobarometer | — | — | 10,348 |
| Banja la Mtsogolo | 1,868,670 | 1,309,288 | 1,635,202 |

| White Ribbon Alliance | — | 7,194 | — |
| Women and Law Society in Southern Africa (Wilsa) | — | — | 6,724 |

[1] DFID managed Dutch funds are shown in brackets.

DFID Malawi has also supported non-governmental organisations in Malawi indirectly through its support to the National Aids Commission, through the Tikambirane governance programme (managed by United States Agency for International Development (USAID), the Canadian International Development Agency (CIDA) and British High Commission (BHC)) and the National Sexual and Reproductive Health programme with Government of Malawi where responsibility for the direct engagement with civil society is held by our partners. In these instances it is difficult to itemise DFID's share of financing to each non-governmental organisation given the nature of the funding mechanisms used. DFID South Africa also supports non-governmental organisations in Malawi indirectly through the following regional programmes: the Soul City Regional Programme; the Roll Back Malaria Programme; and the Regional Hunger and Vulnerability Programme.

DFID Malawi works in partnership with non-governmental organisations operating in Malawi in order to help promote the outcomes of the Government of Malawi's Poverty Reduction Strategy Paper. To this

end, DFID also works to strengthen civil society's capacity to work with government at the policy level through country, regional and centrally funded initiatives.

### Millennium Development Goals

**Andrew George:** To ask the Secretary of State for International Development (1) what agreements were reached at the G8 summit at Gleneagles to ensure that the Millennium Development Goal to reduce by half the proportion of people living on less than a dollar a day is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13083]

(2) what agreements were reached at the G8 summit at Gleneagles to ensure that the Millennium Development Goal to reduce by half the proportion of people who suffer from hunger is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13084]

(3) what agreements were reached at the G8 summit at Gleneagles to ensure that the Millennium Development Goal target to make available the benefits of new technologies, especially information and communications technologies, in co-operation with the private sector, is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13165]

(4) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to reduce by half the proportion of people without sustainable access to safe drinking water is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13090]

(5) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to achieve significant improvement in lives of at least 100 million slum dwellers is reached by 2020; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13091]

(6) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to develop further an open trading and financial system that is rule-based, predictable and non-discriminatory and includes a commitment to good governance, development and poverty reduction nationally and internationally is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13092]

(7) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to address the least developed countries special needs is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13093]

(8) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to address the special needs of landlocked and small island developing states is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13094]

(9) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to develop decent and productive work for youth in cooperation with the developing countries is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit. [13096]

**Hilary Benn:** At the G8 summit at Gleneagles, G8 Heads agreed a package of comprehensive support to help accelerate progress towards the Millennium Development Goals (MDGs), particularly in Africa which is falling behind. In advance of the summit, the United Nations published a comprehensive review of prospects for achieving the MDGs called 'Investing in Development', which informed UK policy.

This package of support includes substantial additional resources: an extra US$50 billion globally and US$25 billion for Africa by 2010. In addition, the G8 agreed debt cancellation worth up to US$40 billion for 18 of the poorest countries and up to $55 billion for 38 countries in total.

On trade, the G8 Heads expressed political commitment to an ambitious outcome at the Doha ministerial in Hong Kong and committed to provide increased assistance for building the capacity to trade. The additional resources will be targeted where they can make the most difference: on low-income countries that are committed to growth and poverty reduction, to a democratic, accountable and transparent government and to sound public financial management, while recognising that aid is important to respond to humanitarian crises and countries affected by or at risk of conflict.

Achieving the MDGs to reduce by half the proportion of people living on less than a dollar a day and those who suffer from hunger will depend on progress in a range of different areas. This is why G8 Heads emphasised the importance of coordinated and coherent action.

The Evian G8 water action plan commits G8 member countries to playing a more active role in the international efforts towards achieving the water and sanitation Millennium Development Goals. At Gleneagles, G8 Heads agreed to increase aid to the sector, while maintaining political momentum and commitment on the water issue and reinforcing coordination and monitoring mechanisms. The UK recently announced it was doubling, over the next three years, its funding for improvements in water and sanitation in Africa.

G8 Heads agreed a range of measures aimed at boosting growth and attracting new investment, contributing to building Africa's capacity to trade and improving the lives of slum dwellers. Work will continue on building an infrastructure consortium for Africa, involving the African Union (AU), the New Partnership for Africa's Development (NEPAD), the World Bank, the African Development Bank and the EU. The sectors to be covered by this major new effort are water and sanitation, energy, transport, telecommunications and urban infrastructure.

Work will continue to support investment, enterprise development and innovation, for example, through support to the AU/NEPAD investment climate facility.

International financial institutions and African Governments are encouraged to increase access to financial services for poor people through increased partnerships between commercial banks and micro-finance institutions.

In recognition of the particular problems faced by least developed countries (LDC)s, the G8 committed to provide them with additional support for trade capacity building. They also agreed to work for appropriate flexibility in the Doha development agenda (DDA) trade negotiations to help LDCs to decide, plan and sequence their economic reforms in line with their country-led development programmes and their international obligations. Moreover, they reiterated their commitment to duty and quota for free market access for LDC products, and the importance of addressing products of interest to LDCs as part of the single undertaking of the DDA.

The G8 summit did not reach any specific agreements regarding landlocked and small island development states, although other measures agreed there will benefit these countries, including additional development resources and progress on climate change and trade.

G8 leaders committed to support youth employment in Africa for both men and women, including vocational education and training relevant to market demands.

To help develop skilled professionals for Africa's private and public sectors, the G8 Heads agreed to support networks of excellence between African and other countries' institutions of higher education and centres of excellence in science and technology.

**Andrew George:** To ask the Secretary of State for International Development (1) what agreements were reached at the G8 summit at Gleneagles to ensure that the Millennium Development Goal target to reduce by two thirds the mortality rate among children under five years is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13086]

(2) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to reduce by three quarters the maternal mortality ratio is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13087]

(3) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to halt and begin to reverse the spread of HIV/AIDS is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13088]

(4) what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to halt and begin to reverse the increase in the incidence of malaria and other major diseases is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit; [13089]

(5) what agreements were reached at the G8 summit at Gleneagles to ensure that the Millennium Development Goals target to provide access to affordable essential drugs in developing countries in co-operation with pharmaceutical companies is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit. [13097]

**Hilary Benn:** At the G8 summit at Gleneagles, G8 Heads agreed a package of comprehensive support to help accelerate progress towards the Millennium Development Goals (MDGs), particularly in Africa which is falling behind. In advance of the summit, the United Nations published a comprehensive review of prospects for achieving the MDGs called 'Investing in Development', which informed UK policy.

G8 Heads agreed several specific measures to tackle the health and HIV/AIDS related MDGs. They undertook to support African Governments' commitment to ensure access to basic health care for all (free wherever countries choose to provide this) to reduce mortality among those most at risk of dying from preventable causes, particularly women and children. This includes a commitment to invest in improved health systems, which are critical for progress across the board.

On malaria, the G8 committed to work with African countries to scale up action to reach 85 per cent. of the vulnerable populations with the interventions that will save 600,000 children's lives a year by 2015. These include ensuring access to anti-malaria insecticide-treated mosquito nets, adequate and sustainable supplies of Combination Therapies including Artemisin, presumptive treatment for pregnant women and babies, household residual spraying and the capacity in African health services to effectively use them.

The G8 Heads committed to the aims of an AIDS-free generation, significantly reducing HIV infections, aiming as close as possible to universal access to treatment for all who need it by 2010 and ensuring proper support for all children left orphaned or vulnerable by AIDS. They committed to increase resources to tackle AIDS, including through replenishing the Global Fund to fight AIDS, Tuberculosis (TB) and malaria (GFATM). They also undertook to work with the World Health Organisation (WHO), the Joint UN Programme on HIV/AIDS (UNAIDS) and other international bodies to develop and implement a package for HIV prevention, treatment and care, and to improve coordination through implementing the 'Three Ones' principles.

To encourage the development of vaccines, microbicides and drugs for AIDS, TB, malaria and other neglected diseases, the G8 leaders committed to increase direct investment and take forward market incentives, through mechanisms such as Public Private Partnerships and Advance Purchase Commitments. We also re-affirmed our commitments made at the G8 summit at Evian, agreeing to improve access to affordable medicines by encouraging differential pricing of drugs by originator companies and by supporting the appropriate use of flexibilities in agreements on intellectual property rights where necessary.

**Andrew George:** To ask the Secretary of State for International Development what agreements were reached at the G8 summit in Gleneagles to ensure that the Millennium Development Goals target to deal

comprehensively with developing countries' debt problems through national and international measures to make debt sustainable in the long-term is reached in 2015; and what assessment the UK had made of the likelihood of meeting that target before the G8 summit. [13095]

**Hilary Benn:** G8 Finance Ministers met on 11 June and re-affirmed their commitment to the full implementation and financing of the Heavily Indebted Poor Countries (HIPC) Initiative. They also agreed a new proposal to cancel the debt stock of qualifying HIPCs to the International Development Association of the World Bank, the International Monetary Fund and the African Development Fund of the African Development Bank. In addition, they agreed the need to find a solution to Nigeria's debts. G8 leaders re-affirmed their support for these agreements when they met at Gleneagles, and welcomed the Paris club's agreement on 29 June which will result in the elimination all of Nigeria's $29 billion bilateral debt to Paris club creditors.

The UK is committed to broad and generous debt relief for poor countries in order to make debt sustainable in the long-term and to free up resources for their achievement of the Millennium Development Goals. We continue to lobby others in support for this objective. Progress towards the Millennium Development Goals varies, but Sub Saharan Africa in particular will not meet any of the goals by 2015 if current rates of progress continue. We believe that debt relief, including the G8's new proposal, will help countries to make the investments in health, education and infrastructure, that are needed to reach the Millennium Development Goals.

### Niger

**John Bercow:** To ask the Secretary of State for International Development what action has been taken by his Department to address the food shortage in Niger. [11864]

**Hilary Benn:** DFID has been closely monitoring the deteriorating nutritional situation in Niger, and recently conducted a humanitarian assessment in the Sahel region. DFID was one of the first donors to respond to the recent UN Flash Appeal providing, on 10 June 2005, an immediate initial donation of £500,000 to the World Food Programme's emergency food operation, which supplies food and nutritional inputs to up to one million highly vulnerable households.

Following its recent assessment of the food security situation in the region, DFID has agreed to provide an additional £1,500,000 in humanitarian assistance to Niger, mainly through non-governmental organisations. This support will be focused on nutritional therapy, basic health care, improving food access and protection of livelihoods in the worst affected areas and will benefit up to one million people. We shall continue to monitor developments closely.

### NPAD

**Andrew George:** To ask the Secretary of State for International Development which African Union countries have had their country reviewed under the Africa Peer Review Mechanism of the New Partnership for African Development; and what assessment he has made of the findings of the reviews. [13071]

**Hilary Benn:** Ghana, Rwanda, Kenya and Mauritius signed up to the Africa Peer Review Mechanism in 2003 and are the first wave of countries currently undergoing peer review. Country review missions have been undertaken in Ghana and Rwanda and reports have been submitted to the respective governments. A summary of the Ghana report has been made publicly available. The formal peer review is then scheduled to take place in August 2005 at the next African Peer Review (APR) Forum (which consists of participating African Heads of State).

We look forward to discussing the outcomes of the peer review with the Governments of Rwanda and Ghana after this time.

### Palestine

**Dan Norris:** To ask the Secretary of State for International Development what recent measures have been introduced to facilitate the reform of Palestinian security forces. [13420]

**Hilary Benn:** General Ward was appointed by the United States as Co-ordinator for Security Sector Reform in February. He is leading the mission established to facilitate reform of the Palestinian security forces following the 1 March London Meeting on Supporting the Palestinian Authority (PA). His mission has made progress with the PA in consolidating and restructuring the Palestinian security forces, although further reform is still required.

The UK fully supports General Ward's mission, and has seconded a governance expert to his team. We are also supporting security sector reform through our contributions to the European Union Co-ordinating Office for Palestinian Police Support (EUCOPPS). This has provided equipment and technical and operational assistance to the Palestinian civil police, and has worked with them to develop a Palestinian Civil Police Development Plan. This plan is now being implemented.

**Dan Norris:** To ask the Secretary of State for International Development what progress is being made in coordinating stronger ties between the Palestinian Authority and Israel in order to address Palestinian poverty. [13421]

**Hilary Benn:** Mr. James Wolfensohn, Quartet Special Envoy for Disengagement, has identified six priority areas for joint working between Israelis and Palestinians in his plans for a successful Israeli disengagement from Gaza and parts of the West Bank. These include freedom of movement and trade for Palestinians, a transport link between Gaza and the West Bank, and an airport and seaport for Gaza. Some progress has been made, but there is still work to be done.

Co-operation between the two parties and an easing of Israeli restrictions on movement of goods and people are essential for successful Palestinian economic regeneration and poverty reduction. The Palestinian Authority, for its part, needs to maintain and develop its programme of reforms. The UK is working closely with

international partners on these fronts. The Government fully supports Mr. Wolfensohn's efforts and DFID has seconded a member of staff to his team to assist.

**Dan Norris:** To ask the Secretary of State for International Development what cooperation his Department has received from members of the Arab League in alleviating poverty in the Palestinian Territories. [13422]

**Hilary Benn:** Members of the Arab League contributed around $100 million to the Palestinians during 2004, approximately 80 per cent. from Saudi Arabia.

Mr. James Wolfensohn, Quartet Special Envoy for Disengagement, briefed G8 leaders at the Gleneagles summit on his plans to support Palestinian development in the context of disengagement and beyond. He received the full backing of G8 leaders. Mr. Wolfensohn has proposed contributions of up to $3 billion annually for the next 3 years from the international community. It is important that all those who are working for progress, including Arab states, support this initiative.

**Dan Norris:** To ask the Secretary of State for International Development what his assessment is of Israeli proposals to provide transport links between the West Bank and Gaza. [13423]

**Hilary Benn:** Free movement of goods and people between the West Bank and Gaza will be essential for Palestinian economic regeneration following Israeli disengagement from Gaza and parts of the West Bank. Mr. James Wolfensohn, Quartet Special Envoy for Disengagement, has identified the provision of a transport link between Gaza and the West Bank as one of six priority areas for joint action between Israelis and Palestinians. Current proposals include the use of convoys of buses. the construction of a sunken road, and a rail link. A committee, chaired by Mr. Wolfensohn, will study options for the future. The UK, along with other members of the international community, fully supports Mr. Wolfensohn's efforts.

## School Twinning

**Dr. Tony Wright:** To ask the Secretary of State for International Development if he will discuss with the Secretary of State for Education and Skills establishing a scheme to twin schools in this country with schools in Africa. [12897]

**Hilary Benn** *[holding answer 19 July 2005]:* We are already working closely with the Department for Education and Skills (DfES) on school twinning schemes. This fits with DFID objectives and with the DfES International Strategy. We fund a Global School Partnerships programme, which links schools in the UK with schools in developing countries; whereas the DfES has developed the Global Gateway, an international website to help schools find partner schools in other countries. Through the Global Gateway, the DfES has supported the BBC World Class project which links 1,000 schools in Africa with 1,000 schools in UK. Together with the DfES, DFID also provides co-funding for 80 places per year, specifically for teachers from developing countries, under the DfES Teachers' International Professional Development programme.

## Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for International Development how many days the Department has lost due to sickness in the past five years for which figures are available. [11463]

**Mr. Thomas:** The total number of working days lost due to sickness in DFID over the past five calendar years, together with average number of days lost per employee, is as follows:

*Days*

| | *Total* | *Average per employee* |
|---|---|---|
| 2004 | 13,475 | 6.8 |
| 2003 | 11,872 | 7.0 |
| 2002 | 12,888 | 8.0 |
| 2001 | 11,545 | 8.3 |
| 2000 | 8,426 | 6.2 |

The figures given above, which relate only to home civil servants and those employed by DFID on UK fixed term contracts, are contained in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office. The most recent, covering the 2003 calendar year, was announced by ministerial statement on 1 November 2004. Copies are available in the Libraries of the House.

At 1 April 2005, DFID also employed some 990 locally engaged staff, or staff appointed in country (SAIC), to serve in its network of overseas offices. Sickness absence records for SAIC are not held centrally and information on the number of working days lost due to sickness for these employees could be obtained only by incurring a disproportionate cost.

## Somalia

**Mark Simmonds:** To ask the Secretary of State for International Development what assessment has been made of the number of displaced Somalis crossing the border into Kenya to escape fighting; and whether his Department is providing humanitarian assistance. [11815]

**Hilary Benn:** DFID has not made any independent assessment of the number of displaced Somalis crossing the border into Kenya, however the United Nations High Commission for Refugees (UNHCR) estimates that there are 232,333 refugees in Kenya that require humanitarian support, of whom just over 151,000 are Somalis.

We contributed £400,000 last year to support UNHCR's ongoing efforts to promote the voluntary repatriation of 23,000 Somali refugees in exile in Kenya, Ethiopia, Djibouti, Yemen and elsewhere. We are also currently considering providing further funding to the UNHCR through the 2005 UN Consolidated Appeals Process for Somalia.

In the last two months, an estimated 15,000 Somalis people have crossed the border into Mandera district, Kenya following fighting between two rival clans. There have been some initial relief distributions from the UN and local NGOs. The Kenyan authorities, with local elders are meeting in the next few weeks to try and address the causes of the conflict. The UN Office for the

Co-ordination of Humanitarian Affairs is coordinating a response to the situation. DFID's office in Kenya is closely monitoring the situation.

## Sri Lanka

**Damian Green:** To ask the Secretary of State for International Development if he will make a statement on the use of British aid in Sri Lanka following the tsunami. [12934]

**Mr. Thomas:** Immediately following the tsunami DFID provided some £7 million of direct assistance to Sri Lanka. In addition DFID financed a number of relief activities across the region, at a cost of over £26 million. While it is difficult to attribute precisely Sri Lanka's share of this funding, we would estimate that approximately one third, or £8.7 million, went to the island. The following table provides full details.

To support longer term recovery Britain has agreed to meet 10 per cent. of the Government of Sri Lanka's interest payments to the World Bank, for the next 10 years. This will be worth over £41 million and the Government have agreed that the funds released will be spent on tsunami relief and recovery and on poverty reducing programmes for the poorest communities.

Sri Lanka has received generous support from international organisations and from the public, sufficient to fully finance the recovery and reconstruction needs. However, following my visit to Sri Lanka last month I have agreed that we should offer further assistance to strengthen Government's capacity to implement these recovery programmes effectively and equitably. Discussions are under way in Sri Lanka to identify the best way to tackle this issue and programme DFID support.

*Sri Lanka: Post-tsunami assistance provided by British Government*

| | UK (£) | US ($) |
|---|---|---|
| *Donations in kind* | | |
| 1. 5,000 tarpaulins and 246 tents for temporary shelter 27 December 2004 (including airlift) | 250,000 | 482,500 |
| | 250,000 | 482,500 |
| *DFID funded flights for Disasters Emergency Committee (DEC)* | | |
| 1. 2 January Save the Children (STN to CMB) | 93,165 | 179,808 |
| 2. 3 January World Vision (BDS to CMB) | 161,975 | 312,612 |
| 3. 12 January World Vision (DXB to CMB) | 88,889 | 171,556 |
| 4. 19 January World Vision (BRU to CMB) | 22,949 | 44,292 |
| 5. 21 January Merlin (LHR to CMB) | 3,906 | 7,539 |
| 6. 22 January OXFAM (EMA to CMB) | 90,619 | 174,895 |
| 7. 24 January Save the Children (EMA to CMB) | 142,955 | 275,903 |
| | 604,458 | 1,166,604 |
| *DFID staff secondments* | | |
| 1. Air Operations (seconded to World Food Programme for 3 months from 4 January 2005) | 28,000 | 54,040 |
| 2. Humanitarian Information Centre (NIC) Advisor (seconded to OCHA for 3 months—4 February 2005) | 28,000 | 54,040 |
| 3. Two watsan engineers (seconded to UNICEF for 3 months—17 February 2005) | 55,000 | 106,150 |
| 4. Shelter Advisor (Seconded to UNHCR) | 8,000 | 15,440 |
| | 119,000 | 229,670 |
| *Funding through NGOs/ UN Agencies* | | |
| 1. Save the Children Fund (non-food items, food, shelter, watsan) | 400,000 | 772,000 |
| 2. Basic needs (trauma and mental health) | 57,993 | 111,926 |
| 3 World Vision (Non-food items distribution, Shelter supply distribution) | 250,000 | 482,500 |
| 4. International Committee of the Red Cross (ICRC) (general tsunami appeal) | 500,000 | 965,000 |
| 5. World Food Programme (WFP) (food) | 500,000 | 965,000 |
| 6. Help Age (Distribution of non-food items and restoration of residential facilities for older people) | 137,308 | 265,004 |
| 7. Christian Aid, OFEER (1,000 transitional shelter units) | 260,008 | 501,815 |
| 8. Norwegian Refugee Council (1,000 transitional shelter units) | 478,568 | 923,636 |

## Statutory Instrument Sponsorship

**Mr. Amess:** To ask the Secretary of State for International Development if he will list the statutory instruments sponsored by his Department since 1997. [10562]

**Hilary Benn:** Lists of all statutory instruments (Sis) from 1 January 1998 to 30 June 2005, prepared by the Office of Public Sector Information (OPSI) have today been placed in the Library. These lists, prepared in alphabetical order by department, detail for each year from 1998 the number and title of each statutory instrument sponsored by the department. There are separate lists for General and Local Sis. Sis which have been originated by departments but which were also Orders in Council are only listed under the Privy Council Office (PCO).

### United Nations Population Fund

**Mr. Amess:** To ask the Secretary of State for International Development what assessment his Department has made of the effect of the activities of the United Nations Population Fund on rates of abortion and sterilisation in China. [10889]

**Mr. Thomas:** I refer the Member for Southend West to the reply I gave to him dated 18 July 2005, *Official Report*, column 1362W.

**Mr. Amess:** To ask the Secretary of State for International Development if he will list countries represented on the Executive Board of the United Nations Population Fund. [10556]

**Mr. Thomas:** The countries represented on the Executive Board of the United Nations Population Fund are:

*Membership of the Executive Board*
*(term expires on the last day of the year indicated)*
*2005*

*African states:*
Botswana (2006)
Cameroon (2006)
Cape Verde (2005)
Republic of the Congo (2006)
Eritrea (2006)
Gambia (2006)
Tunisia (2005)
Uganda (2007)

*Asian and Pacific states:*
China (2006)
Democratic People's Republic of Korea (2007)
India (2005)
Indonesia (2006)
Islamic Republic of Iran (2006)
Kazakhstan (2007)
Nepal (2005)

*Latin America and Caribbean states:*
Cuba (2006)
El Salvador (2005)
Guatemala (2007)
Guyana (2007)
Uruguay (2005)

*Eastern European states:*
Belarus (2007)
Poland (2006)
Russian Federation (2005)
Ukraine (2007)

*Western European and other states:*
Australia (2005)
Denmark (2006)
Germany (2006)
Italy (2005)
Japan (2005)
Netherlands (2006)
Norway (2005)
Portugal (2007)
Sweden (2006)
Switzerland (2007)
Turkey (2007)
United States (2007)

### Water and Sanitation

**Ann McKechin:** To ask the Secretary of State for International Development if he will make a statement on his Department's funding for water and sanitation projects; and what proportions of this funding are provided for *(a)* private sector, *(b)* public sector and *(c)* community sector initiatives. [13385]

**Hilary Benn:** Water and sanitation, like education and health, are fundamental to the development of poor countries. On World Water Day, I announced that the UK will double its funding for water and sanitation in Africa over the next three years, from £47.5 million this year to £95 million in 2007. DFID is prioritising immediate action in 12 African countries. I also announced increased support for the European Union water facility and World Bank water programmes. The key to spending more money well will be helping governments in Africa to improve the priority given to water and sanitation in their own country plans, so that they better reflect the needs and aspirations of the poorest.

DFID will finalise a report, "Financing DFID Support to the Water Sector 2002–04" in August which will provide full statistics on DFID's bilateral funding, contributions to multilateral agencies and civil society organisations, public private partnerships, and contributions to research programmes. It will also estimate the proportions of the poverty reduction budget support (PRBS) and debt relief benefiting the water and sanitation sector. Many programmes directed primarily at education, health and other sectors also include a significant water and sanitation component. The total of all of these forms of support to the water sector is estimated at over £220 million in 2003–04. Comprehensive figures on total DFID support to water in 2004–05 are not yet available.

**Ann McKechin:** To ask the Secretary of State for International Development which water and sanitation projects funded by his Department in the financial years *(a)* 2003–04 and *(b)* 2004–05 were (i) mostly private sector, (ii) mostly public sector and (iii) mostly community sector initiatives. [13386]

**Hilary Benn:** DFID will finalise a report, "Financing DFID support to the water sector 2002–04" in August which will provide full statistics on DFID's bilateral funding, contributions to multilateral agencies and civil society organisations, public private partnerships, and contributions to research programmes. The total of all of these forms of support to the water sector is estimated at over £220 million in 2003–04. Comprehensive figures on total DFID support to water in 2004–05 are not yet available.

### World Bank and IMF

**Vera Baird:** To ask the Secretary of State for International Development what steps his Department is taking to promote oversight of the World Bank and International Monetary Fund by the parliaments of developing countries. [13510]

**Hilary Benn** *[holding answer 19 July 2005]:* DFID recognises the importance of the International Monetary Fund (IMF) and the World Bank being transparent and accountable to parliaments in developing countries. Clearly, such accountability needs to be at the heart of their relationship.

The main means by which parliaments should engage with the Bank and the IMF activities is through the Poverty Reduction Strategy (PRS) process. This is a national strategy for development that sets the agenda, which donors, including the World Bank, should follow in each country.

In the past, parliamentary involvement in the PRS process has often been weak. However, over the past two years, DFID country offices have begun to support stronger involvement of parliamentarians in the PRS process. We are providing active support for parliamentary involvement in Malawi and Tanzania, where an independent Monitoring Group was established to oversee the joint commitments made around the PRS.

In Board meetings, DFID encourages the World Bank and the IMF to engage with parliaments as much as possible. We also actively push for them to make more of their documents public and will continue to pursue this both at Board meetings and in discussions with staff. In fact, in March this year a new Bank disclosure policy was approved which, among other things, makes Board minutes public. The World Bank is now working closely with parliamentarians in some of its borrowing member countries to involve them in the design and implementation of its lending programmes.

The World Bank Institute has a major Parliamentary Strengthening Programme. A key objective is to strengthen the capacity of parliaments to scrutinise the allocation and use of public funds, and oversee the PRS. Since it began in 1996, it has delivered activities in a range of countries including Bangladesh, Cambodia, Ghana, Kenya, Indonesia and Uganda.

The World Bank Institute has also supported the African Parliamentarians Network Against Corruption (APNAC) and the Global Organization of Parliamentarians against Corruption (GOPAC) to encourage parliamentary scrutiny and action against corruption.

Outside the PRS, the main means of oversight is the Parliamentary Network on the World Bank. This provides opportunities for parliaments to scrutinise the World Bank and engage more deeply in development policy issues. The independent Network has some 450 members from over 90 countries and facilitates direct dialogue between parliamentarians and the World Bank to achieve greater transparency of policies and practices.

## NORTHERN IRELAND

### 999 Calls

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many emergency 999 calls were made in Northern Ireland in the last five years, broken down by emergency service. [12070]

**Mr. Woodward:** The numbers of emergency 999 calls received by emergency services in Northern Ireland in the last five calendar years are as follows:

| | *2000* | *2001* | *2002* | *2003* | *2004* | *Total* |
|---|---|---|---|---|---|---|
| Fire | 55,890 | 63,594 | 53,453 | 60,908 | 54,056 | 287,901 |
| Ambulance | 91,392 | 104,167 | 109,870 | 115,009 | 113,242 | 533,680 |
| Police | [1]64,248 | 124,393 | 120,355 | 108,068 | 106,506 | 523,570 |
| Total | 211,530 | 292,154 | 283,678 | 283,985 | 273,804 | 1,345,151 |

[1] Figures prior to June 2000 not available.

### Acute Hospital Beds

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland what the average bed occupancy rate for each acute hospital in Northern Ireland was in the last period for which figures are available. [12379]

**Mr. Woodward:** The information requested is detailed in the following table. The last period for which figures are available is 2003–04.

*Percentage bed occupancy rates (all beds) at each acute hospital 2003–04*

| *Hospital* | *Percentage occupancy* |
|---|---|
| Altnagelvin Area | 80.8 |
| Belfast City | 83.8 |
| Causeway Hospital | 81.4 |
| Craigavon Area | 79.7 |
| South Tyrone | 96.6 |
| Downe | 81.0 |
| Lagan Valley | 82.3 |
| Musgrave Park | 75.7 |
| Mater Infirmorum | 92.5 |
| Daisy Hill | 75.2 |
| Royal Victoria | 88.9 |
| Erne | 69.8 |
| Tyrone County | 85.5 |
| Ulster | 88.3 |
| Antrim | 77.7 |
| Mid Ulster | 75.3 |
| Whiteabbey | 95.8 |
| Total | 83.0 |

This information can be found in the annual hospital statistics publication which is available from the House Library or

http://www.dhsspsni.gov.uk/stats&research/order.asp

Figures that appear in the answer are the most up-to-date and take into account any amendments received subsequent to publication.

### Audiology Goods and Services

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland if he will introduce direct referral of patients in need of a hearing aid from GP to audiology clinic. [12080]

**Mr. Woodward:** Direct referral by a GP to an audiology clinic already occurs in a number of Health and Social Services Trusts.

The Department will consider the feasibility of implementing direct referrals to all Health and Social Services Trusts. Any new proposals will be determined on the basis of what best meets the clinical requirements of individual patients.

### Cancer Research

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how much money was spent on cancer research in Northern Ireland in the last 10 years. [11782]

**Mr. Woodward:** Funding for cancer research was centralised in 1999, when the research and development (R&D) office of the HPSS was established. Since then, that office has allocated a total of £5.9 million for cancer research and related education and training initiatives. Details of expenditure on cancer research are not readily available prior to 1999. The R&D office is currently engaged in a major research programme involving some 15 different projects focussing on the prevention, diagnosis and treatment of cancer.

Funding for cancer research in Northern Ireland is also available from sources outside the Department, for example the Medical Research Council, the United Kingdom Cancer Research Council, the Imperial Cancer Research Foundation, Action Cancer and the Ulster Cancer Foundation. The pharmaceutical industry also provides funding to support clinical trials in cancer therapy. My Department does not hold information on these initiatives centrally.

### Consultations

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the total cost was of each consultation exercise carried out by Northern Ireland Government Departments in the last five years. [12074]

**Angela E. Smith:** The information sought by the hon. Gentleman is not readily available in the format requested. However, the amount spent on consultation exercises undertaken by Northern Ireland governmental Departments, including the Northern Ireland Office, between June 2001 and July 2004 is shown in the following table.

*NI Departments consultation costs*
*June 2001 to July 2004*
*Northern Ireland Administration*

| *Department* | *£ Consultation costs* |
|---|---|
| The Department of Agriculture and Rural Development | 52,840 |
| The Department of Culture, Arts and Leisure | 31,918 |
| The Department of Education | 576,529 |
| The Department of the Environment | 147,589 |
| The Department of Enterprise, Trade and Investment | 49,125 |
| The Department for Employment and Learning | 145,594 |

*NI Departments consultation costs*
*June 2001 to July 2004*
*Northern Ireland Administration*

| *Department* | *£ Consultation costs* |
|---|---|
| The Department of Finance and Personnel | 5,477 |
| The Department of Health, Social Services and Public Safety | 374,378 |
| The Department for Regional Development | 178,164 |
| The Department for Social Development | 232,562 |
| The Office of the First Minister and Deputy First Minister | 499,171 |
| Total | 2, 293,347 |
| The Northern Ireland Office | 28,347 |
| Grand total | 2,321,694 |

### Costello Report

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland how much *(a)* the Department of Education and *(b)* each education and library board plans to spend in (i) the 2005–06 financial year and (ii) in each of the next three financial years on implementing the proposals of the Costello Report on Post-Primary Education; and if he will make a statement. [12958]

**Angela E. Smith:** The total resources available to the Department of Education in the current financial year and over the next two financial years for the implementation of new arrangements for post-primary education are as follows:

| | *£ million* |
|---|---|
| 2005–06 | 5.6 |
| 2006–07 | 7 |
| 2007–08 | 12.1 |

Of this, the following resources have been allocated to the education and library boards to enable them to support and facilitate schools in their sector to deliver the Entitlement Framework by developing collaborative arrangements with other schools and further education colleges and generally to support work by schools to prepare for the implementation of new post-primary arrangements:

| | *£000* |
|---|---|
| 2005–06 | 510 |
| 2006–07[1] | 520 |
| 2007–08[1] | 535 |

[1] Planning figure

Budgets for 2008–09 have not yet been determined.

### DLA

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many people are in receipt of the high rate mobility component of disability living allowance, broken down by *(a)* constituency, *(b)* council area and *(c)* postcode district. [11957]

**Mr. Hanson:** The information requested is shown in the following tables.

| Parliamentary constituency | DLA recipients in receipt of high rate mobility component |
|---|---|
| Belfast East | 3,890 |
| Belfast North | 6,379 |
| Belfast South | 3,461 |
| Belfast West | 8,354 |
| East Antrim | 3,411 |
| East Londonderry | 3,425 |
| Fermanagh and south Tyrone | 4,358 |
| Foyle | 7,035 |
| Lagan Valley | 4,171 |
| Mid Ulster | 4,870 |
| Newry and Armagh | 6,180 |
| North Antrim | 4,036 |
| North Down | 3,015 |
| South Antrim | 4,272 |
| South Down | 5,633 |
| Strangford | 4,377 |
| Upper Bann | 6,566 |
| West Tyrone | 6,236 |
| Postcode missing[1] | 966 |
| Total | 90,635 |

[1] Constituency is assigned using the claimant's postcode, if the postcode is missing it is not possible to assign a constituency.
All data is taken at 31 May 2005.

| Council area | DLA recipients in receipt of high rate mobility component |
|---|---|
| Antrim | 2,210 |
| Ards | 3,358 |
| Armagh | 2,863 |
| Ballymena | 1,956 |
| Ballymoney | 1,362 |
| Banbridge | 2,238 |
| Belfast | 18,258 |

[1] Denotes where there are less than 5 claimants in any one geographical area. Due to customer confidentiality, it is the Department for Social Developments policy not to disclose such information.

[2] Postcode district is assigned using the claimant's postcode, if a postcode is missing it is not possible to assign a postcode district.
All data is taken at 31 May 2005.

## Domestic Violence

**David Simpson:** To ask the Secretary of State for Northern Ireland how many cases of domestic violence were reported to the police in Northern Ireland in *(a)* 1995–96, *(b)* 1996–97 and *(c)* 2004–05. [14007]

**Mr. Woodward:** Figures on cases of domestic violence reported to the police are only available from 2001–02 onwards. These are provided in the following table:

| | *Number of cases of domestic violence reported to police* |
|---|---|
| 2001–02 | 14,937 |
| 2002–03 | 15,512 |
| 2003–04 | 16,926 |
| 2004–05 | 20,959 |

## DRD Retail Planning Document

**Mark Durkan:** To ask the Secretary of State for Northern Ireland if he will make a statement on the timescale for public consultation on the Department of Regional Development's Retail Planning Policy document. [12008]

**Angela E. Smith:** My Noble Friend in another place (Lord Rooker) is considering the draft of Planning Policy Statement 5—Retailing, Town Centres and Commercial Leisure Developments.

## Education Funding

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how much of the recently announced £12.5 million education funding will be allocated to the *(a)* pre-school, *(b)* primary school, *(c)* post-primary school, *(d)* integrated, *(e)* Irish-medium and *(f)* special needs sector; what criteria will be used to determine allocations; how much is new funding; and when he plans to begin distribution of the funding. [11980]

**Angela E. Smith:** Consideration is currently being given to the arrangements for distribution of the £12.5 million to the five education boards and the other education authorities. The £12.5 million comprises £3.5 million for special education, £2.5 million for school meals, £2.5 million for school maintenance, and a total of £4.0 million to help deal with the impact of falling pupil numbers and support the boards in developing shared services. £2.5 million of the £12.5 million is coming from the education budget, and £10.0 million has been found from earmarked funds in the budgets of other Government Departments. It is planned to notify allocations for special education, school meals and maintenance before the beginning of the next school year. Allocations in relation to falling pupil numbers and shared services are conditional on boards bringing forward robust plans.

## Educational Psychologists

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland how many full-time equivalent posts for educational psychologists there are in *(a)* each education and library board and *(b)* Northern Ireland; and how many of those posts are vacant. [12381]

**Angela E. Smith:** The information requested is as follows:

| *Education and library board* | *Number of FTE[1] educational psychologist posts* | *Number of vacancies* |
|---|---|---|
| Belfast education and library board | 26.12 | nil |
| Southern education and library board | 29.31 | nil |
| Western education and library board | 25.5 | 2 |
| North Eastern education and library board | 26.5 | 1 |
| South Eastern education and library board | 22.8 | nil |
| Total Northern Ireland | 130.23 | 3 |

[1] Full Time Equivalent

## Emergency Services (Attacks)

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many attacks have been recorded on members of each emergency service in Northern Ireland in each of the last five years. [12069]

**Mr. Woodward:** Recorded attacks on fire and rescue and ambulance services were as follows:

| | *Northern Ireland fire and rescue service* | *Northern Ireland ambulance service* |
|---|---|---|
| 2000 | [1]— | 38 |
| 2001 | [2]124 | 95 |
| 2002 | 410 | 122 |
| 2003 | 327 | 188 |
| 2004 | 327 | 125 |
| Totals | 1188 | 568 |

[1] No records of attacks were kept prior to September 2001.
[2] From September.

Attacks on the Police Service of Northern Ireland were recorded as follows:

| | *Number* |
|---|---|
| 2000–01 | 1,421 |
| 2001–02 | 2,107 |
| 2002–03 | 1,691 |
| 2003–04 | 1,085 |
| 2004–05 | 1,331 |
| Total | 7,635 |

## English Language Support

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will assess the adequacy of English as an additional language support in each education and library board area in Northern Ireland. [13280]

**Angela E. Smith:** The Department of Education has written to each of the education and library boards asking them to advise the Department of the action they are taking to ensure the provision of adequate EAL services in their area.

The Department has met with the Northern Ireland Council for Ethnic Minorities (NICEM), representatives of the Education and Library Boards and the Ulster Teachers' Union (UTU) and Irish National Teachers' Organisation (INTO) to discuss

how best to ensure the language service will be matched to the needs of these children. Discussions will continue over the summer months.

### Hospital Telephone Calls

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many telephone calls were received each week on average by each of the hospitals in the Province in the last period for which figures are available. [10960]

**Mr. Woodward:** The information requested is not available centrally.

### Hospitals

**Mark Durkan:** To ask the Secretary of State for Northern Ireland how many *(a)* intensive care and *(b)* high dependency unit beds there are in hospitals in Northern Ireland; how many (i) nursing and (ii) other staff are attached to each unit; and what plans he has to increase the number of (A) beds and (B) nursing staff at such units. [11309]

**Mr. Woodward:** The information is as follows:

*Table 1: Total number of intensive care and high dependency beds in hospitals in Northern Ireland as at 8 July 2005.*

| Hospital | ICU | HDU |
|---|---|---|
| Altnagelvin | 5 | 5 |
| Antrim | 6 | 2 |
| Belfast City | 7 | 5 |
| Causeway | 2 | 2 |
| Craigavon | 6 | 2 |
| Daisy Hill | 0 | 5 |
| Erne | 3 | 4 |
| Lagan Valley | 0 | 2 |
| Mater | 4 | 2 |
| Mid-Ulster | 0 | 3 |
| Royal | 17 | 8 |
| Tyrone County | 0 | 2 |
| Ulster | 6 | 4 |
| Whiteabbey | 0 | 2 |

*Source:*
HPSS Trusts

In addition to beds included in table 1, there are a number of critical care beds held for a specific purpose:

14 post operative high dependency unit beds are situated at Greenpark HSS Trust;

Eight intensive care and six high dependency unit beds are situated at the Royal Victoria hospital in the cardiac surgery specialty;

Seven paediatric intensive care beds and two high dependency beds are located in the Royal Belfast hospital for sick children.

*Table 2: Total number of critical care beds, and the number of dedicated nursing staff attached to critical care units[1], in hospitals in Northern Ireland as at 8 July 2005*

| Hospital | Total beds | Nursing staff[2] (WTE) |
|---|---|---|
| Altnagelvin | 10 | 57.17 |
| Antrim | 8 | 47.46 |
| Belfast City | 12 | 67.5 |
| Causeway | 4 | 22.13 |
| Craigavon | 8 | 50.25 |

*Table 2: Total number of critical care beds, and the number of dedicated nursing staff attached to critical care units[1], in hospitals in Northern Ireland as at 8 July 2005*

| Hospital | Total beds | Nursing staff[2] (WTE) |
|---|---|---|
| Daisy Hill | 5 | 9.67 |
| Erne | 7 | 22.61 |
| Mater | 6 | 26.0 |
| Royal | 25 | 157.59 |
| Ulster | 10 | 56.78 |

[1] It has not been possible to provide a breakdown of staffing levels between intensive care and high dependency beds as staff generally work between these two critical care units.
[2] Nursing staff includes qualified and unqualified staff.
*Source:*
HPSS Trusts

It has not been possible to provide an accurate figure for nursing staff in all critical care units. The hospitals listed in the table 2 have a specific complement of nursing staff dedicated to their critical care units. Critical care units at other hospitals may be staffed by a team of nurses who cover critical care and other specialties eg surgery.

Other staff attached to critical care units include administrative and clerical staff, professional and technical staff and medical staff. A complete and fully representative figure for the number of other staff attached to critical care units is not available as they are often drawn from a hospital's pool of staff.

Intensive care and high dependency provision has been expanded from 64 in 2000 to over 100 beds at present. The further development of critical care is regularly reviewed, and some additional capacity, with corresponding staff increases, is anticipated during the 2005–06 financial year. In the longer term, capacity at the Royal will increase from the current complement of 25 beds to 40 beds following the opening of phase 2, which is expected in 2010.

### Message in a Bottle Scheme

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will introduce to Northern Ireland the Message in a Bottle Scheme used in Scotland. [13277]

**Mr. Woodward:** The Message in a Bottle Scheme is a community safely initiative for vulnerable people. It is promoted in Great Britain on a voluntary basis by, among others, Lions and Rotary Clubs and Neighbourhood Watch Schemes and sponsored by local authorities, ambulance services trusts and police forces. I have asked the Northern Ireland Ambulance Service to investigate how effective the scheme is judged to be elsewhere and the scope to introduce it in Northern Ireland.
I will write to the hon. Lady when more information is available.

### National Lottery

**Lady Hermon:** To ask the Secretary of State for Northern Ireland if he will publish the report of the departmental study group on the impact on churches and others opposed to gambling of reliance of the voluntary and community sector on lottery-based funding. [13278]

**Mr. Hanson:** The Voluntary and Community Unit of the Department of Social Development commissioned research jointly with the Community Relations Council to assess the level of access to lottery funds by religious groups and the impact on groups with religious objections to applying for lottery funding. The Department and the Council are in the process of preparing a summary publication of the research for general release later in the year when the research report will be placed on the DSD website.

## Pensions

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many people are in receipt of state retirement pensions in each *(a)* constituency, *(b)* council area and *(c)* postcode area in Northern Ireland. [11981]

**Mr. Hanson:** The information requested is shown in the following tables.

| *Parliamentary constituency* | *Total RP recipients* |
|---|---|
| Belfast East | 16,437 |
| Belfast North | 15,364 |
| Belfast South | 14,426 |
| Belfast West | 11,823 |
| East Antrim | 14,339 |
| East Londonderry | 13,605 |
| Fermanagh and South Tyrone | 13,288 |
| Foyle | 12,465 |
| Lagan Valley | 16,813 |
| Mid Ulster | 11,728 |
| Newry and Armagh | 14,605 |
| North Antrim | 18,096 |
| North Down | 17,153 |
| South Antrim | 15,097 |
| South Down | 15,719 |
| Strangford | 16,624 |
| Upper Bann | 16,017 |
| West Tyrone | 11,607 |
| Postcode missing[1] | 3,146 |
| Total | 268,352 |

[1] Constituency is assigned using the claimant's postcode, if the postcode is missing it is not possible to assign a constituency.

*Note:*

All data are taken at 4 June 2005.

| *District council* | *Total RP recipients* |

## Personal Care

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what response he plans to make to the report submitted by the inter-departmental group on personal care to the Northern Ireland Executive on 8 August 2002. [11621]

**Mr. Woodward:** I have asked officials to update the findings of the report submitted to the Northern Ireland Executive on 8 August 2002. I shall then consider the revised costed options in the context of other Budget priorities before making any response.

## Police Service

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many typist posts there were within the Police Service Northern Ireland on 1 January; and how many are anticipated to be required at *(a)* 1 January 2006, *(b)* 1 January 2007 and *(c)* 1 January 2008, broken down by district command unit area. [11234]

**Mr. Woodward:** The following table provides the number of typist posts within the PSNI as of the 1 January 2005 to 2008. Unfortunately, the individual area figures for 2007 and 2008 are not yet available and will be determined by workload and staff modelling in the preceding years.

| Location | 1 January 2005 | 1 January 2006 | 1 January 2007 | 1 January 2008 |
|---|---|---|---|---|
| HQ Departments | 96.25 | 103 | [1] | [1] |

## Pupil Expulsions/Misbehaviour

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many children were *(a)* suspended for a time and *(b)* permanently expelled from a school in Northern Ireland in each of the past five years, broken down by education board. [12044]

**Angela E. Smith:** The information requested is as follows:

*(a) the number of pupils suspended in each education and library board*

| | BELB | WELB | NEELB | SEELB | SELB | Total |
|---|---|---|---|---|---|---|
| 1999–2000 | n/a | n/a | n/a | n/a | n/a | n/a |
| 2000–01 | 1,066 | 919 | 1,189 | 803 | 763 | 4,740 |
| 2001–02 | 1,277 | 882 | 1,107 | 919 | 914 | 5,099 |
| 2002–03 | 1,014 | 906 | 1,201 | 992 | 1,169 | 5,282 |
| 2003–04 | 1,191 | 936 | 1,286 | 987 | 1,085 | 5,485 |

n/a = not available.

*(b) the number of pupils expelled in each education and library board area*

| | BELB | WELB | NEELB | SEELB | SELB | Total |
|---|---|---|---|---|---|---|
| 1999–2000 | 19 | 25 | 20 | 3 | 16 | 83 |
| 2000–01 | 5 | 19 | 29 | 11 | 16 | 80 |
| 2001–02 | 7 | 16 | 18 | 12 | 23 | 76 |
| 2002–03 | 18 | 12 | 17 | 16 | 7 | 70 |
| 2003–04 | 6 | 12 | 15 | 12 | 26 | 71 |

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many pupils were responsible for *(a)* bullying of a pupil, *(b)* physical attack on staff and *(c)* verbal abuse of staff in each school in the South Eastern education and library board in each of the past two years. [11983]

**Angela E. Smith:** The Department of Education do not collect or publish this information for individual schools. Information about the reasons for the number of suspensions in each education and library board in 2002–03 and 2003–04 and for expulsions in 2003–04 is available on the Department's website at:

www.deni.gov.uk/facts_figures/education_stats/index_other.htm

## Reasonable Chastisement

**Mark Durkan:** To ask the Secretary of State for Northern Ireland what timetable he expects to be followed for legislation to amend the law on reasonable chastisement in Northern Ireland; whether he expects this amendment to be contained in new child protection legislation; and if he will make a statement. [12063]

**Angela E. Smith:** The parliamentary debates on physical punishment, which resulted in the enactment of section 58 of the Children Act 2004, have been closely followed and the possible introduction of a similar amendment in Northern Ireland is the subject of ongoing inter-departmental discussions.

## Replica Firearms

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many crimes have been committed in each of the last three years where replica firearms have been used. [11778]

**Mr. Woodward:** The Chief Constable of the Police Service of Northern Ireland has informed me that for statistical purposes there is no distinction made between replica and imitation firearms and that all incidents of misuse are recorded as imitation firearms.

The number of crimes in which an imitation firearm was used in each of the last three years is as follows:

| | Number of crimes |
|---|---|
| 2002–03 | 36 |
| 2003–04 | 42 |
| 2004–05 | 24 |

## Residential Addresses

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many residential addresses there are in each *(a)* constituency, *(b)* council area and *(c)* postcode area in Northern Ireland. [11956]

**Angela E. Smith:** The numbers of residential properties in each of the Northern Ireland constituencies is set out in Table A.

The numbers of residential properties in each of the Northern Ireland council districts is set out in Table B.

Information regarding the number of residential properties in each post-code area could be obtained only at a disproportionate cost.

*Table A: Count of residential property by parliamentary constituency*

| Parliamentary constituency | Count |
|---|---|
| Belfast East | 36,564 |
| Belfast North | 38,131 |
| Belfast South | 44,329 |
| Belfast West | 32,939 |
| East Antrim | 35,974 |
| East Londonderry | 38,178 |
| Fermanagh and South Tyrone | 38,359 |
| Foyle | 40,426 |
| Lagan Valley | 41,863 |
| Mid Ulster | 32,329 |
| Newry and Armagh | 39,731 |
| North Antrim | 42,001 |
| North Down | 37,415 |
| South Antrim | 39,122 |
| South Down | 41,111 |
| Strangford | 40,933 |
| Upper Bann | 43,035 |
| West Tyrone | 33,021 |

*Table B: Count of residential property by local government district council*

| Local government district council | Count |
|---|---|
| Antrim | 18,376 |
| Ards | 31,257 |
| Armagh | 21,334 |
| Ballymena | 23,389 |
| Ballymoney | 10,936 |
| Banbridge | 17,449 |
| Belfast | 123,186 |
| Carrickfergus | 16,062 |
| Castlereagh | 27,724 |
| Coleraine | 26,639 |
| Cookstown | 12,610 |
| Craigavon | 33,640 |
| Derry | 40,426 |
| Down | 25,833 |
| Dungannon | 19,624 |
| Fermanagh | 24,169 |
| Larne | 13,513 |
| Limavady | 11,539 |
| Lisburn | 42,719 |
| Magherafelt | 14,285 |
| Moyle | 7,676 |
| Newry and Mourne | 33,717 |
| Newtownabbey | 33,410 |
| North Down | 32,927 |
| Omagh | 18,541 |
| Strabane | 14,480 |

## School Governance

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what plans his Department has to review arrangements for school governance in Northern Ireland; and if he will make a statement. [13279]

**Angela E. Smith:** A review of the arrangements for school governance in Northern Ireland has already commenced with a preliminary examination of the training and support programmes available for school governors and a focused review of school governance in the integrated school sector. The Department will gradually expand the review to cover a range of governance issues across all school sectors and will make proposals for change in due course.

## Special Educational Needs

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland what the *(a)* average and *(b)* longest time taken to process and determine an application for a statement of special educational needs was in (i) Northern Ireland and (ii) each education and library board area in the last year for which figures are available; and if he will make a statement. [12378]

**Angela E. Smith:** In relation to the longest time taken, I refer the hon. Gentleman to the previous answer given to the hon. Member for Strangford on 20 June, *Official Report*, column 866W.

I shall write further when I receive the details from the Education and Library Boards relating to the average time.

## Speech/Occupational Therapists

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland how many established full-time equivalent posts there are in each health and social services board for *(a)* speech therapists and *(b)* occupational therapists; and how many of those posts are vacant. [12383]

**Mr. Woodward:** Information requested is provided in the following tables.

*Number of speech therapists and occupational therapists by health and social services board as at 31 March 2005 (excluding current vacancies)*

| | Speech therapists | | Occupational therapists | |
|---|---|---|---|---|
| *HPSS board* | *Headcount* | *WTE* | *Headcount* | *WTE* |
| NHSSB | 83 | 73.55 | 159 | 143.07 |

## Super Output Areas

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland if he will list the super output areas (SOAs) in North Belfast that are in the top 10 percent. of most deprived SOAs in Northern Ireland. [11602]

**Angela E. Smith:** The following table lists the 19 super output areas (SOAs) in Belfast North parliamentary constituency that are within the most deprived ten percent. of SOAs in Northern Ireland.

*Table: SOAs in Belfast North parliamentary constituency that are within the most deprived ten percent. of SOAs in Northern Ireland*[1,2]

## Unemployment

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the unemployment rate in Northern Ireland was in each of the last 10 years. [12055]

**Angela E. Smith:** Labour force survey estimates of the unemployment rate in Northern Ireland for each of the last 10 years can be found in the following table:

*Northern Ireland unemployment rates (seasonally adjusted)*

| *Period (spring)* | *Percentage Unemployment rate* |
|---|---|
| 1995 | 11.2 |
| 1996 | 9.8 |
| 1997 | 7.8 |
| 1998 | 7.5 |
| 1999 | 7.4 |
| 2000 | 7.1 |
| 2001 | 6.3 |
| 2002 | 5.5 |
| 2003 | 5.3 |
| 2004 | 5.0 |
| 2005 | 4.9 |

NI Labour Force Survey

### Water Rates

**Mrs. Spelman:** To ask the Secretary of State for Northern Ireland whether the Government's proposals for reform of water rates in Northern Ireland are intended to be revenue-neutral. [12078]

**Mr. Woodward:** Unlike in England and Wales, domestic customers in Northern Ireland do not pay separate water charges. The current proposals for the introduction of direct domestic charges for water and sewerage services, together with the extension of the non-domestic charging regime, are intended to recover the full costs of delivering water and sewerage services in Northern Ireland.

## HEALTH

### "Influence of the Pharmaceutical Industry" Report

**Paul Flynn:** To ask the Secretary of State for Health when her Department expects to respond to the Health Select Committee's Fourth Report of Session 2004–05, on the Influence of the Pharmaceutical Industry, HC 42. [11320]

**Jane Kennedy:** The Government are currently considering their response to the Health Select Committee report, which will be published shortly.

### Adverse Drug Reactions

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 4 July 2005, *Official Report*, column 201W, on adverse drug reactions, what the comparable figures for *(a)* 1997, *(b)* 2001 and *(c)* 2003 were. [11357]

**Jane Kennedy:** The table shows the total number and number of fatal suspected adverse drug reaction (ADR) reports received via the yellow card scheme for patients aged 50 to 64, 65 to 74 and 75 years and over in 1997, 2001 and 2003.

| *Age (years)* | *Number of ADR reports* | *Number of fatal ADR reports* |
|---|---|---|
| *1997* | | |
| 50–64 | 3,838 | 84 |
| 65–74 | 2,439 | 88 |
| 75 and over | 1,765 | 106 |
| *2001* | | |
| 50–64 | 5,145 | 137 |
| 65–74 | 2,835 | 104 |
| 75 and over | 2,248 | 151 |
| *2003* | | |
| 50–64 | 3,687 | 139 |
| 65–74 | 2,543 | 118 |
| 75 and over | 2,525 | 170 |

It is important to note that a report of an adverse drug reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease. It is particularly important to note that causality has not been established for fatal reports.

### Adverse Drug Reactions (Older People)

**Mr. Burstow:** To ask the Secretary of State for Health what estimate she has made of the number of bed days lost due to adverse drug reactions in *(a)* 50 to 64-year-olds, *(b)* 65 to 74-year-olds and *(c)* over 75-year-olds in each of the last five years. [6656]

**Jane Kennedy:** No estimate has been made by the Medicines and Healthcare products Regulatory Agency (MHRA) of the number of bed days lost due to adverse drug reactions. The MHRA has, however funded a study conducted from November 2001 to April 2002, published in the British Medical Journal (BMJ) on 2 July 2004[1], conducted in two large hospitals in Merseyside. This suggested that adverse drug reactions account for 6.5 per cent. of hospital admissions. The median bed stay was eight days, accounting for 4 per cent. of the hospital bed capacity. Patients admitted with adverse drugs reactions, who were of a median age of 76 years, were significantly older than patients without adverse drug reactions, who were of a median age of 66 years. A copy of the BMJ article is available in the Library.

### Alcohol-related Illnesses

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 11 July 2005, *Official Report*, column 728W, to the hon. Member for Southend West, (Mr. Amess) on hospitals (alcohol-related cases), what equivalent information is available for *(a)* Greater London, *(b)* each strategic health authority and *(c)* each NHS trust in London. [13481]

**Caroline Flint:** The information requested is shown in the tables.

*Count of finished admission episodes for selected alcohol related diseases[1] strategic health authorities (SHAs) of treatment—London, method of admission: emergency national health service hospitals, England, datayear, 2003–04*

[1] Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis;
F10: Mental and behavioural disorders due to use of alcohol.
K70: Alcoholic liver disease.
T51: Toxic effect of alcohol.
*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Due to reasons of confidentiality, figures between one and five have been suppressed and replaced with *.
3. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
4. Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.

HES, Health and Social Care Information Centre.

### Alzheimer's Disease

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what research she has commissioned to determine more cost-effective ways of treating Alzheimer's disease in addition to that being undertaken by the National Institute for Health and Clinical Excellence. [11589]

**Mr. Byrne** *[holding answer 13 July 2005]:* The National institute for Health and Clinical Excellence (NICE) is a special health authority, set up in April 1999 specifically to give advice to the national health service on best clinical practice, including the clinical and cost effectiveness of drugs and other treatments.

The majority of the Department's expenditure on health research is allocated to and managed by NHS organisations. Details of individual projects supported in the NHS, including some 160 to do with Alzheimer's disease can be found on the national research register at: www.dh.gov.uk/research.

### Ambulance Services

**Mr. Hoyle:** To ask the Secretary of State for Health (1) how many ambulances there are in Lancashire; and if she will make a statement; [12427]

(2) how many ambulances are operated by Lancashire ambulance trust; how many people work for Lancashire ambulance trust; and what assessment she has made of the service provided by the trust. [12549]

**Mr. Byrne:** The number of ambulances operated by Lancashire ambulance service national health service trust is not held centrally.

Each ambulance service should plan to provide appropriate resources to meet local demand. This may include resources in addition to ambulance provision, for example, using community paramedics or emergency care practitioners.

As a result of the Department's strategic review of ambulance services, we expect the number of ambulance vehicles to increase over the next few years. The size of the fleet and fleet mix will vary across the country depending on operational and geographical requirements.

The number of staff employed by the Lancashire ambulance service NHS trust is shown in the table.

| *Lancashire ambulance service NHS trust* | *Headcount* |
|---|---|
| All non-medical staff | 924 |
| *Professionally qualified clinical staff* | 622 |
| Ambulance staff | 622 |
| *Support to clinical staff* | 207 |
| Support to doctors and nurses | 19 |
| Support to ambulance staff | 188 |
| *NHS infrastructure support* | 95 |
| Central functions | 36 |
| Hotel property and estate staff | 18 |
| Managers and senior managers | 41 |

*Source:*
Health and Social Care Information Centre Non-Medical Workforce Census 2004

NHS trusts are assessed by the Healthcare Commission on an annual basis. In 2004–05, Lancashire ambulance service NHS trust received three stars, the highest rating.

### Arm's Length Bodies

**Mr. Lansley:** To ask the Secretary of State for Health what arm's length bodies have been *(a)* established and *(b)* dissolved by her Department since 30 November 2004. [12623]

**Jane Kennedy:** The list shows which of the Department's arm's length bodies have been established and dissolved since 30 November 2004.

*Bodies dissolved*

Family Health Services Appeal Authority
Health Development Agency
National Clinical Assessment Authority
National Radiological Protection Board
NHS Information Authority
NHS Modernisation Agency
NHS University (NHSU)
Public Health Laboratory Service

*Bodies established*

Human Tissue Authority
Health and Social Care Information Centre
NHS Connecting for Health
NHS Institute for Innovation and Improvement

### Arm's-length Bodies

**Mr. Lansley:** To ask the Secretary of State for Health how many staff *(a)* by headcount and *(b)* by full-time equivalent, were employed in the arm's length bodies contained in her Department's review of arm's length bodies as at (i) September 2003, (ii) September 2004 and (iii) the most recent date for which figures are available. [3359]

**Jane Kennedy:** The numbers of staff working in the Department's arm's length bodies are not readily available for September 2003 and 2004. The data shown in the table is available only in whole-time equivalents.

| *Body title* | *31 March 2003* | *1 April 2004* | *1 April 2005* |
|---|---|---|---|
| Council for Healthcare Regulatory Excellence | n/a | 8 | 11 |
| Commission for Patient and Public Involvement in Health | 5 | 197 | 189 |
| Commission for Health Improvement | 347 | n/a | n/a |
| Commission for Social Care Inspection | n/a | 2,622 | 2,551 |

### Bed Occupancy Rates

**Mr. Lidington:** To ask the Secretary of State for Health what the average bed occupancy rate for each acute hospital in England was in the last period for which figures are available. [12388]

**Mr. Byrne:** I refer the hon. Member to the reply I gave the hon. Member for Sutton and Cheam (Mr. Burstow) on 29 June 2005, *Official Report*, column 1606W.

### Broadmoor

**Tim Loughton:** To ask the Secretary of State for Health (1) how many people with Asperger's Syndrome are resident at Broadmoor; [12796]

(2) how many people diagnosed with Asperger's syndrome have left Broadmoor in each of the last five years. [12797]

**Mr. Byrne:** There are currently 16 people resident at Broadmoor hospital who have Asperger's syndrome of some degree. The number of patients diagnosed with Asperger's syndrome that have left Broadmoor since 2000 is shown in the table.

| | *Number of patients discharged* |
|---|---|
| 2000 | 0 |
| 2001 | 1 |
| 2002 | 1 |
| 2003 | 1 |
| 2004 | 1 |
| 2005 | 1 |

## Cancer Treatment

**Lady Hermon:** To ask the Secretary of State for Health what research has been carried out by her Department into the effectiveness of Anastrozole in treating breast cancer. [11286]

**Jane Kennedy:** None. It is for the manufacturer to demonstrate the safety and efficacy of medicinal products.

**Mr. Roger Williams:** To ask the Secretary of State for Health what steps the National Institute for Health and Clinical Excellence is taking to expedite approval of cancer treatments. [11513]

**Jane Kennedy:** The National Institute for Health and Clinical Excellence (NICE) is an independent organisation which develops its guidance, including for cancer treatments, after careful consideration of the available evidence and in consultation with stakeholders. The process by which NICE develops its guidance is a matter for the Institute. Its processes have been developed through wide consultation, are transparent and have been endorsed by the World Health Organisation. NICE reviews its processes regularly in order to identify opportunities for efficiencies in the way they are applied.

## Chlamydia

**Dr. Evan Harris:** To ask the Secretary of State for Health how many NHS facilities in England which test for Chlamydia *(a)* exclusively use the nucleic acid amplification test (NAAT), *(b)* use NAAT alongside other methods and *(c)* do not use NAAT; and what percentage of all Chlamydia tests in 2004 used NAAT. [12953]

**Caroline Flint:** This information is not collected centrally. Nucleic acid amplification tests (NAATs) are a mandatory requirement of the national chlamydia screening programme, which will be rolled-out across the whole country by March 2007. The chief medical officer wrote to all strategic health authorities in September 2003 and outlined the clinical governance issues raised by the continued use of sub-optimal tests for the detection of chlamydia infection. The Department also announced a further £8 million investment to assist national health service laboratories to support the change to NAATs.

## Clinical Decisions

**Sandra Gidley:** To ask the Secretary of State for Health what assessment she has made of the conclusion of the National Institute for Health and Clinical Excellence Citizens' Council on the account to be taken of age as a factor in making clinical decisions. [11428]

**Jane Kennedy:** The National Institute for Health and Clinical Excellence (NICE) consulted on the draft "Social Value Judgements Guidelines" for a period of three months ending on 30 June 2005. NICE is currently considering responses to that consultation.

## Clinical Negligence

**Steve Webb:** To ask the Secretary of State for Health what the total level of financial provision by the NHS in England is for future liabilities in respect of clinical negligence; if she will estimate what the level of such provision was on a consistent basis in each year since 1997; if she will break down the most recent total by type of liability; and if she will make a statement on recent trends in such liabilities. [10940]

**Jane Kennedy** *[holding answer 11 July 2005]:* The total level of financial provision by the national health service in England for future liabilities in respect of clinical negligence, as agreed by the National Audit Office, is shown in the table.

| | *Provision for clinical negligence (£ billion)* |
|---|---|
| 1996–97 | 1.3 |
| 1997–98 | 2.3 |
| 1998–99 | 3.2 |
| 1999–2000 | 3.9 |
| 2000–01 | 4.4 |
| 2001–02 | 5.25 |
| 2002–03 | 5.89 |
| 2003–04 | 7.78 |

In 2003–04, the provision for clinical negligence was calculated as shown in the table.

| *Provision* | *Amount (£ billion)* |
|---|---|
| Opening position | 5.89 |
| New provisions for reported claims | 0.17 |
| Increase in provisions for incidents incurred but not yet reported | 0.34 |
| Treasury change of discount rate | 1.39 |
| Total | [1]7.78 |

[1] Totals subject to rounding

*Notes:*

1. Treasury changes in accounting practice over the years mean that figures are not directly comparable.
2. Increases in provisions for incidents incurred but not yet reported were only recorded from 2002–03.

**Mr. Amess:** To ask the Secretary of State for Health how many primary care trusts have settled claims out of court for operations that resulted in the patient becoming permanently disabled in each of the last 10 years. [12734]

**Jane Kennedy:** This information is not collected centrally.

## Clinical Trials

**Mr. Baron:** To ask the Secretary of State for Health what assessment she has made of the impact of the EU

Clinical Trials Directive on *(a)* the (i) administrative burden involved in undertaking and (ii) cost of clinical trials and *(b)* the ability of hospitals and patients to be involved in clinical trials. [12451]

**Jane Kennedy** *[holding answer 18 July 2005]:* The Government are monitoring the impact of the clinical trials directive in collaboration with its partners in clinical research. The Medicines and Healthcare products Regulatory Agency (MHRA) is the licensing authority for clinical trials under the Medicines for Human Use (Clinical Trials) Regulations 2004, which implemented Directive 2001/20/EC (the Clinical Trials Directive) in United Kingdom law with effect from 1 May 2004. The MHRA asked the UK Clinical Research Collaboration (UKCRC) to analyse the available evidence on impacts that can be attributed to the Directive. The UKCRC has reviewed the preliminary evidence and found that no sources of information measure reliably the effects of the directive on the volume and type of clinical research, the difficulties or benefits it has produced, or the impact on research costs. It has agreed on the need for a reliable and independently derived set of metrics.

At this early stage, there is evidence of good performance by the MHRA in approving clinical trials promptly and of a reduction in the time taken for ethics committee review. There is also evidence that in other respects, in 2004–05 it took longer to set up trials and to secure permission to begin them in some national health service organisations. This may in part have been due to confusion in universities and the NHS about the interpretation of the law, leading to inconsistent behaviour and delay in reaching agreement. Financial information also suggests an initial decline in the numbers of early phase trials recruiting volunteers outside the NHS. Members of the UKCRC, including the Government, have agreed to collaborate on actions designed to speed up the approval of trials and reduce costs. The Government aims to work with its partners to build on this country's excellent reputation in clinical research.

### Clostridium Difficile

**Mr. Lidington:** To ask the Secretary of State for Health pursuant to the answer of 27 June 2005, *Official Report*, columns 1344–45W on *Clostridium difficile*, what the first date was on which *Clostridium difficile* was reported to her Department in respect of each hospital trust. [11106]

**Jane Kennedy** *[holding answer 11 July 2005]:* The Department is not routinely informed of laboratory typing results of *Clostridium difficile* isolates. The data provided in the answer of 27 June 2005, *Official Report*, columns 1344–45W, were obtained on 13 June as part of information gathering following the outbreak at Stoke Mandeville hospital and included all isolates of type 27 detected since 1999.

### Commission for Healthcare Regulatory Excellence

**Mr. Lansley:** To ask the Secretary of State for Health whether she has initiated a review of the powers available to the Commission for Healthcare Regulatory Excellence following the recommendations in the fifth report of the Shipman Inquiry; and if she will make a statement. [12529]

**Jane Kennedy:** We are currently working on our response to the recommendations in the fifth report of the Shipman Inquiry, and intend to reply to the report as a whole in a Command Paper. I do not propose to respond to questions about individual recommendations before laying our report before Parliament.

### Complementary Medical Practitioners

**Mr. Lansley:** To ask the Secretary of State for Health when she plans to publish for consultation proposals for the statutory regulation of complementary and alternative medical practitioners. [12628]

**Jane Kennedy:** On 22 December 2004, the Department announced that a £900,000 grant would go to the Prince of Wales's Foundation for Integrated Health, to support its ongoing work on the regulation of complementary therapies.

Proposals for statutory regulation of complementary and alternative medical practitioners will be considered in the context of the outcome of the current review of non-medical regulation, which is due to report by the end of 2005.

### Correspondence

**Mr. Paul Goodman:** To ask the Secretary of State for Health under what circumstances letters signed by hon. or right hon. Members and sent to her on behalf of constituents are answered by e-mails sent by customer call centre officials; and if she will make a statement. [12368]

**Jane Kennedy** *[holding answer 18 July 2005]:* All letters written by hon. or right hon. Members on behalf of constituents to the Secretary of State are answered by letter by the Secretary of State or by Ministers of the Department.

### Delayed Discharges

**Sandra Gidley:** To ask the Secretary of State for Health how many delayed discharge patients there were in hospital in the latest month for which figures are available, broken down by local authority area; and how many patients in each hospital had their discharge delayed while awaiting community care packages in that period. [9897]

**Mr. Byrne:** Information showing the number of delayed discharges by local authority and the number of patients delayed while waiting for a care package in their own home by national health Service trust or primary care trust as at April 2005 has been placed in the Library.

### Dementia

**Helen Jones:** To ask the Secretary of State for Health how many units there are in England which specialise in the care of people with early onset dementia; and where they are situated. [5107]

**Mr. Byrne:** This information is not collected centrally. However, as part of the annual mapping exercise of adult mental health services, organisations have in some instances indicated where services for those with early onset dementia are provided. Durham university's centre for public mental health, which carries out the mapping exercise on behalf of the Department, can produce this information on request.

## Dentistry

**Mr. Drew:** To ask the Secretary of State for Health what inspection procedures are in place for the work of dentists who undertake NHS work. [6748]

**Ms Rosie Winterton:** The Dental Practice Board (DPB) for England and Wales is responsible for establishing the probity of payment claims for dentists working in the national health service general dental service and making payments to them for the work they have done. The DPB continually monitors dentists prescribing patterns and activity and the quality of treatment provided through the dental reference service (DRS). The DRS scrutinises a randomly selected sample of payment claims using questionnaires to patients, clinical record checks and treatment examinations. The form that patients sign at the dentist includes an agreement to attend an examination if requested. Adverse reports arising from the 55,000 random references are investigated and can be referred to the primary care trust (PCT) for disciplinary action.

The DRS is currently piloting new clinical monitoring arrangements in order to support practitioners and PCTs with clinical governance and quality assurance issues under the new dental contracting arrangements, which will come into effect next April.

**Steve Webb:** To ask the Secretary of State for Health if she will estimate the percentage of *(a)* adults, *(b)* children and *(c)* the total population registered with (i) a general dental services dentist and (ii) a personal dental services dentist in (A) England, (B) each strategic health authority and (C) each primary care trust in each year since 1997; and if she will make a statement. [8092]

**Ms Rosie Winterton:** The information requested has been placed in the Library.

**Mr. MacShane:** To ask the Secretary of State for Health if she will make a statement on the availability of NHS dental care in Rotherham. [8884]

**Ms Rosie Winterton:** Over the past two years, Rotherham primary care trust (PCT) has made considerable progress in improving access to national health service dentistry.

In 2004–05, Rotherham PCT received a total of £182,000 in capital funding and £78,000 in revenue funding, a large proportion of which has been distributed to seven practices within the PCT area to increase NHS access. The PCT anticipates this funding will deliver an additional 10,560 NHS patient registrations. This funding is also being used to fund the development of two new dental surgeries in a health centre in Rotherham, expected to be completed in 2005–06. The PCT has also been awarded funding to re-open a recently closed surgery, which should provide 2,833 additional patient registrations.

As at 31 May 2005, there are 33 dental practices within the Rotherham PCT area, a number of which are currently accepting new NHS patients. The Rotherham Health Advice Centre actively manages access to NHS dentistry by directing patients to practices with vacancies as they become available. The dental access centre in the Dearne Valley accepts patients from all over South Yorkshire for a range of emergency dental treatment. In addition, three practices within Rotherham provide emergency pain-relief sessions.

Rotherham PCT has recruited three Polish dentists from the Department's central international recruitment initiative. These dentists are now providing NHS services to patients in the area. The PCT has also been proactive in working with its dentists to move them to personal dental service contracts—with over 60 per cent. of practices having taken up this opportunity to move to new ways of working.

## Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Health how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11484]

**Jane Kennedy:** Information on core Departmental numbers for the last five years is available at:

www.civilservice.gov.uk/management_information/statistical_information/statistics/archived data/archived data on staff in post/index.asp

Copies of Civil Service statistics are also available in the Library.

## Digital Hearing Aids

**Paul Farrelly:** To ask the Secretary of State for Health (1) what the average waiting time was for *(a)* a digital hearing aid assessment and *(b)* the routine supply of a digital hearing aid to wearers of existing hearing aids at the Leighton hospital in Crewe in the last period for which figures are available; [11837]

(2) how much funding her Department has made available for the provision of digital hearing aids *(a)* in England, *(b)* to primary care trusts in North Staffordshire and *(c)* to the University hospital of North Staffordshire; [11838]

(3) what the average waiting time was *(a)* in England and *(b)* at the University of North Staffordshire for (i) a digital hearing aid assessment and (ii) the routine supply of a digital hearing aid to users of existing hearing aids in the last period for which figures are available; [11839]

(4) what the reasons are for the current waiting times which hearing aid wearers have for a digital hearing aid assessment at the University of North Staffordshire. [11857]

**Mr. Byrne:** The Department has invested £125 million into the modernising hearing aid services (MHAS) project since 2000. As a result, from April 2005, all 164 national health service audiology services in England should be routinely fitting digital hearing aids.

Information on waiting times and local funding for provision of digital hearing aids is not held centrally.

## Drugs Blacklist

**Mr. Amess:** To ask the Secretary of State for Health which drugs are blacklisted from NHS prescriptions; what the reason is for the inclusion of each on the list; and when each drug was blacklisted. [12205]

**Jane Kennedy:** There are currently over 3,000 products which appear in Schedule 1 of the NHS (CMS Contracts) (Prescription of Drugs etc) Regulations 2004—often referred to as the blacklist. This list can be found in Part XVIIIA of the Drug Tariff which is published monthly by The Stationery Office, or on the Prescription Pricing Authority's website at: www.ppa.org.uk/edt/July_2005/mindex.htm.

Reasons for the inclusion of individual products could be obtained only at disproportionate cost. However, products may be placed on this schedule because they are either expensive in comparison to similar alternatives or have no therapeutic value.

Many of the products listed were first subject to such restrictions in 1985 with the introduction of the selected list scheme following advice from the advisory committee on drugs. Again, this information could be obtained only at disproportionate cost.

**Mr. Amess:** To ask the Secretary of State for Health whether generic substitutes are available for those drugs that are blacklisted from NHS prescriptions; and if she will make a statement. [12206]

**Jane Kennedy:** Suitable alternative treatments to those listed in Schedule 1 of the NHS (CMS Contracts) (Prescription of Drugs etc) Regulations 2004 are generally available on the national health service. Alternatives may not be available where a treatment has been listed because it has no therapeutic value.

**Mr. Amess:** To ask the Secretary of State for Health if she will place in the Library her Department's guidance to pharmacists about the blacklisting of drugs from NHS prescriptions ; and if she will make a statement. [12207]

**Jane Kennedy:** The pharmacists' terms of service, contained in the NHS (Pharmacy Services) Regulations 2005, SI 2005/641, says that they should not dispense a prescription on the national health service for products which are on Schedule 1 of the NHS (CMS Contracts) (Prescription of Drugs etc) Regulations 2004.

The new GP Contract Regulations (NHS (CMS Contracts) Regulations 2004) also specify that doctors should not issue prescriptions on the NHS for such products.

Copies of both sets of regulations are available in the Library.

**Mr. Amess:** To ask the Secretary of State for Health which drugs have been removed from the NHS prescription blacklist in each year since 1997. [12209]

**Jane Kennedy:** A list of which drugs have been removed from Part XVIIA (Schedule 1) of the Drug Tariff in each year since 1997 has been placed in the Library.

## Elderly Care

**Sir Malcolm Rifkind:** To ask the Secretary of State for Health what her latest estimate is of the number of people who have had to sell their homes to pay for their long-term elderly care since 1997. [12213]

**Mr. Byrne:** It is not necessary for people to sell their houses on entry into residential care in order to fund their care costs.

Since October 2001, councils have been able to enter into a deferred payments agreement. The aim is to allow people with property, but without income and other assets sufficient to meet their full assessed contribution, to have a legal charge placed on their property to meet any shortfall. Hence, people are able to keep their homes on admission to residential care and for the duration of the deferred payments agreement.

There are a number other of measures in place to avoid people being forced to sell their former homes to pay for their residential care. These are set out in the National Assistance (Assessment of Resources) Regulations 1992 and the Charges for Residential Accommodation Guide (CRAG).

Local councils must ignore the value of the property where it continues to be occupied by the resident's spouse or partner; a lone parent with a dependent child who is the resident's estranged or divorced partner; another relative who is over 60 or who is incapacitated; or a child under 16 whom the resident is liable to maintain. Councils also have the discretion to disregard the value of the property in any other circumstances that they consider reasonable. For example, this discretion might be used where a former carer continues to live in the property.

Since April 2001, councils must ignore the value of a resident's former home for the first 12 weeks of a permanent stay in residential care.

## Emergency Contraception

**Mr. Amess:** To ask the Secretary of State for Health whether her Department was consulted by Oxford primary care trust about its decision to expand a pilot scheme offering free morning-after pills to teenagers to cover 24 pharmacies in their region; and if she will make a statement. [12775]

**Caroline Flint:** This is a local decision. There are a large number of schemes running in England and Wales where emergency contraception is being supplied to women of all ages free of charge in pharmacies. In these schemes emergency contraception is issued to women by pharmacists using a patient group direction under national health service arrangements. While the Government supports the development of these schemes, the decision to establish pharmacy supply under a patient group direction is a matter for local decision.

## General Nursing Council Inspections

**Daniel Kawczynski:** To ask the Secretary of State for Health for what reasons the General Nursing Council Inspector has ceased to visit hospitals. [3147]

**Jane Kennedy:** The General Nursing Council ceased to exist in the late 1970s. It became the United Kingdom Central Council, which in turn gave way to the Nursing and Midwifery Council (NMC) in 2003. The NMC does not have any statutory responsibility for visiting hospitals or any other health care providers.

### Health Bodies (Consultation)

**Mr. Havard:** To ask the Secretary of State for Health what discussions have taken place between the National Institute for Health and Clinical Excellence, the All Wales Medicines Strategy Group and the Scottish Medicines Consortium on *(a)* the dissemination of best practice and *(b)* steps to minimise duplication and improve cost and clinical effectiveness of new medical technologies and treatments. [8510]

**Jane Kennedy:** The National Institute for Health and Clinical Excellence (NICE) is an independent body and should be contacted direct for this information.

The All Wales Medicines Strategy Group (AWMSG) was established in October 2002 and appraises new drugs for use within Wales as interim guidance prior to the final publication of NICE appraisals. The AWMSG does not appraise medicines that have already been considered by NICE or on which NICE will soon publish guidance.

The Scottish Medicines Consortium, established in October 2001, sends its recommendations to NICE on a regular basis for information.

### Health Protection Agency

**Jim Cousins:** To ask the Secretary of State for Health at which sites the Health Protection Agency operates; how many full-time equivalent staff work at each site; what the specialisms of the agency are at each site; and what plans she has for the HPA in her review of non-departmental bodies. [11807]

**Caroline Flint** *[holding answer 14 July 2005]:* A list of sites at which the Health Protection Agency (HPA) currently operates and the whole-time equivalent staff numbers at each site has been placed in the Library. Data are not collected for the specialisms at each site. The specialisms and numbers of staff in each specialism for the HPA as a whole are shown in the table.

| | *2005* | *2004* |
|---|---|---|
| Medical | 258 | 249 |
| Nursing | 166 | 154 |
| Professional, administrative and operational support | 751 | 730 |
| Scientific | 361 | 350 |

Following the review of arm's length bodies, our intention for the HPA is that, subject to legislation, it will take on the functions of the National Biological Standards Board. The HPA was created as a United Kingdom non-departmental public body on 1 April 2005.

### Healthy Eating

**Mr. Amess:** To ask the Secretary of State for Health what proportion of overall funding to improve eating habits in 2005–06 is allocated to improving children's diets; and how much she plans to allocate to *(a)* improving eating habits and *(b)* improving children's diets in each of the next five years. [12736]

**Mr. Byrne:** "Choosing a Better Diet", a food and health action plan published on 9 March 2005 sets out the Government's strategy to improve people's health through improved diet and nutrition. £183.1 million has been allocated in 2005–06 to improving eating habits, of which £173.5 million has been specifically allocated to improving children's diets. Funding for each of the next five years has not yet been allocated.

### Hip Replacements

**Mr. Amess:** To ask the Secretary of State for Health how many hip replacement operations were performed in each of the last five years, broken down by primary care trust. [12733]

**Mr. Byrne:** This information is not collected centrally in the form requested.

Information on how many hip replacement operations were performed in each of the last five years, broken down by local authority boundaries, is available on the National Centre for Health Outcomes Development website at: www.nchod.nhs.uk

### Illicit Medicines

**Mr. Burstow:** To ask the Secretary of State for Health what estimate has been made by the *(a)* Medicines and Healthcare Products Regulatory Agency and *(b)* her Department of the amount of medicine purchased by the public through illicit means; and what the 10 most common medicines purchased in this way are according to the most recently available figures. [12534]

**Jane Kennedy:** The criminal investigation unit of the Medicines and Healthcare products Regulatory Agency (MHRA) investigates all suspected breaches of medicines legislation brought to its attention. Examples of illicit purchases include the internet, pubs, clubs, boot fairs and by mail order. Illicit sales by their nature involve hidden transactions for which records are not usually kept and occur outside of the tightly regulated and monitored licensed system. The MHRA and the Department therefore have no estimates for these types of purchases.

The illegal sales that the MHRA has investigated predominantly involve lifestyle drugs which include those to treat erectile dysfunction, obesity, hair loss and anti-smoking. Erectile dysfunction medicines include Viagra, Cialis, Levitra and Uprima which are all licensed for supply in the United Kingdom. However, unlicensed generic versions coming mainly from India and China have been and are being investigated.

**Mr. Burstow:** To ask the Secretary of State for Health what estimate has been made by the *(a)* Medicines and Healthcare Products Regulatory Agency and *(b)* her Department of the amount of undetected counterfeit medicine products within the legitimate UK supply chain. [12535]

**Jane Kennedy:** The Medicines and Healthcare products Regulatory Agency (MHRA), as the United Kingdom regulatory authority for medicines and medical devices, has made no such estimate.

As part of its anti-counterfeiting strategy, the MHRA is extending its existing Medicines Market Surveillance programme, which currently targets medicines at the point of retail, to further target medicines across the whole of the legitimate UK supply chain. Over a period of time, this will provide evidence of the existence or not of counterfeit medicines in the legitimate UK supply chain. The extended market surveillance programme is being supported by key stakeholders such as the pharmaceutical industry, trade groups, patient groups, distributors and the Royal Pharmaceutical Society of Great Britain (RPSGB) and is a good example of collaborative work in this area.

### Independent Mental Capacity Advocate Service

**Mr. Amess:** To ask the Secretary of State for Health if she will list the organisations and individuals consulted before the consultation on the Independent Mental Capacity Advocate Service was issued; and if she will make a statement. [12722]

**Mr. Byrne:** The Department launched the consultation on the arrangements for the future provision of the independent mental capacity advocacy (IMCA) service on 5 July 2005. Through this consultation, the Department wishes to identify how best to deliver the new independent advocacy provision for particularly vulnerable people who lack capacity.

The consultation on the IMCA service builds on the many discussions held with interested stakeholders during the passage of the Mental Capacity Act 2005.

The Government consulted informally with a small number of stakeholders prior to the launch of the consultation document. These included Mencap, Help the Aged, the Association of Directors Social Services and the NHS Confederation as well as a consultant from Durham University who has been advising on the Independent Mental Health Act Advocate project and has established links with independent advocacy providers.

The Government want to hear the views of all those interested in this important new service, including people who lack capacity, their families and carers, health and social care professionals care homes and independent and voluntary sector providers and independent advocacy organisations.

The consultation period ends on 5 September 2005.

**Mr. Amess:** To ask the Secretary of State for Health how many copies of the consultation document on the Independent Mental Capacity Advocate Service have been produced; at what cost; and if she will make a statement. [12723]

**Mr. Byrne:** The Department launched the consultation on the arrangements for the future provision of the independent mental capacity advocacy (IMCA) service on 5 July 2005. The Government have published 1,000 copies of the main consultation document and 800 copies of the accessible version. A CD-rom of the consultation documents with audio recording of the easy read version, and translations of the executive summary in several ethnic minority languages will be available shortly. Costs for producing and publishing these documents are estimated at around £22,000.

**Mr. Amess:** To ask the Secretary of State for Health which organisations were sent copies of the consultation document on the Independent Mental Capacity Advocate Service; how many were sent to each; and if she will make a statement. [12724]

**Mr. Byrne:** The Department launched the consultation on the arrangements for the future provision of the independent mental capacity advocacy (IMCA) service on 5 July 2005. A copy of both the consultation paper and the accessible version were sent to the following organisations:

The documents have been published on the Department's website at: www.dh.gov.uk/Consultations/LiveConsultations/fs/en.

A CD-rom of the consultation documents with audio recording of the easy read version, and translations in several ethnic minority languages will be available shortly.

**Mr. Amess:** To ask the Secretary of State for Health when she expects the head of the Independent Mental Capacity Advocate Service to be appointed; and if she will make a statement. [12725]

**Mr. Byrne:** No decisions will be made on any arrangements for future provision of the independent mental capacity advocacy service until after the conclusion of the consultation on 30 September 2005.

### Mental Health Services

**Sandra Gidley:** To ask the Secretary of State for Health what resources have been allocated to mental health services for people aged *(a)* 50 to 64, *(b)* 65 to 74 and *(c)* 75 years or over as part of the National Service Framework for (i) older people and (ii) mental health. [11478]

**Mr. Byrne:** The resources that are necessary to deliver services in line with the national service frameworks (NSFs) for older people and mental health are included in the unified allocations made directly to primary care trusts (PCTs). It is for PCTs in partnership with strategic health authorities and other local stakeholders to determine how best to use these resources to deliver services in line with the NSFs.

In July 2002, an extra £1 billion was announced for social services for older people by 2006.

### Mersey Regional Ambulance Service

**Helen Jones:** To ask the Secretary of State for Health whether a compromise agreement was signed by Mersey Regional Ambulance Service and their Chief Executive prior to her departure from the organisation. [12998]

**Mr. Byrne** *[holding answer 18 July 2005]:* The information is not collected centrally. Employment matters are the responsibility of the local ambulance trust.

### MRI Scans

**Mr. Kevan Jones:** To ask the Secretary of State for Health if she will take steps to collect information on the number of MRI scans carried out in the County Durham and Tees Valley Strategic Health Authority area. [12505]

**Mr. Byrne** *[holding answer 18 July 2005]:* Data on the number of magnetic resonance imaging scans carried out at County Durham and Tees Valley Strategic Health Authority is already collected and published on the Department's website at: www.performance.doh.gov.uk/hospitalactivity/.

### Myasthenia Gravis

**Mr. Lansley:** To ask the Secretary of State for Health what steps she is taking to improve the care offered to those with myasthenia gravis. [12630]

**Mr. Byrne:** The Department intends to publish best practice guidance on musculoskeletal conditions later this year. In addition, the Government have already published the national service framework for people with long-term conditions.

### Nappies

**Bill Wiggin:** To ask the Secretary of State for Health (1) what measures she has put in place to ensure the safety of commercial cloth laundering services supplying NHS maternity wards with communally laundered cloth nappies for newborn babies; at what temperature these nappies are washed; and at what minimum temperature she recommends reusable nappies are washed in the home to avoid the risk of infection; [11667]

(2) how many cases of enteric viruses were recorded in NHS hospitals using commercially laundered nappies in the last period for which figures are available; [11668]

(3) when she expects the proposed BSI safety standard for commercial cloth nappy laundry services to be finalised. [11669]

**Mr. Byrne:** Commercial cloth laundering services supplying national health service maternity wards with communally laundered cloth nappies for newborn babies must comply with HSG(95)18, a copy of which is available in the Library. The guidelines set a thermal disinfection wash cycle in which the water temperature has been raised to 65 degrees centigrade for not less than 10 minutes or to 71 degrees centigrade for not less than three minutes.

The Department advises parents that washable cloth nappies be laundered in a 60 degree centigrade wash. A hot wash cycle will destroy most vegetative bacteria and enteric viruses. However, water temperature is only one factor in the laundering process, as the cleansing effect of the detergent and the dilution effect of the pre-wash, wash and rinse is also important.

Information on the number of cases of enteric viruses in NHS hospitals using commercially laundered nappies is not collected centrally. The number of hospital episodes for babies under three years of age with a primary diagnosis of enteric virus in England in 2003–04 is shown in the table.

Information on when the proposed British Standards Institute safety standard for commercial cloth nappy laundry services will be published is yet to be finalised and is not currently available.

*Hospital episodes: babies and children under the age of three with primary diagnosis of enteric virus, England, 2003–04*

| Primary diagnosis[1] | Less than 1 day | 1–6 days | 7–28 days | 29–90 days | Age 91–181 days | 182–272 days | 273–364 days | 1 year old | 2 years old | 3 years old | Total |
|---|---|---|---|---|---|---|---|---|---|---|---|
| A080 | 1 | 2 | 37 | 94 | 167 | 252 | 279 | 669 | 213 | 80 | 1,794 |
| A081 | — | — | 1 | — | — | 2 | 1 | — | 1 | 2 | 7 |
| A082 | — | — | 2 | 11 | 12 | 11 | 7 | 11 | 2 | — | 56 |
| A083 | 1 | 2 | 78 | 309 | 322 | 486 | 438 | 820 | 306 | 176 | 2,938 |
| A084 | 3 | 4 | 163 | 823 | 1,094 | 1,440 | 1,430 | 3,622 | 1,622 | 977 | 11,178 |

[1] *Diagnosis codes:*
A080—Rotaviral enteritis
A081—Acute gastroenteropathy due to Norwalk agent
A082—Adenoviral enteritis
A083—Other viral enteritis
A084—Viral intestinal infection, unspecified
A085—Other specified intestinal infection
B341—Enterovirus infection, unspecified
Source:
Hospital episode statistics.

### National Infection Control Manual

**Mr. Lansley:** To ask the Secretary of State for Health when she will publish a national infection control manual. [10032]

**Jane Kennedy:** In the light of the recommendation in the report from the National Audit Office in 2000 that the Department should produce an infection control manual, the Department carried out a scoping study aimed at establishing what infection control specialists wanted from an infection control manual. The study showed a clear consensus that what was wanted was a reliable and high quality infection control information resource, bringing together all national guidance and other source literature relevant to the prevention and control of infection, rather than an infection control manual as such.

To meet this requirement a National Resource for Infection Control (NRIC) has been produced. The NRIC website went live in May 2005 at www.nric.org.uk and will be further developed over the next two years.

### Neonatal Care

**Tim Loughton:** To ask the Secretary of State for Health what the total expenditure on NHS hospital neonatal care has been in each of the last eight years. [4469]

**Mr. Byrne:** The information requested is not collected centrally. Neonatal care services are provided through national health service general funding allocations. It is not possible to identify the neonatal element of this expenditure separately as it is included within the data for maternity gross expenditure, which is shown in table 1.

The Department has made additional funding available specifically to improve neonatal intensive care services. This expenditure is shown in table 2.

*Table 1: Hospital and community health services (HCHS) maternity gross expenditure*

| HCHS Programme budget cash figures: Gross expenditure | £ million Obstetric in patient funding |
|---|---|
| 1995–96 | 718 |
| 1996–97 | 718 |
| 1997–98 | 730 |
| 1998–99 | 764 |
| 1999–2000 | 801 |
| 2000–01 | 844 |
| 2001–02 | 752 |
| 2002–03 | 854 |

*Notes:*
Figures are for England only.
Adjustments to expenditure figures are as follows:
*Excluded from figures:*
Well babies
Private patients
Supra regional offices
Special health authorities
Non-England United Kingdom residents
Non-UK residents funded by the Department.
*Added to figures:*
Private purchases
Health care purchased from the national health service outside of England.

*Table 2: Additional funding to improve neonatal intensive care services*

£ million

| | Funding | |
|---|---|---|
| | Capital | Revenue |
| 2000–01 | 6.5 | 5 |
| 2001–02 | — | 5 |
| 2002–03 | — | 5 |
| 2003–04 | 20 | 12 |
| 2004–05 | — | 19.857 |
| 2005–06 | — | 20 |

### Neonatal Intensive Care

**Lynne Jones:** To ask the Secretary of State for Health if she will make it her policy to introduce mandatory neonatal testing for cystic fibrosis in all English hospitals. [13661]

**Mr. Byrne:** Ministers have agreed to the implementation of newborn screening for cystic fibrosis. About a fifth of babies born in England are offered newborn screening for cystic fibrosis. The United Kingdom national screening committee (NSC) has commissioned a programme of work to support national health service implementation from the UK newborn screening programme centre, based at Great Ormond Street Hospital for Children.

Initially the emphasis is on developing the framework for the new programme and ensuring that existing screening provision meets consistent standards. The pace of further introduction of screening will depend on primary care trust's local priorities and resource commitment. The NSC will provide continued advice and help through the work of the UK newborn screening programme centre.

### NHS Staff Assaults

**Mr. Baron:** To ask the Secretary of State for Health when she will publish Counter Fraud and Security Management Service figures on the number of prosecutions of persons alleged to have assaulted a member of NHS staff. [11060]

**Jane Kennedy** *[holding answer 11 July 2005]:* Information relating to the number of successful prosecutions obtained in 2004–05 against those who have physically assaulted national health service staff will be published shortly.

### No Secrets Guidance

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to her answer of 13 June 2005, *Official Report*, column 107W, on No Secrets Guidance, what data are being collected by the Commission for Social Care Inspection in respect of the guidance. [8027]

**Mr. Byrne:** The delivery and improvement statements submitted to the Commission for Social Care Inspection (CSCI) by councils in May 2005 included the following questions:

Has the local authority (LA) established multi-agency adult protection procedures in accordance with No Secrets?

Does the LA produce a multi-agency annual report or statement on vulnerable adults work?

Does this detail the number of adult protection referrals received, investigations undertaken and investigations upheld as adult protection?

The CSCI is currently undertaking a validation process and data from the delivery and improvement statements will be available from the CSCI in August 2005.

### Osteoporosis Care

**Mr. Boswell:** To ask the Secretary of State for Health what assessment her Department has made of the availability of treatments for osteoporosis following publication of the National Institute for Health and Clinical Excellence guidance on the secondary prevention of osteoporotic fractures. [12570]

**Mr. Byrne:** No assessment has been made.

The new National Institute for Health and Clinical Excellence (NICE) guidance will provide clear advice to the national health service and patients in England and Wales in an area where for some time there has been uncertainty.

NICE is also developing guidance on the primary prevention of osteoporotic fragility fractures in postmenopausal women which is due to be published in September 2005, together with a clinical guideline on the assessment of fracture risk and the prevention of osteoporotic fractures in individuals at high risk which is due for publication in February 2006.

Once NICE has issued guidance, we expect health authorities to take full account of it.

### Patient and Public Involvement in Health

**Mr. Baron:** To ask the Secretary of State for Health what policy considerations underlay the abolition of the Commission for Patient and Public Involvement in Health. [11882]

**Jane Kennedy** *[holding answer 12 July 2005]:* The policy considerations which underlie the abolition of the Commission for Patient and Public Involvement in Health (CPPIH) derive from the intention that the abolition of CPPIH will provide the opportunity for arrangements to be made for the provision of stronger, more efficient support and advice to forums. The reconfiguration of the Department's arms length bodies also announced the aim of reducing bureaucracy to generate £0.5 billion savings and to improve investment in the front line.

**Mr. Baron:** To ask the Secretary of State for Health what steps she plans to take to promote partnership working between NHS trusts, patient representatives and the voluntary sector to develop a patient-led NHS. [12908]

**Mr. Byrne** *[holding answer 18 July 2005]:* Section 11 of the Health and Social Care Act 2001 places a duty on national health service organisations to work with patients, the public and their representatives, including patient groups and the voluntary and community sector (VCS), to ensure services are fully informed by the experiences of those using them.

"Making Partnership Work for Patients, Carers and Service Users—A Strategic Agreement between the Department of Health, the NHS and the Voluntary and Community Sector", published September 2004, is aimed at strengthening partnerships between the NHS and the private and VCS health care sectors in order to improve the quality and range of service planning and provision of NHS services. A national strategic partnership forum with membership from all these sectors has been established to help the voluntary, community and public sectors work effectively together to deliver responsive, high quality health and adult social care services for patients, service users and carers.

### Pharmaceutical Pricing Authority

**Jim Cousins:** To ask the Secretary of State for Health how many full-time equivalent employees there are at the Pharmaceutical Pricing Authority centre in the City of Newcastle; and what plans she has for the PPA in her review of non-departmental bodies. [11809]

**Jane Kennedy** *[holding answer 14 July 2005]:* Information on staffing figures for the Prescription Pricing Authority (PPA) is not held by the Department. The PPA is an independent body and should be contacted direct for this information.

It is anticipated that the PPA will become part of the Business Services Authority (BSA) from April 2006. The BSA will also include the Dental Practice Board and the NHS Pensions Agency. It has not yet been finalised if the Counter Fraud and Security Management Services will form part of the BSA. Over time, the BSA expects to reduce the total number of posts by 25 per cent. compared to today. Where these posts will be reduced has not yet been determined as the business strategies are being formulated.

### Prescriptions

**Mr. Amess:** To ask the Secretary of State for Health how much was spent by each primary care trust in *(a)* Essex and *(b)* Greater London on NHS prescriptions in each year since 1997. [12208]

**Jane Kennedy:** The expenditure by primary care trusts (PCTs) in Essex on prescribing costs is shown in table 1. Table 2 shows expenditure for London.

The data shown is prescribing costs, which is the total cost relating to prescribing by general practitioners within the PCT area. The figures provided are from 2000–01, the first year that PCTs existed, through to 2003–04, which is the latest year for which figures are available.

*Table 1: Expenditure by PCTs in Essex strategic health authority (SHA) area on prescribing costs*

n/a = Indicates that a PCT was not in existence in that year.

*Notes to tables:*

1. Prescribing costs is the total cost relating to prescribing by GPs within the area accounted for by the PCT.

*Source:*

Audited summarisation schedules of the above PCTs, 2000–01 to 2003–04.

**Mr. Amess:** To ask the Secretary of State for Health what the average cost of *(a)* a national health service prescription and *(b)* a private prescription was in each year since 1975. [12210]

**Jane Kennedy:** The table shows the national health service prescription charges since 1975.

The level of fees that the pharmacist charges for dispensing private prescriptions is not regulated by any body or organisation; it is a private transaction between the pharmacist and the customer. Therefore, the dispensing fee(s) incurred are set by the individual pharmacy or pharmacy chain.

*NHS prescription charges since 1975*

| *Date* | *Charge(£)* |
|---|---|
| 1 April 1975 | 0.20 |
| 16 July 1979 | 0.45 |
| 1 April 1980 | 0.70 |
| 1 December 1980 | 1.00 |
| 1 April 1982 | 1.30 |
| 1 April 1983 | 1.40 |
| 1 April 1984 | 1.60 |
| 1 April 1985 | 2.00 |
| 1 April 1986 | 2.20 |
| 1 April 1987 | 2.40 |
| 1 April 1988 | 2.60 |
| 1 April 1989 | 2.80 |
| 1 April 1990 | 3.05 |
| 1 April 1991 | 3.40 |
| 1 April 1992 | 3.75 |
| 1 April 1993 | 4.25 |
| 1 April 1994 | 4.75 |
| 1 April 1995 | 5.25 |
| 1 April 1996 | 5.50 |
| 1 April 1997 | 5.65 |
| 1 April 1998 | 5.80 |
| 1 April 1999 | 5.90 |

*NHS prescription charges since 1975*

| *Date* | *Charge(£)* |
|---|---|
| 1 April 2000 | 6.00 |
| 1 April 2001 | 6.10 |
| 1 April 2002 | 6.20 |
| 1 April 2003 | 6.30 |
| 1 April 2004 | 6.40 |
| 1 April 2005 | 6.50 |

## Primary Care Trusts

**John McDonnell:** To ask the Secretary of State for Health what the budget deficits of London primary care trusts were in 2004–05; and what the projected budget deficits are for 2005–06. [12232]

**Jane Kennedy:** The latest year for which audited data on the financial position of national health service organisations is available is 2003–04. The Department does not currently publish unaudited information.

Audited information in respect of the 2004–05 financial position of all strategic health authorities, primary care trusts and NHS trusts will be published in their individual annual accounts, and will be available centrally in autumn 2005.

## Ritalin

**Mr. Gibb:** To ask the Secretary of State for Health what her estimate is of the number of children currently being prescribed Ritalin. [11704]

**Jane Kennedy:** I refer the hon. Member to the reply I gave the hon. Member for Wealden (Charles Hendry) on 6 June 2005, *Official Report*, column 438W.

### Seroxat

**Paul Flynn:** To ask the Secretary of State for Health when she expects the Medicines and Healthcare Products Regulatory Agency to publish the findings of its investigation of pharmaceutical companies withholding information about Seroxat. [12474]

**Jane Kennedy:** This is a criminal investigation and therefore its results will not be published. At the conclusion of the investigation the evidence gathered will be supplied to Government prosecutors instructed by the Medicines and Healthcare products Regulatory Agency and they will apply the tests set out in the Code for Crown Prosecutors in order to decide whether a prosecution would be appropriate, as with other potential prosecution cases supplied to them by the MHRA.

It should be noted that the investigation is only concerned with alleged non disclosures of information by GlaxoSmithKline Public Limited Company and its predecessor companies, no other pharmaceutical companies are under investigation.

The investigation is ongoing and it is not possible to provide an accurate estimate of how long it will take to conclude, as this will depend upon the nature, volume and complexity of the evidence uncovered in the course of the investigation. The investigation is being treated as a high priority by the MHRA and substantial additional resources have been applied by the MHRA with a view to expediting its progress.

### Shrewsbury and Telford Hospital Trust

**Daniel Kawczynski:** To ask the Secretary of State for Health what steps she is taking to alleviate the financial deficit of Shrewsbury and Telford Hospital Trust. [11313]

**Mr. Byrne:** It is the responsibility of strategic health authorities to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance.

Officials from the Department have been in discussion with Shropshire and Staffordshire SHA to ensure it is taking appropriate action in relation to the financial position of Shrewsbury and Telford Hospital National Health Service Trust.

### Single Assessment Process/Supporting People Programme

**Mr. Burstow:** To ask the Secretary of State for Health what work is being undertaken by her Department to ensure that the Single Assessment Process and the Supporting People programme complement each other in terms of assessment for eligibility and quality assurance framework. [10175]

**Mr. Byrne:** Following the publication of "Independence, Well-being and Choice, and Opportunity Age" in March 2005, the Department is working closely with both the Office of the Deputy Prime Minister and the Department for Work and Pensions to determine the extent to which different assessment processes used to determine eligibility for a range of services, can be streamlined and complement each other.

### Smoking

**Mr. Sheerman:** To ask the Secretary of State for Health what estimate she has made of the number of people who fell ill as a result of second hand smoke in *(a)* Huddersfield, *(b)* the West Yorkshire primary care trust area and *(c)* England in the last period for which figures are available; and what estimate she has made of the cost to the NHS in each of these areas of treating people with diseases caused by second hand smoke in that period. [5638]

**Caroline Flint:** Information on the number of people who became ill as a result of second hand smoke in Huddersfield and the West Yorkshire primary care trust area and the cost of treating them is not held centrally.

The most recent estimate of the number of workplace deaths caused by second hand smoke was published in the "British Medical Journal" on 2 March 2005, in a report by Professor Konrad Jamrozik. This gave an estimate of 617 deaths a year in the United Kingdom.

The report went onto estimate that second hand smoke in the home accounts for a further 2,700 deaths in persons aged 20–64 years and 8,000 deaths among people aged 65 years. The author acknowledges that the results are "distinctly sensitive" to some of the underlying assumptions.

A copy of the paper is available in the Library.

The cost to the national health service of treating disease and illness caused by smoking is between £1.4 billion and £1.7 billion a year.

### Social Care

**Mr. Burstow:** To ask the Secretary of State for Health what the average length of time taken is to process an application for registration with the General Social Care Council. [13536]

**Mr. Byrne:** The information requested is not held centrally by the Department. Information requested needs to be sought direct from the General Social Care Council.

### Stroke Services

**Mr. Burstow:** To ask the Secretary of State for Health what definition her Department uses for data collection purposes of specialist stroke service. [8010]

**Mr. Byrne:** Acute trusts that have hospitals dealing with stroke patients have been asked whether they now provide specialist stroke services according to the definition set out in standard five of the national service framework for older people.

### Taxis

**Mr. Lansley:** To ask the Secretary of State for Health what steps she takes to control taxi use by officials in her Department. [12627]

**Jane Kennedy:** The Department requires that staff use taxis only if their use is cost effective and no suitable public transport is available.

Staff in the Department will soon be reminded of the need to follow these requirements.

# Written Answers to Questions

*Thursday 21 July 2005*

## MINISTER FOR WOMEN

### Work-life Balance

23. **Sir Nicholas Winterton:** To ask the Minister for Women and Equality what recent representations she has received regarding the achievement of an acceptable work-life balance by women with children who work outside the home. [13825]

**Meg Munn:** The Department has received a number of representations on work-life balance as part of the recent "Work and Families: Choice and Flexibility" consultation.

### Post-conflict Reconstruction

24. **Hugh Bayley:** To ask the Minister for Women and Equality what discussions she has had with ministerial colleagues about protecting the rights of women in situations of post-conflict reconstruction. [13826]

**Meg Munn:** I fully support the positive action taken by the Government to protect the rights of women in situations of post-conflict reconstruction. The UK is committed to the United Nations Security Council Resolution 1325 on Women, Peace and Security (October 2000) and is developing a Government-wide Action Plan to support its implementation.

### Pensions (Gender Equality)

25. **Dr. Phyllis Starkey:** To ask the Minister for Women and Equality what discussions she has had with the Secretary of State for Work and Pensions on gender equality in future pension provision. [13827]

**Meg Munn:** I recently discussed the issue of women and pensions with my right hon. Friend the Secretary of State for Work and Pensions and the EOC. One of the Government's principles for pension reform is fair outcomes for women and carers and any proposals for reform will be judged against this.

### Gender Pay Gap

26. **Mr. Carmichael:** To ask the Minister for Women and Equality what steps the Government is taking to reduce the gender pay gap. [13828]

**Meg Munn:** The Women and Work Commission will make recommendations on tackling the gender pay gap this autumn. We are funding the Equal Pay Panel of Experts, developed by the TUC, to give free advice sessions to organisations looking to carry out equal pay reviews.

### Domestic Violence

27. **Mary Creagh:** To ask the Minister for Women and Equality what plans the Government has to improve the services offered to women seeking refuge from domestic violence. [13829]

**Meg Munn:** The Home Office and the Office of the Deputy Prime Minister are working together to develop a set of accredited occupational standards to ensure quality of service for a wide range of professions across the diverse domestic violence sector.

## TRADE AND INDUSTRY

### Unfair Dismissal

10. **Simon Hughes:** To ask the Secretary of State for Trade and Industry if he will review law and practice for dealing with claims of unfair dismissal. [13811]

**Mr. Sutcliffe:** The Government introduced new Dispute Resolution Regulations and Tribunal Rules of Procedure in October 2004. These are designed to improve the chance of workplace disputes being resolved in the workplace, without having to resort to full tribunal hearings. This includes claims for unfair dismissal. We have committed to carrying out a review of the Regulations in October 2006, two years after their introduction.

### Microgeneration

11. **Dr. Whitehead:** To ask the Secretary of State for Trade and Industry what role renewable and sustainable microgeneration will play in achieving renewable electricity generation targets set out in the Energy White Paper. [13812]

**Malcolm Wicks:** Renewable and sustainable microgeneration has the potential to make an important contribution towards the achievement of the renewable electricity generation targets set out in the Energy White Paper. The range of technologies included under the microgeneration umbrella; the different stages of their development; and the fact that the overall industry is in a formative stage makes it difficult to quantify the future costs and benefits of microgeneration.

The Department has recently put out a tender for some research to try to gain a clearer picture of the real costs and benefits of these technologies and their potential role in the energy market. This study will feed into work on the Government's strategy for the promotion of microgeneration which will be published next year.

13. **Mark Lazarowicz:** To ask the Secretary of State for Trade and Industry what steps he is taking to promote microgeneration. [13814]

**Malcolm Wicks:** We are already doing much to promote microgeneration technologies. For example we have:

provided £41 million of support for solar power projects and £12.5 million of support for household and community renewables projects through the Clear Skies Initiative;

ensured that most microgeneration technologies benefit from a 5 percent. VAT level.

amended the Renewables Obligation Order to make it easier for smaller generators to claim Renewable Obligation Certificates;

issued Planning Policy Statement 22 last year to establish that local authorities could set targets for on-site renewable generation.

In addition, I recently launched a consultation that gives stakeholders the opportunity to feed into the development of the Government strategy to promote microgeneration, which will be published next year.

**Manufacturing (Yorkshire/Humber)**

12. **Kali Mountford:** To ask the Secretary of State for Trade and Industry what steps he is taking to assist manufacturing companies in Yorkshire and Humber. [13813]

**Alun Michael:** The Regional Development Agency, Yorkshire Forward, has made manufacturing a key priority in the Regional Economic Strategy and manufacturing companies are benefiting from its schemes to support improvements in productivity, innovation and skills.

**Minimum Wage**

14. **Mr. McGovern:** To ask the Secretary of State for Trade and Industry how many workers he estimates will benefit from the recently announced increase in the minimum wage; and how many of these workers he estimates will be women. [13815]

**Mr. Sutcliffe:** The DTI estimates that around 1.3 million workers will receive a guaranteed pay rise from the October 2005 uprating of the national minimum wage. The DTI estimates that around 900,000 will be women. These estimates are based on the April 2004 annual survey of hours and earnings and expected average earnings growth between 2004 and 2005.

**Manufacturing (Stoke-on-Trent)**

15. **Mr. Flello:** To ask the Secretary of State for Trade and Industry what action he is taking to help manufacturing companies in Stoke-on-Trent. [13816]

**Alun Michael:** Advantage West Midlands has a number of initiatives in place to support manufacturing in Stoke. The Manufacturing Advisory Service and Business Links provide specialist advice and support to manufacturing whilst grants available include selective finance for investment and grants for research and development.

**Hydrogen Energy**

16. **Mr. Carmichael:** To ask the Secretary of State for Trade and Industry if he will make a statement on the Government's hydrogen energy strategy. [13817]

**Malcolm Wicks:** Hydrogen has significant potential over the next 20–30 years to contribute to cost-competitive $CO_2$ reductions and enhanced security of supply for the UK. I therefore announced last month a Government commitment of some £15 million over four years for a UK wide hydrogen and fuel cell demonstration programme.

**Coal Compensation Claims**

17. **Mr. Illsley:** To ask the Secretary of State for Trade and Industry if he will make a statement on the investigations taking place into the firms dealing with coal compensation claims. [13818]

**Malcolm Wicks:** I refer my hon. Friend to my written statement to the House of 30 June 2005 and the written statement I made today.

**Building Industry (Capacity)**

18. **Alison Seabeck:** To ask the Secretary of State for Trade and Industry what discussions he has had with the construction industry, the Construction Industry Training Board and the trade unions on developing capacity in the building industry. [13819]

**Alun Michael:** Recent ministerial meetings have taken place with various construction industry representative organisations (18 July 2005) and the Union of Construction, Allied Trades and Technicians (30 June 2005). Issues discussed were wide ranging, and included the development of skills and capacity in the construction industry. I have also attended a number of events organised by the industry and have recently hosted a reception at DTI for leading industry representatives.

Under the aegis of the Strategic Forum for Construction, under the chairmanship of Peter Rogers; which comprises senior members of the industry, its clients and which is supported by the DTI, CITB-Construction-Skills is working with other sector skills councils to carry out a thorough skills needs analysis for the industry.

The Strategic Forum is also currently setting up a dedicated group to coordinate the industry's efforts for the Olympics. The work on the skills implications of construction will be a core element of this coordinated effort. I have also attended a number of events organised by the industry and have recently hosted a reception at DTI for industry representatives.

**Carbon Capture Technology**

19. **Mr. Weir:** To ask the Secretary of State for Trade and Industry what assistance his Department has given to the development of carbon capture technology in the oil and gas industries.

**Malcolm Wicks:** Carbon capture is a technology which is currently in the early stages of development rather than the deployment phase. I recently published a "Carbon Abatement Technologies Strategy for Fossil Fuel Use". The new strategy is available in the House of Commons Library.

At the same time I also announced some £25 million in capital grants from next year for demonstrating these technologies. This is in addition to £20 million we have allocated for R&D into carbon abatement technologies over the period 2005–06 to 2007–08. Companies in the oil and gas industries will be eligible to apply for such support.

### Advertising Expenditure

**Mr. Burstow:** To ask the Secretary of State for Trade and Industry how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising, broken down by media type in the last three years. [9503]

**Alan Johnson:** Expenditure on advertising by my Department through COI for 2002–03, 2003–04 and 2004–05 was £11,533,364, £4,173,758 and £2,009,800 respectively. Figures include advertising by the Small Business Service and exclude VAT.

Records of expenditure on advertising by non-departmental bodies are not held centrally and could be produced only at disproportionate cost.

### Clear Skies Programme

**Colin Challen:** To ask the Secretary of State for Trade and Industry if he will extend the Clear Skies Programme beyond March 2006. [13821]

**Malcolm Wicks:** In September 2004 the Clear Skies Programme was extended to March 2006 with an increase in budget from £10 million to £12.5 million. There are no plans to extend the Programme beyond this deadline. We are currently developing a new low carbon buildings programme, (as recommended in the Renewable Innovation Review—February 2004) to supersede both the Clear Skies and the Major Photovoltaics Programmes. A consultation on the framework of the new Programme was launched on June 23 and a copy of the consultation document can be found on the DTI website at the following link: http://www.dti.gov.uk/energy/consultations/index.shtml.

### Copyright

**Mr. Laurence Robertson:** To ask the Secretary of State for Trade and Industry if he will make a statement on the Government's plans to extend the period covered by copyright from 50 to 100 years. [12712]

**Alan Johnson:** I refer the hon. Member to my answer to the question from the hon. Member for Maldon and East Chelmsford (Mr. Whittingdale) on 27 June 2005, *Official Report*, column 1228W.

### Correspondence

**Sir Michael Spicer:** To ask the Secretary of State for Trade and Industry when he will reply to the letter of 24 May from the hon. Member for West Worcestershire about the use of hydrogen gas for transport modes. [12095]

**Malcolm Wicks:** The letter, which was originally sent to my noble Friend, Lord Whitty and was subsequently transferred to this Department for response, was misplaced. It has now been relocated and I will ensure that you receive a response shortly. I apologise for the delay in dealing with your constituent's concerns.

### Development Funding (North-East)

**Mr. Iain Wright:** To ask the Secretary of State for Trade and Industry what estimate he has made of future European enterprise and other economic development funding for the North East region of the UK. [13436]

**Alun Michael:** The principal sources of EU funding for enterprise and economic development are the European Structural Funds. As the European Council of 16–17 June did not reach agreement on the EC budget for the next Financial Perspective from 2007 to 2013, the overall level of future EU spending on the Structural Funds has still to be decided. The UK argues that future EU spending in this area should be focused on the poorest member states. It is not possible, at this stage, to estimate the level of any future UK receipts for an individual region.

### Disabled Staff

**Mr. Amess:** To ask the Secretary of State for Trade and Industry how many staff are registered with his Department as being disabled, broken down by grade; and what the equivalent figures were for each of the last five years for which figures are available. [10527]

**Alan Johnson:** The Department collects disability data on a voluntary basis. The information tabulated as follows is extracted from our personnel records database and gives the number and percentages of staff with disabilities by bands in DTI headquarters (including small business services) for each of the last five years.

| | *Number at April 2001* | *Percentage at April 2001* | *Number at April 2002* | *Percentage at April 2002* | *Number at April 2003* | *Percentage at April 2003* |
|---|---|---|---|---|---|---|
| Band A | 92 | 7.6 | 116 | 9.2 | 106 | 9.4 |
| BandB | 81 | 4.5 | 107 | 5.8 | 107 | 5.8 |
| BandC | 44 | 3.5 | 62 | 4.4 | 71 | 4.8 |
| SCS | 7 | 2.9 | 11 | 4.6 | 12 | 4.4 |
| Fast Stream | 2 | 2.1 | 2 | 2.0 | 2 | 1.7 |
| Unknown | — | — | — | — | 1 | — |
| Total | 226 | 4.9 | 298 | 6.0 | 299 | 6.0 |

| | *Number at April 2004* | *Percentage at April 2004* | *Number at April 2005* | *Percentage at April 2005* |
|---|---|---|---|---|
| Band A | 97 | 10.8 | 85 | 11.2 |
| BandB | 119 | 6.8 | 119 | 7.4 |
| BandC | 87 | 6.1 | 81 | 5.6 |
| SCS | 11 | 4.7 | 9 | 3.9 |
| Fast Stream | 0 | 0.0 | 2 | 2.0 |
| Unknown | 1 | — | — | — |
| Total | 315 | 6.2 | 296 | 7.1 |

### Electricity Generation

**Mr. Bellingham:** To ask the Secretary of State for Trade and Industry if he will list *(a)* the sites, *(b)* the level of subsidy and *(c)* the electricity generation output of each application that has been supported under the Clear Skies scheme. [13381]

**Malcolm Wicks:** The Clear Skies scheme is split into two grant streams, one for householders and one for community groups. Under stream one for householders approximately 5,500 installations have been given financial support and it would be inappropriate to give individual site details due to the data protection act. Under stream two there have been 304 community applications supported and a detailed list of these can be found on the Clear Skies website at:

http://www.clear-skies.org/communities/ApplicationGuidelines.aspx.

The grant level for each eligible technology on the household side is as follows:

Solar water heating—400 per installation, regardless of size.

Wind—1,000 per kw installed up to a maximum of 5,000.

Hydro—1,000 per kw installed up to a maximum of 5,000.

Ground source Heat Pumps—1200 regardless of size.

Room heaters/stoves with automated wood pellet feed—600 regardless of size.

Wood fuelled boiler systems—1500 regardless of size.

### Employment Act

**Mr. Hood:** To ask the Secretary of State for Trade and Industry what assessment he has made of the effects of the introduction of the Employment Act 2002 on the *(a)* working patterns and *(b)* employment opportunities for parents with disabled children; and if he will make a statement. [14074]

**Mr. Sutcliffe:** The Government have introduced a number of measures to help working parents and parents with disabled children participate within the labour force.

The Employment Act 2002 gave parents more choice and flexibility in balancing work and family life; extending the period of maternity leave and pay, introducing paid paternity and adoption leave for the first time, and providing the right to request flexible working. The scope of the flexible working law is wider for parents of disabled children, enabling requests to be made up until the child's 18th birthday. This recognises the particular challenges these parents face in balancing work and caring responsibilities.

The flexible working law has been a success. Almost a quarter (22 per cent.) of those employees eligible to make a request have done so in the last two years, and over this period the proportion of requests being refused has declined by half. Due to the small proportion of employees with disabled children it is difficult to assess the specific impact on this group.

The Government have provided support and guidance to a number of organisations, including those who have an interest in parents of disabled children, such as Contact a Family. This is to ensure that these families are able to fully benefit from the opportunities that the measures provide, and help them find the right working patterns and employment to suit their needs.

### Energy (Research)

**Alan Simpson:** To ask the Secretary of State for Trade and Industry how much public funding has gone into scientific research into *(a)* renewable energy systems and *(b)* nuclear energy in each of the last five years. [13389]

**Malcolm Wicks:** The following table sets out the expenditure of the DTI and Research Councils on research and development for nuclear fission, fusion and renewables between 2000–01 and 2004–05.

*£ million*

| | *2000–01* | *2001–02* | *2002–03* | *2003–04*[1] | 2004–05[2] |
|---|---|---|---|---|---|
| Nuclear fission | 0.13 | 2.32 | 2.41 | 2.31 | 2.32 |
| Nuclear fusion | 17.0 | 14.4 | 14.6 | 15.63 | 19.53 |
| Renewable energy[3] | 15.46 | 18.82 | 24.40 | 29.07 | 25.16 |

In addition further research relating to energy is included in the work of the Tyndall Centre for Climate Change Research which has some £10 million funding from research councils over 2000–05, and in the work of the Carbon Trust. The UK also participates in international collaborative energy research via the EU and the International Energy Agency.

[1] Includes elements of estimated expenditure

[2] Estimated spend with some elements not included

[3] Includes full range of renewables and also Research Council spend on carbon capture, energy storage and networks.

**Mr. Weir:** To ask the Secretary of State for Trade and Industry whether the Government plans to limit investment in research and development solely to systems analysis relating to hydrogen infrastructure and novel non-nuclear hydrogen production technology. [13410]

**Malcolm Wicks:** Hydrogen has significant potential over the next 20 to 30 years to contribute to cost competitive $CO_2$ reductions and enhanced security of supply for the UK. The Government are committed to supporting research, development, and demonstration projects for hydrogen and fuel cell technologies.

On the 14 June the Government announced a commitment of some £15 million over four years for a UK wide hydrogen and fuel cell demonstration programme. The precise nature of the scheme is still being developed and no money has yet been earmarked for specific projects. It follows that no particular technical application has been ruled out.

The money for the demonstration programme is in addition to the £4 million per year which is dedicated to hydrogen research and development across the public

sector. Of this some £2.5 million is funded by the EPSRC, including the Sustainable Hydrogen Energy Consortium funded under the EPSRC's Supergen programme. Additional funding for some £2.5 million is funded by the EPSRC, including the Sustainable Hydrogen Energy Consortium funded under the EPSRC's Supergen programme. Additional funding for applied research and development comes from the collaborative research and development product under the Department's Technology Programme.

### Export Control Organisation

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry (1) pursuant to the Answer of 13 June 2005, *Official Report*, column 78W, on the Export Control Organisation, through which mechanisms he will announce his decision on *(a)* the future of the Export Control Organisation and *(b)* whether to delegate authority to issue export licences to a private contractor; and if he will make a statement; [13723]

(2) whether he is required to inform *(a)* other Government departments, *(b)* hon. Members and *(c)* the public that a decision has been made on whether to delegate authority to issue export licences to a private contractor; and if he will make a statement. [13801]

**Malcolm Wicks:** We have now reviewed the options for outsourcing the work of the Export Control Organisation. On the basis of a thorough analysis we have concluded that in this particular case, there are doubts about whether outsourcing the licensing function would achieve sufficient additional benefits. We have therefore decided not to proceed with outsourcing these activities. Industry and other interested parties are being informed of this conclusion through various channels.

### Export Credits Guarantee Department

**Norman Lamb:** To ask the Secretary of State for Trade and Industry whether the Export Credits Guarantee Department has received notification from Biwater that its contract has been cancelled by the Tanzanian authorities for non-performance. [12596]

**Ian Pearson:** Biwater has advised the Export Credits Guarantee Department (ECGD) that the contract between the Tanzanian project company, City Water Services Ltd. (CWS), and the Dar Es Salaam Water Authority, was not formally terminated by the water authority, but instead, on 1 June 2005, Tanzanian Government entities took possession of CWS's assets and premises and simultaneously deported the three senior Biwater executives who were responsible for running CWS. Biwater and CWS took the view that those acts amounted to a repudiation of the contract and formally accepted that repudiation, thus bringing the contract to an end.

**Norman Lamb:** To ask the Secretary of State for Trade and Industry what procedures the Export Credits Guarantee Department follows where the contractor defaults due to cancellation of a contract by the purchasing country on the grounds of non-performance. [12597]

**Ian Pearson:** Non-performance is not an insured risk under an ECGD insurance policy. Termination of a contract only becomes relevant when an exporter makes a claim under the policy for amounts unpaid under the contract. ECGD would consider the terms of the policy and the terms of the contract in order to determine whether the exporter had a valid claim under the policy.

The same procedures apply to overseas investments that are covered under an ECGD Overseas Investment Insurance policy.

Where ECGD provides a guarantee to a bank, it may be entitled to recoup from the exporter the amount of any guarantee payments which it might make to the bank up to a pre-agreed limit (usually 10 per cent. of ECGD's maximum liability).

ECGD would attempt to minimise loss or make recoveries by, among other things, directing the exporter to pursue any available remedies including arbitration or other proceedings.

**Norman Lamb:** To ask the Secretary of State for Trade and Industry in how many instances the Export Credits Guarantee Department has sought recourse from companies in receipt of ECGD guarantees or insurance in the last five years. [12598]

**Ian Pearson:** None.

**Norman Lamb:** To ask the Secretary of State for Trade and Industry on how many occasions in the last five years contracts underwritten by the Export Credits Guarantee Department have been terminated by the buyer; and if he will list the *(a)* countries, *(b)* dates and *(c)* projects in relation to contracts which have been terminated. [12599]

**Ian Pearson:** The Export Credits Guarantee Department (ECGD) would only keep a record of a contract that has been terminated if a claim has been paid on that contract. ECGD have not paid a claim on a contract that has been terminated in the past five years.

However, I refer the hon. Member for North Norfolk to the answer given today to PQ No. 12596.

**Norman Lamb:** To ask the Secretary of State for Trade and Industry what physical assets the Export Credits Guarantee Department has as collateral on loans guaranteed by the Department. [12601]

**Ian Pearson:** The Export Credits Guarantee Department do not hold any physical assets, but does have registered charges as security on certain assets which are financed with the assistance of ECGD guarantees.

### Group 4 Securicor

**Mr. Henderson:** To ask the Secretary of State for Trade and Industry how much was spent by his Department and public bodies and agencies for which he is responsible on security contracts with Group 4 Securicor in 2004–05; and if he will list *(a)* the nature and location of services provided and *(b)* the start and end dates of such contracts. [13522]

**Alan Johnson:** The Department had a contract with Group 4 Securicor for the provision of manned guarding and reception at Atholl House, Aberdeen between August 1993 and April 2005 at a cost in 2004–05 of £105,526.

Public bodies sponsored by the Department are responsible for their own security arrangements and such information is not held centrally.

*Letter from Ron Marchant to Mr. Henderson, dated 21 July 2005:*

I am responding to this parliamentary question, tabled on 15 July 2005, regarding amounts spent on security contracts with Group 4 Securicor in the past year, including details of the nature and location of services provided, and the start and end dates of any such current contracts.

The Patent Office has neither spent any sums, or hold such contracts with this company.

*Letter from Tim Moss to Mr. Henderson, dated 21 July 2005:*

I am responding to your recent Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

Companies House has not used Group 4 Securicor for any services within the last year.

*Letter from Desmond Flynn to Mr. Henderson, dated 21 July 2005:*

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (833/2005) asking how much was spent on security contracts with Group 4 Securicor in the past year; the nature and location of services provided and the start and end dates of any current such contracts.

Between April 2004 and March 2005 The Insolvency Service spent £131,686.77 with Group 4 Securicor, for security guarding of our Birmingham HQ building. This contract commenced on 5 June 2000 and came to an end on 4 June 2005 after the contract was re-tendered.

*Letter from Jeanne Spinks to Mr. Henderson, dated 21 July 2005:*

You asked the Secretary of State for Trade and Industry, how much was spent by his Department, and any public body or agency for which he is responsible, on security contracts with Group 4 Securicor in the past year; the nature and location of services provided and the start and end dates of any current such contracts. I have been asked to reply on behalf of the Employment Tribunals Service (ETS).

The Employment Tribunals Service has not held any contracts with Group 4 Securicor in the past year.

*Letter from Iain MacGregor to Mr. Henderson, dated 21 July 2005:*

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding the amount spent on Security contracts with Group 4 Securicor, in the past year.

NWML has not spent any money on security contracts with Group 4 Securicor in the past year, thus we submit a nil return.

## Industrial Diseases

**Paddy Tipping:** To ask the Secretary of State for Trade and Industry what the *(a)* minimum, *(b)* maximum and *(c)* average payment made in respect of (i) chronic obstructive pulmonary disease and (ii) vibration white finger has been in (A) Nottinghamshire and (B) the UK. [12657]

**Malcolm Wicks** *[holding answer 19 July 2005]:* The figures requested for payments are as follows:

£

| | *Chronic obstructive pulmonary disease* | | *Vibration white finger* | |
|---|---|---|---|---|
| | *Nottinghamshire*[1] | *UK* | *Nottinghamshire* | *UK* |
| Minimum | 0.57 | 0.57 | 195.94 | 65.08 |
| Maximum | 367,053 | 367,053 | 46,661 | 113,698 |
| Average | 4,254 | 6,356 | 9,018 | 8,815 |

[1] Nottinghamshire covers the constituencies of Ashfield, Bassetlaw, Broxtowe, Gedling, Mansfield, Newark, Nottingham East, Nottingham North, Nottingham South, Rushcliffe and Sherwood.

## Internal Market Services Directive

**Mr. Davidson:** To ask the Secretary of State for Trade and Industry (1) what assessment he has made of the impact of the draft EU Directive on Services in the Internal Market on the *(a)* rights of workers under employment law, *(b)* health and safety regulations and *(c)* consumer protection law in England and Wales; [9556]

(2) what assessment he has made of the effect of the EU Directive on Services in the Internal Market on UK employment, broken down by sector. [9561]

**Ian Pearson:** Negotiations on the draft Directive on Services in the Internal Market are at an early stage. Until the text is finalised it is difficult to assess its precise effects. DTIs Partial Regulatory Impact Assessment for the proposal can be found at www.dti.gov.uk/ccp/topics2/pdf2/servicesria.pdf. An independent consultancy, Copenhagen Economics, has assessed the economic impact of the Directive. They predicted that the Services Directive would add £25 billion to the EU economy, create an extra 600,000 jobs, boost EU GDP by 0.6 per cent. and lead to an increase in real wages of 0.4 per cent. Copies of both documents are available in the Libraries of the House.

## Medical Research Council

**Mr. Lansley:** To ask the Secretary of State for Trade and Industry what funding has been provided from the Medical Research Council for research into myeloma in each financial year since 1997–98. [12624]

**Alan Johnson:** The figures for MRC expenditure for research on myeloma since 1997 are as follows:

| | £ |
|---|---|
| 1997–98 | 440,000 |
| 1998–99 | 410,000 |
| 1999–2000 | 390,000 |
| 2000–01 | 360,000 |
| 2001–02 | 420,000 |
| 2002–03 | 0 |
| 2003–04 | 550,000 |

These figures do not include two studies, Myeloma VII and Myeloma VIII which took place between 1997 and 2004, which were funded through MRC's Clinical Trials Unit.

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry what the total cost of consultants employed by the Medical Research Council has been in each of the last five years for which records are available. [12176]

**Alan Johnson:** In the last five years the MRC has spent the following amounts on management consultancy and other Professional fees including legal, other audit fees, professional utility advice, professional accommodation advice and computing systems support.

| | £000 |
|---|---|
| 2000–01 | 1,172 |
| 2001–02 | 3,396 |
| 2002–03 | 3,287 |
| 2003–04 | 7,828 |
| 2004–05 | 10,337 |

## Miners' Compensation

**John Mann:** To ask the Secretary of State for Trade and Industry what account was taken by his Department in agreeing the costs schedule for chronic obstructive pulmonary disease and vibration white finger mining compensation claims of payments to solicitors for processing unsuccessful claims. [12396]

**Malcolm Wicks:** The framework of the costs agreement in both schemes is that no costs are paid by the Department for unsuccessful claims.

**John Mann:** To ask the Secretary of State for Trade and Industry how many claims for *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger have been submitted in (i) Bassetlaw and (ii) the United Kingdom for miners' compensation by (A) Moss Solicitors, (A) Brm Solicitors, (C) Beresfords Solicitors, (D) AMS Law Solicitors, (E) Wake Smith Solicitors and (F) Union of Democratic Mineworkers. [12985]

**Malcolm Wicks** *[holding answer 18 July 2005]:* The figures for claimants' representatives are as follows:

| | *Chronic obstructive pulmonary disease* | | *Vibration white finger* | |
|---|---|---|---|---|
| *Solicitor* | *Bassetlaw* | *United Kingdom* | *Bassetlaw* | *United Kingdom* |
| AMS Law | 399 | 9,603 | 516 | 4,856 |
| Beresfords | 1,388 | 79,078 | 739 | 10,870 |
| BRM | 262 | 5,219 | 0 | 1 |
| Moss Solicitors | 461 | 7,525 | 513 | 6,734 |
| UDM | 1,141 | 15,524 | 1,017 | 10,511 |
| Wake Smith | 289 | 4,049 | 6 | 326 |
| Total | 3,940 | 120,998 | 2,791 | 33,298 |

## Nuclear Power

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many people work *(a)* directly and *(b)* indirectly in the nuclear industry in (i) the UK, (ii) Lancashire and (iii) Cumbria. [13006]

**Malcolm Wicks:** The DTI has not conducted work to collate employment figures for the nuclear industry. The numbers of employees given in the following table are based on surveys by the Nuclear Industry Association (NIA) and Cogent Sector Skills Council. These include both for the civil nuclear programme and the defence programme.

| *Employment* | *Direct* | *Indirect*[1] |
|---|---|---|
| UK | 54,000 | 108,000 to 160,000 |
| Lanes | 3,500 | 7,000 to 12,000 |
| Cumbria | 11,500 | 23,000 to 35,000 |

[1] The figures for indirect employment are given as a range because of difficulty in assessing indirect employment.

**Mr. Ian Austin:** To ask the Secretary of State for Trade and Industry what the level of UK investment in the international thermonuclear experimental reactor is. [12614]

**Alan Johnson:** The UK will not invest directly in the international thermonuclear experimental reactor (ITER) as it is not a party to the agreement establishing the project. The EU contribution to the project will be provided through the Euratom budget and by the host state, France.

**Mr. Ian Austin:** To ask the Secretary of State for Trade and Industry what estimate he has made of the cost of replacing the UK's nuclear power stations. [12615]

**Malcolm Wicks:** No estimate has been made of the cost for replacing the UK's nuclear power stations, either with new nuclear stations or other types of generation.

## Oil Producers

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry if he will list sub-Saharan African countries which produce substantial quantities of oil. [13919]

**Malcolm Wicks:** The following table lists oil production in 2004 from sub-Saharan African countries.

| *Country* | *2004 oil production (thousand barrels per day)* | *Percentage share of global production* |
|---|---|---|
| Angola | 991 | 1.3 |
| Cameroon | 62 | 0.1 |
| Chad | 168 | 0.2 |
| Republic of Congo | 240 | 0.3 |
| Equatorial Guinea | 350 | 0.4 |
| Gabon | 235 | 0.3 |
| Nigeria | 2,508 | 3.2 |
| Sudan | 301 | 0.4 |

*Source:*
BP Statistical Review of World Energy 2005

## Telephone Services

**John Hemming:** To ask the Secretary of State for Trade and Industry what recent steps the Department has taken to prevent silent telephone calls by commercial power diallers; and if the Department will support a policy of introducing recorded messages to inform recipients of silent telephone calls of what has happened. [11323]

**Alun Michael:** The Department introduced the Telephone Preference Service scheme, under the Telecommunications (Data Protection and Privacy) Regulations 1999, which provides protection to

subscribers from unsolicited direct marketing calls. Although the Telephone Preference Service was not designed to provide a solution to silent calls, consumers who register receive significantly fewer marketing calls, including silent calls that are made by commercial power diallers. Marketing calls are the only calls which are eliminated by registering for this service.

The Communications Act 2003 confers powers on the Office of Communications (Ofcom) to regulate forms of behaviour, which fall within the Act's definition of persistent misuse of an electronic communications network or service. Silent calls made by commercial power diallers are an example of behaviour, which might represent persistent misuse. Ofcom took action against two companies on 30 April 2004, which were found to have generated unacceptably high levels of unsolicited silent calls. Ofcom initiated a second investigation into one of the companies to ascertain whether the company is complying with the undertakings that were given following their initial action. In addition, Ofcom has launched an investigation into a further seven companies, whom they suspect were making silent calls.

The Department is in discussions with Ofcom about providing a solution to silent calls and in particular a policy of introducing recorded messages to inform recipients of silent calls of what has happened. We will carefully consider all aspects of this possible solution.

### Wind Farms

**Mr. Bellingham:** To ask the Secretary of State for Trade and Industry what assessment he has made of the *(a)* environmental and *(b)* economic (i) cost and (ii) benefit of wind farms. [13383]

**Malcolm Wicks:** I refer the hon. Member to the Energy White Paper of 2003, and the Regulatory Impact Assessment for the recent consultation on the Renewables Obligation Review which highlight the wider case for supporting renewable forms of electricity generation.

The recent Sustainable Development Commission Report "Wind Power in the UK" also gives authoritative Information about wind farms including their environmental and economic impacts.

## PRIME MINISTER

### Correspondence

**Mr. Burstow:** To ask the Prime Minister how many letters to his Office from hon. Members in session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13846]

**The Prime Minister:** In total, I have received over 650,000 items of post since November 2004 including a number of campaign cards. My Office deals with all correspondence as efficiently as possible,

I received 513 letters from Members of Parliament for the 2004–05 session, and to date have received 266 letters from Members of Parliament for the 2005–06 session, including invitations and requests concerning constituency matters, which were dealt with as appropriate. Information regarding the dates on which individual pieces of correspondence were answered is not held in the format requested.

### Departmental Staff

**David T.C. Davies:** To ask the Prime Minister how many full-time equivalents have worked for his Office for each of the last five financial years for which figures are available. [11488]

**The Prime Minister:** For these purposes my Office forms part of the Cabinet Office. I refer the hon. Member to Table C of "The Civil Service Statistics 2004", copies of which are available in the Libraries of the House.

### Downing Street (Improvements)

**Mr. Amess:** To ask the Prime Minister how much has been spent on *(a)* maintaining, *(b)* decorating and *(c)* otherwise improving 10 Downing street since 1 May 1997; how much (i) has been spent on wallpaper since 1 May 1997 and (ii) was spent on wallpaper between 1992 to 1997; and what plans there are for further such spending. [9743]

**The Prime Minister:** Refurbishment and maintenance at 10 Downing street is part of a continuing programme of work. The Downing street complex is maintained to standards appropriate to its Grade 1/2 listed status in consultation with English Heritage. The building also fulfils an important representational role.

For details of maintenance, decorating and otherwise improving 10 and 11 Downing street between May 1997 and 2000–01, I refer the hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 24 July 2002, *Official Report*, columns 1370–71W.

Subsequent figures for the whole Downing street complex are:

£

| | *Amount* |
|---|---|
| 2001–02 | 802,658 |
| 2002–03 | 319,177 |
| 2003–04 | 179,424 |

The expenditure in 2001–02 was partly attributable to the installation of comfort cooling across the complex. It also covered maintenance, conversion of rooms into office accommodation, modernising of a meeting room, replacement of the water tank, replacement staircase carpeting and the continuing upkeep of the State Rooms. Only a small proportion relates to work on the Prime Minister's personal accommodation.

Figures for 2004–05 are not yet available.

Expenditure on wallpaper is not separately recorded within the overall costs of redecoration works.

### Office Costs

**Mr. Amess:** To ask the Prime Minister how much his Office cost to run in each year since 1997; and what the cost was in each of the preceding 10 years. [10471]

**The Prime Minister:** For figures before 2002–03 I refer the hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 25 March 2003, *Official Report*, columns 125–27W. Figures since then are set out in the table.

Before 2001–02 the infrastructure costs for the Prime Minister's Office were managed from central Cabinet Office budgets and could be made available only at disproportionate cost. To enable a direct comparison with the previous answer the costs from 2002–03 onwards have been shown both including and excluding the infrastructure element.

*£ million*

| | *Running costs excluding infrastructure* | *Running costs including infrastructure* |
|---|---|---|
| 2002–03 | 13.6 | 14.2 |
| 2003–04 | 14.6 | 15.1 |
| 2004–05 | 15.8 | 17.0 |

### Publications

**Mr. Amess:** To ask the Prime Minister if he will list the publications issued by his Office in each of the last eight years; and what the *(a)* circulation, *(b)* cost and *(c)* purpose of each was. [10470]

**The Prime Minister:** I refer the hon. Member to the answer I gave on 12 February 2002, *Official Report*, column 260W to the hon. Member for Buckingham (Mr. Bercow).

The cost of other publications produced by my Office since then total £6,994.

## CONSTITUTIONAL AFFAIRS

### Dr. David Kelly

**Mr. Grieve:** To ask the Minister of State, Department for Constitutional Affairs what the current status is of the inquest into the death of Dr. David Kelly. [12850]

**Ms Harman:** On 16 March 2004 the Oxfordshire coroner decided not to resume the inquest which he had adjourned pending Lord Hutton's public inquiry into the circumstances surrounding the death of Dr. David Kelly.

### Election Registration

**Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to alter the registration procedures for voting in elections. [13669]

**Ms Harman:** We are currently considering how the electoral registration system in Great Britain might be improved both to improve security and increase access. This consideration is being informed by the recent Constitutional Affairs and Office of the Deputy Prime Minister Select Committee report Electoral Registration and by the various Electoral Commission reports on the subject. Additionally, my Department recently published a policy paper for discussion, which invited comments on some aspects of electoral registration. This paper is available in the House Library.

We intend to bring forward legislation on this issue when parliamentary time allows.

### Endowment Mis-selling

**Paul Flynn:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to regulate firms who handle claims for compensation for endowment mis-selling; and if she will make a statement. [13967]

**Bridget Prentice:** The Government plan to provide for the introduction of statutory regulation of claims management companies in the Compensation Bill. We are currently considering the scope of regulation.

### Family Law Act 1996

**Mr. Burstow:** To ask the Minister of State, Department for Constitutional Affairs what plans she has to bring into force section 60 of the Family Law Act 1996; and if she will make a statement. [6175]

**Ms Harman:** There are no plans to implement section 60 of the Family Law Act 1996. Provisions to protect victims from domestic violence are provided for in the Domestic Violence, Crime and Victims Act 2004.

### Freedom of Information Act

**Mr. Hancock:** To ask the Minister of State, Department for Constitutional Affairs how many Freedom of Information Act 2000 applications to see sections of the 1911 decennial census for England and Wales have been *(a)* received and *(b)* rejected by the National Archives since 1 January. [13576]

**Ms Harman:** In the period from 1 January to 15 July 2005, The National Archives received 72 applications. After consultation with the Office for National Statistics (ONS) as the transferring department, 47 of these applications have not been granted, because they are covered by s.41 of the FOI Act. The remaining 25 applications are currently being considered on a case by case basis in consultation with ONS.

### Human Rights

**Tony Lloyd:** To ask the Minister of State, Department for Constitutional Affairs which rulings of the European Court of Human Rights have not been fully implemented by the United Kingdom Government; what the obstacles are to full implementation of those rulings; and if she will make a statement. [14755]

**Ms Harman:** There are 32 active cases against the United Kingdom pending before the Committee of Ministers of the Council of Europe, which under Article 46 of the European Convention on Human Rights is responsible for supervising their execution. Some of these are quite recent, and in some a referral to the

Grand Chamber of the Court is being considered. In other cases the Government are of the view that implementation is complete, but the cases are under review by the Council of Europe Secretariat. In some cases, further administrative or legislative steps are needed. It is the policy of the Government to implement all judgments of the European Court of Human Rights as soon as possible.

### Legal Aid

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to use the same quality assessment for price competitive tendering as that used for civil legal aid contracts. [13887]

**Bridget Prentice:** Ensuring a high quality of advice for clients is a priority for the Legal Services Commission (LSC). The LSC has developed, and is continuing to develop, a number of successful quality assessment systems, such as peer review, which are used in both civil and criminal contracts. These systems will be applied as appropriate to contracts awarded under the price competitive tendering scheme.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the likely effects of price competitive tendering on civil legal aid. [13888]

**Bridget Prentice:** Competitive tendering is one of several policy initiatives that the Government are exploring in order to achieve greater value for money across the Criminal Defence Service as a whole. This will help to ensure that legal aid resources can be more effectively focused on the vulnerable individuals and groups supported by the Community Legal Service.

**Mr. Djanogly:** To ask the Minister of State, Department for Constitutional Affairs what steps she plans to take to monitor the quality of criminal legal aid work throughout the term of a contract under price competitive tendering. [14073]

**Bridget Prentice:** Improving the quality of service for clients is a key objective of the Legal Services Commission (LSC). All firms wishing to bid for a contract under the price competitive tendering project will have to pass a quality assessment. Once a contract is awarded, the LSC will employ quality assurance mechanisms to monitor the quality of advice being provided throughout the term of the contract. Among those quality assurance mechanisms currently under consideration are peer review and file assessment.

### Management Consultants

**Mr. Austin Mitchell:** To ask the Minister of State, Department for Constitutional Affairs what estimate she has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within her Department. [13633]

**Bridget Prentice:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Personal Injuries

**Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs what progress has been made with research into the effects of changing the small claims limit for personal injuries. [13667]

**Bridget Prentice:** The Better Regulation Task Force in its report, "Better Routes to Redress" recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that they would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. That research is currently under way and consultation will take place on any proposals which may emerge.

**Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs whether she plans to hold a public consultation prior to changing the small claims limit for personal injuries. [13668]

**Bridget Prentice:** The Government agreed to carry out research into the potential impact of raising the small claims limit, as recommended by the Better Regulation Task Force in its report: "Better Routes to Redress". The Government indicated that they would also consider other options for dealing with these claims in a more proportionate and cost effective way. That research is currently under way and consultation will take place on any proposals which may emerge.

### Voter Registration

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs if she will estimate the socio-economic breakdown of those citizens who have failed to register to vote; and if she will conduct research into this issue. [8948]

**Ms Harman:** My Department has been conducting research into the attitudes of the electorate, especially those who are currently not on the register of who did not vote. A report is being prepared. The variable that has the most significant effect on non-registration is age, with younger respondents being less likely to be registered.

The joint Constitutional Affairs and ODPM Select Committee reported in March this year that registration was significantly lower among younger age groups and amongst black and ethnic minority groups. It also cited research from 1991 that reflected both these differences and the significantly lower levels of registration in metropolitan areas compared to non-metropolitan areas, and between those in rented accommodation compared to owner occupiers.

The Electoral Commission is also undertaking research into registration rates and will report in due course.

**Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs how many representations she has received on *(a)* postal ballot fraud and *(b)* voter under-registration in the last 12 months. [8950]

**Ms Harman:** While we do not keep a detailed breakdown of the content of correspondence, my Department received a significant number of representations about postal voting in the run up to and following the June 2004 elections, many of which raised the issue of postal vote fraud and security.

Since the recent general election we have received approximately 52 items of correspondence relating to registration issues, the majority of which relate to difficulties with the correspondents' registration, while some relate to under-registration in the wider sense. In the same period we have received some 74 items of correspondence relating to postal voting, some of which relate to fears of fraud, while the majority relate to voters' either not receiving their ballot papers or receiving them too late to take part in the election.

## WALES

### Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Wales what his Department's total spending on management consultants has been in each of the last three years. [13137]

**Mr. Hain:** The Wales Office has not awarded any contracts to management consultants in any of the last three years.

**Mr. Austin Mitchell:** To ask the Secretary of State for Wales what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13634]

**Mr. Hain:** The Wales Office has not used any management consultants in the last three years.

**Mr. Austin Mitchell:** To ask the Secretary of State for Wales if he will list management consultants employed by his Office in each of the last three years. [14359]

**Mr. Hain:** The Wales Office has not awarded any contracts to management consultants in the last three years.

### Correspondence

**Mr. Roger Williams:** To ask the Secretary of State for Wales how many items of correspondence have been dealt with by *(a)* the Secretary of State for Wales and *(b)* his Parliamentary Under-Secretary of State in each year since 1999. [13172]

**Mr. Hain:** The following table shows the number of items of correspondence dealt with by Wales Office Ministers since July 1999.

*Number*

| | *Secretary of State* | *Under Secretary of State* | *Inter-departmental correspondence* |
|---|---|---|---|
| July 1999–March 2000 | 1110 | 369 | 5980 |
| April 2000–March 2001 | 573 | 186 | 6649 |
| April 2001–March 2002 | 295 | 39 | 5058 |
| April 2002–March 2003 | 297 | 56 | 5873 |
| April 2003–March 2004 | 177 | 41 | 5660 |
| April 2004–March 2005 | 152 | 71 | 5326 |

**Mr. Burstow:** To ask the Secretary of State for Wales how many letters to his Department from hon. Members in session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13852]

**Mr. Hain:** There are no unanswered letters from hon. Members to the Wales Office for either of these parliamentary sessions.

### Departmental Budget

**David T.C. Davies:** To ask the Secretary of State for Wales how much was allocated to the Office and its predecessor for each year since 1975. [11515]

**Mr. Hain:** The Wales Office was created in July 1999 and no figures are available before that date.

| | £ |
|---|---|
| 1999–2000 | 1,217,000 |
| 2000–01 | 2,557,000 |
| 2001–02 | 2,490,000 |
| 2002–03 | 3,107,000 |
| 2003–04 | 3,173,000 |
| 2004–05 | 3,997,000 |
| 2005–06 | 4,679,000 |

### Departmental Estate

**Mr. Roger Williams:** To ask the Secretary of State for Wales what the estimated *(a)* market value and *(b)* annual rental value is of each property owned by his Department; who the occupier of each property is; and if he will make a statement. [12135]

**Mr. Hain:** The only property owned by the Wales Office is Gwydyr House in Whitehall, which has an estimated market value of £2.95 million. The building is occupied by the Wales Office apart from two rooms, which are occupied by the National Assembly for Wales. As the property is not rented out, the annual rental value is not known.

### Departmental Purchasing

**Chris Grayling:** To ask the Secretary of State for Wales if he will list the companies from which his Department has purchased goods and services of a total value above £1 million in each of the last three years; and how much was spent in respect of each company. [11789]

**Mr. Hain:** The Wales Office has not purchased goods or services from any company for a value of £1 million in any of the last three years.

### Departmental Staff

**David T.C. Davies:** To ask the Secretary of State for Wales how many full-time equivalents have worked for the Department for each of the last five financial years for which figures are available. [11523]

**Mr. Hain:** Data on staffing levels in the civil service is collected by the Cabinet Office and published in the Civil Service Statistics. A copy of the Civil Service Statistics, 2004 is available in the Library, and at:

http://www.civilservice.gov.uk/management_information/statistical_information/statistics/publications/xls/report_2004/table_c.xls

### Hospitals (Opening Dates)

**Bill Wiggin:** To ask the Secretary of State for Wales what the opening dates of hospitals in Wales were between 1975 and 1998. [6687]

**Mr. Hain:** Between 1975 and 1998 approximately 31 hospitals in Wales were opened. However, a record of the formal openings is not held centrally, and due to disproportionate costs, we are unable to provide a comprehensive list of opening dates.

### Inward Investment

**Andrew Rosindell:** To ask the Secretary of State for Wales what discussions he has had with Secretaries in the National Assembly for Wales on encouraging inward investment in Wales. [12522]

**Mr. Hain:** I have regular discussions with the First Minister on a range of issues including measures to promote the economy in Wales.

During 2004–05, Wales secured 56 inward investment projects. These projects expect to create or safeguard 3,854 jobs and invest capital expenditure totalling £153 million.

### Job Losses

**Lembit Öpik:** To ask the Secretary of State for Wales what support the Government are offering to support the manufacturing industry in Wales, with particular reference to possible job losses at *(a)* Sony and *(b)* Christie Tyler. [10758]

**Mr. Hain:** Manufacturing remains vital to the Welsh economy and we want to see a successful manufacturing sector producing high value-added products.

We are working in partnership with industry, trade unions, regional development agencies, and other stakeholders to deliver the Government's Manufacturing Strategy launched in May 2002, and reviewed in 2004.

It sets out the actions, such as the Manufacturing Advisory Service, up-skilling the workforce, and R and D tax credits, needed to create a high value, high skill manufacturing sector capable of introducing new products and processes into our economy and creating new markets to deliver a boost to our prosperity.

This is complemented by a range of measures administered by the Assembly Government to assist the manufacturing sector. These include financial assistance, business advice, promoting innovation e.g. the Technium programme through to initiatives to improve skills and promote entrepreneurship.

In respect of Sony, the job losses announced recently are regrettable. The Assembly Government with its Team Wales partners, including the Welsh Development Agency (WDA) Elwa and Jobcentre Plus are already working with the company to find alternative employment for those affected. I have also discussed with the Sony Group chairman and chief executive, Sir Howard Stringer, the possibility of further investment at the Pencoed plant and Sir Howard has assured me that he will look into this.

As regards Christie Tyler, specific assistance has already been offered to the receivers through the WDA, to identify prospective purchasers for the businesses through the Agency's extensive network, both in the UK and overseas. Any leads that are identified are being immediately passed to the receivers.

Part of Christie Tyler group, Cambria Mobel in Pontypridd, has now been sold on a solvent basis to Sofa Brands International, safeguarding the jobs under threat. In addition to this, I understand Management Buyouts (MBO) are being looked at for other parts of the group.

Despite the recent losses, unemployment in Wales is now 4.5 per cent. compared to 8.3 per cent. in 1997, and I am encouraged by the progress that is being made.

### Legislation

**Mr. Roger Williams:** To ask the Secretary of State for Wales how many *(a)* legislative debates and *(b)* committees on Bills pertaining to England and Wales (i) he and (ii) his Parliamentary Under-Secretary have spoken in since his Office was established. [13301]

**Mr. Hain:** Wales Office Ministers have spoken in many legislative debates and committees since 1999.

Details of the occasions are not collated centrally and could only be provided at disproportionate cost.

**Mr. Roger Williams:** To ask the Secretary of State for Wales what research costs were incurred *(a)* in the preparation of and *(b)* before presentation to Parliament of the (i) Better Governance for Wales White Paper, (ii) the Transport (Wales) Bill, (iii) the Commissioner for Older People (Wales) Bill and (iv) the draft Tourism Accommodation (Wales) Bill. [13302]

**Mr. Hain:** The Wales Office published the "Better Governance for Wales" White Paper in response to a request from the Assembly Government, which arose from the report to them of the Richard Commission. The cost of the Richard Commission is a matter for the Assembly.

The Wales Office published the Transport (Wales) Bill and the Commissioner for Older People (Wales) Bill in draft for pre legislative scrutiny, and is planning to do the same for the Tourism Accommodation (Wales) Bill later in this session. These publications are a normal part of legislative scrutiny, and where appropriate costs are met from the Wales Office administration costs budget. Any costs incurred from research in the preparation of these Bills are matters for the Assembly.

**Mr. Roger Williams:** To ask the Secretary of State for Wales what criteria he will use to measure the consensus required to trigger a referendum on primary legislative powers for the National Assembly for Wales. [13308]

**Mr. Hain:** Better Governance for Wales (Cm 6582) describes the circumstances in which the Government would consider a referendum. Paragraph 3.24 says:

"the decision to hold one would need to be approved in both Parliament and the Assembly. If one was proposed by the Assembly Government, the motion would need to be endorsed by

two thirds of all Assembly Members voting in favour. If the Secretary of State was minded to table an Order in Parliament, he would first be obliged to undertake such consultation as he considered appropriate. The referendum would not take place unless the Order was approved by Parliament."

**Mr. Roger Williams:** To ask the Secretary of State for Wales how much external research was commissioned by his Department *(a)* before introduction to Parliament, *(b)* during passage in Parliament and *(c)* after Royal Assent for (i) the Government of Wales Act 1998, (ii) the Public Services Ombudsman Wales Act 2005, (iii) the Children's Commissioner for Wales Act 2001, (iv) the Health (Wales) Act 2003 and (v) the Public Audit Wales Act 2004. [12131]

**Mr. Hain:** The Health (Wales) Bill and Public Audit Wales Bills were both published for public consultation and pre legislative scrutiny before being introduced into Parliament.

The idea of a Children's Commissioner was a cross-party consensus dating back to the creation of the National Assembly in 1999 and was one of the recommendations of the Waterhouse Report. The Assembly's Health and Social Services Committee was given the task of drawing up proposals for the role, remit and functions of the Commissioner and carried out a public consultation, which included taking oral evidence from witnesses. The Commissioner is subject to audit from the National Audit Office and has to produce an annual report.

In December 2002 the Wales Office jointly published with the Welsh Assembly Government "Ombudsmen's Services in Wales: Time for change?", a consultation document on the principle of bringing together the offices of Commissioner for Local Administration in Wales (which includes the Local Commissioner), Welsh Administration Ombudsmen and Health Service Commission for Wales into a unified service. In October 2003 a consultation document on the detailed powers and jurisdiction of that new office, entitled, "A Public Services Ombudsman for Wales: Powers and Jurisdiction" was published.

In respect of the Government of Wales Act 1998, the former Welsh Office established the National Assembly Advisory Group (NAAG) in December 1997, following the successful outcome of the referendum on devolution in Wales, to undertake wide-ranging consultation and consideration of the shape of the new Assembly.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Secretary of State for Wales which five management consultancies received the highest value of contracts awarded by his Department in each of the last three years; and what the total value was of the contracts awarded to each. [12576]

**Mr. Hain:** The Wales Office has not awarded any contracts to management consultants in any of the last three years.

### NHS (Wales)

**Mr. Crabb:** To ask the Secretary of State for Wales pursuant to the statement by the parliamentary Under-Secretary of State, of 12 July 2005, *Official Report*, column 252WH, on NHS (Wales), if he will list the 70 hospitals closed in Wales between 1979 and 1997. [13677]

**Mr. Hain:** A list of these hospitals is not held centrally, and due to disproportionate costs it is not possible to provide one.

However, Health Statistics Wales and Health Solutions Wales have verified that approximately 70 hospitals were closed in the period 1979 to 1997.

### Olympic Games

**Mr. Roger Williams:** To ask the Secretary of State for Wales what discussions he has had with ministerial colleagues in the Department of Culture, Media and Sport on holding Olympic events in Wales; and if he will make a statement. [13953]

**Mr. Hain:** Cardiff's millennium stadium will play host to qualifying matches in the Olympic football tournament.

Wales will also host training and acclimatisation camps, and stands to benefit from the enormous tourism and business opportunities presented by the London Olympics and Paralympics.

### Olympics

**Peter Law:** To ask the Secretary of State for Wales if he will discuss with the Secretary of State for Culture, Media and Sport, opportunities to place contracts with companies based in *(a)* Blaenau Gwent and *(b)* Wales to make sustainably sourced building materials for the Olympic village in East London. [13324]

**Mr. Hain:** The 2012 London Olympics presents a wonderful opportunity to progress UK's sustainable development objectives. I have already raised this issue with my right hon. Friend, urging the use of solar energy panels for the Olympic village and the proposed housing development on the site once the games are over.

Wales has a number of progressive companies which are involved in developing products and services in line with sustainability principles and I will continue to press the case for such companies from Wales to be involved in the substantial building programme for the Olympic games.

### Secondments

**Mr. Roger Williams:** To ask the Secretary of State for Wales how many *(a)* senior and *(b)* junior full-time staff are seconded (i) from the National Assembly for Wales Government to the Welsh Office and (ii) from the Welsh Office to the National Assembly for Wales Government. [13173]

**Mr. Hain:** As of 1 July 2005 the number of full-time staff seconded from the National Assembly for Wales to the Wales Office was 30. There are no secondments from the Wales Office to the National Assembly. All these secondments are of staff below the senior civil service.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Wales how many days the Office has lost due to sickness in the past five years for which figures are available. [11477]

**Mr. Hain:** The information requested is shown in the following table:

| | *Day* |
|---|---|
| 2000 | 231 |
| 2001 | 277 |
| 2002 | 206 |
| 2003 | 270 |

In June 2003, the Wales Office became part of the Department of Constitutional Affairs for pay and rations purposes. No separate figures for the Wales Office are available from 2004 onwards.

### Special Schools

**Mr. Roger Williams:** To ask the Secretary of State for Wales how many special schools have closed in each constituency in Wales in each year since 1997. [13295]

**Mr. Hain:** No special schools have closed in Wales during this period.

### Tax Credits

**Miss McIntosh:** To ask the Secretary of State for Wales what discussions he has had with National Assembly for Wales secretaries on the effects of tax credits on the take up of childcare in Wales. [14040]

**Mr. Hain:** I regularly meet with Ministers from the Welsh Assembly Government to discuss a range of issues, including the effects of tax credits on the take-up of childcare in Wales.

The childcare element of working tax credit has been a success, with over 15,500 Welsh families benefiting from it. This is almost 85 per cent. higher than the peak of over 8,000 under the working families tax credit.

By April 2005, families benefiting from the childcare element of working tax credit were receiving an average of £46.22 per week, compared to £38 per week in November 2002 through Working families tax credit.

### Wales Office

**Mr. Roger Williams:** To ask the Secretary of State for Wales what record is kept of work done by civil servants in the Assembly for Wales Government that has been requested by the Wales Office. [13966]

**Mr. Hain:** Under section 41 of the Government of Wales Act 1998, civil servants working for the Assembly Government may act as agents of a relevant authority and vice versa; the definition of "relevant authority" includes the Wales Office.

A number of such agreements have been made under which Assembly Government civil servants have acted and are acting as agents of the Wales Office, including in relation to work on Bills. No central record is kept of these agreements.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture Shows

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs which agriculture shows *(a)* she and *(b)* each Minister in her Department (i) visited and (ii) plans to visit in 2005. [9600]

**Margaret Beckett:** So far this year, Defra Ministers have attended the Royal Show, the Great Yorkshire Show; the Cornwall Show and the Devon Show.

### Animal Welfare

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to enact a single statute to protect the welfare of livestock and horses as proposed by the Farm Animal Welfare Council. [14042]

**Mr. Bradshaw:** The Government welcome the Farm Animal Welfare Council (FAWC) report on the welfare of farmed animals at gatherings, published on 30 June. We are currently considering the report's recommendations before we consult interested parties.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the right hon. Member for Maidstone and The Weald (Miss Widdecombe) of 29 June 2005, *Official Report*, columns 1533–34W, on animal welfare, on what basis he has concluded that the evidence relating to welfare at circuses is anecdotal; and if he will make a statement. [15070]

**Mr. Bradshaw:** The basis for our conclusion are the number of prosecutions that have been brought against owners and trainers of circus animals, and the evidence that has also been submitted to the recent consultations on the Animal Welfare Bill by those who are either opposed to or want animal performances in circuses to continue.

### Asbestos

**Mr. Nicholas Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs what environmentally acceptable disposal routes for asbestos her Department has identified; and in what order of desirability. [13988]

**Mr. Bradshaw:** Landfill is the normal option for the disposal of asbestos. The Landfill (England and Wales) Regulations 2002 as amended allow asbestos to be disposed of in a separate cell of either a non-hazardous or a hazardous waste landfill. Specific handling requirements on the bagging and cover of deposited asbestos are set out in the regulations, together with provisions to prevent future disturbance of the waste and potential release of fibres.

### Beef

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the impact of Brazilian beef imports on the British beef industry. [12366]

**Mr. Bradshaw** *[holding answer 18 July 2005]*: The Department is aware of the level of imported beef and beef products from South America. We are also committed to facilitating enhanced competitiveness and sustainability in the UK beef industry through initiatives such as the Red Meat Industry Forum.

### Birds (Imports)

**Mr. Laurence Robertson:** *To ask the Secretary of* State for Environment, Food and Rural Affairs what restrictions to reduce the risk of disease apply to the importation of birds; and if she will make a statement. [13121]

**Mr. Bradshaw:** There are different requirements governing the import of birds from member states of the EU and import of birds from third countries. There are three categories of birds—poultry, captive birds and pet birds. The import requirements are laid down in EU legislation.

All poultry and captive birds imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. These checks ensure that the import conditions are met. Captive birds and poultry must undergo a period of quarantine. Pet birds from third countries do not have to enter through a border inspection post, but must serve a period of quarantine. This can be at the owner's house where they are inspected by a veterinary officer.

All imports from EU countries must be accompanied by agreed health certification. Poultry must originate from approved establishments and come from flocks which have been held in community establishments for 21 days prior to export. Poultry must have undergone health examination by an official or authorized veterinarian. Captive birds must come from a holding and an area not subject to disease. The rules for pet birds imported from other member states are the same as those from third countries.

If there is an outbreak of disease in an exporting country Defra takes appropriate emergency safeguard measures as allowed by Community legislation. This may include a ban on imports of animals and animal products from all, or parts, of that country.

The situation in affected countries is kept under review and controls on imports are modified in line with community decisions. Safeguard measures are currently in place to ban or restrict imports of animals, meat and other products of susceptible species in respect of highly pathogenic avian influenza (HPAI) in Cambodia, Indonesia, Laos, Malaysia, Pakistan, the People's Republic of China, including the territory of Hong Kong, North Korea, Thailand, Vietnam and South Africa.

### Bovine TB

**Mr. Hollobone:** To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in England were under official movement or marketing restrictions at the height of the foot and mouth disease epidemic in 2001; and how many are under official movement or marketing restrictions because of bovine TB. [12365]

**Mr. Bradshaw** *[holding answer 18 July 2005]:* The number of farms within infected areas and therefore subject to both movement and marketing restrictions in Great Britain at the height of the foot and mouth outbreak in 2001 was 112,735. We are unable to give a breakdown for England separately.

Latest provisional statistics indicate that on the 18 July 2005, there were a total of 5,002[1] farm holdings under TB movement restrictions, 2,337[1] as a direct result of a TB incident and 2,665[1] under restrictions for other reasons. The majority of these are as a result of TB tests being overdue.

[1] Provisional data downloaded from the State Veterinary Service Vetnet TBiC system on 18 July 2005. Subject to change as more data become available.

**Dan Norris:** To ask the Secretary of State for Environment, Food and Rural Affairs what the incidence of bovine TB was in *(a)* North East Somerset, *(b)* South Gloucestershire and *(c)* the former county of Avon area in the last period for which figures are available. [12516]

**Mr. Bradshaw:** Disaggregated data for the geographic areas of North East Somerset, South Gloucestershire and the former county of Avon are not centrally held, and can only be obtained at disproportionate cost. An aggregate figure for "Avon" (which covers the former county of Avon, South Gloucestershire, Bath and North East Somerset and North Somerset) is set out in the following table.

| | *Avon* |
|---|---|
| *1 January-31 December 2004:* Confirmed New Incidents as a percentage of tests on unrestricted herds | 4.37 |

*Note:*
Provisional data downloaded from the State Veterinary Service Data Warehouse on 19 May 2005. Subject to change as more data become available.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of the number of badgers that have been confirmed to have died due to infection with bovine tuberculosis in England and Wales, between 1975 and 2004 broken down by county; and if she will make a statement. [13032]

**Mr. Bradshaw:** The number of badgers that have been confirmed to have died due to infection with bovine tuberculosis in England and Wales has not been estimated by Defra or its agencies.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the effect of bovine tuberculosis on badger population numbers in England and Wales in the last five years; and if she will make a statement. [13034]

**Mr. Bradshaw:** Reliable data on the causes of deaths in badgers and their effect on population numbers in England and Wales do not exist. In the only long term study, conducted by the Central Science Laboratory at

a study site in Gloucestershire, mortality due to TB was estimated to be around 7 per cent. during the period 1978 to 1993. However, the study site is of limited size, and the result cannot be extrapolated to the rest of England and Wales.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of the mortality rate of badgers in England and Wales in each of the last five years. [13035]

**Mr. Bradshaw:** Mortality rates of mammals can only be determined from long term, intensive studies. Only two such studies exist on badgers, both in southern England (Woodchester Park, Gloucestershire, and Wytham Woods, Oxfordshire). Mortality rates at these sites varies from year to year in relation to weather conditions and hence food availability. Cub mortality is thought to be relatively high, both pre-emergence from the sett, and also up to the end of the first year. At Woodchester Park, where TB status is also recorded for each animal trapped, the average mortality rates for uninfected adult animals were 30.4 per cent. for males and 23.6 per cent. for females. For the small proportion of animals which had a history of more than one positive test for TB, mortality was 66.7 per cent. and 48.0 per cent. for males and females respectively. Overall at Woodchester, the average mortality is thought to be about 50 per cent.

It is important to note that these studies are in high density populations, and therefore cannot be extrapolated to the country as a whole. Mortality rates will be different from these in lower density locations. In a study of suburban badgers in Bristol, mortality rates were 40.3 per cent. for adult females, and 28.1 per cent. for adult males.

Other studies have estimated that approximately 50,000 badgers are killed on roads each year, making it the most important cause of death.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of bovine tuberculosis have been recorded in *(a)* the North West and *(b)* Chorley in the last three years. [13483]

**Mr. Bradshaw:** Statistics on bovine TB are aggregated according to the office structure of the State Veterinary Service (SVS). The North West is not currently a recognised region within the SVS structure. Data sets for the Carlisle and Preston Animal Health Offices are in the following table along with the data set for Cheshire. We are unable to provide figures for Chorley, as data disaggregated at this level are not held centrally.

| | *Total new herd TB incidents* | | | | *Confirmed new TB incidents* | | | |
|---|---|---|---|---|---|---|---|---|
| | [1]*2002* | *2003* | *2004* | *Total* | [1]*2002* | *2003* | *2004* | *Total* |
| Carlisle | 33 | 70 | 65 | 168 | 10 | 15 | 17 | 42 |
| Cheshire | 27 | 36 | 46 | 109 | 15 | 12 | 16 | 43 |
| Preston | 9 | 5 | 7 | 21 | 0 | 1 | 0 | 1 |

[1] In 2001, the TB testing and control programme was largely suspended due to the foot and mouth disease (FMD) outbreak. When testing resumed In 2002, resources were concentrated on herds with overdue TB tests which would have had e longer period In which to contract the disease. Also the proportion of high risk herds tested immediately after the FMD outbreak was greater than that prior to the outbreak. As a result, data for 2002 is not comparable with other years.

*Note:*

All data downloaded on 19 May 2005 from SVS TB Data Warehouse. All data are provisional and subject to change as more data become available.

**Steve Webb:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she plans to take to assist farmers whose farms are shut down because of identified cases of bovine TB; and if she will make a statement on the progress of the trials which her Department is undertaking into methods to tackle bovine TB. [13699]

**Mr. Bradshaw:** It is Government policy to pay 100 per cent. of market value, with no upper limit, for cattle that are compulsorily slaughtered under TB control measures.

We are sympathetic to farmers whose herds are currently under restrictions, but this is a necessary measure to tackle bovine TB. The Government are committed to finding the best way to combat this disease, backed by available scientific evidence and taking account of all interested parties, including farmers and the taxpayer.

The Independent Scientific Group on Cattle TB aims to reveal the outcome of the pro-active culling effect of the randomised badger culling trial to Ministers in spring 2006 and publish its final report, covering all its works and findings, in spring 2007. In the interim we are developing a model to assess a range of potential policy options, including wildlife controls.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the recent discovery of bovine TB in pigs in Bodmin, Cornwall. [13871]

**Mr. Bradshaw:** We are aware of a confirmed case of bovine TB in pigs on a Cornish farm. Tests are being carried out to establish the origin of the disease. However, cattle on the same farm have tested negative for bovine TB. Movement restrictions have been placed on the premises while the investigation continues. Although we have looked at possible sources of infection including unpasteurised cows' milk from another farm that has been fed to the pigs, and wildlife involvement, we do not yet have a definite origin.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the locations of sites selected for the bovine TB vaccination of badgers trial; whether the vaccine is the same as that used in the Irish trial; and if she will make a statement. [13931]

**Mr. Bradshaw:** We are currently considering a number of potential locations in south west England. Once potential locations have been identified we will seek landowner permission to carry out the proposed trial.

We do not know which strain of Bacille Calmette Guerin (BCG) will be used in the Irish field trial. We are aware however that the Pasteur strain was used in their experimental studies. We intend to use the Danish strain of BCG for our trial. We chose the Danish strain because it is produced to a recognised quality assurance standard and the manufacturers are willing to release appropriate data in support of Defra's application to the Veterinary Medicines Directorate to undertake the field trial.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will announce the results of the road traffic accident survey on the prevalence of tuberculosis in badgers. [13195]

**Mr. Bradshaw** *[holding answer 19 July 2005]:* We anticipate releasing the 2002–04 road traffic accident (RTA) data, along with illustrative maps showing locations where badgers were picked up in the first week in August 2005, on the Independent Scientific Group on Cattle TB and Defra websites.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that animals from tuberculosis-infected areas are tested before being moved into non-infected areas, with particular reference to Yorkshire; what tests will take place; who will fund them; and if she will make a statement. [4869]

**Mr. Bradshaw:** We are considering a proposal for pre-movement testing in GB developed by a farmer-chaired stakeholder group. The group was asked to make recommendations on the basis that testing is paid for by the herd owner. The group delivered its report on 29 April, and published on DEFRA website on 1 June.

Government are now carefully considering the recommendations of the group, along with colleagues from Scotland and Wales, and will bring forward proposals to be introduced as early as possible.

## Carbon Dioxide Emissions

**Mr. Llwyd:** To ask the Secretary of State for Environment, Food and Rural Affairs what the annual UK emissions of carbon dioxide were, including emissions from aircraft taking off from UK airports in each of the past five years. [13001]

**Mr. Morley:** Annual UK emissions of carbon dioxide from domestic aviation and UK total carbon dioxide emissions are shown in the following table for the years 1999 to 2003 in million tonnes of carbon dioxide ($MtCO_2$). The data on aviation covers emissions from all civil domestic passenger and freight traffic movements inside the UK. This data is from the UK Greenhouse Gas Inventory published in 2005.

*$MtCO_2$*

| | *Domestic aviation* | *UK total emissions* |
|---|---|---|
| 1999 | 1.8 | 556.4 |
| 2000 | 2.0 | 560.4 |
| 2001 | 2.1 | 577.2 |
| 2002 | 2.1 | 559.9 |
| 2003 | 2.1 | 572.2 |

Under guidelines agreed internationally, emissions from international aviation taking off and landing at UK airports are not included in UK total emissions, but are estimated for information purposes. Emissions of carbon dioxide from international aviation, for 1999 to 2003, are estimated in the following table.

*$MtCO_2$*

| | *International aviation* |
|---|---|
| 1999 | 27.4 |
| 2000 | 30.2 |
| 2001 | 29.5 |
| 2002 | 28.9 |
| 2003 | 29.7 |

## Cetaceans

**Linda Gilroy:** To ask the Secretary of State for Environment, Food and Rural Affairs how many dolphin and porpoise strandings there were in the south-west in each of the last five years. [12995]

**Mr. Bradshaw** *[holding answer 18 July 2005]:* From 1 January 2000 until 18 July 2005 a total of 376 harbour porpoises and a total of 867 dolphins (including common, white beaked, white sided and striped) were reported as strandings in the south-west. Table 1 gives a breakdown by year for the number of harbour porpoise and Table 2 gives the breakdown for dolphins.

Strandings data is obtained under the Defra-funded Cetacean and Turtle Strandings Scheme, carried out by the Natural History Museum in partnership with the Institute of Zoology and Scottish Agricultural College.

*Table 1: Total numbers of stranded harbour porpoise for 2000—up to 18 July 2005*

| | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* |
|---|---|---|---|---|---|---|
| Cornwall | 21 | 25 | 68 | 40 | 114 | 18 |
| Devon | 8 | 12 | 14 | 11 | 21 | 9 |
| Dorset | 2 | 4 | 6 | 0 | 0 | 3 |
| Total | 31 | 41 | 88 | 51 | 135 | 30 |

*Table 2: Total numbers of stranded dolphins for 2000—up to 18 July 2005*

| | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* |
|---|---|---|---|---|---|---|
| Cornwall | 36 | 81 | 89 | 196 | 105 | 47 |
| Devon | 15 | 37 | 25 | 65 | 61 | 9 |
| Dorset | 9 | 5 | 25 | 38 | 12 | 12 |
| Total | 60 | 123 | 139 | 299 | 178 | 68 |

**Linda Gilroy:** To ask the Secretary of State for Environment, Food and Rural Affairs what the latest population estimates for dolphins and porpoises in south-west waters are. [13132]

**Mr. Bradshaw** *[holding answer 18 July 2005]:* Obtaining population estimates for mobile species such as cetaceans is difficult. According to scientific advice recently published by the International Council for the Exploration of the Sea, dolphins *Delphinus delphis* present in south-west waters form part of a single genetic population in the North East Atlantic. Although no single abundance survey has been carried out for this area, scientific work base don surveys for various parts of the North East Atlantic suggests a population of the order of 380,000 animals. Similarly, the harbour porpoise *Phocoena phocoena* is widely distributed in all waters around the UK. The 2002 report of the Advisory Committee on Ecosystems of the International Council for the Exploration of the Sea (ECES) estimated 36,280 harbour porpoise in south-west waters.

A consortium of international researchers, co-ordinated by the Sea Mammal Research Unit, is currently carrying out a second SCANS survey of the distribution and abundance of small cetaceans—particularly harbour porpoises, bottlenose dolphins *Tursiops truncates* and common dolphins. The survey area is intended to cover the shelf waters of the Atlantic margin, the North sea and adjacent waters. The UK contributed £275,000 to this project. The results of the second SCANS survey should be available by the end of 2006.

**Linda Gilroy:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the results of the 2005 trial of separator grids in the bass pair trawl industry; and if she will make a statement. [13133]

**Mr. Bradshaw** *[holding answer 18 July 2005]:* During the 2004–05 season, a preliminary analysis by the Sea Mammal Research Unit (SMRU) of research conducted on behalf of DEFRA suggests that there was a total mortality of 142 common dolphins in the UK pair trawl fishery for bass, compared with 429 in 2003–04 and 114 in 2002–03.

During fishing operations, trials of the separator grid were undertaken by SMRU with some positive results, though further testing will be needed to improve its performance. A fuller analysis by SMRU on observations made in the UK pair trawl fishery for bass will be published on the DEFRA website in the autumn.

### Common Agricultural Policy

**Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs which companies and individuals in England received payments of more than £200,000 under the Common Agricultural Policy in 2004; and what sum was received in each case. [12639]

**Jim Knight:** I have been advised by the Rural Payments Agency that a copy of this information in the form of a CD ROM was forwarded to you on Tuesday 22 March 2005. This information is also available in the Library of the House in the same format.

I understand that Lord Bach wrote to you on 18 July explaining that a further regional analysis of CAP payments for the European Agriculture Guidance and Guarantee Fund year 2003–04 will be published on the RPA website on Wednesday 20 July at 12.30pm.

### Community Energy Programme

**Mr. MacNeil:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the future of the Community Energy Programme in *(a)* Scotland and *(b)* England and Wales. [14049]

**Mr. Morley:** Defra has made £10 million available to extend the Community Energy programme to 2007–08. We are currently working with the Energy Saving Trust and Carbon Trust, the joint programme managers, to finalise the details of this extension. We will announce these details before the first bidding round, which we expect to run in the autumn.

### Correspondence

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter from the hon. member for Totnes dated 25 May relating to the Stoke Fleming parish council's community composting centre. [13884]

**Mr. Bradshaw:** I replied to the hon. Member's letter on 18 July. I apologise for the delay.

### Digital Mapping

**Mr. Todd:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in producing digital maps of farmland; and if she will make a statement on the effect of the time taken in preparation of the maps on the ability of landowners to participate in her Department's schemes. [9360]

**Jim Knight:** The Rural Payments Agency (RPA) has developed the Rural Land Register (RLR) from paper based maps used to support subsidy claims. From 2002 to 2004 land was digitised from area aid applications received from farmers. All prospective subsidy applicants have to apply to RPA to have their land registered. Currently RPA has received 18,114 requests for new land registrations. To date there have been 94,801 land registrations or applications for land registration and of these 89,678 or 94 percent. of applicants and previous subsidy claimants have been sent digitised maps.

It is a requirement of Environmental Stewardship (ES) for farmers to have their land registered on the RLR. RPA has been prioritising land registration and modifications to existing land registration requests associated with prospective ES applications. However, a proportion of potential applicants have encountered delays in entering the ES. The original deadline for the first application window was extended and monthly start dates have been introduced for the entry level strand of ES to minimise the impact.

### Egg Imports

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what vaccines have been developed to inoculate against salmonella from imported eggs; and if she will make a statement. [13123]

**Mr. Bradshaw:** Products to vaccinate hens against salmonella infection have been developed by the pharmaceutical industry, There are seven veterinary medicinal products authorised in the UK for use in poultry (laying birds) to protect against infections with either Salmonella Enteritidis, Salmonella Typhimurium or Salmonella Gallinarum.

These vaccines are used in conjunction with a number of other measures relating to hygiene, biosecurity and management to help protect the hens against certain strains of salmonella of public health significance, In Great Britain a large proportion of the flocks producing eggs for human consumption are vaccinated against salmonella. Vaccination against salmonella of flocks producing eggs for human consumption is one of the requirements of the British Egg Industry Council operated Lion Code. The members operating to the Lion Code produce around 80 per cent. of the eggs in Great Britain. A number of producers who are not members also vaccinate their flocks against salmonella.

There is no statutory requirement to vaccinate flocks producing eggs against salmonella. The producer will decide on vaccination of the flock depending on individual circumstances and veterinary advice.

In other countries flocks producing eggs for human consumption may or may not be vaccinated against salmonella. Some countries have a statutory requirement to vaccinate flocks against salmonella, and in others the vaccination of flocks producing eggs for human consumption is not permitted. In some countries the situation is similar to Great Britain, where vaccination may be carried out on a voluntary basis. Imported eggs may therefore come from flocks which have been vaccinated against salmonella in some cases and not vaccinated against salmonella in others.

It is, of course, important that caterers and consumers follow the advice of the Food Standards Agency on the handling, cooking, and storage of eggs.

### Endangered Species

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will publicise the penalties for offences relating to the illegal trade in endangered species. [14044]

**Jim Knight:** On 27 June, I announced that the maximum prison sentence for certain offences relating to the illegal trade in endangered species is being increased from two to five years, with effect from 21 July 2005. This increase will bring with it enhanced powers of arrest for police officers.

Information is available on the Defra website (www.defra.gov.uk). Full details have also been sent to all organisations that are members of the Partnership for Action Against Wildlife Crime (PAW), this includes the statutory enforcement agencies, the main conservation organisations, and the main traders and other users of wildlife with an interest in this area.

### Energy Crops

**Mr. Salmond:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what incentives are offered to UK farmers to develop energy crops for use in *(a)* bio-mass and *(b)* dual bio-mass and coal fired power stations; [12261]

(2) what the Government's policy is on the *(a)* growing, *(b)* promotion and *(c)* use of energy crops in the UK. [12299]

**Mr. Morley:** As part of our overall strategy for improving sustainability and reducing the impact of climate change, the Government supports the use of energy crops for the generation of electricity and heat. Grants are available to farmers in England to plant energy crops. The single payment and €45/ha energy aid payment are also available in certain circumstances. Funding has been provided to develop supply chains throughout the UK to supply energy crops to all types of energy end-users. A UK-wide grant scheme is developing dedicated biomass heat, combined heat and power, and electricity generation projects, particularly those fuelled by energy crops. Recent changes to the rules on co-firing of biomass with fossil fuel in conventional power stations give longer timescales for the use of biomass. This makes co-firing with energy crops a more attractive option for both farmers and power generators. The Biomass Study Task Force, led by Sir Ben Gill, which is to report later this year, is working with stakeholders to identify the barriers to developing biomass energy and will recommend ways to overcome the problems.

### Engagements

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs which country *(a)* she and *(b)* each minister in her Department (i) has visited and (ii) plans to visit in 2005. [9033]

**Margaret Beckett:** So far this year, Defra Ministers have undertaken official visits to various EU member states as well as to the USA, Kenya, India, New Zealand and South Korea.

### England Rural Development Programme

**Mr. Letwin:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received concerning the allocation of England Rural Development Programme Vocational Training Scheme funds between regional and national schemes. [9169]

**Margaret Beckett:** I have received one representation concerning the allocation of funds between regional and national projects under the Vocational Training Scheme (VTS).

The VTS is administered by the Rural Development Service and applications for funding may be made to address particular needs for training farmers and foresters. The scheme is selective and projects are assessed on a wide range of criteria including fit with national and regional priorities, and value for money. The VTS has an total annual budget of £4 million under the England Rural Development Programme (ERDP). The majority of this budget is allocated for regional projects, but a reserve of £300,000 has been set aside in 2005–06 to fund projects that have national coverage, or which would operate in four or more regions. If regional

funds are under-subscribed, it is possible for additional moneys to be made available to high priority national projects.

### European Landscape Convention

**Mr. Caton:** To ask the Secretary of State for Environment, Food and Rural Affairs when the UK will sign and ratify the European Landscape Convention. [13748]

**Jim Knight:** Signature and ratification of the European Landscape Convention remains under consideration. It is likely that my right hon. Friend, the Secretary of State, will be in a position to make a recommendation to colleagues shortly.

### Fallen Stock

**Hywel Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she had with her counterpart in the National Assembly for Wales Government about the fallen stock scheme prior to its implementation. [12373]

**Mr. Bradshaw** *[holding answer 18 July 2005]:* None directly, however the Scheme was fully supported by this Department and Devolved Administrations, which have jointly agreed to provide funding to the tune of £20 million over three years.

### Farm Subsidies

**Anne Milton:** To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department spent on computer systems to support the single payment system. [11402]

**Jim Knight:** The Rural Payments Agency (RPA) is currently budgeting to directly spend £70.9 million to develop new computer software to support the single payment scheme (SPS). In addition to the software development costs, the RPA is also budgeted to spend £20.2 million on hardware and infrastructure improvements to host the software. There are further indirect costs for project management, business process redesign, assurance and the implementation of SPS.

The development of a new computer system to deliver SPS is an integral part of a broader Change Programme. This Programme is targeted to make greater use of technology and innovation to deliver all RPA services more efficiently and effectively. As well as implementing the Single Payment Scheme (SPS), this Programme will bring about a significant reduction of the size of the organisation by reducing the number of operational sites from 12 to six (four have already closed) and a reduction in staffing of approximately 1,650 (from a baseline of 3,299) as part of the Gershon efficiencies.

**Anne Milton:** To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* minimum, *(b)* maximum, *(c)* average and *(d)* median time taken for farmers to obtain field numbers for non-arable land was in the last period for which figures are available. [11403]

**Jim Knight:** The Rural Payments Agency (RPA) is responsible for the allocation of field numbers on land used for the purposes of claiming CAP subsidy. Since September 2004 RPA has maintained a digitised record of all land on which subsidy is claimed. Following the introduction of the single payment and environmental stewardship schemes requests to register new land and modify existing registrations have increased by around 1,000 per cent. over previous levels. This has resulted in significant backlog of requests.

RPA has not historically maintained statistics on the response times for processing requests. Following the deployment of additional resources to this task RPA is processing more than 1,000 requests per week and is prioritising cases to support claims to the single payment and environmental stewardship schemes. Moreover, RPA is seeking to further increase processing capacity to expedite the clearance of outstanding requests.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers did not receive their entry level scheme packs on time; and if she will make a statement. [13185]

**Jim Knight:** Environmental Stewardship was launched on 3 March and farmers and landowners can apply to join Entry Level Stewardship (ELS) at any time. The immediate focus for many has however been to secure an ELS agreement with the earliest start date available, of 1 August.

In the light of current difficulties with the printing of some ELS application packs, and delays in land registration for some customers, the contingency arrangements we have put in place—an extension of the closing date for applications and prioritisation of registration requests submitted to the Rural Payments Agency—should help ensure that as many applicants as possible can benefit from the 1 August start date. In addition, moving to monthly agreement start dates after 1 August means that the impact on customers of any further delays are minimised. These difficulties should however not mask the progress already made. By 8 July, over 28,000 ELS application packs had been issued and of these, more than 5,000 applications had been completed and returned to the Rural Development Service.

### Fisheries

**Mr. Iain Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to promote larger mesh nets for fishing boats to permit smaller fish to escape the nets. [13440]

**Mr. Bradshaw:** Mesh sizes have been increased progressively over a number of years. For example, the mesh size for targeting cod was 80 mm when the Common Fisheries Policy was introduced in the 1980s, was increased to 100 mm in the early 1990s and is now 120 mm in the North Sea and west of Scotland. The most significant problems for the adoption of higher mesh sizes is in mixed fisheries where fish of different sizes are caught together. European Union funding of up to 40 per cent. is available for fishermen to adopt environmentally friendly fishing methods such as more selective gear to reduce impact on fish stocks (e.g. hand lining, separator trawls, benthic release panels).

**Mr. Iain Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to promote diversification in the fishing industry, with particular reference to tourism and leisure. [13441]

**Mr. Bradshaw:** Defra has tasked the Regional Development Agencies to increase their role in rural economic development and this has a strategic fit with their regional responsibilities for the development of leisure and tourism as an industry. While the RDAs are best placed to understand the needs of their regions many of the lagging rural districts, identified by Defra and regional partners, contain fishing ports and their needs will form a key part of strategic plans for an area.

We liaise with RDAs to keep them informed of prospects for the fishing industry and to provide advice on local fisheries developments, which influence planning for diversification.

The new EU grant scheme for fisheries under negotiation in the Agriculture and Fisheries Council will include powers from 2007 to grant aid diversification from fisheries. We will consider how to make best use of those provisions in conjunction with the new Rural Development Regulation.

**Mr. Iain Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to reduce bureaucracy for the fishing industry. [13439]

**Mr. Bradshaw:** Better regulation and simplification of legislation are a priority for the Department. We have already improved application procedures for the fisheries grant scheme and are appointing facilitators to help fishermen through the process. We are rewriting other guidance for fishermen, beginning with material on licensing procedures.

We are working with the National Federation of Fishermen's Organisations on a joint research project to identify specific reforms which should be a priority for action.

Most fisheries legislation originates in the EU and it is a priority for the UK Presidency to get simplification of EU law. The Commission has agreed to bring forward an action plan for fisheries by the end of the year, and we will be proposing specific issues which need early attention.

### Flood Defences

**Mr. Rob Wilson:** To ask the Secretary of State for Environment, Food and Rural Affairs how much central Government funding has been made available for the improvement of flood defences in the Reading, East constituency in each year since 1997; and what plans she has to provide additional funding. [13768]

**Mr. Morley:** Defra has overall policy responsibility for flood and coastal erosion risk in England, funds most of the Environment Agency's activities in this area and provides grant aid on a project by project basis to the other flood and coastal defence operating authorities (local authorities primarily) to support their investment in improvement works.

The Environment Agency is the principal authority responsible for management of flood risk. The agency allocates funding to stretches of river and areas at risk of flooding rather than to parliamentary constituencies. Since 1997 the agency has spent £3.78 million in the Reading, East constituency mainly on the reconstruction of two weirs, namely Caversham on the River Thames and Blakes Lock on the River Kennet. An additional average of about £25,000 a year has also been spent on general maintenance of watercourses in the Reading, East constituency. Much of this work has been keeping the channel clear of debris such as supermarket trolleys and vehicles.

Defra has not provided grant aid for improvement projects to local authorities in the constituency during this period although they may have received some support for their own spend on flood risk management through the Office of the Deputy Prime Ministers local government finance mechanism.

Total Government funding has increased from £310 million per year in 1996–97 to £570 million. We plan to maintain this level up to 2007–08 (the last year of the current spending review period with its real value being maintained by efficiency savings in the agency.

**Lynne Featherstone:** To ask the Secretary of State for Environment, Food and Rural Affairs how much central Government funding has been made available for the improvement of flood defences, broken down by London constituency, in each year since 1995; what plans she has to provide additional funding; and if she will make a statement. [14986]

**Mr. Morley:** Defra has overall policy responsibility for flood and coastal erosion risk in England, funds most of the Environment Agency's activities in this area and provides grant aid on a project by project basis to the other flood and coastal defence operating authorities (local authorities primarily) to support their investment in improvement works.

The Environment Agency is the principal authority responsible for management of flood risk. The Agency allocates funding to stretches of river and areas at risk of flooding rather than to parliamentary constituencies. Defra funding to local authorities is allocated to individual improvement projects which may span more than one constituency. The information requested has not been recorded centrally and I regret I am not able to answer the question without incurring disproportionate cost. However I did write to all Members in February to notify them of projects approved and/or completed since May 1997 in the counties in which their constituencies are located together with the cost of the projects. The full list was placed in the Library and also published on the Defra website.

Total Government funding has increased from £310 million per year in 1996–97 to £570 million. We plan to maintain this level up to 2007–08 with its real value being maintained by efficiency savings in the Agency.

### GM Animal Feed

**Mr. Meacher:** To ask the Secretary of State for Environment, Food and Rural Affairs on what published and peer-reviewed feeding studies Government policy

that approved varieties of GM animal feed are not a long-term danger to farm animals or to consumers of the products of those animals is based. [12181]

**Caroline Flint:** I have been asked to reply.

The assessment of genetically modified (GM) materials for use in animal feed is conducted on a case by case basis and involves the scrutiny of a range of data relevant to the material for which approval is being sought, including results from animal feeding studies. There is no requirement for the data provided for assessment to be peer-reviewed and published in the scientific literature, although in many cases data has been through this process. Nevertheless, the evaluation of the application dossiers by expert panels involves detailed and independent scrutiny of the data. GM crops are only considered for approval if they are judged by the expert assessors to meet strict safety criteria.

### Hormone Disruptors

**Mr. Sarwar:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications for the environment of the release of hormone disrupting substances; and whether these are linked to the incidence of breast cancer. [13449]

**Mr. Morley:** The Department is funding a considerable research programme to improve our understanding of the possible implications for the environment of exposure to hormone (endocrine) disrupting substances, in conjunction with other Government Departments and Agencies.

We have completed specific programmes of research on endocrine disruption in the marine environment (EDMAR) and in invertebrates and top predators (EDIT). We commissioned a new programme, "Endocrine Disruption in Aquatic Environments (EDAQ)", in 2003. We have also made a considerable contribution to investigations into the potential impacts of sewage effluents on freshwater fish.

The development of breast cancer is a complex issue and there are several recognised risk factors, including lifestyle and diet. However, there is currently no convincing evidence to link chemicals in the environment to breast cancer.

### Law Infringements

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs, if she will list the environmental law infringements by the UK of which she ahs been notified since 1 January by the European Commission; and if she will make a statement. [15077]

**Mr. Morley:** A list of all infringements, including environmental, initiated by the European Commission against the UK, since 1 January 2005, can be found at: http://europa.eu.int/comm/secretariat_general/sgb/droit_com on the European Commission website.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs which five management consultancies received the highest value of contracts awarded by her Department in each of the last three years; and what the total value was of the contracts awarded to each. [12581]

**Jim Knight:** The information is as listed in the following tables:

*2002–03*

| | £ |
|---|---|
| P A Consulting Group | 5,281,766.67 |
| Logica UK Ltd. | 3,781,131.46 |
| Hedra Consortium | 1,240,476.13 |
| Cornwell Management Consultants plc | 915,374.51 |
| Deloitte Consulting | 705,000.00 |

*2003–04*

| | £ |
|---|---|
| P A Consulting Group | 6,899,587.19 |
| Deloitte M C S Ltd. | 2,679,518.23 |
| Hedra Consortium | 2,090,149.22 |
| Cornwell Management Consultants plc | 2,057,281.94 |
| I B M United Kingdom Ltd. | 1,505,892.18 |

*2004–05*

| | £ |
|---|---|
| P A Consulting Group | 5,251,231.95 |
| Hedra Consortium | 1,664,383.25 |
| Deloitte M C S Ltd. | 1,607,051.16 |
| Q I Consulting | 981,331.39 |
| Logica cmg | 539,186.83 |

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's total spending on management consultants has been in each of the last three years. [13064]

**Jim Knight:** The information requested is as follows:

| *Financial year* | £ *Amount* |
|---|---|
| 2002–03 | 15,317,093 |
| 2003–04 | 20,260,714 |
| 2004–05 | 14,122,596 |

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within her Department. [13625]

**Jim Knight:** The provision of an aggregated response across all business areas in Defra, covering all management consultancy engagements, would be a major administrative exercise which would give rise to disproportionate cost.

Defra engages management consultants across its entire business, with the sole purpose of providing the Department with more effective delivery of the policy aims set by Ministers. The employment of private sector support is not, of itself, intended to provide savings on departmental expenditure, but rather enables progress to be made at a rate commensurate with meeting our strategic goals.

Consultancy recommendations implemented by the Department ensure that Defra has sufficient capability and capacity to deliver its outcomes. The rationale for reliance on consultancy support is largely based on the need to bring sufficient resources with the appropriate skills to bear on critical programmes. The longer-term question of providing a more skilled and professionalised work force, which may in turn lessen reliance on external support, is of course being addressed as part of wider civil service reform.

Defra's major programmes have benefited from the experience and expertise of management consultants, and the true benefits cannot be measured by a simple assessment of the direct costs incurred, but must include an analysis of the financial savings over the life of the programme, and the wider impact on Defra's customers and society in general.

Defra is committed to maximising the value of its expenditure on management consultants, and has begun a programme to review how all professional services, including consultancy, are managed, and how to work more effectively across Whitehall to deliver savings on the services procured. Defra's new strategic partnership with IBM also offers the potential to rationalise consultancy support, and reduce expenditure on ad hoc call-off contracts.

### Marine Environment

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the acidity levels of the world's oceans, with particular reference to the capacity to sustain ecosystems. [12999]

**Mr. Bradshaw:** The Royal Society published last month a report on ocean acidification as a result of increased concentrations of carbon dioxide. This drew attention to the increased acidity which has already been observed, and predicted that further increases would have serious implications for marine ecosystems.

The Department, jointly with DTI, has already funded some research at the Plymouth Marine Laboratory (PML) on the impact of increased levels of carbon dioxide and the consequent acidification on the oceans and marine ecosystems.

Earlier this year Defra, DTI the Norwegian Institute for Water Research and English Nature agreed to oversee a further programme of research with PML to investigate the potential impact of increased seawater acidity on shallow sea ecosystems, biodiversity and the health of key organisms, including their capacity to adapt. This will enable us to better understand and predict the consequences of the Increasing acidity of seawater.

The OSPAR Commission for the protection of the marine environment of the North East Atlantic has begun work on an assessment of the implications of increased carbon dioxide levels. The United Kingdom will be contributing to this work, drawing on the results of the Royal Society study and of the work at PML.

### Milk

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what her estimate is of the proportion of milk *(a)* delivered by milkmen and *(b)* bought in shops in 2004–05. [13611]

**Jim Knight:** The most recent figures available show that in 2004, 13.5 per cent. of milk purchased by households was delivered by milkmen and 86.5 per cent. was bought in retail outlets.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the average number of times a milk bottle is reused. [13485]

**Mr. Bradshaw:** According to the Dairy Industry Association, the figure is nine times.

### Newcastle Disease

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs how many birds have been affected by the outbreak of Newcastle Disease in Surrey; what assessment she has made of whether the disease was present in the birds when they were imported; what steps are being taken to trace other consignments of birds from the same origin; and what information she has received from the French authorities on *(a)* the origins of the disease and *(b)* the reasons it was not detected on the originating premises. [14033]

**Mr. Bradshaw:** There are approximately 9,000 pheasants on the infected estate, which are being captured and then humanely slaughtered.

The State Veterinary Service is tracing and finding details locally of all imports of pheasants in the last two months and movements related to the infected premises, The information will help give an indication of any likely disease spread. UK officials have contacted the French authorities regarding the outbreak and possible link to France, who have immediately began a thorough investigation. There has been a rapid exchange of information concerning the movement of birds between France and the infected premise in England.

The French authorities identified a number of farms that had supplied birds to the infected farm and have undertaken active surveillance and sampling, which has now allowed them to conclude by blood sampling that birds on one farm have been exposed to the Newcastle Disease virus in the Loire Atlantique region of France, which has approximately 20,000 pheasants and 35,000 partridges. Although the source of infection for this farm has yet to be identified and virus isolation results are not yet available, the French authorities have taken decisive action to control the disease.

We are working closely with the French authorities who are keeping us fully informed and who are carrying epidemiological investigations on the suspect farm to determine the source and any spread of the disease.

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to control the outbreak of Newcastle Disease in Surrey. [14038]

**Mr. Bradshaw:** The Government's strategy is to stamp out and eradicate the disease outbreak quickly; to encourage keepers to use greater biosecurity and adopt vaccination; to reduce the impact on trade and the rural economy; and recover the UK status as free from Newcastle Disease as soon as possible.

Defra acted immediately following suspicion of disease, control measures asset out in the Defra Exotic Animal Disease Generic Contingency Plan have formed the basis of the Government's response. Local and national disease control centres have been set up.

Full control measures, as required by EU law, have been taken. Restrictions have been imposed upon the farm where the disease has been confirmed, which includes movement restrictions and biosecurity measures. In addition, a declaratory order has been made declaring an infected area and establishing a surveillance zone of 10 km around the infected premises to impose restrictions to prevent the spread of disease.

The State Veterinary Service is tracing and finding details locally of all imports of pheasants in the last two months and movements related to the infected premises. The information will help give an indication of any likely disease spread.

### Peat

**Mr. Davey:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on commercial peat extraction, with particular reference to Cumbria; which areas have been confirmed under special protection status over the past 12 months; and which areas are being considered for special protection status. [13837]

**Jim Knight:** In the last 12 months no additional Cumbrian areas, being worked for peat, have been selected as Special Areas of Conservation (SAC) under the EC Habitats Directive. Two such areas, Solway Moss and Bolton Fell Moss, are currently under consideration for SAC status.

### Pesticides/Chemicals (Royal Commission)

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to the Royal Commission on the use of pesticides and chemicals. [13612]

**Mr. Morley:** With respect to representations made regarding the Royal Commission's study into Bystander Exposure to Pesticides; Defra officials have provided written and oral briefing, answered specific questions raised by the Royal Commission and commented factually on the draft report.

The Government's response to The Royal Commission on Environmental Pollution's 24th, "Chemicals in Products, Safeguarding the Environment and Human Health" was presented to Parliament by the Secretary of State in August 2004.

### Pollution (Fines)

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list companies fined for pollution incidents in each of the past five years, broken down by amount of fine; how many were fined more than once in that period; and what steps are taken to combat repeat offences. [14008]

**Mr. Bradshaw:** A list of all companies convicted of and fined for pollution offences by the Environment Agency ("the Agency") in the calendar years 2000 to 2004 will be made available in the Library of the House.

A list covering all companies convicted of and fined for pollution offences by the Agency more than once in the same five-year period will also be made available in the Library of the House.

The Environment Agency uses protective, deterrent and incentive measures to tackle repeat offences.

Protective measures include:

enforcement notices to require companies to remedy technical defects; and

increasing the level of oversight (such as monitoring, inspections and audits) at poor performing sites, including repeat offenders, through the use of risk-based regulation.

Deterrent measures include:

naming and shaming offenders in the Agency's annual "Spotlight on business" report (Spotlight 2004 will be published on 28 July 2005);

increased charges for permits to reflect any additional oversight required;

the Agency's Enforcement and Prosecution Policy which identifies repeat offenders and suggests firmer enforcement responses in instances of repeat offending; and

fines and custodial sentences through the courts.

Incentive measures include:

recognising improved performance in the Agency's "Spotlight on business" report;

reduced fees for better performers through risk-based charging schemes; and

reduced oversight for operators that justify it.

A list of successful prosecutions by local authorities from 2001–02 to 2003–04 will also be made available in the Library of the House. It is a matter for the individual local authorities to decide what steps to take regarding repeat offenders. The Local Government Association is a signatory to the Cabinet Office Enforcement Concordat.

The Department is still collecting the data for successful prosecutions by local authorities in the year 2004–05, which will be published on the departmental website in December as part of the annual statistical report on the local authority pollution control systems.

### Potato Ring Rot

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether all the potatoes identified as being infected with ring rot in this country were processed in the same grading station in Holland. [11315]

**Mr. Bradshaw** *[holding answer 11 July 2005]:* A revised final potato ring rot report was published on 26 April this year which included new information arising from investigations by the Netherlands Plant Protection Service suggesting there may have been cross contamination of a number of stocks at a Dutch processing facility between December 2002 and March

2003. As the report explains, previous generations of the stocks from which infected potatoes in the UK outbreaks derived were processed at the facility concerned during the period in question, as were four stocks of different varieties which resulted in outbreaks in the Netherlands in 2004. Despite this common link, the resulting investigation in the Netherlands, which included enhanced testing of remaining stocks, has not identified the original source of infection, The report is available at http://www.defra.gov.uk/planth/ring/repfinal.htm.

### Recycling

**Mr. Clegg:** To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department has spent in the last year on measures to raise public awareness of recycling. [13776]

**Mr. Bradshaw:** Defra has spent £16,168,903.75 in the last year 2004–05, on measures to raise public consciousness about recycling.

**Mr. Clegg:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* domestic, *(b)* commercial and *(c)* industrial refuse was recycled in (i) Sheffield and (ii) in the latest year for which figures are available. [13777]

**Mr. Bradshaw:** Latest results are from the Defra Municipal Waste Management Survey, 2003–04 and the Environment Agency Nation Waste Production Survey, 1998–99 are shown as follow s:

*Percentage of waste recycled*

| | *(a) Household* | *(b) Commercial* | *(c) Industrial* |
|---|---|---|---|
| Sheffield | 11.7 | — | — |
| England | 17.7 | — | — |
| South Yorkshire[1] | — | 18.8 | 48.6 |
| England and Wales | — | 23.9 | 44.1 |

[1] Results not available for Sheffield.

Results from the Environment Agency National Waste Production Survey, 2002–03 are expected to be available in August 2005.

### Red Diesel

**Mr. Iain Wright:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the Chancellor of the Exchequer on steps to minimise increases in red diesel costs for the fishing and marine industries. [13438]

**Mr. Bradshaw:** None. Marine diesel is already exempt from excise duty. However my officials are meeting representatives of the fishing industry to discuss the increase in fuel prices and how the industry can respond.

### Rivers

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the length of rivers in England and Wales was accessible to the public in *(a)* 1997 and *(b)* 2004. [14828]

**Jim Knight:** According to the feasibility study "Improving Access for Canoeing on Inland Waters: A Study of the Feasibility of Access Agreements", published in May 2004 the lengths of water for canoeing on canals, rivers with public navigation rights and rivers with formal access agreements in England total over 5,000 km (34 per cent. of the major river and canal network). We do not hold figures for 1997.

Responsibility for promoting recreation in Wales, including access to rivers, lies with the National Assembly for Wales and the Welsh Assembly Government rather than with Defra.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with *(a)* the Secretary of State for Culture Media and Sport, *(b)* the British Canoe Union and *(c)* others on improving the accessibility of rivers in England and Wales to the public. [14852]

**Jim Knight:** None recently but my officials have regular contact with those in the Department for Culture Media and Sport and I am making arrangements to meet the British Canoe Union.

### Sea Fish

**Mr. Gordon Prentice:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the sea fish commonly found in UK waters whose numbers have declined since 1995; and if she will make a statement. [13061]

**Mr. Bradshaw:** Fishery scientists from the UK and the other exploiting nations compile fisheries data, biological data and survey data in order to assess the status of fish stocks. The Advisory Committee on Fishery Management (ACFM) of the International Council for the Exploration of the Sea (ICES), an independent scientific body, uses these data sources to provide information on the annual status of fish stocks.

The state of the stocks is described in terms of the spawning stock biomass (SSB, the weight of mature fish), the fishing rate (F), and the number of juvenile fish (R, recruits in each year-class). One way in which the decline in fish numbers may be assessed is on the basis of changes in SSB from the level estimated for 1995 relative to the current estimate for 2004.

Based on advice from the ACFM meeting of October 2004, which evaluated stock assessments using fisheries data for years up to and including 2003, and survey data up to and including 2004 the following stocks have shown a decline in SSB compared with 1995:

| | *UK waters* | *Sea fish* |
|---|---|---|
| (i) | North sea | Cod, Norway pout, sandeel and sole |
| (ii) | Irish sea | Sole |
| (iii) | Eastern channel | Plaice |
| (iv) | Western channel | Sole |
| (v) | Celtic sea | Cod, whiting and plaice |

For a number of stocks it has not been possible to make a comparison because the level of SSB was uncertain in 2004. This includes some stocks which have shown a long term decline such as cod in the Irish sea and west of Scotland.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs how many days the Department has lost due to sickness in the past five years for which figures are available. [11467]

**Jim Knight:** Figures are available in the annual report "Analysis of Sickness Absence in the Civil Service" published by the Cabinet Office, the most recent of which (for calendar year 2003) was announced by ministerial statement on 1 November 2004 and copies placed in the Libraries of the House.

Reports are also available via the Cabinet Office website at: http://www.civilservice.gov.uk/management_information/conditions_of_service/caje/publications/index.asp#sickness.

As Defra was formed in 2001, figures are only available for 2002 and 2003, and are summarised in the following table.

| | *Column A: Average days absent per staff year* | *Column B: Total staff years* | *Total days absence. (column A × column B)* |
|---|---|---|---|
| 2003 | 8.3 | 7,285 | 60,465 |
| 2002 | 8.7 | 10,320 | 89,784 |

Defra is committed to the effective management of sickness absence and introduced a new policy for sickness absence management in December 2004, which introduced many of the recommendations of the recently published report "Managing Sickness Absence in the Public Sector".

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list *(a)* the special advisers in her Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8823]

**Margaret Beckett:** I refer the hon. Member to the answer given by the Prime Minister on 4 July 2005, *Official Report*, column 36W.

### State Veterinary Service

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs how many veterinary surgeons are employed in each office of the State Veterinary Service, broken down by *(a)* gender and *(b)* full or part-time employment. [13614]

**Mr. Bradshaw:** The number of veterinarians employed by the State Veterinary Service will vary from time to time, The State Veterinary Service also engages local veterinary inspectors and temporary veterinary inspectors to act on its behalf as required.

### Supermarkets

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to strengthen the supermarkets' code of practice; and if she will make a statement. [13124]

**Jim Knight:** Responsibility for the supermarket Code of Practice rests with the Office of Fair Trading. In March it invited comments from supermarkets, suppliers and stakeholders on issues to do with the code and wider competition concerns about the grocery market. It is currently considering the responses received.

### Veterinary Surgeons Act

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish conclusions on amending the Veterinary Surgeons Act 1966; and what assessment she has made of the recent proposals of the Royal College of Veterinary Surgeons. [12457]

**Mr. Bradshaw** *[holding answer 19 July 2005]:* The Government remain committed to modernising the Veterinary Surgeons Act 1966 as soon as parliamentary time allows. An analysis of the results of our public consultation on the future regulation of the veterinary profession has been published on the Department's website.

I welcome the proposals from the Royal College of Veterinary Surgeons (RCVS) Council which are currently being considered by veterinarians and other interested parties. It would be premature for me to make any comment at this stage on the specific proposals. However, a new Bill must provide a proportionate level of regulation to protect the public interest. This will involve striking the right balance between public concerns about self regulation, the standards expected of veterinarians by their clients, the protection of animal welfare and the costs to both veterinary practices and individual vets. We should also take proper account of developments in the regulation of other professions.

My officials will seek a general discussion with the RCVS once the results of the consultation are available. We will also consult other interested parties before deciding how to move these issues forward.

### Waste and Emissions Trading Act

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances her Department may decide not to fine a local authority which failed to meet its landfill allowance requirements under the Waste and Emissions Trading Act 2003. [14221]

**Mr. Bradshaw:** The Secretary of State has the power under section 26(1)*(c)* of the Waste and Emissions Trading Act 2003 (the "WET Act") to waive financial penalties for an authority that exceeds its landfill allowances. The Secretary of State's policy in relation to the exercise of these powers is set out in a guidance document available on the Defra website http://www.defra.gov.uk/environment/waste/localauth/lats/pdf/lats-s26guide.pdf.

In summary, the Secretary of State's policy is to be very selective about the exercise of her powers under section 26(1)*(c)* (ii). In general, she will only waive a financial penalty in circumstances where it can be demonstrated that an authority's failure to meet its duty under section 9(1) of the WET Act was primarily due to circumstances beyond the authority's control.

### Waste Disposal

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how much of the *(a)* paper, *(b)* plastic, *(c)* glass, *(d)* aluminium and *(e)* steel waste collected in London in 2004 was (i) reprocessed within London, (ii) reprocessed in the UK but outside London and (iii) exported for reprocessing; and to which countries such material was exported. [10788]

**Mr. Bradshaw:** Defra does not collect information on the amount of paper, plastic, glass, aluminium and steel collected in London which is then reprocessed within London or reprocessed in the UK but outside London. In general, these wastes would be classified as non-hazardous and their notification of export for reprocessing is not required unless specific countries of destination have made a request to the European Commission for additional controls. In these cases notification to the Environment Agency would be required. No such notifications were made to the Environment Agency during 2004.

Through their contractors, local authorities will know to which destinations these materials are sent and the quantities involved so that they can ensure that they are complying with the requirements of the duty of care i.e. that the material is being transported by properly licensed waste carriers, delivered to an authorised person and that the relevant documents, such as a waste transfer note, are retained by them for the prescribed period.

### Water Charges

**Daniel Kawczynski:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will update the rules which allow water companies to base charges to customers on national rateable values of their property. [14341]

**Mr. Morley:** Defra will be working with Ofwat to update the existing analysis of the relative distributional effects of rateable value and council tax in the light of the findings of the Lyons Inquiry into local government funding and any consequential changes to council tax, We will also consider, in the light of that work, the case for a review of the current rateable value based charging system for households paying an unmeasured charge. The Lyons Inquiry is due to report by the end of 2005,

### Wild Animals

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to ban the use of wild animals in circuses. [15080]

**Mr. Bradshaw:** The introduction of the welfare offences as part of the Animal Welfare Bill will raise the welfare standards for domestic and captive animals kept by man, including circus animals, We have no plans to ban the use of wild animals in circuses, but we do recognise that the issue will come under close scrutiny when the Animal Welfare Bill is considered by Parliament.

### World Trade Organisation (Environmental Incentives)

**Mr. Letwin:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of non-agricultural market access negotiations within the World Trade Organisation on the ability of the Government to provide environmentally beneficial fiscal incentives. [9168]

**Margaret Beckett:** The Government's objective in the non-agricultural market access (NAMA) negotiations is to ensure that improvements in trading conditions that benefit exporters, importers and consumers also facilitate sustainable development and good governance.

These negotiations are at an early exploratory stage. However, at this point the Government do not believe that the NAMA outcome will affect the ability of the Government to pursue environmental objectives.

## NORTHERN IRELAND

### Advertising

**David T.C. Davies:** To ask the Secretary of State for Northern Ireland how much the Department spent on advertising in each of the last five years. [10233]

**Mr. Hain:** The total expenditure on advertising by the 11 Northern Ireland departments in the year 2003–04 was £3,729,756.

The figure for the Northern Ireland Office in the same period was £194,954.

The information requested for the other years could only be provided at disproportionate cost.

### Alcohol-related Crime

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have been convicted of crimes in which alcohol has been a contributory factor in each of the last five years. [13913]

**Mr. Woodward:** Statistics relating to offences where alcohol may have been a contributory factor are not available as conviction data sources do not collate background information relating to the commission of offences.

### Cancer Services

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how much money the Government have spent on cancer services in Northern Ireland in each of the past five years. [14514]

**Mr. Woodward:** We estimate that the total acute hospital expenditure on cancer services was some £62 million in the financial year 2002–03 and some £72 million in the financial year 2003–04. This figure is expected to increase still further in future years.

Further financial information could be made available only at disproportionate cost.

## CCTV

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many CCTV cameras he estimates are operating on streets in Northern Ireland; and how many towns are covered by CCTV. [12050]

**Mr. Woodward:** Aside from privately owned CCTV cameras upon which I cannot comment, PSNI manages CCTV systems in four locations incorporating 79 cameras as shown in the table.

| | *Number* |
|---|---|
| South Belfast | 29 |
| North Belfast | 30 |
| East Belfast | 11 |
| Craigavon | [1]9 |

[1] Portadown town centre scheme

In addition, town centre CCTV schemes operate in a further 17 different locations throughout Northern Ireland.

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the number of CCTV cameras in operation in Belfast city centre. [12075]

**Mr. Woodward:** While I cannot comment in respect of privately owned CCTV cameras such as those operated by traders, the Police Service of Northern Ireland has 29 CCTV cameras in operation in the city centre.

## Child Protection

**Mark Durkan:** To ask the Secretary of State for Northern Ireland if he will ensure *(a)* that the new child care protection legislation will contain the elements which were to be part of a Northern Ireland Assembly Private Member's Bill designed to strengthen the operation of area child protection committees and *(b)* that the new legislation will be a priority for the Department of Health, Social Services and Public Safety. [14490]

**Mr. Woodward:** I can confirm that, in bringing forward new Child Protection legislation, the Department of Health, Social Services and Public Safety will consider the elements of the Northern Ireland Assembly Private Member's Bill designed to strengthen the operation of Area Child Protection Committees and that this legislation will be a priority for the Department.

## Disability Living Allowance

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many pensioners in East Belfast constituency are in receipt of disability living allowance, broken down by *(a)* care and *(b)* mobility components. [14532]

**Mr. Hanson:** The information requested is shown in the table for May 2005.

| *Component* | *Number of pensioners* |
|---|---|
| Care only | 253 |
| Mobility only | 356 |
| Care and mobility | 1,884 |
| Belfast East Total | 2,493 |

Additional information on combined care and mobility awards is provided to avoid double counting.

Constituency is assigned using the claimant's postcode, if the postcode is missing it is not possible to assign a constituency.

## Domestic Violence

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people have been convicted of domestic violence offences in Northern Ireland in each of the last 10 years. [13910]

**Mr. Woodward:** Domestic violence is not a statutory offence and therefore the information requested is not available.

## Energy Suppliers (Customer Advice)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what procedures are in place to monitor the quality of advice provided by energy suppliers to their domestic customers; what formal qualifications are required of persons providing such advice; and what assessment he has made of the adequacy of the provision of such advice. [13408]

**Angela E. Smith:** The Northern Ireland Authority for Energy Regulation ("NIAER") monitors the provision by Northern Ireland Electricity (NIE) and Phoenix Natural Gas of energy efficiency advice to customers through the published annual reviews of its social action plans.

Basic advice on the efficient use of electricity is provided by Northern Ireland Electricity's call handlers who attend regular training sessions provided by the Energy Saving Trust ("EST") Advice Centre, and EAGA Partnership Ltd. which has been contracted by the Department for Social Development to administer the warm homes scheme. In addition, Northern Ireland Electricity's team of field service representatives provide advice to customers in their homes. The team members are required to obtain the City and Guilds 6176 Energy Awareness qualification.

Basic advice on the efficient use of gas is provided by the call handlers in Phoenix Natural Gas who are trained internally. This advice is also provided by Phoenix Natural Gas sales staff who are required to obtain the City and Guilds 6176 Energy Awareness qualification.

Calls received by Northern Ireland Electricity and Phoenix Natural Gas call handlers can also be referred to the EST advice centre. The centre has signed up to the Energy Advice Providers' Code of Practice and all EST advice centre staff are required to obtain the City and Guilds 6176 Energy Awareness qualification.

The NIAER is satisfied that the advice provided by Northern Ireland Electricity, Phoenix Natural Gas and the EST advice centre to domestic customers is of good quality and complies with best practice in using energy more efficiently.

### Fire Officers (Assaults)

**David Simpson:** To ask the Secretary of State for Northern Ireland how many fire officers have been hospitalised as a result of being assaulted while on duty during the past 12 months. [13911]

**Mr. Woodward:** During the period 1 July 2004 to 30 June 2005 a total of four firelighters were hospitalised as a result of being assaulted while on duty.

### Heart By-pass Operations

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many heart by-pass operations were carried out in NHS hospitals in Northern Ireland in each year since 1995. [14523]

**Mr. Woodward:** The number of heart by-pass operations performed in hospitals in Northern Ireland in each year since 1994–95, is detailed in the following table.

*Heart by-pass operations in Northern Ireland*

| | *Number* |
|---|---|
| 1994–95 | 845 |
| 1995–96 | 872 |
| 1996–97 | 872 |
| 1997–98 | 834 |
| 1998–99 | 763 |
| 1999–2000 | 599 |
| 2000–01 | 581 |
| 2001–02 | 501 |
| 2002–03 | 530 |
| 2003–04 | 483 |

*Source:*
Hospital In-patients System

### Homelessness

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people in Northern Ireland are classified as homeless. [13909]

**Mr. Hanson:** During the 2004–05 year 17,362 households presented to the Housing Executive as homeless in Northern Ireland of which 8,470 households were accepted as full duty homeless cases. A full duty applicant is someone to whom the Housing Executive owes a duty under the Housing (NI) Order 1988.

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people in Upper Bann are officially classified as homeless. [13941]

**Mr. Hanson:** During the 2004–05 year 1,061 households presented to the Housing Executive as homeless in Upper Bann of which 376 households were accepted as full duty homelessness cases. A full duty applicant is someone to whom the Housing Executive owes a duty under the Housing (NI) Order 1988.

### Homosexuals (Assaults)

**David Simpson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the number of attacks on homosexuals in Northern Ireland that were perpetrated by other homosexuals in each of the last 10 years. [13915]

**Mr. Woodward:** The information requested is not available.

### Hospital Chaplaincies

**David Simpson:** To ask the Secretary of State for Northern Ireland how members of churches other than the four main churches are provided for by way of hospital chaplaincies at each hospital in Northern Ireland. [13944]

**Mr. Woodward:** Each HSS Trust has appointed chaplains from the Roman Catholic, Presbyterian, Church of Ireland and Methodist churches to provide pastoral support and other services in each Trust hospital. Hospital chaplaincy services provided by Trusts for members of other denominations are set out in the following table.

*Hospital chaplaincies*

| *HSS Trust* | *Service* |
|---|---|
| Altnagelvin HSS Trust | The Methodist chaplains provide a service for other denominations. |
| Armagh and Dungannon HSS Trust | At St. Luke's, Longstone and Mullinure hospitals, the Methodist chaplains provide a service for other denominations in the first instance. If requested to do so, the Trust organizes specific religious attendances for members of a non-Christian Church or faith. |
| Belfast City Hospital HSS Trust | The Methodist Chaplain makes an initial visit to patients who do not belong to one of the four main churches. If requested to do so, the Methodist Chaplain would liaise with the appropriate faith leader to ensure that patients receive the necessary pastoral support. |
| Causeway HSS Trust | The Methodist Chaplain is responsible for co-ordinating the pastoral needs of those patients who do not belong to one of the four main denominations. Causeway Hospital Chapel is interdenominational reflecting a Christian ethos. Patients who are not Christian, or who do not practise any religion and who do not wish to use the Chapel, can use a quiet room for reflection as organised by the Ward Manager. |
| Craigavon Area Hospital Group Trust | The Methodist Chaplain has responsibility for the care of members of other religious groups who do not fall within the four main denominations. |

*Hospital chaplaincies*

| *HSS Trust* | *Service* |
|---|---|
| Craigavon and Banbridge Community HSS Trust | Within the Psychiatric Unit, which is situated on Craigavon Area Hospital Group Trust site, all Wards have contact numbers for those churches other than the four main churches. The Psychiatric Unit avails of the services provided by Craigavon Area Hospital Group Trust, such as the Church facility, which is a multi-faith church. The Trust also facilitates requests from patients within the Psychiatric Unit, who wish to have contact with their own Minister. |
| Down Lisburn HSS Trust | The Methodist Chaplain provides a service for other denominations and is the link for patients and their spiritual provider. |
| Foyle HSS Trust | If an individual requires the assistance of a church outside the four main denominations, hospital staff at Stradreagh, Gransha or Waterside Hospitals would make contact with the local church. |
| Homefirst | If requested, any of the four chaplains at Holy well hospital would provide the initial link between patients from other denominations or religious faiths and their cleric/faith leader. |
| Mater Hospital HSS Trust | If a patient is from a church other than the four main churches, the Trust asks the patient if they wish to contact a chaplain, or if they wish the Trust to do this on their behalf. For any other issues, the Trust involves the Patient Support Officer. |
| Newry and Mourne HSS Trust | The Methodist chaplain makes an initial visit to patients who do not belong to one of the four main churches. On request, the Methodist Chaplain would liaise with the appropriate faith leader to ensure that patients receive the necessary pastoral support. |
| North and West Belfast HSS Trust | The Methodist minister looks after the spiritual needs of patients who do not belong to one of the four main churches. |
| Royal Group of Hospitals HSS Trust | The Royal hospitals chaplaincy service accommodates all Christian and non-Christian faiths. For patients of non-Christian denominations, the Trust's Chaplains liaise with faith representatives in the community to ensure that patients obtain support from their individual faith leaders. The Trust also provides a quiet room for visitors and patients for Christian and non-Christian prayer. Prayer mats, copies of the Koran, Hebrew scriptures, Hebrew Bible and washing facilities are also available. |
| South and East Belfast HSS Trust | The hospital administration and nursing departments contact other clerics/ faith leaders as required for other denominations. |
| Sperrin Lakeland HSS Trust | The Methodist Chaplain looks after patients with "unknown" or "other" religions. |
| Ulster Community and Hospitals Trust | The Methodist Chaplain deals with all other denominations outside of the main churches. Contact details for the local Rabbi for the Jewish community and a representative for Jehovah Witness are available if they are required. |
| United Hospitals Trust | In Whiteabbey, Mid Ulster, Antrim and Braid Valley hospitals, the Methodist Chaplain deals with all denominations outside of the main churches. The Presbyterian Chaplain provides this service at Moyle Hospital. |

### Hospitals (Alcohol-related Conditions)

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people were treated by accident and emergency departments in Northern Ireland hospitals for alcohol-related conditions and injuries in the last 12 months. [13908]

**Mr. Woodward:** Information on the number of people treated by accident and emergency departments for alcohol-related conditions and injuries is not collected centrally.

### Hospitals (Assaults)

**David Simpson:** To ask the Secretary of State for Northern Ireland how many hospital staff in Northern Ireland have been hospitalised as a result of assault while on duty during the past 12 months. [13912]

**Mr. Woodward:** There have been 3,825 physical attacks recorded against HPSS staff during the period 1 April 2004 to 31 March 2005. Detailed information about the hospitalisation of these staff is not held centrally and can be obtained only at disproportionate cost.

**David Simpson:** To ask the Secretary of State for Northern Ireland how many accident and emergency hospital staff in Northern Ireland have been the victims of assault while on duty during the past 12 months. [13914]

**Mr. Woodward:** There have been 3,825 physical attacks recorded against HPSS staff during the period 1 April 2004 to 31 March 2005. Detailed information about the department in which the attack took place is not held centrally and can be obtained only at disproportionate cost.

## Hospitals (Complaints)

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many complaints have been made about the quality of care and treatment in hospitals in Northern Ireland in the last five years, broken down by hospital. [14522]

**Mr. Woodward:** Information on the number of complaints made about the quality of care and treatment is not available by hospital. However, information is available by Trust and is detailed in the table. The Trusts are categorised according to whether they are Hospital Trusts, Community Trusts, Mixed (Hospital and Community) Trusts, or "other" Trusts.

*Number of complaints received by each Health and Social Services trust recorded against "Treatment and Care (quality)" category, by type of Trust and year*

| *Health and Social Services Trust* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05*[1] |
|---|---|---|---|---|---|
| Belfast City Hospital | 30 | 48 | 32 | 61 | 41 |
| Green Park | 18 | 14 | 4 | 5 | 16 |
| Mater Infirmorum | 22 | 27 | 37 | 27 | 27 |
| Royal Group of Hospitals | 114 | 109 | 105 | 89 | 132 |
| United Hospitals | 77 | 53 | 79 | 72 | 96 |
| Craigavon Area Group | 84 | 71 | 55 | 41 | 66 |
| Altnagelvin Group | 51 | 65 | 42 | 37 | 47 |
| Total Hospital Trusts | 396 | 387 | 354 | 332 | 425 |
| North and West Belfast | 6 | 11 | 17 | 11 | 19 |
| South and East Belfast | 31 | 28 | 35 | 43 | 49 |

## Housing Executive

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the funding to the Housing Executive for Northern Ireland has been in each of the last 10 years, broken down by region. [13963]

**Mr. Hanson:** The Department for Social Development funded the Northern Ireland Housing Executive the following amounts of Housing Deficit Grant in each of the last 10 years:

| | *£ million* |
|---|---|
| 1995–96 | 167.713 |
| 1996–97 | 184.790 |
| 1997–98 | 193.019 |
| 1998–99 | 210.531 |
| 1999–2000 | 200.352 |
| 2000–01 | 195.567 |
| 2001–02 | 202.088 |
| 2002–03 | 226.111 |
| 2003–04 | 226.142 |
| 2004–05 | 219.446 |

The information is not available by region.

## Human Rights Commission

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what criteria were applied in the selection of members of the Human Rights Commission in Northern Ireland. [7089]

**Mr. Hanson:** At both stages of the process (sift and interview), the Commissioner applicants were assessed against four criteria. The Chief Commissioner applicants were assessed against six, including the four used for the Commissioner.

The criteria applying for both Chief Commissioner and Commissioner posts were: corporate focus; responsibility and accountability; judgment and strategic thinking; and specialist expertise.

The two additional criteria for Chief Commissioner applicants were leadership; and management in a challenging environment.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the *(a)* community, *(b)* religious and *(c)* political background is of the new appointees to the Human Rights Commission in Northern Ireland. [7090]

**Mr. Hanson:** In accordance with the guidelines of the Office of the Commissioner for Pubic Appointments (OCPA), applicants for the position of chief

commissioner and commissioner were asked to declare political activity undertaken in the last five years, as defined in eight categories.

The press release of 16 June which announced the new chief commissioner and commissioners to the Northern Ireland Human Rights Commission, set out this activity as follows:

Professor Monica Mc Williams—founder member of the NI Women's Coalition and was an MLA 1998–2003. Professor McWilliams indicated that she would step down from her involvement with the NI Women's Coalition.

Professor Colin Harvey—Member of the Policy Committee of the SDLP from 2001–02, and has canvassed for the party in recent years.

Jonathan Bell—Independent, then Democratic Unionist Party, Councillor on Craigavon Borough Council until May 2005. Since May 2005 Ards Borough Councillor, Democratic Unionist Party.

Ann Hope—Canvassed on behalf of the Northern Ireland Women's Coalition at elections.

Eamonn O'Neill—currently SDLP Councillor, Down Council (leader of SDLP group). Member of the Northern Ireland Assembly 1998–2003—Chaired the Assembly's Culture, Arts and Leisure Committee.

Geraldine Rice—Alliance Party of Northern Ireland Councillor on Castlereagh Borough Council since 1989. Elected Deputy Mayor May 2005.

The equal opportunities monitoring form completed by all candidates asked candidates to declare their background as being "of the Protestant community"; "of the Roman Catholic community" or neither "a Protestant or Roman Catholic community background".

The community background of the seven commissioners and one chief commissioner as indicated in their forms is as follows:

Protestant—three

Roman Catholic—three

Neither Protestant or Roman Catholic community background—two

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many people appointed to the Northern Ireland Human Rights Commission have declared their membership of *(a)* the Communist party, *(b)* the Northern Ireland Women's Coalition, *(c)* the Social Democratic and Labour party, *(d)* the Ulster Unionist party, *(e)* the Democratic Unionist party, *(f)* the Alliance party and *(g)* Sinn Fein. [7834]

**Mr. Hanson:** The political activity monitoring forms returned with the application forms did not request political party membership details, but asked about any political activity, defined in certain categories that the applicants had undertaken in the last five years. This is a requirement set by the Office of the Commissioner for Public Appointments (OCPA) guidance.

The parties in relation to which the appointed candidates declared political activity in the last five years were recorded as:

| | *Number* |
|---|---|
| *(a)* Communist party | 0 |
| *(b)* Northern Ireland Women's Coalition | 2 |
| *(c)* Social Democratic and Labour party | 1 |
| *(d)* Ulster Unionist party | 1 |
| *(e)* Democratic Unionist party | 1 |
| *(f)* Alliance party | 1 |
| *(g)* Sinn Fein | 0 |

One individual declared activity within the last five years for two parties, the Ulster Unionist party and the Democratic Unionist party. This is reflected in the statistics.

### Lifeguards

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland which local government councils employ lifeguards along the coastline in their borough or district; and how many lifeguards are employed in each. [14510]

**Angela E. Smith:** This information is not held centrally.

### Mental Health Consultants

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the average length of time was for a person referred to a mental health consultant to be seen by that consultant in Northern Ireland in the last year for which figures are available. [9482]

**Mr. Woodward:** Information about average waiting times is not collected centrally.

I refer the hon. Member to the March 2005 edition of the Quarterly Waiting List Statistics Release which can be found in the House Library or http://www.dhsspsni.gov.uk/publications/2005/info-Release-Mar05.pdf

Tables 7a and 7b in this publication provide a breakdown of outpatients waiting for a first appointment by specialty and timeband and Table 8 provides this information by Programme of Care and timeband.

### Motoring Offences

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have been convicted for *(a)* careless driving and *(b)* motoring offences that resulted in a fatality in each of the last five years. [13947]

**Mr. Woodward:** The following tables provide the information requested between 1999 and 2003, the latter being the most up-to-date figures currently available.

*Total number of convictions in Northern Ireland for careless driving—1999 to 2003*

| | *Number* |
|---|---|
| 1999 | 2,159 |
| 2000 | 2,371 |
| 2001 | 1,975 |
| 2002 | 1,556 |
| 2003 | 1,692 |

*Total number of convictions in Northern Ireland for motoring offences that resulted in a fatality—1999 to 2003*

| | *Convictions for motoring offences resulting in a fatality* |
|---|---|
| 1999 | 20 |
| 2000 | 17 |
| 2001 | 15 |
| 2002 | 10 |
| 2003 | 24 |

## Myeloma

**Mark Durkan:** To ask the Secretary of State for Northern Ireland whether approval is pending for Velcade treatment for people with myeloma; and if he will make a statement on available treatments in Northern Ireland for myeloma. [13932]

**Mr. Woodward:** The drug Velcade is licensed for use in Northern Ireland and clinicians are in a position to prescribe the product, taking account of the clinical circumstances of the individual patient, the licensed indications and in the context of local prescribing budgets.

There are a wide range of treatments for myeloma in Northern Ireland, including chemotherapy, radiotherapy, blood transfusion and a range of medicines both to treat the underlying disease and provide symptomatic relief for the individual. Many emerging therapies and combination therapy regimens are currently being tested in clinical trials.

## Parliamentarians (State Benefits)

**Dr. McCrea:** To ask the Secretary of State for Northern Ireland what state benefits have been received by each of the Sinn Fein *(a)* members of the Legislative Assembly, *(b)* Members of Parliament and *(c)* Members of the European Parliament in the last 10 years. [11130]

**Mr. Hanson:** We are unable to provide the information requested as it is personal data and its release would breach data protection principles.

## Police

**David Simpson:** To ask the Secretary of State for Northern Ireland how much has been spent using credit cards held by senior police officers in Northern Ireland in each of the last five years. [13938]

**Mr. Woodward:** Credit cards, used solely for business purposes to cover expenditure such as travel and accommodation, are available solely to the top team of senior managers in the Police Service of Northern Ireland.

The table illustrates the total credit card expenditure by the top team of senior managers for the last three financial years.

The periods prior to this are no longer held on the PSNI financial systems, and are only available as archived records. To trawl such records would involve a manual trawl at disproportionate cost.

This expenditure has been included in the PSNI accounts and subject to audit as with all other expenditure.

| | *Total spend (£)* |
|---|---|
| 2002–03 | 31,113.62 |
| 2003–04 | 39,954.76 |
| 2004–05 | 23,113.16 |

## Police Service

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how the Belfast city centre beat arrangement between the Police Service Northern Ireland and Belfast city traders and Chamber of Commerce is being funded. [11233]

**Mr. Woodward:** The partnership agreement will provide two dedicated police officers to address issues specific to the city centre, including:

Illegal street trading

Antisocial behaviour

The basic salary cost of both officers will be funded by the partners. The lead partner is Belfast City Centre Management, who received funding from Belfast city council and the Chamber of Trade. The Police Service of Northern Ireland will meet all other costs as part of the pilot of this new initiative.

## Population Statistics

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many people over the age of 18 years and below pensionable age there are in each *(a)* constituency, *(b)* council area and *(c)* postcode area in Northern Ireland. [11982]

**Angela E. Smith:** Population estimates at 30 June 2003 for persons aged 18 and over but less than pensionable age (60 years for women and 65 years for men) for each parliamentary constituency and local government district are given in the following tables. Population estimates by age for individual postcodes in Northern Ireland are not available.

*Table 1: Usually resident mid-year population estimate (2003) for each parliamentary constituency for persons aged 18 and over and less than pensionable age*

| *Parliamentary constituency* | *Number* |
|---|---|
| Belfast East | 43,600 |
| Belfast North | 45,400 |
| Belfast South | 60,700 |
| Belfast West | 47,600 |
| East Antrim | 50,300 |
| East Londonderry | 52,100 |
| Fermanagh and South Tyrone | 53,200 |
| Foyle | 62,100 |
| Lagan Valley | 61,200 |
| Mid Ulster | 51,000 |
| Newry and Armagh | 59,200 |
| North Antrim | 59,700 |
| North Down | 50,700 |
| South Antrim | 60,400 |
| South Down | 61,400 |
| Strangford | 58,800 |
| Upper Bann | 61,000 |
| West Tyrone | 51,000 |

*Table 2: Usually resident mid-year population estimate (2003) for each local government district for persons aged 18 and over and less than pensionable age*

| *Local government district* | *Number* |
|---|---|
| Antrim | 29,500 |
| Ards | 44,200 |
| Armagh | 31,900 |
| Ballymena | 34,500 |
| Ballymoney | 16,000 |
| Banbridge | 25,500 |
| Belfast | 158,500 |
| Carrickfergus | 22,700 |
| Castlereagh | 37,500 |
| Coleraine | 32,000 |
| Cookstown | 19,300 |
| Craigavon | 47,500 |
| Derry | 62,100 |
| Down | 37,500 |
| Dungannon | 27,700 |
| Fermanagh | 33,700 |
| Larne | 18,000 |
| Limavady | 20,100 |
| Lisburn | 64,200 |
| Magherafelt | 23,600 |
| Moyle | 9,200 |
| Mewry and Mourne | 51,100 |
| Newtownabbey | 47,200 |
| North Down | 45,300 |
| Omagh | 28,800 |
| Strabane | 22,200 |

### Post-primary Education

**Mr. Lidington:** To ask the Secretary of State for Northern Ireland how much money he has allocated to the Council for Catholic Maintained Schools to undertake a review of post-primary education in the Catholic sector; and if he will make a statement. [13200]

**Angela E. Smith:** Additional resources of £508,000 have been allocated to the Council for Catholic Maintained Schools in the current financial year to enable it to support and facilitate schools in the Catholic managed sector to develop collaborative arrangements with other schools and further education colleges to provide access to the entitlement framework and generally to support work by schools to prepare for the implementation of new post-primary arrangements. A total of £510,000 has been allocated to the education and library boards for the same purpose.

### Premature Baby Units

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how much funding was allocated to Northern Ireland's premature baby units in each of the last five years; and what plans he has to change such funding. [13889]

**Mr. Woodward:** The Department allocates funding to the Health and Social Services Boards under an agreed capitation formula that recognises the healthcare needs of the populations within each Board area. Resources are, therefore, not centrally allocated to the funding of specific services such as premature baby units.

Boards use their allocated funding to commission a range of maternity and paediatric services, including provision for premature babies. They continuously review their allocations in light of emerging priorities and changes in demand for specific services in their area.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many staff were employed in each premature baby unit in Northern Ireland in each of the past five years, broken down by grade. [13890]

**Mr. Woodward:** The information requested has been placed in the Library.

### Prosecution Service

**Mark Durkan:** To ask the Secretary of State for Northern Ireland if he will make a statement on plans for a Public Prosecution Service Office in Derry. [13872]

**Mr. Hanson:** The procedure for the opening of the PPS Regional Offices is a phased "rollout" over a period beginning with the creation of the first PPS Pilot in December 2003 and completion by December 2006. A public procurement programme is in place to acquire suitable premises capable, in the case of Londonderry of accommodating some 60 staff. At this point a number of sites in the Londonderry area are being considered.

The PPS Project Board intends to meet the December 2006 deadline for the completion of the PPS Rollout.

### Public Transport (Violence)

**David Simpson:** To ask the Secretary of State for Northern Ireland how many *(a)* bus drivers and *(b)* railway employees in Northern Ireland have been the victim of offences of violence in each of the last 10 years. [13945]

**Mr. Woodward:** Translink has advised that the number of reported assaults against on-duty bus drivers over the past 10 years is as follows:

*Bus drivers*

| | *Number* |
|---|---|
| 1995 | 48 |
| 1996 | 90 |
| 1997 | 89 |
| 1998 | 97 |
| 1999 | 75 |
| 2000 | 64 |
| 2001 | 78 |
| 2002 | 72 |
| 2003 | 40 |
| 2004 | 25 |
| January to June 2005 | 11 |

Translink has advised that similar statistics relating to its railway employees are not available within the available timescale. I shall reply to the hon. Gentleman with that information as soon as possible.

### Racist Attacks

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have been the victim of racist attacks in each of the last 10 years. [13948]

**Mr. Hanson:** The following table shows the number of racist incidents recorded by the Police Service of Northern Ireland in the last seven financial years for which data is available.

The Police Service of Northern Ireland record the number of incidents which are perceived to be racial, by the victim or any other person, whether a crime has occurred or not.

| | *Number of racist incidents recorded by PSNI* |
|---|---|
| 1998–99 | 93 |
| 1999–2000 | 237 |
| 2000–01 | 260 |
| 2001–02 | 185 |
| 2002–03 | 226 |
| 2003–04 | 453 |
| 2004–05 | 813 |

**David Simpson:** To ask the Secretary of State for Northern Ireland how many people have been convicted of racially motivated crimes in Northern Ireland in each of the last 10 years. [13949]

**Mr. Hanson:** Data relating to convictions for crimes with a racial motivation are available for 2003–04 and 2004–05.

In 2003–04, 23 crimes with a racial motivation resulted in a conviction or a caution. The respective figure for 2004–05 was 70.

### Regional Transportation Plan

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what progress the Government have made in the implementation of each category of the Regional Transportation Plan approved by the Northern Assembly before suspension. [14501]

**Mr. Woodward:** My Department continues to be committed to the delivery of the Regional Transport Strategy for Northern Ireland (RTS). Good progress has been made, with the launch of the Belfast Metropolitan Transport Plan, the Regional Strategic Transport Network Transport Plan and further development of the Sub Regional Transport Plan. An Accessible Transport Strategy has also been published. Together these provide a very good framework for moving forward on transport initiatives. My Department produces a RTS Annual Monitoring Report, which outlines progress on all aspects of the Strategy. The latest report for 2004–05 is now available on the Department's internet site and conventional printed copies of the report will be sent shortly to elected representatives and other interested parties. Copies of the report will also be available in the Library.

### Residential Homes

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland how many beds for elderly people in residential homes there have been in each year between May 1998 and the latest available date. [14524]

**Mr. Woodward:** The information requested is not available for May 1998, as it is collected annually at 31 March. Information collected on the number of beds for elderly people in residential homes for each of the years requested is shown in the following table.

| *As at 31 March* | *Number of beds* | *Difference from previous year* |
|---|---|---|
| 1998 | 4,876 | — |
| 1999 | 4,836 | −40 |
| 2000 | 4,726 | −110 |
| 2001 | 4,579 | −147 |
| 2002 | 4,596 | 17 |
| 2003 | 4,706 | 110 |
| 2004 | 4,624 | −82 |

### School Bullying

**David Simpson:** To ask the Secretary of State for Northern Ireland what statistics schools in Northern Ireland are required to collect on incidents of bullying. [13904]

**Angela E. Smith:** There is no requirement for schools to collect statistics on incidents of bullying.

However, when a pupil is suspended from school, the school must complete a notification of pupil suspension form, which is forwarded to the local education and library board. The reason for suspension is recorded on the form. The reasons for suspension, including bullying, have been collected by the Department from 2002–03 school year and the information is available on the Department's website at www.deni.gov.uk/facts_figures/education_stats/index_other.htm.

**David Simpson:** To ask the Secretary of State for Northern Ireland how many complaints about the handling of incidents of bullying in schools in Northern Ireland have been lodged in each of the last five years. [13905]

**Angela E. Smith:** The information the Department holds regarding complaints about the handling of incidents of bullying in schools comes from written cases referred to it. The number of complaints in each of the last five school years is as follows.

| *School year* | *Number of complaints* |
|---|---|
| 2000–01 | 20 |
| 2001–02 | 8 |
| 2002–03 | 9 |
| 2003–04 | 3 |
| 2004–05 | 7 |

### Taxi Drivers (Violence)

**David Simpson:** To ask the Secretary of State for Northern Ireland how many taxi drivers in Northern Ireland have been the victim of offences of violence in each of the last 10 years. [13946]

**Mr. Woodward:** The information requested is only available from April 2001. The following table provides figures relating to the number of violent crimes (offences against the person, sexual offences, and robbery) in which the victim's occupation or victim type was given

as "Taxi Driver". It should be noted that it is not known whether the taxi driver was actually working at the time of the offence, and therefore these figures do not provide an accurate reflection of how many taxi drivers have been attacked while working.

| | *Number of incidents* |
|---|---|
| 2001–02 | 115 |
| 2002–03 | 137 |
| 2003–04 | 89 |
| 2004–05 | 101 |

### Ulster Hospital

**Mr. Peter Robinson:** To ask the Secretary of State for Northern Ireland what the bed capacity is of the Ulster hospital. [14530]

**Mr. Woodward:** Bed capacity is currently 593 at the Ulster hospital.

### Water Rates

**Mrs. Spelman:** To ask the Secretary of State for Northern Ireland what the conclusions of the Equality Impact Assessment were on the impact of reforming water rates on *(a)* Protestant areas and *(b)* middle class socio-economic groups. [11958]

**Mr. Woodward:** The information requested is as follows:

(a) A draft Equality Impact Assessment (EQIA), was issued for consultation on 29 November 2004 as part of an Integrated Impact Assessment (IIA) of the Water Reform proposals. The EQIA concluded that a charging system based on property capital values would result in Protestants being likely to bear a disproportionately greater burden of domestic water and sewerage charges, reflecting the fact that there is a markedly higher representation of Protestants in those areas of Northern Ireland with higher house prices.

(b) Section 75 of the Northern Ireland Act 1998 requires public bodies to give due regard to the need to promote equality of opportunity across nine specific groups: age; gender; religious belief; political opinion; sexual orientation; marital status; dependants; disabled; and race. The draft EQIA does not therefore reach conclusions on the basis of class or socio-economic groupings.

The conclusions of the draft EQIA are currently being reviewed in light of the comments made in the consultation and the evidence submitted of negative impacts on other Section 75 Groups, including pensioners, the disabled and other Section 75 Groups living in low-income households. The results of this review will be reflected in the final Equality Impact Assessment which will issue with the IIA Consultation Report later in the year.

## HOUSE OF COMMONS COMMISSION

### Members' Allowances

**Mr. Dismore:** To ask the hon. Member for North Devon, representing the House of Commons Commission what consultations the Commission will hold with hon. Members on plans to change hon. Members' stationery and postage allowances; and if he will make a statement. [14191]

**Nick Harvey:** The Commission has been considering the level of expenditure by Members on stationery and pre-paid envelopes, which is a charge on the administration estimate. No change will be made to the current entitlement regime without consultation.

### Security Barriers (Bridge Street)

**Mr. Andrew Turner:** To ask the hon. Member for North Devon, representing the House of Commons Commission what consultation took place with Transport for London before the installation of steel security barriers in Bridge Street; and what steps will be taken to enable the 211 bus from Waterloo to stop conveniently for visitors to Portcullis House. [14101]

**Nick Harvey:** Before the installation of the security barriers, Transport for London and Westminster city council were consulted about the implications for traffic operations including buses. The current relocation of the bus stop is considered to be the best option in the circumstances.

## WORK AND PENSIONS

### Asbestos

**Mr. Nicholas Brown:** To ask the Secretary of State for Work and Pensions what advice he has received from the Health and Safety Commission concerning the implementation of the asbestos hazard management regulations; and what resources are being applied to the enforcement of the regulatory requirements for asbestos hazard management. [13990]

**Margaret Hodge:** In its annual report for 2004–05, the Health and Safety Commission reported that the campaign to raise awareness of the duty to manage asbestos continued in order to encourage increased compliance amongst dutyholders. One of the important elements of the campaign last year was the launch of the successful video "How are you managing?".

Health and Safety Executive inspectors are working in a number of ways to encourage dutyholders to comply with the legal requirement to manage asbestos. These include visits to large organisations' head offices, site visits and presentations at events. The planned resource for this work in 2005–06 is similar that allocated in the preceding year when more than 1,000 visits were conducted. At the majority of these visits improvements were secured by the provision of advice but on at least 50 occasions enforcement notices were issued.

### Attendance Allowance

**Danny Alexander:** To ask the Secretary of State for Work and Pensions (1) how much attendance allowance has been withheld from pensioners in self-funded care homes in Scotland since the introduction of free personal care in Scotland; [8889]

(2) how many people in Scotland have been paid attendance allowance for which they are ineligible as a result of being in receipt of free personal care; whether the Department intends to seek repayment of such overpayments; and if he will make a statement. [8890]

**Mrs. McGuire:** The administration of attendance allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mr. Danny Alexander, dated 21 July 2005:*

In response to your recent Parliamentary Questions, the Minister for Disabled People, Anne McGuire, promised a substantive reply from the Chief Executive.

You asked the Secretary of State how much attendance allowance has been withheld from pensioners in self-funded care homes in Scotland since the introduction of free personal care in Scotland. You also asked how many people in Scotland have been paid attendance allowance for which they are ineligible as a result of being in receipt of free personal care and whether the Department intends to seek repayment of any such amounts.

We do not routinely collect statistics that would answer your first question and there would be a disproportionate cost in obtaining the information.

From a recent sampling exercise it would appear that around 200 customers aged 65 or over receiving attendance allowance or disability living allowance care component have been overpaid. This is because they did not report that they are in receipt of free personal care and are residing in a care home in Scotland. We are currently making enquiries of those customers to establish whether an overpayment has arisen.

There may have been other cases in the past where an overpayment arose following a delayed notification that they were in receipt of free personal care. We do not routinely record this information. I am therefore unable to assess how many other cases may have arisen. These will have been dealt with as the information came to our attention.

Where an overpayment has arisen we will look at each case to consider whether recovery of the overpayment is required. In order to ensure that all customers are treated consistently each case will be considered in accordance with the Department's normal business rules. In doing so, great care will be exercised given the likely age and frailty of the customers involved.

I am sorry I cannot be more helpful

**Daniel Kawczynski:** To ask the Secretary of State for Work and Pensions for what reasons those over the age of 65 require six months of night-time care before they qualify for the higher rate of attendance allowance. [13753]

**Mrs. McGuire:** Attendance allowance provides a contribution towards the extra costs faced by severely disabled people aged 65 or over as a result of long-term disability. The purpose of the six-month qualifying period is to establish that disability and the care needs arising from it are long-term, rather than the result of short-term or transient illness. However, the decision maker will always look at for how long care has been required when the disabled person claims the allowance or reports an increase in their care needs, and will consider whether some or all of the qualifying period had already been completed.

### Benefit Cut-off

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how much people with disabilities are allowed to earn before their benefits are affected; and if he will make a statement. [13922]

**Mrs. McGuire:** Benefits paid specifically for disability, disability living allowance and attendance allowance are, however, not subject to earnings restrictions.

Disabled people may be entitled to the full range of social security benefits, depending on their individual circumstances. Where they are entitled, they will be subject to the earnings restrictions that apply to those benefits in the same way as all other claimants.

Income related benefits, such as income support, housing benefit and council tax benefit all have a variety of disregards, dependant upon the claimant's circumstances, above which certain earnings are taken into account. The number of hours a person can work whilst claiming these benefits is also restricted. There is a higher disregard for those receiving a disability premium.

### Carers Allowance

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how many people are in receipt of carers allowance in *(a)* the UK, *(b)* Scotland and *(c)* the Lanark and Hamilton East constituency; and if he will make a statement. [14068]

**Mrs. McGuire:** The latest available information is that at 28 February 2005, some 436,820 people in Great Britain were receiving carer's allowance, of whom 42,330 were in Scotland. Details of the numbers of carer's allowance recipients in each parliamentary constituency in Scotland at that date are in the table. Information about the number of people receiving carer's allowance in Northern Ireland is a matter for the Northern Ireland Office.

*Carer's allowance: number of recipients in each parliamentary constituency in Scotland as at 28 February 2005*

| *Constituency* | *Numbers* |
|---|---|
| Aberdeen Central | 225 |
| Aberdeen North | 460 |
| Aberdeen South | 310 |
| Airdrie and Shotts | 835 |

| West Aberdeenshire and Kincardine | 330 |
| West Renfrewshire | 475 |
| Western Isles | 215 |

*Notes:*

1. Figures are rounded to the nearest 5.

2. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

Information Directorate, 100 per cent. data.

### Carer's Allowance

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions what research his Department has undertaken to assess the reasons for the difference between the number of people claiming carer's allowance and the number of people who are entitled to claim. [5616]

**Mrs. McGuire:** No research into this area has been possible because entitlement to carer's allowance depends upon a number of factors, one of which is that the disabled person being cared for must be in receipt of attendance allowance or the equivalent rates of the disability living allowance care component. Entitlement to those benefits can only be reliably established after a claim has been made and the care and mobility needs of the disabled person fully assessed. As there is no means of reliably calculating the number of people receiving them as a proportion of the overall eligible population, it is not possible to make a realistic estimate of the number of people who, if they claimed, might be entitled to carer's allowance.

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions how many people his Department estimate have an underlying entitlement to carer's allowance but are ineligible due to *(a)* overlapping benefit rules and *(b)* earnings above the limit. [5617]

**Mrs. McGuire:** As at 28 February 2005, some 265,000 people who were entitled to carer's allowance were not receiving it because of the operation of the overlapping benefit rules. Carers who earn over the earnings limit are not entitled to the allowance, and thus do not retain underlying entitlement.

DWP Information Directorate 5 per cent. sample

### Child Maintenance

**Mr. Hood:** To ask the Secretary of State for Work and Pensions what research his Department has *(a)* commissioned and *(b)* evaluated on the financial effects on the first family when the non-resident parent has a child born to his new partner under child maintenance arrangements; what effects this has on child maintenance payments; and if he will make a statement. [10065]

**Mr. Plaskitt:** The Department has not commissioned any research that specifically investigates the financial impact suffered by the first family when a non-resident parent has a child born to his new partner and any subsequent impacts upon child maintenance.

Research has been commissioned to examine factors affecting non-resident parent compliance with maintenance assessments, "National Survey of Child Support Agency Clients", Nick Wikeley, CDS 2001, a copy of which is in the Library. This found that the partnering status of a non-resident parent is a factor. Non-resident parents who have re-partnered or remarried tend to be less likely to comply with maintenance assessments.

### Child Support Agency

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his estimate is of the outstanding stock of Child Support Agency unpaid debts for each reporting period from 2002–03 to 2005–06; and if he will make a statement. [974]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what his estimate is of the outstanding stock of Child Support Agency unpaid debts for each reporting period from 2002–03 to 2005 and if he will make a statement.

The Agency refers to debt as the amounts outstanding on full maintenance assessments and excludes amounts deemed as probably uncollectable. These amounts outstanding are reported in the notes to the Agency's Annual Report and Accounts and are subject to external audit by the National Audit Office. The accounts for 2004/05 will be available from the end of July 2005 and the requested information for previous years is shown in the table below.

| | *£ million* |
|---|---|
| 2002–03 | 664.0 |
| 2003–04 | 720.2 |
| 2004–05 | [1] |

[1] Available by end of July

In order to reduce the amount of debt the Agency is tapping into what works well in public and private sectors to improve its working practices. The Agency is increasing resources on enforcement activity and there is an increasing trend in the application of sanctions.

In response to the Work and Pensions Select Committee recommendation the Agency is developing a strategy for reducing the debt. This debt strategy will form one part of the new Chief Executive's future performance improvement plans.

I hope you find this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will make a statement on progress in resolving the computer problems at the Child Support Agency; and if he will make a statement. [987]

**Margaret Hodge:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will make a statement on progress in resolving the computer problems at the Child Support Agency.

The Agency has acknowledged that there are problems with the IT system. Work to stabilise the system is on-going and this has already brought about improvements. The Agency is continuing to work with the computer supplier (EDS) to remedy the problems and IT releases were successfully implemented in December 2004 and May 2005 to resolve various system performance issues and build upon the improvements already made.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the backlog of uncleared Child Support Agency cases for *(a)* each quarter from March 2003 to June 2005 and *(b)* each month from April 2004 to June 2005; and if he will make a statement. [989]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what his latest estimate is of the backlog of uncleared Child Support Agency cases for *(a)* each quarter from March 2003 to June 2005 and *(b)* each month from April 2004 to June 2005; and if he will make a statement.

In its response to the Work and Pensions Select Committee on the performance of the Child Support Agency, the Government agreed that the management information for the new scheme was not as robust or as comprehensive as it needed to be. It went on to state that the Agency was confident that by 1 November 2005 the management information would be improved and on a par with old scheme information.

Progress is being made to achieve improvements in the quality of new scheme information and, from January 2005, more robust management information is available in respect of the Agency's intake, clearances and work-on-hand position as recorded on the IT system. Consequently, I am currently only able to provide reliable new scheme information from this point forward.

*New scheme application work on hand*

| *Month (2005)* | *New scheme* |
|---|---|
| January | 259,000 |
| February | 265,000 |
| March | 266,000 |
| April | 267,000 |
| May | 265,000 |
| June | 263,000 |

*Notes:*
1. An application is counted as "cleared" when a maintenance calculation has been carried out and a charging schedule set up, or it has been closed, or it has been established that it is not a valid application (because it is subject to a reduced benefit decision, is good cause, or is in actual fact a change of circumstance on an existing case).
2. Work in hand in this context is the totality of all cases yet to be cleared, as defined above.
3. Figures rounded to nearest 1,000.

I am sorry that we are not able to be more helpful at present.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many cases have been stuck in the new Child Support Agency computer system each month since it was introduced; what the average time taken until first payment for stuck cases is in each month; and in what proportion of stuck cases *(a)* assessments and *(b)* first payments have been made. [1994]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, how many cases have been stuck in the new Child Support Agency computer system each month since it was introduced; what the average time taken until first payment for stuck cases is in each month; and in what proportion of stuck cases *(a)* assessments and *(b)* first payments have been made.

I am unable to provide a complete response to your question, as we do not collect information at the level of detail required to be able to provide robust and accurate figures under each of the specific headings requested. I can tell you that the number of cases we have currently identified which require technical intervention by EDS for them to be progressed is approximately 20,000. As of June 2005 the number of additional cases that now require such intervention each month is approximately 1,200. In the past 6–8

months approximately 32,000 cases have had the required technical intervention work carried out by EDS and have now been made available again to be progressed by Child Support Agency staff.

The Agency has set up the Live Recovery Reprofiling project to investigate the underlying system faults that give rise to unprogressible cases. This project is currently drawing up the required plans and timetables to allow this work to be scheduled and managed in a controlled and efficient manner.

I hope you find this response helpful.

**Tim Farron:** To ask the Secretary of State for Work and Pensions if he will introduce a free phone inquiry telephone number for the Child Support Agency. [3961]

**Mr. Plaskitt:** The administration of the Child Support Agency is a mater for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Tim Farron, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, if he will introduce a free phone enquiry telephone number for the Child Support Agency.

I thought it might be helpful if I explained a little about our telephone policy. We now place greater emphasis on collecting information and discussing and resolving issues through telephone contact with our customers. Advanced telephony arrangements introduced with the Child Support Reforms can route enquiries directly to specific front-line staff responsible for an individual case, who are able to access case details at the time of the call.

Our main telephone contact points can be reached by means of local-call rate numbers, which provide for equality of access to our services regardless of where someone might live. In addition all staff are advised that customers should be called back if they request it or if the member of staff thinks that the call may turn out to be lengthy.

We have no current plans to introduce a freephone number for the Child Support Agency.

I hope you find this helpful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many requests to increase staffing levels have been made to each Child Support Agency business unit director, broken down by area; how many requests were accepted; and for how many staff in each case. [6198]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many requests to increase staffing levels have been made to each Child Support Agency business unit director broken down by area; how many requests were accepted; and for how many staff in each case.

I am afraid that the specific information you have asked for is not available. However, I thought it might be helpful if I explain that the Child Support Agency plan staffing on an annual basis, setting out workforce plans by business unit/territory. These workforce plans are underpinned by recruitment plans based on anticipated wastage of staff calculated by looking at historical leaver data. The plans are monitored monthly and reviewed on a quarterly basis to take account of any business changes.

As a result of the Departmental *Spending Review 2004* the Agency headcount target for March 2006 was increased by 1,561 from 8,000 to 9,561 (*Dataview* counting methodology).

From April 2005 the Agency began counting staffing in line with the agreed Cabinet Office *Mandate* counting methodology. This excludes staff on maternity pay from the staff in post count and accounts for an approximate 1 per cent. reduction in staffing totals. As a result the March 2006 headcount target was adjusted accordingly to 9388.

From the beginning of the 2005/6 operational year the Child Support Agency moved from a business unit structure to a new "territorial" structure. The table below outlines the target staffing distribution to reflect the increase of staffing and the new territorial structure.

| *Territorial structure* | *Authorised headcount March 2006* |
|---|---|
| Northern Territory | 3,145 |
| Southern Territory | 3,915 |
| National Helpline | 493 |
| Enforcement | 610 |
| HQ and Support Services | 1,211 |
| Agency contribution to Independent Case Examiner's staffing | 14 |
| Total | 9,388 |

I am sorry we could not be more helpful but I hope that you have found this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions on how many occasions access to the Child Support Agency's computer system by former members of staff has been identified. [8744]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

*Letter from Stephen Geraghty to Mr. Laws, dated 21 July 2005:*

The Secretary of State has asked me to reply to your recent Parliamentary Question on how many occasions access to the Child Support Agency's computer system by former members of staff has been identified.

The Child Support Agency and the Department as a whole has strict rules on who can access records that are held on its computer systems. Staff are only able to access systems that are necessary for them to carry out their duties.

I am pleased to tell you that there has been no cases recorded where former members of staff have accessed the Child Support Agency computer systems.

I hope that you find this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what records he keeps of call backs *(a)* promised and *(b)* made by Child Support Agency staff. [8754]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member.

*Letter from Mike Isaac to Mr. Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, what records he keeps of callbacks *(a)* promised and *(b)* made by Child Support Agency staff.

The Agency keeps clerical monthly statistics on callbacks generated. We are in the process of automating the process to improve the quality and accuracy of these records.

However I can tell you that all our staff receive customer service training and are instructed to call customers back when asked to do so or when they perceive that a call may be lengthy.

I am sorry that I could not be more helpful at this time.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what systems have been established to monitor the quality of Child Support Agency staff responses to telephone calls. [9325]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member.

*Letter from Mike Isaac to Mr. Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what systems have been established to monitor the quality of Child Support Agency staff responses to telephone calls.

The Agency has in place a number of measures to monitor the quality of calls. National Helpline team leaders can either listen in to "live" calls from a remote location or to tape recordings of closed calls. They score calls for quality and identify any training needs, which are then addressed. The tapes are also used in regular coaching sessions with staff.

The National Helpline conducts a Department for Work and Pensions approved quarterly customer survey. The resultant feedback from our customers is used to develop improvement plans. Regular surveys are also carried out to monitor the accuracy of the technical information given to customers.

I hope you find this answer useful.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many *(a)* serious complaints and *(b)* complaints about Child Support Agency (CSA) payments have been received by CSA staff in each of the last five years; and how serious complaints are (i) identified and (ii) defined. [9328]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, how many *(a)* serious complaints and *(b)* complaints about Child Support Agency payments have been received by Child Support Agency staff; and how serious complaints are identified and defined.

I have provided the number of complaints received in the Agency in the table below covering a 14 month period to May 2005. I cannot supply the number of complaints about payments as the information is not sufficiently categorised to provide that level of detail.

We consider that any complaint we receive to be a "serious complaint", and we do not have a separate definition of "serious". We operate a three-tier complaints process. A Stage 1 complaint is the first we receive from a client either in writing or over the telephone and is dealt with by a Complaints Resolution Team located within each of our Business Units. A Stage 2 complaint is one where the client complains to the Business Unit's Area Director following a response at Stage 1. Most complaints are settled at Stage 1 or 2 but if a client is unhappy with the Area Director's response they can write directly to the Chief Executive. This constitutes a Stage 3 complaint.

At each level of the complaints process clients are advised as to how they can escalate their complaint should they remain dissatisfied with the reply they receive.

Once the three-tiered process has been completed the client can contact the Independent Case Examiner [if they remain dissatisfied]. The Independent Case Examiner is external to the Agency and acts as an impartial adjudicator in respect of the complaints which are appropriate for her involvement.

In addition to this process, a client can complain directly to their Member of Parliament who can refer the complaint on their behalf to the Parliamentary Commissioner for Administration.

*Total complaints received March 2005 Year to Date (YTD), and May 2005 (YTD)*

| *Child Support Agency complaints* | *April 2004-March 2005* | *April 2005-May 2005* |
|---|---|---|
| Total agency cases | [1]1,375,000 | [2]1,463,000 |
| Stage 1 | 39,783 | 6,534 |
| Stage 2 | 5,580 | 1,053 |
| Stage 3 | 2,549 | 349 |
| Member of Parliament to chief executive | 5,787 | 893 |
| Member of Parliament to business unit | 8,871 | 1,512 |
| Treat official | 1,108 | 210 |
| Total complaints | 63,678 | 10,551 |
| Complaints received by independent case examiner | 2,367 | n/a |
| Complaints accepted by independent case examiner | 1,259 | n/a |

n/a = not available
[1] As at 31 March 2005.
[2] As at 31 May 2005.
Notes:
1. Member of Parliament to chief executive, Member of Parliament to business unit and treat official complaints are outside the 3-tier client complaints process.
2. Treat official complaints are those received by a Minister's private office but referred for initial consideration by an official of the agency.
3. Complaints received by the independent case examiner: These include complaints where the agency had not issued a response by or on behalf of the chief executive so the independent case examiner could not accept the complaint. The figure also includes complaints on legislation etc where the independent case examiner cannot accept the complaint.
4. Complaints accepted by the independent case examiner: These are the complaints where the complainant has received a response by or on behalf of the chief executive.

I am sorry if this answer is not all that you may have wished for but I hope it has proved useful to you.

**Janet Anderson:** To ask the Secretary of State for Work and Pensions how many recipients of child support are in receipt of manual payments as a result of

computer failure at the Child Support Agency; and in how many cases there is a consequent shortfall in the amount of child support they receive. [9370]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Janet Anderson, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, how many recipients of child support are in receipt of manual payments as a result of computer failure at the Child Support Agency; and in how many cases there is a consequent shortfall in the amount of child support they receive.

We have around 980 customers who are regularly paid their maintenance manually. I am unable to give a breakdown between computer failure and other reasons for payments having to be made manually.

When a manual payment is made, any monies received from the non-resident parent and owed to the parent with care are paid in full.

I hope you find this answer helpful.

**Anne Main:** To ask the Secretary of State for Work and Pensions if he will expedite the transfer of the case of Mr. Ronald Ceasar (ref: PCU/145410/KH/MC) to the new system of Child Support Agency payments. [10837]

**Mr. Plaskitt:** I refer the hon. Member to the written answer I gave the hon. Member for Bolton, South-East (Dr. Iddon), on 20 June 2005, *Official Report*, column 705W.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the average cost per case is of a Child Support Agency case processed under the *(a)* new scheme on the new computer system, *(b)* new scheme on the old computer system, *(c)* new scheme with a clerical assessment, *(d)* old scheme on the old computer system and *(e)* old scheme on the new computer system. [13882]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. David Laws, dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what the average cost per case is of a Child Support Agency case processed under the *(a)* new scheme on the new computer system, *(b)* new scheme on the old computer system, *(c)* new scheme with a clerical assessment, *(d)* old scheme on the old computer system and *(e)* old scheme on the new computer system.

Information is not currently available in the format requested. We expect information on administration costs for the Child Support Agency to be available after the Departments new Resource Management System is introduced in the Child Support Agency in 2006. In the meantime, the Agency does publish interim unit cost information in accordance with Public Service Agreement (PSA 9) which is contained in the Annual Report and Accounts.

## Correspondence

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions when the chief executive of the Child Support Agency will reply to the letter of the right hon. Member for Birkenhead of 23 June, regarding his constituent Ms Jones. [11443]

**Mr. Plaskitt** *[holding answer 11 July 2005]*: The administration of the Child Support Agency is a matter for the chief executive, Mr Stephen Geraghty. He will write to the hon. Member.

*Letter from Stephen Geraghty to Mr. Frank Field dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, when the Chief Executive of the Child Support Agency will reply to the letter of the honourable Member for Birkenhead of 23 June regarding his constituent Ms Jones.

As details about individual cases are confidential I have written to you separately about this case.

**Tony Lloyd:** To ask the Secretary of State for Work and Pensions if he will direct the disability and carers service to provide a substantive response to the letters of the hon. Member for Manchester Central dated 3 June and 6 July regarding AL (ref: NE215064B). [14822]

**Mrs. McGuire:** The administration of disability living allowance is a matter for the chief executive of the disability and carers service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mr. Tony Lloyd, dated 21 July 2005:*

You asked the Secretary of State for Work and Pensions, if he will direct the Disability and Carers Service to provide a substantive response to the letters of the honourable Member for Manchester Central dated 3rd June and 6th July regarding AL (ref: NE215064B),The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

A substantive reply to your letter of 3 June was sent to you on 8 June. A duplicate copy of the letter was sent to you on 12 July in response to your further letter of 6 July.

I trust the copy was safely received.

## CSA

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many houses are subject to a Child Support Agency Inhibition Order; and of these how many are *(a)* fully and *(b)* partially owned by a person other than the non-resident parent from whom maintenance arrears are being sought. [10142]

**Mr. Plaskitt:** The administration of the Child Support Agency is a matter for the chief executive.

He will write to the hon. Member.

*Letter from Mike Isaac to Mr. Danny Alexander dated 21 July 2005:*

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, how many houses are subject to a Child Support Agency Inhibition Order; and of these how many are *(a)* fully and *(b)* partially owned by a person other than the non-resident parent from whom maintenance arrears are being sought.

As the Bill of Inhibition is registered against an individual, we are unable to provide any figures as to whether the individual's property is owned partially, or wholly, by another party. However, it follows that a Bill of Inhibition registered against a non-resident parent whose home is wholly owned by another party would be ineffective.

In the 2004/2005 financial year, the Agency applied for 203 Bills of Inhibition against non-compliant non-resident parents.

I hope that this reply is helpful.

### Departmental Expenditure

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the budget of his Department was for press and communications for *(a)* 1997–98, *(b)* 2003–04 and *(c)* 2004–05; what it is for 2005–06; and if he will make a statement. [960]

**Mrs. McGuire:** The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security and parts of the former Department for Education and Employment including the Employment Service. Information on costs prior to 2001 is not held centrally and could be obtained only at disproportionate cost.

The main Communications budget allocation for 2003–04 was £67,748,000 of which £2,545,258 was for Press. The corresponding figures for 2004–05 were £51,708,618, of which £2,756,088 was for Press. These figures include both staff and non-staff costs, including all major marketing campaigns.

The budget allocation for 2005–06 has not yet been finalised.

### Departmental Relocation

**Mr. Gale:** To ask the Secretary of State for Work and Pensions how many of his Department's posts *(a)* have been relocated and *(b)* are under consideration for relocation from London to the deprived areas of the south-east. [6270]

**Mrs. McGuire:** The Department and its sponsored organisations are implementing the Lyons Review recommendations to relocate 4,187 posts out of London and the south-east by 2010. This will not exclude consideration of relocating some posts to relatively deprived areas in the south-east. So far, the department has not identified any posts suitable for transfer to deprived areas in the south-east.

### Departmental Spending

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the level of total departmental spending was in each year from 1980–81 to 2004–05; and what the projected figures are for each year to 2009–10 in *(a)* 2003–04 prices and *(b)* cash terms. [819]

**Mrs. McGuire:** The Department for Work and Pensions was formed in June 2001 from the Department of Social Security and parts of the former Department for Education and Employment including the Employment Service and has since undergone significant reorganisation.

The Departmental Report for 2004 (Cm 6221), which is available in the Library, contains spending figures for the years 1998–99 to 2005–06 these being the only years covered within the financial tables. Data for the years prior to 1998–99 does not exist in the format requested.

The Departmental Report for 2005 (Cm 6539) to be published in June 2005 will contain spending figures for the years 1999–2000 to 2007–08. The Public Expenditure Statistical Analyses (Cm 6521) also contains spending data for the same years in real and near-cash terms in Chapter 1.

The Department's spending levels beyond 2007–08 will be subject to the 2006 Spending Review that has not yet commenced.

### Departmental Staff

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the *(a)* pay scale, *(b)* turnover in the last period for which figures are available and *(c)* required level of training is for (i) disability employment advisers, (ii) jobcentre plus personal advisers and (iii) Pathways to Work advisers. [11852]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

*Letter from Leslie Strathie to Mr. David Laws, dated 21 July 2005:*

The Secretary of State has asked me to reply to your question concerning what the *(a)* pay scale, *(b)* turnover in the last period for which figures are available and *(c)* required level of training is for (i) disability employment advisers, (ii) jobcentre plus personal advisers and (iii) Pathways to Work advisers. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

It is the policy within Jobcentre Plus (as with other parts of the Department for Work and Pensions) to collect staffing information by grade and location, not by job role. It is not, therefore, possible to provide pay or turnover information by job role. However, as all job roles upon which information is being sought are within the same civil service grade—Executive Officer—it is possible to provide you with information relating more generally to our staff in this grade.

At 1 July 2005, the national pay scale for executive officers was £17,290to £22,820 (with those working in London on a slightly higher scale). A small number of senior advisers receive an additional responsibilities allowance of £1,000 per annum.

The national turnover rate amongst executive officers for the period June 2004 to May 2005 was 3.84 per cent.

I am able to be more specific with the information requested on training. All advisers are required to complete the basic training package; in total up to approximately 34 days learning. In

addition, disability employment advisers receive a further eight days training to equip them with the specialist advisory skills required to support the most disadvantaged disabled customers in securing work, and to work with others to encourage and support good practices in the recruitment, retention and development of disabled customers. For Pathways to Work Advisers there is an additional 18 days training.

I hope this is helpful.

### Disability Allowance

**Mr. Laurence Robertson:** To ask the Secretary of State for Work and Pensions if he will take steps to increase the amount of money that people with disabilities are allowed to earn before their benefits are affected; and if he will make a statement. [12950]

**Mrs. McGuire:** Benefits paid specifically for disability, disability living allowance and attendance allowance are not subject to earnings restrictions but are assessed on need for additional help with care and mobility.

Income related benefits, such as income support, housing benefit and council tax benefit all have a variety of disregards, dependant upon the claimant's circumstances, above which certain earnings are taken into account. There is a higher disregard for those receiving a disability premium. The number of hours a person can work while claiming these benefits is restricted.

People with disabilities may be entitled to the full range of social security benefits, depending on their individual circumstances; where they are, they will be subject to the earnings restrictions that apply to those benefits in the same way as all other claimants.

We have no plans to change these rules.

### Disability and Careers Service

**Philip Davies:** To ask the Secretary of State for Work and Pensions if he will list the courses the Disability and Careers Service offers to employees based on *(a)* gender, *(b)* ethnic origin, *(c)* sexuality and *(d)* any combination of the above; how much each course costs to run; and if he will make a statement. [12494]

**Mrs. McGuire:** The administration of the Disability and Carers Service is a matter for the chief executive, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Philip Davies, dated 21 July 2005:*

You asked the Secretary of State for Work and Pensions, if he will list the courses the Disability and Carers Service offers to employees based on *(a)* gender, *(b)* ethnic origin, *(c)* sexuality and *(d)* any combination of the above; how much each course costs to run. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The information I have available regarding courses for Disability and Carers Service employees, and the cost in the last financial year, where known, is shown in the attached annexe.

I am unable to provide any details regarding attendees' gender, ethnicity, and sexuality, as this information is not routinely collected, but all of our courses are available to all of our staff.

I am sorry I cannot be more helpful.

## Disability Living Allowance

**Anne Main:** To ask the Secretary of State for Work and Pensions (1) if he will meet the Director of Life Ability Community to discuss the production of a visual impairment specific disability living allowance claim form; [13898]

(2) if his Department will produce a visual impairment-specific disability living allowance claim form; and if he will make a statement. [13899]

**Mrs. McGuire:** The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mrs Anne Main dated 21 July 2005:*

You asked the Secretary of State for Work and Pensions, if he will meet the director of Life Ability Community to discuss the production of a visual impairment specific disability living allowance claim form and also If his department will produce a visual impairment specific disability living allowance claim form. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The Disability and Carers Service is committed to listening to the views of their customers and representatives and would be pleased to include Life Ability Community in future consultation. In the first instance the Secretary of State has asked my Customer and External Relations Director, Kim Archer to arrange a meeting with Life Ability Community to discuss their needs. Ms Archer can be contacted on 020 7962 8297 or at Disability & Carers Service, Room 505, The Adelphi, 1–11 John Adam Street, London WC2N 6HT. she will be pleased to help in any way she can.

A number of activities have already taken place with customer groups this year, through the DWP Disability Forum and other activities. We have also consulted extensively via the Modern Services Working Group of which the Royal National Institute for the Blind is represented. Modem Services Working Group were consulted during development of the proposed revised claim form and their comments have been incorporated.

Entitlement to disability living allowance depends on the care and mobility needs arising from a person's illness or disability, not on the particular disability itself Therefore when designing claim forms we have to bear in mind that approx two thirds of our customers have more than one illness or disability present It would be impractical for both claimants and the business to design claim forms for individual impairments.

The revised claim form will be easier for the claimant to complete. It will be in a more suitable format than the current generic claim form for claimants with any single disability,

whether physical, mental or sensory, or combinations of any of these. Testing of this claim form begins in September 2005 in two pilot areas.

Claim forms and leaflets can already be requested in large print or Braille.

I hope this is helpful.

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions how many people are receiving disability living allowance; and how many are in Pembrokeshire. [13955]

**Mrs. McGuire:** As at 28 February 2005, the latest date for which information is available, some 2,673,000 people in Great Britain were receiving disability living allowance, of whom 7,100 were in Pembrokeshire.

*Notes:*

1. Figures are rounded to the nearest hundred. They are based on a 5 per cent. sample and therefore subject to sampling variation.

2. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

*Source:*

Information Directorate, 5 percent. data.

**Mr. MacNeil:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 4 July 2005, *Official Report*, column 69W, on disability living allowance, whether actions taker by his Department or by the Disability and Carers Service have intentionally or unintentionally had the consequence of reducing the award rate. [14602]

**Mrs. McGuire:** The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

*Letter from Terry Moran to Mr. Angus MacNeil, dated 21 July 2005:*

You asked the Secretary of State for Work and Pensions, pursuant to the answer of 4 July 2005, Official Report, column 69W, on disability living allowance, whether actions taken by his Department or by the Disability and Carers Service have intentionally or unintentionally had the consequence of reducing the award rate. The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

There have been no changes to the policy, or the entitlement rules laid down in law, which would intentionally or unintentionally reduce the award rate of disability living allowance. Our intention still remains to pay the right money to the right person at the right time.

### Disability Rights Commission

**Philip Davies:** To ask the Secretary of State for Work and Pensions how many charges of *(a)* racial discrimination, *(b)* sexual discrimination, *(c)* disability discrimination and *(d)* a combination of the above have been made by the staff of the Disability Rights Commission against the Commission in each of the past 10 years. [12493]

**Mrs. McGuire:** There have been three such claims made by DRC staff to Employment Tribunals since the Commission opened its doors for business in April 2000:

Sex discrimination (2003)

Disability discrimination (2004, withdrawn)

Sex and disability discrimination (2005).

None of these claims proceeded as far as a hearing before the tribunal.

### Disabled People (Employer Insurance)

**Mr. Caton:** To ask the Secretary of State for Work and Pensions (1) if he will assess the merits of providing financial assistance to companies that incur additional insurance costs because they employ disabled people; [7518]

(2) what recent estimate his Department has made of the numbers of disabled people *(a)* refused employment and *(b)* dismissed because employers claim that insurance costs are prohibitive; [7519]

(3) what assessment his Department has made of the accuracy of risk assessments undertaken by insurance companies that increase insurance premiums when disabled people are employed. [7520]

**Mrs. McGuire:** The Department for Work and Pensions does not intend to make an assessment of the merits of providing financial assistance to companies that incur additional insurance costs because they employ disabled people. The Government do not provide funding to employers to enable them to meet their obligations under the Disability Discrimination Act 1995. In fulfilling their duty to make reasonable adjustments, employers are required only to make adjustments that are reasonable for them to make given all the circumstances of the case. Factors such as the cost of the adjustment and the employer's available resources are taken into account in determining what is reasonable.

No data is held on people who have been refused employment or dismissed because employers claim that insurance costs are prohibitive. Therefore the Department for Work and Pensions has not made any estimates of the numbers of disabled people who have been affected in these circumstances. If insurance costs are "prohibitive" it may be unreasonable for an employer to pay the higher premium. Furthermore, an unacceptably high premium, or a refusal by an insurance company to provide cover for the disabled individual, may provide grounds for the employer to justify discriminatory action against the insurance company.

The Department has made no estimate of the accuracy of risk assessments undertaken by insurance companies that increase premiums when disabled people are employed. The Government are not in a position to intervene in the decisions of insurance companies when determining whether or not to offer insurance. "An Insurer's Guide to the Disability Discrimination Act 1995", published by the Association of British Insurers includes guidance to the insurance industry on the use of relevant information and data in underwriting and we would expect insurance companies to follow this guide. The guide has been endorsed by the Disability Rights Commission which has undertaken to monitor its effects to help the industry improve its performance. The Disability Rights Commission proposes to begin research this summer.

### EDS

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what changes have been agreed in relation to the *(a)* accuracy and *(b)* quality of data and management information supplied by EDS in response to the internal audit recommendation of 2004–05; and what led to the recommendation. [1989]

**Mr. Plaskitt:** The internal audit recommendation followed a review of the Performance Management, Management Information and Data Warehouse of the new Child Support System. This issue was also identified in the Work and Pensions Select Committee report on the Child Support System (Second report of the session 2004–05 HC 441. I refer the hon. Member to the Government's response to this report (HC477) and specifically the response to the first recommendation, which relates to management information.

### Employers' Liability Insurance

**Mr. Nicholas Brown:** To ask the Secretary of State for Work and Pensions what recent representations he has received concerning employers' liability insurance. [13989]

**Mrs. McGuire:** We have received no recent representations concerning employers' liability insurance.

### English Wine

**Mr. Dismore:** To ask the Secretary of State for Work and Pensions if he will ensure that English wine is made available at dinners, receptions and parties he hosts at which hospitality involving wine is appropriate *(a)* during the EU presidency and *(b)* generally; and if he will make a statement. [9156]

**Mr. Plaskitt:** On all issues of hospitality the primary consideration is one of Value for Money. All departmental organisers of EU presidency events have been advised of Cabinet Office guidance which encourages the provision of British food and drink where possible.

### Group 4

**Mr. Henderson:** To ask the Secretary of State for Work and Pensions how much was spent by his Department and public bodies and agencies for which he is responsible on security contracts with Group 4 Securicor in 2004–05; and if he will list *(a)* the nature and location of services provided and *(b)* the start and end dates of such contracts. [13523]

**Margaret Hodge:** The Department and its public bodies or agencies have had no expenditure with Group 4 Securicor on security contracts in the past year.

### Home Responsibilities Protection Scheme

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how many carers in *(a)* Scotland and *(b)* the Lanark and Hamilton East constituency have participated in the Home Responsibilities Protection Scheme in each year from 2001; and if he will make a statement. [14059]

**Mr. Plaskitt:** The information requested is not available at constituency level. Such information as is available is in the table.

*Carers in Scotland eligible for home responsibilities protection*

| | *Number* |
|---|---|
| 2001–02 | 309,000 |
| 2002–03[1] | 500,000 |
| 2003–04[1] | 465,000 |

[1] The figures for 2002–03 and 2003–004 are provisional.

*Source:*

1 per cent. sample of the Lifetime Labour Market Database of the National Insurance Records System

These figures represent the number of people for whom HRP is available if they do not achieve a qualifying year for state pension purposes through national insurance contributions. They do not represent the numbers who need HRP in order to qualify for a full basic state pension.

### Honours

**Mr. Pope:** To ask the Secretary of State for Work and Pensions how many officials currently in the Department received honours in the recent Queen's Birthday Honours List; and at what rank of honour. [5111]

**Mrs. McGuire:** I refer my hon. Friend to the answer given by my right hon. Friend the Chancellor of the Duchy of Lancaster on 22 June 2005, *Official Report*, column 1059.

### Housing Benefit

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions (1) how many people have used the rapid claims procedure for housing benefit in each year since its introduction, broken down by region; [5441]

(2) what percentage of new housing benefit recipients in each year since 1997 had to *(a)* fill in more than one form and *(b)* attend more than one office in order successfully to complete their claim, broken down by region. [5444]

**Mr. Plaskitt:** The information is not collected. Local authorities provide details of the number of new claims made to housing benefit and council tax benefit, but are not required to provide details of the type of claim forms received.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many housing benefit claims were outstanding on average in each year since 1997, broken down by region. [5454]

**Mr. Plaskitt:** The information is in the table.

*Average number of claims outstanding in each Government Office Region; 2000–01 to 2004–05*

| *Government Office Region* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* |

| South-west | 85,895 | 32,218 | 36,425 | 153,382 | 21,492 |
| Wales | 102,592 | 27,980 | 39,297 | 51,279 | 24,776 |
| West Midlands | 60,002 | 31,892 | 45,498 | 76,722 | 29,432 |
| Yorks and Humberside | 122,778 | 73,130 | 71,210 | 292,469 | 28,311 |
| National total | 1,007,492 | 519,966 | 596,299 | 1,026,513 | 329,948 |

*Notes:*
1. Not all LAs have returned data in every quarter, so the reported figures are the weighted averages of those that have returned figures.
2. Local authorities may not use the same method of counting.
3. Data is not available prior to 2000.
4. Prior to 2004–05 the count included both new and renewal claims, after this point existing claims were no longer renewed.

*Source:*
Local Authority (LA) quarterly statistical returns

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many landlords renting accommodation to housing benefit recipients were prosecuted for breaching environmental standards in each year since 1997, broken down by region. [5489]

**Mr. Plaskitt:** The information is not available because it is not collected by centrally.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions what the cost of administering housing benefit was in each year since 1997. [5492]

**Mr. Plaskitt:** The cost of administering housing benefit cannot be separated from the cost of administering council tax benefit; joint claims are usually administered together.

The available information is in the table.

*Costs to local authorities of administering housing benefit and council tax benefit for the years 1997–98 to 2003–04; Great Britain*

| | *Million* |
|---|---|
| 1997–98 | 516 |
| 1998–99 | 526 |
| 1999–2000 | 597 |
| 2000–01 | 613 |
| 2001–02 | 654 |
| 2002–03 | 693 |
| 2003–04 | 765 |

*Notes:*
1. These figures should not be regarded as the exact cost because it is not always possible for local authorities to accurately separate their HB/CTB administration costs from other expenditure.
2. 2003–04 is the latest year for which information is available.

Local authority reported expenditure.

## Health and Safety Executive

**Mr. Nicholas Brown:** To ask the Secretary of State for Work and Pensions if he will make a statement on the Health and Safety Executive campaign Government Setting an Example. [13979]

**Mrs. McGuire:** The Government Setting an Example programme was designed to develop best practice on health, safety and sickness absence within Government Departments. The Health and Safety Executive has now brought this work together with its priority programme on the health services into a public services programme.

This supports the work of the ministerial taskforce on health, safety and productivity by working with management and employee representatives to focus on the key causes of work related sickness absence across the public sector.

## Incapacity Benefit

**Mr. Heathcoat-Amory:** To ask the Secretary of State for Work and Pensions (1) what estimate the Government have made of the *(a)* prevalence and *(b)* value of incapacity benefit fraud among those benefit recipients who do not live in the UK; [8992]

(2) how the Government seek to prevent fraud by incapacity benefit recipients who do not live in the UK; and how much has been spent in each year since 1997 on the prevention of such fraud. [8993]

**Mrs. McGuire:** The 2001 National Benefit Review of IB Fraud indicated that fraud in IB is very low. There is no reason to believe it would be any higher in those claiming abroad who are subject to the same periodic medical examinations to confirm they remain entitled to benefit as are UK based claimants.

No estimates have been made of the level of fraud amongst those claiming incapacity benefits from abroad and there are no additional measures in place to counter such fraud. Therefore information is not available as to how much has been spent on the prevention of such fraud.

**Mr. Paul Goodman:** To ask the Secretary of State for Work and Pensions how many people living abroad are receiving incapacity benefit; and if he will make a statement. [9691]

**Mrs. McGuire** *[holding answer 5 July 2005]:* As at February 2005, there were 9,800 incapacity benefit and severe disability allowance claimants living overseas.

Incapacity benefit is payable to recipients living in European Union (EU) and European Economic Area (EEA) countries and Switzerland under the European Community's social security regulations. It is also

payable under bilateral social security agreements to recipients who live in the Isle of Man or the Channel Islands or in one of the countries in the list.

Non-EU/EEA countries where incapacity benefit is payable under bi-lateral agreements:

Bosnia-Herzegovina

Barbados

Croatia

Former Yugoslav Republic of Macedonia

Israel

Jamaica

State Union of Serbia and Montenegro

Turkey

USA

**Mr. Laws:** To ask the Secretary of State for Work and Pensions how many incapacity benefits claimants there are in each local authority area; and what proportion of the working age population they represent. [9864]

**Mrs. McGuire:** The information has been placed in the Library.

**Mr. Frank Field:** To ask the Secretary of State for Work and Pensions what the projected numbers of people on incapacity benefit are for *(a)* 2010–11, *(b)* 2020–21, *(c)* 2030–31, *(d)* 2040–41 and *(e)* 2050–51, broken down by rate of benefit. [9949]

**Margaret Hodge** *[holding answer 5 July 2005]:* Between 1979 and 1997 the number of people receiving incapacity benefit rose from 700,000 to 2.5 million—the equivalent of an additional 2,000 inactive people every single week. However, between November 1997 and November 2004 inflows declined by around 30 per cent. This has resulted in the slowing down of the growth in the caseload since 1997. In fact in the year to February 2005 the caseload fell by 29,000—a small but significant change, reflecting the success of our management of the economy and the success of our welfare to work policies.

Projections of the number of claimants ignore the progress we have made since 1997. At least a million claimants (the Shaw Trust estimate 1.5 million) receiving incapacity benefit say they expect to work in the future, given the right support. We are already providing this support in the Pathways to Work pilots, which are doubling their recorded job entries, but we want to do even more and that's why we will be publishing a Green Paper in the autumn outlining our proposals. Our ambition is to move a million people off incapacity benefit and into work.

The available information is in the following table.

*Projected incapacity benefit claimants in the UK for years shown, broken down by benefit rate.*

| | *2010–11* | *2020–21* | *2030–31* | *2040–41* | *2050–51* |
|---|---|---|---|---|---|
| Invalidity benefit—basic | 230 | 74 | 11 | [1]— | 0 |
| Incapacity benefit—short-term lower rate | 100 | 113 | 108 | 107 | 108 |
| Incapacity benefit—short-term higher rate | 99 | 118 | 117 | 115 | 119 |
| Incapacity benefit—long-term | 1,263 | 1,783 | 1,892 | 1,864 | 1,951 |
| Incapacity benefit—earnings-related | 194 | 65 | 9 | 0 | 0 |

[1] Indicates figures below 500.

*Notes.*

1. Figures are rounded to the nearest thousand and shown in thousands.
2. These projections do not take account of any future changes to the welfare system.

Source:

DWP projections based on figures underlying HM Treasury's Annex A in the Budget Report.

**Mr. Hood:** To ask the Secretary of State for Work and Pensions whether there is an established mechanism by which the view of disabled people on the proposed incapacity benefit reforms are taken in to account; whether a report has been commissioned to consider the views of the disabled people in reform of the incapacity benefit system; and if he will make a statement. [10757]

**Margaret Hodge:** The views of disabled people are central to the development of our proposals for the reform of incapacity benefit and the consultation process follows the guidance set out in the code of practice on consultation published by the Cabinet Office in January 2004.

Consultation on this issue has been ongoing since the publication of our Green Paper on Pathways to Work in November 2002. Since the publication of the five year strategy and as we continue to develop our proposals the Department is engaged in a range of meetings and events with stakeholders to ensure that we capture as much input as possible.

Once our forthcoming Green Paper is published in the autumn we will undertake a formal consultation period of 12 weeks in line with the code of practice on consultation. The Green Paper will be available in a range of formats and will be publicised through a number of events for stakeholders and through a range of activities on the internet, including stakeholder websites.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions (1) what plans he has to *(a)* pilot and *(b)* evaluate the effects of benefit sanctions within incapacity benefit; and what research he has commissioned into the effect on incapacity benefit recipients of being sanctioned for failure to attend a work-focused interview; [11851]

(2) pursuant to his answer of 22 June 2005, *Official Report*, column 1076W, on Pathways to Work, what the diagnoses were of those sanctioned; and what proportion were receiving incapacity benefit for mental health conditions. [11861]

**Mrs. McGuire:** People claiming incapacity benefit in Pathways to Work areas may be sanctioned for failing to attend or take part in a work focused interview (WFI) with a Jobcentre Plus personal adviser. Specific information on the diagnosis of those sanctioned is not available.

There have been an insufficient number of sanctions to warrant a specific study of their effects. However, the Department is regularly monitoring the numbers and is currently reviewing priorities for future evaluation. As part of the evaluation of the Pathways pilots the Department has commissioned studies to examine the experiences of incapacity benefit customers and personal advisers, including sanctions imposed.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his estimate is of the proportion of incapacity benefit claimants in the UK who were aged over *(a)* 40, *(b)* 50, *(c)* 55, *(d)* 60 and *(e)* 65 in (i) 1985–86, (ii) 1990–91, (iii) 2000–01 and (iv) the latest year for which figures are available; and if he will make a statement. [963]

**Mrs. McGuire:** The information is not available in the format requested. The available information is in the table.

*Sickness benefit (SB), invalidity benefit (IVB), severe disability allowance (SDA) and incapacity benefit (IB) claimants in Great Britain by age group at dates shown*

| | Year ending | | Quarter ending | |
|---|---|---|---|---|
| | April 1996 | March 1991 | February 2001 | November 2004 |
| All ages | 1,398,200 | 1,972,000 | 2,692,100 | 2,696,500 |
| Under 40 | 327,900 | 432,500 | 780,500 | 782,600 |
| Percentage | 23.45 | 21.93 | 28.99 | 29.02 |
| 40–49 | 230,600 | 346,900 | 587,700 | 638,800 |
| Percentage | 16.49 | 17.59 | 21.83 | 23.69 |
| 50–54 | 173,000 | 257,900 | 438,800 | 391,600 |
| Percentage | 12.37 | 13.08 | 16.30 | 14.52 |
| 55–59 | 250,600 | 345,500 | 492,000 | 528,300 |
| Percentage | 17.92 | 17.52 | 18.28 | 19.59 |
| 60–64 | 316,800 | 367,500 | 365,700 | 325,100 |
| Percentage | 22.66 | 18.64 | 13.58 | 12.06 |
| 65 and over | 99,300 | 221,700 | 27,400 | 30,100 |
| Percentage | 7.10 | 11.24 | 1.02 | 1.12 |

*Notes:*
1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. "Claimant" figures include all credits only cases.
3. Sickness/invalidity benefit was replaced by incapacity benefit in April 1995.

*Source:*
*Information directorate 1 per cent. sample for 1986 and 1991. 5 per cent. sample for 2001 and 2004.*

## Internal Audit Recommendations

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will place in the Library internal audit recommendations made in the last four years for *(a)* Jobcentre Plus, *(b)* the Pension Service and *(c)* the Disability and Carers Directorate. [1341]

**Mrs. McGuire:** The Department will review all internal audit recommendations for the last four years and in due course will place these in the Library. The only exceptions to this will be those recommendations where there is specific commercial or policy reason not to make the information available and those recommendations already placed in the Library on 22 March 2005 for the Child Support Agency.

## Local Housing Allowance Scheme

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what the most recent average waiting time for a new claim to be assessed under the Local Housing Allowance scheme is in each of the original nine Pathfinder authorities; and what the average waiting time was for a housing benefit claim to be assessed in each of these authorities in each year since 1997. [1329]

**Mr. Plaskitt:** The available information is in the following table.

*Average housing benefit (rent allowance) claim processing times in local housing allowance pathfinder authorities.*

| | 2000–01 | 2001–02 | 2002–03 | 2003–04 | 2004–05[1] |
|---|---|---|---|---|---|
| Brighton and Hove | 79.77 | n/a | 30.7 | 29.99 | 34.02 |
| Blackpool | 44.81 | 44.13 | 47.96 | 31.42 | 26.05 |
| Leeds | 47.84 | 36.76 | 41.54 | 31.01 | 90.08 |
| Lewisham | 55.41 | 44.74 | 43.89 | 44.29 | 34.06 |
| Teignbridge | 41.51 | 37.63 | 36.22 | 40.17 | 31.8 |
| Edinburgh | n/a | 77.79 | 78.41 | 98.54 | 89.44 |
| Conwy | 79.69 | 67.69 | 62.5 | 40.34 | 31.47 |
| Coventry | 61.9 | 65.64 | 65.18 | 53.99 | 53.77 |
| NE Lincolnshire | 32.89 | 49.38 | 64.59 | 48.96 | 35.76 |

n/a = not available.
[1] First three quarters.

*Notes:*
1. Average processing times are given in days.
2. Data is collected on rent allowance claims which includes, but is not exclusive to, the local housing allowance.
3. Data on average processing times is not available prior March 2000 when the best value performance indicators were introduced
4. The increase in processing times in Leeds have been caused by a change of IT system.

*Source:* Local Authority MIS data.

### Jobcentre Plus

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices there are in Coventry. [13923]

**Margaret Hodge:** In Coventry there are currently three Jobcentres, one Jobcentre Plus office and one Social Security office.

### Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Work and Pensions what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13624]

**Margaret Hodge:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Maternity Pay

**Mr. Hood:** To ask the Secretary of State for Work and Pensions (1) how much employers spent in *(a)* the UK and *(b)* Scotland on statutory maternity pay in (i) 2002, (ii) 2003, (iii) 2004 and (iv) 2005; and if he will make a statement; [10060]

(2) what the cost of statutory maternity pay has been to employers in the UK in 2005; and if he will make a statement. [10284]

**Mrs. McGuire:** Information is not available for Scotland. The available information, which is on a UK basis, is in the following table.

*UK expenditure on statutory maternity pay by employers*

*£ million*

| | *Outturn* | *Forecast* | | |
|---|---|---|---|---|
| | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
| Initial employer expenditure | 840 | 1,208 | 1,319 | 1,357 |
| Amount recovered through national insurance deductions | 785 | 1,129 | 1,233 | 1,268 |
| Net employer expenditure | 55 | 79 | 86 | 89 |

*Notes*:
1. Expenditure information is on an accruals basis.
2. Outturn information is available for the financial year 2002–03. Data for other financial years are forecasts.
3. Although statutory maternity pay is originally paid for by the employer, they are entitled to receive a reimbursement of 92 per cent. of their costs through deductions to national insurance contributions. Small employers, in addition to the 92 per cent. reimbursement, receive Small Employers Relief of 12.5 per cent. which brings their total reimbursement to 104.5 per cent. As a result the final net expenditure paid by the employer is much lower than their initial outlay.
4. There is a large increase in expenditure between 2002–03 and 2003–04 because the number of weeks a woman is entitled to claim SMP rose from 18 to 26.

*Source*:
Source of forecast information is the Government Actuary Department's forecasting model for Budget 2005.

**Mr. Hood:** To ask the Secretary of State for Work and Pensions how many women in Scotland received maternity payments in *(a)* 2003, *(b)* 2004 and *(c)* 2005; and if he will make a statement. [10062]

**Mrs. McGuire:** The information is not available below GB level.

**Helen Goodman:** To ask the Secretary of State for Work and Pensions (1) when he expects the review of eligibility for earnings disregards under maternity allowance and statutory maternity pay to be completed; [12594]

(2) how many women are receiving *(a)* maternity allowance and *(b)* statutory maternity pay; and if he will make a statement on eligibility for earnings disregards in relation to such benefits. [12595]

**Mrs. McGuire:** Neither maternity allowance nor statutory maternity pay is subject to earnings disregards; they are income replacement benefits.

As 28 February 2005, there were 25,600 women in receipt of maternity allowance. During 2004–05, the number of new statutory maternity pay claims was 313,000.

### Ministerial Taskforce for Health, Safety and Productivity

**Mr. Nicholas Brown:** To ask the Secretary of State for Work and Pensions when the Ministerial Taskforce for Health, Safety and Productivity last met; and what progress it has made in reducing days lost through sickness and absence in the public sector. [13978]

**Margaret Hodge:** The Ministerial Task Force on Health, Safety and Productivity met on 22 June and 20 July 2005. The Task Force produced a report on "Managing Sickness Absence in the Public Sector" in December 2004. It has since reviewed how its recommendations are being implemented within the civil service.

A number of pilots to test effectiveness of management interventions and develop best practice are now in place, including in my own Department. Some are already showing positive results. For example in HM Prison Service there has been a fall in sickness rates of 4.7 per cent. overall in one year.

The Task Force will be agreeing realistic targets for the public sector and monitoring progress.

### New Deal

**Andrew Rosindell:** To ask the Secretary of State for Work and Pensions how many people have started on a new deal scheme more than once. [12521]

**Margaret Hodge:** The new deal has been successful in helping more than 1.3 million people into work. 577,020 people have started the new deal more than once. There are several possible reasons for this. In a dynamic, shifting labour market, it is inevitable that some people entering the new deal will return to unemployment. Equally a person may cease their involvement on the new deal because they move from jobseekers' allowance on to another benefit or stop claiming at all. These people may subsequently reclaim and return to the new deal. However, the new deal is a long-term investment to make a real difference to the lives of its participants.

Those who do return to benefits have still added to their skills, confidence and experience, making it easier for them to find a job in the future.

### Parliamentary Questions

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions when he will reply to question reference 7079 from the hon. Member for Sutton and Cheam. [14637]

**Mrs. McGuire:** A reply was given on 19 July.

### Part-time Study Rules

**Sarah Teather:** To ask the Secretary of State for Work and Pensions whether young homeless people will be allowed to take part in the pilot scheme allowing low-skills benefits claimants in England to take up free, full-time training towards a first level 2 qualification, without losing benefits. [12235]

**Margaret Hodge:** Yes. The New Deal for Skills Adult Learning Option trial, due to start in autumn 2006, will test the effectiveness of providing financial support for adult Jobcentre Plus customers to allow them to take up a first full Level 2 qualification through Learning and Skills Council funded provision.

The option is for benefit recipients for whom a lack of skills is the barrier to employment and young homeless people who meet this criterion will be eligible for consideration on the same basis as other Jobcentre Plus customers.

### Pathways Programme

**Mr. Hood:** To ask the Secretary of State for Work and Pensions if he will make a statement on the effectiveness of the Pathways programme since its introduction in *(a)* helping people on incapacity benefit to obtain employment and *(b)* providing help to disabled people to manage their condition. [10756]

**Margaret Hodge:** We have early signs that the Pathways to Work approach is having a positive impact, providing a framework of high-quality active support for people on incapacity benefits. To the end of March 2005 there have been around 13,400 Pathways job entries and there is increasingly clear evidence of a significant increase in the proportions of new claimants leaving benefit.

In our Pathways pilot areas we have achieved an increase of about 8 per cent. in the number of people who move off incapacity benefit within six months when compared to non pilot areas. The increase exceeds our initial expectations.

Around 20 per cent. of all those attending work-focused interviews (WFIs) take up one of the forms of back-to-work help available in Pathways areas.

The element of Pathways designed to provide help to disabled people to manage their condition is the NHS Condition Management Programme which has been particularly welcomed by both customers and personal advisers. There have been 4,900 starts to Condition Management Programmes since their introduction in October 2003. Some of those whose health condition improved cited the Condition Management Programme as a contributing factor.

The Pathways to Work pilots are operating in seven areas and we will add 14 additional pilot areas from October 2005 onwards.

The latest Pathways statistics, "Pathways to Work Performance and Analysis", have been placed in the Library.

**Mr. Laws:** To ask the Secretary of State for Work and Pensions when he plans to roll out Pathways to Work across the UK; and what the planned expenditure on Pathways to Work is in *(a)* 2005–06, *(b)* 2006–07, *(c)* 2007–08 and *(d)* 2008–09. [11854]

**Margaret Hodge:** The Pathways to Work programme is currently available in seven areas covering around 9 per cent. of all incapacity benefit claimants.

Between October 2005 and October 2006 we will be further extending Pathways in three phases to around one-third of claimants. We will look to continue this phased roll-out on the way to providing national coverage.

The planned expenditure on the current Pathways to Work model is in the table.

*Planned expenditure on the current Pathways to Work model*

| | *Cost (£ million)* |
|---|---|
| 2005–06 | 65 |
| 2006–07 | 132 |
| 2007–08 | 149 |
| 2008–09 | 149 |

### Pension Credit

**Adam Afriyie:** To ask the Secretary of State for Work and Pensions (1) what his latest estimate is of the number of pensioners who are not claiming pension credits to which they are entitled; [12257]

(2) what his latest estimate is of the number of pensioners who are not claiming each of the means-tested benefits to which they are entitled. [12262]

**Mr. Pl[illegible]:** Latest estimates of the number of pensioners entitled to but not receiving the main income-related benefits relate to the financial year 2002–03. These cover minimum income guarantee, housing benefit and council tax benefit and are published in the Department for Work and Pensions report Income Related Benefits Estimates of Take-Up in 2002–03. A copy of the report is in the Library.

There are now over 2.7 million households in Great Britain receiving pension credit. Estimates based on the Family Resources Survey suggest that there are 3.85 million households entitled to pension credit in Great Britain in 2005–06. These two figures come from different sources, are calculated differently and are not directly comparable.

**Mr. Crabb:** To ask the Secretary of State for Work and Pensions which categories of benefits are disregarded in assessing income for the purposes of calculating the pension credit. [13956]

**Mr. Plaskitt:** The benefits disregarded in assessing income for the purposes of calculating pension credit are listed at regulation 15 of the State Pension Credit Regulations 2002. A copy of which is available in the Library.

**Jo Swinson:** To ask the Secretary of State for Work and Pensions how many and what percentage of pensioner households in Scotland are in receipt of pension credit. [13959]

**Mr. Plaskitt:** At 31 March 2005, 280,795 pensioner households in Scotland were in receipt of pension credit. This figure represents approximately 37 percent., of the total number of households in Scotland with at least one member aged 60 or over, based on data from the 2001 Census.

*Notes:*

1. The number of pension credit households is rounded to the nearest five.

2. Census data on pensioner households in Scotland obtained from the General Register Office for Scotland.

**Mr. Drew:** To ask the Secretary of State for Work and Pensions how many pensioners there were in the Stroud constituency in the last year for which figures are available; and how many were in receipt of pension credit. [13615]

**Mr. Plaskitt:** The most recent estimates of pensioner population by parliamentary constituency are contained in "Census 2001—Census Area Statistics for Parliamentary Constituencies in England and Wales", which is available in the Library. Information on numbers of households and individuals in receipt of pension credit in each constituency at 31 March 2005 is contained in the most recent quarterly pension credit progress report, which was published on 20 June. A copy of the report is in the Library.

## Pension Rights

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of occupational pension scheme members who are facing losses to their pension savings due to their schemes being wound up by their employers. [12215]

**Mr. Plaskitt:** We have not made any estimate of the total number of occupational pension scheme members who are facing losses to their pension savings due to their schemes being wound up by their employers. Based on our most recent data collection for the financial assistance scheme (FAS), we know of around 70,000 non–pensioner members in schemes that are potentially eligible for assistance from the FAS as a result of their schemes being wound up in circumstances of insolvency or where the employer no longer exists.

## Pension Service

**Mr. Todd:** To ask the Secretary of State for Work and Pensions what the average response time is to queries submitted to the Pension Service Retirement Pension Forecasting Team; and if he will make a statement. [13307]

**Mr. Timms:** The average response time to inquiries from customers requesting an individual pension forecast is 10.2 working days.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many full-time equivalent helpline staff are employed by the Pension Service. [10265]

**Mr. Plaskitt:** The Pension Service does not employ any helpline staff, although it provides a number of telephone services including a generic telephone number for members of the public to contact the appropriate pension centre. The generic number enables customers to be connected to the staff best placed to assist them.

The Pension Service also provides the pension credit application line (PCAL) and pensions direct for state pension and widows benefit customers and their representatives. These services will all provide help or advice where but are not regarded as helplines. The primary purpose of PCAL, in particular, is to take applications for pension credit and its staff are not employed directly by the Pension Service.

## Pensions

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions what estimate he has made of how many people in employment in the UK have no pension provision. [12217]

**Mr. Plaskitt:** We estimate that the number of people in employment (including the self-employed) in the UK currently not accruing a basic state pension is 1.08 million (full-time employment 370,000, part-time employment 710,000).

We estimate that the number of people in employment (including the self-employed) in the UK currently not contributing to a private pension scheme (occupational, personal or stakeholder) is 11.2 million (full-time employment 7.9 million, part-time employment 3.3 million)

We estimate that the number of people in employment (including the self-employed) in the UK currently not accruing a basic state pension and currently not contributing to a private pension scheme (occupational, personal or stakeholder) is 900,000 (full-time employment 270,000, part-time employment 640,000).

*Notes:*

1. All figures are estimates and are taken from the Family Resources Survey (FRS). 2003–04 is the latest year for which data is available. Figures are rounded up to the nearest 10,000.

2. Our estimates from the data are of the numbers who are not accruing a pension at a given point in time. Some of those will be people who have made provision previously, and many will build up pensions subsequently.

3. With regards to the basic state pension, the data shows whether individuals would gain state pension entitlement if they remained in the same position all year. In practice some shown as not accruing will go on to gain a year's entitlement, and others who appear to be accruing will not.

4. All full-time employees should be earning enough to accrue a basic state pension. However some self employed may work full-time but not reach the lower profits level, and some employees may report they work full-time for less than the national minimum wage. Of the 370,000 people in full-time employment currently not accruing a state pension, 250,000 are self employed.

5. Private pension refers to either an occupational pension or personal pension or stakeholder pension.

*Source:*

Family Resources Survey 2003–04.

**Sir Malcolm Rifkind:** To ask the Secretary of State for Work and Pensions what proportion of active stakeholder pensions receive employer contributions. [12218]

**Mr. Plaskitt:** Information is not available in the format requested. Stakeholder pensions are designed to be flexible, with holders able to take breaks in contributions without incurring penalty charges. This means that those stakeholder pensions that did not receive contributions in a particular year are not necessarily permanently dormant.

Out of the 1,060,000 stakeholder pensions receiving contributions in the 2002–03 tax year, 40 per cent. (420,000) had an employer contribution. Not all stakeholder pensions receiving a contribution in that year will have been eligible for an employer contribution: stakeholder pensions are available to everyone including the self employed, carers and those in training or education.

This information is derived from a sample of annual returns of information submitted to the Inland Revenue (now HM Revenue and Customs) by stakeholder pension providers. The figures are rounded to the nearest 10,000.

**Mr. Denham:** To ask the Secretary of State for Work and Pensions if he will estimate the net public expenditure cost, after allowing for pension credit and tax income, of the basic state pension in 2026 if the basic state pension is increased annually from 2006 by the increase in average earnings plus £2 per week. [12795]

**Mr. Plaskitt:** It is estimated that by increasing the basic state pension each year by earnings plus £2 per week the total net additional cost in 2026 would be £29 billion.

*Notes:*

1. Figures are for Great Britain in 2005–06 price terms, using the GDP deflator index, rounded to the nearest £500 million. It is assumed the policy change comes into effect from April 2006.

2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2005 assumptions and use 2003 based population projections.

3. Costs are net of income related benefits (savings credit, guarantee credit, housing benefit and council tax benefit) and income tax, and are calculated using the Department's policy simulation model for 2005–06.

4. The category A rate of basic state pension has been uprated by earnings plus £2 and category B pensions have been uprated by earnings plus £1.20 (i.e. approximately 60 per cent. of the category A rate).

5. The state second pension is assumed to be unchanged.

### Departmental Cost Savings

**Dr. Cable:** To ask the Secretary of State for Work and Pensions what value for money procurement savings were identified and what reduction in civil service posts occurred in his Department in 2004–05. [4548]

**Mrs. McGuire:** In pre-Budget report 2004 the Chancellor reported OGC value for money gains in central civil government procurement for 2003–04 of £2 billion. OGC value for money procurement gains for 2004–05 are being calculated and will be published in the 2005 Treasury Autumn Performance Report.

In Budget 2005 the Chancellor announced a headcount reduction of 12,500 posts by the end of 2004–05, towards the Government's target of a gross reduction of 84,000 civil service and administrative posts by 2008. The number of posts in the Department for Work and Pensions reduced by 9,970 during 2004–05.

### Sign Language and Lip-speakers

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions how many *(a)* sign language interpreters and *(b)* lip-speakers were (i) in training, (ii) employed and (iii) unemployed in the UK in each year since 1997. [931]

**Mrs. McGuire:** Information on the number of sign language interpreters who were employed and unemployed in each year since 1997 is not available. Employment statistics are drawn from the Labour Force Survey. However, there is no question in the survey that relates to whether or not respondents can lip read, or are sign language interpreters.

I understand from the Department for Education and Skills that the information on the respective numbers in training could be calculated only at disproportionate cost.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions if he will take steps to implement the Council of Europe's Parliamentary Assembly's recommendation on the protection of sign languages. [986]

**Mrs. McGuire:** The Government recognised British Sign Language (BSL) as a language in its own right and committed additional funding for initiatives to increase training opportunities for BSL tutors and raise awareness of the language in 2003 before the Council of Europe's Parliamentary Assembly's recommendation was made. These steps are consistent with action that recommendation 1598 (2003) encourages member states to take.

The Council's Committee of Ministers has responsibility on behalf of member states for steering action in response to Parliamentary Assembly recommendation 1598(2003) on the protection of sign languages. The Committee's reply to the Parliamentary Assembly of 5 July 2004 said that a study of the needs of sign language users should inform the decision on any future instrument on the rights of sign language users and that it would update the Assembly on further developments including a possible international conference on sign languages.

### Simone Hampshire

**Derek Wyatt:** To ask the Secretary of State for Work and Pensions (1) how much time elapsed between agreement by the Child Support Agency of the payments to Simone Hampshire, a constituent of the hon. Member for Sittingbourne and Sheppey, and her receipt of such payments; [2109]

(2) if his Department will investigate the Child Support Agency's handling of the case of Simone Hampshire; [2634]

(3) if he will make representations to the Child Support Agency to resolve the case of Simone Hampshire. [2635]

**Mr. Plaskitt** *[holding answer 8 June 2005]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

*Letter from Mike Isaac to Mr. Derek Wyatt, dated 21 July 2005:*

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions; how much time elapsed between agreement by the Child Support Agency of the payments to Simone Hampshire and her receipt of such payments; if his Department will investigate the Child Support Agency's handling of the case of Simone Hampshire; and if he will make representations to the Child Support Agency to resolve the case of Simone Hampshire.

As details about individual cases are confidential I have written to you separately about this case on 16 June 2005.

### Tax Credits

**Mr. Laws:** To ask the Secretary of State for Work and Pensions if he will make a statement on the new tax credits system developed by Affinity for his Department; how it interfaces with the main tax credit system; and what the estimated *(a)* cost and *(b)* timescale is. [9867]

**Mr. Plaskitt:** When the new tax credits commenced in 2003 a new data exchange mechanism was introduced to support the electronic exchange of data between the Department for Work and Pensions and Her Majesty's Revenue and Customs services (the "Tax Credits Gateway"). The Department also has enquiry facilities for tax credits award details ("View Only Access") and IT to support electronic applications and reporting of changes of circumstances ("e-portal").

Delivery, in partnership with HM Revenue and Customs is expected to be completed during summer 2006 with a planned cost of £114 million.

### Teenage Pregnancy

**Mr. Hollobone:** To ask the Secretary of State for Work and Pensions what steps are being taken through the tax and benefits system to tackle teenage pregnancy and to encourage responsible parenting in Kettering. [13917]

**Margaret Hodge:** The tax credits and benefits systems are there to provide financial support and stability to people with children. Our highly successful welfare to work programmes and our regime of work focused interviews ensure that where possible, these people are helped into work.

There are no further plans to tackle teenage pregnancy or responsible parenting using the benefit system. However the forthcoming welfare reform will encourage self-reliance and independence.

## TREASURY

### Alcohol-related Deaths

**Mr. Lancaster:** To ask the Chancellor of the Exchequer how many deaths in which the primary cause was alcohol there were in Milton Keynes in each of the last five years. [13994]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Mark Lancaster, dated 21 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many deaths in which the primary cause was alcohol there were in Milton Keynes in each of the last five years. (13994)

The latest year for which figures are available is 2004. The attached table shows the numbers of deaths among residents of Milton Keynes Unitary Authority where the underlying cause of death indicated a condition directly related to alcohol use in the years 2000 to 2004.

*Alcohol-related deaths[1] to usual residents of Milton Keynes unitary authority, registered 2000 to 2004*

| | *Number of deaths* |
|---|---|
| 2000 | 19 |
| 2001 | 21 |
| 2002 | 26 |
| 2003 | 20 |
| 2004 | 22 |

[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed as follows:
291—Alcoholic psychoses
303—Alcohol dependence syndrome
305.0—Non-dependent abuse of alcohol
425.5—Alcoholic cardiomyopathy
571—Chronic liver disease and cirrhosis
E860—Accidental poisoning by alcohol
For the years 2001–04 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol
142.6—Alcoholic cardiomyopathy
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fobrosis and cirrhosis of liver
X45—Accidental poisoning by and exposure to alcohol
*Note:*
Deaths were selected using the original underlying cause.
*Source:*
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. "Health Statistics Quarterly" 17, pp 5–14.

### Animal Feed Imports

**Mr. Meacher:** To ask the Chancellor of the Exchequer if he will ensure compensation is paid to UK farmers, food manufacturers and their insurers if UK port authorities fail to detect contaminated animal feed imports. [12167]

**Caroline Flint:** I have been asked to reply.

There is a requirement under General Food Law (EC Regulation 178/2002) for both food and feed business operators to comply with the requirements of food law and verify that their requirements are met. The port health authorities are required to monitor imports and to ensure that businesses discharge their legal responsibilities, they are not responsible for checking imports on behalf of United Kingdom farmers and food manufacturers. Compensation would not therefore be provided as a result of failing to detect contaminated animal feed imports by the port health authorities.

### Correspondence

**Mr. Burstow:** To ask the Chancellor of the Exchequer how many letters to his Department from hon. Members in Session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13851]

**John Healey:** Correspondence with the hon. Members is recorded by financial year not parliamentary Session. As at 19 July, the information sought is as follows:

| | *2004–05* | *2005–06 to date* |
|---|---|---|
| 1 month old | 0 | 15 |
| 2 months old | 0 | 3 |
| 3 months old | 0 | 2 |
| 4 months old | 2 | 0 |
| 6 months old | 1 | 0 |
| Total over 1 month old | 3 | 20 |

**Mr. Laws:** To ask the Chancellor of the Exchequer what estimate he has made of the take-up rate of the *(a)* child element of child tax credit, *(b)* family element of child tax credit and *(c)* child care tax credit in working tax credit, broken down by (i) case load and (ii) expenditure. [13877]

**Dawn Primarolo:** I refer the hon. Gentleman to my answer to the hon. Member for Tatton (Mr. Osborne) on 19 July 2005.

### Council Tax

**Mrs. Spelman:** To ask the Chancellor of the Exchequer what estimate the Valuation Office Agency has made of the number of residential properties in each council tax band in Wales in *(a)* 2004–05 and *(b)* 2005–06. [11419]

**Dawn Primarolo:** The actual number of dwellings shown in each council tax band in Wales is as follows:

*For 2004–05 (at 31 March 2005)*

| *Council tax band* | *Number of dwellings* |
|---|---|
| A | 255,796 |
| B | 325,976 |
| C | 265,144 |
| D | 200,642 |
| E | 164,444 |
| F | 64,577 |
| G | 38,353 |
| H | 3,400 |

*For 2005–06 (at 30 June 2005)*

| *Council tax band* | *Number of dwellings* |
|---|---|
| A | 199,231 |
| B | 285,281 |
| C | 289,244 |
| D | 206,943 |
| E | 168,897 |
| F | 103,650 |
| G | 49,262 |
| H | 12,053 |
| I | 5,529 |

### Debt Relief

**Ann McKechin:** To ask the Chancellor of the Exchequer (1) to which poor countries the Government's current debt relief programmes apply; [13575]

(2) what steps he plans to take to ensure *(a)* that para. 31 of the 2005 G8 Communiqué will be put fully into effect and *(b)* that international financial institutions no longer impose conditions which run counter to the policy there expressed; [13585]

(3) what outstanding bilateral debts the UK has from low-income countries; and from when each dates. [13586]

**Mr. Ivan Lewis:** The G8 agreement for multilateral debt relief is for all HIPCs who have reached completion point. Currently 18 countries could be eligible for debt worth up to $40 billion (Benin, Bolivia, Burkina Faso, Ethiopia, Ghana, Guyana, Honduras, Mali, Mauritania, Madagascar, Mozambique, Nicaragua, Niger, Rwanda, Senegal, Tanzania, Uganda, Zambia). As more countries reach completion point (currently 9 pre-completion point countries, and 11 pre-decision point countries) in the HIPC initiative this will increase in value to $55 billion.

The UK will also continue with its initiative to pay for the debt servicing of eligible non-HIPCs to the World Bank and African Development Bank. Eligible countries would be those low-income IDA-only borrowers who have sufficiently strong public financial management systems in place to ensure that the savings from debt relief are used for poverty reducing expenditures.

The G8 proposal is fully consistent with para. 31 of the 2005 G8 Communique with countries eligible for relief ready to demonstrate their commitment to poverty reduction and sound financial management.

Please see the following table for the countries with outstanding bilateral debt owed to the UK. These are the amounts owed to ECGD under Paris Club bilateral rescheduling agreements.

*Sovereign debts owing to ECGD under bilateral debt agreements following Paris Club reschedulings, all countries as at 17 July 2005*

| *Country* | *Debts incurred prior to* | *Outstanding (£ million)* |
|---|---|---|
| Algeria | October 1993 | 123.3 |
| Angola | January 1987 | 141.1 |
| Argentina | December 1983 | 33.3 |
| Bosnia and Herzegovina | December 1982 | 1.3 |
| Brazil | April 1983 | 133.4 |
| Cameroon | January 1989 | 52.3 |
| Central African Republic | January 1983 | 0.4 |

*Sovereign debts owing to ECGD under bilateral debt agreements following Paris Club reschedulings, all countries as at 17 July 2005*

| Country | Debts incurred prior to | Outstanding (£ million) |
|---|---|---|
| Congo Republic | August 1986 | 151.5 |
| Democratic Republic of Congo | July 1983 | 73.9 |
| Cote D'Ivoire | July 1983 | 17.3 |
| Croatia | December 1982 | 43.1 |
| Cuba | September 1982 | 103.5 |
| Ecuador | January 1983 | 52.4 |
| Egypt | November 1986 | 143.5 |
| Gabon | July 1986 | 139.5 |
| Guinea | January 1986 | 3.9 |
| Indonesia | July 1997 | 743.0 |
| Jamaica | October 1983 | 0.9 |
| Jordan | January 1989 | 344.8 |
| Kenya | January 1991 | 19.8 |
| Liberia | January 1983 | 22.8 |
| Macedonia | December 1982 | 2.4 |
| Malawi | January 1982 | 0.3 |
| Morocco | May 1983 | 13.3 |
| Nigeria | October 1985 | 4,392.7 |
| Pakistan | October 1997 | 6.8 |
| Peru | January 1983 | 101.4 |
| Philippines | April 1984 | 5.2 |
| Russia | January 1991 | 651.8 |
| Senegal | January 1983 | 1.0 |
| Serbia and Montenegro | December 1982 | 252.8 |
| Sierra Leone | July 1983 | 3.3 |
| Somalia | October 1983 | 30.5 |
| Sudan | January 1984 | 580.6 |
| Togo | January 1983 | 20.5 |
| Vietnam | January 1990 | 9.8 |

## Fisheries (EU Council Directive)

**Mr. Weir:** To ask the Chancellor of the Exchequer if he will amend Her Majesty's Customs and Excise Notice 263 to take account of the terms of EU Council Directive 2003/96/EC. [14891]

**John Healey:** No. Notice 263 explains the eligibility and procedures for reclaiming excise duty on fuel used in commercial vessels to make marine voyages. It is fully in line with Article 14 (1) *(c)* of EU Council Directive 2003/96/EC, which requires the exemption from duty of fuel used in commercial navigation, including fishing.

## Lorry Road User Charge Division

**Mr. Duncan:** To ask the Chancellor of the Exchequer whether it is his intention to redeploy the HM Revenue and Customs Lorry Road User Charge division; and if he will make a statement. [12714]

**John Healey:** Yes.

## Money Laundering

**Mr. Roger Williams:** To ask the Chancellor of the Exchequer how many people who had their application to open a bank account declined on the basis that they represented a risk of money laundering were subsequently allowed to open a bank account in the UK, having provided further information. [14014]

**Mr. Ivan Lewis:** I refer the hon. Member to the answer I gave him on 19 July 2005, *Official Report*, column 1690W.

## National Statistics

**Mr. Geoffrey Robinson:** To ask the Chancellor of the Exchequer how many people worked in *(a)* inner London and *(b)* Greater London in each year since 1975. [13762]

**John Healey:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Len Cook to Mr. Geoffrey Robinson, dated 21 July 2005:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about employment in inner and Greater London since 1975. (13762)

The table overleaf shows the number of people working in inner London and the London region for each three-month period ending May of each year from 1992 to 2005. Estimates for earlier years are not available.

These estimates are based on Labour Force Survey (LFS) data which, as with any sample survey, is subject to sampling variability. The LFS is a survey of households, but the attached estimates are based on respondents' reported place of work rather than residence.

*Number of people working in inner London and London region; March to May; 1992 to 2005; not seasonally adjusted*

Thousand

| Period | Inner London | London |
|---|---|---|
| March–May 1992 | 1,903 | 3,602 |
| March–May 1993 | 1,890 | 3,444 |
| March–May 1994 | 1,872 | 3,402 |
| March–May 1995 | 1,899 | 3,471 |
| March–May 1996 | 1,900 | 3,471 |
| March–May 1997 | 1,984 | 3,599 |
| March–May 1998 | 1,994 | 3,603 |
| March–May 1999 | 2,052 | 3,770 |
| March–May 2000 | 2,069 | 3,694 |
| March–May 2001 | 2,171 | 3,777 |
| March–May 2002 | 2,153 | 3,791 |
| March–May 2003 | 2,104 | 3,716 |
| March–May 2004 | 2,226 | 3,891 |
| March–May 2005 | 2,229 | 3,887 |

*Source:*
Labour Force Survey

## Pension Credit

**Jessica Morden:** To ask the Chancellor of the Exchequer how many people in each ward of Newport, East claim pension credit. [13313]

**Mr. Plaskitt:** I have been asked to reply.

The information is given in the following table.

*Pension credit recipients, Newport, East, March 2005*

| Ward | Pension credit recipients (households) |
|---|---|
| Caldicot Castle | 115 |
| Dewstow | 55 |
| Green Lane | 60 |
| Mill | 95 |
| Rogiet | 45 |
| Severn | 140 |
| The Elms | 20 |
| West End | 75 |
| Always | 350 |
| Beechwood | 525 |
| Langstone | 80 |
| Liswerry | 475 |

*Pension credit recipients, Newport, East, March 2005*

| *Ward* | *Pension credit recipients (households)* |
|---|---|
| Llanwern | 140 |
| Ringland | 710 |
| St. Julians | 330 |
| Victoria | 335 |

*Notes:*
1. All wards are based on Census wards, current as at April 2003.
2. All benefit counts at ward level are rounded to a multiple of five, to protect the confidentiality of individual claimants.

Information Directorate, Department for Work and Pensions, 100 per cent. sample

### Red Diesel

**Mr. Drew:** To ask the Chancellor of the Exchequer if he will make a statement on progress on achieving a further derogation from EU law for marine operators who use red diesel. [14083]

**Mr. Weir:** To ask the Chancellor of the Exchequer what discussions he has had with representatives of the fishing industry and other marine interests on the impact of EU Council Directive 2003/96/EC on their industries. [14893]

**John Healey:** I refer the hon. Members to what I said to the House on 26 May 2005, *Official Report*, column 865.

**Mr. Arbuthnot:** To ask the Chancellor of the Exchequer whether he plans to renew the derogation from EU Directive 2003/96/EC which allows red diesel to be taxed at a lower rate for private recreational marine craft; and if he will make a statement. [14794]

**John Healey:** I refer the right hon. Gentleman to the answer I gave the hon. Member for Orkney and Shetland (Mr. Carmichael) on 14 October 2004, *Official Report*, column 344W.

### Tax Credits

**Mr. Laws:** To ask the Chancellor of the Exchequer how many requests for reconsideration of recovery of overpaid tax credits were received in total by *(a)* December 2004, *(b)* March 2005, *(c)* April 2005, *(d)* May 2005 and *(e)* June 2005; how many of these have been resolved; and if he will make a statement. [9839]

**Dawn Primarolo:** For requests received and resolved by December 2004 I refer the hon. Gentleman to the answer I gave on 10 January 2005, *Official Report*, column 129W to the hon. Member for Aberdeen, South (Miss Begg).

| | *Cumulative total of requests received* | *Cumulative total of requests resolved* |
|---|---|---|
| March 2005 | 217,000 | 92,000 |
| April 2005 | 249,000 | 124,000 |
| May 2005 | 271,000 | 151,000 |
| June 2005 | 294,000 | 178,000 |

**Mr. Laws:** To ask the Chancellor of the Exchequer how many *(a)* tax credit cases and *(b)* amendments to tax credit cases were calculated clerically in (i) 2003–04 and (ii) 2004–05. [9868]

**Dawn Primarolo:** The information is not available.

**Danny Alexander:** To ask the Chancellor of the Exchequer how many tax credit claimants have had direct payments of tax credits interrupted by the problem affecting the system for making direct payments of tax credits into bank accounts; what action has been taken to address the problem; and when he expects the problem to be resolved. [11788]

**Dawn Primarolo:** There is no problem affecting the system for making direct payments into bank accounts.

There were some delays in payment to new claimants and those reporting changes of circumstances in early April following a routine upgrade to the tax credits computer system. Claimants were able to request interim giro payments in cases of hardship.

**Mr. Laws:** To ask the Chancellor of the Exchequer what discussions he has had with *(a)* Ministers and *(b)* officials from the Department of Health to discuss the impact of the tax credit system on social workers. [11846]

**Dawn Primarolo:** Ministers and officials from a number of Departments regularly discuss issues related to the tax credit system.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) what the largest number of adults residing in a single household in receipt of tax credits was in 2004–05; [13466]

(2) what the largest annual income for a household in receipt of tax credits was in 2004–05; [13469]

(3) what the smallest single tax credit payment was in 2004–05. [13471]

**Dawn Primarolo:** The information requested is not available and could be obtained only at disproportionate cost.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer how many households containing higher rate income taxpayers were in receipt of tax credits in 2004–05. [13473]

**Dawn Primarolo:** We estimate that approximately 300,000 families containing a higher rate income taxpayer were in receipt of tax credits in 2004–05. All of these families received child tax credit only.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what projections he made prior to the launch of the child tax credit and the working tax credit of the number of awards in 2003–04 that would involve *(a)* underpayments and *(b)* overpayments; and what projections he made of the value of these underpayments and overpayments. [13687]

**Dawn Primarolo:** For a projection of the number of awards that may need to be reassessed due to rises in income prior to the introduction of tax credits I refer the hon. Member to page 29 of "The Child and Working Tax Credits. The Modernisation of Britain's Tax and Benefit System. Number Ten". A link of this can be found on HMT website at:

http://www.hm-treasury.gov.uk/media/8D5/BD/new_tax_credits.pdf

**Mr. George Osborne:** To ask the Chancellor of the Exchequer what revisions he has made to the projection in his Department's spring Departmental Report that 97.1 per cent. of new claims, renewals and changes of circumstance within the tax credits system would be decided accurately in 2004–05. [13714]

**Dawn Primarolo:** The final figure is not yet available. The Department will publish final results for 2004–05 in its Annual Report, which will be available on its website at www.hmrc.gov.uk

**Mr. Frank Field:** To ask the Chancellor of the Exchequer how many tax credit awards were reduced in response to an alleged overpayment and subsequently discovered not to have been overpaid in *(a)* 2003–04 and *(b)* 2004–05. [13920]

**Dawn Primarolo:** This information is not available.

**Mr. Frank Field:** To ask the Chancellor of the Exchequer what the *(a)* number and *(b)* value of additional hardship tax credit payments made to tax credit claimants has been since their inception. [13921]

**Dawn Primarolo:** In 2003–04, the Revenue made additional tax credits payments to around 32,500 claimants. In 2004–05, HMRC made additional tax credits payments to around 10,000 claimants.

The total value of the payments was around £26 million.

**Mr. Frank Field:** To ask the Chancellor of the Exchequer how many *(a)* complaints, *(b)* disputed overpayments and *(c)* appeals against Inland Revenue decisions are registered with the tax credits office. [13924]

**Dawn Primarolo:** Currently there are around *(a)* 5,900 complaints *(b)* 108,000 disputed overpayments and *(c)* 5,700 appeals pending at the tax credits office.

**Mr. Laws:** To ask the Chancellor of the Exchequer when he was advised on the legal opinion of Richard Drabble QC on the practice of automatic recovery of overpaid tax credits; when he asked his Department's lawyers for advice; and what action he has taken in response. [8109]

**Mr. Frank Field:** To ask the Chancellor of the Exchequer when HM Revenue and Customs expects to receive the legal advice it has requested on its code of practice on the recovery of overpayment of tax credits. [9948]

**Dawn Primarolo** *[holding answer 5 July 2005]:* It is in the public interest that decisions taken by Government Departments are taken in a fully informed legal context. Government Departments, such as HMRC, therefore regularly need to be able to obtain full and comprehensive legal advice necessary for the effective conduct of public affairs without which the quality of decision-making will be greatly impaired. As with the advice in question, such advice is not routinely brought to the attention of Ministers.

### Tax Returns (MPs)

**Mr. Robathan:** To ask the Chancellor of the Exchequer for what reasons hon. Members are not able to file their tax returns via the internet. [14027]

**Dawn Primarolo:** The vast majority of Self Assessment taxpayers can take advantage of HMRC's online services to file their tax return via the internet. However, a small proportion of SA taxpayers (including MPs) need to complete special dedicated pages. These forms are not available online since it would be disproportionately costly to develop the links to departmental computer systems.

## EDUCATION AND SKILLS

### Adult Education Colleges

**Helen Goodman:** To ask the Secretary of State for Education and Skills (1) what criteria were used for distributing funds to adult education colleges in 2004–05; [10707]

(2) whether she plans to change the *(a)* criteria and *(b)* method for allocating funding for adult education colleges in the next academic year; [10708]

(3) for what reasons funding for adult education colleges has been allocated for only one year; [10709]

(4) what factors affected the timing of the announcement of decisions on allocations of funding for adult education colleges; [10862]

(5) when she expects decisions on allocations of funding for adult education colleges for 2006–07 to be made. [10863]

**Bill Rammell:** The Department allocates funds for post-16 education and training to the Learning and Skills Council (LSC), the body that plans provision and allocates resources to colleges and other providers. Our Grant Letter of 15 November 2004 to the LSC and the White Paper "Skills: Getting on in Business, getting on at work" published in March set out our priorities and the LSC allocate resources to providers to meet our priorities of a place in school, college or on an apprenticeship for all young people, and a focus on adults without a solid foundation of employability skills. Funding is allocated to colleges and other providers on the basis of proven performance in meeting these priorities. Later this year we will publish our annual grant letter outlining our priorities for 2006–07. The notification by the LSC to further education providers of their 2005/06 allocations was in line with the planning timetable set out earlier in the year. We expect the timetable for the planning and budgeting process for 2006/07 to be broadly similar to this year although the LSC expects to begin initial discussions with education providers in September 2005. and other providers. Our Grant Letter of 15 November 2004 to the LSC and the White Paper "Skills: Getting on in Business, getting on at work" published in March set out our priorities and the LSC allocate resources to providers to meet our priorities of a place in school, college or on an apprenticeship for all young people, and a focus on adults without a solid foundation of employability skills. Funding is allocated to colleges and other providers on the basis of proven performance in meeting these priorities. Later this year we will publish our annual grant letter outlining our priorities for 2006–07. The notification by the LSC to further

education providers of their 2005/06 allocations was in line with the planning timetable set out earlier in the year. We expect the timetable for the planning and budgeting process for 2006/07 to be broadly similar to this year although the LSC expects to begin initial discussions with education providers in September 2005.

### Apprenticeships

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills if she will list the *(a)* companies in receipt of funds from the Learning and Skills Council for participating in the Apprenticeship scheme and *(b)* amounts received in each year for which figures are available. [14843]

**Phil Hope:** The Learning and Skills Councils contracts with learning providers, some of whom are employers, to deliver work based learning programmes including Apprenticeships. The full list of all providers for the 2004/05 academic year and the amount of their funding has been published on the LSC website at:

www.lsc.gov.uk/National/Documents/SubjectListing/FundingLearning/FurtherEducation/WBL_allocations.htm.

Details for previous years are not available.

### Bullying

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many incidents of bullying of children have been reported in *(a)* Essex and *(b)* the Metropolitan Police area of London (i) at primary schools and (ii) in post-primary education in the last three years, broken down by (A) local authority and (B) category of bullying; and how many incidents took place on public transport to or from school in each case. [14131]

**Jacqui Smith:** As data on bullying is not collected centrally we do not have statistics relating to the incidence of bullying at primary or post-primary level in Essex and London. Bullying cases appear to be reported more often now than previously but we have no hard evidence that bullying is increasing or that it is affecting more children. Indeed, as children and young people increasingly feel safe at school to report bullying, and confident that it will be tackled effectively and sensitively, it is likely reporting will rise. However, any level of bullying is too high and we are determined to help schools tackle the problem. Our guidance pack "Bullying: Don't Suffer in Silence", the anti-bullying Charter and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. We also offer specific advice to schools on tackling homophobic bullying and are developing advice on racist bullying.

We have raised awareness of the importance of children who are being bullied telling an adult about what is happening, through our public information film "Tell Someone" and our leaflets and postcards for children and their parents. Our recent "Beat Bullying" blue wristband campaign was launched in partnership with Radio One, during the first national anti-bullying week in November 2004. By the end of December, one million children and young people had answered our call to "Make a Stand, Wear a Band" and make a visible commitment that they are not prepared to tolerate bullying and will stand by their friends.

### Children's Academic Achievement

**Mr. Ian Austin:** To ask the Secretary of State for Education and Skills what research she has evaluated on whether there is a relationship between the number of hours spent watching television and children's academic achievement. [12621]

**Beverley Hughes:** The Department has not commissioned any research on the relationship between the number of hours spent watching television and children's academic achievement However, current international research evidence points to the following:

Watching good quality educational programming in the early years can benefit children's language development, in the right conditions.

Conversely, extensive viewing of age-inappropriate or entertainment programming can hinder language development.

In addition, television viewing before age three has been shown to have a modest adverse effect on cognitive outcomes at age six and seven.

Increased television viewing by children has a long-lasting association with a higher chance of having no formal qualifications by the age of 26.

Other learning activities such as reading may be displaced by television viewing.

Having a television in the bedroom is negatively associated with test scores for children aged 8.

The American academy of paediatrics recommends that children watch a maximum of two hours of quality programming per day. The National Literacy Trust's "Talk To Your Baby" campaign recommends no more than half-an-hour for under twos, and one hour for three to five-year-olds.

### Classroom Behaviour

**Mr. Amess:** To ask the Secretary of State for Education and Skills what assistance her Department *(a)* is giving and *(b)* plans to give during the next 12 months to schools in Southend to promote good behaviour in the classroom. [14305]

**Jacqui Smith:** Our Secondary Strategy will continue to give all secondary schools in Southend access to high-quality behaviour management training materials and support from a DFES-funded behaviour management consultant. Our Primary Strategy will continue to give all primary schools in Southend access to high-quality training and curriculum materials to improve children's social, emotional and behavioural skills. In addition:

our Excellence in Cities programme will continue to provide Southend with extra funding (£1.6 million for the 2005–06 school year), about half of which can be used to fund Learning Mentors and Learning Support Units in schools in the Southend Excellence Cluster; and

our Behaviour Improvement Programme is now providing Southend with further additional funding (£780,000 for the 2005–06 school year) to support selected schools facing the greatest behaviour challenges.

### Deprived Children

**Bill Wiggin:** To ask the Secretary of State for Education and Skills what estimate she has made of

the percentage of children classed as deprived using the index of multiple deprivation who do not attend school. [13640]

**Jacqui Smith:** None. Information is not centrally available on pupil attendance classified by the Index of Multiple Deprivation.

### Drinking Water

**Joan Walley:** To ask the Secretary of State for Education and Skills (1) what assessment her Department has made of the health benefits to pupils and staff of providing fresh drinking water throughout the school day; [13679]

(2) what steps her Department takes *(a)* to inform local education authorities, *(b)* governors and *(c)* schools of their responsibility for the provision of fresh drinking water to children and staff throughout the school day; [13680]

(3) what assessment she has made of the increased requirement for access to fresh drinking water for pupils arising from the extension of the school day from eight to six o'clock. [13683]

**Jacqui Smith:** We are aware of the importance of school children drinking water during their working day and the benefits that it brings. For the last three years both the Department of Health and Department for Education and Skills have been working on a food in schools programme that aims to help schools implement a whole school approach to food education and healthy eating. The interactive food in schools toolkit which can be viewed at www.foodinschools.org, provides a wide range of guidance, resources and interactive tools to inspire and support schools in taking a whole school approach to healthy eating and drinking, including water provision.

The "water provision" guidance supports schools in reviewing and improving current provision and in promoting water consumption. The guidance has been informed by the food in schools water provision project, which was piloted in 40 schools in the North East and East Midland region.

Cross Government working between the DfES, Department of Environment, Farming and Rural Affairs (DEFRA), Department of Health (DoH) and the Food Standards Agency (FSA), on ways to increase awareness of the importance of food and drink within the school environment resulted in the publication on 6 September 2004 of the "Healthy Living Blueprint for Schools".

The blueprint, issued to all schools, brings together all Government advice and examples of best practice about healthy eating and drinking in schools. It provides schools with advice on what they can do to improve children's approach to food and drink and exercise, and shows how developing whole school approaches can help bring about significant improvements to the health of children.

"Healthy School Lunches Guidance", published by the DfES, contains the Secretary of State's expectation that drinking water should be available to all pupils every day, free of charge. This view is mirrored in the "Healthy Living Blueprint for Schools", which states that,

> "all pupils should have access to drinking water at all times at a number of points around the school, preferably not from taps in the toilets. Pupils should be permitted to carry water with them and consumption encouraged both in class and during break and lunch time".

However, it is the responsibility of head teachers and school's governing bodies to decide when water should be made available. We consider that they are best placed to make these decisions in their role of having responsibility of the day-to-day running of the school and with their knowledge of the individual circumstances of their pupils.

**Joan Walley:** To ask the Secretary of State for Education and Skills what steps her Department plans to take to ensure that local education authorities and individual schools raise the standard of their drinking water facilities. [13681]

**Jacqui Smith:** We have already issued design guidance for new school buildings in the May 2003 revision of Building Bulletin 87 "Guidelines for Environmental Design in Schools", which can be downloaded from www.teachernet.gov.uk/energy. We are also producing a joint publication on Sustainable Water Management in Schools with the Environment Agency and DEFRA to be published in October 2005. Finally we will be revising the School Premises Regulations to give more specific guidance on drinking water.

**Joan Walley:** To ask the Secretary of State for Education and Skills what additional funding is available to schools unable to refurbish or upgrade drinking water facilities due to lack of resources. [13682]

**Jacqui Smith:** We allocate capital funding directly to local authorities and schools and do not hold back reserves to respond to requests for individual projects. We expect local authorities to prioritise expenditure in their locally prepared asset management plans, which should be drawn up in consultation with their schools and local partners. In addition, schools are allocated their own Devolved Formula Capital which can be spent on upgrading water facilities, if that is their priority.

Stoke-on-Trent local authority and its schools have so far been allocated £33.2 million capital funding in the three years 2003–04 to 2005–06. Within this figure, Devolved Formula Capital of £11.1 million has been allocated directly to schools.

### Education Funding

**Mr. Michael Foster:** To ask the Secretary of State for Education and Skills what the total recurrent funding per pupil was for each local education authority for years 1998–99 to 2005–06 in 2005–06 real terms. [11829]

**Jacqui Smith:** Total funding includes funding via education formula spending (EPS)/standard spending assessment and revenue grants allocated at an LEA level. It excludes the pensions transfer to EFS and the Learning and Skills Council, and is in real terms.

These figures use the latest GDP deflators provided by the Office for National Statistics as at 30 June 2005, which are based on 2004–05 prices.

*Real terms total revenue funding per pupil aged 3–19, (£), by LEA*[1]

[1] Pensions not included 2003–04 to 2005–06.

*Notes:*

1. Price Base: Real terms.
2. Figures reflect relevant sub-blocks of the education formula spending settlement and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19, and exclude EMAs and grants not allocated at LEA level. For those LEAs in receipt of advance of grant under the transitional support arrangements for 2004–05, advance grant funding is included in the year of payment (2004–05). There will be a consequential reduction in DfES grant for these LEAs in future years (either 2006–07 and 2007–08 or 2006–07 to 2008–09, depending on the terms on which the advance was given to the LEA).
4. The pupil numbers used to convert m figures to per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: Per pupil figures are rounded to the nearest £10. Total allocation figures are rounded to the nearest £10 million.
6. Status: 2003–04 to 2005–06 figures are provisional as some grants have not yet been finalised/audited.

**Mr. Maude:** To ask the Secretary of State for Education and Skills how much funding has been *(a)* spent on and *(b)* committed to education schemes within each growth area. [13790]

**Jacqui Smith:** Education is funded on a local authority basis, not by Growth Area. The table shows the amounts allocated for education since 2002–03 for each local education authority which includes a locality within the four Growth Areas. Growth Areas may include only part of a local education authority, therefore the figures shown in the table may not match the actual amounts spent in those areas.

[1] Only Epping Forest, Uttlesford, Braintree, and Harlow are part of the Growth Area.
[2] Only Broxbourne, East Hertfordshire, North Hertfordshire, and Stevenage are part of the Growth Area.
[3] Only Aylesbury Vale is part of the Growth Area.
[4] The Growth Area only covers Ashford.
[5] Only Basildon, Castle Point and Rochford are part of the Growth Area.
[6] Only Dartford, Gravesham and Swale are part of the Growth Area.

*Notes:*
*Recurrent:*
Cash Terms. Figures from 2003–04 include the pensions transfer to EFS and LSC, the 2002–03 figures have not been adjusted.
Figures reflect relevant sub-blocks of education Standard Spending Assessment (SSA)/Education Formula Spending (EFS) settlements.
Cash figures from 2003–04 include the pensions transfer to EFS and LSC, the figures prior to 2002–03 have not been adjusted.
Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3–19 and exclude EMAs and grants not allocated at LEA level. For those LEAs in receipt of advance of grant under the transitional support arrangements for 2004–05, advance grant funding is included in the year of payment (2004–05). There will be a consequential reduction in DfES grant for these LEAs in future years (either 2006–07 and 2007–08 or 2006–7 to 2008–9, depending on the terms on which the advance was given to the LEA).
Where responsibility for funding a school has transferred from an LEA, related funding no longer appears in the series.
Rounding: Figures are rounded to the nearest £0.1 million.
Status: 2003–04 to 2005–06 figures are provisional as some grants have not yet been finalised/audited.
*Capital*
The figures represent all capital funding streams, including grant, Private Finance Initiative and supported borrowing in respect of capital.

### Education (Milton Keynes)

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills how many children of school age in Milton Keynes are not attending either a state or independent school. [13995]

**Jacqui Smith:** The information requested is shown in the table.

*Pupils educated otherwise than at school under arrangements made by the local education authority[1] as at January 2005*

| | *England* | *Milton Keynes local education authority* |
|---|---|---|
| Pupils in hospital[2] | 243 | 0 |
| Other pupils not in school[3] | 16,741 | 197 |
| Total pupils not in school | 16,984 | 197 |

[1] Pupils of compulsory school age (5–15) as at 31 August 2004.
[2] Includes non-statemented pupils in hospital excluding pupils in maintained general hospital or special hospital schools.
[3] Includes other pupils not in school e.g. pupils taught at home, Traveller children, asylum seekers at FE colleges or with voluntary sector providers.

*Source:*
8B Survey

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills how many *(a)* full-time teachers, *(b)* full-time equivalent teachers and *(c)* full-time equivalent teaching assistants there were in Milton Keynes in (i) 1985 and (ii) the last year for which figures are available. [12918]

**Jacqui Smith:** In January 2004, the latest year available, there were 1,870 full-time and 2,040 full-time equivalent number of full and part-time regular teachers and 530 full-time equivalent number of teaching assistants in service in Milton Keynes local education authority. This information is not available for 1985. Milton Keynes local education authority was created in April 1997. In January 1998 the earliest information available there were 1,620 full-time, 1,730 full-time equivalent and 260 full-time equivalent number of teaching assistants in service in the authority.

### Emergency Contraception

**Mr. Amess:** To ask the Secretary of State for Education and Skills (1) what measures are in place to ensure that girls aged under 16 years are properly supervised when taking emergency contraception [12781]

(2) if she will list the schools in Southend that allow emergency contraception to be distributed to children at that school without parental knowledge or consent; [12782]

(3) how many times school nurses in Southend have issued emergency contraception in each of the last five years for which figures are available; [12783]

(4) how many girls in Southend have been given emergency contraception by school nurses in each of the last five years for which figures are available, broken down by the age of the girl; [12784]

(5) what guidance she has given to schools regarding the potential liability of *(a)* school governors, *(b)* teachers, *(c)* head teachers and *(d)* other school staff in the event of possible adverse consequences following emergency contraception being provided to girls under the age of 16 years by school staff or on school premises without the consent of parents; [12785]

(6) what guidance she has given schools regarding the possible adverse consequences of emergency contraception being provided to girls under the age of 16 years by school staff or on school premises. [12786]

**Beverley Hughes:** Provision of emergency contraception is always by a health professional under medical supervision. This includes community and school nurses and community pharmacists, working to Patient Group Directions (a written instruction for the supply or administration of medicines to groups of patients without an individualised doctor's prescription). Emergency contraception cannot be provided by non-health professionals.

Health professionals can provide contraception to young people aged under 16 provided they are satisfied that the young person is competent to understand fully the implications of any treatment and to make a choice of the treatment involved. Health professionals work within an established legal framework which involves assessing the young person's competence to understand the choices they are making and encouraging them to talk to their parents.

The decision on whether to provide school-based health advice services and the scope of the service is for each individual governing body, in consultation with parents, teachers and the wider school community. There is no requirement on schools to provide data for central collection.

### Employer Training

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills (1) what proportion of the employer training pilots were delivered successfully by the *(a)* private and *(b)* public sectors; [13896]

(2) whether contracts for the national employer training programme will be open to providers from the *(a)* private and *(b)* public sectors; and whether part of the budget will be ring-fenced for public sector providers; [13897]

(3) if she will make a statement on the relative emphasis of the employer training pilots between *(a)* increasing the number of employees with NVQ qualifications and *(b)* ensuring that employees meet a skills demand. [13970]

**Phil Hope:** Figures provided by the Learning and Skills Council (LSC) show that as of July 2005, 31 per cent. of learners participating in employer training pilots have their learning delivered by colleges of further education and 69 per cent. delivered by independent providers.

As we announced in our White Paper, "Skills: Getting on in business, getting on at work", the national employer training programme (NETP) will offer employers informed choice between quality-assured training providers. This is an essential part of putting the employer in a position where, in effect, they are able to make the purchasing decision about what training they get. Brokers, acting on behalf of the employer, will be able to source training from any LSC-approved provider, whether colleges or other providers.

We are continuing to work closely with the LSC on the details of NETP funding and how it will be allocated to providers in the context of agenda for change. We cannot give precise details about allocations to providers until this work is complete.

The emphasis of employer training pilots (ETPs) has been to encourage employers to invest in skills and qualifications, particularly for low skilled trainees. They are testing out a package of public financial support measures to improve access to training and enable employees to attain Skills for Life and/or their first full NVQ level 2 qualification.

At the end of June 2005, the pilots had signed up 23,101 employers and 184,198 employees, and 68,902 learners had successfully completed their learning.

As with the pilots, the core of the national employer training programme will be free, high quality training for employees who lack basic skills in literacy, language and numeracy or a first full Level 2 qualification. Beyond that core of free training up to Level 2, employers will be able to access more comprehensive training packages to meet their wider needs, including at Level 3 and higher, and non-qualification based training. As part of the partnership between Government and the employer in raising investment in skills, we will look to employers to pay a fair contribution towards the cost of this wider training.

### Language Learning

**Mr. Amess:** To ask the Secretary of State for Education and Skills how many primary schools in Southend offered language learning opportunities in each of the last five years; and in which languages. [14304]

**Jacqui Smith:** This information is not part of the Department's statutory annual data collection. However, research carried out for the DFES in 2002–03 showed that 44 per cent. of schools teaching pupils aged seven to 11 offered some form of language learning, 35 per cent. of which took place in curriculum time. This is up from 21 per cent. of schools offering some form of language learning in 2000, and we expect that number will have increased again significantly last year. Our research showed that French is the language most commonly taught, followed by Spanish, German and Italian. 28 LEAs reported other languages being taught.

We know from our key stage 2 language Pathfinders that a wide range of languages are now being taught at primary schools, including community and other world languages.

## Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Education and Skills what her Department's total spending on management consultants has been in each of the last three years. [13154]

**Bill Rammell:** The Department for Education and Skills spent the following sums from administration costs for the periods in question—£4.0 million in 2002–03; £4.7 million in 2003–04 and £3.9 million in 2004–05. The total cost of consultants charged to programmes from November to March 2004–05 was £4.4 million. The cost charged to programmes before November 2004 was not recorded centrally and could be provided only at disproportionate cost. These figures relate to all forms of consultancy. Figures for management consultants could be extracted only at disproportionate cost.

## Mathematics

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the answer of 11 July 2005, *Official Report*, column 841W, on mathematics, how many pupils sat GCSE AS level examinations in mathematics in each year since 1995. [13288]

**Jacqui Smith:** The following table gives the number of GCE Advanced Subsidiary and Advanced Supplementary mathematics candidates aged 16–18 in all schools and colleges 1994/95 to 2003/04.

| | *Advanced subsidiary* | *Advanced supplementary* |
|---|---|---|
| 2003/04 | 52,649 | — |
| 2002/03 | 58,045 | — |
| 2001/02 | 58,155 | — |
| 2000/01 | 52,091 | 8,704 |
| 1999/2000 | — | 11,839 |
| 1998/99 | — | 11,826 |
| 1997/98 | — | 11,849 |
| 1996/97 | — | 11,302 |
| 1995/96 | — | 11,585 |
| 1994/95 | — | 8,003 |

The Advanced Supplementary examination was discontinued as part of the Qualifying for Success reforms.

**Mr. Gibb:** To ask the Secretary of State for Education and Skills pursuant to the answer of 4 July 2005, *Official Report*, column 175W, on approved qualifications, how many pupils were entered for each Level 3 qualification classified within the subject sector category Mathematics and Statistics in 2003–04. [13289]

**Jacqui Smith:** The number of pupils entered for Mathematics and Statistics GCE A and AS Levels in 2003/04 were as follows.

| | *Edexcel* | *OCR* | *AQA* | *WJEC* |
|---|---|---|---|---|
| *GCE A Level entries for 16 to 18-year-old students* | | | | |
| Mathematics | 19,672 | 18,200 | 7,383 | 69 |
| Mathematics (Pure) | 58 | 7 | 64 | 0 |
| Mathematics (Statistics) | 44 | 0 | 483 | 0 |
| Mathematics (Further) | 2,300 | 2,113 | 694 | 4 |
| Additional Mathematics | 0 | 37 | 0 | 0 |
| Total | 22,074 | 20,357 | 8,624 | 73 |
| *GCE AS Level entries for 16 to 18-year-old students* | | | | |
| Mathematics | 4,961 | 3,944 | 9,041 | 23 |
| Mathematics (Mechanics) | 238 | 52 | 0 | 0 |
| Mathematics (Pure) | 373 | 54 | 80 | 0 |
| Mathematics (Discrete) | 22 | 7 | 0 | 0 |
| Mathematics (Applied) | 15,569 | 14,378 | 278 | 61 |
| Mathematics (Statistics) | 639 | 396 | 864 | 0 |
| Mathematics (Further) | 905 | 1,017 | 632 | 1 |
| Additional Mathematics | 0 | 57 | 0 | 0 |
| Total | 22,707 | 19,905 | 10,895 | 85 |

**Mr. Clappison:** To ask the Secretary of State for Education and Skills how many mathematics graduates entered the teaching profession in each year since 1975; and how many left in the same period. [8720]

**Jacqui Smith:** The following table gives the number of teachers gaining qualified teacher status in secondary post graduate mathematics, identifying those who have mathematics named as the subject of their first degree, and the numbers who reported that they had entered teaching service straight away. This information is not available prior to 1998/99.

No information is available for the number of mathematics graduate teachers leaving service.

*Teachers successfully completing postgraduate initial teacher training (ITT) in mathematics*

| 1999/2000 | 920 | 760 | 480 | 410 |
| 2000/01 | 860 | 750 | 450 | 390 |
| 2001/02 | 970 | 840 | 450 | 400 |
| 2002/03 | 1,140 | 920 | 520 | 420 |
| 2003/04[6] | 1,420 | 1,200 | 670 | 590 |

[1] Secondary ITT completers include those qualifying at key stage 2/3.

[2] Figures exclude teachers attaining qualified teacher status through undergraduate and employment based routes, (EBR) but include School Centred Initial Teacher Training (SCITTs). Limited information is available for those attaining ITT through EBR from 2001/02 and show that of those qualifying in secondary maths 130 had a maths degree in 2001/02, 250 in 2002/03 and 320 in 2003/04. The employment status of these teachers is unknown.

[3] A large proportion of mathematics ITT completers without a first degree in the subject have a degree in a related subject or a degree where mathematics was a significant element of their course.

[4] Some mathematics graduates may complete their ITT in other subjects. These have not been included.

[5] Those teachers who reported that they were in teaching service within 6 months of completion of ITT.

[6] Full 2003/04 ITT performance profiles information is due to be published on 22 July 2005 by the TTA.

*Note:*
Figures have been rounded to the nearest 10.

Teacher Training Agency, (TTA) Performance Profiles.

### Protected Teacher Preparation Time

**Mr. Burstow:** To ask the Secretary of State for Education and Skills (1) what representation her Department has received about the adequacy of the resources allocated to implement the requirements for protected teacher preparation time; [13532]

(2) what assessment has been made of the adequacy of the resources allocated to implement the requirements for protected teacher preparation time. [13533]

**Damian Green:** To ask the Secretary of State for Education and Skills what representations she has received about the effect of school work force reform on funding arrangements for schools in Kent; and if she will make a statement. [12925]

**Jacqui Smith:** Last year we worked with a balanced sample of six LEAs and about a dozen schools in each to assess the costs of implementing PPA time. It was as a result of that work that the minimum funding guarantee was set at 5 per cent. for primary and nursery schools and 4 per cent. for secondary and special schools. The funding settlement was welcomed by members of the Workforce Agreement Monitoring Group, including all representatives of head teachers.

We receive representations from time to time on various issues related to work force reform. Work force reform is about ensuring that teachers are able to spend more time on their core professional responsibilities—that means that it represents good news for pupils and parents. The view of all the signatories to the national agreement on work force reform is that there is enough money in the system for all schools to implement this reform in full.

The signatories to the national agreement are: Association of Teachers and Lecturers (ATL), Department for Education and Skills (DfES), GMB, National Association of Schoolmasters Union of Women Teachers (NASUWT), National Employers Organisation for School Teachers (NEOST), Professional Association of Teachers (PAT), Secondary Heads Association (SHA), the Transport and General Workers Union (TGWU), UNISON and the Welsh Assembly Government.

### Pupil Exclusions

**Alison Seabeck:** To ask the Secretary of State for Education and Skills how many permanent and fixed exclusions were made from pupil referral units in each local education authority for *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [13363]

**Jacqui Smith:** Information on exclusions made from pupil referral units was collected for the first time in summer 2003 and so is not available for 2001–02 and 2002–03.

Information on the number of permanent and fixed period exclusions from pupil referral units in 2003–04 is shown in the following table.

*Pupil referral units: Number of fixed period and permanent exclusions 2003–04 by local education authority area, by Government Office region in England.*

[2] No pupil referral units in LEA.

## School Building Maintenance

**Mr. Lancaster:** To ask the Secretary of State for Education and Skills what estimate has been made of the requirement for school building maintenance for *(a)* primary, *(b)* secondary and *(c)* other schools in North East Milton Keynes constituency in the last five years, expressed at current prices. [12919]

**Jacqui Smith:** Data on school buildings maintenance need has been supplied to the Department twice; firstly in 2000–01 and secondly in 2003. For primary, secondary and other schools in North East Milton Keynes, the 2000–01 data showed £4,014,000, £5,114,000 and £2,465,000 respectively. The 2003 data showed £2,920,000, £3,938,000 and £1,422,000 respectively. Costs have been updated to current costs. In addition to backlog repair work, the figures cover work needed over a five-year period from the dates of the assessments, including cyclical and scheduled maintenance.

Central Government capital support for investment in schools has increased from under £700 million in 1996–97 to £5.5 billion this year and will rise further to £6.3 billion by 2007–08. Progress is being made year-by-year in improving the quality of the school building stock.

## Secondary School Places

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills how many places were available in *(a)* wholly selective and *(b)* partially selective secondary schools in England in each year since 1997; and how many applications for these places there were in each year. [11551]

**Jacqui Smith** *[holding answer 18 July 2005]:* The available information on school places is shown in table 1. The capacity figures are taken from the surplus places survey. The survey does not identify selective and non-selective schools. There is no data available for 2002 as the survey was not carried out in this year. 2005 data is currently being collected from local education authorities.

Information showing the number of pupils in wholly selective (grammar) schools and other maintained secondary schools is provided table 2. The Department does not hold information on schools that are partially selective.

*Table 1: Maintained secondary schools: Capacity figures—England*

| | Capacity |
|---|---|
| 1997[1] | 3,271,363 |
| 1998[1] | 3,025,527 |
| 1999[1] | 3,341,929 |
| 2000[1] | 3,354,301 |
| 2001[1] | 3,356,438 |
| 2002 | n/a |
| 2003[2] | 3,455,993 |
| 2004[2] | 3,468,561 |
| 2005 | n/a |

n/a = not available.
[1] 1997 to 2001 capacity figures calculated using more open enrolment formula.
[2] 2002 to 2004 capacity figures calculated using net capacity measure.
*Source:*
Surplus Places Survey

*Table 2: Maintained secondary schools: number (headcount) of pupils in grammar schools and other secondary schools—England*

| | Maintained secondary schools | | |
|---|---|---|---|
| *Position as at January each year* | *Grammar schools*[1] | *Other secondary schools*[2] | *Total* |
| 1997 | 128,710 | 2,912,870 | 3,041,580 |
| 1998 | 130,320 | 2,942,510 | 3,072,820 |
| 1999 | 140,880 | 2,981,020 | 3,121,900 |
| 2000 | 145,280 | 3,036,540 | 3,181,810 |
| 2001 | 146,540 | 3,085,290 | 3,231,830 |
| 2002 | 148,560 | 3,115,530 | 3,264,090 |
| 2003 | 150,750 | 3,157,280 | 3,308,030 |
| 2004 | 152,610 | 3,172,340 | 3,324,950 |
| 2005[3] | 154,070 | 3,158,100 | 3,312,160 |

[1] Grammar schools were designated by Order in 1999, prior to that schools designated themselves in returns to the Department.
[2] Includes middle schools as deemed.
[3] Provisional.

*Note:*
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.
*Source:*
Annual Schools' Census

Information on the number of applications for places in schools is not collected centrally.

### Television

**Keith Vaz:** To ask the Secretary of State for Education and Skills what assessment she has made of the impact of excessive television watching on children's learning progress; and what representations she has received on this subject. [11557]

**Beverley Hughes:** The Department has not assessed the impact of excessive television watching on children's learning progress. My right hon. Friend the Secretary of State, has not had any meetings on this issue. However, current international research evidence points to the following:

Watching good quality educational programming in the early years can benefit children's language development, in the right conditions.

Conversely, extensive viewing of age-inappropriate or entertainment programming can hinder language development.

In addition, television viewing before age 3 has been shown to have a modest adverse effect on cognitive outcomes at age 6 and 7.

Increased television viewing by children has a long-lasting association with a higher chance of having no formal qualifications by the age of 26.

Other learning activities such as reading may be displaced by television viewing.

Having a television in the bedroom is negatively associated with test scores for children aged 8.

The American Academy of Paediatrics recommends that children watch a maximum of 2 hours of quality programming per day. The National Literacy Trust's Talk To Your Baby campaign recommends no more than half-an-hour for under 2s, and one hour for 3–5 year olds.

## INTERNATIONAL DEVELOPMENT

### Sudan

**Andrew George:** To ask the Secretary of State for International Development whether the G8 countries have reached agreement on the prosecution of war criminals from Darfur by the International Criminal Court [13076]

**Ian Pearson:** I have been asked to reply.

United Nations Security Council Resolution (UNSCR) 1593 of 31 March—sponsored by the UK—referred the situation in Darfur to the International Criminal Court (ICC). The ICC Prosecutor announced his intention to launch a formal investigation into Darfur on 6 June. At the G8 Summit on 6–8 July, G8 leaders called on the Government of Sudan to comply with UNSCR 1593 which places a legal obligation on Sudan to co-operate with the ICC. They also called for the Government of Sudan to apprehend and bring to justice those responsible for violations of human rights; and to disarm the Janjaweed and other militias.

## CABINET OFFICE

### GM Crops

**Mr. Meacher:** To ask the Chancellor of the Duchy of Lancaster what contingency plans the Government have in place to deal with contamination, either by accident or by terrorist action, of imported food and animal feed with potentially harmful biopharmaceutical GM crops. [11821]

**Caroline Flint:** I have been asked to reply.

Imported food and animal feed are subject to checks carried out on the basis of risk assessment by local port health authorities at the point of entry into the United Kingdom. Routine checks are carried out to screen for the presence of genetically modified materials in feed.

Statutory powers exist under general food law and under the Food and Environment Protection Act (1985) to remove contaminated products from the market or to restrict the movement of products from a designated area.

## LEADER OF THE HOUSE

### Correspondence

**Mr. Burstow:** To ask the Leader of the House how many letters to his Office from hon. Members in session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13844]

**Mr. Hoon:** No letters to my Office from hon. Members for the session 2004–05 remain unanswered, and 94 per cent. of letters requiring a reply were answered within our target of 15 working days.

For the current session 10 letters remain unanswered which are under one month old. We expect to answer these within our 15 working day target.

### Parliamentary Questions

**Norman Baker:** To ask the Leader of the House if he will make representations to the Procedure Committee to examine changing the rules of the House to allow written parliamentary questions to be tabled and answered in recesses within the same guidelines which apply when the House is sitting. [14103]

**Mr. Hoon:** I have no current plans to propose changes to long-established practice in this respect.

**Mr. Burstow:** To ask the Leader of the House what systems his Office has put in place to monitor the length of time taken by each Government Department to answer individual parliamentary questions. [14439]

**Mr. Hoon:** My Office takes an active role in encouraging good practice among Departments in answering parliamentary questions, and co-operates closely with the Cabinet Office in ensuring that appropriate and up-to-date guidance is available.

Ministers are responsible for ensuring that they respond to parliamentary questions in a timely manner. Ordinary written questions should be answered within five days and named day questions on the day named.

## CULTURE, MEDIA AND SPORT

### Advertising Costs

**Mr. Burstow:** To ask the Secretary of State for Culture, Media and Sport how much the *(a)* Department and *(b)* non-departmental bodies for which the Department is responsible has spent on advertising, broken down by media type in the last three years. [9497]

**Mr. Caborn:** A breakdown of the Department's spend on advertising over the past three years broken down by media type is as follows:

| | *Campaign* | *Media type* | *£* |
|---|---|---|---|
| 2003–04 | BBC Charter review | Press | 4,855 |
| | BBC Charter review | Radio | 16,132 |
| 2004–05 | BBC Charter review | Press | 37,085 |
| 2005–06 | Licensing 1st phase | Press | 29,422 |
| | Licensing 2nd phase | Press | [1]100,000 |

[1] Estimated.

The amount spent on advertising by our non-departmental bodies over this period can be answered only at disproportionate cost.

### Audio Recordings

**Mr. McGovern:** To ask the Secretary of State for Culture, Media and Sport what plans she has to increase the duration of copyright on audio recordings to 100 years; and if she will make a statement. [13509]

**Alan Johnson** *[holding answer 19 July 2005]:* I have been asked to reply.

I refer my hon. Friend to the answer I gave to the hon. Member for Maldon and East Chelmsford (Mr. Whittingdale) on 27 June 2005, *Official Report*, column 1228W.

### Awards for All Grants

**Jim Sheridan:** To ask the Secretary of State for Culture, Media and Sport which community organisations in Paisley and Renfrewshire North have received awards for all grants since 1999. [14149]

**Mr. Caborn:** Data regarding the new constituency boundaries in Scotland are not yet available to the Department. As soon as it becomes available I shall write to my hon. Friend the Member for Paisley and Renfrewshire North with the information requested and place copies in the Libraries of both Houses.

### BBC

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received about effects on the coverage of parliamentary affairs of changes in job numbers at the BBC. [12411]

**James Purnell:** I have not received any representations about the effects of the BBC's value for money plans on its coverage of parliamentary affairs. However, I understand that the BBC does not expect its plans to adversely affect its parliamentary coverage.

### Best Practice Guidance for Tourism

**Mr. Betts:** To ask the Secretary of State for Culture, Media and Sport what representations she has received from industry on the draft best practice guidance for tourism. [14415]

**James Purnell:** My Department has actively sought representations from the tourism, attractions, and hospitality sectors, on the Office of the Deputy Prime Minister's, planning for tourism, good practice guidance. These representations have been made through the tourism review and implementation group which I chair.

Following our engagement, the Office of the Deputy Prime Minister has recently indicated that it will re-work the guidance over the summer taking into account industry views.

### Bike Trails

**Mr. Austin Mitchell:** To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to encourage tourists to visit mountain bike trail sites. [14746]

**James Purnell:** My Department supports the English and British tourism sector through VisitBritain. VisitBritain regularly highlights Britain's off-road cycling facilities to all tourists through its promotional materials and campaigns. Mountain biking features strongly in VisitBritain's new "Outdoor England" campaign, which encourages domestic tourists to take advantage of Britain's countryside offer. Further information can be found on the website www.enjoyengland/outdoor.

### Canoeing

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to promote the sport of canoeing in England and Wales. [14868]

**Mr. Caborn:** The Government, though Sport England, is playing a key role in promoting canoeing by its continued investment in the sport. Also, Sport England, Defra and its agencies, are continuing to work with the British Canoe Union, the sport's National Governing Body, to promote canoeing and have put in place a number of measures to increase both the profile of the sport and improve the opportunities for people to participate.

These include Defra commissioning four demonstration projects to develop and pilot best practice for access agreements for canoeists on key stretches of water in England and Ministers from both DCMS and Defra writing to members of local access

forums throughout England inviting their views on improving recreational access for sport and recreational activities such as canoeing.

### Casinos

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the merits of including the north east of England in the regional casino pilot study. [13982]

**Mr. Caborn:** My right hon. Friend the Secretary of State is currently establishing an independent casino advisory panel to assist her in the exercise of her order making powers under section 175(4) of the Gambling Act 2005 to determine the geographical distribution of the new casino premises licences. The casino advisory panel will consider submissions from local authorities wishing to issue premises licences for regional, large or small casinos. Any local authority in the north east that wants to, will have the opportunity to put its case to the panel in due course.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport when she expects to decide on the location of the regional casino pilot; and what the relationship is between the regional spatial strategies of the Office of the Deputy Prime Minister and decisions on regional casino pilots. [13983]

**Mr. Caborn:** The regional planning bodies, as part of their revision of regional spatial strategies, will need to identify a list of possible broad locations for regional casinos in their region. The primary requirement for the advisory panel is to ensure that the locations chosen are suitable for testing the social impact of the new style casinos. Subject to that, the Secretary of State will expect the casino advisory panel to ensure that its recommendations are compatible with the broad locations identified in the regional spatial strategies.

The panel is expected to complete its work towards the end of 2006. The current intention is that the Secretary of State will bring an order before Parliament determining the geographical distribution of casino premises licences during the first half of 2007. The order will be subject to the affirmative resolution procedure.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what research her Department has conducted on the regeneration impact of regional casinos; and what assessment she has made of in which region the impact would be greatest. [13991]

**Mr. Caborn:** One of the criteria that the casino advisory panel will consider in finalising its recommendations to the Secretary of State is the need to include areas in need of regeneration (as measured by employment and other social deprivation data) and which are likely to benefit in these terms from a new casino.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what issues she will consider when making her assessment of the regional casino pilot. [14159]

**Mr. Caborn:** We will principally want to consider, with the advice of the Gambling Commission, whether the introduction of the new regional, large and small casinos has led to an increase in problem gambling or is increasing that risk. We will also want to assess what the regeneration and other economic outcomes have been.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the range of different types of location of casinos that need to be considered in undertaking a trial of the potential advantages and disadvantages of regional casinos. [14161]

**Mr. Caborn:** We will ask the independent casino advisory panel, when recommending areas for new casinos, to identify those which will provide a good range of types of areas, and a good geographical spread. The types of location might, for example, include urban centres and seaside resorts which need regeneration.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what discussions she has held with the Gambling Commission concerning the Commission's duty to advise the Government on the effect on problem gambling of the introduction of new types of casinos; and what advice she has received regarding the suitability of the single regional casino pilot for an assessment of the effect of such casinos on problem gambling. [14162]

**Mr. Caborn:** Officials are in regular contact with the Gaming Board of Great Britain, who are developing plans for the establishment and operation of the Gambling Commission. These plans will reflect the Commission's duty to advise the Secretary of State about the effects of gambling generally, and my right hon. Friend's specific request for advice on whether the introduction of new types of casinos has led to an increase in problem gambling or is increasing that risk.

**Mr. Nicholas Brown:** To ask the Secretary of State for Culture, Media and Sport what the evidential basis is for her policy of testing the regional casino idea with a single pilot study. [14419]

**Mr. Caborn:** The Government have made it clear that they wish to take a cautious approach to the development of new casinos, in order to assess whether their introduction leads to an increase in problem gambling. The decision to reduce the number of regional casinos permitted by the Gambling Act 2005 from eight to one was consistent with this cautious approach. But we have not ruled out the possibility of asking Parliament to agree to a larger number if further evidence is needed for the purposes of a more reliable final assessment.

### Correspondence

**Mr. MacNeil:** To ask the Secretary of State for Culture, Media and Sport what her Department's policy is for dealing with and responding to correspondence received in *(a)* Welsh, *(b)* Scots Gaelic and *(c)* Irish Gaelic. [14734]

**Tessa Jowell:** My Department's policy when correspondence is received in Welsh, Scots Gaelic and Irish Gaelic is to first ask for a translation of the letter, and then respond both in original format and English (if requested).

### Departmental Expenditure

**David T.C. Davies:** To ask the Secretary of State for Culture, Media and Sport how much the Department spent on advertising in each of the last five years.[10257]

**Mr. Caborn:** The Department had a zero spend on advertising in 2001–02, and 2002–03. The expenditure on advertising for the past three years is as follows:

| | *Spend (£)* |
|---|---|
| 2003–04 | 20,987 |
| 2004–05 | 37,085 |
| 2005–06 | [1]129,422 |

[1] estimated

**David T.C. Davies:** To ask the Secretary of State for Culture, Media and Sport how much the Department spent on organising or sponsoring conferences in each of the last five years. [10261]

**Mr. Caborn:** Only press conferences and exhibitions are organised centrally and they are held internally with no attached costs. Conferences, seminars and workshops are organised and paid for (sometimes jointly and sometimes exclusively) by policy divisions across the Department. They are held both in-house and on non-Departmental premises. The information relating to the cost of each could be answered only at disproportionate cost.

### Digital Broadcasting

**Mr. Streeter:** To ask the Secretary of State for Culture, Media and Sport what consultations she has had with landlords in Devon and Cornwall regarding the provision of digital transmission for tenants living in multiple dwelling units. [14569]

**James Purnell:** We are working with a large number of housing organisations regarding the provision of digital television services for residents served by communal television systems, including the Chartered Institute of Housing, the National Housing Federation, the National Landlords Association and with tenants groups such as TPAS and TAROE.

**Mr. Streeter:** To ask the Secretary of State for Culture, Media and Sport what steps will be taken to ensure that the elderly and housebound in Devon and Cornwall have the opportunity to acquire a digital tuner by 2008. [14571]

**James Purnell:** The Government are committed to ensuring that the interests of the most vulnerable consumers in the UK are protected during digital switchover and has proposed that the BBC help establish and fund appropriate support. We will announce details of the scope of this assistance in due course.

### Identity Cards

**Mr. Garnier:** To ask the Secretary of State for Culture, Media and Sport what recent assessment she has made of the implications of the introduction of identity cards for her Department. [9882]

**Tessa Jowell:** We are working with the Home Office to identify areas where the Identity Cards Scheme could provide business benefits. On 28 June 2005, my right hon. Friend the Home Secretary placed in the Library a paper containing the latest estimates of benefits of the Identity Cards Scheme which shows that the benefits outweigh the costs once the scheme is fully operational.

The hospitality industry has long considered that the prevention of sales of alcohol to and purchase by children under 18 would be greatly enhanced if a universal identity card showing evidence of age was introduced. At present, the large number of different proof of age cards with varying security features makes it difficult for retailers to identify those underage. The industry has recently confirmed that it fully supports the introduction of identity cards for these reasons.

### Licensed Premises

**Lynne Featherstone:** To ask the Secretary of State for Culture, Media and Sport if she will estimate the number of *(a)* licensed premises and *(b)* licensed premises serving food in each local authority area. [13562]

**James Purnell:** There are no available figures for the numbers of licensed premises which serve food by local authority area. No distinction is made under the present licensing framework between public houses, for example, which serve food, and those which do not. This is also the case for the new regime introduced by the Licensing Act 2003.

There were 75,972 public houses across England in June 2004. The Department of Health estimated that between 10 per cent. and 30 per cent. of them do not serve food, in the November 2004 White Paper "Choosing Health". My Department believes that this estimate remains a reasonable one, but that in many areas of England the proportion will be at the lower end of the range.

### Licensing Qualifications

**Mr. Betts:** To ask the Secretary of State for Culture, Media and Sport what criteria were used in determining the matters to be included in the *(a)* GOAL and *(b)* GQAL licensing qualifications approved by her Department; and if she will make a statement. [13516]

**James Purnell** *[holding answer 20 July 2005]:* All licensing qualifications accredited by the Secretary of State meet the same requirements. All qualifications must cover the framework of subject areas outlined in the syllabus published by DCMS on 31 July 2003. To ensure common and fair standards for all qualifications and award bodies they are also required to be accredited by the Qualifications and Curriculum Authority (QCA) or the Qualifications Curriculum and Assessment Authority for Wales (ACCAC).

### Olympic Games

**Peter Law:** To ask the Secretary of State for Culture, Media and Sport if she will establish principles of sustainability for the Olympic games 2012; and if she will take steps to ensure maximum use is made of *(a)* recycled materials, *(b)* waste minimisation, *(c)* solar

energy, *(d)* sustainable building and *(e)* transport design in the Olympic village and sports venues for 2012. [13325]

**Tessa Jowell:** Sustainability principles are a vital part of the plans for the Olympic and Paralympics games in 2012. As set out in theme 5 of the candidature file, the London games will maximise the use of recycled material, minimise waste, promote renewable energy and design sustainability considerations in venue and infrastructure plans, including transport.

The London Olympics Bill which is currently before Parliament requires the proposed Olympic Delivery Authority to contribute to achieving sustainable development when carrying out its functions. Similarly, the London Organising Committee for the Olympic games (LOCOG) remit will fully embrace the issue of sustainability.

**Ian Lucas:** To ask the Secretary of State for Culture, Media and Sport if she will make it a requirement that all buildings constructed for the Olympic games in 2012 should be self-sufficient in energy use. [13362]

**Tessa Jowell:** Energy conservation and the use of renewable energy will be promoted across all Olympic venues. Buildings and facilities will be designed and constructed to minimise energy demand and the Olympic village will be built with the capability of being energy self-sufficient.

**Anne Main:** To ask the Secretary of State for Culture, Media and Sport if she will highlight the city of St. Albans in promotional literature for visitors to the 2012 Olympic games. [13405]

**Tessa Jowell:** There is an active East of England Olympic Working Group, led by East of England Development Agency (EEDA) and Sport England East, which will continue its work in partnership with the London Organising Committee.

This group has already contributed to the London 2012 nations and regions website, which specifically mention St. Albans.

While it is a little too early to say what form tourism promotion will take in 2012, I am committed to the continued engagement of Government and the Organising committee for the games with the nations and regions to ensure that the social and economic benefits of the games are maximised and shared right across the UK.

**Mr. Greg Knight:** To ask the Secretary of State for Culture, Media and Sport what benefits she expects to accrue to East Yorkshire as a result of the Olympic games being held in London. [12874]

**Tessa Jowell** *[holding answer 20 July 2005]*: The games will also deliver significant economic benefits. The games will attract investment, offer UK companies the opportunity to compete for billions of pounds worth of contracts, offer each nation and region the opportunity to bid for preparation camps and provide a welcome boost to the UK tourism industry.

As we set out to the International Olympic Committee, we expect the 2012 Olympic games and Paralympics games to be an inspiration to our children and young people, to promote sporting activity and culture throughout the UK.

Yorkshire Forward, the Yorkshire and Humber Regional Development Agency leads the East of England Olympic Working Group, which will continue to work with the London Organising Committee to identify games benefits, develop and deliver a strategy to achieve them. In February this year, this group launched a publication entitled "Yorkshire, proud to be part of the winning team" that estimated the economic benefits of the games to Yorkshire to be in the region of £600 million.

**Mr. Bone:** To ask the Secretary of State for Culture, Media and Sport whether the ban on pistol shooting will be lifted to allow the UK Olympic pistol shooting teams to practice in the UK; and if she will make a statement. [14383]

**Mr. Caborn:** The Home Office does not propose to repeal the ban on the private possession of handguns. Special arrangements will be put in place to allow pistol shooting events at the 2012 Olympics as happened at the 2002 Commonwealth games. These arrangements will include a warm up event if this is deemed necessary.

### Management Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Culture, Media and Sport what her Department's total spending on management consultants has been in each of the last three years. [13059]

**Mr. Caborn:** The cost to the Department of using management consultants In each of the last three years is shown in the following table.

| *Financial year* | *£* |
|---|---|
| 2002–03 | 107,299.50 |
| 2003–04 | 10,170.94 |
| 2004–05 | 21,067.25 |
| 2005–06 (spend to date) | 4,500.00 |

**Mr. Austin Mitchell:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within her Department. [13630]

**Mr. Caborn:** The Department uses management consultants for a wide variety of tasks, in particular where specialist skills and expertise is required to contribute to policy making and improving the Department's effectiveness. Contracts are awarded in open competition according to EU procurement regulations, based on best value for money.

To assess any savings directly attributable to consultancies with any degree of accuracy would incur disproportionate costs.

### Media Literacy

**Danny Alexander:** To ask the Secretary of State for Culture, Media and Sport whether her Department has a media literacy development strategy; and if she will make a statement. [14441]

**James Purnell:** This Government places great importance on ensuring that we enhance and develop practical media literacy skills in all citizens across the UK. Media literacy plays a key role in helping people to make informed choices about what they and their children see and hear, as well as to think critically about the media environment they live in.

Furthermore, the development of a media literate society will provide an important driver for economic growth. The continued strength of our economy is dependent on the development of a skilled workforce. In an information-rich society, with goods and services increasingly offered online, the skill to exploit the benefits of new communication technologies have become ever more important.

For these reasons, under the Communications Act 2003, we have placed a statutory duty on Ofcom to promote better media literacy. This includes developing a better public understanding and awareness of the available technological systems to regulate access to electronic media based material and control what is received.

The importance of media literacy has also been identified in Europe as one of the major tools in the development of citizens' responsibilities. A number of initiatives have been launched at European level and endorsed by the European Commission with the aim of ensuring more Europeans, especially young people, have the opportunity to gain a better understanding of the multi-media environment.

Our goal is to have a society of active and informed consumers of media—empowering individuals so we can all benefit from and contribute to the digital future.

**Danny Alexander:** To ask the Secretary of State for Culture, Media and Sport how her Department defines media literacy. [14442]

**James Purnell:** Media literacy is about empowering individuals so we can all benefit from and contribute to the digital future. We have recognized that in a rapidly changing media environment it is important that citizens are media literate and know what tools are available to them and how to use them.

Therefore, we define media literacy to mean:

Giving people the skills to manage the technologies available; and

Equipping people with the tools needed to understand the media environment we live in.

The prize is a society of engaged citizens and wise consumers who can make informed choices about what they see and hear.

### Ministerial Engagements

**Danny Alexander:** To ask the Secretary of State for Culture, Media and Sport what plans she has to visit Highland games events in 2005; and if she will make a statement. [14440]

**Tessa Jowell:** I currently have no plans to visit any Highland games events this year. I am, however, well aware of the long standing tradition of these games and I am sure that they will, once again, be a great success.

### National Lottery

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport (1) how many members of the public her Department consulted on the proposed changes to the national lottery; [13054]

(2) what the total number of responses were from members of the public to her Department's consultation on the national lottery. [13055]

**Mr. Caborn:** My right hon. Friend the Secretary of State, announced proposals for reforming national lottery licensing and distribution procedures in 2002. Since then, DCMS has undertaken wide-ranging consultation. This has included four formal consultation documents which were circulated to stakeholders in the public, private and voluntary sectors, published on the Department's website at www.culture.gov.uk and placed in the Libraries of both Houses. It is not possible to calculate how many members of the public in total viewed our proposals. The number of responses to each consultation exercise is indicated in the following table:

| *Consultation* | *Date* | *Number of responses* |
|---|---|---|
| National Lottery Licensing and Regulation | June 2002 | 10 |
| Review of Lottery Funding | July 2002 | 425 |
| National Lottery Funding Decisions Document | July 2003 | 240 |
| National Lottery Licensing Consultation | May 2004 | 18 |

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Big Lottery Fund regarding the future of other lottery distributors. [13056]

**Mr. Caborn:** My right hon. Friend the Secretary of State and I have regular discussions with the chair and chief executive of the Big Lottery Fund. We cover a range of issues, but have not discussed the future of other lottery distributors.

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Big Lottery Fund regarding the future classification of lottery good causes after 2009. [13057]

**Mr. Caborn:** I have indicated that, subject to the successful passage of the Bill currently before Parliament, the new Big Lottery Fund cause will continue after 2009 broadly as now. Stability makes sense given the amount of consultation and change over the past two years.

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport when she plans to launch the consultation on lottery distributor licences after 2009. [14100]

**Mr. Caborn:** The lottery distributors do not operate under licence, but in accordance with duties and responsibilities outlined in the National Lottery Act

1993 (as amended); and policy and financial directions issued by the Secretary of State for Culture, Media and Sport.

The DCMS five-year plan, published and outlined in a written statement to both Houses on 17 March 2005, explained our intention to look at what future programmes for the arts, sport and heritage might look like and what share of lottery money should go to each of these good causes. It also explained that this process would commence following the announcement of which city had been nominated to host the 2012 Olympic games.

I can confirm that we plan to consult widely from this autumn, using a broad range of methods. This consultation will lead into policy decisions by Ministers in spring 2006 and an announcement in June 2006 about the arrangements for the future.

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent employees worked for the National Lottery Commission in each year since it was established. [14407]

**Mr. Caborn:** The number of full time equivalent employee posts in each year since the National Lottery Commission was established was:

| | *Number* |
|---|---|
| 1999–2000 | 37 |
| 2000–01 | 33 |
| 2001–02 | 30 |
| 2002–03 | 28 |
| 2003–04 | 41 |
| 2004–05 | 42 |

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport what the annual budget has been for the National Lottery Commission for each year since it was established. [14408]

**Mr. Caborn:** The running costs of the National Lottery Commission since it was established were:

| | *£000* |
|---|---|
| 1999–2000 | 3,247 |
| 2000–01 | 5,016 |
| 2001–02 | 2,950 |
| 2002–03 | 3,287 |
| 2003–04 | 4,337 |
| 2004–05 | 4,363 |

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport whether companies based outside the EU will be allowed to tender for the third licence to operate the national lottery; what safeguards will be put in place if the national lottery is awarded to a non-EU company; and if she will make a statement. [14409]

**Mr. Caborn:** There is nothing to prevent a company based outside the EU bidding for the next licence. Indeed, overseas companies have participated in previous competitions. The National Lottery Commission will undertake detailed checks on all bidders to ensure that, irrespective of their country of origin, they are fit and proper, and that it is satisfied that the lottery will be run with all due propriety.

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport what meetings she has held with the National Lottery Commission to discuss the responses to the consultation document "A Lottery for the future". [14410]

**Mr. Caborn:** The National Lottery Commission has sole responsibility for running the competition for the next lottery licence. I recently met the Commission to discuss a number of subjects in the course of which the Commission briefed me about the responses to its discussion document.

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport how many responses the National Lottery Commission received to its consultation document "A Lottery for the future"; and when those responses will be published. [14411]

**Mr. Caborn:** The National Lottery Commission has already received 20 responses to its discussion document "A Lottery for the future", in addition to undertaking a significant amount of wider discussion. The National Lottery Commission will publish a summary of the responses in due course.

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport how many times the National Lottery Commission (NLC) has *(a)* investigated section 6 breaches by Camelot and *(b)* fined Camelot for section 6 breaches of its licence (i) since the NLC began (ii) under Oflot. [14412]

**Mr. Caborn:** The information requested is as follows.

*Licence breaches recorded under OFLOT*

| | *Number* |
|---|---|
| 1994–95 | 0 |
| 1995–96 | 2 |
| 1996–97 | 2 |
| 1997–98 | 3 |
| 1998–99 | 2 |

*Licence breaches recorded under the NLC*

| | *Number* |
|---|---|
| 1999–2000 | 1 |
| 2001–02 | 4 |
| 2002–03 | 1 |
| 2003–04 | 4 |
| 2004–05 | 0 |

The NLC has fined Camelot once for a section 6 licence breach during 2001–02.

**Mr. Walker:** To ask the Secretary of State for Culture, Media and Sport what representations the National Lottery Commission has received from organisations representing lottery ticket sellers about a possible change of operator following the award of the third licence for the National Lottery. [14413]

**Mr. Caborn:** The National Lottery Commission has been in discussion with a wide-range of interested parties about the process for the award of the next

Lottery licence. These discussions have included the views of retailers. The National Lottery Commission will publish a summary of the responses it has received to date in due course. It would be pleased to receive views from retailer organisations as part of its continuing discussion process.

### Ofcom

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the relationship between her Department and Ofcom.[13431]

**James Purnell:** The Office of Communications (Ofcom) is a public corporation, operating independently from Government, principally under the terms of the Communications Act 2003 and the Office of Communications Act 2002. Ministers and Department officials meet regularly with Ofcom to consider issues to do with the exercise of its statutory functions. Ofcom is required to report annually to the Secretary of State; its annual report 2004–05 was published on 19 July 2005, copies of which have been laid in the House.

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what process is used to audit the financial performance of Ofcom. [14200]

**James Purnell:** Under the terms of the Office of Communications Act 2002, Ofcom is required to prepare in respect of each financial year a statement of accounts in such form as the Secretary of State may direct, copies of which are sent to the Secretary of State and also to the Comptroller and Auditor General who is required to examine, certify and report on that statement. The Ofcom Annual Report 2004–05, with the certificate and report of the Comptroller and Auditor General, was laid before each House of Parliament on 19 July 2005. Additionally, a review of the effectiveness of the system of internal control is performed by Ofcom's internal audit function.

### Press Officers

**Mr. Burstow:** To ask the Secretary of State for Culture, Media and Sport how many press officers the Department employed in each year since 1997; and what the cost was in each year. [8134]

**Mr. Caborn:** The number of press officers the Department employed in each year since 1997 are as follows. The cost for each year is available only from 2003 as the information requested for earlier years could be provided only at disproportionate cost.

| | *Number* | *£* |
|---|---|---|
| 1997 | 7 | — |
| 1998 | 7 | — |
| 1999 | 9 | — |
| 2000 | 8 | — |
| 2001 | 9 | — |
| 2002 | 8 | — |
| 2003 | 9 | 459,952 |
| 2004 | 10 | 552,677 |
| 2005 | 9 | 466,206 |

### Rivers

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with *(a)* the British Canoe Union and *(b)* others on improving the accessibility of rivers in England and Wales to the public. [14851]

**Mr. Caborn:** My right hon. Friend the Secretary of State has not had any recent discussions with either the British Canoe Union or other similar organisations regarding the accessibility of rivers in England.

However, as part of my responsibilities as Minister for Sport, I met with representatives of the British Canoe Union in December 2004. This was as part of a meeting I had with the Minister for Rural Affairs at the Department for Environment, Food and Rural Affairs in which issues including increasing access to water-based sports and recreation, such as canoeing, were discussed.

The National Assembly for Wales and the Welsh Assembly rather than DCMS or Defra, have responsibility for the accessibility of rivers in Wales.

### South Bank Centre

**Kate Hoey:** To ask the Secretary of State for Culture, Media and Sport if she will request the resignation of Lord Hollick as chair of the South Bank Centre. [13397]

**Tessa Jowell:** I have no intention of seeking Lord Hollick's resignation.

**Kate Hoey:** To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Prime Minister concerning the future of the London Eye; and what assessment she has made of the effect of the success of the 2012 Olympic bid on the situation with the South Bank Centre. [13398]

**Tessa Jowell:** I have had no discussions with the Prime Minister concerning the future of the London Eye. The welcome success of the 2012 Olympic and Paralympic bid has no bearing on the current negotiations between the South Bank Centre and the London Eye.

**Kate Hoey:** To ask the Secretary of State for Culture, Media and Sport when she expects the lease dispute between the South Bank Centre and the London Eye to be resolved. [13399]

**Tessa Jowell:** Negotiations to secure a new agreement are on-going.

**Kate Hoey:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress with the negotiations between the South Bank Centre and the London Eye. [13400]

**Tessa Jowell:** Negotiations between the South Bank Centre and the London Eye are ongoing.

**Kate Hoey:** To ask the Secretary of State for Culture, Media and Sport on what dates she has had discussions with Lord Hollick, chair of the South Bank Centre, about the London Eye; what the substance of those conversations was; and whether she plans further *(a)* meetings and *(b)* discussions with Lord Hollick on that subject. [13401]

**Tessa Jowell:** I have had one phone call with Lord Hollick, on 21 May, to discuss the London Eye. I am being kept informed of the progress of negotiations.

### Television Licences

**Jim Sheridan:** To ask the Secretary of State for Culture, Media and Sport how much has been spent on advertising on television warning against the failure to hold a current television licence in the last five years. [14148]

**James Purnell:** The BBC has responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the corporation. I have therefore asked the BBC's head of revenue management to consider the question raised by the hon. Member and to write to him direct, placing a copy of the reply in the Libraries of both Houses.

**Jim Sheridan:** To ask the Secretary of State for Culture, Media and Sport how many people in Paisley and Renfrewshire North were found by TV Licensing not to have a current television licence in 2004. [14151]

**James Purnell:** The BBC has responsibility for the administration of the television licensing system and TV Licensing carries out the day-to-day administration under contract to the Corporation. I have therefore asked the BBC's Head of Revenue Management to consider the question raised by the hon. Member and to write to him direct, placing a copy of the reply in the Libraries of both Houses.

**Mr. David Hamilton:** To ask the Secretary of State for Culture, Media and Sport how many people are employed by TV Licensing in Scotland. [14194]

**James Purnell:** The BBC has responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the corporation. I have therefore asked the BBC's head of revenue management to consider the question raised by my hon. Friend and to write to him direct, placing a copy of the reply in the Libraries of both Houses.

**Mr. David Hamilton:** To ask the Secretary of State for Culture, Media and Sport how much has been spent on advertising on commercial radio to publicise the need to hold a current television licence in each of the last three years. [14195]

**James Purnell:** The Department for Culture, Media and Sport has not spent any money on radio advertisements to publicise the television licensing requirements. The BBC has responsibility for the administration of the television licensing system; this includes responsibility for publicity to encourage compliance with the legislation. I have therefore asked the BBC's head of revenue management to consider the question raised by my hon. Friend and to write to him direct, placing a copy of the reply in the Libraries of both Houses.

**Mr. David Hamilton:** To ask the Secretary of State for Culture, Media and Sport how many people in Midlothian were found by TV Licensing not to have a current television licence in 2004. [14796]

**James Purnell:** The BBC has responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the corporation. I have therefore asked the BBC's head of revenue management to consider the question raised by my hon. Friend and to write to him direct, placing a copy of the reply in the Libraries of both Houses.

### Wine Tasting Clubs

**Mr. Laurence Robertson:** To ask the Secretary of State for Culture, Media and Sport what representations she has received on the applications of the Licensing Act 2003 to wine tasting clubs; and if she will make a statement. [12957]

**James Purnell:** Some correspondence has been received from the organisers of wine tasting sessions. Their main concern is whether or not wine tasting requires a licence under the Licensing Act 2003. Generally this would not be the case. Normally a wine tasting club would buy wine collectively for each wine tasting session and at the session the wine would be provided free of charge. As such, in most cases, this would be similar to a private party where one or more people club together to purchase the refreshments to be consumed. This would not be licensable. However, if a club admits non-members for a charge which entitles them to consume a certain amount of alcohol, the event would be licensable. Furthermore, if the club sells or supplies alcohol to its members for a charge, it may be necessary for the club to take advice as to whether a club premises certificate is required.

## DEPUTY PRIME MINISTER

### Business/Domestic Rates

**Mrs. Spelman:** To ask the Deputy Prime Minister how much revenue has been raised in each business improvement district (BID) from the additional levy on business rates in each year since the operation of each BID; and what the estimated figures are for 2005–06 for each BID. [13108]

**Mr. Woolas:** Billing authorities reported the following estimates of BID levy income in 2005–06 for BIDs within their area:

| *Billing authority* | *£000* |
|---|---|
| Birmingham | 248 |
| Camden | 677 |
| Coventry | 302 |
| Kingston-upon-Thames | 762 |
| Plymouth | 250 |
| Southwark | 650 |
| Westminster | 3,470 |
| Total | 6,359 |

Source:
BID revenue accounts transactions 2005-06 returns to ODPM

No other billing authority reported any estimates BID levy income for 2005–06, and figures are not collected centrally for each separate BID, where there is more than one within a single billing authority area.

The powers under the Local Government Act 2003 that set up BIDs came into effect when the BIDs regulations came into operation on 17 September 2004. No figures have been collected centrally for BID levy income between that date and the end of 2004–05.

**Mrs. Spelman:** To ask the Deputy Prime Minister what average domestic rate poundage was levied in England in each year from 1979 until the abolition of domestic rates. [13225]

**Mr. Woolas:** Details of the average domestic rate poundage levied in England in each year from 1979 until the abolition of domestic rates are published in table 18 in Local Government Financial Statistics England No. 1 and this is available in the Library of the House.

### Council Tax

**Mrs. Spelman:** To ask the Deputy Prime Minister what were the *(a)* average (i) B and (ii) D council tax in England and *(b)* average council tax per dwelling in England were, (A) before capping and (B) after the introduction of in-year capping, in (1) 2004–05 and (2) 2005–06. [13110]

**Mr. Woolas:** The information requested for England is shown in the table.

£

| | *Average band B council tax* | *Average band D council tax* | *Average council tax per dwelling* |
|---|---|---|---|
| 2004–05 | 907 | 1,167 | 967 |
| 2005–06 | 944 | 1,214 | 1,009 |

In-year capping makes no difference to the figures at a national level for 2004–05 when rounded to the nearest pound. Assuming that capped authorities reduce their budgets in 2005–06 to the maximum permitted budget requirement, the same would be true for this year.

Capping remains an effective means of bringing down council tax increases as authorities would otherwise go on to set higher increases. In 2003–04, the last year in which capping powers were not exercised, the average council tax increase in England was 12.9 per cent. This reduced to 5.9 per cent. in 2004–05 and fell again to 4.1 per cent. in 2005–06—in both these years, the Government made clear that they were prepared to use their powers to cap excessive council tax increases.

### Councillors (Code of Conduct)

**Mrs. Spelman:** To ask the Deputy Prime Minister when the Standards Board for England will publish a revised code of conduct for councillors. [13120]

**Mr. Woolas:** The Standards Board for England is currently reviewing the code of conduct for local authority members. The board expects to conclude this review in the autumn. We will consider carefully any recommendations for amendments to the code of conduct which the board may wish to propose arising from this review.

### Electronic Government Targets

**Mrs. Spelman:** To ask the Deputy Prime Minister how many Implementing Electronic Government targets local authorities must meet in *(a)* 2004–05 and *(b)* 2005–06. [4357]

**Mr. Woolas:** Councils do not need to meet any IEG targets in 2004–05. By December 2005 councils are expected to be 100 per cent. e-enabled as per the Office's PSA4 target SR2002. Achievement will be measured through BVPI157 and against the local e-Government Priority Service Outcomes (published April 2004)

According to last December's IEG returns, authorities expect to deliver £1.2 billion in efficiency savings by 200–08 as a direct result of e-Government investment.

The average council is now 79 per cent. e-enabled and is expected to meet the December 2005 target.

### English Partnerships (Milton Keynes)

**Mr. Lancaster:** To ask the Deputy Prime Minister how much land English Partnerships owns in the constituency of North East Milton Keynes. [13237]

**Yvette Cooper:** Currently English Partnerships owns 937 acres (379 hectares) in the Milton Keynes North East constituency. The majority of the land holding are located in grid squares of central Milton Keynes, Campbell Park, Oakgrove, Monkston Park, Broughton.

### Fire Service

**Damian Green:** To ask the Deputy Prime Minister what guidance he has issued to the Fire Service on the safety implications of the use of decorative hops in public houses, in relation to fire inspections required under the Licensing Act 2003. [13320]

**Jim Fitzpatrick:** None. However, extant guidance is provided in the "Guide to Fire Precautions in existing places of entertainment and like premises" (ISBN 0-11-340907-9) and in the "Guide to fire precautions in existing places of work that require a fire certificate (Factories, Offices, Shops and Railway Premises)" (ISBN 0-11-341079).

That guidance will be replaced in due course by guidance to support the Regulatory Reform (Fire Safety) Order 2005, which will also cover the usage of artificial (or dried) foliage, tree, shrubs and flowers.

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister whether Quedegely will be one of the candidates for the new Regional Fire Centre. [14611]

**Jim Fitzpatrick:** No. The site was proposed but did not make the shortlist.

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister what studies have been undertaken on the

number of appliances required by each fire brigade; and who will make decisions on numbers of appliances under the proposed regionalisation of fire control centres. [14618]

**Jim Fitzpatrick:** It is a matter for individual Fire and Rescue Authorities to decide the number of appliances they require, in accordance with their Integrated Risk Management Plans (IRMPs). This will continue to be the case, regardless of reforms to the control centre service.

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister how many *(a)* jobs will be lost and *(b)* new jobs will be created following the regionalisation of the fire service. [14623]

**Jim Fitzpatrick:** There are no plans for the regionalisation of the fire service.

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister who will determine the numbers of reserve and professional firefighters under the proposed regionalisation of fire control centres. [14653]

**Jim Fitzpatrick:** The numbers of whole-time firefighters and those on the retained duty system are and will remain the responsibility of individual fire and rescue authorities.

**Peter Viggers:** To ask the Deputy Prime Minister what the incident response times were at the existing fire control centres in the latest year for which figures are available; what the evidential basis is for the statement that incident response times will be improved after a move to regional fire control centres; and if he will make a statement. [13934]

**Jim Fitzpatrick:** Incident response times for existing control rooms for the most recent year are listed in the following table:

*Fires by response time bands from time of mobilisation to time of arrival, England, 2004[1] (time measured in minutes from time of mobilisation to time of arrival)*

| | | *Attendance time* | | | |
|---|---|---|---|---|---|
| | *Total* | *Up to 5 minutes* | *6–10 minutes* | *11–15 minutes* | *Over 15 minutes* |
| *England* | 145,395 | 79,815 | 53,221 | 9,451 | 2,868 |
| *England—Non-Met counties* | 83,166 | 36,814 | 35,625 | 8,264 | 2,463 |
| Avon | 3,299 | 1,607 | 1,451 | 205 | 36 |
| Bedfordshire | 1,630 | 629 | 815 | 142 | 44 |
| Berkshire | 1,812 | 957 | 651 | 166 | 38 |
| Buckinghamshire | 1,866 | 527 | 1,077 | 196 | 65 |
| Cambridgeshire | 2,100 | 553 | 1,115 | 325 | 107 |
| Cheshire | 2,953 | 1,257 | 1,356 | 266 | 74 |
| Cleveland | 2,531 | 1,842 | 625 | 53 | 11 |
| Cornwall | 1,095 | 228 | 475 | 262 | 131 |

[1] Provisional.
[2] Isles of Scilly control room is in Cornwall.
*Note:*
Figures exclude late call and heat and smoke damage only incidents.
*Source:*
FDR1 returns to ODPM

The figures are only for primary fires—information is not collected centrally on response times to other incident types.

Incident response times as used for the former national standards were calculated from the point of mobilisation from the fire station to the time of arrival at the incident. They did not include the time taken to handle the call.

Under the FiReControl proposals control staff will have the most modern technology which shows on their screens the availability of the most suitable available appliance nearest to the incident, whether it is in the station or not, and will mobilise direct to that appliance. In most fire and rescue services in England, appliances are currently assumed to be at the fire station when mobilised. The new arrangements will take into account the disposition of appliances under an authority's Integrated Risk Management Plan, and optimise the response. The information transmitted direct to the appliance will enable better, faster route planning, and will include water supply information and premises risk data to ensure crews are better-prepared to deal with the incident on arrival.

The location of callers will be identified automatically, even if the caller is ringing from a mobile phone, and detailed information about the location of the caller will be available on screen to the operator. This will improve call-handling by enabling the control operator speedily to validate information given by the caller and focus on handling any distress. These two factors combined are expected to reduce response times from the point of call to the point of attendance at the incident.

### Firelink Project

**Mr. Drew:** To ask the Deputy Prime Minister if he will publish the representations he has received on the Firelink Project. [14069]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister does not think that it would be appropriate to disclose individual correspondence including that from private parties. The Government are committed to run a fair and open competition for Firelink in accordance with EU/UK Public Procurement Regulations. The decision as to which company will be awarded the contract will be made in accordance with the award criteria. Any representations from outside this process will be disregarded.

### Gore Basin Planning Appeal

**Mr. Andrew Turner:** To ask the Deputy Prime Minister why the planning inspectorate extended for an unspecified period the deadline for submission by the appellant of an environmental impact assessment in respect of planning appeal P2114/c/05/2001426 (Gore Basin, Newport, IW); whether the appeal on ground is deemed to have lapsed owing to the non-submission of an environmental impact assessment; and when a hearing of the appeal is likely to take place. [13758]

**Yvette Cooper** *[holding answer 20 July 2005]:* The appellant has until 12 September to submit an environmental statement. If the statement is not submitted by then the appeal on ground will lapse unless the Planning Inspectorate extends the period further. A date for hearing the appeal has been deferred pending receipt of the environmental statement.

### Housing

**Mr. Hoyle:** To ask the Deputy Prime Minister what role his Department plays in releasing former new town landholdings for the development of social housing.[12965]

**Yvette Cooper:** The former Commission for New Town landholdings are now owned by English Partnerships, the national regeneration agency whose remit includes the acquisition and disposal of land for sustainable development. The Office of the Deputy Prime Minister has overall responsibility for housing policy within Government and has implemented a number of initiatives to assist with land supply and deliver new housing in support of the sustainable communities plan. The use to which English Partnerships' landholdings should be put falls within this context.

However, it is the responsibility of local planning authorities to consider applications for development, which they should do in accordance with their local plan or local development framework.

### Local Area Agreements

**Mr. Drew:** To ask the Deputy Prime Minister which local authorities have signed local area agreements; and *(a)* which services and *(b)* what expenditure are involved in each case. [13895]

**Mr. Woolas:** 20 pilot local area agreements were signed in March 2005. These local authority areas and the local authorities included within each agreement are

listed in the table. The anticipated expenditure related to each local area agreement as described in each agreement is also set out in the following table. The figures include funding that is being brought together in the local area to achieve the LAA as well as the funding provided directly by central Government.

The pilot agreements are organised around three service blocks: the Safer and Stronger Communities block; the Healthier Communities and Older People block; and the Children and Young People's block. Future local area agreements will have a fourth block, the Economic Development and Enterprise block.

| Area/local authorities included in the LAA | Funding included in the LAA (£ million) |

## Local Government Pensions

**Mrs. Spelman:** To ask the Deputy Prime Minister what the cost will be to local authorities of revoking the changes to the Local Government Pension Scheme outlined in the Local Government Pension Scheme (Amendment) (No. 2) Regulations 2004. [13116]

**Mr. Woolas:** My right hon. Friend, the Deputy Prime Minister, within the framework of the Local Government Pension Scheme tri-partite committee, has invited all parties to develop, by the autumn, realistic and costed measures to fully meet actual cost pressures arising from the introduction of the Local Government Pension Scheme (Amendment) Regulations 2005. The 2005 regulations also allow actuaries to conduct interim valuations to produce fresh assessments of each fund's assets and liabilities to help manage that process. The

intention is to secure the scheme's solvency and affordability, without any additional resource calls on employers, on Government or on council tax payers.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Deputy Prime Minister which five management consultancies received the highest value of contracts awarded by his Department in each of the last three years; and what the total value was of the contracts awarded to each. [12584]

**Yvette Cooper:** The Office of the Deputy Prime Minister was formed in May 2002. This information is not held centrally and can be provided only at disproportionate cost.

### Parish Councils (Departmental Documentation)

**Daniel Kawczynski:** To ask the Deputy Prime Minister how many *(a)* consultation and *(b)* advisory documents were sent to parish councils by his Department in each of the last five years. [13961]

**Mr. Woolas:** The Office of the Deputy Prime Minister sends each year a number of consultation and advisory documents to local authorities including parish councils. Details of these are not held centrally and could be provided only at disproportionate cost.

### Safer Stronger and Communities

**John Hemming:** To ask the Deputy Prime Minister (1) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Wear Valley, (ii) Westminster, (iii) Wigan and (iv) Wirral local authorities; [12340]

(2) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Tower Hamlets, (ii) Wakefield , (iii) Waltham Forest, (iv) Wandsworth and (v) Wansbeck local authorities; [12341]

(3) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Southwark, (ii) Stockton-on-Tees, (iii) Stoke-on-Trent, (iv) Sunderland and (v) Tameside local authorities; [12342]

(4) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Sedgefield, (ii) Sefton, (iii) Sheffield, (iv) South Tyneside and (v) Southampton local authorities; [12343]

(5) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Rochdale, (ii) Rotherham, (iii) St Helens, (iv) Salford and (v) Sandwell local authorities; [12344]

(6) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Penwith, (ii) Plymouth, (iii) Portsmouth, (iv) Preston and (v) Redcar and Cleveland local authorities; [12345]

(7) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Newham, (ii) North Tyneside, (iii) Nottingham, (iv) Oldham and (v) Pendle local authorities; [12346]

(8) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Luton, (ii) Manchester, (iii) Mansfield, (iv) Middlesbrough and (v) Newcastle upon Tyne local authorities; [12347]

(9) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Leeds, (ii) Leicester, (iii) Lewisham, (iv) Lincoln and (v) Liverpool local authorities; [12348]

(10) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Kerrier, (ii) Kingston upon Hull, (iii) Kirklees, (iv) Knowsley and (v) Lambeth local authorities; [12349]

(11) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Hartlepool, (ii) Hastings, (iii) Hyndburn, (iv) Islington and (v) Kennington and Chelsea local authorities; [12350]

(12) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Greenwich, (ii) Hackney, (iii) Halton, (iv) Hammersmith and Fulham and (v) Haringey local authorities; [12351]

(13) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Ealing, (ii) Easington, (iii) Enfield, (iv) Gateshead and (v) Great Yarmouth local authorities; [12352]

(14) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Coventry, (ii) Croydon, (iii) Derby, (iv) Derwentside and (v) Dudley local authorities; [12353]

(15) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i)Brent, (ii) Brighton and Hove, (iii) Bristol, (iv) Burnley and (v) Camden local authorities; [12354]

(16) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Blackburn with Darwen, (ii) Blackpool, (iii) Bolsover, (iv) Bolton and (v) Bradford local authorities; [12355]

(17) what *(a)* the allocation from the Safer Stronger Communities Fund and *(b)* the population is for (i) Allerdale, (ii) Ashfield, (iii) Barking and Dagenham, (iv) Barnsley and (v) Barrow-in-Furness local authorities. [12356]

**Mr. Woolas:** The Safer and Stronger Communities Fund brings together a number of programmes from the Office of the Deputy Prime Minister and the Home Office. Aggregate allocations in 2005–06 from both Departments are combined in the following table. Population estimates are from "T 10: Mid-2002 to Mid-2003 population estimates; components of population change for local authorities in England and Wales; Mid-2003 Population Estimates", published by the Office for National Statistics Population Estimates Unit, and reflect the local authority administrative boundaries that were in place on 1 April 2003.

| Region/authority | Safer and stronger communities fund allocation 2005-06 (£) | Population estimate[1] |
|---|---|---|
| *London* | | |
| Barking and Dagenham | 629,517 | 165,900 |
| Brent | 1,067,592 | 267,800 |
| Camden | 3,377,093 | 210,700 |
| City of Westminster | 1,395,889 | 222,000 |
| Croydon | 1,019,461 | 336,700 |
| Ealing | 2,303,502 | 305,000 |
| Enfield | 781,563 | 280,300 |
| Greenwich | 3,154,168 | 223,700 |
| Hackney | 1,694,127 | 208,400 |
| Hammersmith and Fulham | 682,625 | 174,200 |
| Haringey | 1,312,976 | 224,700 |
| Islington | 1,034,415 | 180,100 |
| Kensington and Chelsea | 662,432 | 174,400 |
| Lambeth | 1,386,905 | 268,500 |
| Lewisham | 1,100,655 | 248,300 |
| Newham | 1,909,733 | 250,600 |
| Southwark | 1,702,932 | 253,800 |
| Tower Hamlets | 1,243,324 | 206,600 |

## Sustainable Communities

**Mr. Hollobone:** To ask the Deputy Prime Minister what discussions his Department has had with the Treasury on securing developer contributions to fund key infrastructure for the sustainable communities growth strategy in Northamptonshire; and whether further legislation is required to implement the policy. [13329]

**Yvette Cooper** *[holding answer 19 July 2005]:* Officials from the Office of the Deputy Prime Minister and HM Treasury have not met specifically to discuss how to secure developer contributions for infrastructure in Northamptonshire, although work on infrastructure funding for the growth areas, including Milton Keynes and the South Midlands, is ongoing.

Local authorities may seek developer contributions through planning obligations (also known as "section 106 agreements") under existing legislation. New legislation would be required for local authorities to seek contributions that go beyond the policy set out in the Government's Circular 05/2005 on planning obligations.

**Mr. Lancaster:** To ask the Deputy Prime Minister with which bodies in Milton Keynes he has discussed his Department's plans for sustainable communities. [13138]

**Yvette Cooper:** The plans for the sustainable communities have had a long gestation and have included wide community participation. Regional Planning Guidance 9(2001) recommended an interregional study should be undertaken to consider the further development of the Milton Keynes sub-region. This was followed by the Milton Keynes and South Midlands study (2002) and subsequent growth area assessments, all of which were steered by a full range of stakeholders. "Sustainable communities: building for the future", published by the Office of the Deputy Prime Minister in 2003, announced three new growth areas, including Milton Keynes South Midlands (MKSM), and identified key steps for taking them forward.

All interested bodies and members of the community in Milton Keynes and elsewhere had the opportunity to participate in the formulation of the MKSM Sub-Regional Strategy, which sets out the strategic plan for the area up to 2031. The first consultations on the MKSM Sub-Regional Strategy (July to October 2003) produced 1,600 responses. There then followed a public examination by an independent panel who produced their report in August 2004. In response to the panel's recommendations my right hon. Friend the Deputy Prime Minister the First Secretary of State, via his Government Offices, consulted on the proposed changes to the MKSM Sub-Regional Strategy. Over 3,000 copies of this document were distributed with 426 representations received. These were considered before publishing the final MKSM Sub-Regional Strategy in March 2005.

Further details can be found in "Milton Keynes and South Midlands Sub-Regional Strategy—Summary of Public Consultation on the Secretary of State's Proposed Changes" (available via www.gose.gov.uk). See also "Sustainable Communities: An Urban Development Area for Milton Keynes: Consultation Summary and Decision Document" (available via www.odpm.gov.uk) for further information on the consultation process leading up to the establishment of Milton Keynes Partnerships Committee, the local delivery vehicle for Milton Keynes.

### Telecommunications Masts

**Mr. Barrowes:** To ask the Deputy Prime Minister (1) whether Government guidance requires consideration of the cumulative impact of a number of masts in close proximity on the *(a)* environment and *(b)* health of local residents; [13651]

(2) whether Government guidance requires consideration of the health implications arising from an intensity of beam of electromagnetic field when a number of masts are located in close proximity. [13652]

**Caroline Flint:** I have been asked to reply.

The research on health effects from radiofrequency electromagnetic fields was comprehensively reviewed by the National Radiological Protection Board's (NRPB) independent advisory group on non-ionising radiation in 2003. The review concluded that

> "Exposure levels from living near to mobile phone base stations are extremely low and the overall evidence indicates that they are unlikely to pose a risk to health"

The NRPB, now part of the Health Protection Agency (HPA), has posted the results of its base station exposure measurements on its website, with an explanation of the effect of other masts in the vicinity. This is available at:

www.hpa.org.uk/radiation/understand/information sheets/mobile telephony/base stations.htm.

In addition, an audit of more than 450 measurements of exposure around base stations undertaken by Ofcom over the last four years demonstrate that none has exceeded the electromagnetic field exposure guidelines of the international commission on non-ionising radiation.

Nevertheless, in view of the public concern and the precautionary approach to the use of these new technologies recommended by the Stewart Report (2000) and the NRPB's "Mobile Phones and Health 2004" report, the mobile telecommunications and health research programme is supporting studies on the possible effects from mobile phone radio waves.

### Work-related Stress

**Lynne Featherstone:** To ask the Deputy Prime Minister how many cases of work-related stress have been reported in his Department in each of the last three years; how much compensation was paid to employees in each year; how many work days were lost due to work-related stress in each year; at what cost; what procedures have been put in place to reduce work-related stress; at what cost; and if he will make a statement. [7860]

**Jim Fitzpatrick:** The Office of the Deputy Prime Minister was created on 29 May 2002. The number of cases of work-related stress as categorised by staff is set out in the following table:

| | *Cases reported and categorised as "work related stress" by staff* | *Days lost* | *Cost (£000)* |
|---|---|---|---|
| 1 June 2002 to 31 March 2003 | 47 | 1,263 | 85 |
| 1 April 2003 to 31March 2004 | 68 | 1,752 | 116 |
| 1 April 2004 to 31 March 2005 | 71 | 1,951 | 162 |

No compensation has been paid to employees for any stress related case since the Office was established.

Individual staff are responsible for reporting and recording short term absence according to what they perceive the cause to be. Longer term absence results in referral to our Medical Adviser who confirms the cause. Therefore in a number of cases the cause of stress may actually be factors outside the work place, for example, domestic or financial pressures.

The Office is committed to identifying and reducing the causes of work related stress and to supporting staff who may suffer from work related stress. Within the Office staff have access to a Counselling and Support Service and advice and support from the Occupational Health Adviser, line managers and Human Resources. The Office is currently assessing the Heath and Safety Executive Stress Management Standards and their potential use in the Office.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Al-Qaeda

**Lembit Öpik:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the Government have made of the stated objectives of al-Qaeda; and if he will make a statement. [12092]

**Ian Pearson:** We conduct frequent assessments of the stated objectives and motivations of al-Qaeda terrorists and their associates. The real objective of these terrorists is clear:

"it is to conduct indiscriminate attacks where and when they can, to try to bring countries and their communities into conflict".

### Ambassadors (Subordinate Staff)

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many formal grievances made against Her Majesty's Ambassadors by subordinate staff are outstanding; how long each case has been outstanding; whether investigations in each case have been concluded; and when the complaint is expected to be determined in each case. [14447]

**Mr. Straw:** None.

### Brazil

**Mr. Rob Wilson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance he has offered to President Luiz Inacio Lula de Silva to tackle corruption in Brazil. [14009]

**Mr. Douglas Alexander:** While tackling corruption in Brazil is the responsibility of the Brazilian authorities, we are active in helping Brazil build capacity to combat corruption. Brazil is a priority under the Economic Governance programme of the Foreign and Commonwealth Office's Global Opportunities Fund (GOF). One relevant project aims to assist the Brazilian authorities to combat corruption by developing expertise in budget auditing and the identification of fraudulent practices. The project also aims to spread best practice more widely in the region.

### Correspondence

**Mr. Burstow:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many letters to his Department from hon. Members in session *(a)* 2004-05 and *(b)* 2005-06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13863]

**Mr. Straw:** Details of letters to the Foreign and Commonwealth Office, from both hon. Members and others, are stored together in such a way that this information is not retrievable without incurring a disproportionate cost. The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to hon. Members'/Peers' correspondence. The Report for 2004 was published on 6 April 2005, *Official Report*, columns 137-140WS, and showed that the Foreign and Commonwealth Office responded to 83 per cent. of letters from hon. Members and Peers within the 20 working day target.

### Drugs and Crime Fund

**Mr. Austin Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the UK drugs and crime fund was allocated to activities in *(a)* Colombia, *(b)* Jamaica, *(c)* Iran, *(d)* Pakistan, *(e)* Afghanistan and *(f)* Turkey in each of the last five years; and what assessment he has made of the effect of this expenditure on the trade in drugs. [14039]

**Dr. Howells:** The amount of the Foreign and Commonwealth Office's drugs and crime fund that was allocated to activities in the six countries in each of the last five years is set out in the following table:

£

| | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *Totals* |
|---|---|---|---|---|---|---|
| Afghanistan | 418,000 | 30,901 | 1,576,267 | 5,900,000 | 5,800,000 | 13,725,168 |
| Colombia | 260,841 | 602,993 | 962,135 | 661,409 | 606,837 | 3,094,215 |
| Iran | 620,040 | 444,413 | 642,733 | 53,001 | 229,200 | 1,989,387 |
| Jamaica | 7,902 | 563,650 | 335,707 | 213,420 | 270,457 | 1,391,136 |
| Pakistan | 363,437 | 939,933 | 167,831 | 91,182 | 231,200 | 1,793,583 |
| Turkey | 108,515 | 669,262 | 170,447 | 238,380 | 68,111 | 1,254,715 |
| | | | | | | 23,248,204 |

This expenditure has played an important role in helping to increase the capacity of the six countries concerned to combat the trade in drugs. It has improved the law enforcement capacity of the six countries e.g. to interdict drug shipments and to target, arrest and convict leading drug traffickers. The increase in the seizures of cocaine, heroin and other opiates in recent years suggest that, through training and other measures, this investment may be having some effect: worldwide cocaine and opiate seizures both increased by a third in 2003, the latest date for which figures are available.

### English Wine

**Mr. Burstow:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 11 July 2005, *Official Report*, column 664W, on the Government wine cellar, what proportion of the cellar stock is English wine; and what the policy is in respect of the procurement of English wines. [13191]

**Mr. Straw:** English and Welsh wines currently make up a little over 5 per cent. of the total stock of the Government Wine Cellar.

The Government Hospitality Advisory Committee for the Purchase of Wine offers advice to Government Hospitality on the management of the government cellar. For many years the Committee and Government Hospitality have regularly augmented the cellar with a selection of the best wines produced in the United Kingdom, in order to show-case British wine-making expertise.

### European Constitution

**Mr. Davidson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list meetings at which Ministers from his Department plan to speak on matters relating to the EU Constitution during the next three months. [1174]

**Mr. Douglas Alexander:** Foreign and Commonwealth Office (FCO) Ministers have spoken about the EU Constitutional Treaty and about the Treaty in the context of the debate about the future of Europe on a number of occasions since this question was tabled. This includes parliamentary debates in the UK, bilateral meetings with European counterparts and, since 1 July, appearances at parliamentary committees in the European Parliament to represent the presidency. There are no current plans for FCO Ministers to discuss the EU Constitutional Treaty or the Treaty in the context of the debate about the future of Europe between now and the end of August. This response covers the three month period which the question referred to when tabled.

**Mr. Hayes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list European Union proposals *(a)* on which action has been taken in advance of the ratification of the EU constitution and *(b)* which are dependent in part or whole upon ratification of the constitution. [8982]

**Mr. Douglas Alexander:** No formal or informal legislative proposals or other initiatives have been proposed by the European Union which rely on the Constitutional treaty as their legal basis.

### Grievance Procedures

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much public money has been spent in each of the last five years in settlement of grievance procedures brought against senior staff of his Department by subordinate staff; how much was paid in each case; and whether the payment was in full and final settlement in each case. [14400]

**Mr. Straw:** None.

### Handcuffs (Exports)

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether end-user checks have taken place of the export of oversized handcuffs from the UK to *(a)* the United States of America and *(b)* Hong Kong. [13556]

**Ian Pearson:** Checks of end users and their documentation form part of the consideration of all export licence applications and help establish whether an export is consistent with the Consolidated EU and National Arms Export Licensing Criteria.

### Israel

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will press for Israeli compliance with, and ratification of, the *(a)* Nuclear Non-proliferation Treaty and *(b)* Chemical Weapons Convention. [13004]

**Dr. Howells:** The British Government have on a number of occasions called on Israel to accede to the Nuclear Non Proliferation Treaty as a non-nuclear weapon state and also to the Chemical Weapons Convention, and will continue to do so. We take appropriate opportunities to discuss all aspects of non-proliferation with representatives of the Israeli Government.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of whether Israel possesses a deployable nuclear arsenal; and what recent discussions he has had with the Israeli government on *(a)* acceding to the Nuclear Non-Proliferation Treaty as a non-nuclear weapon state and *(b)* concluding a fullscope safeguards agreement with the International Atomic Energy Agency. [13657]

**Ian Pearson:** We are aware of the widespread assumption that Israel possesses nuclear weapons, but note that the Israeli Government had refused to confirm it. The British Government have, on a number of occasions, called on Israel to accede to the Nuclear Non-Proliferation Treaty as a non-nuclear weapon state, and to conclude a full scope safeguards agreement and Additional Protocol with the International Atomic Energy Agency. We take appropriate opportunities to discuss all aspects of non-proliferation with representatives of the Israeli Government.

### London Bombings

**Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the government of Pakistan following the London bombings. [13927]

**Ian Pearson:** The Government have an excellent relationship with the Government of Pakistan and there is close and continuing co-operation between us in regard to the London bombings and the campaign against terrorism.

The Government of Pakistan is a key ally in the efforts we are taking to combat extremism, radicalisation and terrorism, both in the UK and overseas.

### Middle East

**Mr. Austin Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had in the last six weeks with representatives of the *(a)* US administration, *(b)* Russian Government and *(c)* EU in relation to progress on the Middle East road map; and if he will make a statement. [14030]

**Ian Pearson:** In the last six weeks my right hon. Friend the Foreign Secretary has discussed the Middle East peace process (MEPP) with his US, Russian and EU counterparts, including at the G8 foreign Ministers meeting in London on 23 June.

We believe it remains crucial that the quartet (US, UN, EU and Russia) plays a central role on the MEPP. The UK will participate in quartet meetings as EU presidency.

### Non-settlement Visas

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for non-settlement visas were *(a)* received and *(b)* refused in (i) Bangladesh, (ii) Algeria, (iii) Morocco, (iv) Tunisia and (v) Ghana in each of the last five years; and what proportion of those were granted at Tier One. [12473]

**Dr. Howells:** The information on applications for visitors visas for the countries and categories requested, is as follows:

*Number*

| | *Bangladesh* | *Algeria* | *Morocco* | *Tunisia* | *Ghana* |
|---|---|---|---|---|---|
| *Non-settlement applications (NSA) received* | | | | | |
| 1999-2000 | 14,983 | 3,370 | 7,410 | 7,066 | 27,457 |
| 2000-01 | 17,291 | [1]0 | 7,905 | 7,559 | 33,095 |
| 2001-02 | 22,132 | 5,315 | 6,721 | 6,746 | 45,212 |
| 2002-03 | 25,251 | 12,219 | 7,186 | 4,647 | 64,455 |
| 2003-04 | 34,041 | 15,423 | 6,721 | 4,944 | 81,940 |
| *NSA refused* | | | | | |
| 1999-2000 | 3,363 | [1]0 | 433 | 1,072 | 5,246 |
| 2000-01 | 3,613 | [1]0 | 402 | 1,128 | 7,536 |
| 2001-02 | 6,242 | [1]0 | 251 | 1,036 | 20,532 |
| 2002-03 | 9,396 | 1,859 | 339 | 729 | 33,417 |
| 2003-04 | 10,313 | 4,148 | 615 | 644 | 44,020 |

*Tier One non-settlement applications*

*Percentage*

| | *Bangladesh* | *Algeria* | *Morocco* | *Tunisia* | *Ghana* |
|---|---|---|---|---|---|
| 1999-2000 | 95 | 100 | 97 | 98 | 95 |
| 2000-01 | 97 | [1]0 | 97 | 99 | 93 |
| 2001-02 | 95 | 100 | 93 | 96 | 99 |
| 2002-03 | 97 | 100 | 99 | 97 | 98 |
| 2003-04 | 91 | 100 | 90 | 98 | 91 |

[1] While UKvisas makes every effort to ensure the accuracy of statistics, they are not liable for technical errors or omissions contained in published figures. In addition, some posts do not forward certain statistics and occasional or permanent closures can also affect figures.

Statistics for the proportion of non-settlement visas granted at Tier One, applications where decisions are made without the need for an interview, are not available. The figures provided represent the percentage of non-settlement visa applications, which include visit visas, that were dealt with at Tier One within 24 hours

### Pakistan

**Mr. Sarwar:** To ask the Secretary of State for Foreign and Commonwealth Affairs when the High Commission in Islamabad will accept first time traveller applications from under 25-year-olds. [13446]

**Dr. Howells:** Our High Commission in Islamabad is continuing not to accept applications from first time visitors under the age of 25 until such time as it is operationally viable to recommence this part of the service. At this stage, it is not possible to say when that may be.

Applications for visitors under the age of 25 who can demonstrate previous travel to the UK, USA, Canada, Australia and New Zealand are being accepted. All straightforward visit applications that meet the criteria are being processed within seven working days.

When a change is made to this policy, the information will be contained on both the UKvisas website: www.ukvisas.gov.uk and on the High Commission website: www.britainonline.org.pk.

### Palestine

**Dan Norris:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* organisations and *(b)* projects operating in (i) Israel and (ii) the Palestinian territories being (A) funded and (B) partially sponsored by his Department. [13419]

**Ian Pearson:** The projects listed are funded by the Foreign and Commonwealth Office (FCO) through the Global Opportunities Fund (GOF), the Global Conflict Prevention Pool (GCPP—which is jointly funded by FCO, MOD and DFID) and the Foreign and Commonwealth Office Directorate Programme Budget (DPB).

Further information about these funds is available on the FCO website at: www.fco.gov.uk.

(i) *Organisations/projects in Israel:*

1. Ir Amin—"Changing public information and discourse around Jerusalem".

2. Economic Co-operation Foundation (ECF)—"Making disengagement work".

3. Peace Now—monitoring expansion of Israeli settlements (co-funded with Norwegians).

4. UK-Israeli academic co-operation on nanotechnology.

5. Hand in Hand Centre for Jewish Arab education in Israel.

6. "Football for Peace"—(co-sponsor) implemented by British Council.

7. Merchavim—Shared citizenship project for training Arab-Israeli teachers.

(ii) *Organisations/projects in occupied territories:*

1. Palestinian Authority—support to Palestinian civil police—completion of training centre for National Security Forces.

2. Search For Common Ground—Palestinian media activities in support of the roadmap.

3. International Service for Human Rights—training in partnership with National Human Rights Institution, Ramallah.

4. Palestinian Central Elections Commission (CEC) members' election visit to the UK.

5. Training for one Palestinian journalist at School for Oriental and African studies (SOAS).

6. Refurbishment of computers for two Palestinian Authority school libraries.

7. Support Central Elections Commission by helping to pay for English language training for member of CEC staff.

8. Peres peace centre—training for Palestinian school teachers.

9. Habla Refugee Camp sports project.

10. Support for Kobar village school library.

(iii) *Joint organisations/projects:*

1. EXACT—joint Israeli/Palestinian/Jordanian project focusing on water resources.

2. Shared Citizenship education project.

### Security Contracts

**Mr. Henderson:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent by his Department and public bodies and agencies for which he is responsible on security contracts with Group 4 Securicor in 2004-05; and if he will list *(a)* the nature and location of services provided and *(b)* the start and end dates of such contracts. [13520]

**Mr. Straw:** The Foreign and Commonwealth Office in London has not spent any money on contracts with Group 4 Securicor in the past year. Inquiries with our diplomatic missions overseas have shown that 14 missions have contracts from local budgets worth £844,000 per annum with companies in the Group 4 Securicor group. Services contracted included: security guards; rapid response teams; alarm surveillance of offices and residences; direct line push button response alarms to the local police; and alarm, closed circuit television and fire system maintenance.

None of the public bodies or agencies that I as Secretary of State am responsible for has contracts currently let with Group 4 Securicor.

### Sickness Absence

**David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many days the Department has lost due to sickness in the past five years for which figures are available. [11466]

**Mr. Straw:** Total recorded days of sickness absence for staff in the Foreign and Commonwealth Office (FCO) were:

| | Number |
|---|---|
| 2000 | [1]20,900 |
| 2001 | 25,012 |
| 2002 | 27,720 |
| 2003 | 33,219 |
| 2004 | 35,969 |

[1] Estimate, based on available data.

Data collection over this period has been complicated by the introduction of new Pay and Management Information systems. It is therefore possible that the figures given do not reflect consistent recording methods. FCO is currently working to improve both accuracy and detail in this area.

Per capita sickness absence in the FCO has been consistently below the public sector average. In 2003 it was recorded at 5.6 days per person. The date showed a slight rise in 2004 to six days per person. This is likely to be the result of better management control/reporting and the introduction of new IT systems.

The FCO is fully committed to implementing the recommendations in the recently published "Managing Sickness Absence in the Public Sector". A new FCO health care contract which started in April 2005 includes a comprehensive occupational health service aimed at better and more proactive management of long and short-term sickness absence.

### Sir Michael Jay

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs when Sir Michael Jay was asked to adjust his duties in relation to the G8; whether this constituted a formal redeployment; when he will return to his principal duties as Permanent Under-Secretary; and if he will make a statement. [14445]

**Mr. Straw:** My right hon. Friend the Prime Minister appointed Sir Michael Jay as his G8 Sherpa on 17 January 2005 for the duration of the UK presidency. Sir Michael took on this duty in addition to his duties as Permanent Under-Secretary at the Foreign and Commonwealth Office and Head of HM Diplomatic Service. There was no formal redeployment.

### Sudan

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Sudanese authorities on the provisions of the new interim conditions that provide immunity against prosecution for the highest levels of the Government. [12996]

**Ian Pearson:** Under the Interim National Constitution (INC), which came into force on 9 July 2005, the president and first vice-president shall be immune from any legal proceedings during their tenure of office, except in cases of high treason, gross violation of the constitution or gross misconduct in relation to state affairs, where they may be charged if three quarters of the National Assembly agree.

In line with the Comprehensive Peace Agreement (CPA), which we strongly support, the INC was drawn up by the National Constitutional Review Commission, which included representatives of the parties to the agreement and other political forces in Sudan.

We have made no representations on this issue. However, we regularly press the Government of Sudan on the need to establish an open, transparent and fair judicial system; and we plan to support the comprehensive review of the judiciary provided for by the CPA.

The International Criminal Court is currently conducting investigations into allegations of crimes in Darfur. Though Sudan is not a state party to the ICC statute, it was referred to the court by the UN Security Council Resolution 1593 (2005) which was made pursuant to Chapter VII of the United Nations charter. Sudan is therefore legally obliged to co-operate with the ICC including by surrendering any Sudanese nationals indicted by the ICC, irrespective of the individual's position under Sudanese domestic law.

**Mr. Rob Wilson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with EU and African counterparts on *(a)* increasing the size and *(b)* improving the effectiveness of the international forces in Darfur. [14012]

**Ian Pearson:** We hold regular discussions with the African Union (AU), African nations and the EU about the African Union's Mission in Sudan (AMIS). At the recent Gleneagles summit, G8 and African leaders discussed the issue and adopted a joint declaration on Sudan which commended the work of the AU in Darfur, and called upon the parties to scrupulously respect the ceasefire and negotiate constructively to reach a political settlement.

My right hon. Friend the Secretary of State for International Development (Hilary Benn) and my noble Friend the Minister for Africa (Lord Triesman of Tottenham) also discussed Sudan with AU Chairperson Konare, during their visit to the AU summit in Sirte on

4 July. The Secretary of State for International Development also held detailed discussions with the AU during his visit to Sudan on 12-14 June.

Sudan and AMIS in particular are regularly discussed in the EU. The 18 July General Affairs and External Relations Council agreed the terms for the EU's comprehensive support to AMIS II in the civilian and military fields.

**Mr. Rob Wilson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings he has had with the African Union about monitoring the ongoing ceasefire in Darfur. [13764]

**Ian Pearson:** We hold regular discussions with the African Union (AU) about the monitoring of the ceasefire in Darfur. At the recent Gleneagles summit, G8 and African leaders discussed the issue and adopted a joint declaration on Sudan which commended the work of the AU in Darfur, and called upon the parties scrupulously to respect the ceasefire and negotiate constructively to reach a political settlement.

My right hon. Friend the Secretary of State for International Development (Hilary Benn) and my noble Friend the Foreign and Commonwealth Office Minister for Africa (Lord Triesman of Tottenham) also discussed Sudan with AU Chairperson Konare, during their visit to the AU summit in Sirte on 4 July. The Secretary of State for International Development also held detailed discussions with the AU during his visit to Sudan on 12–14 June.

**Mr. Rob Wilson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what support the Government are giving to the International Criminal Court chief prosecutor to aid his investigations into human rights abuses in Darfur. [13765]

**Ian Pearson:** The UK has concluded a generic witness relocation agreement with the Court and is negotiating agreements on sentence enforcement and information-sharing. The Court will carry out its investigations in Darfur and elsewhere in an entirely independent capacity. Because of the need to respect this independence, and to protect the integrity of the Court's operations, it would not be appropriate to comment on the operational aspects of specific ICC investigations, nor to reveal what support the UK is providing in that regard. The UK remains ready to consider any specific request put forward by the Court.

## United Nations

**Mr. Iain Wright:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to improve the governance of the United Nations. [13444]

**Ian Pearson:** In September 2005 the UN Millennium Review Summit will address recommendations on reform of the UN system put forward by the UN Secretary-General in his report "In Larger Freedom: Towards Development, Security and Human Rights for All".

The Government welcome these proposals and hope to build on them at the summit. My right hon. Friend the Foreign Secretary, in his meetings with the UN Secretary-General, has highlighted the importance that the UK attaches to improved governance at the UN.

The UK has identified four areas of governance where we would like to see specific actions taken:

Accountability—oversight capacity within the UN must be strengthened, and its independence and authority enhanced.

Professionalism and modernisation—there must be transparent, competence based recruitment throughout the UN system and the introduction of modern human rights practices.

Efficiency—activity at the UN should be rationalised, modernised and streamlined to reduce duplication and to focus on priority areas.

Flexibility—in return for the measures mentioned above, the Secretary-General should be provided with the authority and flexibility to manage resources and to redeploy them according to need.

In addition, we want to see a Security Council that reflects today's world and the contributions of the UN's members to its objectives. The UK therefore supports the expansion of both the permanent and non-permanent membership.

## Visas

**Damian Green:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 June 2005, *Official Report*, column 1083W, on visas, what meetings his Department has held with the *(a)* Department of Health and *(b)* Home Office about the issuing of visas to overseas doctors. [12977]

**Dr. Howells:** UKvisas have not met directly with the Department of Health or the Home Office on this issue. However, they have been in contact with the Home Office about the fourthcoming Immigration Rules changes relating to postgraduate doctors and dentists.

## Zimbabwe

**Mr. Wilk:** To ask the Secretary of State for Foreign and Commonwealth Affairs what legal advice he has received concerning the UK Government assuming responsibility for the payment to UK citizens of Zimbabwean government pensions. [13388]

**Ian Pearson:** It is not our policy to disclose the content or existence of legal advice.

**Mr. McGovern:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with representatives of the South African Government regarding the situation in Zimbabwe in the past three months. [13461]

**Ian Pearson:** We regularly discuss the crisis in Zimbabwe with South Africa and our other African partners. My right hon. Friend the Foreign Secretary raised it with South African Foreign Minister Zuma on 14 July. My right hon. Friend the Secretary of State for International Development (Hilary Benn) and my noble Friend the Foreign and Commonwealth Office Minister for Africa (the Lord Triesman of Tottenham) discussed the situation in Zimbabwe with African leaders, including President Mbeki, at the recent African Union

Summit in Sirte in Libya. Zimbabwe was also discussed at the G8 Summit in Gleneagles, attended by President Mbeki.

## DEFENCE

### Armoured Vehicle Training Services

**Mr. Hancock:** To ask the Secretary of State for Defence if he will list the key dates in the Armoured Vehicle Training Services project from prequalification questionnaire to the decision to abandon the project. [13463]

**Mr. Ingram:** The Armoured Vehicle Training Services (AVTS) project has not been abandoned. As the ministerial statements on 15 June announced, we decided to seek an alternative to the current private finance initiative (PFI) solution. This decision was reached after a detailed assessment of the landmark bid concluded that the PFI deal did not offer an acceptable value for money solution. This change in direction will allow us to examine other procurement options. Key dates in the Armoured Vehicle Training Service project are provided in the following table.

*Key dates in armoured vehicle training service project*

| *Date* | *Event* |
|---|---|
| January 2000 | Pre-Qualification Questionnaire issued |
| February 2001 | Invitation to Negotiate (ITN) issued. |
| October 2002 | Final Bids received |
| November 2003 | MOD/Industry agree to Best and Final Offer stage |
| July 2004 | Intended Preferred Bidder announced |
| June 2005 | Announcement to seek alternative to current PFI solution. |

### Arms Sales

**Norman Baker:** To ask the Secretary of State for Defence what his policy is in respect of arms sales to Israel. [13023]

**Dr. Howells:** I have been asked to reply.

The United Kingdom has one of the strictest and most transparent arms export licensing systems in the world. All export licence applications are rigorously assessed on a case by case basis against the consolidated EU and National Arms Export Licensing Criteria. This assessment takes into account the prevailing circumstances and all other announced Government policies, including factors that are relevant if the goods are to be incorporated for re-export. The criteria demonstrate our commitment to take account of the risk that exports might be used for internal repression, prolonging conflict or external aggression. Where we judge that the proposed export might be used in contravention of the Consolidated EU and National Arms Export Licensing Criteria, those export licence applications are refused.

### Army Applicants

**Mr. Peter Robinson:** To ask the Secretary of State for Defence how many applications to join the Army were made in each year since 1998; and how many applicants were successful in each year. [14525]

**Mr. Touhig:** The following table shows the number of applications to join the Army and the numbers enlisted from financial year 1998–99 to 2004–05.

| *Financial year* | *Applications* | *Enlisted* |
|---|---|---|
| 1998–99 | 37,250 | 15,150 |
| 1999–2000 | 36,170 | 14,490 |
| 2000–01 | 31,230 | 13,390 |
| 2001–02 | 33,990 | 13,470 |
| 2002–03 | 36,810 | 14,940 |
| 2003–04 | 34,420 | 13,640 |
| 2004–05 | 28,470 | 10,400 |

*Note:*
Figures have been rounded to the nearest 10.

### Asbestos

**Andrew Mackinlay:** To ask the Secretary of State for Defence (1) if he will list those of his Department's buildings containing asbestos, which have been demolished, which incorporated or accommodated radar equipment and which were operational between 1940 and 1969; what quantities of asbestos were removed; and if he will make a statement; [6208]

(2) if he will list those of his Department's buildings from which asbestos has been removed that incorporated or accommodated radar equipment and which were operational between 1940 and 1969; what quantities were removed; and if he will make a statement. [6297]

**Mr. Touhig** *[holding answer 11 July 2005]:* The MOD complies fully with the Control of Asbestos at Work Regulation 2002.

There is no central register of where asbestos has been removed from buildings, belonging to the Department or its agencies, whether demolished or still in existence, which at any time accommodated radar. Such a list could be compiled only with disproportionate cost and effort. In any case, no information is available before 1974, as the law did not require records to be kept prior to that date.

### Bowman

**Ann Winterton:** To ask the Secretary of State for Defence when Bowman will be fully operational throughout the UK armed forces; and what the *(a)* overall final cost and *(b)* cost per unit is expected to be. [12684]

**Mr. Ingram:** The Bowman tactical communications and information system is being developed and introduced across the United Kingdom armed forces incrementally. As I have previously stated on 5 July 2005, *Official Report*, column 258W, this is having a direct and positive effect on the communications capability in theatre.

We have always planned for Bowman, like other complex programmes, to be developed and delivered incrementally over a number of years. We currently expect the complete capability to be delivered next year, and for the conversion programme to continue in 2008.

The latest overall forecast cost for Bowman (as at 31 March 2005) is £2,007 million. Given the diverse nature of individual Bowman configurations, for accounting purposes, the average unit cost is expressed as around £43,000.

### Cadets

**Mr. Hoyle:** To ask the Secretary of State for Defence how many army cadets units are cap badged *(a)* Queen's Lancashire Regiment, *(b)* King's Own Borderers and *(c)* King's Regiment; and how many went on to join each regiment full-time in each of the last three years. [13011]

**Mr. Touhig:** The information requested is shown in the following table. However, our records do not illustrate which regiments the Cadets went on to join, only from which regiments they originated. Also, as individuals joining the Army do not always declare that they have been cadets, the following numbers may be understated.

| | Queen's Lancashire Regiment (QLR) | King's Own Royal Borderer Regiment (KORBR) | King's Regiment (KINGS) |
|---|---|---|---|
| Number of Army Cadet Force Units (ACF) | 21 | 30 | 10 |
| Number of Combined Cadet Force Units (CCF) | 4 | 2 | 3 |
| Numbers of Cadets who went on to join the Army full-time since 1 January 2000. | 25 | 40 | 20 |

### Correspondence

**Mr. Burstow:** To ask the Secretary of State for Defence how many letters to his Department from hon. Members in Session *(a)* 2004–05 and *(b)* 2005–06 remain unanswered, broken down by those which are (i) one month old, (ii) two months old, (iii) three months old, (iv) four months old and (v) over six months old. [13859]

**Mr. Touhig:** As at 20 July 2005, our ministerial correspondence database showed seven letters from hon. Members received in Session 2004–05 had still to be given a response of any kind—other than a standard acknowledgement letter. Of these, two were between four and five months old; one was between five and six months old; and four were over six months old.

For the current Session, there were 19 such letters that were between one and two months old, and four that were between two and three months old.

### Sudan

**Mr. Rob Wilson:** To ask the Secretary of State for Defence how many specialist British troops are currently engaged in peacekeeping in Darfur; and how many more he plans to send. [13767]

**Mr. Ingram:** Five British troops are currently deployed in support of the African Union Mission in Sudan (AMIS), with a further three to deploy in the course of the next month.

One UK airlift specialist has been deployed to the Addis Ababa HQ and two logistical experts have been deployed to the Joint Logistics Operations Centre in Darfur.

Two UK officers, currently embedded in NATO, have deployed to assist in developing AMIS's planning and training capabilities. A further three, also embedded in NATO, are due to deploy in the course of the next month, to perform the same function.

In addition, we have offered a team of up to 15 personnel from the Mobile Air Movements Squadron, as required to support the Africa Union's expansion requirements.

### Defence Supply Chain Review

**Tony Baldry:** To ask the Secretary of State for Defence when he will announce the outcome of the Defence Supply Chain Review. [10289]

**Mr. Ingram** *[holding answer 7 July 2005]:* I refer the hon. Member to the written statement made by my right hon. Friend the Secretary of State for Defence today.

### Defence Test and Evaluation Group

**Robert Key:** To ask the Secretary of State for Defence whether reversionary departmental freeholds are held by the Defence Test and Evaluation Group (DTEG); to whom DTEG reports; and if he will make a statement. [13319]

**Mr. Touhig:** The Defence Test and Evaluation Group (DTEG) ultimately reports to the chief executive of the Defence Procurement Agency, and is responsible for managing the Ministry of Defence's (MOD's) Long Term Partnering Agreement (LTPA) with QinetiQ for the delivery of MOD's test and evaluation requirements. The LTPA contract confers on QinetiQ a licence to occupy a number of MOD owned sites for the purpose of delivering the company's obligations under the contract. As the sites are not leased to QinetiQ, the issue of reversionary freeholds does not arise and DTEG does not hold any reversionary departmental freeholds. The sites remain in MOD ownership.

### Departmental Facilities

**Angus Robertson:** To ask the Secretary of State for Defence if he will estimate the economic value to local communities of each of his Department's facilities with staff of over 10 personnel. [14911]

**Mr. Touhig:** This information is not held centrally and could be provided only at disproportionate cost.

### Departmental Work Overview

**Chris Huhne:** To ask the Secretary of State for Defence if he will arrange a Tuesday morning briefing by Ministers and senior officials introducing the work of the Department to new hon. Members. [11045]

**Mr. Touhig:** I refer the hon. Member to the answer the Leader of the House of Commons, my right hon. Friend the Member for Ashfield (Mr. Hoon) gave on 18 July 2005, *Official Report*, column 1281W.

### Equality and Diversity

**David T.C. Davies:** To ask the Secretary of State for Defence how much the Department has spent promoting equality and diversity in each of the last five years for which figures are available. [14669]

**Mr. Touhig:** The Ministry of Defence has a wide range of policies covering all strands of diversity (including work-life balance). These policies are among the most forward thinking in the public sector and achieve a consistently high standard in audits and benchmarking exercises.

The promotion of these policies and the encouragement of equality and diversity more generally, is carried out at departmental, budget and individual unit level by both civilian staff and the armed forces. It can take many forms including staff networks, conferences, outreach projects and the sponsorship of awards. This information is not held centrally and it would be disproportionately costly to give an accurate assessment of the total amount spent by the Department on this work.

### Fleet Procurement

**Dr. Julian Lewis:** To ask the Secretary of State for Defence at what notice each *(a)* Aircraft Carrier and *(b)* Landing Platform (helicopter and dock) will be available to the fleet during the next 12 months. [13370]

**Mr. Touhig:** The current planned readiness levels of Aircraft Carriers and Landing Platforms over the next 12 months are as follows:

*Aircraft Carriers:*

HMS Illustrious (Fleet Flagship)—Very High Readiness throughout

HMS Invincible—Medium Readiness until late September 2005, then Very Low Readiness

HMS Ark Royal—Low Readiness throughout

*Landing Platforms:*

HMS Ocean—Very High Readiness throughout

HMS Bulwark—Very High Readiness until July 2006, then Medium Readiness

HMS Albion—Medium Readiness until July 2006, then Very High Readiness.

### Freedom of Information

**Pete Wishart:** To ask the Secretary of State for Defence how many Freedom of Information Act 2000 requests have been answered by the Department; and in how many cases *(a)* information was wholly exempted, *(b)* information was partly exempted and *(c)* the requests were answered in full. [14954]

**Mr. Touhig:** To date Ministry of Defence has received 3,163 requests. Details of the performance of MOD in the first three months of full operation of the Freedom of Information Act were published by the Department of Constitutional Affairs on 23 June 2005. The information includes requests received, and outcomes categorised as wholly exempted, partly exempted and answered in full. A second exercise looking at the second three months will be published by DCA in due course.

### Future Rapid Effects System

**Ann Winterton:** To ask the Secretary of State for Defence what the reasons are for the change in the Future Rapid Effects System vehicle requirement since July 2004; and how these vehicles will be deployed. [12683]

**Mr. Ingram:** The Future Rapid Effect System (FRES) is currently in the initial Assessment Phase, one of the purposes of which is to refine the requirement in the light of more detailed analysis of capabilities and technological reality.

Since July 2004 there have been two significant changes to the FRES requirement. The first is our planning assumption for the number of FRES vehicles we expect to procure. To meet the Army's requirement to replace a wide range of vehicles this assumption has been increased to around 3,500 vehicles.

The second change is the removal of the requirement for FRES vehicles to be deployable in C-130 aircraft. This was always recognised as being challenging, and further analysis has shown that to meet it we would have to make unacceptable compromises, particularly on protection. In addition, in the timeframe in which FRES will enter service the balance of our air transport fleet will shift towards the new, more capable A400M.

### Health and Safety

**Mr. Heancock:** To ask the Secretary of State for Defence what steps are taken to protect the hearing of British servicemen and women in the armed forces during active service. [13527]

**Mr. Touhig:** The Ministry of Defence, like all UK employers, is subject to the Health and Safety Executive "Noise at Work Regulations (NAWR) 1989". These require employers to take certain actions where any of their employees is likely to be exposed to noise at or above any of the three action levels set out in the Regulations. MOD procedures meet, and in many instances exceed, both these requirements and those of the Physical Agents (Noise) Directive (PA(N)D), which comes into force in February 2006. The instructions promulgated by the armed forces to their personnel are summarised as follows.

*Navy:*

Under the new regulations set out in the PA(N)D, RN warships will have until 2011 to comply with the prescribed weekly and daily limits. In 2003 the RN introduced a hearing conservation programme to ensure compliance with "NAWR 1989". This programme requires noise assessments to be carried out where personnel may be at risk from noise-induced hearing damage. Where such a risk is identified commanding officers are required to identify persons at risk, provide those potentially affected with information and awareness training, put in suitable control measures to mitigate this risk, which may include the provision of suitable hearing protection, and ensure that potentially affected personnel are provided with audiometry assessments at a frequency determined by the level of risk. Hearing protective equipment that is available to personnel complies with British Standards.

*Army:*

Hearing protection forms part of a serviceman's personal equipment that he will carry with him on operations. Additionally, hearing protection is included in the equipment schedule of the equipment that the serviceman may be operating. Whether or not the hearing protection will be worn by an individual at any one time will depend upon the role and duties of the particular individual and will, additionally, be dependant upon the hostile threat.

*RAF:*

Where RAF personnel work in an area that is deemed a noise hazard, hearing protection is issued on an individual basis. The wearing of such protection is made mandatory in the RAF at the First Action Level of "NAWR 1989", which exceeds NAWR recommendations. In addition, noise assessments are conducted to determine the level and type of hearing protection required, and any member of staff working in such an area is managed via the Hearing Conservation Programme (HCP) which includes annual audiometry testing. This concurs, and in certain areas exceeds, the recommendations made by the "NAWR 1989". Whether this protection is worn during times of hostile activity will depend not only on the hostile threat but also the role and duties of personnel involved.

We are also working with HSE on the need for hearing protection for military band personnel.

### Management Consultancies

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence which five management consultancies received the highest value of contracts awarded by his Department in each of the last three years; and what the total value was of the contracts awarded to each. [12589]

**Mr. Ingram:** This information is not held centrally in the form requested and could be provided only at disproportionate cost. However information on organisations, including Management Consultancy firms, paid £5 million or more by the Ministry of Defence in each financial year is published annually in the UK Defence Statistics. Copies are placed in the Library of the House. Summary details of the Department's spend on External Assistance (EA) covering the years since 1995–96 to 2003–04 have also been placed annually in the Library of the House.

### Maritime Forces

**Dr. Julian Lewis:** To ask the Secretary of State for Defence on what date his Department decided to take the risk referred to in para. 2.8 of the National Audit Office report on assessing and reporting military readiness to reduce resource allocations to maritime forces for the first two years of the 2004–05 to 2007–08 planning period; and which Ministers took that decision. [9693]

**Mr. Ingram** *[holding answer 7 July 2005]:* The decision to reduce the resources allocated to logistic support for the Royal Navy was taken by my right hon. Friend the then Secretary of State for Defence around the end of March 2004 as part of ministerial consideration of the forward defence programme.

### McKinsey and Co.

**Norman Baker:** To ask the Secretary of State for Defence how many contracts have been awarded to McKinsey and Co. since 1 January 2000; how many and what percentage of contract awards followed a competitive tendering process; and what the cost of each contract is. [10809]

**Mr. Ingram** *[holding answer 11 July 2005]:* The Ministry of Defence has awarded McKinsey and Co. 15 contracts since 1 January 2000.

£

| *Project* | *Contract Cost* |
|---|---|
| Development of the DLO (Defence Logistics Organisation) Change Programme Benefits Tracking Process | 217,000 |
| Support to Equipment Capability | 200,000 |
| Consultancy Support for the Implementation of the SMART Procurement Initiative | 340,000 |
| Support to the MOD Change Programme | 2,223,000 |
| Support to the DLO Procurement Review Group | 2,445,000 |
| Support to E2E (End to End) Review of Air and Land Environments | 4,985,000 |
| Re-Invigorating SMART Acquisition within the DPA | 300,000 |
| Support to the Implementation and Rollout of the DLO Benefits Tracking Tool | 360,000 |
| Bridging Consulting Support to E2E Detailed Planning | 1,000,000 |
| Support to the Procurement Reform Project | 6,996,000 |
| Support to Implementation of E2E Detailed Planning | 10,625,000 |
| Support to Eurofighter Project | 182,500 |
| Consultancy Support for the Strategic Partner to the DLO Transformation Programme | 22,841,280 |
| Consultancy support in applying the principles and techniques of the Lean Process Design to the E2E Support Chain | 220,000 |
| Consultancy Support to the Business Management System Review | 75,000 |

*Note:*
These figures show the cost of each contract: some contracts are not yet completed and further payments are scheduled.

Five of these contracts (33 per cent.) were competitively tendered. In addition, seven contracts (47 per cent.) were placed with McKinsey and Co. on a single source basis, since they related to work that had already been placed with the company following competitive tender.

In addition details of the Department's spend on External Assistance (EA) has been reported to Ministers since 1995–96 and summaries have been placed in the Library of the House.

## Mental Health

**Chris Bryant:** To ask the Secretary of State for Defence how many people left the *(a)* Army, *(b)* Navy and *(c)* Royal Air Force due to mental health problems in each of the last 10 years. [13426]

**Mr. Touhig:** In the 10 year period 1995–2004, 1,355 *Regular Service personnel were* medically discharged from the UK armed forces due to a condition categorised to the International Statistical Classification of Diseases and Related Health Problems, 10th Revision, Chapter 5 "Mental and behavioural disorders". A breakdown by Service and year of medical discharge is provided in Table A.

*Table A: UK regular armed forces medically discharged for mental and behavioural disorders, 1995–2004*

| *Service* | *Army* | *Naval Service* | *RAF* |
|---|---|---|---|
| Total | 840 | 289 | 226 |
| 1995 | 79 | 22 | 27 |
| 1996 | 49 | 26 | 19 |
| 1997 | 88 | 16 | 18 |
| 1998 | 98 | 31 | 18 |
| 1999 | 58 | 25 | 18 |
| 2000 | 64 | 42 | 21 |
| 2001 | 103 | 30 | 23 |
| 2002 | 112 | 38 | 11 |
| 2003 | 86 | 35 | 25 |
| 2004 | 103 | 24 | 46 |

*Note:*
Medical discharges between the Services should not be compared due to the different fitness levels required by each Service (and within different cadres) and the employment policy of each Service.

## Meteorological Office

**Malcolm Bruce:** To ask the Secretary of State for Defence how many *(a)* military and *(b)* civilian weather observation stations and weather centres there are in the UK, broken down by location; which stations have closed since 2001, broken down by date of closure; and which stations have been identified for closure. [9236]

**Mr. Touhig:** There are 27 meteorological stations responsible for forecasting and observing based at military locations. Their locations are:

*Scotland*
- Kinloss
- Leuchars
- Lossiemouth
- South Uist

*Wales*
- Aberporth
- Valley

*England*
- Benson
- Boscombe Down
- Brize Norton
- Coltishall
- Coningsby
- Cranwell
- Dishforth
- High Wycombe
- Larkhill
- Leeming
- Linton on Ouse
- Lyneham
- Middle Wallop
- Northolt
- Odiham
- Shawbury
- St. Mawgan
- Waddington
- Wattisham
- Wittering

*Northern Ireland*
- Belfast—responsibility for both military and civil forecasting

There are eight civil forecasting stations:
- Aberdeen Dyce
- Aberdeen
- Cardiff
- Birmingham
- London
- London Heathrow
- London Media
- Manchester

There are nine civil observation sites:
- Edinburgh
- Eskdalemuir
- Glasgow
- Lerwick
- Camborne
- Crawley
- Lathom
- Tilbury
- Watnall

The following stations have closed since 2001:
- Boulmer (1 March 2002)
- Bristol (9 May 2001)
- Eskmeals (6 April 2001)
- Glasgow (18 September 2003)
- Kirkwall (1 August 2001)
- Leeds (19 September 2001)
- Manchester Airport (1 November 2004)
- Newcastle (30 July 2001)
- SellaNess (1 April 2004)
- Stornoway (1 September 2002)
- Tiree (1 August 2001)

The following station closures are planned:
- London Heathrow (November 2005) civil
- Aberdeen Dyce (February 2006) civil
- Coltishall (April 2006) military

In addition, it is planned to reduce the operation at Eskdalemuir.

### Military Afloat Reach and Sustainability Project

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answer of 22 June 2005, *Official Report*, column 1066, on the Military Afloat Reach and Sustainability project, what the time scale is for the project in terms of *(a)* main gate approval and *(b)* an in service date. [12252]

**Mr. Ingram:** On current planning we would expect main gate approval for the Military Afloat Reach and Sustainability (MARS) programme to be sought in 2008; the in-service date for the MARS vessels will not be endorsed until the main investment decision is taken at that point.

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answer of 22 June 2005, *Official Report*, column 1066, on the Military Afloat Reach and Sustainability Project, if he will list the companies who have responded. [12254]

**Mr. Ingram:** The following companies have responded as wishing to continue in the competition to select the Integrator for the Military Afloat Reach and Sustainability (MARS) programme:

Amec
BAE Systems
General Dynamics UK
Houlder Offshore Co.
KBR
Maersk
Raytheon Systems Ltd.
Thales
VT Group

### Nuclear Deterrent

**Dr. Julian Lewis:** To ask the Secretary of State for Defence pursuant to his answer of 5 July 2005, *Official Report*, column 260W, whether the maintenance of nuclear weapons by other countries will be a determining factor in the United Kingdom's forthcoming decision about replacing Trident with a new generation nuclear deterrent. [11109]

**John Reid:** As the Government made clear in the 1998 Strategic Defence Review (Cm 3999) and in the December 2003 Defence White Paper (Cm 6041–1), because of the risks of proliferation of nuclear weapons, and the certainty that a number of countries will retain substantial nuclear arsenals, the UK's minimum deterrent is likely to remain a necessary element of our security.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence whether the cost of a future generation nuclear deterrent will fall on *(a)* the Exchequer, *(b)* the Defence Budget and *(c)* the budget of the single service supplying the deterrent. [13374]

**John Reid:** No decisions on any replacement for the UK's nuclear deterrent have yet been taken, either in principle or in detail. It is therefore too early to speculate on the possible costs of a replacement programme, should one be required, or on how such a programme might be funded.

**Mr. Moore:** To ask the Secretary of State for Defence (1) what discussions *(a)* he and *(b)* officials in his Department have had with United States officials regarding the replacement of Trident; whom they involved; when they took place; and if he will make a statement; [13964]

(2) what discussions *(a)* he and *(b)* officials in his Department have had with (i) UK defence companies and (ii) overseas defence companies regarding the replacement of Trident; whom they involved; when they took place; and if he will make a statement. [13965]

**Mr. Salmond:** To ask the Secretary of State for Defence what discussions he has had with his US counterparts on the replacement of the Trident nuclear weapons system. [14989]

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what recent discussions his Department has had with US counterparts about the next generation of the UK nuclear deterrent. [14492]

**John Reid:** No decisions have yet been taken on any replacement for Trident. Information obviously needs to be gathered from a variety of sources to support these future decisions, but it is not our general practice to comment on the detail of any such discussions with other Governments and industry.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence whether the £1,050,000,000 to be spent over the next three years on upgrading facilities for the Atomic Weapons Establishment will be relevant *(a)* only to the existing Trident warhead stockpile and *(b)* also to a future generation of the UK nuclear deterrent. [14493]

**John Reid:** The additional investment, averaging some £350 million over each of the next three years, is required to enable us to ensure the safety and reliability of Trident throughout its service life. This investment is required irrespective of future decisions on any replacement for the current deterrent system.

### Portsmouth Dockyard

**Mr. Hancock:** To ask the Secretary of State for Defence if he will make a statement on the future of the PRIME project for developing the dockyard in Portsmouth. [11287]

**Mr. Touhig:** The purpose of project PRIME (the Portsmouth Regeneration and Investment in the Maritime Estate project) was to release part of the Portsmouth naval base estate for development. Work on PRIME has been halted after concerns emerged about the effect that proceeding with the project would have on the base's operational role. A key requirement, stated at the outset of the project, was to safeguard full operational capability of the base. After careful analysis it has been decided that the constraints that a development of this nature, in the heart of the historic dockyard, might place on operational capability outweigh the potential benefits of the scheme. Survey and technical work undertaken by the project will be fully utilised during the exploration of other options for the use of elements of the naval base estate.

The Ministry of Defence's commitment to Portsmouth, as demonstrated by the move there of the fleet headquarters in 2002, will continue. It is to be the base for the next generation of warships and this represents a major investment that will preserve and enhance jobs in the area and safeguard Portsmouth's role as an operational naval base at the heart of the city's economic activity.

### Royal Navy Vessels

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the major Royal Navy vessels available for *(a)* each standing task and *(b)* ad hoc tasks. [13371]

**Mr. Ingram:** The following major Royal Navy warships are assigned to current military tasks:

UK Maritime Security: HMS Montrose

Mediterranean (Nato's Standing NRF Maritime Group 2): HMS Somerset

Atlantic Patrol Task (South): HMS Portland

Gulf: HMS Argyll

Atlantic Patrol Task (North): HMS Liverpool

Arabian Sea and Indian Ocean: HMS York (double assigned as JRRF unit)

The following major Royal Navy warships are available to the Joint Rapid Reaction Force at High or Very High Readiness for contingent operations:

HMS Illustrious

HMS Ocean

HMS Albion

HMS Cumberland

HMS Campbeltown

HMS Chatham

HMS Nottingham

HMS York

HMS Exeter

HMS Westminster

HMS Sutherland

HMS St. Albans

HMS Monmouth

HMS Lancaster

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what his latest assessment is of the ability of the Fleet to protect itself against *(a)* missile and *(b)* aircraft attack. [13373]

**Mr. Ingram:** The Fleet has a very robust defensive system against a variety of missile types. The Sea Dart missile system has recently been upgraded to enable it to combat more challenging threats. The Sea Wolf missile, fitted to RN frigates, is designed specifically to combat sea skimming threats. In addition, a range of decoy systems, provide defence against air and surface launched anti-ship missiles. Further developments in air defence are programmed to be implemented by 2009.

The air defence of the Fleet is comprised of a layered system based on a mix of early warning and protection systems which includes Sea Dart and Sea Wolf missiles, close-in weapon systems and decoys.

### Royal Ordnance

**Mr. Hoyle:** To ask the Secretary of State for Defence whether his Department uses the Royal Ordnance store in Chorley for holding ordnance. [13663]

**Mr. Ingram:** The Ministry of Defence does not use storage facilities belonging to BAE Systems Land Systems (formerly Royal Ordnance) at Chorley.

**Dr. Pugh:** To ask the Secretary of State for Defence (1) whether the Government will take the date of transfer of the Royal Ordnance Factory Organisation as being the date of sale of that body to British Aerospace in October 1987; [12155]

(2) whether the Government's responsibilities to former Royal Ordnance Factory employees who are now members of the Royal Ordnance Crown Service Pension Scheme include *(a)* the benefits of a public-to-private transfer and *(b)* protections afforded by the Social Security Act 1995. [12156]

**Mr. Ingram:** The Royal Ordnance Factories (ROFs) were part of the Ministry of Defence until 2 January 1985, when the property, rights and liabilities were vested in Royal Ordnance plc. At that time ROF employees were given the option of transferring their pension benefits to the Royal Ordnance (Crown Service) Pension Scheme (a scheme comparable with the Principal Civil Service Pension Scheme PCSPS) or to preserve their benefits in the PCSPS. The questions of whether the date of transfer is considered to be 1985 or 1987 or whether those transferred are covered by the 1985 Social Security Act are points of law on which independent legal advice should be sought if required.

### Second World War (60th Anniversary)

**Damian Green:** To ask the Secretary of State for Defence what financial support he has provided to the Royal Commonwealth Ex-Services League in relation to the commemoration of the 60th anniversary of the end of the second world war. [12933]

**Mr. Touhig:** The Ministry of Defence has not provided financial support to the Royal Commonwealth Ex-Services League in relation to events commemorating the 60th anniversary of the end of the second world war.

The MOD provided financial support to those organisations who applied for administrative costs in support of the Veterans Awareness Week which culminated in the events on 10 July 2005 to mark the 60th anniversary of the end of the second world war. We have no record of such an application from the Royal Commonwealth Ex-Services League.

### Ships (Fitted Equipment)

**Dr. Julian Lewis:** To ask the Secretary of State for Defence which of the 65 RN and RFA ships which donated ships' fitted equipment between 1 January 2004 and 31 March 2005 remain unavailable for deployment at sea; and for what reason in each case. [14079]

**Mr. Ingram:** RN and RFA ships that have donated ship's fitted equipment and remain unavailable for deployment at sea are as follows.

| Name of ship | Reason for unavailability for deployment |
|---|---|
| HMS Ark Royal | Upkeep |
| HMS Bridport | Disposal |
| HMS Cardiff | Disposal |
| HMS Cornwall | Upkeep |
| HMS Edinburgh | Upkeep |
| HMS Glasgow | Disposal |
| HMS Inverness | Disposal |
| HMS Marlborough | Disposal |
| HMS Newcastle | Disposal |
| HMS Norfolk | Disposal |
| HMS Northumberland | Upkeep |
| HMS Richmond | Upkeep |
| HMS Sandown | Disposal |
| RFA Sir Percival | Disposal |
| HMS Splendid | Disposal |
| HMS Talent | Upkeep |
| HMS Tireless | Re-validation maintenance period |
| HMS Triumph | Upkeep |
| HMS Victorious | Upkeep |

The primary sources of donors for STOROB, the name given to the process of transferring ship's fitted equipment from one vessel to another, are ships in upkeep and those awaiting disposal. None of the ships listed in the table are unavailable for deployment as a result of the STOROB process, but for the other reasons stated.

### Special Advisers

**Bob Spink:** To ask the Secretary of State for Defence if he will list *(a)* the special advisers in his Department, *(b)* their specific areas of expertise and *(c)* the total cost of employing them in the latest year for which figures are available. [8827]

**Mr. Touhig:** I refer the hon. Member to the answer given by my right hon. Friend the Prime Minister on 4 July 2005, *Official Report*, column 35W.

### Submarines (SSBNs)

**Dr. Julian Lewis:** To ask the Secretary of State for Defence how many warheads are carried by each SSBN on patrol; and if he will make a statement. [13372]

**Mr. Ingram:** As stated in the Strategic Defence Review, Para. 67, we have only one submarine on patrol at a time, carrying a load of 48 nuclear warheads.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence in which year each *(a)* SSBN and *(b)* SSN is due to be decommissioned; and in which year each replacement submarine is due to enter service. [13049]

**Mr. Ingram** *[holding answer 20 July 2005]:* No decisions have been taken on the out of service dates (OSDs) for the Royal Navy's Vanguard class SSBNs, nor about any potential replacement. The current planned OSDs for the Swiftsure and Trafalgar class SSNs are detailed as follows:

Swiftsure class SSNs:

| OSD | SSN |
|---|---|
| 2006 | HMS Sovereign |
| 2008 | HMS Superb |
| 2010 | HMS Sceptre |
| 2006 | HMS Spartan |

Trafalgar class SSNs:

| OSD | SSNs |
|---|---|
| 2008 | HMS Trafalgar |
| 2011 | HMS Turbulent |
| 2013 | HMS Tireless |
| 2015 | HMS Torbay |
| 2017 | HMS Trenchant |
| 2019 | HMS Talent |
| 2022 | HMS Triumph |

The new Astute class SSNs will progressively supersede the current capability. The first of class is planned to enter service in 2009.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence by what means UK submarine-building capacity will be maintained after the completion of the order for three Astute-class boats. [13050]

**Mr. Ingram** *[holding answer 20 July 2005]:* We have already ordered two packages of long-lead items for the fourth Astute boat, and we expect to place contracts for a third package of long-lead items later this year.

We are working jointly with industry to develop a Maritime Industrial Strategy, as part of a wider Defence Industrial Strategy, which includes work to develop a longer-term solution to maintain the United Kingdom's submarine industrial base.

### Surface Fleet

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answer of 28 June 2005, *Official Report*, column 1400W, on surface fleet, if he will identify each of the 25 destroyers and frigates mentioned on page 18; and if he will make a statement. [11223]

**Mr. Ingram:** I refer the hon. Member to the answer I gave him on 19 July 2005, *Official Report*, column 1540W, about Royal Navy destroyers and frigates.

### Territorial Army

**Mr. Hoyle:** To ask the Secretary of State for Defence what the strength is of the Territorial Army in *(a)* Lancashire and *(b)* Chorley; and how many of these volunteers have served overseas. [13008]

**Mr. Touhig:** The strength of the Territorial Army in Lancashire is some 540 personnel, of which some 75 are based in Chorley. Since January 2003 some 185 personnel from Lancashire, including some 40 from Chorley, have served overseas.

**Mr. David Hamilton:** To ask the Secretary of State for Defence how many members of the Territorial Army in Scotland are stationed in Iraq. [14791]

**Mr. Touhig:** There are currently some 210 Territorial Army personnel from Scotland mobilised in support of operations in Iraq.

### Warship Sales

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will list the Royal Navy and Royal Fleet Auxiliary vessels sold to other countries since 1997; and

what sums *(a)* were spent on preparing each of them for transfer and *(b)* were received from the purchasing countries as a result of each sale. [13052]

**Mr. Ingram** *[holding answer 20 July 2005]:* The information is not held centrally and is not readily available. Officials are retrieving information from files and once this has been completed I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

### Withdrawn Military Equipment

**Mr. Hoyle:** To ask the Secretary of State for Defence how many aircraft *(a)* were withdrawn from service in 2004–05 and *(b)* are planned to be withdrawn from service in 2005–06, broken down by type. [12512]

**Mr. Ingram:** The numbers of aircraft withdrawn from service, or are planned to be withdrawn from service are listed in the following table. The figures include aircraft lost as a result of accidents or during operations and commercially owned military registered (COMR) aircraft.

| *Aircraft type* | *Withdrawn in 2004–05* | *Planned withdrawal in 2005–06* |
|---|---|---|
| Sea Harrier | 8 | 18 |
| Harrier T8 | — | 1 |
| Harrier T10 | 1 | — |
| Jaguar GR1A | 3 | — |
| Jaguar GR3 | — | 1 |
| Jaguar GR3A | — | 32 |
| Jaguar T2A | 3 | 1 |
| Jaguar T4 | — | 7 |
| Canberra PR9 | — | 5 |
| Canberra T Mk4 | 2 | 1 |
| Tornado F3 | 8 | 15 |
| Nimrod MR2 | — | [1]5 |
| Hercules C-130K | 1 | — |
| VC10K4 | — | 2 |
| VC10 CMklK | — | 1 |
| Jetstream Mkl | 11 | — |
| Tucano | 1 | — |
| Sea King HAS Mk6 | 1 | 5 |
| Puma HC Mkl | 1 | — |
| Gazelle AH Mkl | 5 | 3 |
| Lynx HAS Mk3 | 1 | 4 |
| Lynx HMA Mk8 | — | 3 |
| Lynx AH Mk7 | 1 | 3 |
| Lynx AH Mk9 | — | 1 |
| Single Squirrel (COMR) | 1 | — |
| Twin Squirrel (COMR) | — | 3 |

[1] Four aircraft will be converted to Nimrod MRA4. The future of the fifth aircraft has yet to be decided.

## TRANSPORT

### A2

**Mr. Evennett:** To ask the Secretary of State for Transport what surveys have been undertaken by his Department in the past year of traffic flows on the A2 through Bexley borough. [12849]

**Dr. Ladyman:** DfT has three locations on the A2, in the London borough of Bexley, at which traffic flow counts are conducted. The table provides details on these three locations with the traffic survey 12-hour raw data results for both 2004 and 2005.

| | *Traffic flow 'Count point'* | | |
|---|---|---|---|
| | *26,102* | *36,497* | *6,097* |
| Date counted in 2004 | 15 October | 23 June | [1]not counted |
| 12-hour motorised traffic from 2004 survey[2] | 72,892 | 83,504 | n/a |
| Date counted in 2005 | 26 April | 19 April | 9 May |
| 12-hour motorised traffic from 2005 survey[2] | 71,741 | 80,531 | 84,611 |
| Start of road link | Greenwich boundary | Junction with A221 | Junction with A223 |
| End of road link | Junction with A221 | Junction with A223 | Kent boundary |

[1] Not all major road 'Count Point' sites for surveying traffic are included in the sample for the survey every year.
[2] At each Count point, weekday counts are made of 11 vehicle types for the 12 hours from 7am to 7pm. They are scheduled to minimise the effects of possible seasonal factors etc., by counting during "neutral weeks", in March, April, May, June, September and October.

The 12-hour Road Traffic Survey figures are used to make estimates of the Annual Average Daily Flow (AADF) of traffic on the link. Estimates of AADFs in 2004 were published on 7 July 2005. The estimates for these particular traffic Count Points are given in the following table.

| | *Traffic flow 'Count point'* | | |
|---|---|---|---|
| | *26,102* | *36,497* | *6,097* |
| Pedal cycles AADF | 10 | 12 | 13 |
| Motorcycles | 2,269 | 1,793 | 3,104 |
| Cars and taxis | 71,838 | 84,577 | 81,555 |
| Buses and coaches | 452 | 794 | 492 |
| Light goods vehicles | 12,070 | 14,030 | 14,927 |
| Heavy goods vehicles | 4,867 | 4,811 | 6,241 |
| All motorised vehicles | 91,496 | 106,005 | 106,319 |

**Mr. Evennett:** To ask the Secretary of State for Transport what representations he has received concerning the A2 in South London during the past 12 months. [12848]

**Dr. Ladyman:** None. The A2 in South London forms part of the Transport for London Road Network (TLRN) and is the responsibility of the Mayor and Transport for London (TfL).

### A419/417 (Resurfacing)

**Mr. Clifton-Brown:** To ask the Secretary of State for Transport when the concrete section of the A419/417 Swindon to Gloucester Road will be resurfaced. [12852]

**Dr. Ladyman:** The concrete section of the A419/417 is in good condition, and is not programmed for resurfacing over the spending review period from 2005–06 to 2007–08. When developing the forward maintenance programme, the Highways Agency prioritises the available resources to maintain the network in a safe and serviceable condition, while minimising whole life costs. Concrete sections of trunk roads and motorways will be resurfaced with quieter surfacing when the need for major maintenance works arises on the route concerned.

### Air Traffic

**James Brokenshire:** To ask the Secretary of State for Transport (1) how many scheduled commercial flights to and from *(a)* Gatwick airport, *(b)* Luton airport, *(c)* Southend airport, *(d)* City of London airport, *(e)* Heathrow airport and *(f)* Stansted airport passed over or within one mile of the boundaries of Hornchurch constituency at an altitude of 8,000 feet or less in each year from 1997 to 2005; [13771]

(2) how many flights passed over Hornchurch constituency or within one mile of its boundaries, at an altitude of 8,000 feet or less, in the month of June between the hours of 11.00pm and 6.00am; and if he will make a statement; [13782]

(3) which scheduled commercial flightpaths pass over Hornchurch constituency at an altitude of less than 8,000 feet. [13783]

**Ms Buck:** These are operational matters for NATS and information is not readily available in the form requested. I suggest the hon. Gentleman writes to the chief executive of NATS to see what assistance he can be given with his enquiries.

**James Brokenshire:** To ask the Secretary of State for Transport how many scheduled commercial flights to and from *(a)* Gatwick airport, *(b)* Luton airport, *(c)* Southend airport, *(d)* City of London airport, *(e)* Heathrow airport and *(f)* Stansted airport there were in each year from 1997 to 2005. [13773]

**Ms Buck:** The following table shows scheduled commercial flights to and from Gatwick, Heathrow, London City, Luton, Southend and Stansted airports in each year from 1997 to 2004. Annual data for 2005 are not yet available.

*Scheduled commercial flights to and from selected UK airports: 1997–2004*

*Thousand*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* |
|---|---|---|---|---|---|---|---|---|
| Gatwick | 174.3 | 186.4 | 191.5 | 197.2 | 189.5 | 177.7 | 180.2 | 190.3 |
| Heathrow | 427.9 | 439.8 | 448.1 | 458.3 | 456.1 | 458.4 | 455.4 | 467.8 |
| London City | 32.0 | 36.8 | 41.4 | 48.9 | 53:7 | 52.8 | 47.8 | 53.0 |
| Luton | 27.6 | 32.7 | 40.5 | 44.4 | 45.4 | 47.3 | 52.1 | 58.5 |
| Southend[1] | — | — | — | — | 0.1 | — | — | — |
| Stansted | 66.3 | 84.4 | 116.7 | 128.0 | 135.6 | 138.0 | 156.3 | 163.9 |

[1] There were 149 scheduled commercial flights to or from Southend airport in 2001. The number of flights in other years range between four and 36.

### Car Clubs

**Mr. Burstow:** To ask the Secretary of State for Transport what plans he has to evaluate the effects his Department's report "Smarter Choices: Changing the Way we Travel" and "Making Smarter Choice Work" and "Making Car Sharing and Car Clubs Work" have had on the development of car clubs and car sharing. [7190]

**Ms Buck:** We evaluate as a matter of course the effectiveness of our programmes to promote smarter choices, such as the travelling to school initiative and the sustainable travel towns project. However, it would not be practical or cost-effective to carry out individual evaluations of research reports and good practice guides. We will instead be monitoring the take up of sustainable travel measures as part of our work with local authorities on the development and implementation of local transport plans.

### Car Stereos

**Norman Baker:** To ask the Secretary of State for Transport if he will take steps to set a maximum volume level for car stereos. [12533]

**Dr. Ladyman:** The Government consider the existing enforcement provisions to be the most suitable means for controlling the volume level for car stereos.

### Consultants

**Mr. Austin Mitchell:** To ask the Secretary of State for Transport what estimate he has made of the total expenditure saved in each of the last three years as a result of implementing recommendations by management consultancies within his Department. [13626]

**Ms Buck:** The information is not held centrally and could be provided only at disproportionate cost.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what estimate he has made of the costs of consultant fees incurred in connection with the transfer of the Strategic Rail Authority to DfT Rail. [13247]

**Derek Twigg:** Consultants have been used by the Department to help establish the new Rail Group by providing support on programme management, and organisation and process design. The cost is estimated to be £1.25 million excluding VAT.

### Container Terminals

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what volume of traffic from new deep sea container terminals is required to be moved by rail; and how many planning applications for new container terminals are being considered with a view to achieving that volume. [13916]

**Dr. Ladyman:** The extent to which container traffic can be moved by rail for a given port development has to be considered on a case by case basis according to the nature and level of traffic through the port. All of the current planning applications with my Department are being considered on the basis of the rail market share submitted in those applications.

### Crossrail

**Mrs. Hodgson:** To ask the Secretary of State for Transport what recent research his Department has undertaken into the benefits of Crossrail. [13365]

**Derek Twigg** *[holding answer 20 July 2005]:* On 5 July 2005, the Secretary of State placed in the Library a paper called "Transport, Wider Economic Benefits, and Impacts on GDP". This paper looks at transport schemes more generally but includes an assessment of the benefits of Crossrail, drawing on the economic appraisal for Crossrail carried out by Cross London Rail Links—the Crossrail development company—and including wider benefits not previously quantified in the Department's appraisal methodology.

In addition, my Department conducted a modelling exercise in 2003 to examine the potential impact of population and employment growth, land use changes and airport development on the transport networks in South East England in 2016. The results of this exercise, including an assessment of the impact of Crossrail, were placed in the Library on 19 July 2005.

### East London Line

**Mrs. Lait:** To ask the Secretary of State for Transport (1) what recent discussions he has had with Transport for London about the disruption to passenger services as work progresses on the East London line extensions; [11641]

(2) what recent discussions he has had with Transport for London concerning the timetable for construction of the East London line extensions and progress on Phase 2 of the extensions; [11643]

(3) what recent discussions he has had with Transport for London on the closure of the central section of the East London line, north of New Cross Gate to Shoreditch, during work on the East London line extensions. [11644]

**Derek Twigg:** Regular meetings are held between the Secretary of State and Transport for London on rail issues but no specific discussions have taken place on the points raised in the questions.

### M1

**Mr. Greg Knight:** To ask the Secretary of State for Transport for what reasons two cameras have been erected on a gantry overhanging the southbound carriageway of the M1 motorway just south of junction 21; whether such cameras are *(a)* permanent and *(b)* temporary; and if he will make a statement. [13604]

**Dr. Ladyman:** Speed Enforcement Cameras have been erected on the M1, both Northbound and Southbound, between Junctions 20 and 21. These temporary cameras are mounted on distinctive columns that are in the verge and extend over the carriageway, at various locations throughout the length the major maintenance works currently under way on the M1.

For safety reasons they are designed to ensure that the temporary speed limit of 40 mph is adhered to throughout the length of the works.

**Mr. Greg Knight:** To ask the Secretary of State for Transport for what reason a speed limit of 40 mph has been imposed on the M1 motorway north of Junction 20 where roadworks are being carried out. [13666]

**Dr. Ladyman:** 40mph speed limit has been imposed for the duration of the works in order to ensure the safety of the travelling public and the workforce, undertaking major maintenance works on the M1 between junction 20 and 21.

### M6 (Junction 34)

**Geraldine Smith:** To ask the Secretary of State for Transport what his plans are for remodelling and improving safety on junction 34 of the M6 motorway; and what the timescale is for implementation. [14026]

**Dr. Ladyman:** The Highways Agency, which is responsible for the M6 Motorway, has no current plans to remodel junction 34. Scheduled routine maintenance works will be undertaken, and safety will continue to be monitored.

### Miss Shriti Vadera

**Mr. Duncan:** To ask the Secretary of State for Transport if he will list *(a)* discussions and *(b)* meetings (i) officials and (ii) Ministers in his Department had with Miss Shriti Vadera during 2001, broken down by (A) date and (B) subject. [13490]

**Derek Twigg** *[holding answer 19 July 2005]:* The information requested could only be provided at disproportionate cost.

### Motoring Offences

**Mr. Amess:** To ask the Secretary of State for Transport if he will list the new motoring offences created by legislation sponsored by his Department since 1997. [10387]

**Dr. Ladyman:** The expression "motoring offences" has been interpreted fairly widely and taken to include matters relating to vehicle approvals, construction and use of vehicles, traffic regulation, vehicle licensing and registration, number plates and suppliers thereof, carriage of dangerous goods and radioactive material, private hire vehicles, the wearing of seat belts and the testing for drink and drugs.

In many cases there is a provision in primary legislation which provides that it is an offence to contravene or fail to comply with statutory instruments made thereunder. Such instruments are listed but only those which were made on or after 29 May 2002 as that was the date on which this Department came into being.

Similarly, only primary legislative provisions created on or after that date are listed save where regulations listed have an effect upon what may constitute an offence under those provisions.

The relevant legislative provisions have been placed in the Libraries of the House.

### Olympic Games

**Mr. Hancock:** To ask the Secretary of State for Transport what the implications are of the successful bid to hold the 2012 Olympic Games in London for the *(a)* workload and *(b)* staffing levels of his Department. [11675]

**Ms Buck:** The delivery of a successful Olympic Games in 2012 will be treated like any other Government priority, and resources will be found within existing departmental staffing levels.

### Operation Ariel

**Mr. Duncan:** To ask the Secretary of State for Transport if he will list each person in his Department involved in Operation Ariel during 2001; if he will list meetings in relation to the project which representatives of his Department attended; and if he will place the minutes in the Library. [13491]

**Derek Twigg** *[holding answer 19 July 2005]:* The information requested could be provided only at disproportionate cost.

### Policy Costings

**Dr. Cable:** To ask the Secretary of State for Transport what costings of *(a)* Liberal Democrat and *(b)* Conservative party policies his Department has (i) undertaken, (ii) co-ordinated in the previous 12 months and (iii) advised upon in the previous 12 months. [7004]

**Ms Buck:** I refer the hon. Member to the answer given by my right hon. Friend the Financial Secretary on 18 July 2005, *Official Report*, column 1334W.

### Port Traffic Forecasts

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the terms of reference are for work to be carried out by consultants on port traffic forecasts and trans-shipment economic implications. [13241]

**Dr. Ladyman:** A copy of the terms of reference has been placed in the Libraries of the House.

### QinetiQ

**Mr. Gerald Howarth:** To ask the Secretary of State for Transport what assessment he has made of the contribution which QinetiQ's scanner technology could make to security on public transport. [12437]

**Ms Buck:** The Department has a continuous programme of assessing how new technology could improve transport security. The Department has supported development of scanner technology over a number of years, both financially and through the provision of operational information.

### Rail Freight

**Paul Flynn:** To ask the Secretary of State for Transport what plans he has to encourage the transfer of movements of heavy freight loads from road to rail. [11321]

**Alan Simpson:** To ask the Secretary of State for Transport what steps his Department is taking to make the carriage of freight by rail more attractive. [12816]

**Derek Twigg:** I refer my hon. Friends to the statement the Secretary of State made on 19 July 2005, *Official Report*, column 71–73WS, setting out the Government's policy towards rail freight.

**Alan Simpson:** To ask the Secretary of State for Transport if he will bring forward proposals for legislation to limit track access charges levied by Network Rail in respect of rail freight. [12818]

**Derek Twigg:** Existing legislation already provides for the Office of Rail Regulation to determine and approve the freight access charges levied by Network Rail. In doing so, ORR is required to ensure that the charges are in line with the charging principles in EU Directive 2001/14.

Rail freight's ability to compete against road and other modes is dependent upon stable and affordable charging for access to the network. The Government supports this and believes it is best achieved through the principle of freight operators paying charges which reflect only the costs that they impose upon the network (in line with the charging principles set out in EU Directive 2001/14). We will therefore work with the rail industry and ORR so that this remains the case.

### Rail Projects

**Mr. Duncan:** To ask the Secretary of State for Transport how many capital projects in the rail industry worth over £500 million have commenced in London since 1997. [12744]

**Mr. Darling:** The following heavy rail infrastructure projects costing over £500 million have commenced in London since 1997:

East London line extension

Channel Tunnel Rail Link

Southern Power Upgrade/Mark 1 replacement.

### Rail Safety (Obstacle Detection)

**Kelvin Hopkins:** To ask the Secretary of State for Transport (1) if he will set out the timetable for the Rail Safety and Standards Board's investigation into obstacle detection technologies; and when it will produce its report; [13375]

(2) if he will list the systems being trialled by the Rail Safety and Standards Board in its investigation into obstacle detection technology for use at unmanned level crossings. [13376]

**Derek Twigg:** The Rail Safety and Standards Board (RSSB) is currently developing a research project on behalf of the rail industry to apply some rigour to the potential application of obstacle detection systems. It is currently planned that the project will produce its report towards the end of summer 2006.

The RSSB advise that a thorough investigation of the technology available will form part of the research, but at this stage they do not intend to trial any particular system.

## Rail Services

**Mr. Burns:** To ask the Secretary of State for Transport how many rail passenger journeys were made between Chelmsford and London-Liverpool Street Station in *(a)* 1997 and *(b)* the latest year for which figures are available. [10303]

**Derek Twigg** *[holding answer 12 July 2005]*: The information requested is not currently available. I will write to the hon. Member in due course as soon as information is available.

**Mrs. James:** To ask the Secretary of State for Transport what estimate he has made of the proportion of commuters using London Paddington to Swansea train services since rail privatisation who travel during peak hours. [7753]

**Derek Twigg:** This information is not held centrally.

## Railtrack

**Mr. Duncan:** To ask the Secretary of State for Transport if he will list payments made by his Department to Railtrack in each month between January 2000 and the date of its administration order. [13487]

**Mr. Darling** *[holding answer 19 July 2005]*: Payments made to Railtrack by the Strategic Rail Authority (SRA) and its predecessor the Shadow SRA in this period were as follows:

| *Month* | *Amount (£)* |
|---|---|
| *Shadow Strategic Rail Authority* | |
| February 2000 | 2 |
| April 2000 | 29 |
| June 2000 | 1 |
| October 2000 | 1 |
| January 2001 | 164 |
| *Strategic Rail Authority* | |
| March 2001 | 59 |
| April 2001 | 77 |
| May 2001 | 22,532 |
| June 2001 | 27 |
| July 2001 | 24 |
| September 2001 | 1,000 |
| October 2001 | 336,590 |

The vast majority of Railtrack's income came from access charges levied on train operating companies rather than through direct payments from Government. However, a number of payments were made to the company between January 2000 and September 2001 by the SRA and the Shadow SRA. A number of these, including the payment of £23 million in May 2001, relate to feasibility studies for infrastructure schemes. On 1 October 2001, the SRA paid to Railtrack a Network Grant of £337 million. The Railway Administration Order in relation to Railtrack was made on 7 October 2001.

**Mr. Duncan:** To ask the Secretary of State for Transport what assessment was made by his Department of the West LB bid for Railtrack in April 2002; and if he will make a statement. [13488]

**Mr. Darling** *[holding answer 19 July 2005]*: Officials at the Department for Transport's predecessor had discussions with West LB about its interest in bidding for Railtrack in late 2001 and early 2002. However, West LB did not submit a formal bid for Railtrack.

**Mr. Duncan:** To ask the Secretary of State for Transport if he will list *(a)* meetings and *(b)* discussions (i) Ministers and (ii) officials in his Department had with Treasury Ministers and officials during (A) 2001 and (B) 2002 concerning railway ownership, broken down by (1) date, (2) attendees and (3) subject; and if he will place the minutes of meetings in the Library. [13489]

**Derek Twigg** *[holding answer 19 July 2005]*: The information requested could only be provided at disproportionate cost.

## Railways

**Dr. Kumar:** To ask the Secretary of State for Transport what plans he has *(a)* to reduce overcrowding and *(b)* to improve punctuality on the East Coast Main Line. [5861]

**Derek Twigg:** The new East Coast Inter City franchise commenced on 1 May 2005. Among the obligations within the new franchise are additional services to Leeds and the development of a study into the electrification of the rail network between Neville Hill and Hambleton South Junction.

Network Rail (NR), who have the responsibility for route utilisation on the East Coast Main Line, are developing and publishing a full route utilisation (RUS). The RUS will address capacity issues on the ECML. It is planned that NR will consult further on the requirements for the line and are likely to be in a position to publish the results of their work in 12 months.

**Mrs. Riordan:** To ask the Secretary of State for Transport what steps his Department is taking to increase capacity on the East Coast Main Line. [9304]

**Derek Twigg:** The new East Coast Inter City franchise commenced on 1 May 2005. Among the obligations within the new franchise are additional services to Leeds and the development of a study into the electrification of the rail network between Neville Hill and Hambleton South Junction.

Network Rail (NR), who have the responsibility for route utilisation on the East Coast Main Line, are developing and publishing a full Route Utilisation (RUS). The RUS will address capacity issues on the ECML. It is planned that NR will consult further on the requirements for the line and are likely to be in a position to publish the results of their work in 12 months.

**Mr. Stewart Jackson:** To ask the Secretary of State for Transport what progress has been made on the planned upgrading of the East Coast Main Line, with particular reference to improved station facilities at Peterborough. [9598]

**Derek Twigg:** The new East Coast Inter City franchise commenced on 1 May 2005. Among the obligations within the new franchise are additional services to Leeds

and the development of a study into the electrification of the rail network between Neville Hill and Hambleton South Junction.

Network Rail, who have the responsibility for route utilisation on the East Coast Main Line, are developing and publishing a full route utilisation (RUS). The RUS will address capacity issues on the ECML including at Peterborough station. It is planned that NR will consult further on the requirements for the line and are likely to be in a position to publish the results of their work in 12 months.

**Mr. Rogerson:** To ask the Secretary of State for Transport how much Government subsidy per passenger mile each UK rail franchise received in the period April 2004 to April 2005. [12708]

**Derek Twigg** *[holding answer 19 July 2005]:* The subsidies paid to each train operating company (TOC), along with the corresponding passenger kilometres travelled for the period 1 April 2004 to 31 March 2005 are set out in table 6.2b of National Rail Trends which was published by the Strategic Rail Authority on 24 June 2005. That table is reproduced as follows:

*Table 6.2b Subsidy per passenger kilometre by train operating company 2004–05*

| | *Passenger kilometres (million)* | *Subsidy (£ million)* | *Subsidy per passenger kilometre (pence)* | *2003–04 Subsidy per passenger kilometre (pence)* |
|---|---|---|---|---|
| Arriva Trains Northern[1] | 696.5 | 112.0 | 16.1 | 16.9 |
| Arriva Trains Wales | 853.1 | 93.9 | 11.0 | 18.0 |
| C2c | 853.2 | 5.1 | 0.6 | 2.4 |
| Central Trains[1] | 1,428.2 | 155.6 | 10.9 | 10.8 |
| Chiltern Railways | 715.4 | 14.0 | 2.0 | 3.8 |
| First Great Western | 2,718.2 | (34.6) | (1.3) | 1.2 |
| First Great Western Link | 1,602.2 | (9.9) | (0.9) | (0.5) |
| First North Western[1] | 467.7 | 99.5 | 21.3 | 23.9 |
| First Scotrail[1] | 992.6 | 57.2 | 5.8 | — |
| Gatwick Express | 227.2 | (18.3) | (8.1) | (6.6) |
| GNER | 4,063.8 | (67.0) | (1.6) | (0.6) |
| Island Line | 6.6 | 3.2 | 48.2 | 46.8 |
| Midland Mainline | 1,322.2 | (9.0) | (0.7) | (0.3) |
| Northern Rail[1] | 475.3 | 81.0 | 17.0 | — |
| ONE | 3,680.4 | (45.0) | (1.2) | — |
| Scotrail[1] | 1,231.1 | 106.4 | 8.6 | 12.9 |
| Silverlink | 1,054.3 | 30.1 | 2.9 | 4.9 |
| South Eastern Trains | 3,406.9 | 70.4 | 2.1 | 3.8 |
| South West Trains | 4,605.8 | 38.6 | 0.8 | 2.7 |
| Southern | 2,913.6 | 71.1 | 2.4 | 3.3 |
| Thameslink | 1,413.8 | (49.7) | (3.5) | (3.0) |
| TPE | 776.0 | 43.5 | 5.6 | 25.2 |
| Virgin CrossCountry | 2,541.7 | 111.0 | 4.4 | 9.2 |
| Virgin West Coast | 2,720.6 | 89.8 | 3.3 | 12.1 |
| WAGN | 1,388.9 | 0.5 | 0.0 | 0.5 |
| Wessex Trains | 462.4 | 56.0 | 12.1 | 17.9 |
| All operators | 42,077.8 | 1,005.4 | — | — |
| Average subsidy per passenger kilometre (pence) | — | — | 2.4 | 5.0 |

[1] Operators are part funded by PTEs. Where a PTE retains revenue risk, it pays the gross operating costs less the actual revenue. The subsidy figures in the table are based on the assumed revenue levels, either set out in the Franchise Agreement or based on actuals provided by the PTEs. This, however, may overstate the actual subsidy paid where it has been based on the Franchise Agreement. Actual subsidy per kilometre figures may therefore be less than stated for these operators.

*Notes:*

1. Subsidy figures are stated on a cash basis and exclude any payments under the incentive regimes but include adjustments made to reflect the consequences of the Regulator's charges review. Figures in brackets show where the SRA is in receipt of payments.

2. 2004–05 represents the period 1 April 2004 to 31 March 2005, with the exception of Arriva Trains Northern, which is from 1 April 2004 to 11 December 2004; First North Western which is from 1 April 2004 to 11 December 2004; Northern, which is from 12 December 2004 to 31 March 2005; ScotRail which is from 1 April 2004 to 16 October 2004; and First Scot Rail, which is from 17 October 2004 to 31 March 2005.

3. In 2003–04 franchise was operated by Thames Trains.

4. 2003–04 represents the period 1 April 2003 to 31 March 2004, with the exception of Arriva Trains Wales, which is from 8 December 2003 to 31 March 2004; South Eastern Trains, which is from 9 November 2003 to 31 March 2004; and TransPennine Express, which is from 2 February 2004 to 31 March 2004.

5. Merseyrail is not included in this table as it is no longer franchised by the SRA.

As the notes to this table explain, adjustments to the subsidy profile have been made to reflect the consequences of the ORR's December 2003 Access Charges Review. One of the effects of this review was to allow for some funds which would otherwise have been paid to TOCs from the SRA and then passed through to Network Rail (NR), to be paid by the SRA to NR directly. This had the effect of reducing the subsidy payments made to the TOCs (or increasing the premium payable by them).

The amount paid direct to Network Rail in the financial year 2004–05 was around £1.8 billion. Taking this direct funding into account the true subsidy per passenger kilometre for 2004–05 across the network is around 6.6 pence.

### Railways Act (Closures Manager)

**Lembit Öpik:** To ask the Secretary of State for Transport (1) what the purpose is of the appointment of a closures manager under the Railways Act 2005; and if he will make a statement; [13019]

(2) what the job description of the closures manager under the Railways Act 2005 is; and if he will make a statement. [13020]

**Derek Twigg:** There is not a Closures Manager post in the Department for Transport.

### Taxis

**David T.C. Davies:** To ask the Secretary of State for Transport how much the Department has spent on taxis in each of the last five years. [6494]

**Ms Buck:** The Department for Transport came into existence on 29 May 2002, following machinery of Government changes. In financial year 2002–03 the Department spent £74,097.48 on taxis, in 2003–04 £87,140.21, and in 2004–05 £97,853.28. These figures do not include the Department's agencies as they do not record taxi fares separately from other travel costs and the information could be obtained only at disproportionate cost.

### Transport Schemes

**Mr. Maude:** To ask the Secretary of State for Transport how much funding has been *(a)* spent on and *(b)* committed to transport schemes within each growth area. [13788]

**Ms Buck:** Since 2000 and through to 2010, the current investments and future commitments to transport in the growth areas are as follows:

| *Growth areas* | *Amount* |
|---|---|
| Thames Gateway | £1.4 billion |
| Ashford | £46 million |
| Milton Keynes—South Midlands | £1.3 billion |
| London/Stansted/Cambridge/Peterborough | £800 million |

These figures cover schemes of over £5 million. However, the investment figures do not include CTRL Domestics services which benefit both Thames Gateway and Ashford growth areas.

### Tunnel Collapse (Gerrards Cross)

**Mr. Paul Goodman:** To ask the Secretary of State for Transport (1) when he expects normal services to be resumed between High Wycombe and Marylebone Station; [10349]

(2) when he expects a full report to be made to him on the recent collapse of the tunnel under construction at Gerrards Cross Station; if he will publish the report; and if he will make a statement; [10350]

(3) whether passengers delayed as a consequence of the recent collapse of the tunnel under construction at Gerrards Cross Station will be entitled to compensation; and if he will make a statement; [10351]

(4) what estimate he has made of the likely cost of clearing the railway tracks at Gerrards Cross following the recent collapse of the tunnel under construction at that station; and if he will make a statement; [10352]

(5) by what date he expects the tunnel under construction at Gerrards Cross Station which recently collapsed to be reconstructed; and if he will make a statement. [10353]

**Derek Twigg** *[holding answer 7 July 2005]:* The Health and Safety Executive (HSE) is carrying out an investigation into the collapse of the building works over the railway at Gerrards Cross. The HSE will record progress with its investigation on its website, and make public any recommendations made as the investigation proceeds.

The clear-up operation for the collapsed structure over the railway is being undertaken by Jackson Civil Engineering, the contractor for the store building project, and is being overseen by Network Rail. The final cost of the clear-up operation is not yet known. Approximately 5,000 tonnes of spoil blocked the line and work is under way to remove this. Arrangements are in place for the spoil to be hauled via road to an appropriate facility.

Network Rail is working with Jackson Civil Engineering to reopen the railway line as quickly as possible. It is currently not possible to make a firm estimate but it is expected that it will be a number of weeks before the line reopens. All current work on site is to clear the debris, establish the safety of the remaining tunnel sections and reopen the line as soon as possible. As far as we are aware no decisions have yet been taken on the future of the site.

Compensation arrangements will depend on the cause of the incident. Compensation arrangements for passengers are a matter for Chiltern Railways.

**Mrs. Gillan:** To ask the Secretary of State for Transport (1) what plans he has to investigate the tunnel collapse at Gerrards Cross; and if he will make a statement; [10179]

(2) what compensation he expects to be paid to Chiltern Railways for the interruption in service caused by the tunnel collapse at Gerrards Cross. [10186]

**Mr. Grieve:** To ask the Secretary of State for Transport (1) what assessment has been made of the timescale for reopening the railway line at Gerrards Cross; and if he will make a statement; [10406]

(2) what estimate he has made of the tonnage of material which will need to be removed to re-open the railway line blocked at Gerrards Cross, Buckinghamshire; and where it is intended that that material will be taken after removal; [10407]

(3) what inquiries are being carried out by the Health and Safety Executive into the collapse of the railway tunnel at Gerrards Cross; and if he will make a statement. [10405]

**Derek Twigg:** The Health and Safety Executive (HSE) is carrying out an investigation into the collapse of the building works over the railway at Gerrards Cross. The HSE will record progress with its investigation on its website, and make public any recommendations made as the investigation proceeds.

The clear-up operation for the collapsed structure over the railway is being undertaken by Jackson Civil Engineering, the contractor for the store building project, and is being overseen by Network Rail. The final cost of the clear-up operation is not yet known. Approximately 5,000 tonnes of spoil blocked the line and work is under way to remove this. Arrangements are in place for the spoil to be hauled via road to an appropriate facility.

Network Rail is working with Jackson Civil Engineering to reopen the railway line as quickly as possible. It is currently not possible to make a firm estimate but it is expected that it will be a number of weeks before the line reopens. All current work on the site is to clear the debris, establish the safety of the remaining tunnel sections and reopen the line as soon as possible. As far as we are aware no decisions have yet been taken on the future of the site.

Compensation arrangements will depend on the cause of the incident. Compensation arrangements for passengers are a matter for Chiltern Railways.

### Wheel Detachment Incidents

**Mr. Kidney:** To ask the Secretary of State for Transport (1) how many road fatalities arising from the loss of road wheels from commercial vehicles occurred in each of the last three years; and how many wheel detachment incidents there were in that period; [12943]

(2) if he will commission research to establish *(a)* the level of risk to road users of wheel detachment from commercial vehicles, *(b)* the efficacy of existing products that aim to prevent such wheel detachment and *(c)* possible solutions to wheel detachment; [12944]

(3) what research his Department has *(a)* commissioned and *(b)* evaluated on (i) the risks to road users of wheel detachment from commercial vehicles and (ii) precautions to prevent such incidents. [12945]

**Dr. Ladyman:** Figures are not currently recorded in the form requested, but the table shows the statistics that are available. It should be noted that there may sometimes be delays in listing figures while the findings of coroners' courts are awaited.

*Heavy commercial vehicles—wheel detachment—April 2001 to March 2004*

| | Wheel detachment cases | Fatalities |
|---|---|---|
| HGV rigids and tractor units | 88 | 0 |
| HGV semi-trailers | 7 | 1 |
| HGV drawbar trailers | 6 | 0 |
| Large passenger vehicles | 32 | 0 |

*Source:*
VOSA Collision database

The former Department for the Environment, Transport and Regions carried out research into heavy vehicle wheel loss in 1997 in conjunction with the Association of Chief Police Officers. This research led to advice being provided to owners and operators of such vehicles on the benefits of good maintenance and regular effective checking of wheel nuts. A copy of the research report was placed in the House Libraries at the time.

Products are available in the marketplace that can either indicate loose wheel nuts or possibly prevent the wheel nut from falling from the vehicle. The Department is seeking a better understanding of the potential of these devices for road safety and is in the final phase of placing a new contract to research these matters.

## HEALTH

### Abortion

**Mr. Amess:** To ask the Secretary of State for Health (1) what recent discussions she has had with the leaders of the medical profession about interpretation by them of section 4 of the Abortion Act 1967; and if she will make a statement; [9964]

(2) what guidelines her Department *(a)* has issued and *(b)* plans to issue to NHS primary care trusts setting out the rights of (i) general practitioners and (ii) nurses under section 4 of the Abortion Act 1967; and if she will make a statement; [10529]

(3) what guidance her Department has issued to doctors about their right of conscientious objection to taking part in abortion; [10597]

(4) whether it is her policy to require *(a)* general practitioners and *(b)* nurses to sign a declaration that they have no conscientious objection to performing or assisting at an abortion; and if she will make a statement; [10882]

(5) what guidance her Department issues to doctors with a conscientious objection to abortion regarding transfer of patients to other doctors; [10884]

(6) when it became a requirement for a physician who intends to rely on section 4 of the Abortion Act 1967 to refer a patient to another physician who does not have a conscientious objection; and if she will make a statement; [10893]

(7) if she will introduce legislation to amend section 4 of the Abortion Act 1967 to remove the duty on a physician with a conscientious objection to treatment

under the Act from referring a patient to another physician who does not have such a conscientious objection; and if she will make a statement; [10894]

(8) if she will introduce legislation to remove the Proviso in Section 4 of the Abortion Act 1967; and if she will make a statement. [12721]

**Caroline Flint:** Section 4 of the Abortion Act 1967, as amended, states that except where treatment is necessary to save the life of or prevent grave permanent injury to the pregnant woman:

"no person shall be under any duty, whether by contract or by any statutory or other legal requirement, to participate in any treatment authorised by this Act to which he has a conscientious objection".

The House of Lords ruled in 1988 that this exemption does not extend to giving advice, performing the preparatory steps to arrange an abortion where the request meets legal requirements and undertaking administration connected with abortion procedures. Doctors with a conscientious objection to abortion should make their views known to the patient and enable the patient to see another doctor without delay if that is the patient's wish. No recent discussion have taken place between the Secretary of State for Health and leaders of the medical profession on the interpretation of this ruling.

The General Medical Council's (GMC) booklet, "Good Medical Practice", states that general practitioners' views about a patient's lifestyle or beliefs must not prejudice the treatment they provide or arrange. If they feel their beliefs might affect the treatment, this must be explained to the patient, who should be told of their right to see another doctor. Breach of this guidance may expose a doctor to a charge of serious professional misconduct and disciplinary action by the GMC.

The Department has issued guidance on best practice where there are ethical objections to abortion, through the "Recommended Standards for Sexual Health Services", produced for the Department by the Medical Foundation for AIDS and Sexual Health.

The National Health Service (General Medical Services Contracts) Regulations 2004 include details of additional services, including contraceptive services, which states that:

"where the contractor has a conscientious objection to the termination of pregnancy, prompt referral to another provider of primary medical services who does not have such conscientious objections".

It is accepted Parliamentary practice that proposals for changes in the law on abortion have come from back-bench members and that decisions are made on the basis of free votes. The Government has no plans to change the law on abortion.

**Mr. Amess:** To ask the Secretary of State for Health what assessment she has made of the medical circumstances in which emergency abortions are performed to save the life of the pregnant woman in those cases which have arisen since 2000; and how many times each circumstance has been the main factor. [10421]

**Caroline Flint:** We are unable to provide the information requested due to concerns about issues of privacy and confidentiality.

**Mr. Amess:** To ask the Secretary of State for Health whether she is taking steps to reduce the number of abortions in England. [10576]

**Caroline Flint:** The Government is taking action through the national strategy for sexual health and HIV, the teenage pregnancy strategy and the Public Health White Paper to reduce the number of abortions. We are working to improve access to contraceptive services and the range of methods of contraception that are available. The Public Health White Paper announced a national audit of contraceptive services, backed by new investment of £40 million to address gaps in services. An expert contraceptive services group has been established to advise the Department on taking this work forward. We are also working with the Department for Education and Skills to improve sex and relationships education.

**Mr. Amess:** To ask the Secretary of State for Health when the Government last commissioned research on the safety of the abortion pill mifepristone. [10586]

**Caroline Flint:** As with all marketed medicines, the safety of Mifegyne, mifepristone, an antiprogestogenic steroid that is used for the medical termination of intra-uterine pregnancy, is continuously monitored by the Medicines and Healthcare products Regulatory Agency (MHRA).

Mifepristone was first authorised in the United Kingdom as a prescription only medicine for use under specialist care in July 1991. This followed advice from the Committee on Safety of Medicines. No formal research has subsequently been carried out. The MHRA will continue to monitor the safety of mifepristone.

**Mr. Amess:** To ask the Secretary of State for Health (1) if she will seek to establish when and how each of the current methods of abortion used in British hospitals and clinics was developed; and if she will make a statement; [10589]

(2) what assessment she has made of whether the partial-birth abortion procedure is practised in the UK. [10861]

**Caroline Flint:** The Royal College of Obstetricians and Gynaecologists' (RCOG) evidence-based clinical guideline, "The Care of Women Requesting Induced Abortion", published in 2004, sets out the recommended methods of abortion which practitioners are expected to follow. Any new methods of abortion will be developed and researched in the same way as any other new medical procedure and will be subject to the same safety monitoring and licensing controls.

Methods of termination are monitored through the forms sent to the Chief Medical Officer by practitioners for every termination of pregnancy they perform. We are not aware of the procedure referred to as partial-birth abortion being used in Great Britain.

**Mr. Amess:** To ask the Secretary of State for Health what the average cost of performing an abortion was in *(a)* national health service hospitals and *(b)* private hospitals, in each of the last three years for which figures are available. [10596]

**Caroline Flint:** The available information is shown in the table.

*National average unit cost of performing an abortion in NHS hospitals and private hospitals*

| | *NHS trusts*[1] | *Non-NHS providers*[2] |
|---|---|---|
| 2001–02 | 441 | n/a |
| 2002–03 | 486 | 286 |
| 2003–04 | 503 | 332 |

n/a = not available.

[1] Data based on admitted activity, excluding excess bed days, in NHS Trusts in England.

[2] Data based on admitted activity, excluding excess bed days, submitted by NHS trusts and PCTs in England for activity contracted out to or directly commissioned from non-NHS providers. Data received from NHS trusts and PCTs for abortions performed in the independent sector under NHS contract is incomplete and therefore can only provide an indication of the likely cost of abortion performed in the independent sector. The Department of Health does not collect data on the costs of privately funded abortions.

*Source:*

National Schedule of Reference Costs

**Mr. Amess:** To ask the Secretary of State for Health what her Department's policy on the availability of abortions to girls under the age of 16 without parental knowledge or consent is. [10610]

**Caroline Flint:** In 1985, the House of Lords ruled that young people aged under 16 are legally able to consent to medical advice and treatment, including abortion, if a doctor or other healthcare worker judges them competent to do so. For under 16s seeking an abortion, guidance from the Department emphasises that health professionals should discuss the benefits of the young women involving her parents. Where she cannot be persuaded to do so, every effort should be made to find another adult to provide support, for example another family member or specialist youth worker.

## Agenda for Change

**Harry Cohen:** To ask the Secretary of State for Health whether she has fully funded the NHS for the costs its has incurred from implementing "Agenda for Change"; and if she will make a statement. [9353]

**Mr. Byrne:** In England, the Government have made available around £1 billion of extra investment by 2005–06 to meet the costs of implementing "Agenda for Change". This is in addition to money needed to meet the costs of the general pay uplift of around 10 per cent. over three years to 2005–06, agreed as part of the "Agenda for Change" package. This is a huge investment and, while we do not underestimate the challenge of implementing "Agenda for Change", we believe that this investment is sufficient to fully fund its implementation this year.

## Alzheimer's Disease

**Mr. Burns:** To ask the Secretary of State for Health what discussions she has had with memory clinics about the impact of withdrawing drug treatments for people with Alzheimer's disease from NHS prescription. [11326]

**Mr. Byrne:** None.

The National Institute for Health and Clinical Excellence has not issued final guidance on drugs for the treatment of Alzheimer's disease. Until it does so, the guidance it issued in 2001 remains in force.

**Mr. Burns:** To ask the Secretary of State for Health how many memory clinics there are in England; and what assessment she has made of the likely impact on these services if the National Institute for Health and Clinical Excellence final guidance recommends that drug treatments for Alzheimer's disease should not be available on the NHS. [11328]

**Mr. Byrne:** The Department will not collect this information centrally until the annual mapping of older people's mental health services takes place for the first time later in 2005.

Responsibility for mental health services rests with local service planners, commissioners and providers, who are best placed to determine the right mix of services based on local priorities and the needs of their local population.

At the moment, the 2001 National Institute for Health and Clinical Excellence (NICE) appraisal of drugs for Alzheimer's disease is extant. In the light of NICE's announcement on 19 July to embark on a further round of very focused and detailed discussions with key stakeholders, it would be inappropriate to anticipate at this stage what the conclusion of this work will be.

## Ambulance Service

**Mr. Hoyle:** To ask the Secretary of State for Health (1) what guidelines have been issued on moving patients with head injuries from Chorley Accident and Emergency to Preston Accident and Emergency by taxi rather than ambulance; [12241]

(2) if she will ensure that patients are not transported between Chorley and Preston accident and emergency departments in taxis without appropriate escort; [12431]

(3) under what circumstances taxis may be used to move patients between accident and emergency departments in Lancashire. [13145]

**Mr. Byrne** *[holding answer 18 July 2005]:* It is for the local national health service to ensure appropriate transport and governance arrangements are in place to support the transfer of patients between accident and emergency departments.

The NHS Modernisation Agency issued "Driving Change: Good practice guidelines for Primary Care Trusts on commissioning arrangements for emergency ambulance services and non-emergency patient transport services" in September 2004.

In 1991, the Department issued guidance on "Ambulance and other patient transport services: Operation, use and performance standards", which includes reference to performance standards and quality of service issues.

Copies of both documents are available in the Library.

**Mr. Hoyle:** To ask the Secretary of State for Health if she will make a statement on the powers available to her in relation to the operation of ambulance trusts. [13147]

**Mr. Byrne** *[holding answer 18 July 2005]:* The Secretary of State has the following powers in relation to national health service trusts, including ambulance trusts.

Under the National Health Service and Community Care Act 1990 (the 1990 Act), the Secretary of State has the power to make regulations about the membership and procedure of NHS trusts. The Secretary of State exercised this power in making the NHS Trusts (Membership and Procedure) Regulations 1990. Under the 1990 Act, the Secretary of State appoints the chairman and the non-executive directors of the trust, although both these functions have been delegated to the NHS Appointments Commission. The Secretary of State also has powers, subject to provisions set out in the 1990 Regulations, to terminate the tenure of office of the chairman and non-executive directors of a trust in certain circumstances.

The Secretary of State can direct an NHS trust in relation to the exercise of their functions under section 17 of the NHS Act 1977 ('the 1977 Act').

The Secretary of State can dissolve an NHS trust by means of an order if she considers it appropriate in the interests of the health service (under the 1990 Act), subject to the provisions of the NHS trusts (Consultation on Establishment and Dissolution) Regulations 1996.

The Secretary of State can make an intervention order under section 84A of the 1977 Act if she is of the opinion that the trust is not performing one or more of its functions adequately or at all, or that there are significant failings in the way the body is being run and she is satisfied that it is appropriate for her to intervene. An intervention order may provide for the removal or suspension from office of trust members and their replacement with other specified individuals, or for certain functions to be carried out by a specified individual, or for a function of the trust to be performed in a way that will achieve objectives specified in the directions.

The Secretary of State can make a default order under section 85 of the 1977 Act where she is of the opinion that a NHS trust has failed to carry out functions conferred on them under the 1977 Act or the 1990 Act or have failed to comply with regulations or directions relating to those functions. The effect of the default order is to terminate the tenure of office of the members of the trust and provide for the appointment of new members and may make such supplementary provision as the Secretary of State deems necessary.

**Mr. Hoyle:** To ask the Secretary of State for Health what action she is able to take in relation to failing ambulance services. [12548]

**Mr. Byrne:** It is for strategic health authorities to decide what support and intervention is necessary in poorly performing national health service organisations.

### Avian Influenza

**Dr. Kumar:** To ask the Secretary of State for Health how much money her Department has allocated for the prevention of an epidemic of avian influenza. [12361]

**Caroline Flint:** Preparing for a pandemic, whether it arises from the avian influenza currently circulating in South East Asia or from another strain, is part of the ongoing work of the Department and plans continue to be updated as appropriate. However, although we can prepare for an influenza pandemic, it is highly unlikely that we will be able to prevent it occurring.

As part of the United Kingdom's preparedness for a flu pandemic, the Department has committed some £200 million and will continue to evaluate what other measures could be taken to further improve our preparedness, such as purchasing specific vaccine against pandemic influenza.

### Breast Cancer

**Mr. Baron:** To ask the Secretary of State for Health what measures she has put in place to improve the rate of accuracy of general practitioner breast cancer referrals. [12450]

**Ms Rosie Winterton** *[holding answer 18 July 2005]:* We issued general practitioner (GP) cancer referral guidelines in March 2000 to assist GPs in determining those patients who need to be referred urgently to see a specialist within two weeks, those patients that can be referred for a routine appointment and those who can be safely watched at a primary care level.

The National Institute for Health and Clinical Excellence recently reviewed these GP cancer referral guidelines and revised guidelines were published on 22 June 2005.

The referral guidelines should be used locally to agree criteria and referral pathways. All trusts have been encouraged to undertake local audits to assess the appropriateness of urgent and routine referrals against the guidelines to be fed back to referring GPs.

### Care Homes

**Mr. Burstow:** To ask the Secretary of State for Health what steps her Department is taking to act on the recommendations of the recent Office of Fair Trading report into the care home sector. [13540]

**Mr. Byrne:** The Office of Fair Trading published a report on care homes for older people on 18 May 2005. The report made a number of recommendations to the Government, which the Government are currently considering.

### Children's Hospices

**Mr. Hancock:** To ask the Secretary of State for Health (1) how much her Department has spent on *(a)* children's hospices and *(b)* children's palliative care in each of the last five years (i) in real terms and (ii) as a percentage of the overall NHS budget; [11265]

(2) if she will increase the core funding to children's hospice services from her Department. [11721]

**Mr. Byrne:** The Department does not collect information on the funding of children's hospices and palliative care services for children.

Primary care trusts (PCTs) have received substantial increases in their baseline funding and there is no ceiling to the amount of funding which they can provide for children's palliative care. Children's hospice services are funded from a number of sources, including services commissioned by PCTs based on their assessment of children's needs and their priorities. They are best placed to make decisions on the local needs for palliative care and are able to take into account the needs of individual families and preferences.

In our ongoing dialogue with representatives of children's hospices, the Department continues to encourage them to engage actively with local national health service bodies over the contribution that hospices can make to the overall pattern of palliative care they commission for children and young people in their localities.

In our manifesto, we said we would increase the choice for patients with cancer and double the investment going into palliative care services, giving more people the choice to be treated at home.

### Children's Oral Hygiene

**Mr. Bone:** To ask the Secretary of State for Health what plans she has to improve children's oral hygiene; and if she will make a statement. [11292]

**Ms Rosie Winterton:** At a population level, the fluoridation of water supplies offers the most potential for reducing dental disease in children. By reforming the relevant legislation we have given strategic health authorities a realistic option of fluoridating their water, provided they can show they have the support of the local population. In addition, advice on oral health promotion is given in schools and we have piloted the "Brushing for Life" Scheme in areas with the highest levels of tooth decay including all Sure Start areas which do not receive fluoridated water. The scheme provides for health visitors to give packs containing a toothbrush, a tube of fluoridated toothpaste and a leaflet on oral hygiene to the parents and carers of young children when they attend child health clinics for development checks at eight months, 18 months and three years and above.

### Clostridium Difficile

**Ian Lucas:** To ask the Secretary of State for Health when the terms of reference for the Healthcare Commission investigation into *Clostridium difficile* at Stoke Mandeville hospital, Buckinghamshire hospitals NHS trust, will be made available. [14013]

**Jane Kennedy:** The Healthcare Commission has today published the Terms of Reference.

### Connecting for Health Smartcards

**Mr. Bacon:** To ask the Secretary of State for Health which primary care trusts have issued Connecting for Health smartcards with the same PIN number for every user. [13341]

**Mr. Byrne** *[holding answer 20 July 2005]:* A number of smartcards issued during May 2005 by staff acting on behalf of NHS Connecting for Health, in connection with the national programme for information technology, to general practitioners within the Castle Point and Rochford, and the Southend primary care trust (PCT) areas. Though serious in itself, this breach of procedures has not posed a significant risk to the confidentiality of patient information.

An internal audit inquiry into the circumstances and details of this lapse in security arrangements has been commissioned by the Essex strategic health authority.

Local procedures have been further tightened to require ensuring smartcard end users change the passcode immediately on receipt of their card, and confirm in writing that this has been done. These will be regularly audited to ensure compliance. NHS Connecting for Health have also initiated a national "confidence check' of smartcard registration procedures across all strategic health authorities, re-emphasising the very great importance which is attached to strict adherence to these.

### Continuing Care

**Mr. Gibb:** To ask the Secretary of State for Health if she will make a statement on her intention to produce a national approach to continuing care as set out in her Department's press notice of 9 December 2004. [13392]

**Mr. Byrne:** The Department is currently working closely with selected stakeholders to produce a national framework for the assessment of continuing care, due for publication in early 2006. This should result in national eligibility criteria and suitable assessment methodologies for access to national health service continuing care. I have received a number of representations about the development of a national framework, all of which will be taken into account in its development. In accordance with Cabinet Office guidelines, we will consult on the official guidance and any legislation required later this year. I expect to make a formal response to the Health Committee report on national health service continuing care before the summer recess.

Details of the review's progress were presented to the House in a written ministerial statement by my hon. Friend the Member for South Thanet (Dr. Ladyman) on 16 September 2004, *Official Report*, columns 175–77WS.

### Counterfeit Medicines

**Dr. Murrison:** To ask the Secretary of State for Health what assessment she has made of *(a)* the extent of counterfeiting of medicines in England and *(b)* the impact of parallel trading on the counterfeiting of medicines. [13326]

**Jane Kennedy:** Two counterfeit products were discovered in the legitimate United Kingdom supply chain in August 2004. This was the first time in 10 years that counterfeit products are known to have reached the legitimate UK supply chain. Over 600 million prescriptions are written annually in the UK. Therefore

these two discoveries of counterfeit medicines in the small numbers that reached the legitimate UK supply chain, prior to recall, needs to be viewed in that context.

There is no evidence to suggest that licensed parallel trade provides any more of an opportunity to introduce counterfeit medicines into the country over non-parallel traded products. In both of the recent UK counterfeit medicine cases of August 2004, parallel trade does not appear to be involved.

### Data Collection

**Mr. Kevan Jones:** To ask the Secretary of State for Health pursuant to the answer of 12 July 2005, *Official Report*, column 985W, who is carrying out work on data collection. [13159]

**Mr. Byrne** *[holding answer 18 July 2005]:* The Department is supplied annually with data from providers of national health service services.

### Dentistry

**Mr. Burstow:** To ask the Secretary of State for Health what percentage of people were registered with an NHS dentist in each primary care trust in London at the end of *(a)* March 1997, *(b)* March 2001 and *(c)* March 2005; what percentage of each population this represented in each year; how much was allocated to improve access to NHS dentistry in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08 in (A) total and (B) per 1000 head of population; how many additional NHS dental patient registrations she expects these resources to provide in (1) 2004–05, (2) 2005–06, (3) 2006–07 and (4) 2007–08; how many additional whole-time equivalent dentists are expected to become registered in *(w)* 2004–05, (x) 2005–06, *(y)* 2006–07 and *(z)* 2007–08; and how many NHS dentists there were at 31 December (aa) 1997, (bb) 2001 and (cc) 2004. [8013]

**Ms Rosie Winterton:** The main tables show the percentages of people registered with a national health service dentist in each primary care trust (PCT) in London as at 31 March for the years 2001 and 2005. Data are not available for 1997, as PCTs did not exist then.

In 2004–05, the Department allocated a total of £50 million to strategic health authorities (SHAs) to improve access, choice and quality in NHS dentistry. The allocations to the five London SHAs are as follows:

| *SHA* | *Allocation (£)* |
|---|---|
| North Central London | 1,374,000 |
| North East London | 1,853,000 |
| North West London | 1,919,000 |
| South East London | 1,664,000 |
| South West London | 1,233,000 |

London SHAs also received resources as a result of the successful personal dental service (PDS) applications in 2004–05 and 2005–06. Allocations for 2006–07 and 2007–08 have not been made.

The criteria for distribution from the centre to the SHAs was based on weighted capitation, reflecting population and deprivation. From then, on it is up to individual SHAs to decide how to distribute these funds at a local level.

General dental service (GDS) patient registration is not the currency used to measure additional expenditure on NHS services.

In 2004–05, it was expected that SHAs would use their share of the £50 million resources to expand local services, by the end of October 2005, by the whole-time equivalent of:

| *SHA* | *Whole-time equivalent* |
|---|---|
| North Central London | 10 |
| North East London | 13 |
| North West London | 13 |
| South East London | 12 |
| South West London | 13 |

No whole-time equivalent target has been set for 2005–06, 2006–07, 2007–08 and no targets or resources have been set for these years.

The main table also shows the number of dentists by London SHA as at 31 December in the years 1997, 2001 and 2004.

*Percentage of people registered with a NHS dentist in each PCT in London as at 31 March each year*

| | *1997* | | | *2001* | | | *2005*[1] | | |

| Sutton and Merton | n/a | n/a | n/a | 51 | 37 | 40 | 56 | 40 | 43 |
| Wandsworth | n/a | n/a | n/a | 55 | 39 | 42 | 51 | 33 | 36 |

n/a = Population data not available.
[1] 2003 estimated population figures.

*Notes:*
1. The number of registrations are based on a snapshot of the Dental Practice Board's registration database taken at the end of March each year and subsequent retrospective notifications of changes to registrations have not been included.
2. An active registration is a patient registered with a dentist at the end of March each year.
3. Some double counting may occur in the totals when a patient has been newly registered with a dentist in one PCT, but not yet de-registered from a dentist in another PCT. These considerations contribute to some of the month-to-month fluctuations at PCT level.
4. Most PDS schemes that have registrations have a re-registration period in excess of 15 months, so the figures for PDS schemes are generally higher than they would have been for the same attendance pattern under GDS.
5. Some PDS schemes do not have any registrations, e.g. dental access centres and will not therefore be included in these figures.
6. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT.
7. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.
8. The patients' registrations have been allocated to areas according to the postcode of the dentist's surgery.
9. The areas have been defined using practice postcodes within the current boundaries.
10. There are a small number of unallocated registrations.

*Number of NHS dentists with GDS and PDS in London as at 31 December*

| | | *1997* | *2001* | *2004* |
|---|---|---|---|---|
| | *North West London SHA* | 1,025 | 1,076 | 1,086 |
| 5K5 | Brent Teaching | 161 | 166 | 176 |
| 5HX | Ealing | 214 | 198 | 191 |
| 5H1 | Hammersmith and Fulham | 133 | 162 | 153 |
| 5K6 | Harrow | 106 | 122 | 130 |
| 5AT | Hillingdon | 106 | 114 | 129 |
| 5HY | Hounslow | 143 | 155 | 143 |
| 5LA | Kensington and Chelsea | 86 | 86 | 92 |
| 5LC | Westminster | 212 | 212 | 198 |
| | *North Central London SHA* | 637 | 722 | 734 |
| 5A9 | Barnet | 182 | 204 | 200 |
| 5K7 | Camden | 153 | 167 | 169 |
| 5C1 | Enfield | 114 | 136 | 164 |
| 5C9 | Haringey Teaching | 129 | 129 | 137 |
| 5K8 | Islington | 89 | 141 | 121 |
| | *North East London SHA* | 529 | 601 | 664 |
| 5C3 | City and Hackney Teaching | 100 | 87 | 89 |
| 5C4 | Tower Hamlets | 65 | 71 | 97 |
| 5A4 | Havering | 84 | 106 | 116 |
| 5C5 | Newham | 83 | 91 | 101 |
| 5NA | Redbridge | 109 | 146 | 147 |
| 5C4 | Tower Hamlets | 65 | 71 | 97 |
| 5NC | Waltham Forest | 81 | 90 | 106 |
| | *South East London SHA* | 626 | 666 | 713 |
| TAK | Bexley | 88 | 89 | 99 |
| 5A7 | Bromley | 139 | 156 | 169 |
| 5A8 | Greenwich Teaching | 95 | 103 | 116 |

*Number of NHS dentists with GDS and PDS in London as at 31 December*

| | | *1997* | *2001* | *2004* |
|---|---|---|---|---|
| 5LD | Lambeth | 132 | 140 | 153 |
| 5LF | Lewisham | 112 | 131 | 120 |
| 5LE | Southwark | 109 | 101 | 108 |
| | *South West London SHA* | 636 | 699 | 714 |
| 5K9 | Croydon | 176 | 178 | 201 |
| 5A5 | Kingston | 69 | 73 | 80 |
| 5M6 | Richmond and Twickenham | 96 | 107 | 116 |
| 5M7 | Sutton and Merton | 166 | 193 | 204 |
| 5LG | Wandsworth | 162 | 177 | 158 |

*Notes:*
1. The figures are based on the numbers of dentists with open GDS or PDS contracts.
2. The dentists include principals, assistants and trainees.
3. Prison contracts have not been included in this analysis.
4. The figures provide a snapshot of the number of individual dentists with an open contract at 31 December.
5. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT.
6. The Dental Practice Board has no information concerning the amount of time dedicated to NHS work by individual dentists.
7. The figures provide an accurate figure taking into account any notifications received up to 31 January 2005.
8. The figures given by PCT and SHA include all dentists practising in that area.
9. Some dentists may have an open GDS or PDS contract in more than one PCT or SHA and therefore they will appear in the figures for each PCT in which they practise.

**Steve Webb:** To ask the Secretary of State for Health what the local distance standards for access to NHS dentistry are for each primary care trust; and what *(a)* maximum and *(b)* average distance patients in England are expected to travel to receive NHS dental care under locally agreed standards. [8086]

**Ms Rosie Winterton:** The information requested has been placed in the Library.

**Steve Webb:** To ask the Secretary of State for Health how many calls to NHS Direct about access to an NHS dentist there were in *(a)* England and *(b)* each strategic health authority in each month since November 2001, broken down by (i) emergency, (ii) urgent, (iii) routine and (iv) other calls. [8089]

**Ms Rosie Winterton:** Calls to NHS Direct about access to a national health service dentist in each month since November 2001 by emergency, urgent, routine and other are shown in the table. The information relates to England only. Similar information for each strategic health authority area is not routinely collected.

*Number*

| | *Total* | *Emergency* | *Urgent* | *Routine* | *Not known* |
|---|---|---|---|---|---|
| November 2001 | 10,922 | 1,143 | 2,542 | 6,546 | 691 |
| December 2001 | 10,023 | 1,456 | 3,274 | 4,482 | 811 |
| January 2002 | 13,064 | 1,605 | 3,078 | 7,124 | 1,257 |
| February 2002 | 10,316 | 1,073 | 2,902 | 5,535 | 806 |
| March 2002 | 13,336 | 1,061 | 3,849 | 6,742 | 1,684 |
| April 2002 | 15,472 | 1,666 | 4,241 | 8,322 | 1,243 |
| May 2002 | 15,693 | 1,506 | 4,287 | 8,361 | 1,539 |
| June 2002 | 14,726 | 1,551 | 4,598 | 7,145 | 1,432 |
| July 2002 | 16,032 | 1,539 | 4,164 | 8,827 | 1,502 |
| August 2002 | 15,797 | 1,584 | 4,646 | 8,303 | 1,264 |
| September 2002 | 14,862 | 1,387 | 3,886 | 8,229 | 1,360 |
| October 2002 | 15,912 | 1,409 | 3,457 | 9,671 | 1,375 |
| November 2002 | 15,770 | 1,456 | 3,381 | 9,505 | 1,428 |
| December 2002 | 14,629 | 1,729 | 4,308 | 7,149 | 1,443 |
| January 2003 | 17,860 | 1,614 | 3,648 | 10,952 | 1,646 |
| February 2003 | 13,576 | 1,220 | 3,075 | 7,968 | 1,313 |
| March 2003 | 15,325 | 1,416 | 3,407 | 9,093 | 1,409 |
| April 2003 | 15,863 | 1,399 | 3,510 | 9,446 | 1,508 |
| May 2003 | 16,257 | 1,471 | 3,977 | 9,307 | 1,502 |
| June 2003 | 17,404 | 1,563 | 3,823 | 10,485 | 1,533 |
| July 2003 | 19,012 | 1,581 | 4,192 | 10,723 | 2,516 |
| August 2003 | 18,016 | 1,806 | 4,201 | 10,471 | 1,538 |
| September 2003 | 19,472 | 1,708 | 4,117 | 11,350 | 2,297 |
| October 2003 | 19,829 | 1,529 | 3,733 | 10,905 | 3,662 |
| January 2004 | 19,702 | 1,462 | 3,613 | 12,726 | 1,901 |
| February 2004 | 18,258 | 1,575 | 3,653 | 11,312 | 1,718 |
| March 2004 | 19,330 | 1,392 | 3,503 | 12,506 | 1,929 |
| April 2004 | 16,383 | 1,395 | 2,680 | 10,559 | 1,749 |
| May 2004 | 16,202 | 1,762 | 3,949 | 8,701 | 1,790 |
| October 2004 | 23,850 | 2,649 | 4,431 | 14,426 | 2,344 |
| November 2004 | 23,117 | 2,158 | 4,059 | 14,035 | 2,865 |
| December 2004 | 19,550 | 2,603 | 4,602 | 10,206 | 2,139 |
| January 2005 | 20,440 | 2,020 | 3,215 | 12,734 | 2,471 |
| February 2005 | 17,224 | 1,619 | 2,342 | 11,584 | 1,679 |
| March 2005 | 17,547 | 1,725 | 2,739 | 11,318 | 1,765 |
| April 2005 | 19,753 | 1,845 | 2,890 | 12,844 | 2,174 |

*Notes:*
1. Routine includes calls requesting routine information only about where to find a dentist and calls requesting routine dental health advice and information about where to find a dentist.
2. Data for November and December 2003 and June to September 2004 is not available.

**Lynne Featherstone:** To ask the Secretary of State for Health how many dentists in Greater London have live personal dentist service contracts; how many dentists in Greater London have applied for personal dentist service contracts; and if she will make a statement. [8692]

**Ms Rosie Winterton:** As of 31 May 2005, there are 119 personal dental service (PDS) contracts operating in Greater London. As of 30 June 2005, there are 221 applications for PDS contracts which had been made to the Department.

**Mr. Lansley:** To ask the Secretary of State for Health how many graduates in dentistry qualified in *(a)* 2003–04 and *(b)* 2004–05. [9286]

**Ms Rosie Winterton:** In England 578 dental students graduated in 2003–04. The provisional figure for 2004–05 is 588.

**Steve Webb:** To ask the Secretary of State for Health how many dentists there are in *(a)* England and *(b)* each strategic health authority (i) in total and (ii) who are recorded on NHS.UK as accepting new NHS patients. [9374]

**Ms Rosie Winterton:** Information on the number of dentists in the United Kingdom, by strategic health authority (SHA) is shown in the table.

Information about dentists taking on new national health service patients is not centrally collected. However, some information about dental practices within primary care trusts (PCTs) currently taking on new NHS patients can be found on the NHS website at http://www.nhs.uk/England/AuthoritiesTrusts/Pct/list.aspx

Not all dentists who are accepting new patients indicate this on NHS.UK. However PCTs and NHS Direct are able to provide this information to local people.

*General dental service (GDS) and personal dental service (PDS), number of dentists in England by SHA area as at 31 March 2005*

| | | Number |
|---|---|---|
| England | | 20,088 |
| Avon, Gloucestershire and Wiltshire SHA | Q20 | 993 |
| Bedfordshire and Hertfordshire SHA | Q02 | 841 |
| Birmingham and The Black Country SHA | Q27 | 880 |
| Cheshire and Merseyside SHA | Q15 | 1,020 |
| County Durham and Tees Valley SHA | Q10 | 411 |
| Cumbria and Lancashire SHA | Q13 | 746 |
| Dorset and Somerset SHA | Q22 | 521 |
| Essex SHA | Q03 | 628 |
| Greater Manchester SHA | Q14 | 1,032 |
| Hampshire and Isle of Wight SHA | Q17 | 771 |
| Kent and Medway SHA | Q18 | 644 |
| Leicestershire, Northamptonshire and Rutland SHA | Q25 | 535 |
| Norfolk, Suffolk and Cambridgeshire SHA | Q01 | 883 |
| North and East Yorkshire and Northern Lincolnshire SHA | Q11 | 629 |
| North Central London SHA | Q05 | 743 |
| North East London SHA | Q06 | 679 |
| North West London SHA | Q04 | 1,101 |
| Northumberland, Tyne and Wear SHA | Q09 | 567 |
| Shropshire and Staffordshire SHA | Q26 | 571 |
| South East London SHA | Q07 | 708 |
| South West London SHA | Q08 | 717 |
| South West Peninsula SHA | Q21 | 738 |
| South Yorkshire SHA | Q23 | 500 |
| Surrey and Sussex SHA | Q19 | 1,388 |
| Thames Valley SHA | Q16 | 1,107 |
| Trent SHA | Q24 | 948 |
| West Midlands South SHA | Q28 | 683 |
| West Yorkshire SHA | Q12 | 800 |

*Notes:*

1. The figures given by SHA include all dentists practicing in that area. Some dentists may have an open GDS or PDS contract in more than one SHA and therefore have been counted more than once. Therefore the England figure is not a sum of SHA totals.

2. Prison contracts have been excluded.

3. The areas have been defined using practice postcodes within the specified areas.

*Source:*

Dental Practice Board.

**Steve Webb:** To ask the Secretary of State for Health which primary care trusts do not comply with *(a)* clinical and *(b)* distance standards for providing full access to NHS dentistry. [9375]

**Ms Rosie Winterton:** Primary care trusts (PCTs) are responsible for setting local distance standards for access to dentistry, and for monitoring these standards. Information on each PCTs performance against its own local standards is not collected centrally.

There are currently no clinical standards for national health service dentistry that PCTs are monitored against.

**Sandra Gidley:** To ask the Secretary of State for Health what guidelines have been provided to NHS dentists regarding the cost of dentures. [10076]

**Ms Rosie Winterton:** The statement of dental remuneration issued under the NHS General Dental Services regulations 1992 provides for the following payments shown in the table.

£

| *Type of denture* | *Synthetic resin* | *Chrome cobalt or stainless steel* |
|---|---|---|
| Dentists fee | 158.10 | 279.60 |
| Patient charge[1] | 126.48 | 222.88 |
| Total received by dentist | 284.58 | 502.48 |

[1] Where the patient is exempt from dental charges the dentists receives the full amount from national health service funds.

**Mr. Laws:** To ask the Secretary of State for Health what proportion of children *(a)* under the age of five years and *(b)* under the age of 10 years have experienced (i) tooth decay and (ii) one or more fillings in each year since 1985–86; and if she will make a statement. [12087]

**Ms Rosie Winterton** *[holding answer 18 July 2005]:* The available information, which is shown in the following tables, compares the results of the decennial child dental health surveys carried out in 1983, 1993 and 2003 and shows a very encouraging improvement in the oral health of children.

*Table 1: Proportion of children with obvious decay experience in primary teeth by age (United Kingdom, 1983, 1993, 2003)*

*Percentage of children*

| | *Aged* | |
|---|---|---|
| *Tooth condition* | *Five* | *Eight* |
| *Decay into dentine* | | |
| 1983 | 41 | 49 |
| 1993 | 40 | 50 |
| 2003a[1] | 40 | 51 |
| 2003b[2] | 40 | 50 |
| *Filled (otherwise sound)* | | |
| 1983 | 23 | 47 |
| 1993 | 15 | 33 |
| 2003a[1] | 11 | 24 |
| 2003b[2] | 12 | 26 |
| *Obvious decay experience* | | |
| 1983 | 50 | 70 |
| 1993 | 45 | 61 |
| 2003a[1] | 43 | 57 |
| 2003b[2] | 43 | 57 |
| *Filled teeth as a percentage of obvious decay experience* | | |
| 1983 | 28 | 50 |
| 1993 | 17 | 35 |
| 2003a[1] | 13 | 24 |
| 2003b[2] | 15 | 28 |

[1] Criteria used for 2003 survey: $d_{3cv}$ mft (decayed, missing, or filled teeth) includes visual caries.

[2] Criteria used for 1993 survey:$d_{3c}$ mft does not include visual caries.

*Table 2: Proportion of children with obvious decay experience in permanent teeth by age (United Kingdom, 1983, 1993, 2003)*

*Percentage of children*

| *Tooth condition* | *Aged Eight* | *12* | *15* |
|---|---|---|---|
| *Decay into dentine* | | | |
| 1983 | 19 | 32 | 42 |
| 1993 | 12 | 24 | 30 |
| 2003a[1] | 14 | 29 | 32 |
| 2003b[2] | 7 | 12 | 13 |
| *Filled (otherwise sound)* | | | |
| 1983 | 25 | 69 | 85 |
| 1993 | 8 | 39 | 52 |
| 2003a[1] | 7 | 25 | 41 |
| 2003b[2] | 7 | 26 | 42 |
| *Missing due to decay* | | | |
| 1983 | 2 | 14 | 24 |
| 1993 | 1 | 7 | 7 |
| 2003 | 1 | 3 | 6 |
| *Obvious decay experience* | | | |
| 1983 | 38 | 81 | 93 |
| 1993 | 19 | 52 | 63 |
| 2003a[1] | 19 | 43 | 57 |
| 2003b[2] | 14 | 34 | 49 |
| *Filled teeth as a percentage of obvious decay experience* | | | |
| 1983 | 58 | 70 | 74 |
| 1993 | 37 | 58 | 68 |
| 2003a[1] | 30 | 46 | 57 |
| 2003b[2] | 52 | 69 | 77 |

[1] Criteria used for 2003 survey: $D_{3cv}$ MFT (decayed, missing or filled teeth) includes visual caries.

[2] Criteria used for 1993 survey: $D_{3c}$ MFT excludes visual caries.

**Anne Main:** To ask the Secretary of State for Health how many complaints her Department has received regarding access to dental care since 1997. [10847]

**Ms Rosie Winterton:** The Department's correspondence system does not separate complaints from other forms of correspondence. Since the present record system began in December 2001, we have received 4,309 pieces of correspondence on access to dentistry. This number represents 1.75 per cent, of all correspondence received by the Department in that period.

### Disability in Unborn Babies

**Mr. Amess:** To ask the Secretary of State for Health what guidance her Department issues to women expecting a baby on the definition of disability. [10919]

**Mr. Byrne:** The Department does not issue such guidance to pregnant women. The Department does however produce the 'Pregnancy Book', which is given to all first time mothers. The book contains a very broad range of information, including what to do if you are worried about having a baby with an abnormality. The book encourages women to discuss any concerns that they may have during their pregnancy with an appropriate health professional, given that advice, support and counselling may be required by the woman.

The Government subscribes to the social model of disability; that disability is defined as the disadvantage experienced by an individual as a result of barriers that impact on people with impairments and ill health.

### Doctors

**Mr. Lansley:** To ask the Secretary of State for Health how many *(a)* junior house officers and *(b)* senior house officers employed in the most recent year for which figures are available did not receive their degree in medicine from a UK higher education institution. [12633]

**Mr. Byrne:** The number of medically qualified pre-registration house officers and senior house officers and equivalents, employed in the national health service in England at 30 September 2004, whose primary medical qualification was from a higher education institution outside the United Kingdom, was 630 and 9,362 respectively.

**Mr. Hayes:** To ask the Secretary of State for Health what assessment she has made of the likely impact of Article III-379 of the Treaty establishing a Constitution for Europe on the implementation of a 48-hour week for doctors; and if she will make a statement. [9052]

**Mr. Byrne:** Article III-379 relates to the general powers of the Court of Justice of the European Union. It is not specific to the Working Time Directive. This Article replicates Article 242 of the Treaty of Rome and does not give rise to any new considerations.

### Emergency Contraception

**Mr. Amess:** To ask the Secretary of State for Health how many morning-after pills have been distributed by Oxford Primary Care Trust in each of the last 48 months. [12776]

**Caroline Flint:** The information requested is shown in the table.

*British National Formulary name—Levonorgestrel*

| *Period name* | *Total items* | *Total act cost (£)* |
|---|---|---|
| June 2001 | 132 | 676.61 |
| July 2001 | 70 | 353.85 |
| August 2001 | 75 | 377.95 |
| September 2001 | 92 | 469.83 |
| October 2001 | 213 | 1,072.47 |
| November 2001 | 201 | 979.15 |
| December 2001 | 94 | 450.64 |
| January 2002 | 147 | 705.03 |
| February 2002 | 166 | 795.20 |
| March 2002 | 155 | 785.05 |
| April 2002 | 98 | 479.84 |
| May 2002 | 176 | 884.09 |
| June 2002 | 123 | 579.85 |
| July 2002 | 108 | 558.01 |
| August 2002 | 67 | 367.53 |
| September 2002 | 84 | 439.80 |
